Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Diving. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Diving References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, FINA and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of FINA, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of FINA, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of FINA and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Diving Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
 - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
 - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
 - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
 - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, FINA should approve the proposed solution.

2.2.6.2 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Diving draft document, based on:
 - The last version of the ORIS Diving document of the previous Games
 - International Federation sport rules, competition format and requirements for these Games
 - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Diving meeting, the draft will be made available to the ORIS Diving Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Diving Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Diving document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Diving Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Diving document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

FINA and the Organising Committee will sign-off the ORIS Diving document after all agreed changes have been implemented.

For FINA, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Diving competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if FINA or the OC requests any change which has an impact on the ORIS Diving document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Diving document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (FINA, media, teams, etc.)
- To prepare required changes to the ORIS Diving document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Diving Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by FINA and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Diving document. The test begins with entry data for athletes and officials, continues with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, medals, etc.
- Scoreboards

FINA, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the FINA and WNPA reports. Those documents are then sent to the OC, FINA, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games Questionnaires to document FINA, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Diving document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Diving Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Diving project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of FINA, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Diving Working Group:

- Attends the ORIS meeting to discuss and agree on the Diving results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Diving Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Diving Working Group are:

- **Mr Jesus MENA**, FINA Bureau Liaison
- **Ms Kathy SEAMAN**, FINA Technical Diving Committee Chairman
- **Ms ZHOU Jihong**, FINA Technical Diving Committee Vice-Chairman
- **Mr Eduardo FALCÃO**, Rio 2016, Sport Manager for Diving
- **Ms Raquel CAVACO NUNES**, Rio 2016 Venue Press and Photo Operations
- **Mr Tassos KOUTSOGIANNIS**, Rio 2016 Cluster Venue Results Manager
- **Ms Katy ZAVALETA**, Atos IDS Sports Specialist
- **Mr Andre SAUGY**, OMEGA Venue Manager
- **Mr Daniel MOOR**, OMEGA Results Manager
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Mr Derek LINDSLEY**, IOC ORIS Sport Analyst for Diving

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

Diving References

1 Specifications

- Events: progression and competition format types

Event	Event Phase	Progression Type	Competition Format Type
Men's 3m Springboard	Preliminary, Semifinal, Final	Qualification	In-line
Men's 10m Platform	Preliminary, Semifinal, Final	Qualification	In-line
Men's Synchronised 3m Springboard	Final only	Single phase	In-line
Men's Synchronised 10m Platform	Final only	Single phase	In-line
Women's 3m Springboard	Preliminary, Semifinal, Final	Qualification	In-line
Women's 10m Platform	Preliminary, Semifinal, Final	Qualification	In-line
Women's Synchronised 3m Springboard	Final only	Single phase	In-line
Women's Synchronised 10m Platform	Final only	Single phase	In-line

- The events are presented in traditional FINA order
- Total number of events: 8
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

2 Competition

- Competition format**
 - Individual events
 - Preliminary, semifinal and final. The best 18 divers in the preliminary (including all tied for 18th place) qualify to the semifinal. The best 12 divers in the semifinal (including all tied for 12th place) qualify to the final.
 - Synchronised events (two divers, called a team)
 - Final only
 - For all events
 - Men perform six dives in each phase
 - Women perform five dives in each phase
- Tie Break Rules**
 - There are no tie breaking rules for qualification or for ranking. Tied competitors will share the rank, and for individual events all divers tied for the last qualifying place will advance to the next phase.
- Venue type**
 - Outdoor
 - Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Maximum 136 divers
- Individual Diving: maximum of 34 divers in each event, with maximum of two divers per NOC
- Synchronised Diving: eight teams per event, with maximum of one team per NOC
- Alternates/Substitutes: Yes. An NOC is allowed to replace a diver with another diver from the same NOC up to three (3) hours before the start of the preliminary for individual diving, and prior to the start of the Final for synchronised diving. If a qualified team withdraws from a synchronised diving event it will be replaced by the next ranked team from the 20th FINA Diving World Cup 2016. Normally, such a replacement may take place up to one (1) month before the Games.

3 Documents

- Olympic Charter in force
- Host City Contract
- 2013-2017 FINA Handbook (current edition)

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Diving events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the FINA Executive Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once FINA and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Diving competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Training Schedule (C07)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)
- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other FINA events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the output:

- Entry Data Checklist (C38)

will be produced with all name lengths to be used during the Games and given to OC Competition Management for checking and approval.

The OC Competition Management is responsible for the verification of data for all participants and will return the approved/corrected outputs to OC Technology no later than two (2) hours before the Technical Meeting.

In addition, the output:

- Entry Data Checklist - Competition Officials (C39)

will be given to the TDC Commission for checking and approval. The Commission will return the approved/corrected outputs to OC Technology no later than two (2) hours before the Technical Meeting.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

2.1.2.3 Competition officials

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the outputs "Technical Diving Committee" (C35) and "Judges" (C35B).

Four (4) days before INFO goes live, the Venue Results Manager should produce the outputs:

- Technical Diving Committee (C35)
- Judges (C35B)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once FINA and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

2.1.2.4 Replacement of an athlete

2.1.2.4.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly

This procedure must be completed before the Technical Meeting.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

An NOC is allowed to replace a diver with another diver from the same NOC up to three (3) hours before the start of the preliminary for individual events, and prior to the start of the final for synchronised events. If a qualified team withdraws from a synchronised diving event it will be replaced by the next ranked team from the 20th FINA Diving World Cup 2016.

2.1.2.5 FINA unique athlete identification

FINA does not maintain an athlete ID database.

2.2 Pre-Competition Activities

After FINA officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the Technical Meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and FINA will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 Technical Meeting and Draw

The Technical Meeting and Draw will be held one (1) day before the start of competition.

The TDC Commission will provide OC Technology with the data required for the output "Panel of Judges" (C57) as soon as it is available before the Technical Meeting.

2.2.2.1 Before the meeting

One (1) hour before the Technical Meeting, the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)
- Entry List by Event (C32C)

will be printed for final verification with the NOCs during the meeting.

2.2.2.2 During the meeting

During the first part of the meeting NOC officials will once more verify the participant data as provided in the outputs. Final changes to the entry list should be accepted from team leaders and/or coaches. These may include name changes, late withdrawals, etc.

During the Technical Meeting, after approval, the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)
- Entry List by Event (C32C)

will be available in INFO.

A computerised draw is held based on the final version of the entry list. The purpose of the draw is to decide the start order of the divers and teams for all events.

OC Technology must be able to support the draw (whatever format) and feed the results of the draw into the OC computer systems (from any location). The draw is open to the public.

It is important to define a backup procedure in the event of computer failure. Numbered ping-pong balls and/or numbered pieces of paper drawn from a hat are good methods for conducting a manual draw.

2.2.2.3 After the meeting

Thirty (30) minutes after the Technical Meeting - the completion of all of the draws (one for each event) and their approval by the FINA TDC, the outputs:

- Start List (Individual - Preliminary) (C51A) - for all individual events
- Start List (Synchronised) (C51D) - for all synchronised events
- Panel of Judges (C57) - for all individual preliminary and synchronised final

will be produced and distributed according to the ORIS distribution rules.

As large numbers of these outputs will be required it is extremely important that OC Technology fully prepare for this process together with the OC Competition Management and provide adequate resources and trained personnel to meet the distribution time (printing, copying, collation and stapling equipment, distribution personnel).

2.3 Results Processing

This section will describe the procedures for producing results during all of the diving events. It is divided into two subsections - one for all of the individual events and one for all of the synchronised events. Each subsection is structured into the same divisions (or groups of steps) as the corresponding processes outlined in Section 2 - Distribution Rules.

For the Olympic Games the diving competition includes both individual events (for single divers) and synchronised events (for a team of two divers).

There are four individual events consisting of three phases each: preliminary, semifinal and final. Each phase consists of a set number of rounds, or dives, for each diver (six for men and five for women). The four individual events are men's 3m springboard, women's 3m springboard, men's 10m platform and women's 10m platform.

There are also four synchronised events: men's synchronised 3m springboard, women's synchronised 3m springboard, men's synchronised 10m platform and women's synchronised 10m platform. A synchronised event consists of only one phase, the final, which consist of a set number of rounds, or dives, by each team (six for men and five for women).

All intermediate and finish scores will be entered into the OC Technology results system from the official timing system through electronic interface. Results must be reviewed promptly and efficiently, in order to reduce the risks of displaying incorrect information on the scoreboard, data feed, INFO and for other results clients. A review of results by persons experienced in the sport of Diving prior to distribution will also reduce the likelihood of protests.

Results are time-critical. Production and distribution of printed results must be well planned. A well-thought out matrix describing when, to whom, and in what quantities printed results should be distributed, is essential to avoid paper "overflow".

In its on-line version, results of every dive of every round of every phase should be available immediately after the results have been made official (usually less than one (1) minute after the dive has been performed).

2.3.1 Results processing for individual events

2.3.1.1 Before the preliminary

Divers have until twenty-four (24) hours before the start of the preliminary to submit the list of their dives on a dive sheet for the preliminary, and if they choose to do so, for the semifinal and final.

Late dive sheets are accepted until three (3) hours before the start of the session with the payment of a fee.

No later than eighteen (18) hours before the start of the event, regardless of any missing dive sheets, the outputs:

- Dive List (Individual) (C51E)
- Dive Description (Individual) (C51G)

will be produced for the preliminary.

The dive list is for the divers, officials, and coaches who are intimately familiar with the dive coding system, while the dive description output is designed for media and others less familiar with the codes.

2.3.1.2 Preliminary - during and after each round (including the last round)

No later than five (5) minutes after the round, the output:

- Intermediate Results - After x Rounds (Individual) (C70A)

will be distributed according to the ORIS distribution rules.

2.3.1.3 Preliminary - after the last round

After the last round of dives, the output:

- Results (Individual) (C73A)

will be given to the referee for sign-off.

Two (2) minutes after the results of the last round are approved, the outputs:

- Results (Individual) (C73A)
- Detailed Results (Individual) (C73E)

will be available in INFO.

Five (5) minutes after the results of the last round are approved, the output:

- Results (Individual) (C73A)

will be distributed according to the ORIS distribution rules.

Ten (10) minutes after the results of the last round are approved, the output:

- Detailed Results (Individual) (C73E)

will be distributed according to the ORIS distribution rules.

OVR will produce and deliver the judges' analysis for the TDC Commission.

2.3.1.4 Before the semifinal

The semifinal start order is the reverse order of the overall rank after the preliminary for the 18 qualified divers (and all divers tied for 18th position). If two or more qualified divers are tied, the order will be decided by a draw.

Within ten (10) minutes after the results of the preliminary are approved, if no protests are submitted, or after the resolution of any protest, the output:

- Start List (Individual - Semifinal) (C51B)

will be produced and distributed according to the ORIS distribution rules.

Up to thirty (30) minutes after the approval of the results of the preliminary, divers may change their dive list. If a diver does not submit a new dive list, his/her dive list from the preliminary will be used.

Forty-five (45) minutes after the results of the preliminary are approved, the outputs:

- Dive List (Individual) (C51E)
- Dive Description (Individual) (C51G)

will be produced and distributed according to the ORIS distribution rules, based on the dive sheets for the semifinal that were submitted with the preliminary dive sheets, and any newly submitted changes.

The panel of judges assigned for the semifinal will be appointed by the TDC Commission.

Ninety (90) minutes after the results of the preliminary are approved, the output:

- Panel of Judges (C57)

will be produced and distributed according to the ORIS distribution rules.

2.3.1.5 Semifinal - during and after each round (including the last round)

Five (5) minutes after the round, the output:

- Intermediate Results - After x Rounds (Individual) (C70A)

will be distributed according to the ORIS distribution rules.

2.3.1.6 Semifinal - after the last round

After the last round of dives, the output:

- Results (Individual) (C73A)

will be given to the referee for sign-off.

Two (2) minutes after the results of the last round are approved the outputs:

- Results (Individual) (C73A)

- Detailed Results (Individual) (C73E)

will be available in INFO.

Five (5) minutes after the results of the last round are approved, the output:

- Results (Individual) (C73A)

will be distributed according to the ORIS distribution rules.

Ten (10) minutes after the results of the last round are approved, the output:

- Detailed Results (Individual) (C73E)

will be distributed according to the ORIS distribution rules.

OVR will produce and deliver the judges' analysis for the TDC Commission.

2.3.1.7 Before the final

The final start order is the reverse of overall rank after the semifinal for the 12 qualified divers (and all divers tied for 12th position). If two or more qualified divers are tied, the order will be decided by a draw.

Within ten (10) minutes after the results of the semifinal are approved, if no protests are submitted, or after the resolution of any protest, the output:

- Start List (Individual - Final) (C51B)

will be produced and available according to the ORIS distribution rules.

Diving policy dictates that a judge from the same NOC as a competitor in the final, may not officiate the session.

Thirty (30) minutes after the end of the semifinal, the divers can change their dive list. If a diver does not submit a new dive list, his/her dive list from the semifinal will be used.

Forty-five (45) minutes after the results of the semifinal are approved, the outputs:

- Dive List (Individual) (C51E)
- Dive Description (Individual) (C51G)

will be produced and distributed according to the ORIS distribution rules, based on the dive sheets for the final that were submitted with the preliminary dive sheets, and any newly submitted changes.

The panel of judges assigned for the final will be appointed by the TDC Commission.

Ninety (90) minutes after the results of the semifinal are approved, the output:

- Panel of Judges (C57)

will be produced and distributed according to the ORIS distribution rules.

Sixty (60) minutes before the final, ONS will produce the output:

- Extended Start List (Individual) (N59A)

for distribution according to the ORIS distribution rules.

No later than sixty (60) minutes before the final the OC Protocol should provide ONS and OC Technology with the names of presenter(s) and accompanying person(s).

When the presenters are confirmed by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.1.8 Final - during and after each round (including the last round)

Five (5) minutes after the round, the output:

- Intermediate Results - After x Rounds (Individual) (C70A)

will be distributed according to the ORIS distribution rules.

2.3.1.9 Final - after the last round

After the last round of dives, the output:

- Results (Individual) (C73A)

will be given to the referee for sign-off.

Two (2) minutes after the results of the last round are approved, the outputs:

- Results (Individual) (C73A)
- Detailed Results (Individual) (C73E)
- Results Summary (C74)

will be distributed according to the ORIS distribution rules.

Two (2) minutes after medal results are approved, the outputs:

- Results Summary (C74)
- Medallists (Individual) (C92A)
- Medallists by Event (C93)
- Medal Standings (C95)

will be available in INFO.

Five (5) minutes after the results of the last round are approved, the outputs:

- Results (Individual) (C73A)
- Medallists (Individual) (C92A)

will be distributed according to the ORIS distribution rules.

Ten (10) minutes after the results of the last round are approved, the output:

- Detailed Results (Individual) (C73E)

will be distributed according to the ORIS distribution rules.

OVR will produce and deliver the judges' analysis for the TDC Commission.

Fifteen (15) minutes after medal results are approved, the output:

- Results Summary (C74)

will be distributed according to the ORIS distribution rules.

2.3.2 Results processing for the synchronised events

2.3.2.1 Before the final

Teams have until twenty-four (24) hours before the start of the event to submit the list of their dives on a dive sheet. The rules for submitting dive sheets are identical to the preliminary session of individual events. The outputs:

- Dive List (Synchronised) (C51F)
- Dive Description (Synchronised) (C51H)

will be produced no later than eighteen (18) hours before the start of the event regardless of any missing dive sheets.

An NOC can replace the team up to the start of the event. A corrected version of the outputs:

- Dive List (Synchronised) (C51F)
- Dive Description (Synchronised) (C51H)

will be produced if any change occurs.

Sixty (60) minutes before the final, ONS will produce the output:

- Extended Start List (Synchronised) (N59B)

for distribution according to the ORIS distribution rules. If an NOC changes a team this output will be updated if time permits.

No later than sixty (60) minutes before the final, the OC Protocol should provide ONS and OC Technology with the names of presenter(s) and accompanying person(s).

When the presenters are confirmed by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.2.2 Final - during and after each round (including the last round)

Five (5) minutes after the round, the output:

- Intermediate Results - After x Rounds (Synchronised) (C70B)

will be distributed according to the ORIS distribution rules.

2.3.2.3 Final - after the last round

After the last round of dives, the output:

- Results (Synchronised) (C73D)

will be given to the referee for sign-off.

Two (2) minutes after the results of the last round are approved, the outputs:

- Results (Synchronised) (C73D)
- Detailed Results (Synchronised) (C73F)
- Medallists (Synchronised) (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)

will be available in INFO.

Five (5) minutes after the results of the last round are approved, the outputs:

- Results (Synchronised) (C73D)
- Medallists (Synchronised) (C92B)

will be distributed according to the ORIS distribution rules.

Ten (10) minutes after the results of the last round are approved, the output:

- Detailed Results (Synchronised) (C73F)

will be distributed according to the ORIS distribution rules.

OVR will produce and deliver the judges' analysis for the TDC Commission.

2.4 Common Sport Functions

2.4.1 Official Communications

The FINA TDC Chairman or the designated TDC Commission member may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the FINA TDC Chairman or the designated TDC Commission member will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or diver/team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the FINA TDC Chairman or the designated TDC Commission member has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from FINA, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.4.3 Control room procedures

The following section describes activities and procedures the control room staff should follow to run the OC results system in a smooth and efficient manner. The section concentrates on the timing of scoreboard displays and the production of results outputs. It is assumed that all printed entry lists and start lists have been made available and are correct.

The scoreboard production should pay attention to how long the scoreboard should be presented. They should take into consideration the available time and the importance of the information that is presented.

2.4.3.1 Before dive

The "Before Dive" scoreboard is presented on the scoreboard as the diver/team prepares on the springboard/platform. The diver's name and dive to be attempted is simultaneously announced over the public address system.

2.4.3.2 During dive

The scoreboard remains in "Before Dive" state throughout the dive until all the judges' scores are in the system. The referee or assistant referee will be monitoring the scores as they flow through the system checking for accuracy, consistency, and logical results.

2.4.3.3 After dive

After approval by the referee, and when all scores have been confirmed in the system, they should be released to the scoreboard. A simultaneous announcement takes place over the public address system.

2.4.3.4 After the round

Upon completion of the round, the intermediate results should be displayed. Each frame of the scoreboard should be kept long enough for the public to read at a normal pace.

2.4.3.5 After the session

Results of the session through the final round should be displayed at the conclusion of the session. Each frame of the scoreboard should be kept long enough for the public to read at a normal pace.

2.4.3.6 Quality control

One person, based in the control room, should be assigned the task of immediately comparing printed results with other downstream systems such as TV, INFO, data feed, and Internet. This person functions as the overall quality control inspector for all results. A person intimately familiar with the sport is an enormous asset in detecting wrong or illogical results quickly. Operators sending outputs for print and distribution should be in on-going communication with printer operators to ensure that outputs are making it through the queue within designated time limits. Reprints and/or corrections should also be explained to avoid confusion.

2.4.4 Weather

Weather information that includes weather conditions for the current day and the forecast for the next two (2) days must be provided beginning three (3) days prior to the competition until the last day of competition. This information is specifically about weather at the Diving venue.

The output:

- Weather (C49)

is updated in INFO after each update has been received from the meteorological services.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the TDC Commission or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

The following schedule status options are applicable to an event or event unit (session):

2.5.1.1 Delayed

A delay may occur if a session does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

Rain and wind may cause delays.

2.5.1.2 Postponed

A session did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled. If an interrupted session cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A session may be subject to an unplanned interruption after it has started.

The time of resumption or restart is unknown. If the session cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

If a session in progress is interrupted, it will resume at the point of interruption.

2.5.1.4 Rescheduled

A session may be rescheduled if it cannot be held at the originally scheduled start date/time.

The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled. Start lists may be reissued as "REVISED".

2.5.1.5 Cancelled

A session which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and FINA Bureau will decide what effect the situation would have on the competition and what actions should be taken.

For outputs with the indication "after x of y events", the number of events (y) will remain unchanged.

2.5.2 Competition Related

2.5.2.1 Withdrawals

Withdrawals during competition are a normal part of diving. They can occur at any time (e.g. due to injury). In general a diver/team will retain all their points and ranking up to the withdrawal and should have zero points for any dive not performed.

If a withdrawal takes place before the Technical Meeting, the diver or team will not be drawn for the start list (the preliminary or final).

If a withdrawal takes place after the Technical Meeting, the diver or team may be replaced by another diver or team from the same NOC.

If a team withdraws before the start of diving, it will be marked as "DNS" (Did Not Start) in results.

If a diver withdraws before the start of the preliminary, he/she will be marked as "DNS" (Did Not Start) in results.

If a diver withdraws before the start of the semifinal or final, he/she will be replaced by the next available reserve. The withdrawn diver will retain the results already obtained and will be ranked accordingly.

If a withdrawal occurs, whether or not it causes the production of a new start list, the output "Official Communication" (C67) explaining the change must be immediately issued, and distributed according to the ORIS distribution rules.

2.5.3 Disqualifications

Disqualifications in diving are rare, but if they occur they will impact on results and rankings.

Disqualification can only occur due to breach of sport ethics rules (e.g. offensive behaviour, doping) and will apply to all events of the Games at the discretion of the IOC and/or FINA Bureau.

In such a case, all the results achieved in all of the events of the Games, will be removed, and recalculated for remaining divers/teams. The disqualified diver or team will be listed at the bottom with no rank. All affected start list and/or results outputs will be re-issued, marked as "REVISED". If a disqualified diver or team is a medal winner, the medals will be re-awarded. All affected medal outputs will be re-issued marked as "REVISED".

2.5.3.1 Disqualifications during competition

The following actions should be taken depending on the event and the phase in which the disqualification occurs:

2.5.3.1.1 Before individual diving - preliminary phase

If a diver is disqualified after a preliminary phase draw but before the preliminary, an official communication should be issued, the preliminary outputs (C51A, C51E, C51G) should be updated (the diver should be removed from the output and consequently the start order re-adjusted) and distributed marked as "REVISED", with a note explaining the disqualification.

2.5.3.1.2 Individual diving - preliminary phase

A diver will be marked as "DSQ" in the preliminary outputs (C73A, C73E). This will be reflected in the results summary (output C74, for the preliminary). If a diver qualified to the semifinal, an official communication should be issued and the semifinal outputs (C51B, C51E, C51G) should be updated and distributed marked as "REVISED", with a note explaining the disqualification.

2.5.3.1.3 Individual diving - semifinal phase

A diver will be marked as "DSQ" for the semifinal as well as the preliminary (outputs C73A, C73E). This will be reflected in the results summary (output C74, for the semifinal). If a diver qualified to the final, an official communication should be issued and the final outputs (C51B, C51E, C51G) should be updated and distributed marked as "REVISED", with a note explaining the disqualification.

2.5.3.1.4 Individual diving - final phase

A diver will be marked as "DSQ" for the final as well as the preliminary and semifinal outputs (C73A, C73E). This will be reflected in the results summary (output C74, for the preliminary). Also, if a medallist, the diver should be removed from the medal outputs (C92A, C93), and C95 should be adjusted.

2.5.3.1.5 Before synchronised diving

If a team is disqualified after a draw but before the final, an official communication should be issued, the outputs (C51D, C51F, C51H) should be updated (the team should be removed from the output and consequently the start order re-adjusted) and distributed marked as "REVISED", with a note explaining the disqualification.

2.5.3.1.6 Synchronised diving

A team will be marked as "DSQ" in the final outputs (C73D, C73F). Also, if medallists, the team should be removed from the medal outputs (C92B, C93), and C95 should be adjusted.

In all of the above cases, a note at the bottom of the output(s) must explain the reason for each disqualification.

2.5.3.2 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the TDC Commission or designated person before distribution.

2.5.3.3 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, FINA will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or FINA. FINA is responsible for providing the updated results to the IOC.

2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission

If an athlete or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The athlete/team, the athlete's/team's NOC, FINA, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The TDC Commission or the designated person should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D (Subtitle: E, Summary: 8, Issued by: I, Further information: iv) of this document.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the TDC Commission or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the TDC Commission or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Diving competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the TDC Commission during those periods before or after the Games may require that a designated person be available to cover this responsibility.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant FINA and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
 - Intermediate Results - After x Rounds (Individual) (C70A)
 - Intermediate Results - After x Rounds (Synchronised) (C70B)
 - Medallists by Event (C93)
 - Medal Standings (C95)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Diving cover page
- Version History (only if more than one version of the Results Book is produced)

Non-event specific outputs:

- Medallists by Event (C93)
- Competition Schedule (C08)
- Technical Diving Committee (C35)
- Judges (C35B)
- Entry List by NOC (C32A)
- Official Communication (C67) - selected outputs related to FINA and/or IOC decisions which had an impact on results
- Sport Communication (C68) - selected outputs at the discretion of the FINA TDC

All the outputs of an event should be grouped. The events will be ordered in chronological order of their final.

For each synchronised event:

- Panel of Judges (C57)
- Results (Synchronised) (C73D)
- Detailed Results (Synchronised) (C73F)

For each individual event the order of the outputs will be:

- Results Summary (C74)

For preliminary:

- Panel of Judges (C57)
- Results (Individual) (C73A)
- Detailed Results (Individual) (C73E)

For semifinal:

- Panel of Judges (C57)
- Results (Individual) (C73A)
- Detailed Results (Individual) (C73E)

For final:

- Panel of Judges (C57)
- Results (Individual) (C73A)
- Detailed Results (Individual) (C73E)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Diving competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- FINA

- All NOCs
- Accredited media

3 News Service and Background Information

Data for all Biographies and Historical Results will be supplied by the IOC to the OC.

The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

FINA agrees to supply data regarding medallists in accordance with a schedule agreed between the parties. However, FINA does not maintain any other data related to historical results or biographies.

FINA cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from FINA and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between FINA and the third party provider. Schedules may be different depending on the type of data.

There is no requirement for data validation by FINA.

The provider will update data after final delivery as required (corrections, information updates, etc.). The IOC will act as a facilitator between FINA, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to FINA and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)
- Individual Achievements / Records (N18A)

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Judge/Referee Biography (N23)
- NOC Profile (N24)

3.3 Facts and Figures

3.3.1 Diving Background Information

Data for the Diving background information will be developed by ONS, in cooperation with the OC Competition Management and the FINA Executive Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - FINA - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the FINA Executive Director will immediately inform ONS who will update the information within one (1) working day.

3.3.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the FINA Executive Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02A)
- Dive Table (N02B)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the FINA Executive Director for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the FINA Executive Director will update the information within one (1) working day.

3.4 News

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.4.1 Pre-competition News

3.4.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Diving Working Group recommends that ONS at the Diving venue produces the output:

- Sport Preview (N89)

and every evening for the following day, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.4.1.2 Extended start list

The outputs:

- Extended Start List (Individual) (N59A)
- Extended Start List (Synchronised) (N59B)

contain information in free text format about finalists. The type of information can vary, but usually includes a brief summary of Olympic, World Championships, Grand Prix and continental championships results, as well as personal information and honours. Severe space constraints may necessitate use of commonly used diving or sports abbreviations.

This information can only be produced after the finalists are known. For this reason, the extended start lists require more time to produce than the traditional start list that is automatically generated. However, the output should be produced by the ONS no later than one (1) hour before the start of final. Background information on most of the top divers should be "preloaded" into the system in the weeks before competition, but updates (for example, medals won at current Games) are still needed. The extended start list should be prepared and/or updated by the ONS and entered into the OC computer system at designated terminals.

3.4.2 News During and After Competition

Media covering Diving events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.4.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.4.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.4.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Daily Review (N89)
- Sport Review (N89)

3.5 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

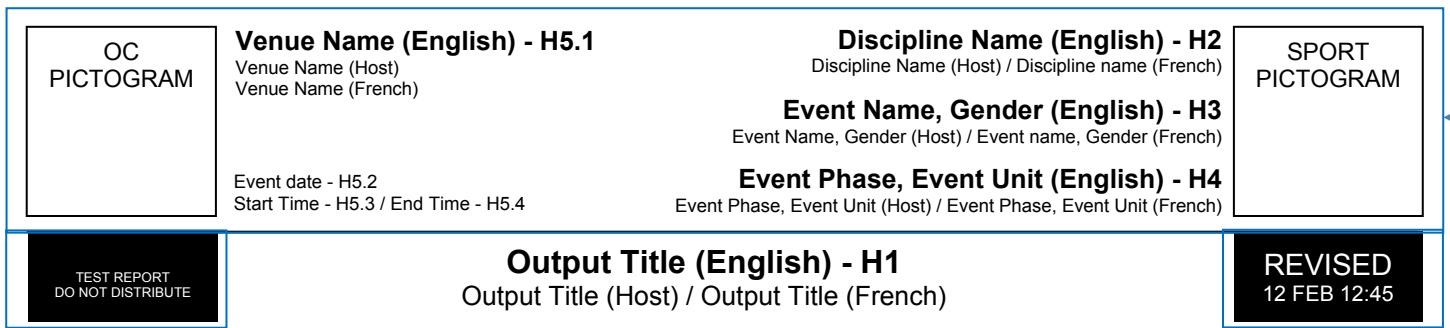

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

This page intentionally left blank.

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

Output body

Content information:

The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 st , 2 nd , 3 rd , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		Technical Data		
TD FIS	KROGOLL Peter	GER		
Referee	SKAARDAL Atle	FIS		
Chief of Race	HOLLIDAY Bruce	CAN		
Start Referee	KLAMMER Herbert	ITA		
Finish Referee	PALOVICOVA Jana	SVK		

The corresponding data matrix levels are:

7 (n)	For each jury member	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	Technical data	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	HOELZL Kathrin	1984	GER	
2	205218	REBENSBURG Viktoria	1989	GER	
3	185140	POUTAINEN Tanja	1980	FIN	
4	55838	ZETTEL Kathrin	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric
11	Number of NOCs	M	Numeric
12 (n)	For each competitor	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
Legend:						
DH	Downhill	GS	Giant Slalom	SC	Super Combined	SG
SL	Slalom	WCSL	Overall points	YB	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	Legend		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

This page intentionally left blank.

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications. Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

Note:

Truncated names are indicated with an * and must be checked carefully.

C38 - Entry Data Checklist

Description	Detailed list of all divers. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Gender (female first) 3 - Family name 4 - Given name
Page break	Break at "Condition = NOC code" with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" with repeated output headings and column headings.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the FINA/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. The layout of this output may be either in portrait or landscape, as required.

C51B - Start List (Individual - Semifinal/Final)

Description	List of divers in start order for the semifinal and final
Source	OC Technology
Sort by	1 - Start order
Page break	Not controlled with repeated output headings and column headings
Notes	<p>Note with static text: None</p> <p>Note with predefined text: None</p> <p>Free text: See Appendix C - Rules for Data Formats and Presentation</p>
Legend	See sample for all possible abbreviations: To be displayed at the bottom of the last page
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	<p>1. There is a tie for reserve - two or more tied for rank 19 in the preliminary or for rank 13 in the semifinal:</p> <p>Tied reserves should display "R" with no number. For example, if three divers are tied for rank 19 in the preliminary, the start list for the semifinal should show:</p> <p>R: Diver 1 R: Diver 2 R: Diver 3</p> <p>with the divers shown in alphabetical order.</p> <p>In this case, if one qualified diver withdraws, all three of the reserves will dive in the semifinal</p> <p>2. There are several tied for reserve 2 - two or more tied for rank 20 in the preliminary or for rank 14 in the semifinal:</p> <p>The first reserve (19 or 13) should display "R1" and the divers tied for second reserve (20 or 14) should display "R2". For example, if three divers are tied for rank 14 in the semifinal, the start list for the final should show:</p> <p>R1: Diver R2: Diver 1 R2: Diver 2 R2: Diver 3</p> <p>with the R2 divers shown in alphabetical order.</p> <p>In this case, if one qualified diver withdraws, the R1 diver will dive in the final. If two qualified divers withdraw, the R1 diver and all three R2 divers will dive in the final.</p>

DIVING
WOMEN'S 10m PLATFORM
PRELIMINARY**

Item: 3

Athlete replacement

Athlete replacement in Women's 10m Platform Preliminary

Summary:

SUBSHINSKI Nora (GER) will be replaced by STEUER Christin (GER) in the Women's 10m Platform preliminary due to injury.

Details:

Due to an injury to SUBSHINSKI Nora (GER), and since Germany has two divers qualified for the Women's 10m Platform, SUBSHINSKI Nora (GER) will be replaced by STEUER Christin (GER) in the Women's 10m Platform preliminary.

Issued by:	FINA Technical Diving Committee (TDC)	This decision affects:	Results	<input type="checkbox"/>
Time:	21:10		Schedule	<input type="checkbox"/>
Date:	3 AUG 2016		Other	<input checked="" type="checkbox"/> X

Note:

For more details contact the FINA Office.

SPORT COMMUNICATION DIVING

Item: 35

IOC Rule 50 (Reminder)

Manufacturer identification on clothing and equipment

Summary:

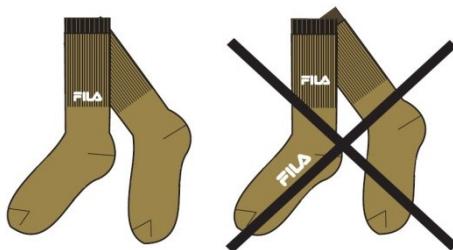

The National clothing must fully comply with IOC rule 50, in all aspects.
This applies to all competition at the Rio 2016 Olympic Games.

Details:

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the FINA Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, FINA assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: FINA Technical Diving Committee
Time: 21:10
Date: 3 AUG 2016

COMPETITION FORMAT AND RULES

DIVING

As of 2 AUG 2016

Olympic Competition Format

A maximum of 136 divers will compete in the Olympic Games. The diving competition will consist of eight events; four individual events and four synchronised diving events.

The four individual diving events are:

Men	Women
3m Springboard	3m Springboard
10m Platform	10m Platform

Each of these events consists of preliminary, semifinal and final. A maximum of 34 divers compete in each individual event, with each NOC allowed a maximum of two divers in each of these events.

Diving order in the preliminary rounds will be determined by computerised random selection during the Technical Meeting. The 18 divers with the highest scores in the preliminary will compete in the semifinal. The diving order in the semifinal will be the reverse of the preliminary rankings. The 12 divers with the highest semifinal scores will compete in the final. The diving order in the final will be the reverse order of the semifinal ranking. The diving order of the tied divers will be decided by a draw. The final score of a phase is the sum of all the dives performed in the phase. All individual dives are without limit in degree of difficulty.

Each phase in men's events consists of six dives (rounds).

Each phase in women's events consists of five dives (rounds).

The four synchronised diving events are:

Men	Women
Synchronised 3m Springboard	Synchronised 3m Springboard
Synchronised 10m Platform	Synchronised 10m Platform

Each of these events will be run as a final, with a total of eight teams competing in each of the final. Diving order will be determined by computerised random selection during the Technical Meeting. In all events for the first two rounds of dives, each dive is assigned a degree of difficulty of 2.0 regardless of the dive.

Each men's event consists of six dives (rounds).

Each women's event consists of five dives (rounds).

Differences between the FINA World Championships and the Olympic Games

There are no 1m springboard events in the Olympic program. In the World Championships synchronised diving consists of preliminary and final.

Changes since the London 2012 Olympic Games

A new rule has been added by FINA for the safety of divers. If during the execution of a dive, a diver's head comes unsafely close or touches the springboard or platform, the judges shall award up to a maximum of two points. If the majority of the judges award two points or less, all higher scores shall be two points.

Sport Rules and Procedures

Judging

After each dive, the judges score the dive from 0 to 10 points, in half point increments.

Individual diving events

In individual events a panel of seven judges will judge each dive. In the preliminary two panels will be assigned because of the large number of dives to be judged. The first panel judges the first three rounds of dives, and the second panel judges the remaining dives.

The two highest and the two lowest judges' scores are not considered in the calculation of a dive score. The remaining three judges' scores are added and multiplied by a degree of difficulty (DD).

Synchronised diving events

In synchronised events a panel of 11 judges will be assigned for each final. This panel is split into three groups, with three judges scoring execution for one diver (E1, E2, E3) and three judges scoring execution for the other diver (E4, E5, E6). The remaining five judges score synchronisation (S1-S5).

The highest and lowest judges' scores within each group of judges are not considered in the calculation of a dive score. The remaining five judges' scores are added and multiplied by a degree of difficulty (DD).

Officials

The diving competitions at the Rio 2016 Olympic Games will be held in accordance with the rules of the Federation Internationale de Natation (FINA) and the Olympic Charter which is in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, FINA assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

The technical officials for the competitions will be the FINA Bureau (Jury of Appeal), the FINA Technical Diving Committee and judges from FINA affiliated federations.

A commission shall be appointed consisting of the Diving Technical Delegate (FINA Bureau Liaison), the Chairman, the Vice-Chairman and Honorary Secretary of the Technical Diving Committee.

Tie Break Rules

All divers tied for the last qualifying position will advance to the next phase. In the case of ties for any place or medal, the tied competitors will share the rank and/or all be awarded medals.

Penalties / Disqualification Rules

The penalties and disqualification procedures are governed by the FINA rules and IOC practice.

Protests / Appeals

Protests are possible and shall be resolved according to FINA rules. Protests must be submitted to the referee in writing by the team leader, together with a deposit of 100 Swiss Francs or its equivalent, within 30 minutes of the conclusion of the respective event. All protests shall be considered by the referee. The Commission shall consider appeals against decisions by the referee and give recommendations to the Jury of Appeal, whose decision shall be final. Diving allows a verbal protest to be lodged immediately following a dive.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

DIVE TABLE

DIVING

As of 2 AUG 2016

3m Springboard				Dive No.	Dive Description	10m Platform			
A	B	C	D			A	B	C	D
Forward Group									
-	-	-	3.2	5154C	Forward 2 ½ Somersault 2 Twists	-	-	-	3.1
-	-	-	-	5172C	Forward 3 ½ Somersault 1 Twist	-	-	-	3.4
Back Group									
2.1	-	-	-	5211A	Back Dive ½ Twist	2.1	-	-	-
2.2	-	-	-	5212A	Back Dive 1 Twist	2.2	-	-	-
Inward Group									
1.7	1.4	1.3	-	401B	Inward Dives	1.7	1.4	1.3	-
-	1.5	1.3	-	402B	Inward Somersault	-	1.6	1.5	-
-	2.1	1.9	-	403B	Inward 1 ½ Somersault	-	2.1	1.8	-
					...				

Explanation: Dives and the position of execution of dives are identified by codes as follows:

Type of Dive	100 series - Forward dives
	200 series - Backward dives
	300 series - Reverse dives
	400 series - Inward dives
	600 series - Armstand dives
	5000 series - Twisting dives
	6000 series - Armstand twisting dives
Position of Execution	A - Straight
	B - Pike (bent at waist)
	C - Tuck (knees tucked in against body)
	D - Free (a combination of positions used in the dives with twist)

In each of the 100, 200, 300 and 400 series, the last digit indicates the number of half-somersaults. For example:

107B - Forward series with 7 half somersaults = Forward 3 ½ Somersaults - Pike Position

203A - Backward series with 3 half somersaults = Back 1 ½ Somersaults - Straight Position

304C - Reverse series with 4 half somersaults = Reverse Double (2) Somersaults - Tuck Position

405C - Inward series with 5 half somersaults = Inward 2 ½ Somersaults - Tuck Position

In the armstand group it is necessary to describe the series and the somersaults.

The first number (6) denotes armstand, the second number (2) denotes series i.e., backward and the third number (3) denotes the number of somersaults i.e., 3 half somersaults. For example:

624B - Armstand (6) Back (2) 2 Somersaults (4 half somersaults) - Pike Position

In the twisting group it is necessary to denote the series, the somersaults and the twists

The first number (5) denotes twisting dive, the second number (3) denotes series i.e., reverse, the third number (3) denotes the number of half somersaults i.e., 3 half somersaults and the fourth number (7) denotes the number of half twists i.e., 7 half twists:

5337D - Reverse (3) 1 ½ Somersaults (3 half somersaults) with 3 ½ Twists (7 half twists) - Free Position

The number and letter code for dives is universal and thereby overcomes difficulty which may be encountered by a diver, judge, or referee who does not speak the language of the announcer.

Grand Prix:	2008 - Montreal, QC (CAN) 2008 - Beijing (CHN) 2007 - Beijing (CHN) 2007 - Dallas, TX (USA) 2006 - Montreal, QC (CAN)	Men's 3m Springboard - 530.55 Men's 3m Springboard - 569.85 Men's 3m Springboard - 548.15 Men's 3m Springboard - 438.99 Men's 3m Springboard - 512.15	1st 1st 1st 1st 1st

General Interest**Training Regime**

He trains for seven hours each day. (Athlete 19/02/08)

Sporting philosophy / motto

"There are no idols, just goals." (Athlete 19/02/08)

General

In a period of reflection after the 2007 World Championships he admitted that his psychological preparation for events had been lacking and that in the past there had been competitions where he had failed because all he could think about was fame and glory rather than concentrating on his dives. Previously he had always denied his mental preparation was poor but felt it was time he changed his outlook. "I have finally realised what my coaches have been telling me all along," he said. "That competing with others can be such an enjoyable process."

Rio 2016 Results

Event	Preliminary	Semifinal	Final
Men's 3m Springboard	1st 515.50	1st 547.25	Gold 572.90

Total:	47	72	65	184

Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

HISTORY DIVING

Origin of Diving

Diving developed in Europe as a result of the popularity of gymnastics. In the summer months, gymnasts would practice their acrobatic feats over water for appreciative crowds. As a result, diving was recognised as a sport in the 19th Century.

Diving Today

Diving is a popular sport and up to 40 countries participate at international level. In addition to the Olympic Games, diving takes place in World Championships every two years. The diving World Cup is also held every two years. At the annual junior World Championships, divers compete in the 14-15 year and 16-18 year age groups.

In recent years, China has overtaken the United States as the top diving nation, taking three of the four gold medals at the Atlanta 1996 Olympic Games (Russia won the fourth). It was the first Games in 84 years in which the USA failed to win diving gold.

Diving in the Olympic Games

Diving first featured on the Olympic program in St Louis in 1904, with men's platform and plunge-for-distance events. The latter event has not featured at an Olympic Games since. Men's springboard was added to the Olympic diving program in London in 1908, women's platform in Stockholm (1912) and women's springboard in Antwerp (1920).

The addition of synchronised diving for the 2000 Games was the first change since the Paris 1924 Olympic Games. The program consists of men's and women's 10m platform and 3m springboard competition, and synchronised 10m platform and synchronised 3m springboard for men and women - eight medal events in all.

MEDIA INFORMATION DIVING

Facilities

There are approximately three hundred and fifty tabled positions in the media news stands. The mixed zone for divers and journalists to meet is adjacent to the pool deck. Special accreditation is required for admission to this area.

A venue sub-centre and formal interview room are located in a temporary structure 50 meters from the venue.

Interviews

Journalists may meet divers in the mixed zone as they exit the competition area. Formal interviews will be held at least after the medals are awarded and possibly more often in co-operation with specific divers after each competition session.

Photographer positions

Photographers may shoot from designated positions listed in the Olympic Summer Games Media Guide. In addition, photographers may stop briefly to take pictures from any public area so long as they are not blocking the view of any spectator. Special positions may be arranged in co-operation with the venue press chief. FLASH PHOTOGRAPHY IS NOT PERMITTED UNDER ANY CIRCUMSTANCES.

Sub-Centre

A full-service sub-centre supporting journalists covering swimming, diving, synchronized swimming, and water polo is available. The sub-centre is supplied with complete results and information services, television monitors, working positions, telephones and food service. A total of three hundred working positions are offered, with ninety charge-a-call telephones available. The sub-centre telephone number is (801) 123-4567. The sub-centre fax number is (801) 456-7890.

Hours of the sub-centre are 9 a.m. to 6 p.m. daily from 21 July through to 13 September.

Transportation to the sub-centre will be provided according to the schedule in the Media Guide.

Venue Press Manager

The venue press chief is David Smith, assisted by Alan Moore (finish area), Mark Hughes (information services), Chris Bates (photographers) and Peter Jones (sub-centre). Please call (801) 234-5678 to reach the sub-centre Help Desk.

FINA Press Contact

The offices of FINA Press Commission are located to the rear of the building.

FLASH QUOTES
DIVING
MEN'S 10m PLATFORM
FINAL

News Item: 117

BANKS Andy (GBR) - coach

On the quality of competition:

"It was very small margins and I hope everyone will agree that was one hell of a final. The number of people above 500. For 500 is a bit of a benchmark and the number of people over 500 comfortably demonstrates the quality."

"The fact that it is a once every four years scenario, the biggest thing in the sport, there is, therefore, more pressure on them (the divers)."

EVANGULOV Alexei (RUS) - GBR team leader

On Tom Daley's performance:

"It's the most consistent performance I have ever seen from Tom so I am very happy. Tonight's performance was just magnificent. It was just perfect."

"When he dives 9.5 I am not happy. I say you need 10. This is just my style."

"This sport in Great Britain deserves to be one of the famous sports. Thanks to Tom it is in a very good position. We have a new generation of divers. We have a very good generation for Rio and beyond."

On the Chinese divers (QUI and LIN):

"China did not show their best. Why? They are not used to competing when someone dives better than them. They have got used to being the best."

QUOTES OF THE DAY

News Item: 117

A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

Givenname FAMILYNAME (NOC) on the sights in the Olympic Village

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

Gold medallist Givenname FAMILYNAME (NOC) on her latest victory

"There are a lot of countries here. I don't even know where half of them are on the map."

The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games

"I did not concentrate on my opponent. I only concentrated on my coach."

Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)

PRESS CONFERENCE HIGHLIGHTS
DIVING
MEN'S 10m PLATFORM
FINAL

News Item: 119

BOUDIA David (USA) - Gold

On his performance:

"I had no idea where I was standing, no idea I was so close to getting a gold medal. I just did it one dive at a time."
 "It still hasn't sunk in that I had a gold medal, that I was standing on the podium and the anthem was playing."

On how he's managed to improve:

"I've had a lot of support from my coach to relax."

On whether he has seen his parents and what they said:

"After the medal ceremony and the media, I sprinted over there (to his parents) and my mum couldn't say a word. She was bawling. She has put in as much work as me, always supporting me, serving me."
 "It's a special moment for the Boudia family."

QIU Bo (CHN) - Silver

On whether he was surprised at not winning the gold medal despite scoring more than 90 points on all his dives:

"Actually, I was not that surprised because everyone has done a good job tonight. I am just doing my best."

On whether he is disappointed at not winning gold:

"I am a little disappointed but I am still pleased because this is my first Olympic Games and I won silver here. I think it is good enough."

On whether he was unnerved by the crowd, which was very partisan towards home favourite and bronze medal winner Tom DALEY (GBR):

"There was nothing particular. I was not paying attention to who they were rooting for. I just focused on what I was doing. I just do what I need to do."

DALEY Tom (GBR) - Bronze

On whether the competition has turned a boy into a man:

"It was such an amazing experience. All the hard work and all the ups and downs, I now have a bronze medal to show for it."

On the pressure he was under to perform well:

"The pressure is pretty intense. Coming fourth in the synchronised platform was pretty devastating but now I've got that Olympic medal. The British public have been amazing and it drove me forward so that I wanted to give that bit extra."

On his re-dive after being distracted by the flash photography on his first dive:

"I was stood on the end of the board and I could see the flashes. I tried to ignore them. Then when I dived I got disorientated by the flash. I spoke to the referee. He said he did see a lot of flashes. Without the re-dive I wouldn't have got bronze."

"My past experience has taught me that I need to stick up for myself and make sure the conditions are right for the diver."

SPORT PREVIEW

DIVING

News Item: 1

- China will look to extend its stranglehold on world diving by going one better than the seven gold medals won at the Beijing 2008 Olympic Games.

There are eight medal events on two boards, the 3m springboard and 10m platform. There are four events for women and four for men.

- Of these, two are individual - 3m springboard and 10m platform, and two are team - synchronised 3m springboard and synchronised 10m platform.
Women perform five dives in individual and synchronised events on springboard and platform. Men perform six on each. No dive can be repeated.

Women's competition

- Following the retirement of GUO Jingjing (CHN), WU Minxia (CHN) is widely regarded as the pre-eminent diver in the world and favourite to add the synchronised 3m springboard with HE Zi, and the individual 3m springboard titles to an existing Olympic medal tally of four (one bronze and one silver in the individual event).
- Emilie HEYMANS (CAN) and synchronised 3m springboard partner Jennifer ABEL (CAN) finished behind WU and HE at the 2015 world championships.
- In the individual 3m springboard, WU's main rival will be teammate HE, who is competing in her first Olympic Games. HE was runner-up to WU at the 2015 world championships and has won three of the four 2012 world series events.
- Tania CAGNOTTO (ITA) competes in her fourth Olympic Games in Rio exactly 40 years after her father, and coach, Giorgio CAGNOTTO (ITA) competed in his first.
- In the women's synchronised 10m platform, world champions CHEN Ruoling (CHN) and WANG Hao are clear favourites to take the title. The world champions have won all four 2016 world series events.
- CHEN is the synchronised and individual defending champion and expected to retain both titles.
- Other medal contenders include Christin STEUR (GER) and Nora SUBSCHINSKI (GER), bronze medallists at the world championships 2015, and Paola ESPINOSA (MEX) and Alejandra OROZCO (MEX) who have dived consistently well in the 2016 world series.
- Tonia COUCH and Sarah BARROW (GBR), the 2016 European champions, will be looking to use home advantage to win the first female Olympic diving medal for the hosts.
- In the individual 10m platform CHEN's main competition will probably come from compatriot HU Yadan, the world silver medallist.

Men's competition

- The 3m springboard is likely to be a head-to-head contest between HE Chong (CHN) and QIN Kai (CHN), the world's two top divers who are also partners in the synchronised 3m springboard event.
- HE is the individual Olympic and world champion on the 3m springboard and Olympic and world synchronised 3m springboard champion with QIN.
- HE and Ilya ZAKHAROV (RUS) perform one of the hardest dives in the world, a forward two and a half somersaults with three twists with a degree of difficulty of 3.9.
- Also hoping to get back on the podium is one of the most enduring faces in world diving, Alexandre DESPATIE (CAN), whose first major medal was a Commonwealth gold on the 10m platform in Kuala Lumpur 1998 as a 13-year-old.
- Winner of 3m springboard silver medals at Athens 2004 and Beijing 2008, DESPATIE returns for a fourth Olympic Games just weeks after having surgery to a head wound sustained after smashing his head on the board while training in Madrid, Spain.

- Youngsters ZHANG Yanqan (CHN) and CAO Yuan (CHN), 18 and 17, have impressive footsteps to fill as they compete in the synchronised 10m platform at their first Olympic Games.
- CHINA won the event at the past two Olympic Games, but they will be up against ZAKHAROV and Evgeny KUZNETSOV (RUS), Patrick HAUSDING (GER) and Sascha KLEIN (GER), silver medallists at Beijing 2008 and bronze at the 2011 world championships and David BOUDIA (USA) and Nick McCRORY (USA), who are attempting to win a first diving medal for the United States since Laura WILKINSON (USA) won gold in the 10m platform at the Sydney Olympic Games 2000.
- Peter WATERFIELD (GBR) and Tom DALEY (GBR) will also be hoping to be among the medals. WATERFIELD has a silver medal from the synchronised 10m platform at the Athens Olympic Games 2004 with partner, Leon TAYLOR (GBR).
- The most talked about diving event, the 10m platform, is also the last taking place on 20 August, the penultimate night of the Games. QIU Bo (CHN) is favourite but will face formidable opposition from Matthew MITCHAM (AUS) and Tom DALEY (GBR) to become the first British diver to win Olympic gold.
- DALEY, a former world champion on the 10m platform, is competing at the Olympic Games without the influential presence of his father, Rob DALEY (GBR) who died of brain cancer in 2011.
- MITCHAM, who snatched gold from favourite ZHOU Luxin (CHN), with his last dive at Beijing 2008, feels the pressure to perform on him had been lifted in part because of the weight of expectation on DALEY.

DAILY PREVIEW
DIVING
WOMEN'S SYNCHRONISED 3m SPRINGBOARD
FINAL
SUN 7 AUG

News Item: 14

- Waves of shock, as well as water, will wash around the Maria Lenk Aquatic Centre if China fails to win gold in the women's synchronised 3m springboard on the opening day of diving competition on Sunday.
- WU Minxia (CHN) and HE Zi (CHN), the two best female divers in the world, lead a formidable Chinese contingent hoping to go one better at the Rio 2016 Olympic Games than the seven of a possible eight gold medals they won at Beijing 2008. WU could win a fourth consecutive synchronised 3m springboard title, following gold medals at London 2012, Beijing 2008 and Athens 2004.
- WU and HE are world champions in the event and also finished first and second, respectively, in the individual event in 2015.
- But WU is not the only diver with an eye on history. Emilie HEYMANS (CAN) has three Olympic medals from the 10m platform - an individual silver from Beijing 2008, bronze in the synchronised 10m platform at Athens 2004 and silver from the same event from Sydney 2000.
- HEYMANS dives with Jennifer ABEL (CAN) and one more medal, of any colour, would make her the first woman diver to make it onto the podium at four consecutive Games.
- LI Yihau (CHN), Canada's coach, said earlier this week she expected one of Canada's predicted two or three medals to come from this event, especially as they finished second to China at last year's world championships.
- Like HEYMANS, Tania CAGNOTTO (ITA) is competing in her fourth Olympic Games, 40 years after father and coach, Giorgio CAGNOTTO, competed in his first. He won four Olympic medals in his career.
- Other medal contenders include Anabelle SMITH (AUS) and Sharleen STRATTON (AUS), bronze medallists from the 2015 world championships.
- MALAYSIA, USA and UKRAINE make up the other finalists.
- Unlike individual competitions, synchronised diving is a straight final at the Olympic Games, with no preliminary round or semifinal to negotiate. As a result, the odds of one of the eight teams winning a medal are far better than in individual diving.

DAILY REVIEW
DIVING
MEN'S 3m SPRINGBOARD
FINAL
TUE 16 AUG

News Item: 133

- China won't win all eight diving medals at the Rio 2016 Games after a sensational men's 3m springboard final saw Ilya ZAKHAROV (RUS) win gold in emphatic style.
- In a night of high drama, where the lead during the six round competition changed between ZAKHAROV, Yahel CASTILLO HUERTA (MEX) and QIN Kai (CHN), it was 21-year-old ZAKHAROV who held his nerve to finish with a forward four a half somersaults in the tuck position, the dive of the night, that scored 104.50 points.
- His victory, with 555.90 points, was the first Olympic gold diving medal for Russia since Dmitriy SAUTIN and Igor LOUKASHIN (RUS) won the synchronised 10m platform in 2000.
- QIN Kai (CHN) took silver 14.15 points behind on 541.75 while, in a further twist, HE Chong (CHN), the defending Olympic and world champion, finished with bronze.
- HE, who started as favourite, dived last of the 12 competitors but his first round dive, a back two and a half somersaults piked, saw him back in joint eighth place a position from which he never recovered.
- One of the moments of these Games came in the final round when Chris MEARS (GBR) produced an exemplary forward four and a half somersaults tucked to record 100.70 points, a score only bettered by ZAKHAROV.
- But there was no medal, or happy ending, for Alexandre DESPATIE (CAN) who ended the competition in 11th. DESPATIE, who finished with silver in 2004 and 2008, under-rotated on his final dive to score just 22.10 points.
- ZAKHAROV's performance will give hope to Tom DALEY (GBR) who competes in the 10m platform preliminary on Friday. DALEY said before competition began that the Chinese are beatable if enough pressure is put on them in competition.

SPORT REVIEW

DIVING

News Item: 15

- China dominated the Diving events, collecting six out of eight Gold medals on offer at the Rio 2016 Olympic Games. All of the 10-strong Chinese team leave the Maria Lenk Aquatic Centre with a medal.
- The Diving competition at Rio 2016 began with Synchronised Diving. Defending champion team GUO Jingjing (CHN) and WU Minxia (CHN) snatched a few perfect 10s from the judges on the way to Gold in the Women's 3m Synchronised Springboard.
- In the Men's 10m Synchronised Platform, the 2015 world champion LIN Yue (CHN) and HUO Liang (CHN) fended off a strong challenge from the German team Sascha KLEIN (GER) and Patrick HAUSDING (GER) and clinched Gold by a margin of 17.76 points.
- Young Chinese divers WANG Xin (CHN) and CHEN Ruolin (CHN) both made a memorable Olympic debut on day four, winning the Women's 10m Synchronised Platform. .
- Springboard specialist QIN Kai (CHN) and veteran WANG Feng (CHN) comfortably won the title in the Men's 3m Synchronised Springboard, finishing 47.10 points ahead of Silver medallist team Dmitry SAUTIN (RUS) and Yuriy KUNAKOV (RUS).
- The individual events began on Friday, 12 August with the Women's 3m Springboard. GUO won the event and broke the record for the most Olympic medals by a woman diver, previously held by her compatriot FU Migxia (CHN). The medal was her fourth Gold, giving her six medals (four Gold and two Silver) from her three Olympic appearances.
- China's springboard master, HE Chong (CHN), comfortably won the Men's 3m Springboard title by a margin of 36.25 points from Silver medallist, Alexandre DESPATIE (CAN). The world champion QIN Kai (CHN) took Bronze.
- China finally faced a tough head-to-head competition in the Women's 10m Platform. CHEN and WANG were under pressure when they had to respond to a challenge from an in-form Emilie HEYMANS (CAN) in the final. HEYMANS led CHEN after the fourth round by a tiny margin of 1.65 points, before CHEN's fifth and last dive snatched four perfect 10s to secure a dramatic victory. HEYMANS won Silver, while WANG won Bronze.
- In the final event, Men's 10m Platform, David Boudia (USA) prevented a Chinese sweep of Gold medals by snatching the highest score of the day (112.10 points) in the last round. Platform specialist ZHOU Luxin (CHN) won silver, just 4.80 points behind the Australian.

Olympic champion MITCHAM (AUS) thankful to be cast as an underdog

Olympic 10m platform diving champion Matthew MITCHAM (AUS) believes recent injuries have made him an underdog for the Rio 2016 competition at the Maria Lenk Aquatic Centre.

But he is pleased by a development which has placed the pressure of favouritism on the world champion QIU Bo (CHN) and Thomas DALEY (GBR).

"I feel quite grateful," he said. "Because of all these injuries a lot of expectation has been lifted off me. "People underestimate how much it can affect you having the weight of expectation. Some athletes deal with that better than others."

"The Chinese divers will be going for eight gold medals (in the men's and women's events). They will have an incredible amount of pressure on their backs,"

MITCHAM made Olympic history in Beijing 2008 with his sixth, and final, dive which scored 112.10 points, the highest single-dive total.

It enabled him to snatch gold from the favourite ZHOU Luxin (CHN) and denied China the chance of a clean sweep of victories in the men's and women's diving.

Since then he has been beset by injuries including a severe tear to an abdominal muscle which forced him to pull out of the 2011 world championships in Shanghai.

He has worked on his rehabilitation and consulted a sports psychologist to improve his mental strength.

MITCHAM believes his twice weekly sessions with a psychologist have made up for any lack of time spent on physical preparation.

"I am confident I am going to compete well," he said. "All you have to do is put six good dives together in the final."

Diving: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Diving Men's 3m Springboard of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 16 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Diving:
 - (i) is disqualified from the Men's 3m Springboard of the Rio 2016 Olympic Games where he placed 7th;
 - (ii) shall have his diploma in the above-mentioned event withdrawn; and
 - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. FINA is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.
- V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Diving information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements with Predefined Production Time" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 2.2) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Diving. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of FINA and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, FINA office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. events with preliminary, semifinal and final).

2.1 Pre-competition Activities (for all events)

2.1.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code
Presenters at Victory Ceremonies

3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after final) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Diving sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

VRM Venue Results Manager

- Officials: Referees, Judges, Doping Control Officer
(The VRM should consult Protocol/Ceremonies and the Doping Control Officer regarding the specific outputs required)
- FINA: FINA President, FINA Secretary General, FINA Executive Director, FINA Technical Delegate, TDC Commission, FINA Bureau, FINA Office, FINA Press Commission
- Teams: Team pigeon holes, Pool Deck (bulletin board)

5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day FINA and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
DTMA	During the Technical Meeting, after approval
EBC	The evening before a day of competition
EOD	End of day
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xHBE	X (x) hour(s) before the start of the event
xMAJ	X (x) minute(s) after each jury or other official body decision
xMALRA	X (x) minute(s) after the results of the last round are approved
xMALSD	X (x) minute(s) after the last session of the day
xMALSLD	X (x) minute(s) after the last session of the last day
xMAMRA	X (x) minute(s) after medal results are approved
xMAPP	X (x) minute(s) after the results of the previous phase are approved
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes/a press conference
xMAR	X (x) minute(s) after the round
xMATM	X (x) minute(s) after the Technical Meeting
xMBF	X (x) minute(s) before the final
xPDyDBC	X (x) times per day, starting Y (y) days before the competition

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between FINA and the OC (and providers).

This page intentionally left blank.

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Athletes and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to FINA's approval.

2.3 Part A - Before the Session

2.3.1 Schedule

- What: Schedule for each session of the competition
For each day show: screen title, date and for each session of that day show: start time, event name and phase name. Due to space limitations, abbreviations (approved by FINA) will have to be used for event and phase names.
- When: Before, during and/or after a session
How: Scrolling screen, maintaining the title in the top line

COMPETITION SCHEDULE	
17 AUG 2016	19:00 W 10M PLATFORM - PRELIM
18 AUG 2016	10:00 W 10M PLATFORM - SEMIS 19:00 W 10M PLATFORM - FINAL
19 AUG 2016	19:00 M 10M PLATFORM - PRELIM

2.3.2 Start List - Individual

- What: List of divers in the preliminary, semifinal and final of an individual event, listed in their start order.
Show the event name, phase name and screen title.
For each diver show: start order, scoreboard name and NOC code.
No points are shown.
Space constraints may require that phase names be abbreviated in some cases.
- When: At the start of a session
How: Scrolling screen showing nine divers (preliminary) or six divers (semifinal and final) at a time, maintaining the event/phase names and title on the top two lines

WOMEN'S 10M PLATFORM - PRELIM START LIST		
1	VIOLA BRITTANY	USA
2	LABEAU AUDREY	FRA
3	BENFEITO MEAGHAN	CAN
4	CHEN RUOLIN	CHN
5	PROKOPCHUK IULIIA	UKR
6	POWELL STACIE	GBR
7	BATKI NOEMI	ITA
8	STEUER CHRISTIN	GER
9	GLADDING MONIQUE	GBR

2.3.3 Start List - Synchronised

- What: List of teams in a synchronised event, listed by start order
Show the event name and screen title.
For each team show: start order, NOC code, and for each diver show: scoreboard name.
- When: At the start of a session
- How: Scrolling screen showing four teams at a time, maintaining the event name and title on the top two lines

WOMEN'S SYNCHRO 10M PLATFORM START LIST
1 CHN CHEN RUOLIN WANG HAO
2 UKR POTYEKHINA VIKTORIYA PROKOPCHUK IULIIA
3 AUS BUGG RACHEL WIGGINS LOUDY
4 GER STEUER CHRISTIN SUBSCHINSKI NORA

2.3.4 Referees

- What: Show the event name and phase name
For the referee and assistant referee show the function, scoreboard name and "TDC" for both individual and synchronised events
- When: At the start of a session
- How: Static screens

WOMEN'S 10M PLATFORM- PRELIM
REFEREE: PIPER ANKE TDC
ASST. REFEREE: BECK MELANIE TDC

2.3.5 Panel of Judges - Individual Events

- What: Show the event name and phase name. Due to space limitations abbreviations (approved by FINA) may have to be used for event and phase names.
- Show panel designation ("A" or "B") and rounds to be judged. See the "Comments" section of the output description table in the output "Panel of Judges - C57" for an explanation of the rounds to be judged.
- For each judge show: judge designation ("Jx" for judges 1-7) and scoreboard name.
- When: At the start of a session
- How: Two static screens - one for "Panel A" and one for "Panel B"
- For the final of an individual event there will only be one screen - "Panel A".

a) Judge panel A screen

WOMEN'S 10M PLATFORM - PRELIM
JUDGES - PANEL A (ROUNDS 1-3)
J1 TOULLOUDIS NIKOLAOS
J2 ITO MASAAKI
J3 STRITT BURK CARMEN
J4 PEDREGUERA ROLANDO
J5 LATIMER SIMON JAMES
J6 RIOS HENAO MARIA
J7 VINOGRADOV ALEXANDR

b) Judge panel B screen

WOMEN'S 10M PLATFORM - PRELIM
JUDGES - PANEL B (ROUNDS 4-5)
J1 NOVOTNA HANA
J2 BANUELOS PADILLA RICARDO
J3 MANZONI RENATO
J4 BROOKER ERIC
J5 KELEMEN ILDIKO
J6 SHOLTIS CHRISTINA
J7 HASSAN MOHAMED

2.3.6 Panel of Judges - Synchronised Events

- What: Show the event name and judge function ("execution" or "synchronisation").
For each judge show judge designation ("E1-6" for execution judges (judges 1-6), "S1-5" for synchronisation judges (judges 7-11) and scoreboard name.
- When: At the start of a session
- How: Two static screens - one for the execution judges and one for the synchronisation judges.

a) Execution Judges

MEN'S SYNCHRO 10M PLATFORM	
EXECUTION JUDGES	
E1	ITO MASAAKI
E2	FABER MARC
E3	BRAWLEY NANCY
E4	KELEMEN ILDIKO
E5	NOVOTNA HANA
E6	HASSAN MOHAMED

b) Synchronisation Judges

MEN'S SYNCHRO 10M PLATFORM	
SYNCHRONISATION JUDGES	
S1	TOLOUDIS NIKOLAOS
S2	RIOS HENAO MARIA
S3	MANZONI RENATO
S4	BROOKER ERIC
S5	STRITT BURK CARMEN

2.4 Part B - During the Session

2.4.1 Before / During a Dive - Individual

- What: Show event name, phase name (which may have to be abbreviated) and round x of y.
For the diver show the start order, scoreboard name and NOC code, dive number, degree of difficulty and description. Also show current points and rank.
"Rank" should be blank during the first round of the preliminary.
The qualification criteria should be shown for the first time after 18 divers in the preliminary and after 12 divers in the semifinal in the first round, and then throughout the competition.
Space constraints may require that phase names be abbreviated in some cases.
- When: Show before and during each dive.
- How: Static screen
Judges should not be able to see the scoreboard - it could be prejudicial.

WOMEN'S 10M PLATFORM - PRELIM ROUND 5 OF 5
18 PAMG PANDELELA RINONG MAS
5253B / DD 3.2 BACK 2-1/2 S 1-1/2 T PIKE
CURRENT: POINTS 281.80 RANK 1

2.4.2 After a Dive - Individual

What: Show event name, phase name, screen title and round x of y.
Space constraints may require that phase names be abbreviated in some cases.
For the diver show the start order, scoreboard name and NOC code, and for each judge show: "Jx" and judge's dive score.
The sample screen shows strikethrough for discarded scores and regular font for the scores that are counted. This option or bold for the scores that are counted and regular font for the scores that are discarded are both acceptable solutions depending on the scoreboard capabilities and/or visibility/readability considerations.
For the diver show dive points, total points and current rank.

In the last three lines of the screen show the current ranking as follows:

- For the preliminary and semifinal screen: show the rank n-1, n and n+1, where n is the current diver's rank after the dive, scoreboard name, NOC code and points.
 - If the diver is in first place, show the top three ranked divers.
 - If the diver is in last place, show the bottom three ranked divers.
- For the final screen: show the top three ranked divers (rank, scoreboard name, NOC code and points).

When: Shown after each dive

How: Static screen

a) For preliminary and semifinal

WOMEN'S 10M PLATFORM - PRELIM						
RESULTS - ROUND 5 OF 5						
24	KOLTUNOVA	YULIA	RUS	J1	J2	J3 J4 J5 J6 J7

6	HU YADAN	CHN	337.85			
7	KOLTUNOVA YULIA	RUS	334.80			
8	BELL KATIE	USA	326.95			

b) For final

WOMEN'S 10M PLATFORM - FINAL						
RESULTS - ROUND 5 OF 5						
11	BENFEITO MEAGHAN	CAN	J1 J2 J3 J4 J5 J6 J7			
8.0	8.0	8.0	8.0	7.5	8.0	8.0
POINTS	76.80	TOT	345.15	RK	10	
-----CURRENT RANKING-----						
1	PAMG P. R.	MAS	359.20			
2	WU MELISSA	AUS	358.10			
3	KOLTUNOVA YULIA	RUS	357.90			

2.4.3 Before / During a Dive - Synchronised

- What: Show event name, screen title and round x of y.
For the team show start order, NOC and for each diver: scoreboard name, followed by dive number, degree of difficulty and dive description.
Also show current points and rank.
"Rank" should be blank during the first round.
- When: Show before and during each dive.
- How: Static screen
Judges should not be able to see the scoreboard - it could be prejudicial.

MEN'S SYNCHRO 10M PLATFORM
ROUND 3 OF 6
7 GREAT BRITAIN
DALEY THOMAS
WATERFIELD PETER
207C / DD 3.3
BACK 3-1/2 S TUCK
CURRENT: POINTS 281.80
RANK 1

2.4.4 After a Dive - Synchronised

- What: Show event name, screen title and round x of y.
For the team show the start order and NOC and for each dive show:
- for each execution judge show judge's code "Ex" and score
- for each synchronisation judge show judge's code "Sx" and score
and for the team show points for this dive, total points and current rank.
The sample screen shows strikethrough for discarded scores and regular font for the scores that are counted. This option or bold for the scores that are counted and regular font for the scores that are discarded are both acceptable solutions depending on the scoreboard capabilities and/or visibility/readability considerations.
- When: Shown after each dive
- How: Static screen

MEN'S SYNCHRO 10M PLATFORM
RESULTS - ROUND 3 OF 6
7 GREAT BRITAIN
E1 9.0
E2 9.0 S1 9.5
E3 9.5 S2 9.0
E4 9.5 S3 9.5
E5 9.0 S4 9.5
E6 9.5 S5 9.5
POINTS 91.08 TOT 203.88 RK 1

2.4.5 Intermediate Results - Individual

- What: Show event name, phase name, screen title and round x of y.
For each diver show rank, scoreboard name, NOC code and total points through the last round. Divers with the same rank should be sorted alphabetically.
Create one screen for each round.
Space constraints may require that phase names be abbreviated in some cases.
- When: Immediately after a round
- How: Scrolling screen - scroll through complete ranking, maintaining the top lines on each screen. Each screen shows nine divers (preliminary) or six divers (semifinal and final).

WOMEN'S 10M PLATFORM - PRELIM RESULTS - AFTER ROUND 1 OF 5			
1	KOLTUNOVA YULIA	RUS	79.05
2	CHEN RUOLIN	CHN	76.50
3	BENFEITO MEAGHAN	CAN	73.50
4	BATKI NOEMI	ITA	72.00
4	KIM JIN OK	PRK	72.00
4	PAMG P. R.	MAS	72.00
4	WU MELISSA	AUS	72.00
8	NAKAGAWA MAI	JPN	71.40
9	VIOLA BRITTANY	USA	70.50

2.4.6 Intermediate Results - Synchronised

- What: Show event name, screen title and round x of y.
For each team show rank, NOC and total points. Teams with the same rank should be sorted alphabetically.
- When: Immediately after a round
- How: Static screen

MEN'S SYNCHRO 10M PLATFORM RESULTS - AFTER ROUND 3 OF 6		
1	GREAT BRITAIN	203.88
2	CHINA	201.48
3	GERMANY	191.28
4	UNITED STATES	191.16
5	MEXICO	189.69
6	RUSSIAN FEDERATION	189.48
7	CUBA	187.20
8	UKRAINE	186.36

2.4.7 Results - Individual

- What: Show event name, phase name and screen title.
For each diver show rank, scoreboard name, NOC code, total points and qualification indicator (if any - applied only for preliminary and semifinal).
For all divers that qualify for advancement to the next phase show "Q" and "R" for reserves. Divers with the same rank should be sorted alphabetically.
Space constraints may require that phase names be abbreviated in some cases.
- When: Immediately after a session
- How: Scrolling screen - scroll through complete ranking, maintaining the top two lines on each screen and showing the two reserves after the last qualifying diver. Each screen shows nine divers (preliminary) or six divers (semifinal and final).

WOMEN'S 10M PLATFORM - PRELIM RESULTS			
1	CHEN RUOLIN	CHN	392.35Q
2	PAMG P. R.	MAS	349.00Q
3	STEUER CHRISTIN	GER	341.75Q
4	BROBEN BRITTANY	AUS	339.80Q
5	WU MELISSA	AUS	337.90Q
6	HU YADAN	CHN	337.85Q
7	KOLTUNOVA YULIA	RUS	334.80Q
8	NAKAGAWA MAI	JPN	327.65Q
9	BELL KATIE	USA	326.95Q

2.4.8 Results - Synchronised

- What: Show event name and screen title.
For each team show rank, NOC and total points. Teams with the same rank should be sorted alphabetically.
- When: Immediately after a session
- How: Static screen showing all teams

MEN'S SYNCHRO 10M PLATFORM RESULTS	
1	CHINA
2	MEXICO
3	UNITED STATES
4	GREAT BRITAIN
5	CUBA
6	RUSSIAN FEDERATION
7	GERMANY
8	UKRAINE

2.5 Part C - During the Victory Ceremony

2.5.1 Presenters

- What: Screen shows the presenters with discipline name, event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function.
Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", etc.).
- When: As the dignitary is introduced before the ceremony
- How: Single screen

MEN'S 10M PLATFORM

VICTORY CEREMONY

PRESENTER:
SIR PHILIP CRAVEN - GBR
IOC MEMBER

ACCOMPANIED BY:
MR ORBAN MENDOZA - PUR
FINA BUREAU

2.5.2 Medallists - Individual

- What: Screen shows list of medallists with event name and screen title. For each medallist show medal type, scoreboard name, NOC code.
Ties for medals are possible in Diving. For example if there is a tie for first place, the medal types shown would be GOLD, GOLD, BRONZE.
- When: During the ceremony
- How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

WOMEN'S 10M PLATFORM		
VICTORY CEREMONY		
GOLD	CHEN RUOLIN	CHN
SILVER	BROBEN BRITTANY	AUS
BRONZE	PAMG PANDELELA RINONG	MAS

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

WOMEN'S 10M PLATFORM		
VICTORY CEREMONY		
BRONZE	PAMG PANDELELA RINONG	MAS

As the silver medallist is presented:

WOMEN'S 10M PLATFORM		
VICTORY CEREMONY		
SILVER	BROBEN BRITTANY	AUS
BRONZE	PAMG PANDELELA RINONG	MAS

As the gold medallist is presented:

WOMEN'S 10M PLATFORM		
VICTORY CEREMONY		
GOLD	CHEN RUOLIN	CHN
SILVER	BROBEN BRITTANY	AUS
BRONZE	PAMG PANDELELA RINONG	MAS

2.5.3 Medallists - Synchronised

What: Screen shows list of medallists with event name and screen title. For each medallist show medal type, NOC code and scoreboard name.

When: During the ceremony

How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

WOMEN'S SYNCHRO 10M PLATFORM		
VICTORY CEREMONY		
GOLD	CHN CHEN RUOLIN	
	WANG HAO	
SILVER	MEX OROZCO LOZA ALEJANDRA	
	ESPINOSA S. P.	
BRONZE	CAN FILION ROSELINE	
	BENFEITO MEAGHAN	

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

WOMEN'S SYNCHRO 10M PLATFORM		
VICTORY CEREMONY		
BRONZE	CAN FILION ROSELINE	
	BENFEITO MEAGHAN	

As the silver medallist is presented:

WOMEN'S SYNCHRO 10M PLATFORM

VICTORY CEREMONY

SILVER MEX OROZCO LOZA ALEJANDRA
ESPINOSA S. P.

BRONZE CAN FILION ROSELINE
BENFEITO MEAGHAN

As the gold medallist is presented:

WOMEN'S SYNCHRO 10M PLATFORM

VICTORY CEREMONY

GOLD CHN CHEN RUOLIN
WANG HAO

SILVER MEX OROZCO LOZA ALEJANDRA
ESPINOSA S. P.

BRONZE CAN FILION ROSELINE
BENFEITO MEAGHAN

3 Sport Specific Real Time Data

3.1 ORIS Data Availability Description

There is no additional real time data available other than defined in Section 1 - Outputs.

This page intentionally left blank.

4 On Screen Results Presentation

Some screens will be updated in real time whenever new information becomes available (e.g. judges' scores, divers' points, intermediate results, etc.). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists, statistics, summaries, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

This page intentionally left blank.

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Diving document are defined as follows:

Term	Definition
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Body Position	The orientation of the diver while performing a dive. There are four positions: (1) Straight, in which there is no bend at the waist or knees (2) Pike, in which the legs are straight with the body bent at the waist (3) Tuck, in which the body is bent at both the waist and the knees, and the thighs are drawn to the chest, while the heels are kept close to the buttocks (4) Free, in which the diver has the option of using a combination of the other three positions; the free position is used only in dives that include twists
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Degree of Difficulty	A quantitative measure of how hard a dive is to perform. The degree of difficulty is based on a standard formula defined in the FINA rule book that considers starting position, approach, somersaults, flight position, twists, and unnatural entry.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Dive	A distinct component of the event in which the diver performs and attempts to earn a maximum number of points awarded by the judges. The types of dives are:

Term	Definition
	<p>(1) Forward, in which the diver faces the front of the board and rotates forward (2) Backward, in which the diver begins at the end of the board with the back toward the water and rotates backwards (3) Reverse, in which the diver begins with the forward approach but rotates backward toward the board (4) Inward, in which the diver stands on the end of the board with the back toward the water and rotates forward toward the board (5) Twisting, which includes any forward, backward, reverse or inward dive with lateral rotation (6) Armstand, a platform-only dive in which the diver assumes a handstand position on the edge of the platform before executing the dive</p>
Dive List	The list of dives of all the divers for each phase of the competition. The dives are submitted on the dive sheet.
Dive List Order	The order in which the two divers are shown on the dive sheet which each team submits.
Dive Order	<p>The order in which divers perform their dives. - Individual events: For the preliminary, the dive order is established by a computerised random draw. For the semifinal and final, the dive order is the reverse of the ranking in the previous phase. In case of ties for any qualifying place, the dive order will be determined by a draw. - Synchronised events: The dive order is established by a computerised random draw.</p>
Dive Sheet	A statement of dives that must be signed by the diver and coach, and then submitted to officials prior to the start of competition.
Dives without Limit	A group of dives representing each of the stipulated groups (forward, backward, reverse, inward, twisting, armstand (platform only) which are assigned a prescribed degree of difficulty.
Event	<p>"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)</p>
	See "Diving References" for the list of events.
Final	The session, or phase, in which events are contended for medals
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport, weather information and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	<p>IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc.</p> <p>IDS also includes provision of INFO and CIS.</p>

Term	Definition
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Judges	The group of officials who score each dive in the competition.
Jury of Appeal	The jury will make a decision on any correctly lodged protest.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Officials	The personnel, appointed by the FINA TDC, responsible for conducting the competition according to the technical rules in the FINA Handbook.
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: http://odf.olympictech.org.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p>
	<p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.</p>
Panel of judges	<p><u>Individual events</u></p> <p>In individual events a panel of seven judges will judge each dive. In the preliminary and semifinal two panels will be assigned because of the large number of dives to be judged. The first panel judges the first three rounds of dives, and the second panel judges the</p>

Term	Definition
	remaining dives.
<u>Synchronised diving events</u>	In synchronised events a panel of 11 judges will be assigned for each final. This panel is split into three groups, with three judges scoring execution for one diver (E1, E2, E3) and three judges scoring execution for the other diver (E4, E5, E6). The remaining five judges score synchronisation (S1-S5).
Phase	A step in the progression of the competition
	See Diving References for the list of phases.
Preliminary	The first phase of an individual event from which the 18 highest scoring divers advance to the semifinal.
Rank	Placing in a phase or an event. Divers are ranked according to their achieved points.
Results System Code (RSC)	The Result System Code is a nine character code structured as follows: DDGEEPUU, where:
	<ul style="list-style-type: none"> • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit
Round	A segment of the competition in which each competitor dives once.
Semifinal	A phase of an individual event from which the 12 highest scoring divers (out of 18) advance to the final.
Session	Another term sometimes used for phase.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Technical Diving Committee (TDC)	<p>The TDC is appointed by the FINA Bureau. The primary duties of the TDC are:</p> <ul style="list-style-type: none"> • To ensure that all aspects of the FINA Diving competition rules and operation manuals are followed • To oversee the qualification procedures • To run the technical meeting • To recommend the list of judges to be invited to the Games • To appoint the judges for each event • To advise the organisers within the scope of their duties

Term	Definition
Venue Results Manager (VRM)	<ul style="list-style-type: none"> • To observe a diver rescue simulation • To act in the position of event Referee • To attend pre-event competition rehearsals <p>The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).</p>

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none">Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none">Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	<ul style="list-style-type: none">Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	<ul style="list-style-type: none">Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	<ul style="list-style-type: none">Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc.Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	<ul style="list-style-type: none">Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	<ul style="list-style-type: none">Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc.Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	<ul style="list-style-type: none"> Measurements (time, weight, distance, height, etc.) Scores Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	<ul style="list-style-type: none"> Points
Bracket	Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected	<ul style="list-style-type: none"> Win/Loss
	Bracket types: <ul style="list-style-type: none"> Bracket with direct elimination (e.g. Boxing) Bracket with direct elimination, classification and finals (e.g. Water Polo) Bracket with direct elimination and finals (e.g. Tennis) Bracket with direct elimination, repechage and finals (e.g. Judo) 	
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	<ul style="list-style-type: none"> Addition of results (points, times)

This page intentionally left blank.

Appendix B - Abbreviations

The following abbreviations are used in the ORIS Diving document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
CIS	Commentator Information System
cm	centimetre
CM	Organising Committee Competition Management
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments
DRM	Delegation Registration Meeting
DV	Diving
FINA	Federation International de Natation
ft	feet
IBC	International Broadcasting Centre
ID	Identification number
IDS	Information Diffusion System
IF	International Federation
in	inch
IOC	International Olympic Committee
IRM	Invalid Result Mark
IT	Information Technology
kg	kilogramme
lb	pound
m	metre
M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
MPC	Main Press Centre
N/A	Not Applicable
NF	National Federation
NOC	National Olympic Committee
OC	Organising Committee
ODF	Olympic Data Feed
OG	Olympic Games
ONS	Olympic News Service
ORIS	Olympic Results and Information Services
OVR	On Venue Results system

Code	Description
PO	Organising Committee Press Operations
PTS	Points
SEQ	Sport Entries and Qualification
TAO	IOC Technology Assistance and Observation team
TBD	To be defined
TDC	Technical Diving Committee
VPC	Venue Press Centre
VRM	Venue Results Manager
WC	World Cup
WCH	World Championships
WNPA	World News Press Agencies

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Diving Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Diving presentation order	Please see "Diving References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none">• Unscheduled Not visible on the schedule, optional (e.g. tie-breaker if applicable)• Scheduled The start time is known• Getting_Ready At time x before start - "x" is defined by Olympic Broadcasting Services (OBS)• Running In progress• Scheduled_Break Planned break (e.g. end of period). Not applicable for Diving• Finished All action on the field of play is complete• Delayed Did not start as scheduled, should start in the current ticketing session• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present• Interrupted Unplanned interruption after the start, and is expected to restart in the current ticketing session• Rescheduled The new date and start time are known• Cancelled Will not take place at these Games
Results status options	<ul style="list-style-type: none">• Start List Start list has been created• Live In progress• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change.• Partial The results and ranking of the divers who have completed their performance are not subject to change by the results of divers still competing. Not applicable for Diving.• Unconfirmed Activity on the field of play is complete but there is no status update in the results yet. Not applicable for Diving.• Unofficial Results are available but not approved

	<ul style="list-style-type: none"> • Official Results are approved • Protested The competition is no longer in progress and a protest has been lodged. 				
Results marks	<ul style="list-style-type: none"> • Q- Qualified for next phase of competition 				
Invalid Results Marks (IRM)	<ul style="list-style-type: none"> • DNS - Did Not Start <ul style="list-style-type: none"> • DNS is used only for divers who do not start for the first dive in a phase. The diver will receive no score or rank. • DNS does not need to be explained in a free text note • If a diver performs at least one dive in a phase, the diver receives a score and a rank for the dive(s) performed (this diver will not be indicated with an IRM) • DSQ - Disqualified <ul style="list-style-type: none"> • Only used in the case of doping or breach of sport ethics. There is no DSQ for infractions of technical rules. 				
IRM presentation order	<p>Rules for presentation of results for divers/teams with DNS, DSQ:</p> <ul style="list-style-type: none"> • Divers marked as DNS are listed first, followed by DSQ • If more than one diver has the same IRM, they are listed in alphabetical order (Family name, Given name). • If more than one team has the same IRM, they are listed in alphabetical order (NOC code). 				
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23</p>				
Judge scores	<table> <tr> <td>10</td> <td>For perfect score</td> </tr> <tr> <td>0.0</td> <td>For all other scores</td> </tr> </table>	10	For perfect score	0.0	For all other scores
10	For perfect score				
0.0	For all other scores				
Points format	##0.00				
Points behind format	##0.00				
Presentation of ties	<p>Medal presentation</p> <p>All medals will be shown even if tied: e.g. 1 GOLD FAMILYNAME Givenname 1 GOLD FAMILYNAME Givenname 3 BRONZE FAMILYNAME Givenname</p> <p>Results</p> <ul style="list-style-type: none"> • The primary rank (first column) must show a rank (if tied, repeat rank). Secondary rank(s), if any (e.g. after dive x) will be repeated, with an "=" sign if there is sufficient space. 				

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, FINA, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> • dd MMM yyyy (e.g. 6 APR 1896) <ul style="list-style-type: none"> • dd: date format, for example: 23 or 5 (presented without leading zero) • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case) • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case) • Mmm: month in abbreviation format - mixed case, for example: Apr for April • MMM: month in abbreviation format - upper case, for example: APR for April • yyyy: year format, for example: 1896 • The "As of date" may reflect one of the following: <ul style="list-style-type: none"> • Date when data has been collected (e.g. world ranking) • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics) • Logical date if applicable • Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8) <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> • When the complete output fits on a single page, "None, aim for a single page" is written • For multi-page outputs, there are three cases: <ol style="list-style-type: none"> 1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: <ul style="list-style-type: none"> • Not controlled with repeated output headings and column headings • Not controlled with repeated column headings only • Not controlled without repeated output headings and/or column headings

	<p>2. Forced page break by "Group":</p> <p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p>3. Forced page break by "Condition":</p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> • "None" is specified if no abbreviations are used in the output • If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend) • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> 1. Note with static text: <ul style="list-style-type: none"> • If "Note with static text" is not planned, allowed or possible, "None" is written • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition <p>3. Note with free text:</p> <ul style="list-style-type: none"> • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

This page intentionally left blank.

Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "Diving References" for list of events)
Gender	Event gender indication (men, women), if applicable
Phase	Affected stage of competition (e.g. preliminary/semifinal/final), if applicable
Unit	Specification of the phase (e.g. round or dive.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Heading	One line space for describing the topic
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

OFFICIAL COMMUNICATION (empty form)

OFFICIAL COMMUNICATION (possible templates)

Subtitle	A	Judges decision
	B	TDC Commission decision
	C	Bad weather conditions
	D	Accident of FAMILYNAME Givenname (NOC)
	E	Diving: IOC disqualifies FAMILYNAME Givenname (NOC)
	F	...
Heading	a	Session delayed
	b	Session postponed
	c	Session interrupted
	d	Session rescheduled
	e	Session cancelled
	f	...
Summary	1	The Men's 10m Platform Preliminary had to be delayed due to venue power failure. It is expected that the delay should not be longer than nn minutes.
	2	The Men's 3m Springboard Preliminary had to be postponed due to a mechanical issue with the 3m Springboard. The new start time of the Men's 3m Springboard Preliminary is unknown at the moment. Further details will be communicated as soon as available.
	3	The Men's 10m Platform Preliminary had to be interrupted due to athlete injury. Further details will be communicated by FINA as soon as available.
	4	The Men's 10m Platform Preliminary had to be rescheduled due to venue power failure. The new date and start time is dd MMM yyyy at HH:MM.
	5	The Men's 10m Platform Preliminary had to be cancelled due to insufficient number of divers participating. The Men's 10m Platform event will not be held during these Games.
	6	FAMILYNAME Givenname (NOC) submitted a protest related to his total point in round 1 of the Men's (or Women's) 10m Individual Platform Preliminary
	7	FAMILYNAME Givenname (NOC), was disqualified due to breach of sport ethics rules
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org <i>If the disqualified athlete is among medallists:</i> The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. The medallists are now: FAMILYNAME Givenname (NOC), gold, FAMILYNAME Givenname (NOC), silver, and FAMILYNAME Givenname (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org
Issued by	I	FINA TDC Commission
	II	Diving Competition Manager
Further information	i	For more details contact the FINA Office
	ii	For more details contact the FINA TDC Commission
	iii	For more details contact the OC Competition Manager
	iv	For more details consult www.olympic.org

Note: authors of this ORIS document do not imply that this is a complete list of Official Communications templates.

2 Results, Medals and Diplomas

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Diving.

Eligible divers:

- Men's/Women's individual and synchronised events: Divers who competed in the Final

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/ Diploma	Event Type	
	Individual	Synchronised
Gold	<ul style="list-style-type: none">1Tie(s) for 1st place	<ul style="list-style-type: none">2Tie(s) for 1st place
Silver	<ul style="list-style-type: none">1Tie(s) for 2nd place	<ul style="list-style-type: none">2Tie(s) for 2nd place
Bronze	<ul style="list-style-type: none">1Tie(s) for 3rd place	<ul style="list-style-type: none">2Tie(s) for 3rd place
Diploma	<ul style="list-style-type: none">8	<ul style="list-style-type: none">16 (8x2 finalists)

Rules for awarding medals to tied divers/teams:

- If two divers/teams are tied for 1st place, the silver medal will not be awarded
- If three or more divers/teams are tied for 1st place, the silver and bronze medals will not be awarded
- If two or more divers/teams are tied for 2nd place, the bronze medal will not be awarded
- If two or more divers/teams are tied for 3rd place, all will be awarded bronze medals

2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

For individual events:

Initial Rank	New Rank	Name	NOC Code
--------------	----------	------	----------

If the gold medallist is disqualified

4	FAMILYNAME 1 Givenname 1	NOC 1
2	FAMILYNAME 2 Givenname 2	NOC 2
3	FAMILYNAME 3 Givenname 3	NOC 3
4	FAMILYNAME 4 Givenname 4	NOC 4
5	FAMILYNAME 5 Givenname 5	NOC 5
6	FAMILYNAME 6 Givenname 6	NOC 6
7	FAMILYNAME 7 Givenname 7	NOC 7
8	FAMILYNAME 8 Givenname 8	NOC 8
9	FAMILYNAME 9 Givenname 9	NOC 9
10	FAMILYNAME 10 Givenname 10	NOC 10
11	FAMILYNAME 11 Givenname 11	NOC 11
12	FAMILYNAME 12 Givenname 12	NOC 12

Note: All divers ranked after the disqualified diver will be ranked one place higher.

ORIS reference output:

- Results (Individual) (C73A) - Final

Note: The software must be flexible enough to handle medal allocations as decided by FINA and/or the IOC.

For synchronised events:

Initial Rank	New Rank	NOC Code
--------------	----------	----------

If the gold medallist is disqualified

4	NOC 1
2	NOC 2
3	NOC 3
4	NOC 4
5	NOC 5
6	NOC 6
7	NOC 7
8	NOC 8

Note: All teams ranked after the disqualified team will be ranked one place higher.

ORIS reference output:

- Results (Synchronised) (C73D)

Note: The software must be flexible enough to handle medal allocations as decided by FINA and/or the IOC. It is FINA's preference that only divers/teams that participated in the final should be eligible for diplomas in the case of disqualification of a finalist.

3 Data to be Captured

There is no additional data to be captured by SEQ in Diving.

This page intentionally left blank.

Document Control

Version History

Release 6 Version 1.2 27 Feb 2015	Approved version Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux
Release 6 Version 1.1 4 Jul 2014	Approved (signed-off) version Sign-off letters from both FINA (4 Sep 2014) and Rio 2016 (18 Sep 2014) have been received by the IOC. No further changes will be made to this document without Change Management.
Release 6 Version 1.1 4 Jul 2014	Submitted for sign-off Updated with comments received in the review period after the ORIS meeting
Release 6 Version 1.0 3 Jun 2014	Submitted for review Submitted for review after the ORIS Diving meeting, 28 - 30 Apr 2014. Based on the ORIS Diving meeting minutes as of 30 Apr 2014.
Release 6 Version 0 31 Mar 2014	Draft Updated based on ORIS document release 5, the analysis of the London Questionnaire and issues logged as Rio 2016 improvements during the London Homologation Test

Release 6 - Version 1.2 - 27 Feb 2015

Global Changes

1. The new output "Entries by Event" (C31C) has been introduced.
Affected files: Procedures, Distribution Rules, output C31C
2. The output "Minimum / Maximum" (N86G) has been removed throughout the document.
Affected files: Procedures, Distribution Rules, output N86G.
3. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".
Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").

Executive Summary

Chapter 2.2.4:

- In the second paragraph, the text has been updated regarding the presentation of column headings in outputs

Chapter 4:

- Ms Kathy Seaman has been added to the members of the ORIS Diving Working Group
- Members of the Rio 2016 ORIS Management Team: The names and functions have been adjusted as follows:
 - Ms Isabella BURCZAK, IOC Sports, Head of Sport Projects
 - Mr Pierre FRATTER-BARDY, IOC Sports, Head of Summer Sports and IF Relations

Diving References

Chapter 1 - Specifications

- Events: progression and competition format types: In the last bullet below the table, the reference sentence has been adjusted

Procedures

Chapter "Schedules":

- The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony

Chapter "Entries and Participant Data":

- The paragraph has been modified

Chapter "After the Sport Entry Deadline":

- The first paragraph has been modified

Chapter "Competition Officials":

- The text has been modified

Chapter "Substitution of a Games participant":

- The title has been changed to "Replacement of an athlete"

Chapter "Late athlete replacement":

- The text in the chapter has been modified

Chapter "News Service and Background information":

- Last paragraph: The wording has been adjusted from "Olympic Closing Ceremony" to "Closing Ceremony"

Section 1 - Outputs

General

- Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated
- For N-outputs: All titles above tables or any other sub titles have been written in mixed case

Outputs

C06:

- In the sample and description table, the term has been changed to "Victory Ceremony" (instead of "Medal Ceremony")

C30:

- The source has been changed from "OC Competition Management" to "OC Technology"

C31A:

- The column heading "NOC" has been adjusted to "NOC Code"

C38:

- For TV names: Family names have been written in upper case (related CR 4933)
- Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added
- Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"

C39:

- For TV names: Family names have been written in upper case (related CR 4933)
- Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added
- Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"

C93:

- The sort order has been changed to show one order during competition (chronological, descending) and another order after all competition (Traditional FINA order), for the Results Book)

	<p>N17A:</p> <ul style="list-style-type: none"> The presentation order has been adjusted to chronologically (descending), previous Games listed last <p>N20:</p> <ul style="list-style-type: none"> In the Description table, the following comment has been added "For Major Achievements show only the levels of competitions relevant for that athlete." <p>N86B:</p> <ul style="list-style-type: none"> The FINA information has been updated
--	--

Section 2 - Distribution Rules

Main distribution table:

- Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016
- For C08: The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)"
- For C35: The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)"
- Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added

Section 3 - Real Time Information

Scoreboards

Chapter "NOC Names":

- The entire bracket in the last sentence has been deleted

Chapter "Technical Specifications":

- A last sentence has been added: "The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to FINA's approval."

Part "During the Victory Ceremony":

- The medal screen titles have been adjusted from "MEDALLISTS" to "VICTORY CEREMONY"

Sport Specific Real Time data

- A statement regarding the fact that there is no additional real time data available other than defined in Section 1 - Outputs has been added

Appendix A - Glossary

Chapter "Terms"

- The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download" and "Results System Code (RSC)"
- Term "Disqualification": The definition has been updated
- Term "INFO": The definition has been updated

Chapter "Competition Format Types"

- Different types of bracket format have been added

Appendix C - Rules for Data Formats and Presentation

"Schedule status options" and "Results Status Options":

- Status options which are not applicable for a sport discipline should have the comment "Not applicable for Diving" added.
- "Schedule status options": "Live" has been changed to "Running"
- "Results status options": "Intermediate" definition has been modified with "and/or"
- "Results status options": "Protested" has been included

Appendix D - Supporting Documents

- Page 1: The bullets have been modified
- Chapter "Templates for Official Communication": Under "Summary", "8", the

- | |
|---|
| <ul style="list-style-type: none"> • wording regarding the ranking has been deleted • New chapter "Results, Medals and Diplomas" has been added • New chapter "Data to be Captured" has been added |
|---|

Release 6 - Version 1.1 - 4 Jul 2014

Global Changes

General:

- Throughout the document the phase names have been changed from "Preliminaries", "Semifinals" and "Finals" to "Preliminary", "Semifinal" and "Final" respectively

Executive Summary

- Chapter 4, "Steering Committee": The names of the IOC Sports Director, the Rio 2016 Sport Director and the Rio 2016 Technology Results Manager have been updated
- Chapter 4, "Working Group": The names have been updated

Procedures

The following chapters have been modified:

- 2.1.2.1:
 - The first paragraph has been modified (consolidation)

Release 6 - Version 1.0 - 3 Jun 2014

Global Changes

General:

- The terminology for referring to the number of dives performed by each diver in a session has been changed from "dive" to "round"

The following outputs have been renamed and the change should be reflected throughout the document:

- C70A "Intermediate Results - After x Dives (Individual)" to "Intermediate Results - After x Rounds (Individual)"
- C70B "Intermediate Results - After x Dives (Synchronised)" to "Intermediate Results - After x Rounds (Synchronised)"

The following output has been deleted and will be removed from the document:

- C77 "Judges Analysis"

Executive Summary

- 2.2.10 - Appendix D - Supporting Documents
 - The grey highlighted text has been deleted
- 4 - Rio 2016 ORIS Project Participants
 - Steering Committee: The name of the IOC Sports Director has been changed
 - The ORIS Diving Working Group names/functions have been updated

Diving References

- Participation references
 - Last bullet: The second sentence has been changed to read "An NOC is allowed to replace a diver with another diver from the same NOC up to three (3) hours before the start of the preliminaries for individual diving, and prior to the start of the finals for synchronised diving."

- Last bullet: The reference has been changed to the "20th FINA Diving World Cup 2016"

Procedures

General:

- All references to the FINA Technical Diving Committee Commission have been standardised as the "TDC Commission"
