COMPETITION FORMAT AND RULES

ARCHERY

As of 23 JUN 2016

Olympic Competition Format

There are four events in the Archery competition in the Olympic Games: Men's and Women's Individual events and Men's and Women's Team events. The individual and team competitions are separate. All athletes must have qualified at the World Archery Championships and other qualifying tournaments. The Archery competitions are organised in two rounds: the 70m round and the Olympic round.

The 70m round is used to rank the individual athletes and teams for the Olympic round. The Olympic round for individuals allows 64 participants for the women's competition and 64 participants for the men's competition. The Olympic round for men's and women's teams each consist of 12 teams of three athletes from a single NOC.

The Olympic round consists of the team elimination round, team final rounds, the individual elimination rounds and individual final rounds for women and for men.

Each elimination and final round consists of a head-to-head match from which the winner advances to the next round.

A match-play table is prepared for the individual and team elimination rounds, based on the athlete's ranking after the 70m round.

The Men's and Women's Individual competitions consists of elimination rounds (1/32, 1/16, 1/8) and final rounds (quarterfinals, semifinals and finals).

The Men's and Women's Team competitions consists of one elimination round (1/8) and final rounds (quarterfinals, semifinals and finals).

Differences between the World Archery Championships and the Olympic Games

The number of participants in the World Archery Championships is higher. Therefore a qualifying round is shot to determine who enters the elimination round.

There are World Championships in many Archery disciplines which are as follows: Outdoor Target Archery, Indoor Target Archery, Field Archery Ski-Archery and Para-Archery.

Changes since the London 2012 Olympic Games

The scoring system for team events in the Olympic rounds has been changed.

Sport Rules and Procedures

The target face used is the 122cm target face with 10 points. The target face is divided into 10 concentric rings each awarded a score between 1 and 10 with the innermost ring worth 10 points.

In the Individual competition, athletes will shoot 12 ends of 6 arrows to complete the 70m ranking round. For the Olympic round, athletes will shoot a series of matches, each match consisting of the best of five sets of 3 arrows in the elimination and final rounds. In each set an athlete can score a maximum of 30 points. The athlete with the highest score of a set is awarded two set points. In case of a tied score, both athletes are awarded one set point. As soon as an athlete reaches 6 set points he is declared the winner and advances to the next round. The higher placed athlete in the ranking round will decide who shoots first in the first set of each match. The athlete with the lowest set points will shoot first in each following set. If the set points are tied after a set, the athlete who started the match will shoot first in the next set.

In Individual matches, athletes shoot alternately, with 20 seconds per arrow.

In the team competition, the team shoots a series of matches, each match consisting of the best of four sets of 6 arrows (2 arrows per team member) in all rounds. The higher placed team in the ranking round will have the option to choose who shoots first in the first set of each match. After every set, the trailing team shoots first. In each set a team can score a maximum of 60 points. The team with the highest score of a set is awarded two points. In case of a tied score, both teams are awarded one point. As soon as a team reaches five set points it is declared the winner and advances to the next round.

The team has 120 seconds to shoot 6 arrows in alternate shooting format. In alternate shooting, the alternation between the teams will take place after all the team members have shot one arrow. The archers of the team are free to choose who shoots first and can change without restrictions as long as each team member shoots 1 arrow per alternation.

Tie Break Rules

Ranking Round

Tie break for individuals and team (total of three athletes):

- Greatest number of 10's (including inner 10's);
- Greatest number of X's (inner 10's);
- If athletes/teams are still tied, a disk toss will decide the position (computerized disk toss may be used)

Olympic Round

Tie break for individuals:

A single arrow will be shot by each athlete and the athlete with the highest scoring arrow will win. If still tied, the athlete with the arrow closest to the centre will win.

If athletes are still tied the above process will be repeated until the ties are broken.

Tie break for teams:

A single arrow will be shot by each team member. After the first three tie breaking arrows are shot, the team with the highest score will win. If still tied, the team with the single arrow closest to the centre will win. If tied, the second arrow closest to the centre will determine the winner. If tied, the third arrow closest to the centre will determine the winner.

If teams are still tied, the above process will be repeated until the ties are broken.

Final Ranking

Tie break for individual and teams:

The process for ranking the losers with the same score (in the same round) is as follows: the athletes/teams are ranked at the same position and the subsequent place will take into consideration the number of tied athletes/teams. For positions 5 to 8, individuals and teams are ranked first by set points then total arrow score.

Penalties / Disqualification Rules

There are a number of penalties for infractions; the most common ones are:

- If an athlete or team shoots outside the allocated time, they will lose the value of the highest scoring arrow of that set or end (red card)
- Return behind the waiting line in case of incorrect relay in the team event (yellow card)

Protests / Appeals

With the exception of the value of a judged arrow, a participant can appeal against any unfair issue.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

SAMBODROMO FRI 12 AUG 2016 START TIME 14:00

Format	The quarterfinals round in the morning will feature matches of 15 arrows, shot as 5 sets of 3 arrows each, at 70 meters. The athlete with the highest score of that set is awarded 2 set points; in case of a tied score, both athletes are awarded 1 set point. As soon as an athlete reaches 6 set points, he/she is declared the winner and advances to the next round. If a match is tied, a sudden-death shoot-off will follow, with one arrow shot for score. If still tied, the athlete whose arrow is closest to the centre of the target will win. In the afternoon session the semifinal, third place and championship matches will begin at 14:55.

(3) HUISH Justin (USA) - (16) HSIEH Sheng-Feng (TPE)	14:00
<i>Head to head statistics:</i> 3 - 1	
American Justin HUISH emerged as a medal contender on this field at the April Grand Prix tournament, losing in the final to Korea's JANG Jong-Ho. If he gets by 1/8 th round opponent Sheng-Feng HSIEH (TPE), he will face the winner of the Michele FRANGILLI (ITA) - Stanislav ZABRODSKY (UKR) match in quarterfinals.	
(7) MEDVED Samo (SLO) - (12) VERMEIREN Paul (BEL)	14:13
<i>Head to head statistics:</i> -	
The tournament's surprises reside in Group C and D. Slovenia's Samo MEDVED, 36 years old, ousted Finland's Jari LIPPONEN, ranked second world wide, while Belgium's Paul VERMEIREN defeated American Rod WHITE in the 1/16 th Round.	
(1) ANCHONDO Jose (MEX) - (22) TORRES Lionel (FRA)	14:26
<i>Head to head statistics:</i> -	
In Group D, France's Lionel TORRES takes over the mantle as France's top shooter with his victories over 1991 World Champion Simon FAIRWEATHER (AUS) and Japan's Hiroshi YAMAMOTO.	
(6) FRANGILLI Michele (ITA) - (21) ZABRODSKY Stanislav (UKR)	14:39
<i>Head to head statistics:</i> 5 - 0

His opponent is 24, but has already earned the title of World Champion (in 1989) and European Champion in 1990.

SAMBODROMO SUN 7 AUG 2016 START TIME 9:00

Format	<p>In the team competition, the team shoots a series of matches, each match consisting of the best of 4 sets of 6 arrows (2 arrows per team member) in all rounds. After every set, the trailing team shoots first. In each set a team can score a maximum of 60 points. The team with the highest score of that set is awarded 2 points. In case of a tied score, both teams are awarded 1 point. As soon as a team reaches 5 set points (5 of 8 possible) it is declared winner and advances to the next round.</p> <p>The team has 120 seconds to shoot 6 arrows in alternate shooting format. In alternate shooting, the alternation between the teams will take place after all the team members have shot one arrow. The archers of the team are free to choose who shoots first and can change without restrictions as long as each team member shoots 1 arrow per alternation.</p> <p>If a match is tied at the end of 24 arrows, a sudden-death shoot-off will follow, with each team member shooting one arrow for score. The team has one minute to shoot the three arrows, and the team will alternate shots. If still tied, another three arrows are shot for score. In case of another tie a third set of arrows are shot for score. If the tie continues the third set of arrows are then measured for closest distance to the target centre, with the closest judged the winner.</p> <p>The women's 1/8 elimination round will begin at 9:00, quarterfinals at 9:40, and the semifinals and finals will begin at 12:15.</p>

HISTORY ARCHERY

Origin of Archery

Archery first appeared in the Olympic Games in 1900 and was contested again in 1904, 1908 and 1920. In those four Games, it was possible for an athlete to compete in numerous events and win several medals.

Hubert Van Innis (BEL) is the most decorated athlete in Olympic history, winning six gold medals and three silver in 1900 and 1920. Archery was reintroduced to the Olympic programme in 1972 with an individual event for men and women and John Williams and Doreen Wilber of the USA won the gold medals.

Team competition was added to the medal programme in Seoul 1988. Olympic competition now features exciting head to head competition and single elimination. Justin Huish (USA) captured the hearts of millions by winning the gold medal in Atlanta.

Archery Today

The World Archery Federation (WA) was founded on 4 September 1931 at a meeting in Lwow, Poland. Seven founding nations were present: France, Italy, Hungary, Poland, Sweden, the United States and the former Czechoslovakia.

WA's main objective is "to promote and encourage Archery throughout the world in conformity with the Olympic principles." WA has as 140 Member Associations (National Federations). WA supervises the organisation of world championships- held since 1931 - and other international competitions; and promotes Archery through the media and sponsors.

Top Archery countries include:

Asia: Korea, India, China, Japan, Malaysia

Europe: Russia, Italy, Great Britain, France, Turkey, Ukraine, Poland, Sweden

Americas: USA, Mexico, Columbia

Oceania: Australia

Archery at the Olympic Games

Archery was first contested at the Olympic Games in 1900 and was contested again in 1904, 1908, and 1920. Women competed in the 1904 Olympics, making Archery one of the first sports competitions to include women. In those four games it was possible for an athlete to compete in numerous events and win several medals. Hubert van Innis from Belgium is the most decorated Olympic athlete, winning six gold medals and three silvers in 1900 and 1920.

Archery was re-introduced to the Olympic program in 1972 with an individual event for men and for women with the United States' John Williams and Doreen Wilber winning gold. At the Seoul 1988 Olympic Games, the team competition was added to the medal program. At the Barcelona 1992 Olympics Archery featured exciting head-to-head competition and single elimination matches for the first time.

Korea dominated the Rio 2016 Archery competition by winning the team gold medals, three individual medals and setting five Olympic and one world record at the Sambodromo.

Women's Team

- The Korean women won their sixth consecutive Olympic team gold medal on Sunday, 7 August. PARK Sung-Hyun (KOR) lead the way in the Ranking Round, matching the 72-arrow Olympic record with a score of 673 points. PARK Sung-Hyun's teammates, YUN Ok-HEE shot 667 and JOO Hyun-Jung shot 664. The Koreans' combined score of 2,004 broke the 216-arrow Olympic record by 10 points.
- In the team quarterfinals, the Korean women set the 24-arrow Olympic and World record, shooting a score of 231 out of a possible 240 points in their match against Italy. The Koreans easily defeated France in the semifinals, 213-184. Korea went on to beat China handily in the gold medal final, 224-215.

Men's Team

- The Korean men won their third consecutive and fourth overall Olympic team gold medal on Saturday, 6 August. USA athletes confident of medal comeback in Rio

The USA men's Archery team is anxious to get back on the Olympic podium with their most talented team in 12 years. The team missed out on a bronze medal at the Athens 2004 Olympic Games by two points to the Ukraine team. Assistant coach Don RABSKA (USA) said the athletes had worked well together and had a good chance of winning a medal.

"They are shooting well, they are experienced and they have a lot of confidence."

RABSKA said the athletes had come to a mutual decision about the order in which they will shoot.

"They are really supportive of each other. They know their expectations and they can handle adversity. The team has been very cohesive. We have a good rhythm and we are all working together."

There is a 33-year age gap between the eldest and youngest team members.

Butch JOHNSON (USA), 52, is competing in his fifth Olympic Games. He won a team gold medal in the Atlanta 1996 Olympic Games and team bronze in the Sydney 2000 Olympic Games, and was in Athens.

"I will be disappointed if we don't get a medal," JOHNSON said.

Brady ELLISON (USA), 19, won an individual silver medal at the World Cup Stage in Antalya, Turkey, earlier this year despite only competing with the Olympic-style recurve bow for two years. He is also a three-time Junior World Champion with the compound bow.

"He's a young kid with a lot of talent, I expect him to do well," said JOHNSON of ELLISON.

Victor WUNDERLE (USA), 32, who was with JOHNSON in Athens, has had the most individual success in the Olympics, winning the individual silver medal and team bronze medal at the Sydney 2000 Olympic Games.
