Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Archery. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Archery References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, the WA and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of the WA, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the WA, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the WA and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.
The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Archery Working Group.
This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.
It is divided into three chapters:

- Event related requirements
  - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
  - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
  - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
  - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards, Real Time Display System (RTDS), as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the WA should approve the proposed solution.

2.2.6.2 Real Time Display System (RTDS)

Requirements for real time information concerning the start order and/or current results to be displayed on monitors at the venue (supporting the competition and providing sport and media real time information), are defined in this part, including the content and timing of information.

2.2.6.3 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Archery draft document, based on:
  - The last version of the ORIS Archery document of the previous Games
  - International Federation sport rules, competition format and requirements for these Games
  - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Archery meeting, the draft will be made available to the ORIS Archery Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Archery Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Archery document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Archery Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Archery document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

The WA and the Organising Committee will sign-off the ORIS Archery document after all agreed changes have been implemented.

For the WA, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Archery competition and that the procedures as described in the document will be followed.
For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if the WA or the OC requests any change which has an impact on the ORIS Archery document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.
It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Archery document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the WA, media, teams, etc.)
- To prepare required changes to the ORIS Archery document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Archery Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.
It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.
Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by the WA and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).
It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Archery document. The test begins with entry data for athletes and officials, continues with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, records, medals, etc.
- Scoreboards
- RTDS

The WA, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.
All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.
All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the WA and WNPA reports. Those documents are then sent to the OC, the WA, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.
The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games

Questionnaires to document the WA, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Archery document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Archery Working Group.
Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Archery project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the WA, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances…)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Archery Working Group:

- Attends the ORIS meeting to discuss and agree on the Archery results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Archery Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Archery Working Group are:

- **Mr Juan Carlos HOLGADO**, WA Events Director and TD for Rio 2016 OG
- **Mr Chris MARSH**, WA Event Manager and TD for Rio 2016 Paralympic Games
- **Mr Chris WELLS**, WA Communication Manager
- **Mr Matteo PISANI**, WA Results Verifier
- **Mr Luiz Eduardo ALMEIDA**, Rio 2016 Sport Manager for Archery
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Tassos KOUTSOGIANNIS**, Rio 2016 Cluster Venue Results Manager
- **Mr Marco PRONOI**, OMEGA Venue Manager
- **Mr MOON Byongho**, OMEGA Result Manager
- **Ms Oana NEAGU**, Atos IDS Sport Specialist
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Mr Helge STENERSEN**, IOC ORIS Sport Analyst for Archery

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

1 Specifications

- **Events: progression and competition format types**

Event	Event Phase	Progression Type	Competition Format Type
	Men's Ranking round	Seeding	In-line
	Women's Ranking round	Seeding	In-line
Men's Individual	Elimination rounds: • 1/32 Elimination Round, 1/16 Elimination Round, 1/8 Elimination Round	Qualification	Bracket with direct elimination
	Final rounds: • Quarterfinals, Semifinals, Finals (gold medal and bronze medal matches)	Qualification	Bracket with direct elimination and finals
Women's Individual	Elimination rounds: • 1/32 Elimination Round, 1/16 Elimination Round, 1/8 Elimination Round	Qualification	Bracket with direct elimination
	Final rounds: • Quarterfinals, Semifinals, Finals (gold medal and bronze medal matches)	Qualification	Bracket with direct elimination and finals
Men's Team	Elimination round: • 1/8 Elimination Round	Qualification	Bracket with direct elimination
	Final rounds: • Quarterfinals, Semifinals, Finals (gold medal and bronze medal matches)	Qualification	Bracket with direct elimination and finals
Women's Team	Elimination round: • 1/8 Elimination Round	Qualification	Bracket with direct elimination
	Final rounds: • Quarterfinals, Semifinals, Finals (gold medal and bronze medal matches)	Qualification	Bracket with direct elimination and finals

- The events are presented in traditional WA order
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

2 Competition

- **Competition format**

  The individual and team competitions are separate. The Archery competitions are organised in two rounds: The Ranking round (70m round) and the Olympic round.

  The 70m round is used to rank the individual athletes and teams for the Olympic round.

  - Individual
    - The competition consists of two phases: Ranking round and the Olympic round

- The Ranking round takes place first and the results are used to seed the Olympic round. There will be one Ranking round for men and one for women.
- The Olympic round has a direct elimination format. The individuals are placed in the brackets according to their Ranking round results (1st vs 64th, 2nd vs 63rd, etc.). The Olympic round consists of the elimination rounds (1/32nd, 1/16th, 1/8th) and final rounds (quarterfinals, semifinals, finals for bronze medal and gold medal).

  Individual elimination matches are run by a set system. Each match consisting of the best of five sets of 3 arrows per athlete. The athlete with the highest score of a set is awarded two set points. In case of a tied score, both athletes are awarded one set point. As soon as an athlete reaches six set points he/she is declared the winner and advances to the next round.

- Team
  - Teams consist of three athletes from a single NOC
  - The competition consists of two phases: Ranking round and the Olympic round.
  - There is only one Ranking round, for both the Individual events and the team events.
  - The Ranking round takes place first and the results are used to seed the Olympic rounds. The sum of the three team members' individual Ranking round points is used to seed the team in the Olympic round. There will be one Ranking round for men and one for women.
  - The Olympic round has a direct elimination format. The teams are placed in the brackets according to their Ranking Round results (1st vs 16th, 2nd vs 15th, etc.). The Olympic round consists of the elimination round (1/8th) and final rounds (quarterfinals, semifinals, finals for bronze medal and gold medal).
  - Team elimination matches are run by a set system. Each match consists of four sets of 6 arrows per team (2 arrows per team member). The team with the highest score of a set is awarded two points. In case of a tied score, both teams are awarded one point. As soon as a team reaches five set points it is declared the winner and advances to the next round.

- **Tie Break Rules**
  - Ranking round

    Tie break for individuals and team (total of three athletes):

    - Greatest number of 10's (including inner 10's);

    - Greatest number of X's (inner 10's);

    - If athletes/teams are still tied, a disk toss will decide the position (computerized disk toss may be used)

  - Olympic round

    <u>Individuals</u>:

    A single arrow will be shot by each athlete and the athlete with the highest scoring arrow will win. If still tied, the athlete with the arrow closest to the centre will win.

    If athletes are still tied, the above process will be repeated until the ties are broken.

    <u>Teams</u>:

    A single arrow will be shot by each team member. The team with the highest total score will win. If tied, the team with the single closest-to-the-centre arrow will win. If tied, the second (or third) arrow closest to the centre will determine the winner.

    If teams are still tied, the above process will be repeated until the ties are broken.

- **Venue type**
  - Outdoor
  - Single venue
- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Athletes: 64 female / 64 male (there will be either three members or one per gender and NOC)
- Expected number of teams: 12 qualified teams for each gender, teams are made of three athletes from the same NOC

3 Documents

- Olympic Charter in force
- IOC-Rio 2016 Host City Contract
- WA Constitution & Rules Book, March 2014

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Archery events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).
OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management, the WA Secretary General and the Technical Delegates well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once the WA and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Archery competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the output:

- Activity List (C06)

This output will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)
- Entries by Event (C31C)

- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM), in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athletes' and team officials' names.
Information users, in particular the media, are used to seeing names spelt in a certain manner at other WA events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Qualification Standard Check List (C39)

will be produced with all name lengths to be used during the Games and given to the WA for checking and approval.

The WA will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than six (6) hours before the Draw.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

When OVR becomes the owner of the data, the outputs:

- Number of Entries by NOC (C30)
- Entry List by Name (C32B)
- Entries by NOC (C32E) (without coach information)

should be made available according to the ORIS distribution rules.

The ORIS Archery Working Group recommends that WA officials and the OC Competition Management avoid premature public release of these outputs. While teams and media would like to have information as soon as they arrive, providing incomplete or incorrect data is more damaging than postponing its public release.

2.1.2.3 Competition officials

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the WA and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

2.1.2.4 Replacement of an athlete

2.1.2.4.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the

participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the Team Managers' meeting.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

2.1.2.5 WA unique athlete identification

The WA maintains a unique athlete identification (WA ID). The WA ID is currently an integer with three to five digits.

2.2 Pre-Competition Activities

After the WA officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the Team Managers' meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and the WA will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 WA World ranking and records

2.2.2.1 WA World Ranking

Twenty-one (21) days before the date of the Opening Ceremony, the WA will provide the Organising Committee with the current WA world ranking results and standings.

Once the Organising Committee receives this data, OC Technology will enter it into the OC computer system and produce the output:

- WA World Ranking (C26)

If a world ranking event is to be held after data has already been sent from the WA to the Organising Committee, the WA will organise the updates to be sent to the Organising Committee on the last day of that world ranking event.

2.2.2.2 Records

Twenty-one (21) days before the date of the Opening Ceremony, the WA will provide the Organising Committee with the current WA records.

OC Technology will produce the output:

- Records (C24)

using the data received from the WA.

This output will then be sent to the WA Secretary General for verification and approval. The WA Secretary General will immediately send back his/her comments. Any updates to the world records before the start of the Games will be reported to the OC Competition Management immediately. The process of entering and verification of this data should be repeated.

The output "Records" (C24) contains complete information about records.

Some result outputs have a header box in which the appropriate world and Olympic records for that round are listed. The record header box will be updated after a round, if a new record is set.

For the scoreboards, the reference for the record calculation is always the highest record score in that round.

It is important that the process for transferring these data from the official source to the Organising Committee is agreed by the end of September 2014 and that any technology solution planned for such transfer is properly tested, if possible before and during the Test Event. Such transfer mechanisms will also be tested during the Archery Homologation Test.

2.2.3 Draw

At least two (2) hours prior to the draw OC Technology will print the outputs:

- Number of Entries by NOC (C30)
- Entry List by Name (C32B)
- Entries by NOC (C32E) (including coach information)

- Team Officials by NOC (C35C)

and they will be made available to media according to the ORIS distribution rules.

It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Draw. The Draw procedure should be tested at the Test Event.

The draw (the assignment of target numbers to the athletes) will be carried out automatically by the OC computer system. OC Technology will use the draw results to produce the outputs:

- Start List by Target (C51A)
- Start List by NOC (C51B)
- Start List by Team (C51C)

for verification.

The Technical Delegates will check the first copy of the above outputs within thirty (30) minutes of receipt.

After approval by the Technical Delegates, OC Technology will immediately distribute copies to NOCs, OC Competition Management and the WA and simultaneously make this information available in INFO and WNPA.

At the same time OC Technology will produce the output:

- Score Card (Ranking Round) (C65A)

and make it available for distribution according to the ORIS distribution rules.

On the day of the draw:

At 18:00: The draw will be held

On the day after the draw:

At 9.00: The Team Managers' meeting will be held

The OC Competition Management will produce all score cards in consultation with the WA.

2.3 Results Processing

2.3.1 Results processing for the ranking round (men/women - individual/team)

After each end of six (6) arrows, the scores are entered simultaneously onto the double score sheets at the targets by the athletes.

The arrow values are totalled and the progressive score entered onto the score sheet by the athlete.

The cumulative score after each end will be indicated and entered by the athletes.

Any alteration to the value of an arrow could be done by the athlete following the WA rules, or by a judge.

The scorecards are returned to the scoring tent after each end of six (6) arrows. In order to check the scores after every end a computer should be installed in the scoring tent to verify scorecards against data coming from the PDAs.

During the scoring of each end:

1. The addition of the six (6) arrows will be checked on each score sheet. If the total is incorrect, the Judge for that target will correct the total and the incident will be recorded in the incident file.
2. The six (6) (end) arrows for each athlete are checked against the scoring device. If the arrow values differ, a WA Judge will be asked to initial an incident file. The athlete will be informed at the next scoring end. If this occurs in the last end of the first or second half of the ranking round, the WA Judge will be informed as soon as practicable.

The WA requires that the OC provides the current results after each end for the athletes and team officials.

After every six (6) arrows, OC Technology will update the outputs:

- Intermediate Results (Individual - Ranking Round) (C70A)
- Intermediate Results (Team - Ranking Round) (C70B)

in INFO.

After the first half (36 arrows), OC Technology will produce the outputs:

- Intermediate Results (Individual - Ranking Round) (C70A)
- Intermediate Results (Team - Ranking Round) (C70B)

which will be distributed according to the ORIS distribution rules.

After the first half (36 arrows) and at the end of the ranking round (72 arrows) the score, 10's and inner 10's totalled on the score sheets will be cross-checked, using the output:

- Checklist (C66)

Any discrepancies will require the procedure to be reworked.

The WA Results Verifier will verify and approve the outputs. The outputs for each half of the ranking round will then be produced and distributed according to the ORIS distribution rules.

At the end of the ranking round (72 arrows) the verification process will be repeated. If no protest has been lodged within the five (5) minute time frame allowed, the verified outputs:

- Results (Individual - Ranking Round) (C73A)
- Brackets (Individual) (C75A)
- Results (Team - Ranking Round (C73B)
- Brackets (Team) (C75C)
- Records Broken (C81)

can be produced and distributed according to the ORIS distribution rules.

At the same time OC Technology will produce the outputs (for the 1/32 and 1/8 Elimination Round, respectively):

- Score Card (Individual) (C65B)
- Score Card (Team) (C65C)

and make them available according to the ORIS distribution rules.

OC Technology will print for verification the output:

- Detailed Daily Competition Schedule (C58) (only for the 1/32 individual elimination round and 1/8 team elimination round with names)

no later than two (2) hours after the ranking round. The WA Results Verifier should check and approve the output "Detailed Daily Competition Schedule" (C58) for the 1/32 individual elimination round and 1/8 team elimination round. After approval, OC Technology will distribute the output according to the ORIS distribution rules.

In case of an unbreakable tie at the end of the ranking round, the tie will be broken according to the WA rules for tie breaking. (e.g. "electronic disk toss", etc.)

2.3.2 Results processing for the team event - elimination and final rounds (men/women)

2.3.2.1 During a match

After each arrow, the score is entered simultaneously on the score sheets and input into the terminals (location to be defined). The arrow value is then transmitted to the target scoreboard, and made available in the control room for the presentation on the public scoreboards. Should there be any doubt as to the value of an arrow, e.g. cutting a dividing line between scoring zones, then the arrow will be recorded at the lower value and an asterisk (*) placed against that value on the terminal.

Each arrow value is "single scored" by the Scoring Judge and verified at the targets by the WA Target Judges.

Any alterations to the arrow value are applied to the score sheet before the arrows are withdrawn from the target. After each set (6 arrows - 2 per team member), the athlete's agent verifies that the arrow values have been recorded correctly onto the score sheet.

Score cards are returned to the scoring tents after each match.

The "Score Card (Team)" (C65C) must be printed on waterproof paper. Blank score cards are produced before each phase. Note that if matches for two rounds are mixed, score cards will have to be produced during competition. OC CM together with OC Technology must organize this in such a way that the officials receive the score sheets in a timely manner.

After each match, no later than one (1) minute after the last arrow, the output:

- Match Results (Team) (C73D)

will be printed for verification by the WA Results Verifier. After approval, within the following two (2) minutes, the output will be distributed according to the ORIS distribution rules.

Note: If the arrow values between the score sheet and the output "Match Results" (C73D) differ, a WA Judge will be asked to initial an incident file. The value of the arrow as written on the score sheet and verified by the WA Target Judge will be accepted as the score for that athlete.

Should an arrow value in the scoring system be altered then a revised version of the output:

- Match Results (Team) (C73D)

will be produced and the verification procedure will be repeated. At this stage the Team Manager will be informed as soon as practicable.

After approval, the output will be distributed according to the ORIS distribution rules.

2.3.2.2 During a session

After the match results have been approved, the output:

- Brackets (Team) (C75C)

will be available in INFO.

The same output will be printed and distributed according to the ORIS distribution rules after the end of a round or session (whichever finishes first).

2.3.2.3 After the last match of each round

OC Technology will produce the output (for the next round):

- Score Card (Team) (C65C)

and make it available according to the ORIS distribution rules.

After the end of a round or session (whichever finishes first), the output:

- Detailed Daily Competition Schedule (C58) (for the following round with names)

will be distributed according to the ORIS distribution rules.

2.3.2.4 Before the final

No later than sixty (60) minutes before the final the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.2.5 After the final

After the end of the final the outputs:

- Medallists (Team) (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)
- Archery Medal Standings (C97)

will be printed and distributed according to the ORIS distribution rules.

The WA will not take responsibility for any delays in the time schedule for producing and verifying results which are due to technical problems or breakdowns.

2.3.2.5.1 Final classification

After approval of the results of the last final match, the output:

- Final Ranking (Team) (C76B)

will be produced for verification and approval. After approval it will be distributed according to the ORIS distribution rules.
A complete final ranking list of all teams who competed in an event is required by the Press Agencies. A complete ranking list may also be required to award the eighth Diploma in case of a possible disqualification among the first eight ranked teams.
Please see Appendix - C Rules for Data Formats and Presentation, topic "Final classification" for a full description of the ranking method.

2.3.3 Results processing for the individual event - elimination and final rounds (men/women)

2.3.3.1 During a match

After each arrow, the score is entered simultaneously on the score sheets and input into the terminals (location to be defined). The arrow value is then transmitted to the target scoreboard, and made available in the control room for presentation on the public scoreboards. Should there be any doubt as to the value of an arrow, e.g. cutting a dividing line between scoring zones, then the arrow will be recorded at the lower value and an asterisk (*) placed against that value on the terminal.

Each arrow value is "single scored" by the Scoring Judge and verified at the targets by WA Target Judges.

Any alterations to the arrow value are applied to the score sheet before the arrows are withdrawn from the target. After each set (3 arrows), the athlete's agent verifies that the arrow values have been recorded correctly onto the score sheet.

Score cards are returned to the scoring tents after each match.

The "Score Card (Individual)" (C65B) must be printed on waterproof paper. Blank score cards are produced before each phase. Note that if matches for two rounds are mixed, score cards will have to be produced during competition. OC CM together with OC Technology must organize this in such a way that the officials receive the score sheets in a timely manner.

After each match, no later than one (1) minute after the last arrow, the output:

- Match Results (Individual) (C73C)

will be printed for verification by the WA Results Verifier. After approval, within the following two (2) minutes, the output will be distributed according to the ORIS distribution rules.

Note: If the arrow values between the score sheet and the output "Match Results" (C73C) differ, a WA Judge will be asked to initial an incident file. The value of the arrow as written on the score sheet and verified by the WA Target Judge will be accepted as the score for that athlete.

Should an arrow value in the scoring system be altered, then a revised version of the output:

- Match Results (Individual) (C73C)

will be produced and the verification procedure will be repeated. At this stage the Team Manager will be informed as soon as practicable.

After approval, the output will be distributed according to the ORIS distribution rules.

2.3.3.2 During a session

After the match results have been approved, the output:

- Brackets (Individual - Elimination Rounds) (C75A) (during elimination rounds)

or

- Brackets (Individual - Final Rounds) (C75B) (during final rounds)

will be available in INFO.

The same output will be printed and distributed according to the ORIS distribution rules after the end of a round or session (whichever finishes first).

2.3.3.3 After the last match of each round

OC Technology will produce the output (for the next round):

- Score Card (Individual) (C65B)

and make it available according to the ORIS distribution rules.

After the end of the round or session (whichever finishes first), the outputs:

- Results Summary Arrow by Arrow (Individual) (C74C)
- Detailed Daily Competition Schedule (C58) (only for the following round with names)

will be distributed according to the ORIS distribution rules.

2.3.3.4 Before the final

No later than sixty (60) minutes before the final the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.3.5 After the final

After the end of the final rounds the outputs:

- Medallists (Individual) (C92A)
- Medallists by Event (C93)
- Medal Standings (C95)
- Archery Medal Standings (C97)

will be printed and distributed according to the ORIS distribution rules.

The WA will not take responsibility for any delays in the time schedule for producing and verifying results which are due to technical problems or breakdowns.

2.3.3.5.1 Final classification

After approval of the results of the last final match, the output:

- Final Ranking (Individual) (C76A)

will be produced for verification and approval. After approval it will be distributed according to the ORIS distribution rules.
A complete final ranking list of all athletes who competed in an event is required by the Press Agencies. A complete ranking list may also be required to award the eighth Diploma in case of a possible disqualification among the first eight ranked athletes.
Please see Appendix - C Rules for Data Formats and Presentation, topic "Final classification" for a full description of the ranking method.

Note: The responsibility for the final checking of results will be assigned to the authorised WA Results Verifier. During that time period official results should be already copied (at the risk of organiser), and should be immediately distributed when released as approved by the authorised person. Should a mistake in unofficial results be detected or a protest submitted copies should be destroyed. This may be in 1 or 2% of cases, and so in all other cases (98-99%), five (5) to ten (10) minutes will be gained.

If there are no protest announcements within the agreed time scale (five (5) minutes) the authorised WA Results Verifier will authorise OC Technology to produce and distribute the official outputs "Final Ranking (Individual)" (C76A), "Final Ranking (Team)" (C76B), "Medallists by Event" (C93), "Medal Standings" (C95) and "Records Broken" (C81).

If there are protest announcements, the official outputs "Final Ranking (Individual)" (C76A), "Final Ranking (Team)" (C76B) and associated output production will be postponed until the Jury has made a decision, but will remain available as unofficial outputs in INFO.

2.4 Common Sport Functions

2.4.1 Official Communications

The Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the WA Technical Delegate or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or athlete/team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the WA Technical Delegate or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the WA, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.4.3 Records

Every time a new record is set during the Olympic Games, the output:

- Records Broken (C81)

should be automatically produced and distributed immediately according to the ORIS distribution rules.

The output:

- Records (C24)

should be updated at the end of the Olympic Games before being included in the Results Book.

If more than one athlete/team sets a new record with the same score in the ranking round all athletes/teams should be indicated as record holders.

2.4.4 Weather

Weather information that includes weather conditions for the current day and the forecast for the next two (2) days must be provided beginning three (3) days prior to the competition until the last day of competition. This information is specifically about weather at the Archery venue.

The output:

- Weather (C49)

is updated in INFO after each update has been received from the meteorological services.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

The following schedule status options are applicable to an event or event unit (session):

2.5.1.1 Delayed

A delay may occur if a session does not start as scheduled, but should start within the current ticketing session.
The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.2 Postponed

A session did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.
If an interrupted session cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A session may be subject to an unplanned interruption after it has started.
The time of resumption is unknown. If the session be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.
The results of completed matches will be carried forward to the new date and start time. Uncompleted matches may or may not be restarted from the beginning.

2.5.1.4 Rescheduled

A session may be rescheduled if it cannot be held at the originally scheduled start date/time.
The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.
In the case of rescheduling, all matches will be completed later based upon agreement between TV (if present), the WA and the OC. This should be treated as a separate session to be inserted at a later time (before the next morning's session or before the next evening's session, etc …). Software should be flexible enough to handle such an incident.

2.5.1.5 Cancelled

A session which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the WA will decide what effect the situation would have on the competition and what actions should be taken.

If one or more event(s) is cancelled, all affected outputs (e.g. medal outputs, results summary, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added.

2.5.2 Disqualifications

2.5.2.1 Disqualification from a match

If an athlete is disqualified during the Archery competition due to sports matters, the following actions will take place:

- If an athlete is disqualified during the ranking round he will be shown with "DSQ" as the results score, will be ranked at the bottom of the individual event and will qualify to the individual elimination round. If the athlete is a member of a team he will contribute zero (0) points to the team and will be allowed to continue to compete with team.
- If an athlete is disqualified during a team match of the elimination/final rounds he will contribute zero (0) points to the team. The team will lose the match with the disqualification, however the set scores of the finished sets will be retained. He will be eligible for a medal if the team is awarded a medal.
- If an athlete is disqualified during an individual match of the elimination/final rounds he will lose the match, be marked as "DSQ" (the set scores of the DSQ athlete for any finished sets will be removed) and will be awarded the last place of that round (e.g. disqualified in the 1/32 elimination he will receive a rank that corresponds to the number of participants in the elimination round; disqualified in 1/8 elimination will be ranked 16th; disqualified in the semifinal will qualify to the bronze medal match; disqualified in the bronze medal match will be ranked 4th; disqualified in the gold medal match will win the silver medal).

2.5.2.2 Disqualification from the tournament for unsportsmanlike behaviour

If an athlete is disqualified during the Archery competition due to unsportsmanlike behaviour, his/her ranking will be annulled and the results recalculated.

If the disqualified athlete is a member of a team, the team will be disqualified as well. The team results will be annulled and the results recalculated.

In addition to the specifics described above, the output:

- Official Communication (C67)

must be produced and released to give a timely and easily understandable explanation of the reasons for disqualification and what action has been taken. The output "Official Communication" (C67) must be issued before any action on the other outputs is taken. If an athlete and/or a team are disqualified due to sports matters, the OC Technology results system must accomplish the following:

2.5.2.2.1 Disqualification takes place during or after the ranking round

If disqualification of an athlete and/or team takes place during the ranking round but before the first match of the elimination round (team or individual) the following actions should be taken:

1. In the outputs "Results (Individual)" (C73A) and "Results (Team)" (C73B) the disqualified athlete or team will receive DSQ as their result and will be listed at the bottom with no rank, a note must explain the reason for disqualification.
2. The outputs "Brackets (Individual)" (C75A) and "Brackets (Team)" (C75C) will be reissued as revisions, based on the new ranking round results, with a note explaining the reason for the revision. If the DSQ is issued twelve (12) hours or more before the start of the elimination round, there will be new brackets. If the DSQ is issued less than twelve (12) hours before the start of the elimination round, there will be no changes to the brackets. The athlete/team that was supposed to compete against the DSQ athlete/team will be awarded a BYE.
3. The output "Detailed Daily Competition Schedule" (C58) will be reissued as a revision, based on the new ranking round results, with a note explaining the reason for the revision.

2.5.2.2.2 Disqualification takes place during or after elimination or final rounds

If a disqualification of an athlete or a team takes place during or after the elimination or final rounds (disqualified athlete or team has already contested a match), the following actions should be taken:

1. In the output "Match Results (Individual)" (C73C) or "Match Results (Team)" (C73D) a DSQ mark will be added to the result.
2. In the output "Final Ranking (Individual)" (C76A) or "Final Ranking (Team)" (C76B) the disqualified athlete or team will be marked as DSQ and will be listed at the bottom of the results with no rank.
3. If an athlete is disqualified during or after the elimination or final rounds, the results of the last individual match or team match will be updated as a loss with DSQ and a "DSQ" mark will be added (keeping the achieved results) to all remaining individual or team matches on the outputs:

"Brackets (Individual - Elimination Rounds)" (C75A) and/or "Brackets (Individual - Final Rounds)" (C75B) and "Brackets (Team)" (C75C).

In all the above cases, the relevant outputs will be reissued as revisions with a note explaining the reason for the revision, verified by the WA Results Verifier and distributed according to the ORIS distribution rules.

Disqualification of both athletes/teams during the actual match will cause the match to be abandoned. If applicable there will be a bye for the next match.

If an athlete who won the gold or silver medal is disqualified, the athletes from the bronze medal match will move up (and will be awarded silver and bronze medals respectively).

If there are two disqualifications after the quarterfinals, there will be no bronze medal. Since there was no bronze medal match, the rank of athletes placed fifth and higher will remain unchanged.

Should an athlete be disqualified due to non-sports matters such as doping or marketing infringements, based on a decision from the IOC, all results achieved by the athlete during the Olympic Games will be adjusted according to the requirements described as follows:

All results outputs, as well as any medals outputs, of previous events he competed in, should be reissued. If an athlete and/or a team are disqualified due to sports matters the OC Technology results system must accomplish the following:

1. In the output "Results (Individual)" (C73A) or "Results (Team)" (C73B) a note must explain the reason for disqualification.
2. In the output "Match Results (Individual)" (C73C) or "Match Results (Team)" (C73D) a DSQ mark will be added to the result with a note explaining the reason for the disqualification for each of the contested matches. Outputs for all played matches must be reissued as revisions.
3. In the output "Final Ranking (Individual)" (C76A) or "Final Ranking (Team)" (C76B) the disqualified athlete or team will be marked as DSQ and will be listed at the bottom of the phase where they were disqualified with no rank with a note explaining the reason for the disqualification.
4. If an athlete is disqualified during or after the elimination or final rounds, the results of the last individual match or team match will be updated as a loss with DSQ and a "DSQ" mark will be added (keeping the results achieved) to all remaining individual or team matches on the outputs: "Brackets (Individual - Elimination Rounds)" (C75A) and/or "Brackets (Individual - Final Rounds)" (C75B) and "Brackets (Team)" (C75C).

2.5.2.3 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the Technical Delegate before distribution.

2.5.2.4 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, the WA will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the WA. The WA is responsible for providing the updated results to the IOC.

2.5.3 Communication in case of disqualification by the IOC Disciplinary Commission

If an athlete or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The athlete/team, the athlete's/team's NOC, the WA, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The WA Technical Delegate or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D of this document (Subtitle: E, Summary: 8, Issued by: I, Further information: iv).

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the WA Technical Delegate or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the WA Technical Delegate or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Archery competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the WA Technical Delegate during those periods before or after the Games may require that a designated person be available to cover this responsibility.

2.5.4 Protest submission process

Notice of intent to protest should be advised by the plaintiff to the Chairman of Judges within five (5) minutes of the incident, or within five (5) minutes of the end of the ranking round or match, with the written protest to follow as soon as possible.

The protest to the Jury of Appeal must be made in writing by the plaintiff in English, on the appropriate WA Jury of Appeal form, which will then be handed to the Chairman of Judges and must be accompanied by the appropriate fee.

The submission of the protest should be made before the next phase of the competition, or within fifteen (15) minutes of the end of the relevant round, whichever comes first.

The protest will be passed from the Chairman of Judges to the Chairman of the Jury of Appeal who would have already assembled the two other members of the jury, and if required an alternate member, in the event of a jury member having a conflict of interest.

The WA Technical Delegate will be advised of the notice of intent, and the formal submission of the protest being lodged with the Jury of Appeal, and will inform the OC Competition Manager and arrange for a suitable announcement to be issued by the WA Press Officer.

As soon as the appeal is filed, the WA Technical Delegate will inform the relevant Team Managers that an appeal has been made and describing the nature of the appeal. The WA Press Officer in liaison with the OC Competition Manager will prepare the preliminary output process in readiness for a decision from the Jury of Appeal.

2.5.4.1 Chain of responsibility

The Chairman of Judges advises:

1. The WA Technical Delegates
2. The Chairman of the Jury of Appeal

and then the WA Technical Delegates will advise:

1. The OC Competition Manager - Results Manager at the venue, venue announcer and Team Managers of the relevant athletes affected by any subsequent delay in the competition schedule or results approval
2. The WA Press Officer/Venue Press Officer - to prepare Official Communication and News items. The minimum information relating to the protest to be issued is as follows:

i. Submitted by:

ii. Match involved:

iii. Alleged violation:

The OC Competition Manager in liaison with the WA Press Office prepares the production of the announcement of the protest being lodged, and begins preparation of the output:

- Official Communication (C67)

2.5.4.2 Jury of Appeal decision/announcement

The Chairman of the Jury of Appeal should inform the Chairman of Judges of the jury's decision within five (5) minutes after the decision has been made, and then the WA Technical Delegate and the WA Press Officer.

The WA Technical Delegates will assist the WA Press Officer in completing the text of the Jury of Appeal's decision. Then the OC Technology results team will enter it into the OC computer system in the results room and print a copy of it within five (5) minutes.

After the WA Technical Delegate has authorised the copy, it will be distributed immediately.

The WA Press Officer, in conjunction with the Venue Press Officer will inform the media about any pending protest and subsequent delays in the official results distribution, with a message which has to be displayed on the scoreboard (if any), and in press sub-centres close to the pigeonholes where journalists will look for official results.

Other remote users should be informed regarding pending protests through INFO and by the output:

- Official Communication (C67)

within the following ten (10) minutes. If possible, such messages should contain data on who announced the protest, why, and against whom.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant WA and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
  - Entry List by Name (C32B)
  - Entries by NOC (C32E)
  - Detailed Daily Competition Schedule (C58)
  - Brackets (Individual - Elimination Rounds) (C75A)
  - Brackets (Individual - Final Rounds) (C75B)
  - Brackets (Team) (C75C)
  - Medallists by Event (C93)
  - Medal Standings (C95)
  - Archery Medal Standings (C97)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

  For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:
  - If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
  - If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Archery cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- Medallists by Event (C93)
- Medal Standings (C95)
- Number of Entries by NOC (C30)
- Entries by NOC (C32E) (men followed by women)

For each of the events (in traditional WA order):

- Individual
  - Medallists (Individual) (C92A)
  - Final Ranking (Individual) (C76A)
  - Brackets (Individual - Final Rounds) (C75B)
  - Brackets (Individual - Elimination Rounds) (C75A)
  - Results (Individual - Ranking Round) (C73A)
  - Results Summary Arrow by Arrow (Individual) (C74C) [for all rounds]
- Team

    - Medallists (Teams) (C92B)
    - Final Ranking (Team) (C76B)
    - Brackets (Team) (C75C)
    - Results (Team - Ranking Round) (C73B)
- Records (C24) [updated with the records achieved during the Games]
- Official Communication (C67) - in chronological order
- Sport Communication (C68) - selected by WA

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Archery competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The WA
- All NOCs
- Accredited media

3 News Service and Background Information

Data for all Biographies, Historical Results and Records will be supplied by the IOC to the OC.
The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.
The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

The WA agrees to supply all available data, in accordance with a schedule and conditions agreed between the parties.

The WA cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the WA and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the WA and the third party provider. Schedules may be different depending on the type of data.

The WA wishes to validate part or all of the final data delivered by the provider. In that case, the WA and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live. In all cases, records will be validated by the WA.

The provider will update data after final delivery as required (corrections, information updates, new records, etc.).
The IOC will act as a facilitator between the WA, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the WA and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)
- All Time and Current Season Best Performers (N17B)

3.1.1 Head to Head

The output:

- Head to Head (Team) (N62B)

will be produced with the information of the head to head results of the participating teams in previous WA competitions.

The output "Head to Head (Team)" (N62B) will be produced before the Olympic Games.

The data for the output "Head to Head (Individual)" (N62A) will be provided by the WA. The data will have the head to head results of the participating athletes in previous WA competitions. This information will be stored for later preparation of the N62A output.

The OC is fully responsible for organising the collection of the above mentioned data. This can be done by their own research team, or by subcontracting all or part of the process.

The IOC and the WA are ready to assist the OC in the following way:

- Two and a half (2.5) years before the Games, the IOC will provide the OC and the WA with the historical data available in the London 2012 INFO system and with historical data available in the IOC databases at that time
- The WA will provide the OC with the data from the WA database and publications, together with an explanation of the database structure. Dates and the method of data transfer will be agreed by the end of September 2014. The WA cannot guarantee that all required data will be included in the database

If the collection of historical data is subcontracted to a third party, both the IOC and the WA will assist the OC only under the condition that, in their contract with the third party, the OC stipulates that data provided by the IOC and the WA will not be used by the third party for any other activity.

No later than three (3) months before the Games, the OC will send the above mentioned outputs to the WA for checking and corrections.

No later than two (2) months before the Games, the WA will send their corrections and suggestions to the OC.

Within three (3) months after the completion of the Olympic Games, OC Technology will transfer the latest updated version of this data to the IOC.

Within three (3) months after receiving the data, the IOC will make it available to the WA.

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- N22 - Team Profile
- NOC Profile (N24)

3.3 Records

Records will be delivered by the provider. Each successive delivery shall completely override the previous delivery until the final pre-Games delivery is made.

No later than four (4) weeks before the Games, the provider will provide the OC Competition Management and the WA with the pre-Games delivery of data on world and Olympic records.

A final delivery will be made a few days before the first Archery competition (date to be agreed between OC Technology and the provider). From that moment, updates will be made by OC Technology, if required.

OC Technology will use this data to produce the output:

- Records (C24)

for approval by the WA. Once approved, this output will be distributed according to the ORIS distribution rules.

3.4 Facts and Figures

3.4.1 Archery Background Information

Data for the Archery background information will be developed by ONS, in cooperation with the OC Competition Management and the WA Press Officer well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)

- Facts and Figures - WA - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the WA Press Officer will immediately inform ONS who will update the information within one (1) working day.

3.4.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the WA Press Officer well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the WA Press Officer for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the WA Press Officer will update the information within one (1) working day.

3.5 News

There are potentially many different types of information produced under the category of "News".
News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.5.1 Pre-competition News

3.5.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Archery Working Group recommends that ONS at the Archery venue produces the output:

- Sport Preview (N89)

and every evening for the following day, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.5.1.2 Extended start list

Sixty (60) minutes before the quarterfinals, the outputs:

- Extended Start List (Individual) (N59A)
- Extended Start List (Team) (N59B)

will be produced showing results of the matches between the athletes/teams in previous WA competitions (match play events) for both individuals and team events, for quarterfinals only.

Additional story line will be available in athlete biographies.

The output:

- Head to Head (Individual) (N62A)

will be produced with the information of their head to head results in previous WA competitions. The output "Head to Head (Individual)" (N62A) will be produced for every round with data provided by the WA.

3.5.2 News During and After Competition

Media covering Archery events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.5.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken. A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.5.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.5.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Daily Review (N89)
- Sport Review (N89)

3.6 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

REVISED
12 FEB 12:45

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

Output body

Content information:
The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:
All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

Note:

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M Mandatory

Ma Mandatory - if applicable

Mc Mandatory - required under conditions which are explained in the column for comments

D Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da Desirable, but only if such data is available

Dc Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

START LIST
ALPINE SKIING
LADIES' GIANT SLALOM
RUN 1
ROSA KHUTOR THU 20 FEB 2014 Start Time 10:00

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	**Output title (H1)**	M	Text
2	**Sport discipline (H2)**	M	Text
3	**Event/Gender (H3)**	M	Standard FIS event name
4	**Phase & event unit (H4)**	Mc	Text - "Run 1" or "N Training" (N="1st, 2nd, 3rd", etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	**Venue - date - start time - end time (H5)**	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	**As of date (H6)**	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		
TD FIS	KROGOLL Peter	GER
Referee	SKAARDAL Atle	FIS
Chief of Race	HOLLIDAY Bruce	CAN
Start Referee	KLAMMER Herbert	ITA
Finish Referee	PALOVICOVA Jana	SVK

Technical Data	
Course Name	Franz's GS
Start Altitude	1177m
Finish Altitude	805m
Vertical Drop	372m
Homologation Number	8654/11/07

The corresponding data matrix levels are:

7 (n)	**For each jury member**	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	**Technical data**	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	**HOELZL Kathrin**	1984	GER	
2	205218	**REBENSBURG Viktoria**	1989	GER	
3	185140	**POUTIAINEN Tanja**	1980	FIN	
4	55838	**ZETTEL Kathrin**	1986	AUT	

The corresponding data matrix levels are:

10	**Number of competitors**	M	Numeric
11	**Number of NOCs**	M	Numeric
12 (n)	**For each competitor**	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:
FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.

Legend:

DH	Downhill	**GS**	Giant Slalom	**SC**	Super Combined	**SG**	Super-G
SL	Slalom	**WCSL**	Overall points	**YB**	Year of Birth		

The corresponding data matrix levels are:

8	**Note with static text**	M	Text
9 (n)	**Note for each predefined text**	--	
9.1	Predefined text	--	NOT APPLICABLE
10 (n)	**Legend**	--	
10.1	Abbreviation	Mc	Code
10.2	Description of abbreviation	Mc	Text
11	**Free text**	Ma	Text

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

  The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

  For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

This page intentionally left blank.

ACTIVITY LIST

C26 - WA World Ranking

Description	List of athletes and teams sorted by WA world ranking, listed by gender
Source	WA
Sort by	1 - Event name 2 - Rank 3 - Family name (or NOC) 4 - Given name (individuals only)
Page break	Not controlled with repeated output headings and column headings
Notes	Note with static text: None
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: = - Equal sign indicates that two or more athletes or NOCs share the same previous rank by points WA - World Archery To be displayed at the bottom of the last page.
IRM rules	None
Comments	Individual ranking should include the top 40 athletes plus all athletes participating at these Games. Team ranking should include the top 20 teams plus all teams participating at these Games. Insert a blank line after the top 40 athletes/20 teams.

Date: _____ Time: _____ Signature: _____.

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.
Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

Note:
Truncated names are indicated with an * and must be checked carefully.

C38 - Entry Data Checklist

Description	Detailed list of all athletes and team officials. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Function (athlete, team manager, coach, assistant coach, doctor and physiotherapist) 3 - Gender (female first) 4 - Family name 5 - Given name
Page break	Break at "Condition = NOC code" with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" with repeated output headings and column headings.
Notes	Note with static text: See sample
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the WA/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. Only list those team officials who appear on at least one output or in an interface message. The layout of this output may be either in portrait or landscape, as required.

C58 - Detailed Daily Competition Schedule

Description	Detailed competition schedule containing match schedule with participants listed
Source	WA and OC Competition Management
Sort by	1 - Date 2 - Start time 3.- Match number
Page break	Break at "Group = Start time" with repeated output headings and column headings. Contents of date cell(s) which is (are) broken by a page break should be repeated on the next page.
Notes	Note with static text: See sample
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: L n - Loser Match n No. - Number RR - Ranking Round W n - Winner Match n To be displayed at the bottom of the last page.
IRM rules	None
Comments	Match number should be sequential from 1 to N (not starting from 1 for each event) There are 6 samples: 1. Before Ranking Round (Individual) 2. After Ranking Round completed (Individual) 3. Before 1/16 Elimination Round completed (Individual) 4. After 1/16 Elimination Round completed (Individual) 5. Before Ranking Round (Team) 6. After Semifinals (Team)

Level	Data Item	M/D	Comments

OFFICIAL COMMUNICATION
ARCHERY
WOMEN
RANKING ROUND

Item: 35

Schedule change

The Women's Ranking Round has been rescheduled

Summary:
Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

Details:
Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Archery Women's Ranking Round has been rescheduled to 9:00 tomorrow.

Issued by:	WA Technical Delegate	This decision affects:	Results	
Time:	11:00		Schedule	X
Date:	5 AUG 2016		Other	

Note:
For more details contact the WA Office

C67 - Official Communication

Item: 35

IOC Rule 50 (Reminder)

Manufacturer identification on clothing and equipment

Summary:
The National clothing must fully comply with IOC rule 50, in all aspects.
This applies to all competition at the Rio 2016 Olympic Games.

Details:
All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the WA Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.
Pursuant to the Olympic Charter, the WA assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states**: *One Identification per accessory item will be permitted, to a maximum.*

Issued by: WA Technical Delegate
Time: 21:10
Date: 1 AUG 2016

C70A - Intermediate Results (Individual - Ranking Round)

Description	Intermediate ranking round results for individuals
Source	OC Technology
Sort by	1 - Rank 2 - Family name 3 - Given name
Page break	Not controlled with repeated output headings and column headings
Notes	Note with static text: None
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: DNS - Did Not Start DSQ - Disqualified No. - Number NR - Not Ranked OR - Olympic Record T - Tied. Ties are broken with 10's, then with inner 10's (X's) WA - World Archery WR - World Record To be displayed at the bottom of the last page.
IRM rules	See Appendix C - Rules for Data formats and presentation
Comments	Updated after every 6 arrows. For a DSQ athlete in the ranking round: All data is shown, except show "DSQ" in the "Score" column. For a DSQ athlete due to doping: No rank is shown, but athlete number, athlete's name, NOC code WA World Ranking and DSQ in the "Score" column There are three samples: 1. Sample 1: after 30 arrows 2. Sample 2: after 1st half 3. Sample 3: after 2nd half with DNS, DSQ from the round and from the tournament

C73A - Results (Individual - Ranking Round)

Description	Ranking round results for individuals
Source	OC Technology
Sort by	1 - Rank 2 - Family name 3 - Given name
Page break	Not controlled with repeated output headings and column headings
Notes	Note with static text: None
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: DNS - Did Not Start DSQ - Disqualified DT - Disk toss used to break the tie No. - Number NR - Not Ranked OR - Olympic Record WA - World Archery WR - World Record To be displayed at the bottom of the last page.
IRM rules	See Appendix C - Rules for Data formats and presentation
Comments	Athlete numbers for the next rounds will be assigned after the ranking round. They will correspond to the rank of each athlete in the ranking round. For a DSQ athlete in the ranking round: All data is shown, except show "DSQ" in the "Score" column. For a DSQ athlete due to doping: No rank is shown, but athlete number, athlete's name, NOC code WA World Ranking and DSQ in the "Score" column

C75A - Brackets (Individual - Elimination Rounds)

Description	Bracket for individuals - elimination rounds
Source	OC Technology
Sort by	1 - Start order
Page break	Break at "Group = Match number" with repeated output headings and column headings. This is a 2 page output - first 16 matches on page 1, following matches on page 2.
Notes	Note with static text: See sample
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: * - Closest to Centre Ath. No. - Athlete Number DNS - Did Not Start DSQ - Disqualified RR - Ranking Round Ta - Tie break arrow To be displayed at the bottom of the last page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	In the INFO system each bracket will be split into logical parts that fit onto the screen. Navigation to a particular part should be established by clicking on the special icon that will appear on the screen when the user asks for this output. This icon should look like a small bracket showing the parts into which that bracket is split. Please note that the software should be able to handle slow verification of results. If verification is late and the next group has started, only results of the finished matches should be presented (don't include matches in progress). Match number, date and time are displayed in the bracket until the match result is known. The winner of a match should be presented in bold font (including bye matches in the start bracket). There are 4 samples: 1. Initial bracket - after Ranking Round 2. Bracket after 1/32 Elimination Round 3. Bracket after 1/16 Elimination Round with DSQ 4. Bracket after 1/8 Elimination Round with DSQ from the tournament

Level	Data Item	M/D	Comments
1	**Output title (H1)**	M	Text
2	**Sport discipline (H2)**	M	Text

STEVENS Juan Carlos (CUB) was disqualified from the Games due to positive doping test
CHENG Chu Sian (MAS) was disqualified for using equipment contravening the World Archery Rules

C75B - Brackets (Individual - Final Rounds)

Description	Bracket for individuals - final rounds
Source	OC Technology
Sort by	1 - Start order
Page break	None, aim for a single page
Notes	Note with static text: See sample
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: * - Closest to Centre Ath. No. - Athlete Number DNS - Did Not Start DSQ - Disqualified RR - Ranking Round Ta - Tie break arrow To be displayed at the bottom of the last page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	In the INFO system each bracket will be split into logical parts that fit onto the screen. Navigation to a particular part should be established by clicking on the special icon that will appear on the screen when the user asks for this output. This icon should look like a small bracket showing the parts into which that bracket is split. Please note that the software should be able to handle slow verification of results. If verification is late and the next group has started, only results of the finished matches should be presented (don't include matches in progress). Match number, date and time are displayed in the bracket until the match result is known (please also refer to C75A). The winner of a match should be presented in bold font. There are 3 samples: 1. Bracket after Quarterfinals 2. Complete bracket with DSQ in a match 3. Complete bracket with DSQ from the tournament

C75C - Brackets (Team)

Description	Bracket for teams - Olympic round: elimination and final rounds
Source	OC Technology
Sort by	1 - Start order Team members: 1 - Family name 2 - Given name For top 12 teams: 1 - Rank 2 - NOC Code
Page break	None, aim for a single page
Notes	Note with static text: None
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: * - Closest to Centre DNS - Did Not Start DSQ - Disqualified No. - Number OR - Olympic Record Ta - Tie break arrows WR - World Record To be displayed at the bottom of the page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	The sample above does not correctly display the bold typeface of the NOC field. As much space as possible should be added between pairs in 1/8 elimination round. The final layout of this output will depend on the available space and the look-and-feel of the Games. In the INFO system each bracket will be split into logical parts that fit onto the screen. Navigation to a particular part should be established by clicking on the special icon that will appear on the screen when the user asks for this output. This icon should look like a small bracket showing the parts into which that bracket is split. Please note that the software should be able to handle slow verification of results. If verification is late and the next group has started, only results of the finished matches should be presented (do not include matches in progress). Match number, date and time are displayed in the bracket until the match result is known. The winner of a match should be presented in bold font (including bye matches in the start bracket) There are 4 samples: 1. Initial bracket - after Ranking Round 2. Bracket after 1/8 Elimination Round with double DSQ 3. Full bracket with DSQ from the match 4. Full bracket with DSQ from the tournament

C76A - Final Ranking (Individual)

Description	Final ranking for individuals, updated after each round
Source	OC Technology
Sort by	1 - Rank 2 - Family name 3 - Given name
Page break	Not controlled with repeated output headings and column headings
Notes	Note with static text: None
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: DSQ - Disqualified To be displayed at the bottom of the last page.
IRM rules	See Appendix C - Rules for Data formats and presentation
Comments	After each round athletes whose rank is established are added to the output. The output is not produced after the semifinals since no new ranks are known at this time. If an athlete is disqualified from the match he should be ranked in last position of the phase where this happened. If an athlete is disqualified from the tournament (doping etc.), he will not be ranked and listed at the bottom. There are 2 samples: 1. Ranking without DSQ 2. Ranking with DSQ from the tournament

COMPETITION FORMAT AND RULES
ARCHERY

As of 23 JUN 2016

Olympic Competition Format

There are four events in the Archery competition in the Olympic Games: Men's and Women's Individual events and Men's and Women's Team events. The individual and team competitions are separate. All athletes must have qualified at the World Archery Championships and other qualifying tournaments. The Archery competitions are organised in two rounds: the 70m round and the Olympic round.

The 70m round is used to rank the individual athletes and teams for the Olympic round. The Olympic round for individuals allows 64 participants for the women's competition and 64 participants for the men's competition. The Olympic round for men's and women's teams each consist of 12 teams of three athletes from a single NOC.

The Olympic round consists of the team elimination round, team final rounds, the individual elimination rounds and individual final rounds for women and for men.

Each elimination and final round consists of a head-to-head match from which the winner advances to the next round.

A match-play table is prepared for the individual and team elimination rounds, based on the athlete's ranking after the 70m round.

The Men's and Women's Individual competitions consists of elimination rounds (1/32, 1/16, 1/8) and final rounds (quarterfinals, semifinals and finals).

The Men's and Women's Team competitions consists of one elimination round (1/8) and final rounds (quarterfinals, semifinals and finals).

Differences between the World Archery Championships and the Olympic Games

The number of participants in the World Archery Championships is higher. Therefore a qualifying round is shot to determine who enters the elimination round.

There are World Championships in many Archery disciplines which are as follows: Outdoor Target Archery, Indoor Target Archery, Field Archery Ski-Archery and Para-Archery.

Changes since the London 2012 Olympic Games

The scoring system for team events in the Olympic rounds has been changed.

Sport Rules and Procedures

The target face used is the 122cm target face with 10 points. The target face is divided into 10 concentric rings each awarded a score between 1 and 10 with the innermost ring worth 10 points.

In the Individual competition, athletes will shoot 12 ends of 6 arrows to complete the 70m ranking round. For the Olympic round, athletes will shoot a series of matches, each match consisting of the best of five sets of 3 arrows in the elimination and final rounds. In each set an athlete can score a maximum of 30 points. The athlete with the highest score of a set is awarded two set points. In case of a tied score, both athletes are awarded one set point. As soon as an athlete reaches 6 set points he is declared the winner and advances to the next round. The higher placed athlete in the ranking round will decide who shoots first in the first set of each match. The athlete with the lowest set points will shoot first in each following set. If the set points are tied after a set, the athlete who started the match will shoot first in the next set.

In Individual matches, athletes shoot alternately, with 20 seconds per arrow.

In the team competition, the team shoots a series of matches, each match consisting of the best of four sets of 6 arrows (2 arrows per team member) in all rounds. The higher placed team in the ranking round will have the option to choose who shoots first in the first set of each match. After every set, the trailing team shoots first. In each set a team can score a maximum of 60 points. The team with the highest score of a set is awarded two points. In case of a tied score, both teams are awarded one point. As soon as a team reaches five set points it is declared the winner and advances to the next round.

The team has 120 seconds to shoot 6 arrows in alternate shooting format. In alternate shooting, the alternation between the teams will take place after all the team members have shot one arrow. The archers of the team are free to choose who shoots first and can change without restrictions as long as each team member shoots 1 arrow per alternation.

Tie Break Rules

Ranking Round

Tie break for individuals and team (total of three athletes):

- Greatest number of 10's (including inner 10's);

- Greatest number of X's (inner 10's);

- If athletes/teams are still tied, a disk toss will decide the position (computerized disk toss may be used)

Olympic Round

Tie break for individuals:

A single arrow will be shot by each athlete and the athlete with the highest scoring arrow will win. If still tied, the athlete with the arrow closest to the centre will win.

If athletes are still tied the above process will be repeated until the ties are broken.

Tie break for teams:

A single arrow will be shot by each team member. After the first three tie breaking arrows are shot, the team with the highest score will win. If still tied, the team with the single arrow closest to the centre will win. If tied, the second arrow closest to the centre will determine the winner. If tied, the third arrow closest to the centre will determine the winner.

If teams are still tied, the above process will be repeated until the ties are broken.

Final Ranking

Tie break for individual and teams:

The process for ranking the losers with the same score (in the same round) is as follows: the athletes/teams are ranked at the same position and the subsequent place will take into consideration the number of tied athletes/teams. For positions 5 to 8, individuals and teams are ranked first by set points then total arrow score.

Penalties / Disqualification Rules

There are a number of penalties for infractions; the most common ones are:

- If an athlete or team shoots outside the allocated time, they will lose the value of the highest scoring arrow of that set or end (red card)

- Return behind the waiting line in case of incorrect relay in the team event (yellow card)

Protests / Appeals

With the exception of the value of a judged arrow, a participant can appeal against any unfair issue.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

ATHLETE BIOGRAPHY
ARCHERY

As of 1 AUG 2016

Profile

<picture>			
Name:	SMITH Barbara	**Other family names:**	MILLER (maiden name)
Nickname:	Biba		
Gender:	Female	**NOC code:**	AUS
Date of birth:	29 FEB 1987	**Place of birth:**	Sydney, NSW, Australia
Residence:	Perth, WA, Australia		
Height (m / ft in):	1.76 / 5'9"	**Weight (kg / lbs):**	59 / 130
Occupation:	Professional athlete	**Major injuries:**	Rupture of ligaments of right knee in May 1996 after an accident
Discipline:	Archery	**Event:**	Women's Individual
Marital status:	Married	**Family information:**	Her husband is also her coach
Language(s) spoken:	English, French, Japanese	**Social media:**	www.barbarasmith.com
Hobbies:	Photography, music, travelling	**Other sports:**	Golf
Higher education:	MSc. in Computer Science from University of Perth		
Started archery:	1998	**Started competing:**	2000
Reason for taking up the sport:	All my friends were participating	**International senior debut:**	2001, at Sydney Invitational
First national team selection:	2001	**First international podium:**	2002
Preferred discipline:	Field Archery	**Personal coach:**	SMITH John
Current WA World Ranking:	17	**Best ever WA World Ranking:**	14
Olympic qualification:	Ranked 2nd at the World Championships in Romania in 1986	**Handedness:**	Right
Draw weight (kg/lbs):	22 / 45	**Draw length (cm):**	123
Previous Olympic Games competed in:	London 2012, Athens 2004	**Club:**	Perth Lions
Most memorable sporting achievements:	WCh 2012, Cairns, QL (AUS)	**Who is your hero/idol:**	Superwoman
Major awards and honours you have received and in what year:	Best Young Australian Athlete, 2002	**What are your ambitions both during and after your career:**	To win the Olympic gold medal and become a coach
Any other information you would like included in your biography:	Without all the support from my family and friends, my achievements would have been impossible		

Major Achievements

Olympic Games:	2012 - London (GBR)	Women's Individual	Silver
	2004 - Athens (GRE)	Women's Individual	6th
WA World Championships:	2012 - Cairns, QL (AUS)	Women's Individual	Gold
	2011 - Bromont, QC (CAN)	Women's Team	6th
WA World Cup - Overall Standings:	2013	Women's Individual	4th

General Interest

She was the youngest athlete participating in Women's Individual at the Athens 2004 Olympic Games. She was twice World Junior champion (2002, 2003). Becoming Olympic champion would be a dream come true.

Her parents own a sports equipment store in Sydney. Contact with all kinds of sports since she was little, motivated him to become a professional athlete.

Rio 2016 Results

Women's Individual (Ranking Round)	664	14th	
Women's Team (Ranking Round)	1977	3rd	
Women's Individual (1/32 Elimination Round)	vs. HALLARD Stephanie (GBR)		**6-2** (25-26, 29-24, 29-24, 30-24)
…

TEAM PROFILE
ARCHERY
MEN'S TEAM

As of 6 AUG 2016

KOR - Korea

Name	Height m / ft in	Weight kg / lbs	Date of Birth	Age
IM Dong-Hyun	1.84 / 6'0"	100 / 220	12 MAY 1986	30
KIM Bub-Min	1.75 / 5'9"	72 / 159	22 MAY 1991	25
OH Jin-Hyek	1.76 / 5'9"	74 / 163	15 AUG 1991	24

Coach: KIM Hyung-Tak

Competition highlights as an athlete:
Olympic Games: 2004 - Athens (GRE), Silver in Men's Individual

Competition highlights as a coach:
Olympic Games: 2012 - London (GBR), Bronze in Men's Team

Major Achievements

Olympic Games:	2012 - London (GBR)	Bronze
WA World Championships:	2011 - Torino (ITA)	Gold
	2009 - Ulsan (KOR)	Gold

General Interest

Major awards and honours:
Korean Shooting Stars 2011

Other information:
Overwhelming favourites for Olympic gold at the 2016 Olympic Games. Korea enjoy a total domination of the places at the top of the men's world rankings and their Rio team will contain three of the best talents in the sport. As if to confirm their dominance, the team cruised through the 2016 World Championships earlier this year, dropping just one set between them in four matches on the way to a fourth consecutive world title.

Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

EXTENDED START LIST
ARCHERY
MEN'S INDIVIDUAL
QUARTERFINALS
SAMBODROMO FRI 12 AUG 2016 START TIME 14:00

Format	The quarterfinals round in the morning will feature matches of 15 arrows, shot as 5 sets of 3 arrows each, at 70 meters. The athlete with the highest score of that set is awarded 2 set points; in case of a tied score, both athletes are awarded 1 set point. As soon as an athlete reaches 6 set points, he/she is declared the winner and advances to the next round. If a match is tied, a sudden-death shoot-off will follow, with one arrow shot for score. If still tied, the athlete whose arrow is closest to the centre of the target will win. In the afternoon session the semifinal, third place and championship matches will begin at 14:55.

Start Time

(3) HUISH Justin (USA) - (16) HSIEH Sheng-Feng (TPE) **14:00**
Head to head statistics: **3 - 1**
American Justin HUISH emerged as a medal contender on this field at the April Grand Prix tournament, losing in the final to Korea's JANG Jong-Ho. If he gets by 1/8th round opponent Sheng-Feng HSIEH (TPE), he will face the winner of the Michele FRANGILLI (ITA) - Stanislav ZABRODSKY (UKR) match in quarterfinals.

(7) MEDVED Samo (SLO) - (12) VERMEIREN Paul (BEL) **14:13**
Head to head statistics: **-**
The tournament's surprises reside in Group C and D. Slovenia's Samo MEDVED, 36 years old, ousted Finland's Jari LIPPONEN, ranked second world wide, while Belgium's Paul VERMEIREN defeated American Rod WHITE in the 1/16th Round.

(1) ANCHONDO Jose (MEX) - (22) TORRES Lionel (FRA) **14:26**
Head to head statistics: **-**
In Group D, France's Lionel TORRES takes over the mantle as France's top shooter with his victories over 1991 World Champion Simon FAIRWEATHER (AUS) and Japan's Hiroshi YAMAMOTO.

(6) FRANGILLI Michele (ITA) - (21) ZABRODSKY Stanislav (UKR) **14:39**
Head to head statistics: **5 - 0**
FRANGILLI and ZABRODSKY offer an interesting contrast of the young but experienced athlete. Only 19, FRANGILLI leads all athletes in the ranking round, shooting just a point off of the world record of 685. His opponent is 24, but has already earned the title of World Champion (in 1989) and European Champion in 1990.

EXTENDED START LIST
ARCHERY
WOMEN'S TEAM
QUARTERFINALS
SAMBODROMO SUN 7 AUG 2016 START TIME 9:00

Format	In the team competition, the team shoots a series of matches, each match consisting of the best of 4 sets of 6 arrows (2 arrows per team member) in all rounds. After every set, the trailing team shoots first. In each set a team can score a maximum of 60 points. The team with the highest score of that set is awarded 2 points. In case of a tied score, both teams are awarded 1 point. As soon as a team reaches 5 set points (5 of 8 possible) it is declared winner and advances to the next round. The team has 120 seconds to shoot 6 arrows in alternate shooting format. In alternate shooting, the alternation between the teams will take place after all the team members have shot one arrow. The archers of the team are free to choose who shoots first and can change without restrictions as long as each team member shoots 1 arrow per alternation. If a match is tied at the end of 24 arrows, a sudden-death shoot-off will follow, with each team member shooting one arrow for score. The team has one minute to shoot the three arrows, and the team will alternate shots. If still tied, another three arrows are shot for score. In case of another tie a third set of arrows are shot for score. If the tie continues the third set of arrows are then measured for closest distance to the target centre, with the closest judged the winner. The women's 1/8 elimination round will begin at 9:00, quarterfinals at 9:40, and the semifinals and finals will begin at 12:15.

	Start Time

People's Republic of China (CHN) - Japan (JPN) **9:00**

Head to head statistics: **0 - 0**

HE Ying and WANG Xiaozhu lead the People's Republic of China team in their quest for the gold medal. HE won the individual silver medal, and also finished second in the Ranking Round. WANG lost in the quarterfinals to the eventual gold medallist KIM Kyung-Wook (KOR).

Turkey (TUR) - South Africa (RSA) **9:25**

Head to head statistics: **2 - 1**

Turkey is led by number two-ranked in the world Elif ALTINKAYNAK and also third-ranked Natalia NASARIDZE. ALTINKAYNAK lost in the individual semifinals to eventual silver medallist HE Ying. Turkey finished second in the ranking round with 1,963 points.

…

Sweden (SWE) - Chinese Taipei (TPE) **10:15**

Head to head statistics: **2 - 3**

The winner of this match will face Korea who is the defending champion having won the Olympic team round in 1992. Korea also set the Olympic Women's Team ranking round record with 1,984 points last Sunday. KIM Kyung-Wook took the women's individual gold medal and was not even the highest scoring member of team in ranking round. Korea has a bye in the first round and will face the winner of Sweden vs. Chinese Taipei

HISTORY
ARCHERY

Origin of Archery

Archery first appeared in the Olympic Games in 1900 and was contested again in 1904, 1908 and 1920. In those four Games, it was possible for an athlete to compete in numerous events and win several medals.

Hubert Van Innis (BEL) is the most decorated athlete in Olympic history, winning six gold medals and three silver in 1900 and 1920. Archery was reintroduced to the Olympic programme in 1972 with an individual event for men and women and John Williams and Doreen Wilber of the USA won the gold medals.

Team competition was added to the medal programme in Seoul 1988. Olympic competition now features exciting head to head competition and single elimination. Justin Huish (USA) captured the hearts of millions by winning the gold medal in Atlanta.

Archery Today

The World Archery Federation (WA) was founded on 4 September 1931 at a meeting in Lwow, Poland. Seven founding nations were present: France, Italy, Hungary, Poland, Sweden, the United States and the former Czechoslovakia.

WA's main objective is "to promote and encourage Archery throughout the world in conformity with the Olympic principles." WA has as 140 Member Associations (National Federations). WA supervises the organisation of world championships- held since 1931 - and other international competitions; and promotes Archery through the media and sponsors.

Top Archery countries include:
Asia: Korea, India, China, Japan, Malaysia
Europe: Russia, Italy, Great Britain, France, Turkey, Ukraine, Poland, Sweden
Americas: USA, Mexico, Columbia

Oceania: Australia

Archery at the Olympic Games

Archery was first contested at the Olympic Games in 1900 and was contested again in 1904, 1908, and 1920. Women competed in the 1904 Olympics, making Archery one of the first sports competitions to include women. In those four games it was possible for an athlete to compete in numerous events and win several medals. Hubert van Innis from Belgium is the most decorated Olympic athlete, winning six gold medals and three silvers in 1900 and 1920.

Archery was re-introduced to the Olympic program in 1972 with an individual event for men and for women with the United States' John Williams and Doreen Wilber winning gold. At the Seoul 1988 Olympic Games, the team competition was added to the medal program. At the Barcelona 1992 Olympics Archery featured exciting head-to-head competition and single elimination matches for the first time.

MEDIA INFORMATION
ARCHERY

Facilities

There are about 275 places for news media to stand, with the mixed zone for athletes and journalists to meet nearby.

Interviews

Journalists may meet athletes in the mixed zone as the athletes exit the competition area. Formal interviews will be held after the medals ceremony and possibly more often in cooperation with specific athletes.

Photographer positions

Photographers may shoot from designated positions listed in the Olympic Games Media Guide. In addition, photographers may stop briefly to take pictures from any public area so long as they do not block spectators.

Sub-Centre

A full-service press workroom supporting journalists covering Archery is available in the media work area with complete results and information services, television monitors, working positions, telephones and food service. A total of one hundred and six working positions are offered, with charge-a-call telephones available. The sub-centre telephone number is xxxxxx. The sub-centre fax number is xxxxxxx.

Opening hours of the sub-centre are 8 a.m. to 8 p.m. daily from the 1st August through the 4th August; and 7 a.m. to 9 p.m. daily from the 5th August through the 12th August.

Transportation to the sub-centre will be provided according to the schedule in the Media Guide

Venue Press Manager

The venue media chief is SMITH John, JONES Steve (press), GARCIA Pedro (information service), and ZHOU Maria (photographers). Please call (xx)xxxxxx to reach the sub-centre Help Desk.

FLASH QUOTES
ARCHERY
MEN'S TEAM
BRONZE MEDAL MATCH

News Item: 117

XUE Hai Feng (CHN)

On what he was thinking about in the bronze medal match:
"Only one sentence: Hold on 'til the last minute."

On his placement in the shooting order of the Chinese team:
"I am omniscient. I can shoot at any time in the order because I've been training for a really long time and have competed in many international Archery competitions."

On how he feels about his team Bronze medal:
"Today's win will not be my best performance. I still have a chance (to win a medal in the Men's Individual on Friday)."

QUOTES OF THE DAY

News Item: 117

A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

Givenname FAMILYNAME (NOC) on the sights in the Olympic Village

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

Gold medallist Givenname FAMILYNAME (NOC) on her latest victory

"There are a lot of countries here. I don't even know where half of them are on the map."

The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games

"I did not concentrate on my opponent. I only concentrated on my coach."

Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)

PRESS CONFERENCE HIGHLIGHTS
ARCHERY
MEN'S INDIVIDUAL

News Item: 119

RUBAN Viktor (UKR) - Gold medallist

On how he feels about winning the gold medal:
"It was difficult emotionally, maybe tomorrow I'll feel that I won the gold medal."

On the Ukrainian team's preparations:
"In our country, we don't work with a psychologist, we only work on the technical side of things. We work on the psychological side ourselves to be focused at exactly the right moment."

PARK Kyung-Mo (KOR) - Silver medallist

On his silver medal:
"I think Rio will be my last Olympic Games. I didn't do my best and I wound up with silver."

On competing in the gold medal match:
"It was an honour to participate in that final game. It showed Archery can be a fun sport."

BADENOV Bair (RUS) - Bronze medallist

On winning the bronze medal:
"Perhaps I haven't felt the full extent of winning the medal right now, maybe I will feel it later."

On mental preparation:
"We don't have psychologists on our team. We try to help ourselves technically and mentally and try to get ourselves into the right mood."

SPORT PREVIEW
ARCHERY

News Item: 1

- Korea has won all women's Archery titles since the team competition format was first included in the Olympic Games 20 years ago, and is again expected to be the team to beat at the Rio 2016 Olympic Games.
- Winner of the individual title at the Athens 2004 Olympic Games, PARK Sung-Hyun (KOR) leads the Korean team. PARK is ranked No. 2 in the world behind teammate YUN Ok-Hee (KOR). Both PARK and YUN hold world records.
- China is again expected to provide the Korean women with stiff competition. The Korean women beat China in the Athens 2004 Olympic Games on the last arrow of the competition. China is led by ZHANG Juan Juan, the winner of the 2006 World Cup Final in Merida, Mexico.
- Fourth in Athens 2004 Olympic Games, Chinese Taipei has emerged as a real threat in Rio. At the Leipzig 2007 World Championships, Chinese Taipei took the silver medal, losing to the powerful Koreans in the final.
- Other strong medal contenders in the Women's Team event include Great Britain and Poland. Allison WILLIAMSON (GBR), who won the bronze medal at the Athens 2004 Olympic Games, should play a major role for the British.
- Poland, the current European champion, fields Justyna MOSPINEK (POL), one of four athletes set to attend the Archery World Cup Final later this year.
- The Korean Men's Team seeks to win its fourth Olympic gold at the Rio 2016 Olympic Games. Winner of the individual title at the Leipzig 2007 World Championships, IM Dong-Hyun (KOR) leads the Koreans.
- Joining IM is PARK Kyung-Mo (KOR) who was the individual winner of the Antalya 1993 World Championships and the 2006 World Cup Final. IM and PARK also competed in the Korean team at the Athens 2004 Olympic Games.
- Two other teams expected to fight for medals are Great Britain and Chinese Taipei, having won silver and bronze respectively at the 2007 World Championships.
- Simon TERRY (GBR), winner of the individual and team bronze medal for Great Britain at the 1992 Barcelona Olympic Games, is expected to play a major role for the British after a 24-year absence from the Games.
- The United States of America is aiming for a podium finish in Rio after narrowly missing out on a bronze medal at the Athens 2004 Olympic Games, where it lost to the Ukraine by two points on the final arrow of competition.
- Returning to the Olympics for the fifth time is Richard JOHNSON (USA), who won the team gold medal at the Atlanta 1996 Olympic Games. JOHNSON and Victor WUNDERLE (USA) won the team bronze medal in the Sydney 2000 Olympic Games.
- In the Women's Individual event, Natalia VALEEVA (ITA) is expected to challenge the Koreans and Chinese for a medal.
- VALEEVA is one of the eldest athletes in these, her seventh Olympic Games. The reigning world champion won the 2008 World Cup Stage in Santo Domingo, Dominican Republic and is ranked No. 3 in the world.
- Other potential medallists include Natalya ERDYNIYEVA (RUS), Dola BANERJEE (IND), and Jennifer NICHOLS (USA). BANERJEE was the winner of the the 2007 World Cup Final in Dubai.

DAILY PREVIEW
ARCHERY

FRI 12 AUG

News Item: 14

The Korean trio of IM Dong-Hyun, PARK Kyung-Mo and LEE Chang-Hwan advanced in the individual elimination rounds on Wednesday, and each hopes to become their country's first Men's Individual Olympic gold medallist. Competition starts at 9:00 on Friday, 12 August at the Sambodromo.

Favourites

- LEE, the No. 10 seed, broke the 12-arrow Olympic record when he shot 117 out of 120 points on Wednesday morning, the first day of Men's Individual elimination matches.
- PARK also demonstrated impressive accuracy, shooting 116 on Wednesday afternoon. He is the No. 4 seed.
- IM, the No. 8 seed, will look to improve on his sixth-place finish in Athens in 2004. IM is the reigning world champion.

Challengers

- Jacek PROC (POL) was the first athlete to break the Olympic record at these games, shooting a 116 in his first elimination match on Wednesday.
- Juan Rene SERRANO (MEX) surprised the field by placing first in the ranking round. SERRANO was the other athlete to shoot 116 in the qualification rounds on Wednesday and aims to win Mexico's first archery Olympic medal.

Also ...

- Baljinima TSYREMPILOV (RUS), the No. 6 seed, moved through to the top 16 as expected. TSYREMPILOV is the 2007 World Cup Final Champion and the 2008 European Champion.
- Victor WUNDERLE (USA), the individual silver medallist at the Sydney 2000 Olympic Games, will look to get back on to the podium. In the Athens 2004 Olympic Games, WUNDERLE finished 8th.
- Alan WILLS (GBR) took out the defending Olympic champion, Marco GALIAZZO (ITA), in the individual elimination rounds on Wednesday.

DAILY REVIEW
ARCHERY

MON 8 AUG

News Item: 133

- With the crowd chanting his name after each arrow, No. 10 seed LEE Chang-Hwan (KOR) shot a near perfect score of 117 out of 120 to set a 12-arrow Olympic record in the Men's Individual elimination rounds at the Sambodromo on Monday.
- LEE and his teammate IM Dong-Hyun (KOR), along with three of the top four seeded athletes, Juan Rene SERRANO (MEX), Viktor RUBAN (UKR) and PARK Kyung-Mo (KOR), advanced as expected to the 1/8 elimination Round.
- Other athletes who qualified for the top 16 include Alan WILLS (GBR) and Victor WUNDERLE (USA).
- In an exciting match that came down to the very last arrow, WILLS, the No. 21 seed, took out the reigning Olympic champion Marco GALIAZZO (ITA), in the 1/16 elimination round, 110-109.
- WUNDERLE, the individual silver medallist at the Sydney 2000 Olympic Games, kept the USA's hopes alive for an individual medal when he defeated Ilario DI BUO (ITA) in a two-arrow shoot-off following a 108-108 tie. Both DI BUO and WUNDERLE shot a nine on the first arrow, but it was WUNDERLE who conquered with a 10 to DI BUO's eight on the second arrow.
- In the biggest upset of the day, No. 2 seed Mangal Singh CHAMPIA (IND) failed to advance to the top 16. CHAMPIA lost to No. 31 seed Bair BADENOV (RUS), 109-108, but BADENOV did not win his next match.
- Before the Men's Individual elimination rounds began on Monday, the Olympic Record was 115. Although it was LEE who broke the record, three other athletes, SERRANO, PARK, and Jacek PROC (POL) shot 116s in their elimination matches.
- The Men's 1/8 elimination matches begin at 9:00 on Friday, 12 August at Sambodromo,

SPORT REVIEW
ARCHERY

News Item: 15

Korea dominated the Rio 2016 Archery competition by winning the team gold medals, three individual medals and setting five Olympic and one world record at the Sambodromo.

Women's Team

- The Korean women won their sixth consecutive Olympic team gold medal on Sunday, 7 August. PARK Sung-Hyun (KOR) lead the way in the Ranking Round, matching the 72-arrow Olympic record with a score of 673 points. PARK Sung-Hyun's teammates, YUN Ok-HEE shot 667 and JOO Hyun-Jung shot 664. The Koreans' combined score of 2,004 broke the 216-arrow Olympic record by 10 points.
- In the team quarterfinals, the Korean women set the 24-arrow Olympic and World record, shooting a score of 231 out of a possible 240 points in their match against Italy. The Koreans easily defeated France in the semifinals, 213-184. Korea went on to beat China handily in the gold medal final, 224-215.
- In the bronze medal match, France needed seven points to win with one arrow remaining. Sophie DODEMONT (FRA) withstood the pressure to score an eight and led France to victory over Great Britain with a final score of 203-201.

Men's Team

- The Korean men won their third consecutive and fourth overall Olympic team gold medal on Saturday, 6 August. The Korean trio of PARK Kyung-Mo, IM Dong-Hyun and LEE Chang-Hwan met pre-Olympic expectations in the Ranking Round by shooting the highest combined team score of 2,015 points. PARK Kyung-Mo led the Korean men with 676 points.
- The Men's Team medal round was defined by nail-biting matches that came down to the very last arrow. In the gold medal match, Korea and Italy were tied going into the last three arrows when Mauro NESPOLI (ITA) shot a seven, handing the gold medal and the 24-arrow Olympic record to Korea, 227-225.
- In the bronze medal match, Ukraine was unable to defend the team bronze they won at Athens 2004. Against the crowd favourite China, Ukraine climbed back from a six point deficit at the halfway point, only to lose to China on the last arrow, 222-219. The Chinese men's bronze medal was remarkable because they entered the Elimination rounds in last place (12th).

Women's Individual

- ZHANG Juan Juan (CHN) broke Korea's 24-year stranglehold on the Women's Individual event, claiming the gold medal with the last arrow in a riveting final against the defending Olympic champion, PARK Sung-Hyun, 110-109 on Thursday, 11 August.
- The No. 27 seed, ZHANG had to beat all three top-seeded Korean women to win the Olympic title. In the quarterfinal, ZHANG beat JOO 106-101. In the semifinals, ZHANG took out the world No. 1 YUN, 115-109. ZHANG's score of 115 equalled the Olympic record PARK Sung-Hyun set earlier in the day.
- YUN went on to defeat KWON Un Sil (PRK), 109-106, to take the bronze medal.
- Khatuna LORIG (USA) was fifth, Nami HAYAKAWA (JPN) sixth, JOO seventh and the youngest athlete in the competition, 14-year-old Mariana AVITIA (MEX) was eighth. The reigning world champion, Natalia VALEEVA (ITA), finished 19th.

USA athletes confident of medal comeback in Rio

The USA men's Archery team is anxious to get back on the Olympic podium with their most talented team in 12 years.

The team missed out on a bronze medal at the Athens 2004 Olympic Games by two points to the Ukraine team.

Assistant coach Don RABSKA (USA) said the athletes had worked well together and had a good chance of winning a medal.

"They are shooting well, they are experienced and they have a lot of confidence."

RABSKA said the athletes had come to a mutual decision about the order in which they will shoot.

"They are really supportive of each other. They know their expectations and they can handle adversity. The team has been very cohesive. We have a good rhythm and we are all working together."

There is a 33-year age gap between the eldest and youngest team members.

Butch JOHNSON (USA), 52, is competing in his fifth Olympic Games. He won a team gold medal in the Atlanta 1996 Olympic Games and team bronze in the Sydney 2000 Olympic Games, and was in Athens.

"I will be disappointed if we don't get a medal," JOHNSON said.

Brady ELLISON (USA), 19, won an individual silver medal at the World Cup Stage in Antalya, Turkey, earlier this year despite only competing with the Olympic-style recurve bow for two years. He is also a three-time Junior World Champion with the compound bow.

"He's a young kid with a lot of talent, I expect him to do well," said JOHNSON of ELLISON.
Victor WUNDERLE (USA), 32, who was with JOHNSON in Athens, has had the most individual success in the Olympics, winning the individual silver medal and team bronze medal at the Sydney 2000 Olympic Games.

Archery: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Archery Men's Individual of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

I. The athlete, Mr Givenname FAMILYNAME, NOC name, Archery:

(i) is disqualified from the Men's Individual of the Rio 2016 Olympic Games where he placed 7th;

(ii) shall have his diploma in the above-mentioned event withdrawn; and

(iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.

II. The WA is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.

III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.

IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.

V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Archery information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Archery. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the WA and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, WA office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. both individual events and team events).

3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code
Official Communications - produced at any time before, during or after competition

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Archery sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.
Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day WA and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EOD	End of day
ExA	After every arrow/X (x) arrows
ExM	After every match/X (x) matches
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xEBCD	X (x) evening(s) before a competition day
xHBD	X (x) hour(s) before the draw
xMAC	X (x) minute(s) after the competition
xMADA	X (x) minute(s) after the draw is approved
xMAFA	X (x) minute(s) after the results of the final are approved
xMAH	X (x) minute(s) after the 1st half of the ranking round
xMAJ	X (x) minute(s) after each jury or other official body decision
xMAL	X (x) minute(s) after the last event of that day
xMALRA	X (x) minutes after the results of the last ranking round are approved
xMAMA	X (x) minute(s) after the match results are approved
xMAMRA	X (x) minute(s) after the medal match results are approved
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes/a press conference
xMAR	X (x) minute(s) after the round
xMARA	X (x) minute(s) after the results are approved
xMAS	X (x) minute(s) after each session
xMBF	X (x) minute(s) before a final
xMBQ	X (x) minute(s) before the quarterfinals
xMBR	X (x) minute(s) before the round
xPDyDBC	X (x) times per day, starting Y (y) days before the competition

This page intentionally left blank.

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts, Real Time Display System (RTDS) screens and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the WA and the OC (and providers).

This page intentionally left blank.

2 Scoreboards

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Athletes, Teams and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to WA's approval.

2.3 Part A - Before the event

2.3.1 Welcome

What: Welcome screen for spectators as they arrive at the venue.
Contains today's date, time of day (HH:MM - real time), welcome text, name of sport discipline, venue name and start time of competition.

When: Displayed as the spectators enter the venue (as an idle screen for the scoreboard - shown when nothing else is happening).
Shown at the discretion of venue production.

How: Static screen with real time update of time of day only

```
FRI 5 AUG 2016              8:30

          WELCOME TO THE
          OLYMPIC GAMES

             ARCHERY
           SAMBODROMO

   COMPETITION STARTS AT 9:00
```

2.3.2 Weather conditions

What: Screen shows weather conditions with date and time when data was collected, screen title, type of weather, humidity, temperature, wind speed and wind direction

When: Before the competition start and during the pauses in the competition if weather has changed.
Shown at the discretion of venue production.

How: Single screen

```
FRI 5 AUG 2016              8:30

       WEATHER CONDITIONS

PARTLY CLOUDY       HUMIDITY 70%

TEMP. 29°C/84°F     WIND 2M/S NW
```

2.4 Part B - Before start of the individual event - elimination and final rounds

2.4.1 Participants of individual match

What: Screen shows start list (pairing) with event name, round and match number. For each athlete: Target number, rank from ranking round, scoreboard name and NOC code
Phase names: 1/32, 1/16, 1/8, Quarterfinals, Semifinals, Finals
When: At the discretion of venue production when a match is announced
How: Single screen

```
      MEN'S INDIVIDUAL 1/32

NEXT MATCH 4

T# RK

 1  1  HUISH JUSTIN        USA

 2 64  PETERSSON MAGNUS    SWE
```

2.4.2 Start list for group of individual matches

What: Screen shows start list for individual elimination matches with event name, round. Start time and match number for each match. For each athlete: Target number, rank from ranking round, scoreboard name and NOC code (use placeholders if names are unknown, see example b).
Phase names: 1/32, 1/16, 1/8, Quarterfinals, Semifinals, Finals
When: At the discretion of venue production when a group is announced
How: Scroll down screen by screen (2 screens per group). Group by group with title on each screen. Heading is presented for each event if necessary (if men's and women's matches alternate - see example b).

a) Single event on one screen

```
      MEN'S INDIVIDUAL 1/32

2.5 Part C - During the individual event - elimination and final rounds

2.5.1 Individual - elimination and final match results

What: Screen shows accumulated score of a match with event name, round and match number. For each athlete: Target number, rank (from ranking round), scoreboard name, set points, NOC code, total score for each set and score for each arrow in the current set. "*" indicates doubtful arrow.
In a shoot-off, "+" after the score should be used to indicate the arrow closest to centre.
Immediately after the last shot the text "WINNER" should be displayed below the winner's name. It is not necessary to wait for a confirmation from the officials before "WINNER" is displayed if the result is clear (no "*" arrows which may change the winner).
Scores from the current set are cleared when the winner is announced.
Any IRM is shown below the athlete's name (in front or after of "WINNER" if both need to be shown).
The last line should be used to show "points to win/tie" (e.g. "8 TO WIN" just before the last arrow is shot. "x TO WIN" should be presented only if an athlete has 4 or 5 set points and is shooting the last arrow. "x TO WIN" or "x TO TIE" should be presented only if an athlete can win/tie the match with the last arrow.
If the match is tied "SHOOT-OFF REQUIRED" should be shown on the second last line.
NOTE: The score "10" takes up a SINGLE character position on the scoreboard (requires special font)
Phase names: 1/32, 1/16, 1/8, Quarterfinals, Semifinals, Finals
Note: 'X' (inner 10) is presented as '10' on the scoreboard

When: During the match

How: Show all shot results and total result (accumulated) - in real time (arrow-by-arrow).
Graphical capabilities of the board may be used to emphasize selected data elements (e.g. the vertical bar (used to separate data for each athlete) can be replaced by a one pixel line if supported by the scoreboard)

2.8 Part F - During the team event - elimination and finals rounds

2.8.1 Team - elimination and final match results

What: Screen shows accumulated score of a match with event name, round and match number. For each team: Target number, rank (from ranking round), team name, set points, total score for each set and score for each arrow in the current set. "*" indicates doubtful arrow. In a shoot-off, "+" after the score should be used to indicate the arrow closest to centre. Immediately after the last shot the text "WINNER" should be displayed below the winning team. It is not necessary to wait for a confirmation from the officials before "WINNER" is displayed if the result is clear (no "*" arrows which may change the winner).
Scores from the current set are cleared when the winner is announced.
Any IRM is shown below the team's name (in front or after of "WINNER" if both need to be shown).
The last line should be used to show "points to win/tie" (e.g. "8 TO WIN" just before the last arrow is shot. "x TO WIN" should be presented only if a team has 3 or 4 set points and is shooting the last arrow. "x TO WIN" or "x TO TIE" should be presented only if a team can win/tie the match with the last arrow.
If the match is tied "SHOOT-OFF REQUIRED" should be shown on the second last line.
NOTE: The score "10" takes up a SINGLE character position on the scoreboard (requires special font)
Phase names: 1/8, Quarterfinals, Semifinals, Finals
Note: 'X' (inner 10) is presented as '10' on the scoreboard

When: During the match

How: Show all shot results and total result (accumulated) - in real time (arrow-by-arrow). Graphical capabilities of the board may be used to emphasize selected data elements (e.g. the vertical bar (used to separate data for each athlete) can be replaced by a one pixel line if supported by the scoreboard)

2.9 Part G - The team event - after final

2.9.1 Team results summary

What: Screen shows results summary with event name, screen title and for each team: Rank, NOC and NOC code

When: After final for the team competition - MANDATORY screen.
Screen to be shown at the discretion of venue production.

How: Scroll down screen by screen to show the complete list

```
          WOMEN'S TEAM
          FINAL RANKING
1 AUSTRALIA               AUS
2 SWITZERLAND             SUI
3 KOREA                   KOR
4 BHUTAN                  BHU
5 GREECE                  GRE
6 CHINA                   CHN
7 UKRAINE                 UKR
8 FINLAND                 FIN
```

2.10 Part H - During the Victory Ceremony

2.10.1 Presenters

What: Screen shows the presenters with discipline name, event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function.
Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", etc.).
When: As the dignitary is introduced before the ceremony
How: Single screen

```
    ARCHERY  MEN'S INDIVIDUAL
         VICTORY CEREMONY

PRESENTER:
  SIR PHILIP CRAVEN - GBR
      IOC MEMBER

ACCOMPANIED BY:
   MR ORBAN MENDOZA - PUR
      WORLD ARCHERY
```

2.10.2 Medallists - Individual

What: Screen shows list of medallists with discipline name, event name, screen title. For each medallist show medal type, scoreboard name, NOC code.
When: During the ceremony
How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

```
    ARCHERY  MEN'S INDIVIDUAL
         VICTORY CEREMONY

GOLD   HUISH JUSTIN          USA

SILVER PETERSSON MAGNUS      SWE

BRONZE OH KYO-MOON           KOR
```

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

```
    ARCHERY  MEN'S INDIVIDUAL
         VICTORY CEREMONY

BRONZE OH KYO-MOON           KOR
```

As the silver medallist is presented:

```
    ARCHERY  MEN'S INDIVIDUAL
         VICTORY CEREMONY

SILVER PETERSSON MAGNUS      SWE

BRONZE OH KYO-MOON           KOR
```

As the gold medallist is presented:

```
    ARCHERY  MEN'S INDIVIDUAL
         VICTORY CEREMONY

GOLD   HUISH JUSTIN          USA

SILVER PETERSSON MAGNUS      SWE

BRONZE OH KYO-MOON           KOR
```

2.10.3 Medallists - Team

What: Screen shows list of medallists with event name, screen title. For each medallist show medal type, NOC code and scoreboard name of all team members

When: During the ceremony

How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

```
 MEN'S TEAM    VICTORY CEREMONY
GOLD   ELLISON BRADY
 USA   JOHNSON RICHARD
       WUNDERLE VICTOR
SILVER IM DONG-HYUN
 KOR   LEE CHANG-HWAN
       PARK KYUNG-MO
BRONZE DI BUO ILARIO
 ITA   GALIAZZO MARCO
       NESPOLI MAURO
```

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

```
  MEN'S TEAM    VICTORY CEREMONY

BRONZE DI BUO ILARIO
 ITA   GALIAZZO MARCO
       NESPOLI MAURO
```

As the silver medallist is presented:

```
 MEN'S TEAM    VICTORY CEREMONY

SILVER IM DONG-HYUN
 KOR   LEE CHANG-HWAN
       PARK KYUNG-MO
BRONZE DI BUO ILARIO
 ITA   GALIAZZO MARCO
       NESPOLI MAURO
```

As the gold medallist is presented:

```
 MEN'S TEAM    VICTORY CEREMONY
GOLD   ELLISON BRADY
 USA   JOHNSON RICHARD
       WUNDERLE VICTOR
SILVER IM DONG-HYUN
 KOR   LEE CHANG-HWAN
       PARK KYUNG-MO
BRONZE DI BUO ILARIO
 ITA   GALIAZZO MARCO
       NESPOLI MAURO
```

4 Sport Specific Real Time Data

There is no additional real time data available other than defined in Section 1 - Outputs.

This page intentionally left blank.

5 On Screen Results Presentation

Some screens will be updated in real time whenever new information becomes available (e.g. results update). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists/team members, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

This page intentionally left blank.

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Archery document are defined as follows:

Term	Definition
Assistant Director of Shooting (DoS)	Appointed to assist the Director of Shooting.
Athlete Number	Number allocated to competitors for identification at the Olympic Games. Two types are used. The first type identifies the target number and shooting position of the athletes for the ranking round. The second type, issued after the ranking round, indicates the athletes' finishing position in the ranking round, which is the seeding (rank) for the eliminations and finals.
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Bye	A bye is assigned to athletes or teams instead of an opponent in a head-to-head match to automatically advance them to the next phase of the competition.
Category	Category is the combination of class and division, e.g. Men Recurve.
Chairman of Judges' Commission	The Chairman of Judges (CJ) is appointed by the WA Judge Committee. The Chairman of Judges is responsible for the scheduling of the Judges' Commission. Liaison with the Director of Shooting. Any appeal to the Jury must be channelled through the Chairman of Judges.
Class	At the Olympic Games there are two classes: • Men • Women The WA recognises four additional classes at World Championships: • Junior Men • Junior Women • Cadet Men • Cadet Women
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.

Term	Definition
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Director of Shooting (DoS)	The Director of Shooting is responsible for regulating the timing of the ranking rounds, and overseeing match timing together with Line Judges.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Divisions	Competitors who use different types of bow will compete in different divisions at Championships. The following divisions are recognised by the WA: Outdoor Target Archery • Recurve • Compound Indoor Target Archery • Recurve • Compound Field Archery • Recurve • Compound • Barebow
Draw	A random draw of competitors to establish target allocation for the ranking round. Competitors from the same team (NOC) will be allocated to adjacent (consecutive) targets. The draw is conducted two (2) days prior to the start of the ranking round, and is open to team managers. A computer/random draw is permissible.
End	A series of 6 arrows shot, then scored, and withdrawn from the target during the ranking round. *See also: Set*
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter) See "Archery References" for the list of events.
Field of play	The field of play is the area on which the competition takes place. At the Olympic Games, the ranking round takes place on the qualification field of play and all eliminations and finals on the finals field of play.
Head-to-Head	Match between two individuals or teams using a direct elimination process.
INFO	INFO is an intranet which allows access to results, news,

Term	Definition
	biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Judges	The members of the Judges' Commission for the Olympic Games/Championships are appointed by the WA Judge Committee. WA appointed judges are assisted by a team of National Technical Officials appointed by archery's governing body in the host country. The Judges will be under the control of the Chairman of Judges, who will delegate duties and responsibilities for the tournament, including the Line Judge (LJ) and Target Judge (TJ). • Line Judge: Regulates the individual matches • Target Judge: Officiates at the target for scoring and arrow value judgements.
Jury of Appeal	The Jury of Appeal consists of three members appointed by the WA, Officials of the OC are not permitted to act as Jury members. Alternates may be appointed by the WA.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Match	A match is a competition between: • Individual events: Two athletes • Team event: Two teams of three athletes Each match is contested as follows: • Individual: Best of five sets of 3 arrows. Two points are awarded for a set win (highest 3 arrow total), one point each athlete for a draw. First athlete to achieve six set points is declared the winner. Arrows shot in alternating format, each with a twenty (20) second time limit. • Team: Best of four sets of 6 arrows. Two points are awarded for a set win (highest 6 arrow total), one point each team for a draw. First team to achieve five set points is declared the winner. Each team member must shoot 2 arrows per set, within a team time limit of two (2) minutes.
Olympic Data Feed (ODF)	The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding

Term	Definition
	Broadcasters, etc. ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.). The ODF technical specifications are available at: http://odf.olympictech.org.
Olympic Games	"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter) The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.
Olympic News Service (ONS)	The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time. The news service is the official source for independent and balanced coverage of the Olympic Games.
Olympic Round	Competition format used at the Olympic Games consisting of a head-to-head phase, knock-out elimination brackets and final medal matches.
On Venue Results (OVR)	The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.
Phase	A step in the progression of the competition. See "Archery References" for the list of competition phases.
Qualification Round	See: Ranking Round
Rank	Placing in an event. Athletes/Teams are ranked according to the WA rules.
Ranking Round	Consists of 72 arrows shot in 12 ends of 6 arrows within a time limit of four (4) minutes over a distance of 70 metres. The purpose of this round is to "seed" the athletes for the match play rounds, i.e. 1 versus 64, etc.
Recurve	Type of bow used at the Olympic Games.

Term	Definition
Results System Code (RSC)	The Result System Code is a nine character code structured as follows: DDGEEPUU, where: • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit
Results Verifier	An official appointed by the WA to verify all results. He checks master copies prior to the copying and distribution process. Available at all times in the results office.
Round	This is the progression system in the competition. Archery consists of the following rounds: Individual events • Ranking Round (qualification round) • 1/32 Elimination Round • 1/16 Elimination Round • 1/8 Elimination Round • Quarterfinals • Semifinals • Finals (gold medal and bronze medal matches) six rounds: three elimination rounds (1/32, 1/16, 1/8) and three final rounds (quarterfinals, semifinals and finals) Team event: • Ranking Round (qualification round) • 1/8 Elimination Round • Quarterfinals • Semifinals • Finals (gold medal and bronze medal matches) Four rounds: 1 elimination round (1/8) and three final rounds (quarterfinals, semifinals and finals)
Set	A series of 3 arrows (individual) or 6 arrows (team) shot, scored, and then withdrawn from the target during the elimination and finals rounds.
Scoring	Arrows are scored on 10 concentric circles on the target face, the outer ring scores 1 point and the innermost ring 10. Arrows that do not hit a scoring circle are scored as 0 or M (miss). There is also a smaller centre X10 ring, which also scores 10 points and is used only to resolve ties after the ranking round.
Shoot-off	A shoot-off is used to resolve any head-to-head match that is drawn after the completion of regulation sets. Individual shoot-offs consist of one arrow per athlete, with the athlete shooting closest to the centre declared the winner. Team shoot-offs consist of 1 arrow per athlete in the team (3 in total), with the highest 3 arrow total score declared the winner. If the teams are drawn on score, then the closest arrow to the middle decides the winner. If no clear winner can be determined on this arrow, then the second closest is considered, then the third.

Term	Definition
	If either an individual or team match cannot be resolved after a shoot-off (i.e. arrows are an equal distance from the centre), the process is repeated until a winner is found.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Team	Group of three athletes of the same gender from the same NOC.
Team Manager	Each national team is represented by a team manager.
Team Coach	The coach who is in the team box during the match.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Tripartite Commission	The Tripartite commission is composed of: • The IOC • The Association of National Olympic Committees (ANOC) • The Association of Summer Olympic International Federations (ASOIF) The main objective of the Tripartite Commission is to allocate Invitation Places to a number of NOCs without or with few athletes qualified, allowing them to participate in the Olympic Games, in order to strengthen the principle of universal representation.
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	• Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	• Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	• Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	• Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	• Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc. • Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	• Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	• Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc. • Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	• Measurements (time, weight, distance, height, etc.) • Scores • Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	• Points
Bracket	Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected	• Win/Loss
	Bracket types: • Bracket with direct elimination (e.g. Boxing) • Bracket with direct elimination, classification and finals (e.g. Water Polo) • Bracket with direct elimination and finals (e.g. Tennis) • Bracket with direct elimination, repechage and finals (e.g. Judo)	
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	• Addition of results (points, times)

Appendix B - Abbreviations

The following abbreviations are used in the ORIS Archery document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
AR	Archery
CIS	Commentator Information System
cm	centimetre
CM	Organising Committee Competition Management
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments
DoS	Director of Shooting
DRM	Delegation Registration Meeting
ft	feet
IBC	International Broadcasting Centre
ID	Identification number
IDS	Information Diffusion System
IF	International Federation
in	inch
IOC	International Olympic Committee
IRM	Invalid Result Mark
IT	Information Technology
ITO	International Technical Official
kg	kilogramme
lb	pound
m	metre
M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
Mo	Mandatory - for outdoor sports
MMC	Main Media Centre
MPC	Main Press Centre
MQS	WA Minimum Qualification Standard
N/A	Not Applicable
NF	National Federation
NOC	National Olympic Committee
NR	Not Ranked
NTO	National Technical Official

Code	Description
OC	Organising Committee
ODF	Olympic Data Feed
OG	Olympic Games
ONS	Olympic News Service
ORIS	Olympic Results and Information Services
OVR	On Venue Results system
PO	Organising Committee Press Operations
SEQ	Sport Entries and Qualification
TAO	IOC Technology Assistance and Observation team
TBD	To be defined
TD	Technical Delegate
VPC	Venue Press Centre
VRM	Venue Results Manager
WA	World Archery Federation
WCH	World Championships
WNPA	World News Press Agencies

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Archery Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Archery event presentation order	Please see "Archery References"
Schedule status options	The following schedule status options are applicable to an event or event unit: • Unscheduled — Not visible on the schedule, optional (e.g. tie breaker if applicable) • Scheduled — The start time is known • Getting_Ready — At time x before start - "x" is defined by Olympic Broadcasting Services (OBS) • Running — In progress • Scheduled_Break — Planned break (e.g. end of period). Not applicable for Archery. • Finished — All action on the field of play is complete • Delayed — Did not start as scheduled, should start in the current ticketing session • Postponed — Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present • Interrupted — Unplanned interruption after the start, and is expected to resume in the current ticketing session • Rescheduled — The new date and start time are known • Cancelled — Will not take place at these Games
Results status options	• Start List — Start list has been created • Live — In progress • Intermediate — Updated results at scheduled points or breaks. Results and/or ranks are subject to change. • Partial — The results and ranking of the athletes/teams who have completed their performance are not subject to change by the results of athletes/teams still competing • Unconfirmed — Activity on the field of play is complete but there is no results status update yet. Not applicable for Archery. • Unofficial — Results are available but not approved. • Official — Results are approved

	• Protested — The competition is no longer in progress and a protest has been lodged.
Results marks	• BYE - Bye (the athlete/team advances to the next round in the absence of an assigned opponent)
Invalid Results Marks (IRM)	• DNF - Did Not Finish • DNS - Did Not Start • DSQ - Disqualified
IRM presentation order	Rules for presentation of results for athletes with DNF, DNS, DSQ: • DNF: The results should be calculated with the score achieved up until the withdrawal. In the elimination and final rounds, the athlete/team still competing must continue to shoot arrows until winning the match. • DNS: The rank should be calculated with a score of zero (0) and the athlete's/team's results should be presented as "DNS" • DSQ: The ranking will be annulled and the results recalculated. If the disqualified athlete is a member of a team, the team will also be disqualified. <u>Presentation</u>: • DNF: Scores to be shown until the athlete/team retires • DSQ (sport): Scores to be shown until the moment of disqualification • DSQ (doping): All scores to be removed <u>Ranking Round</u>: • Show DNS in Total (no scores, no rank) • Show DSQ in Total (no scores, no rank) • DNF is not shown - scores achieved until DNF are used to calculate rank <u>Elimination Rounds:</u> • Show DNS (zero (0) score, will not advance) • Show DSQ (zero (0) score, no arrow score, will not advance),
Record codes	• OR - Olympic record • WR - World record Records are listed in the following order: WR, OR
Final classification	After the completion of an event, the athletes/teams are ranked as follows: 1. Finalists: For Gold: Ranked 1 and 2 For Bronze: Ranked 3 and 4 2. Athletes/teams eliminated in the quarterfinals will be ranked (5th-8th) by number of set points won, and if tied by the number of cumulative score points shot, in the last match. If still tied they will be declared tied (sorted by family name, given name or team name). 3. Athletes/teams eliminated during the 1/8 round will be ranked 9th (share the rank), during the 1/16 round will all be ranked 17th (share the rank), etc. according to the stage of the elimination (sorted by family name, given name or team name).
General rules for formats	"#" Digit placeholder, suppression of leading zeros "#"should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.

	"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains. E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23
Points and score formats	Team and Individual events: 0 (for set points in the individual elimination and final rounds) #0 (for each arrow) #0 (for set scores in the individual elimination and final rounds) ##0 (for total scores in the individual ranking round and the team elimination and final rounds) ###0 (for total scores in the team ranking round)
Height/Weight formats	**Height (metric):** 0.00m, #00cm, 0.00, ##0 **Height (imperial):** 0ft #0in, 0'#0" **Weight (metric):** ##0.00kg, ##0.0kg, ##0kg, ##0.00, ##0.0, ##0 **Weight (imperial):** ##0.00lbs, ##0.0lbs, ##0lbs, ##0.00, ##0 If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".
Temperature formats	**Celsius:** #0.00°C, #0.0°C, #0°C, … **Fahrenheit:** ##0.00°F, ##0.0°F, ##0°F, … If Celsius and Fahrenheit units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".
Presentation of ties	Results • The primary rank (first column) must show a rank (if tied, repeat rank), except for the final rankings where the same rank will only be shown once (C75x, C76x outputs) • Secondary rank(s), if any will be repeated, with an "=" sign if there is sufficient space

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, WA, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	dd MMM yyyy (e.g. 6 APR 1896) • dd: date format, for example: 23 or 5 (presented without leading zero) • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case) • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case) • Mmm: month in abbreviation format - mixed case, for example: Apr for April • MMM: month in abbreviation format - upper case, for example: APR for April • yyyy: year format, for example: 1896 The "As of date" may reflect one of the following: • Date when data has been collected (e.g. world ranking) • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics) • Logical date if applicable Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8) This date is according to the local time zone at the competition venue.
Page break	Page break applies only for printed outputs. When the complete output fits on a single page, "None, aim for a single page" is written For multi-page outputs, there are three cases: 1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Not controlled with repeated output headings and column headings • Not controlled with repeated column headings only • Not controlled without repeated output headings and/or column headings

	2. Forced page break by "Group": This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page). 3. Forced page break by "Condition": This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page). A combination of the above three cases is possible within a single output.
Legend	The description table defines if a legend is required on an output: "None" is specified if no abbreviations are used in the output If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend) • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"
Notes	Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc. Each output could contain up to three different types of "Notes": 1. Note with static text: • If "Note with static text" is not planned, allowed or possible, "None" is written • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated

	2. Note with predefined, but changeable text: • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition 3. Note with free text: • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "References" for list of events)
Gender	Event gender indication (men, women), if applicable
Phase	Affected stage of competition (e.g. quarterfinals, etc.), if applicable
Unit	Specification of the phase (e.g. match 1, etc.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results: ☐ Affects Schedules: ☐ Affects Others: ☐

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

OFFICIAL COMMUNICATION (empty form)

OFFICIAL COMMUNICATION (possible templates)

Subtitle	A	Session has been delayed
	B	Session has been postponed
	C	Session has been interrupted
	D	Session has been rescheduled
	E	Session has been cancelled
	F	Jury decision: <…>
	G	WA decision: <…>
	H	Accident of FAMILYNAME Givenname (NOC)
	I	Archery: IOC disqualifies FAMILYNAME Givenname (NOC)
	J	Bad weather conditions
	K	...

Summary	1	The <...> had to be delayed due to <...>. It is expected that the delay should not be longer than nn minutes.
	2	The <...> had to be postponed due to <...>. The new start time of the <...> is unknown at the moment. Further details will be communicated as soon as available.
	3	The <...> had to be interrupted due to <...>. Further details will be communicated by the WA as soon as available.
	4	The <...> had to be rescheduled due to <...>. The new date and start time is dd?? Mmm?? yyyy?? at HH:MM.
	5	The <...> had to be cancelled due to <...>. The <...> will not be held during these Games.
	6	FAMILYNAME Givenname (NOC) submitted a protest related to <...>
	7	FAMILYNAME Givenname (NOC), Athlete No. <...> was disqualified for <...> (WA rule <...>)
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org *If the disqualified athlete is among medallists:* The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. The medallists are now: FAMILYNAME Givenname (NOC), gold, FAMILYNAME Givenname (NOC), silver, and FAMILYNAME Givenname (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC), member of team (NOC). According to the WA rules, this disqualification impacts on the results and ranking of the entire team. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org *If the disqualified team is among medallists:* The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC), member of team (NOC). According to the WA rules, this disqualification impacts on the results and ranking of the entire team. Note: Authors of this ORIS document do not imply that this is a complete list of Official Communications templates.

2 Results, Medals and Diplomas

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Archery.

Eligible athletes:

- Women's/Men's Individual: Athletes who competed in the finals and quarterfinals
- Women's/Men's Team: Athletes who competed in the finals and quarterfinals

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

	Event Type	
Medal Type/Diploma	**Individual**	**Team**
Gold	• 1	• 3
Silver	• 1	• 3
Bronze	• 1	• 3
Diploma	• 8 • Less than 8, only athletes competing in the Quarterfinals	• 24 • Less than 24, only athletes competing in the Quarterfinals

2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
If the gold medallist is disqualified			
~~1~~	~~1~~	~~FAMILYNAME 1 Givenname 1~~	~~NOC 1~~
2	1	FAMILYNAME 2 Givenname 2	NOC 2
3	2	FAMILYNAME 3 Givenname 3	NOC 3
4	3	FAMILYNAME 4 Givenname 4	NOC 4
5	5	FAMILYNAME 5 Givenname 5	NOC 5
6	6	FAMILYNAME 6 Givenname 6	NOC 6
7	7	FAMILYNAME 7 Givenname 7	NOC 7
8	8	FAMILYNAME 8 Givenname 8	NOC 8
9	9	FAMILYNAME 9 Givenname 9	NOC 9
If the first 5th ranked athlete is disqualified			
1	1	FAMILYNAME 1 Givenname 1	NOC 1
2	2	FAMILYNAME 2 Givenname 2	NOC 2
3	3	FAMILYNAME 3 Givenname 3	NOC 3
4	4	FAMILYNAME 4 Givenname 4	NOC 4
~~5~~	~~5~~	~~FAMILYNAME 5 Givenname 5~~	~~NOC 5~~
6	5	FAMILYNAME 6 Givenname 6	NOC 6
7	6	FAMILYNAME 7 Givenname 7	NOC 7
8	7	FAMILYNAME 8 Givenname 8	NOC 8
9	9	FAMILYNAME 9 Givenname 9	NOC 9

Note: If a team/athlete ranked 1 to 4 is disqualified, only the ranks of the other teams/athletes ranked 1 to 4 will be recalculated. If a team/athlete ranked 5 to 8 is disqualified only the ranks of the other teams/athletes ranked 5 to 8 will be recalculated. If a team/athlete ranked 9 or lower is disqualified, no rankings will be recalculated.

ORIS reference outputs:

- Final Ranking (Individual) (C76A)
- Final Ranking (Team) (C76B)

Note: The software must be flexible enough to handle medal allocations as decided by the WA and/or the IOC.

3 Data to be Captured

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
Individual			
WA Number	• Integer	SEQ	Provided by WA
Handedness	• Left • Right	SEQ	
MQS Score	• Integer	SEQ	
MQS Date	• Date	SEQ	
MQS Location	• Text	SEQ	
MQS Country	• Text	SEQ	
World Ranking	• Integer	SEQ	As of dd Mmm yyyy
Team			
Team World Ranking	• Integer	SEQ	As of dd Mmm yyyy

Document Control

Version History

Release 6 Version 1.2 27 Feb 2015	**Approved version** Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux. No further changes will be made to this document without Change Management except topics highlighted in yellow.
Release 6 Version 1.1 10 Jun 2014	**Approved (signed-off) version** Sign-off letters from both the WA (27 Sep 2014) and Rio 2016 (29 Sep 2014) have been received by the IOC. No further changes will be made to this document without Change Management except topics highlighted in yellow.
Release 6 Version 1.1 10 Jun 2014	**Submitted for sign-off** Updated with comments received in the review period after the ORIS meeting.
Release 6 Version 1.0 5 May 2014	**Submitted for review** Submitted for review after the ORIS Archery meeting, 25 - 27 Mar 2014. Based on the ORIS Archery meeting minutes as of 27 Mar 2014.
Release 6 Version 0 25 Feb 2014	**Draft** Updated based on ORIS document release 5, analysis of the London Questionnaire, issues logged as Rio 2016 improvements during the London Homologation Test and adjustments done for Nanjing 2014

Release 6 - Version 1.2 - 27 Feb 2015

Global Changes

1. The new output "Entries by Event" (C31C) has been introduced.
   Affected files: Procedures, Distribution Rules, output C31C.
2. The output "Minimum / Maximum" (N86G) has been removed throughout the document.
   Affected files: Procedures, Distribution Rules, output N86G.
3. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".
   Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").

Executive Summary

Chapter 2.2.4:

- In the second paragraph, the text has been updated regarding the presentation of column headings in outputs

Chapter 4:

- Steering Committee: The name of the Rio 2016 Sport Director has been changed to Mr Rodrigo GARCIA and Ms Flavia MELLO has been replaced by Ms Françoise PERROUD
- The department names for Mr Anthony EDGAR and Ms Françoise PERROUD have been adjusted
- Members of the Rio 2016 ORIS Management Team: The names and

functions have been adjusted as follows:
- Ms Isabella BURCZAK, IOC Sports, Head of Sport Projects
- Mr Pierre FRATTER-BARDY, IOC Sports, Head of Summer Sports and IF Relations
- Members of the ORIS Archery Working Group: Mr Murat OLGUN has been replaced by Mr Matteo PISANI

Archery References

Chapter 1 - Specifications
- Events: progression and competition format types: In the last bullet below the table, the reference sentence has been adjusted

Procedures

Chapter 2.1.1 - "Schedules":
- The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony

Chapter 2.1.2 - "Entries and Participant Data":
- The paragraph has been modified

Chapter 2.1.2.1 - "After the Sport Entry Deadline":
- The first paragraph has been modified

Chapter 2.1.2.3 - "Competition Officials":
- The text has been modified

Chapter 2.1.2.4 - "Substitution of a Games participant":
- The title has been changed to "Replacement of an athlete"

Chapter 2.1.2.4.1 - "Late athlete replacement":
- The text in the chapter has been modified

Chapter 2.2.3 - "Draw":
- A new second to last paragraph has been added regarding responsibilities of the OC

Chapter "News Service and Background information"
- Last paragraph: The wording has been adjusted from "Olympic Games Closing Ceremony" to "Closing Ceremony"

Section 1 - Outputs

General
- Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated
- For N-outputs: All titles above tables or any other sub titles have been written in mixed case

Outputs

C06:
- In the sample and description table, "Victory Ceremony" have been added

C24:
- Header H3 has been added to the output (based on Omega feedback)

C30:
- The source has been changed from "OC Competition Management" to "OC Technology"

C31A:
- The column heading "NOC" has been adjusted to "NOC Code"

C38:
- For TV names: Family names have been written in upper case (related CR 4933)
- Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added
- Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"

N17A:
- The presentation order has been adjusted to chronologically (descending),

	previous Games listed last N20: • In the Description table, the following comment has been added "For Major Achievements show only the levels of competitions relevant for that athlete." N22: • In the Description table, the following comment has been added "For Major Achievements show only the levels of competitions relevant for that team." N86B: • The sample has been updated with the latest WA information N86E: • The name of the WA Communications Manager has been updated in the sample
Section 2 - Distribution Rules	
	Main distribution table: • Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016 • For C08: The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)" • For C35: The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)" • Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added
Section 3 - Real Time Information	
Scoreboards	
	Chapter 2.1.1 - "NOC Names": • The entire bracket in the last sentence has been deleted Chapter 2.2 - "Technical Specifications": • A last sentence has been added: "The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the WA's approval." Chapter 2.4 - "Part B - Before and during the ranking round": • The chapter has been deleted (email from Omega 27 Jan 2015). Subsequent sections have been renumbered Chapter 2.10 - "Part H - During the Victory Ceremony": • The medal screen titles has been adjusted from "MEDALLISTS" to "VICTORY CEREMONY"
Sport Specific Real Time data	• A statement regarding the fact that there is no additional real time data available other than defined in Section 1 - Outputs has been added
Appendix A - Glossary	
	Chapter 1 - "Terms" • The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download" and "Results System Code (RSC)" • Term "Disqualification": The definition has been updated • Term "INFO": The definition has been updated Chapter 2.3 - "Competition Format Types" • Different types of bracket format have been added
Appendix C - Rules for Data Formats and Presentation	
	"Schedule status options" and "Results Status Options": • Codes and descriptions have been updated

Appendix D - Supporting Documents

- Page 1: The bullets have been modified
- Chapter 1 - "Templates for Official Communication": Under "Summary", "8", the wording regarding the ranking has been deleted
- New chapter "Results, Medals and Diplomas" has been added (part of the information of the former chapter "Medal and Diploma reallocation" has been included here)
- New chapter 3 - "Data to be Captured" has been added

Release 6 - Version 1.1 - 10 Jun 2014

Pending Action Items

The following sections contain text highlighted in yellow:

Scoreboards
- 2.4: Pending Rio 2016 and Omega decision regarding the possibility of having scoreboards on the Field of Play for the Ranking Round (due date 31 Dec 2014)

Appendix D
- Medal and Diploma Reallocation: options will be updated by the WA (due date 14 Apr 2014)

Global Changes

The following output has been added and the change is reflected throughout the document:

- N22 "Team Profile"

Executive Summary

- Chapter 4: the name of the IOC Sports Director has been updated

Archery References

1 - Specifications

- Events
  - The event phases have been updated to full length phase names

Procedures

- Chapter 2.1.2.1: The first sentence has been deleted (consolidation)
- Chapter 2.2.2.2: Date in the last paragraph has been changed from "June 2014" to "September 2014"

Section 1 - Outputs

Outputs

C75B:
- Sample 3: The inclusion of the DSQ athlete in the Final Ranking has been deleted

C76A:
- Sample 2: has been deleted. Description table - "Comments" has been updated accordingly.

C76B:
- Sample 1: free text note has been deleted. Description table - "Comments" has been updated accordingly.

N20:

- Additional fields have been added after feedback from WA based on the option list provided by Infostrada
- "Rio 2016 Results" section has been updated to include score from the Ranking Round and score and set points from each match in subsequent rounds

N22:

- Output has been added after feedback from WA based on the option list provided by Infostrada

Release 6 - Version 1.0 - 5 May 2014

Pending Action Items

The following sections contain text highlighted in yellow:

N20	• The WA should provide the ORIS team with the data required for the output "Athlete Biography" (N20) based on the option list provided by Infostrada (due date 14 Apr 2014)
Scoreboards	• 2.4: Pending Rio 2016 and Omega decision regarding the possibility of having scoreboards on the Field of Play for the Ranking Round (due date 31 Dec 2014)
Appendix D	• Medal and Diploma Reallocation: options will be updated by the WA (due date 14 Apr 2014)

Global Changes

- The term "FITA 70m round" has been changed to "70m round" throughout the document

The following output has been deleted and the change is reflected throughout the document:

- C45 "Pre-Draw List"

Executive Summary

- Chapter 4: the names and function of the ORIS Archery Working Group have been updated

Archery References

2 - Competition

- Competition format
  - "Individual", last bullet: The bracket "(6 of 10 possible)" has been deleted
  - "Team", fourth bullet: The sentence "The sum of the three team members' individual Ranking round points is used to seed the team in the Olympic round" has been added"
  - "Team", sixth bullet: The bracket "(5 of 8 possible)" has been deleted. The grey highlighting has been removed.
- Tie Break Rules
  - "Ranking round": The first sentence has been changed to read "Tie break for individuals and team (totals of three athletes)"
- Participation references
  - The grey highlighting has been removed from the number of athletes and teams

Chapter 3 - Documents

- The WA Rule Book has been listed as "WA Constitution & Rules Book, March 2014"

Procedures

- Chapter 2.1.2.2: The second sentence in the paragraph discussing the approval process of C38 and C39 has been changed to read: "The approved/corrected outputs should be returned to OC Technology no later than six (6) hours before the Draw".
  Output C35C "Team Officials by NOC" has been removed from the second list of outputs.
- Chapter 2.2.2.2: In the last paragraph the date has been set to "June 2014"
- Chapter 2.2.3: "Preparation of the pre-draw list" has been deleted, and the subsequent chapter has been renumbered.
- Chapter 2.2.3 (renumbered): "Draw" - the chapter has been revised
- Chapter 2.3.1: in the last paragraph the text has been changed to "electronic disk toss"
- Chapter 2.4.3: the last two paragraphs have been deleted
- Chapter 2.5.2.1: "Disqualification from a match" has been added and subsequent chapters have been renumbered
- Chapter 2.5.2.2: the title has been changed to "Disqualification from the tournament for unsportsmanlike behaviour".
  In the first paragraph "sports matters" has been changed to "unsportsmanlike behaviour".
- Chapter 2.5.2.2.1: the title has been changed to "Disqualification takes place during or after the ranking round".
- Chapter 2.5.2.2.2: the title has been changed to "Disqualification takes place during or after elimination or final rounds".
  The text in item 3 in the first list has been rewritten.
  In the seventh paragraph "nullified" has been changed to "adjusted according to the requirements described as follows".
  The text in item 4 in the second list has been rewritten.
- Chapter 2.5.4: in the second paragraph "or French" has been deleted
- Chapter 2.5.4.2: the fourth paragraph (starting "The English version …") has been deleted
- Chapter 2.6: the list of outputs has been modified
- Chapter 2.7: the text "selected by WA" has been added after output C68
- Chapter 3: some minor modifications regarding the optional text have been made

Section 1 - Outputs

Outputs

C08:

- Sample: The layout has been adjusted to follow the YORIS format

C24:

- Sample:
  - The terms "72 Arrows Ranking Round" and "216 Arrows Ranking Round" have been changed to "72 Arrows 70m Round" and "216 Arrows 70m Round" respectively
  - All references to the "24 Arrows Match" have been deleted

C26:

- Description table, Comments: The last sentence has been deleted since it is already described in the Procedures

C32E:

- Sample:
  - The layout has been changed to first show all teams sorted by NOC code, followed by all Individuals sorted by NOC code
  - The column "Team Coach" has been renamed to "Coach"

    - A new column "WA Team Ranking" has been added before the column "WA World Ranking".
    - The sample has been adjusted to show more than one coach for a team to show that this is possible
- Description table:
    - Comments: An explanation has been added that if an archer only starts as an Individual, no Team Ranking should be shown

C35C:
- The function "Coach" is now used, i.e. there is no more distinction between "Coach (Men)" or "Coach (Women)". Sample and description have been updated accordingly

C38:
- Sample: The World Archery Number has been adjusted to show five digits
- Description table, Sort by: All possible functions are now listed in brackets. These are: Athlete, Team Manager, Coach, Assistant Coach, Doctor, Physiotherapist.

C39:
- Sample: The WA Number has been adjusted to show five digits only

C45:
- The output has been deleted

C51C:
- Sample: The column heading "WA World Ranking" has been changed to "WA Team Ranking"

C58:
- The second sample has been adjusted to show names also for the men's matches
- Last sample: Session 1, column "Participant 1 (Target 1)": The row showing Sweden has been replaced by "- BYE-"

C66:
- Description table, Legend: The IRMs DNS and DSQ have been deleted since they would never be shown on this output

C70A:
- Sample: For a DNS athlete: No rank is shown, but show athlete number, archer's name, NOC code, WA World Ranking and DNS is shown in the "Score" column
- Sample: For a DSQ athlete for the round: All data is shown, except show "DSQ" in the "Score" column.
  For a DSQ athlete due to doping: No rank is shown, but show athlete number, athlete's name, NOC code WA World Ranking and DSQ is shown in the "Score" column

C70B:
- Sample: For a DSQ athlete: DSQ is shown for affected athlete in the "Individual Total" column. The score for the DSQ athlete is not taken into account.
  For a DSQ due to doping of one of the athletes: DSQ is shown for the affected athlete in the "Individual Total" column and DSQ is shown in the "Team Total" column. No rank is shown.

C73A:
- Sample: For a DNS athlete: No rank is shown, but show athlete number, archer's name, NOC code, WA World Ranking and DNS is shown in the "Score" column
- Sample: For a DSQ athlete for the round: All data is shown, except show "DSQ" in the "Score" column.
  For a DSQ athlete due to doping: No rank is shown, but show athlete number, athlete's name, NOC code WA World Ranking and DSQ is shown in the "Score" column

C73B:
- Sample: For a DSQ athlete: DSQ is shown for affected athlete in the "Individual Total" column. The score for the DSQ athlete is not taken into account.

For a DSQ due to doping of one of the athletes: DSQ is shown for the affected athlete in the "Individual Total" column and DSQ is shown in the "Team Total" column. No rank is shown.

C73C:

- The results of the DSQ samples have been updated - for the athlete winning the match: set results achieved with the winner's identification with arrow results, and for the disqualified athlete: "0" as a set result, "DSQ" identification without arrow results (Nanjing Conformance Test Issue ID # 616, 624).

C73D:

- Sample: The fields showing the "total number of sets won" have been deleted
- First sample: The total for the second shoot-off of Ukraine has been corrected
- The results of the DSQ samples have been updated - for the athlete winning the match: set results achieved with the winner's identification with arrow results, and for the disqualified athlete: "0" as a set result, "DSQ" identification without arrow results (Nanjing Conformance Test Issue ID # 616, 624).

C74C:

- Sample: The grey highlighting has been removed
- The results of the DSQ match has been updated - for the athlete winning the match: set results achieved with arrow results, and for the disqualified athlete: "DSQ" identification without arrow results (Nanjing Conformance Test Issue ID # 616, 624)

C75A:

- Last sample: The grey highlighting has been removed, and the quarterfinals has been completed to comply with the last sample of C75B

C75B:

- Second sample: In the Final Ranking, the rank for CHENG has been changed to 8 (instead of DSQ)
- The second and third samples have been changed to show the results of the DSQ match: for the athlete winning the match: set results achieved with the winner's identification with arrow results, and for the disqualified athlete: "0" as a result, "DSQ" identification without arrow results (Nanjing Conformance Test Issue ID # 616, 624)
- Last sample: The grey highlighting has been removed

C75C:

- Samples: The "BYE" for any first named team has been moved to the bottom line of the bracket
- Last sample: The grey highlighting has been removed
- Last sample: The score for Italy (DSQ) has been deleted
- Last sample: In the last bracket China / Ukraine the bold font has been corrected (was Ukraine, should be China)

C76A:

- Second sample: The rank for CHENG Chu Sian (MAS) has been changed from DSQ to 8
- Last sample: The grey highlighting has been removed

C76B:

- First sample: The rank for China has been changed from DSQ to 4
- Last sample: The grey highlighting has been removed

C81:

- Sample: The terms "72 Arrows Ranking Round" and "216 Arrows Ranking Round" have been changed to "72 Arrows 70m Round" and "216 Arrows 70m Round" respectively.

N02:

- Topic "Olympic Competition Format": In the second paragraph, the number of teams has been adjusted from 16 to 12.
- Topic "Differences between the World Archery Championships and the Olympic Games": The third sentence has been deleted.
- Topic "Differences between the World Archery Championships and the

Olympic Games": In the last paragraph, "Para-Archery" has been added.

- Topic "Sport Rules and Procedures": The brackets "(6 of 10 possible)" and "(5 of 8 possible)" have been deleted.
- Topic "Sport Rules and Procedures": The grey highlighting has been removed from the last two paragraphs.
- Topic "Sport Rules and Procedures", fourth paragraph: A second sentence has been added "The higher placed team in the ranking round will shoot first in the first set of each match."

N11:

- Sample: A table has been added to show the data for teams and individuals in a combined layout

N15:

- Sample: The output has been updated to show "Two or more gold medals" and "Three or more medals"

N17B:

- Sample: The information related to 4x6 arrows has been deleted

N20:

- Topic "Family information" has been deleted

N59B:

- Sample: The phase name in the heading has been changed to "Quarterfinals"

N62A:

- Description table, Description: The sentence has been adjusted to read "Comparison of all previous results between two athletes at Olympic Games, World Championships, World Cups and World Ranking events"

N62B:

- Sample: A blank line has been added between teams listed for better readability
- Description table, Description: The second sentence has been changed to read "Includes all results from Olympic Games, World Championships, World Cups and World Ranking events."

N86D:

- Topic "Air conditioning" has been deleted
- Topic "Lighting levels": The text has been changed from "N/A" to "…"

Section 2 - Distribution Rules

- General: All distribution to WA and Competition Management has been changed to "1"
- C06: the distribution "H" at DIFO to Venue Press Centre has been deleted.
- C08: the distribution "H+B" at DIFO to Venue Press Centre and "H" to Officials has been deleted.
- C32B: the distribution "H" at OVRO to Venue Press Centre has been deleted.
- C32E: the distribution "H" at OVRO to Venue Press Centre has been deleted
- C38: the distribution "1" at OVRO and "P" at 24HBD to CM has been deleted
- C39: the distribution "P" at 24HBD to CM has been
- C58: availability "120MARA" has been deleted.
  Availability "120MALRA" has been added.
  Distribution "H" at 120MALRA to Venue Press Centre has been deleted.
- C65B: availability "20MARA" for 1/32 Round has been deleted.
  Availability "30MALRA" for 1/32 Round has been added.
  Availability "2MARQ2" for Semifinal 1 has been deleted.
  Availability "2MARQ4" for Semifinal 2 has been deleted.
  Availability "2MARA" for Semifinals has been added.
- C65C: availability "20MARA" for 1/8 Round has been deleted.
  Availability "30MALRA" for 1/8 Round has been added.
  Availability "2MARQ2" for Semifinal 1 has been deleted.
  Availability "2MARQ4" for Semifinal 2 has been deleted.
  Availability "2MARA" for Semifinals has been added.
- C70A: the distribution "H" at 15MAH to Venue Press Centre has been deleted
- C70B: the distribution "H" at 15MAH to Venue Press Centre has been deleted
- C76A: the distribution "H" at 10MAFA to Common Work Room has been

	deleted • C76B: the distribution "H" at 10MAFA to Common Work Room has been deleted • N87A: the distribution to Venue Press Centre has been deleted • N88: the distribution to Venue Press Centre has been deleted • N89: the distribution to Venue Press Centre has been deleted • • Chapter 5: The following code and definition have been added: • "xMALRA" - X (x) minutes after the results of the last ranking round are approved Code xMARQy has been deleted
Section 3 - Real Time Information	
Scoreboards	2.4: • New section, all following sections have been renumbered accordingly 2.4.1: • New screen 2.4.2: • New screen 2.4.3: • New screen 2.6.1: • Sample with DNS: The result is shown as (6-0) with no arrow results for either the winner or the athlete marked as DNS. Sample with DSQ: For the winning athlete show the set results, winners identification and arrow results; for the disqualified athlete show the set result as "0", and "DSQ" without arrow results (Nanjing Conformance Test Issue ID # 616). 2.9.1: • Sample with DNS: The result is shown as (6-0) with no arrow results for either the winners or the team marked as DNS. Sample with DSQ: For the winning team show the set results, winners identification and arrow results; for the disqualified team show the set result as "0", and "DSQ" without arrow results (Nanjing Conformance Test Issue ID # 616).
Real Time Display System (RTDS)	A first sentence has been added: "Data for the RTDS will be provided by the WA. However, Rio OC will be responsible for providing all necessary infrastructure to enable this service for the Ranking Round (Field of Play)." 3.1.1: • Screen: After the current total score, the target indication has been added • Screen: The team score has been adjusted to allow four digits (a comment has also been added to the "What" section) 3.2.1: • Chapter has been deleted 3.2.2: • Chapter has been deleted
Sport Specific Real Time data	There is no real time information available other than the results information • The entire section has been deleted
Appendix A - Glossary	
	The following terms and definitions have been updated by the WA • Assistant Director of Shooting • Athlete Number • Bye • Chairman of Judges' Commission • Class • Director of Shooting

- Divisions
- Draw
- End
- Field of Play
