Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Equestrian. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Equestrian References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, the FEI and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of the FEI, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the FEI, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the FEI and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.
The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Equestrian Working Group.
This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.
It is divided into three chapters:

- Event related requirements
  - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
  - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
  - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
  - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards and sport specific real time data, as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the FEI should approve the proposed solution.

2.2.6.2 Sport specific real time data

Requirements regarding collection of sport specific real time data, are defined in this part and made available for use by certain ODF subscribers (e.g. GPS tracking data used to produce 3D graphics).

2.2.6.3 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Equestrian draft document, based on:
  - The last version of the ORIS Equestrian document of the previous Games
  - International Federation sport rules, competition format and requirements for these Games
  - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Equestrian meeting, the draft will be made available to the ORIS Equestrian Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Equestrian Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Equestrian document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Equestrian Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Equestrian document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

The FEI and the Organising Committee will sign-off the ORIS Equestrian document after all agreed changes have been implemented.

For the FEI, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Equestrian competition and that the procedures as described in the document will be followed.
For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if the FEI or the OC requests any change which has an impact on the ORIS Equestrian document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.
It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Equestrian document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the FEI, media, teams, etc.)
- To prepare required changes to the ORIS Equestrian document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Equestrian Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.
It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.
Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by the FEI and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).
It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Equestrian document. The test begins with entry data for athletes and officials, continues through the draws and with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, records, medals, etc.
- Scoreboards

The FEI, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.
All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.
All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the FEI and WNPA reports. Those documents are then sent to the OC, the FEI, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.
The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games Questionnaires to document the FEI, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Equestrian document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Equestrian Working Group.
Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Equestrian project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the FEI, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances…)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Equestrian Working Group:

- Attends the ORIS meeting to discuss and agree on the Equestrian results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Equestrian Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Equestrian Working Group are:

- **Ms Catrin NORINDER**, FEI Olympic & Eventing Director
- **Mr John ROCHE**, FEI Director Jumping
- **Mr Trond ASMYR**, FEI Director Dressage
- **Mr Tim HADAWAY**, FEI Director for Olympic & Games venues
- **Mr Alex TITAN**, Rio 2016, Sport Manager Eventing
- **Ms Lucia MONTANARELLA**, Rio 2016, Head of Press Operations
- **Mr Tassos KOUTSOGIANNIS**, Rio 2016, Cluster Venue Results Manager
- **Ms Veronica COSTA**, Rio 2016, Venue Results Manager
- **Mr Jaume PEREZ**, Atos, IDS Product Manager
- **Mr Antonio MORENO**, Atos, Sport Analyst
- **Mr Aurélien JOST**, OMEGA STVM
- **Mr Dimitri COLELLA**, OMEGA STRM
- **Mr Patrick LINDER**, OMEGA STRM
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Mr Ketil PETTERSEN**, IOC ORIS Sport Analyst for Equestrian

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

2 Competition

2.1 Eventing (EC)

- **Competition format**

  The Olympic Equestrian eventing discipline comprises two separate events: the eventing team event and the eventing individual event. Eventing is made up of the following distinct tests: dressage, cross country and jumping. Each test takes place on separate consecutive days during which the athlete rides the same horse. The results of each test count towards both the eventing individual and the eventing team events. A team consists of three to four athlete/horse combinations. The team total points are the sum of the total points of the best three athletes. After the three tests, eventing team medals are awarded. The 25 best placed athletes (including all athletes tied for 25th place), with a maximum of three athletes from the same NOC, after the 1st jumping test qualify to participate in the jumping individual final. The final ranking of the individual athletes is set according to the combined points earned in all four tests (dressage, cross country, 1st jumping test, jumping individual final). The tests are, namely:

  - Dressage Test: a set of compulsory movements evaluates the horse's obedience, flexibility and harmony with the athlete. Judges award marks for each movement. The total score is then converted into penalty points to which the jumping or time penalties of the following two days are added
  - Cross Country Test: consists of one test which each horse/athlete combination attempts to complete, within a prescribed length of time, without jumping errors. The cross country test will require up to 45 jumping efforts.
  - Jumping Test: is the final session of the eventing competition and requires competitors to jump 10 to 12 obstacles similar in nature to those found in the jumping event, though not as difficult. The test consists of a maximum of 15 jumping efforts and is designed to demonstrate that horses have retained their suppleness and correct training after the cross country test. The first jumping test will determine the team classification. This is followed by the second jumping test to determine the individual classification.

- **Tie Break Rules**
  - Team

    In the event of a tie, the classification will be decided on the results of:

    1. The team with the highest three individual placing will be declared the winner
    2. If still equality the ties shall be declared
  - Individual

    In the event of a tie, the classification will be decided on the results of:

    1. Best overall cross country score
    2. Cross country time closest to the optimum time
    3. Best final jumping score
    4. Best qualifier jumping score
    5. Best time (fastest) in the final jumping
    6. Best total of collective marks in the dressage test
    7. If still equality the ties shall be declared

- **Venue type**
  - Outdoor
  - Single venue, multi field-of-play

- **Participation references**

  The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

  - Athletes: 65 (conditions IOC and FEI qualification criteria)
  - Horses: 65
  - Expected number of teams: 15 (will be known after the qualification period)
  - Substitutions: Yes, until one (1) hour before the first horse inspection
- **Team composition**
  - Each team is made up of three or four athlete/horse combinations

2.2 Dressage (ED)

- **Competition format**

  The Olympic Equestrian dressage discipline comprises two separate events: the dressage team event and the dressage individual event. The dressage team event includes the Grand Prix and the Grand Prix Special. The dressage individual event includes the Grand Prix, the Grand Prix Special and the Grand Prix Freestyle (also known as the Kür). A team consists of three or four athlete/horse combinations. The team points are the sum of the points of three best athletes on the team. All the athletes compete in the Grand Prix test in which the points of the athletes count both towards the dressage individual event and the dressage team event. After the Grand Prix test the best six teams, including all teams tied for 6th place, will qualify to the final team competition (Grand Prix Special). The highest placed 8 athletes, including all athletes tied for 8th place not otherwise participating as the qualified team members, plus all athletes from qualified teams, qualify for the individual 2nd qualifier (Grand Prix Special). After the Grand Prix Special, medals are awarded for the best three dressage teams. The final team results for the teams placed 1st to 6th are the combined results of the Grand Prix and the Grand Prix Special. The final team results for the teams placed 7th to the last are the results from the Grand Prix. The best 18 athletes, with a maximum of three athletes from one NOC, (including all athletes tied for 18th place) after the Grand Prix Special (based on the points earned in the Grand Prix Special) qualify to the Grand Prix Freestyle. The final ranking of the individual athletes is set according to the results of the Grand Prix Freestyle only.
- **Tie Break Rules**
  - Team

  If two or more teams are tied by score, ties will be broken as follows:

  - The best result by the lowest scoring team member in the Grand Prix Special will be used to break the tie
  - If still tied, the same rule will be applied to the next lowest scoring athlete
  - For teams placed 7th and below, the same rules apply for the Grand Prix

  - Individual

  If two or more athletes are tied by score, ties will be broken as follows:

  - The artistic marks in the Grand Prix Freestyle will be used to break the tie
  - If still tied the marks for harmony will be used to break the tie
  - If still tied the marks for choreography will be used to break the tie.
  - If still tied, the competitors will share the rank

- **Venue type**
  - Outdoor

- Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

  - Athletes: 60 (conditions IOC and FEI qualification criteria)
  - Horses: 60 (maximum of 10 reserve horses)
  - Expected number of teams: 11 (will be known after the qualification period)
  - Substitutions: Yes (conditions as per FEI substitution criteria)

- **Team composition**
  - Each team is made up of three or four athlete/horse combinations

2.3 Jumping (ES)

- **Competition format**

  The Olympic Equestrian jumping discipline comprises two separate events: The jumping team event and the jumping individual event. 75 athlete/horse combinations are allowed to enter the Olympic jumping discipline. This quota is for both events.
  The jumping individual event comprises the following five rounds: 1st individual qualifier, 2nd individual qualifier, 3rd individual qualifier, round A and round B of the individual final. In each round, athlete/horse combinations jump a series of obstacles that may include water jumps, simulated stone walls, parallel rails, triple bars and many other variations all designed to test the athlete's skill and the horse's jumping ability. Penalties are given for faults such as knocking down an obstacle, refusals and exceeding the time allowed.
  The team consists of a maximum of four and a minimum of three athletes. The jumping team event comprises two rounds: Team round 1 and team round 2. The team event also serves as the 2nd and 3rd individual qualifier. In the team event, the teams are ranked by the lowest total number of penalties for the team's best three athletes in each round of the team competition.
  All the athletes compete in the 1st individual qualifier in which the points of the athletes count only towards qualifying for the individual final. The teams compete in the 1st individual qualifier as well. The team results in this phase are used to set the start list for the team round 1. The top 60 athletes (including all athletes tied for 60th place) plus team athletes ranked lower than 60th are allowed to start in the 2nd qualifier.
  The team points are the sum of the points of the three best athletes on the team. After the 2nd individual qualifier/team round 1, the best 45 athletes (including all athletes tied for 45th place) (based on the combined score of the 1st and 2nd individual qualifier) will qualify for the 3rd individual qualifier and the best eight teams will qualify for the team round 2 (including all teams tied for 8th place).
  After the team round 2, medals are awarded for the jumping team event (based on the combined results of the team round 1 and 2). If two or more teams are tied for medal places with the same number of points, ties will be broken by a jump-off(s). The best 35 athletes (including all athletes tied for 35th place), with a maximum of three athletes from the same NOC after the 3rd individual qualifier (based on the combined results of all three qualifiers), qualify for the round A individual final.
  The best 20 athletes (including all athletes tied for 20th place) after the final round A (based on the final round A points, the results of the qualifiers do not count) qualify for round B of the jumping individual final. The final ranking of the individual athletes is set according to the combined points earned in rounds A and B of the individual final. If two or more athletes are tied for the medal places with the same number of points, ties will be broken by a jump-off(s).

- **Tie Break Rules**
  - Team

    Any tie for team medals is broken by a jump-off(s).
  - Individual

    Any tie for individual medals is broken by a jump-off(s).

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Equestrian events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).
OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the FEI Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management.

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once the FEI and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Equestrian competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Training Schedule (C07)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)
- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete and team names.
Information users, in particular the media, are used to seeing names spelt in a certain manner at other FEI events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Entry Data Checklist - Competition Officials (C39A)
- Entry Data Checklist - Horses (C39B)

will be produced with all name lengths to be used during the Games and given to the FEI for checking and approval.
The FEI will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than two (2) hours before the first chefs d'équipe's meeting for each discipline.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

In Equestrian, the team name corresponds with the NOC name. In order to ensure that the current NOC names in the OVR system are according to the requirements set by the IOC NOC naming policy, OVR should also produce the output:

- Entry Data Checklist - Teams (C38C)

for verification by the OC Venue Results Manager or any other party involved in the verification process.

Upon completion of the participant data process, OC Technology will produce the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)

for verification by the FEI Technical Delegate or the designated person. Once approved, the output will be distributed according to the ORIS distribution rules.

2.1.2.3 Competition officials

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the FEI and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

2.1.2.4 Replacement of an athlete

2.1.2.4.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the chefs d'équipe's meeting.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

2.1.2.4.2 "P" alternate athletes

In addition to the late athlete replacement, the qualification system as agreed between the FEI and the IOC allows "P" alternate athletes for the Dressage and Jumping team events. These athletes will be granted "P" accreditation allowing them to train and access the competition venue under certain conditions.

When a "P" alternate athlete changes function, the replaced athlete should be indicated accordingly and the entry output(s) reissued, marked as "REVISED", with a free text note explaining the replacement.

"P" alternate athletes should be included in the initial data transfer to OVR and be part of the standard participant data verification process using the output "Entry Data Checklist" (C38).

"P" alternate athletes are not included in any quota and should not be counted in any statistics concerning the number of accredited, registered and participating athletes.

Replacement can occur before the chefs d'équipe's meeting for the initial phase of the event.

2.1.2.5 FEI unique athlete identification

The FEI has implemented a unique athlete identification (FEI Licence Number), in the following format:

ddMMyyyySSS

where:

- **ddMMyyyy** is the date of birth (in format - day, month, year), and
- **SSS** is used as a sequence number (001-999) for those who were born on the same date.

The FEI ID will remain the same throughout the athlete's career.

The FEI requests that this ID also be included in the appropriate ODF messages.

2.2 Pre-Competition Activities

After the FEI officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the chefs d'équipe's meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and the FEI will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 FEI athlete ranking

The FEI has the responsibility of providing the Organising Committee with the most recent FEI athlete ranking lists immediately before:

- The Test Event, and
- The Olympic Games

The FEI will provide the Organising Committee with the current FEI athlete ranking, using the format and mechanisms agreed with OC Technology.

Once the Organising Committee receives this data, OC Technology will enter it into the OC computer system and the output:

- Athlete Rankings (C26)

should be produced and distributed according to the ORIS distribution rules.

If an FEI ranking event is to be held after data has already been sent from the FEI to the Organising Committee, the FEI will arrange for the updates to be sent to the Organising Committee on the last day of that FEI ranking event.

It is important that the process for transferring these data from the official source to the Organising Committee Technology is agreed by the end of March 2014 and that any technology solution planned for such transfer is properly tested, if possible before and during the Test Event. Such transfer mechanisms will also be tested during the Equestrian Homologation Test.

2.2.3 Horse numbers

The OC Competition Management will assign the horse numbers as follows:

- Numbers 101 to 199 for Eventing
- Numbers 201 to 299 for Dressage
- Numbers 301 and up for Jumping

No later than one (1) hour before the first chefs d'équipe's meeting for each discipline, OC Technology will produce the output:

- Entry List by Event (C32C) - first version

for verification by the FEI Technical Delegate or the designated person. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.4 Eventing cross country course information

Prior to the first horse inspection the cross country test course plan and description of obstacles will be provided to the FEI Technical Delegate by the eventing course designer, for verification and approval.

This course plan will show only the track and cross country obstacles, and will be provided to OC Technology by the FEI Technical Delegate, in pdf format according to the agreed template for distribution.

No later than one (1) hour before the first chefs d'équipe's meeting for Eventing, OC Technology will produce the outputs:

- Course Plan (Eventing - Cross Country) (C03C)
- Description of Obstacles (Eventing - Cross Country) (C03D)

for verification by the FEI Technical Delegate or the designated person. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.2.5 Horse inspections

2.2.5.1 Eventing

2.2.5.1.1 First horse inspection

The first chefs d'équipe's meeting will take place on the day before the first horse inspection (at a time to be decided by the OC Competition Management) in order to draw the presentation order of the nations. Within the NOC, horses will be presented in the order of their horse number.

Immediately after the draw, OC Technology will produce the output:

- Order To Go for Horse Inspection (Eventing - 1st Inspection) (C56(C))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the inspection, OC Technology will produce the output:

- Results of Horse Inspection (Eventing - 1st Inspection) (C57(C))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.5.1.2 Second horse inspection

The order to go for the second inspection will be the same as for the first inspection, less any horses retired, eliminated, withdrawn or disqualified by the end of the cross country test.

The production of outputs "Order To Go for Horse Inspection (Eventing - 2nd Inspection)" (C56(C)) and "Results of Horse Inspection (Eventing - 2nd Inspection)" (C57(C)) is documented below, within "Results Processing for Eventing".

2.2.5.2 Dressage

2.2.5.2.1 Horse inspection

The list of all horses participating, sorted by nations (in alphabetical order by the standard IOC NOC code), will be prepared by the OC Competition Management on the day before the horse inspection. The horses within the NOC will be presented in the order of their horse number.

Immediately after the preparations, OC Technology will produce the output:

- Order To Go for Horse Inspection (Dressage) (C56(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the inspection, OC Technology will produce the output:

- Results of Horse Inspection (Dressage) (C57(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.5.2.2 Re-inspection

If required, the re-inspection will take place one (1) day after the horse inspection.

Immediately after the 1st horse inspection, OC Technology will produce the output:

- Order To Go for Horse Inspection (Dressage - Re-inspection After Horse Inspection) (C56(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the re-inspection, OC Technology will produce the output:

- Results of Horse Inspection (Dressage - Re-inspection After Horse Inspection) (C57(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.5.3 Jumping

2.2.5.3.1 First horse inspection

The list of all horses participating, sorted by nations (in alphabetical order by the standard IOC NOC code), will be prepared by the OC Competition Management on the day before the first horse inspection, preferably two (2) days before the jumping individual first qualifier. Within each NOC, horses will be presented in the order of their horse number. The horses must be presented by their athletes.

Immediately after the preparations, OC Technology will produce the output:

- Order To Go for Horse Inspection (Jumping - 1st Inspection) (C56(S))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the inspection, OC Technology will produce the output:

- Results of Horse Inspection (Jumping - 1st Inspection) (C57(S))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.5.3.2 Re-inspection

If required, the re-inspection will take place one (1) day after the first horse inspection.

Immediately after the 1st horse inspection, OC Technology will produce the output:

- Order To Go for Horse Inspection (Jumping - Re-inspection After 1st Horse Inspection) (C56(S))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the re-inspection, OC Technology will produce the output:

- Results of Horse Inspection (Jumping - Re-inspection After 1st Horse Inspection) (C57(S))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.5.3.3 Second horse inspection

The list of horses by NOCs (in alphabetical order by the standard IOC NOC code) will be prepared by the OC Competition Management not later than 18:00 on the day before the second horse inspection to take place on the morning before round A of the jumping individual - final. Only qualified horses and a certain number of the horses who may replace the potential drop outs will be presented by their athletes, in the order of their horse number within the NOC.

The production of outputs "Order To Go for Horse Inspection (Jumping - 2nd Inspection)" (C56(S)) and "Results of Horse Inspection (Jumping - 2nd Inspection)" (C57(S)) is documented below, within "Results Processing for Jumping".

2.2.6 Draw and start lists - initial phase

A chefs d'équipe's meeting is normally held after the first horse inspection and before the start of the event. Two important objectives of this meeting are to accept final changes to the entry list and produce the official start list. The chefs d'équipe announce the teams and order to go within the teams. A computerised or manual draw is held based on the final entry list.

The purpose of this draw is to decide the start order of the athletes and NOCs for the initial phase of each event. It is important to define a manual back-up procedure in case of computer failure. The reports must be distributed immediately upon the conclusion of the draw for the event.

It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Draw. The Draw procedure should be tested at the Test Event.

2.2.6.1 Eventing (dressage test - team and individual events)

There will be only one computerised draw of NOCs for both the horse inspection and start order for eventing. The NOCs and their numbers will be drawn one at a time.

The start list and order to go for the dressage test will be produced after the first horse inspection and when the declaration of starters have been made by the chefs d'équipe at the latest thirty (30) minutes before the second chefs d'équipe's meeting.

The meeting will take place after the first horse inspection, but no later than one (1) day before the first day of the dressage test. The NOCs must provide the order to go within their team one (1) hour after the first horse inspection before the chefs d'équipe's meeting. Athlete numbers will be assigned from 1 to 99 based on the starting order. From this point in time the athlete numbers will be only the reference (the horse numbers are no longer in use).

Immediately after the declarations, OC Technology will produce the outputs:

- Start List (Eventing Team - Dressage) (C51(C)A)
- Order To Go (Eventing Individual - Dressage) (C51(C)B)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

Following the draw, OC Technology will produce the output:

- Entry List by Event (C32C)

for distribution according to the ORIS distribution rules.

2.2.6.2 Dressage (Grand Prix - team and individual first qualifier)

The president of the ground jury will provide the names and positions of the ground jury members for all the events one (1) hour before the start of the draw.

All draws will be computerised by drawing each athlete or each team one at a time. The starting order for both teams and individuals will be made by draw after the horse inspection during the chefs d'équipe's meeting, preferably two (2) days, but no later than one (1) day, before the event.

The chefs d'équipe will decide the order to go of their team members. They must declare the order to go within their teams, one (1) hour before the draw in a sealed envelope.

The starting order is made out with the individual athletes placed in the positions which they have drawn. The team competitors will then be inserted in sequence in the remaining positions.

Immediately after the draw, OC Technology will produce the outputs:

- Start List (Dressage Team - Grand Prix 1st Qualifier) (C51(D)A1)
- Order To Go (Dressage Individual - Grand Prix 1st Qualifier) (C51(D)B)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

Following the draw, OC Technology will produce the output:

- Entry List by Event (C32C)

for distribution according to the ORIS distribution rules.

2.2.6.3 Jumping (training and individual - first qualifier and team event)

There will be computerized draws (the draw will be held in such a way that the start order is generated athlete by athlete) for the training session and the individual first qualifier and team event.

2.2.6.3.1 Training session

There will be a declaration of starters for the training session after the 1st horse inspection. The reserve horses may participate in the training session. The OC Competition Management will communicate to OC Technology the declaration of starters with the horses in sequence of their identification number within the NOCs.

A computerized draw takes place to establish the order to go of the NOCs.

Immediately after the draw, OC Technology will produce the output:

- Order to Go (Jumping - Training) (C51(S)A)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.2.6.3.2 Individual - first qualifier and team event

There will be a declaration of starters for the individual first qualifier phase at the chefs d'équipe's meeting on the day before the first individual qualifier phase.

A computerized draw takes place for the order to go of all participating athletes. The draw for the individuals takes place first, followed by the draw for the teams. The chefs d'équipe will decide the order to go of their team members within the teams, after the draw of the teams.

The starting order is made out with the individual athletes placed in the positions which they have drawn. The team athletes will then be inserted in sequence in the remaining positions.

Immediately after the draw, OC Technology will produce the outputs:

- Order To Go (Jumping Individual - 1st Qualifier) (C51(S)B)
- Start List (Jumping Team - Qualifier for Round 1) (C51(S)J)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

Following the draw, OC Technology will produce the output:

- Entry List by Event (C32C)

for distribution according to the ORIS distribution rules.

2.3 Results Processing

All intermediate and final scores will be entered in the Organising Committee's results system from the official timing system through an electronic interface. Results must be reviewed promptly and efficiently, in order to reduce the risks of displaying incorrect information on the scoreboard, CIS or in INFO and for other results clients. A review of results by competent sports personnel prior to distribution will also reduce the likelihood of protests.

Results are time-critical. Production and distribution of printed results must be well planned. A well planned matrix describing when, to whom and in what quantities, printed results should be distributed is essential to avoid paper "overflow".

In the on-line version, results should be made available after each athlete and immediately after the results are made official.

2.3.1 Results Processing for Eventing

2.3.1.1 Dressage Test

Immediately after each session, OC Technology will produce the outputs:

- Intermediate Results (Eventing Team - Dressage) (C70(C)A)
- Intermediate Results (Eventing Individual - Dressage) (C70(C)B)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

Immediately after the dressage test, OC Technology will produce the outputs:

- Results (Eventing Team - Dressage) (C73(C)A)
- Results (Eventing Individual - Dressage) (C73(C)B)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

The starting order for the cross country test will be the same as for the dressage test. The first release of the timetable will be prepared during day one (1) of the dressage test.

At a suitable time during day one (1) of the dressage test, OC Technology will produce the output:

- Order To Go - Timetable (Eventing Individual - Cross Country) (C51(C)E) - without results of dressage

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

The final version of the timetable, including the results of the dressage test, will be prepared after the dressage test.

Immediately after the dressage test results have been distributed, OC Technology will produce the outputs:

- Start List (Eventing Team - Cross Country) (C51(C)C)
- Order To Go - Timetable (Eventing Individual - Cross Country) (C51(C)E)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.1.2 Cross Country Test

Immediately after the cross country test, OC Technology will produce the outputs:

- Results (Eventing Team - Cross Country) (C73(C)C)
- Results (Eventing Individual - Cross Country) (C73(C)D)
- Cross Country Fence Penalty Analysis (C77(C))

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.1.3 Jumping Test - team final and individual qualifier

The order to go for the second inspection will be the same as for the first inspection, less any horses retired, eliminated, withdrawn or disqualified by the end of the cross country test.

After the cross country test results have been distributed, OC Technology will produce the output:

- Order To Go for Horse Inspection (Eventing - 2nd Inspection) (C56(C))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

The second horse inspection will take place before the jumping test and information on the horses will be confirmed by the FEI Technical Delegate.

Immediately after the inspection, OC Technology will produce the output:

- Results of Horse Inspection (Eventing - 2nd Inspection) (C57(C))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

The starting order for the eventing team - jumping final test and eventing individual - jumping qualifier test will be prepared immediately after the second horse inspection. The athletes whose horses do not pass the second horse inspection will be eliminated from the eventing individual and eventing team, if they are a member of a team. Only athletes whose horses pass the second horse inspection will be allowed to enter the jumping test.

Athletes competing in the individual event will start in the first group in reverse order of their ranking. Teams will start after the individuals in reverse order of team ranking. Within each team, athletes will start in reverse order of individual ranking. The order to go will always reflect this ranking within each team (i.e. all participating 4th ranked team athletes will jump first in the reverse order of the team ranking, followed by participating 3rd ranked athletes, etc. In this way the 1st ranked athletes from each team will jump last).

Immediately after the second horse inspection, OC Technology will produce the outputs:

- Start List (Eventing Team - Jumping) (C51(C)F)
- Order To Go (Eventing Individual - Jumping Qualifier) (C51(C)G)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

After the cross country test the course plans and description of fences for both the team and individual finals will be provided to the FEI Technical Delegate by the jumping course designer, for verification and approval.

This course plan will show only the track, type of obstacles (vertical/oxer/triple bar) and the direction in which obstacles are to be jumped and will be provided to OC Technology by the FEI Technical Delegate, in pdf format according to the agreed template for distribution.

Immediately following approval of each course by the Ground Jury, a full plan of the respective course including all heights and spreads for each obstacle, the description of fences, together with the distances and time allowed/time limit for each round will be given to OC Technology by the FEI Technical Delegate to in pdf format according to the agreed template for distribution.

Before the phase, OC Technology will produce the outputs:

- Course Plan (Eventing - Jumping (for team final and individual qualifier)) (C03A)
- Description of Fences (Eventing - Jumping (for team final and individual qualifier)) (C03B)

for distribution according to the ORIS distribution rules.

Immediately after the end of the eventing team - jumping test / eventing individual - jumping qualifier, OC Technology will produce the outputs:

- Final Results (Eventing Team) (C73(C)E)
- Results (Eventing Individual - Jumping Qualifier) (C73(C)F)

for verification by the FEI Technical Delegate. Once approved, the outputs will be distributed according to the ORIS distribution rules.

The starting order for the eventing individual - jumping final test includes the best 25 athletes (including all tied for 25th place) with a maximum of three athletes from the same NOC after the jumping qualifier. These athletes will start in reverse order of their ranking after the jumping qualifier (tied competitors will start in the same order as they did in the individual jumping qualifier).

Immediately after the jumping qualifier test results have been distributed, OC Technology will produce the output:

- Order To Go (Eventing Individual - Jumping Final) (C51(C)H)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.3.1.4 Jumping Test - individual final

Before the phase, OC Technology will produce the outputs:

- Course Plan (Eventing Individual - Jumping Final) (C03A)
- Description of Fences (Eventing Individual - Jumping Final) (C03B)

for distribution according to the ORIS distribution rules.

Immediately after the end of eventing individual - final, OC Technology will produce the output:

- Final Results (Eventing Individual) (C73(C)G)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.3.2 Results Processing for Dressage

2.3.2.1 Grand Prix - team and individual first qualifier

At suitable intervals, after the first day and after the third athlete of all teams has finished, OC Technology will produce the output:

- Intermediate Results (Dressage Team - Grand Prix 1st Qualifier) (C70(D)A1)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

After each session, OC Technology will produce the output:

- Intermediate Results (Dressage Individual - Grand Prix 1st Qualifier) (C70(D)B)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the Grand Prix, OC Technology will produce the outputs:

- Results (Dressage Team - Grand Prix 1st Qualifier) (C73(D)A1)
- Results (Dressage Individual - Grand Prix 1st Qualifier) (C73(D)B)
- Judges' Individual Marks (C77(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.3.2.2 Grand Prix Special - team final and individual second qualifier

After the Grand Prix test, the best six teams including all teams tied for 6th place will qualify for the final team competition (Grand Prix Special). The 8 highest placed athletes, including all athletes tied for 8th place not otherwise participating as qualified team members, plus all athletes from qualified teams will qualify for the individual 2nd qualifier (Grand Prix Special).

The starting order will be made by draw during the chefs d'équipe's meeting on the day after the Grand Prix. The draw will be based on the qualification results achieved in the Grand Prix. The starting order

will be drawn in the following groups (in case of team ties only, and only for the purpose of the draw, they will be broken by FEI rules):

- 1st group: athletes ranked 7th to 8th of the qualified individuals
- 2nd group: team athletes from the teams ranked 5th to 6th
- 3rd group: athletes ranked 1st to 6th of the qualified individuals
- 4th group: team athletes from the teams ranked 1st to 4th

The starting order of the athletes within the team will remain the same as in the Grand Prix.

Changes will be allowed up to two (2) hours before the start of the Grand Prix Special. Only athletes identified as reserve athletes on the Grand Prix results may be added to the start list. Athletes will be replaced in accordance with the FEI rules. In case of change between the draw and competition, the FEI and OC Technology will agree upon the redistribution (print and/or INFO only) of affected outputs.

Immediately after the draw, OC Technology will produce the outputs:

- Start List (Dressage Team - Grand Prix Special - Team Final) (C51(D)A2)
- Order To Go (Dressage Individual - Grand Prix Special 2nd Qualifier) (C51(D)C)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

At suitable intervals and after the 2nd and 3rd group as defined by the draw, OC Technology will produce the output:

- Intermediate Results (Dressage Team - Grand Prix Special - Team Final) (C70(D)A2)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

After each session, OC Technology will produce the output:

- Intermediate Results (Dressage Individual - Grand Prix Special 2nd Qualifier) (C70(D)C)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the Grand Prix Special, OC Technology will produce the outputs:

- Final Results (Dressage Team - Grand Prix Special - Team Final) (C73(D)A2)
- Results Summary (Dressage Team) (C74(D)T)
- Results (Dressage Individual - Grand Prix Special 2nd Qualifier) (C73(D)C)
- Judges' Individual Marks (C77(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

After the Grand Prix Special medals are awarded for the best three dressage teams.

2.3.2.3 Grand Prix Freestyle - individual final

The best 18 athletes (with maximum of three athletes from the same NOC), including all athletes tied for 18th place from the Grand Prix Special, qualify to the Grand Prix Freestyle.

The starting order will be made by draw during the chefs d'équipe's meeting two (2) days before the Grand Prix Freestyle. The draw will be based on the qualification results achieved in the Grand Prix Special. The starting order will be drawn in the following groups:

- 1st group: athletes ranked 13th to 18th
- 2nd group: athletes ranked 7th to 12th
- 3rd group: athletes ranked 1st to 6th

If a qualified athlete/horse drops out, there are two possibilities:

- If 18 athletes are listed to start;
  - The next ranked athletes (including ties) will be added to the start list. Any athlete that drops out will be removed from the start list. If there is only one replacement he/she will start first. If

there is more than one replacement, the FEI Technical Delegate will decide the starting positions, and they will start in the same order as they started in the Grand Prix Special. The starting order will be re-adjusted. A corrected version of the output Order To Go (Dressage Individual - Grand Prix Freestyle (C51(D)D) will be produced, approved by the FEI Technical Delegate and distributed according to the ORIS distribution rules. Such a replacement is allowed until two (2) hours before the start of Grand Prix Freestyle

- If more than 18 athletes are listed to start;
  - The start list will not be changed. Any athlete who drops out will be marked as "Withdrawn (WD)" as the result for the Grand Prix Freestyle.

In the case of several drop outs, the same process will be repeated for each drop out to ensure that there will be at least 18 starters.

Immediately after the draw, OC Technology will produce the output:

- Order To Go (Dressage Individual - Grand Prix Freestyle - Individual Final) (C51(D)D)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

At suitable intervals and after the first 12 starters, OC Technology will produce the output:

- Intermediate Results (Dressage Individual - Grand Prix Freestyle - Individual Final) (C70(D)D)

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the Grand Prix Freestyle, OC Technology will produce the outputs:

- Final Results (Dressage Individual - Grand Prix Freestyle - Individual Final) (C73(D)D)
- Results Summary (Dressage Individual) (C74(D)I)
- Judges' Individual Marks (C77(D))

for verification by the FEI Technical Delegate. Once approved, the output will be distributed according to the ORIS distribution rules.

2.3.3 Results Processing for Jumping

2.3.3.1 Course information

Twenty-four (24) hours prior to the scheduled start time of each round the course plans and description of fences all of the jumping competitions will be provided to the FEI Technical Delegate by the jumping course designer for verification and approval.

This course plan will show only the track, type of obstacles (vertical/oxer/triple bar) and the direction in which obstacles are to be jumped and will be provided to OC Technology by the FEI Technical Delegate, in pdf format according to the agreed template for distribution.

Immediately following approval of the course by the Ground Jury, a full plan of the course including all heights and spreads for each obstacle, the description of fences, together with the distances and time allowed/time limit for each round will be given to OC Technology by the FEI Technical Delegate in pdf format according to the agreed template for distribution.

Communication between the course designer and OC Technology needs to be established as early as possible in order for the course designer to be informed about the course plan provision process, and have the appropriate software tools.

Before each phase, OC Technology will produce the outputs:

- Course Plan (Jumping) (C03A)
- Description of Fences (Jumping) (C03B)

for distribution according to the ORIS distribution rules.

The information for the jump-off course plan will be included in the course plans for the team round 2 and individual final B.

2.3.3.2 Individual first qualifier

Immediately after the end of the jumping individual - first qualifier, OC Technology will produce the outputs:

- Results (Jumping Individual - 1st Qualifier) (C73(S)C)
- Results (Jumping Team - Qualifier for Round 1) (C73(S)A)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.3 Team round 1 and individual second qualifier

The results of the jumping individual - first qualifier and qualifier for round 1 for the jumping team event will affect the start lists for the jumping individual - second qualifier and jumping team - round 1.

The best 60 athletes (including all tied for 60th place) after the individual first qualifier are qualified for the individual second qualifier. Any team member not classified in the top 60 will be entitled to start in the team round 1 but their results will count for team classification only.

The individuals who are not members of one of the participating teams will start first, in reverse order of their ranking after the first qualifier. Tied athletes will start in the same order as they started in the first qualifier.

The next to start will be the teams classified 9th to 15th in the qualifier for round 1 of the team event. The teams in this group will start in reverse order of their ranking after the first qualifier. Those teams with equal penalties will start in the same order as in the team qualifier for round 1.

The next to start will be the teams classified 1st to 8th (including all tied for 8th place) in the qualifier for round 1 of the team event. The teams in this group will start in reverse order of their ranking after the first qualifier. Those teams with equal penalties will start in the same order they started in the team qualifier for round 1.

Each chef d'équipe will provide the OC Competition Management with the order to go within the team no later than 18:00 on the day before the team round 1 competition.

Athletes dropping out for individual positions in the individual second qualifier (in which 60 athletes are foreseen) will not be replaced.

If a member of a team does not participate in team round 1, the remaining team members must retain the same starting order within their team as established by the chefs d'équipe.

Immediately after the individual first qualifier results have been distributed, OC Technology will produce the outputs:

- Start List (Jumping Team - Round 1) (C51(S)C)
- Order To Go (Jumping Individual - 2nd Qualifier) (C51(S)E)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

For the course information and score sheets please see chapter 2.3.3.1.

Immediately after end of the jumping team - round 1 / jumping individual - second qualifier, OC Technology will produce the outputs:

- Results (Jumping Team - Round 1) (C73(S)A)
- Results (Jumping Individual - 2nd Qualifier) (C73(S)D)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.4 Team round 2 and individual third qualifier

The results after the jumping individual second qualifier and jumping team round 1 will affect the start lists for the jumping individual - third qualifier and jumping team round 2.

The best 45 athletes (including all tied for 45th place) after the individual second qualifier are qualified for the individual third qualifier. The best eight teams (including all tied for 8th place) after round 1 are qualified for round 2.

The individuals who are not members of one of the qualified teams will start first in reverse order of their ranking after the second qualifier. Tied athletes will start in the same order as in the second qualifier.

The teams will start in reverse order of the rank after round 1. The order of the team members within each team will be the same as in round 1. Tied teams will start in the same order as in round 1. If a member of a team does not participate in team round 2, the remaining team members must retain the same starting order within their team as in team round 1.

Athletes dropping out for individual positions in the individual third qualifier (in which 45 athletes are foreseen) will not be replaced.

Teams dropping out from team round 2 will not be replaced.

Immediately after the jumping team - round 1 / jumping individual - second qualifier results have been distributed, OC Technology will produce the outputs:

- Start List (Jumping Team - Round 2) (C51(S)D)
- Order To Go (Jumping Individual - 3rd Qualifier) (C51(S)F)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

For the course information and score sheets please see chapter 2.3.3.1.

Immediately after the end of the jumping team - round 2 and jumping individual - third qualifier, OC Technology will produce the outputs:

- Final Results (Jumping Team) (C73(S)B) - if a jump-off(s) is not required
- Results Summary (Jumping Team) (C74(S)T) - if a jump-off(s) is not required
- Results (Jumping Individual - 3rd Qualifier) (C73(S)E)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.5 Team event - jump-off

The jump-off will take place in the case of ties for medals. Teams for whom the jump-off is necessary will start in the same order as for team round 2. In the case of two jump-offs, the lower medals jump-off will be listed first.

In the case of ties for medals in the team event, OC Technology will produce the output:

- Start List (Jumping Team - Jump-off) (C51(S)K)

for verification by the President of the Ground Jury. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after the end of the jump-off, OC Technology will produce the outputs:

- Final Results (Jumping Team) (C73(S)B)
- Results Summary (Jumping Team) (C74(S)T)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.6 Individual event - Final round A

The best 35 athletes (with maximum three athletes per NOC), including all tied for 35th place after the individual third qualifier are qualified for final round A.

The starting order will be in reverse order of the rank after the third qualifier. Tied athletes will start in the same order as in the third qualifier. If both the 3rd and 4th athletes from one NOC are ranked lower than 35th place, and if they are tied with the same number of points after the 3rd qualifier, the athlete who will qualify to the individual round A will be declared by the chef d'equipe no later than two (2)

hours before the second horse inspection. If such a situation occurs, OC Technology will update and produce the output:

- Results (Jumping Individual - 3rd Qualifier) (C73(S)E)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules

The list of horses by NOCs (in alphabetical order by standard IOC NOC code) will be produced by the OC Competition Management on the day of the second horse inspection (on the morning before final round A). Only qualified horses, and a certain number of the horses who may replace the potential drop outs, will be presented by their athletes, in the order of their horse number within the NOC.

On the day of the second horse inspection, OC Technology will produce the output:

- Order To Go for Horse Inspection (Jumping - 2nd Inspection) (C56(S))

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

Any changes in the order to go will be possible up until three (3) hours before the start of final round A. If there are changes the following procedure will be put in place:

- If 35 athletes are listed to start;
  - The next ranked athletes (including ties, but excluding a fourth athlete from the same NOC) will be added to the beginning of the start list. The athlete who drops out will be removed from the start list. The starting order will be re-adjusted. A corrected version of the output Order To Go (Jumping Individual - Final Round A) (C51(S)G) will be produced, approved by the President of the Ground Jury and distributed according to the ORIS distribution rules.
- If more than 35 athletes are listed to start;
  - The start list will not be changed. An athlete who drops out will be marked as "Not Started (NS)" as their result for final round A.

Immediately after the declaration of starters (18:00 hours, one (1) day before competition), OC Technology will produce the output:

- Order To Go (Jumping Individual - Final Round A) (C51(S)G)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

For the course information and score sheets please see chapter 2.3.3.1.

Immediately after final round A, OC Technology will produce the output:

- Results (Jumping Individual - Final Round A) (C73(S)F)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.7 Individual event - Final round B

The best 20 athletes (including all tied for 20th place) after final round A are qualified for final round B.

The starting order will be the reverse order of the rank after final round A. Tied athletes will start in the same order as in final round A.

Immediately after final round A results have been distributed, OC Technology will produce the output:

- Order To Go (Jumping Individual - Final Round B) (C51(S)H)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

The course for final round B will be different from the course for final round A.

For the course information and score sheets please see chapter 2.3.3.1.

Immediately after final round A (if a jump-off(s) is not required), OC Technology will produce the outputs:

- Final Results (Jumping Individual) (C73(S)G)

- Results Summary (Jumping Individual) (C74(S)I)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.3.8 Individual event - jump-off

The jump-off will take place in the case of ties for medals. Athletes for whom the jump-off is necessary will start in the same order as for final round B. In the case of two jump-offs, the lower medals jump-off will be listed first.

In the case of ties for medals in the individual event, OC Technology will produce the output:

- Order To Go (Jumping Individual - Jump-Off) (C51(S)I)

for verification by the President of the Ground Jury. Once approved, the output will be distributed according to the ORIS distribution rules.

Immediately after end of the jump-off, OC Technology will produce the outputs:

- Final Results (Jumping Individual) (C73(S)G)
- Results Summary (Jumping Individual) (C74(S)I)

for verification by the President of the Ground Jury. Once approved, the outputs will be distributed according to the ORIS distribution rules.

2.3.4 All disciplines and events

2.3.4.1 Before the final phase of each event

No later than sixty (60) minutes before the final phase of each event the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

if the Victory Ceremony is organised at the venue immediately after the final phase,

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.4.2 After the final phase of each event

After the final phase of each event, OC Technology will produce the outputs:

- Medallists (Individual) (C92A) or
- Medallists (Team) (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)
- Equestrian Medal Standings (C97)

for distribution according to the ORIS distribution rules.

2.4 Common Sport Functions

2.4.1 Official Communications

The Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the FEI Secretary General or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or athlete/horse/team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the FEI Secretary General or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the FEI, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.4.3 Weather

Weather information that includes weather conditions for the current day and the forecast for the next two (2) days must be provided beginning three (3) days prior to the competition until the last day of competition. This information is specifically about weather at the Equestrian venue.

The output:

- Weather (C49)

is updated in INFO after each update has been received from the meteorological services.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

The following schedule status options are applicable to an event or event unit (phase):

2.5.1.1 Delayed

A delay may occur if a phase does not start as scheduled, but should start within the current ticketing session.
The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.2 Postponed

A phase did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.
If an interrupted phase cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A phase may be subject to an unplanned interruption after it has started.
The time of resumption/restart is unknown. If the phase cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.
The results of a completed phase will be carried forward to the new date and start time. An uncompleted athlete's performance will be restarted from the beginning.

2.5.1.4 Rescheduled

A phase may be rescheduled if it cannot be held at the originally scheduled start date/time.
The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.

2.5.1.5 Cancelled

An event which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the FEI will decide what effect the situation would have on the competition and what actions should be taken.

If one or more event(s) is cancelled, all affected outputs (e.g. medal outputs, results summary, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added. For outputs with the indication "after x of y events", the number of events (y) will remain unchanged.

2.5.2 Competition related

2.5.2.1 Invalid results marks (IRM codes)

Any Withdrawal (WD), Elimination (EL), Retirement (RT), Not Started (NS) or Disqualification (DSQ) will be handled according to the FEI rules.

Disqualifications due to breach of the FEI rules will be treated as Elimination (EL).

The IRM (EL, RT, WD or NS) received will be applicable to the current phase of the competition. The results achieved in previously finished phases will remain.

For Dressage and Jumping: If a team consists of three athletes, or has been reduced to three athletes, then if any athlete in the team event receives an IRM, the team will be marked as EL.

2.5.3 Disqualifications

2.5.3.1 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the FEI Technical Delegate or the designated person before distribution.

2.5.3.2 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, the FEI will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the FEI. The FEI is responsible for providing the updated results to the IOC.

2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission

If an athlete or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The athlete/team, the athlete's/team's NOC, the FEI, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The FEI Technical Delegate, or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D (Subtitle: E, Summary: 8, Issued by: I, Further information: iv) of this document.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it <u>without any modifications</u> into the output "IOC News" (N90C) and publish it in INFO
- As soon as the FEI Technical Delegate, or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the FEI Technical Delegate or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Equestrian competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the FEI Technical Delegate during those periods before or after the Games may require that a designated person be available to cover this responsibility.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant FEI and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
  - Intermediate Results (Eventing Team - Dressage) (C70(C)A)
  - Intermediate Results (Eventing Individual - Dressage) (C70(C)B)
  - Intermediate Results (Dressage Team - Grand Prix 1st Qualifier) (C70(D)A1)
  - Intermediate Results (Dressage Team - Grand Prix Special - Team Final) (C70(D)A2)
  - Intermediate Results (Dressage Individual - Grand Prix 1st Qualifier) (C70(D)B)
  - Intermediate Results (Dressage Individual - Grand Prix Special 2nd Qualifier) (C70(D)C)
  - Intermediate Results (Dressage Individual - Grand Prix Freestyle - Individual Final) (C70(D)D)
  - Medallists by Event (C93)
  - Medal Standings (C95)
  - Equestrian Medal Standings (C97)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

  For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:
  - If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
  - If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Equestrian cover page
- Version History (only if more than one version of the Results Book is produced)

For each of the FEI disciplines (in traditional FEI order):

- Eventing
    - Competition Format and Rules (Eventing (N02(C))
    - Medallists (Individual) (C92A)
    - Medallists (Team) (C92B)
    - Competition Officials (C35)
    - Entry List by Event (C32C)
    - Results of Horse Inspection (Eventing - 1st Inspection) (C57(C))
    - Results (Eventing Team - Dressage) (C73(C)A)
    - Results (Eventing Individual - Dressage) (C73(C)B)
    - Results (Eventing Team - Cross Country) (C73(C)C)
    - Results (Eventing Individual - Cross Country) (C73(C)D)
    - Cross Country Fence Penalty Analysis (C77(C))
    - Course Plan (Eventing - Cross Country) (C03C)
    - Description of Obstacles (Eventing - Cross Country) (C03D)
    - Results of Horse Inspection (Eventing - 2nd Inspection) (C57(C))
    - Final Results (Eventing Team) (C73(C)E)
    - Results (Eventing Individual - Jumping Qualifier) (C73(C)F)
    - Course Plan (Eventing - Jumping (for Team and Individual Qualifier)) (C03A)
    - Final Results (Eventing Individual) (C73(C)G)
    - Course Plan (Eventing Individual - Jumping Final) (C03A)
    - Official Communication (C67) - if any
    - Sport Communication (C68) - if requested by the FEI
- Dressage
    - Competition Format and Rules (Dressage (N02(D))
    - Medallists (Individual) (C92A)
    - Medallists (Team) (C92B)
    - Competition Officials (C35)
    - Entry List by Event (C32C)
    - Results of Horse Inspection (Dressage) (C57(D))
    - Results (Dressage Team - Grand Prix 1st Qualifier) (C73(D)A1)
    - Final Results (Dressage Team - Grand Prix Special - Team Final) (C73(D)A2)
    - Results (Dressage Individual - Grand Prix 1st Qualifier) (C73(D)B)
    - Results (Dressage Individual - Grand Prix Special 2nd Qualifier) (C73(D)C)
    - Final Results (Dressage Individual - Grand Prix Freestyle - Individual Final) (C73(D)D)
    - Results Summary (Dressage Team) (C74(D)T)
    - Results Summary (Dressage Individual) (C74(D)I)
    - Official Communication (C67) - if any

    - Sport Communication (C68) - if requested by the FEI
- Jumping
    - Competition Format and Rules (Jumping (N02(S))
    - Medallists (Individual) (C92A)
    - Medallists (Team) (C92B)
    - Competition Officials (C35)
    - Entry List by Event (C32C)
    - Results of Horse Inspection (Jumping - 1st Inspection) (C57(S))
    - Results (Jumping Individual - 1st Qualifier) (C73(S)C)
    - Course Plan (Jumping Individual - 1st Qualifier) (C03A)
    - Description of Fences (1st Qualifier) (C03B)
    - Results (Jumping Team - Round 1) (C73(S)A)
    - Results (Jumping Individual - 2nd Qualifier) (C73(S)D)
    - Course Plan (Jumping Individual - 2nd Qualifier) (C03A)
    - Description of Fences (2nd Qualifier) (C03B)
    - Final Results (Jumping Team) (C73(S)B)
    - Results (Jumping Individual - 3rd Qualifier) (C73(S)E)
    - Course Plan (Jumping Individual - 3rd Qualifier) (C03A)
    - Description of Fences (3rd Qualifier) (C03B)
    - Results of Horse Inspection (Jumping - 2nd Inspection) (C57(S))
    - Results (Jumping Individual - Final Round A) (C73(S)F)
    - Course Plan (Jumping Individual - Final Round A) (C03A)
    - Description of Fences (Final Round A) (C03B)
    - Final Results (Jumping Individual) (C73(S)G)
    - Course Plan (Jumping Individual - Final Round B) (C03A)
    - Description of Fences (Final Round B) (C03B)
    - Results Summary (Jumping Team) (C74(S)T)
    - Results Summary (Jumping Individual) (C74(S)I)
    - Official Communication (C67) - if any
    - Sport Communication (C68) - if requested by the FEI
- Common outputs for all disciplines
    - Medallists by Event (C93)
    - Equestrian Medal Standings (C97)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Equestrian competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The FEI
- All NOCs
- Accredited media

2.8 Daily Bulletin Protocol

According to the FEI, there is an essential need for Daily Bulletin protocol at the Olympic Equestrian competition (general information, announcements, results of a day, start list for the next day, etc.). The details of what this will consist of and how this will be done is to be agreed between the FEI and OC Competition Management.

3 News Service and Background Information

Data for all Biographies, Historical Results and Records will be supplied by the IOC to the OC.
The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.
The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

The FEI agrees to supply all requested data, in accordance with a schedule agreed between the parties pending the FEI and IOC agreement.

The FEI cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the FEI and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the FEI and the third party provider. Schedules may be different depending on the type of data.

The FEI should validate part or all of the final data delivered by the provider. In that case, the FEI and the OC will agree on a schedule covering the validation process which will be finished before INFO goes live. In all cases, individual records will be validated by the FEI.

The provider will update data after final delivery as required (corrections, information updates, new records, etc.).

The IOC will act as a facilitator between the FEI, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the FEI and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists for Athletes (N15A)
- Multi Medallists for Horses (N15B)
- Results in Last Olympic Cycle (N17A)
- Individual Records (N18A)

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Referee/Judge Biography (N23A)
- Horse Profile (N23B)
- NOC Profile (N24)

3.3 Facts and Figures

3.3.1 Equestrian Background Information

Data for the Equestrian background information will be developed by ONS, in cooperation with the OC Competition Management and the FEI Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - FEI - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the FEI Secretary General will immediately inform ONS who will update the information within one (1) working day.

3.3.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the FEI Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (Eventing) (N02(C))
- Competition Format and Rules (Dressage) (N02(D))
- Competition Format and Rules (Jumping) (N02(S))
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the FEI Secretary General for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the FEI Secretary General will update the information within one (1) working day.

3.4 News

There are potentially many different types of information produced under the category of "News".
News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.4.1 Pre-competition News

3.4.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Equestrian Working Group recommends that ONS at the Equestrian venue produces the output:

- Sport Preview (N89)

and every evening for the following days, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.4.2 News During and After Competition

Media covering Equestrian events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.4.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.4.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.4.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Daily Review (N89)
- Discipline Review (N89)

3.5 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

Output body

Content information:
The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:
All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M Mandatory

Ma Mandatory - if applicable

Mc Mandatory - required under conditions which are explained in the column for comments

D Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da Desirable, but only if such data is available

Dc Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

START LIST
ALPINE SKIING
LADIES' GIANT SLALOM
RUN 1
ROSA KHUTOR THU 20 FEB 2014 Start Time 10:00

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	**Output title (H1)**	M	Text
2	**Sport discipline (H2)**	M	Text
3	**Event/Gender (H3)**	M	Standard FIS event name
4	**Phase & event unit (H4)**	Mc	Text - "Run 1" or "N Training" (N="1st, 2nd, 3rd", etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	**Venue - date - start time - end time (H5)**	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	**As of date (H6)**	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		
TD FIS	KROGOLL Peter	GER
Referee	SKAARDAL Atle	FIS
Chief of Race	HOLLIDAY Bruce	CAN
Start Referee	KLAMMER Herbert	ITA
Finish Referee	PALOVICOVA Jana	SVK

Technical Data	
Course Name	Franz's GS
Start Altitude	1177m
Finish Altitude	805m
Vertical Drop	372m
Homologation Number	8654/11/07

The corresponding data matrix levels are:

7 (n)	**For each jury member**	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	**Technical data**	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	**HOELZL Kathrin**	1984	GER	
2	205218	**REBENSBURG Viktoria**	1989	GER	
3	185140	**POUTIAINEN Tanja**	1980	FIN	
4	55838	**ZETTEL Kathrin**	1986	AUT	

The corresponding data matrix levels are:

10	**Number of competitors**	M	Numeric
11	**Number of NOCs**	M	Numeric
12 (n)	**For each competitor**	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:
FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.

Legend:

DH	Downhill	**GS**	Giant Slalom	**SC**	Super Combined	**SG**	Super-G
SL	Slalom	**WCSL**	Overall points	**YB**	Year of Birth		

The corresponding data matrix levels are:

8	**Note with static text**	M	Text
9 (n)	**Note for each predefined text**	--	
9.1	Predefined text	--	NOT APPLICABLE
10 (n)	**Legend**	--	
10.1	Abbreviation	Mc	Code
10.2	Description of abbreviation	Mc	Text
11	**Free text**	Ma	Text

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

  The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

  For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

C38 - Entry Data Checklist

Description	Detailed list of all athletes and officials. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Function (athlete, coach, …) 3 - Gender (female first) 4 - Family name 5 - Given name
Page break	Break at "Condition = NOC code" on a new page with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number " on a new page with repeated output headings and column headings.
Notes	Note with static text: See sample
	Note with predefined text: None
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the FEI/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. Only list those team officials who appear on at least one output or in an interface message. The layout of this output may be either in portrait or landscape, as required.

OFFICIAL COMMUNICATION
EQUESTRIAN
EVENTING INDIVIDUAL
DRESSAGE

Item: 35

Schedule change

The Eventing Individual has been rescheduled

Summary:
Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

Details:
Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Equestrian Eventing Individual has been rescheduled to 9:00 tomorrow.

Issued by:	FEI Technical Delegate	This decision affects:	Results	
Time:	11:00		Schedule	X

Description	Intermediate results for the eventing team during the dressage phase
Source	OC Technology
Sort by	1 - Rank 2 - Start order 3 - Athlete number
Page break	Break at "Group = NOC code" on a new page with repeated output headings and column headings
Notes	Note with static text: None
	Note with predefined text: See sample, text to be provided by the FEI. The note should explain "error of course" and "additional error of course".
	Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following descriptions for abbreviations which appear in the output: # - Indicates that points do not count in team total DSQ - Disqualified EL - Eliminated No. - Number RT - Retired WD - Withdrawn To be displayed at the bottom of each page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	This output is essentially equal to output C73(C)A. Intermediate results ranking and sorting: 1a. Every team in which 3 or more members have finished will be ranked 1b. Non-ranked teams in which 1 or 2 member(s) have finished, should be grouped by the number of members that have finished and sorted by team total 2a. Until a team has finished with 3 members, only those teams with an equal number of finishers should be ranked 2b.Teams that have a lower number of finishers should be sorted by number of finished members and score Note: When there is a tied score and teams are not ranked, then sorting should be by start numbers. Those teams which are not ranked will be separated with a line: "----TEAMS NOT YET RANKED DUE TO FEWER ATHLETES HAVING COMPLETED ---"

COMPETITION FORMAT AND RULES
EQUESTRIAN
EVENTING

As of 23 JUN 2016

Olympic Competition Format

The Olympic Equestrian eventing discipline comprises two separate events: the eventing team event and the eventing individual event. Eventing is made up of the following distinct tests: dressage, cross country and jumping. Each test takes place on separate consecutive days during which the athlete rides the same horse. The results of each test count towards both the eventing individual and the eventing team events. A team consists of three to four athlete/horse combinations. The team total points are the sum of the total points of the best three athletes. After the three tests, eventing team medals are awarded. The 25 best placed athletes (including all athletes tied for 25th place), with a maximum of three athletes from the same NOC, after the 1st jumping test qualify to participate in the jumping individual final. The final ranking of the individual athletes is set according to the combined points earned in all four tests (dressage, cross country, 1st jumping test, jumping individual final). The tests are, namely:

Dressage Test

A dressage test of compulsory movements evaluates the horse's obedience, flexibility and harmony with the athlete. Judges award marks for each movement. The total score is then converted into penalty points to which the jumping or time penalties of the following two days are added.

The dressage test will be the current 4 star B test.

Cross Country Test

A cross country test consists of one test which each horse/athlete combination attempts to complete, within a prescribed length of time, without jumping errors. The cross country test will require up to 45 jumping efforts.

Phase	Distance	Speed	Time
	Metres (m)	*Metres per minute (m/min)*	*Minutes (min)*
Cross Country test	5700-6270	570	10 - 11

The ground jury may reduce course distances, for example in the case of extreme weather conditions.

The height of fixed and solid cross country obstacles may not exceed 1.20m. The overall height of a natural hedge or brush fence may not exceed 1.45m.

Jumping Test

This is the final session of the eventing competition and requires competitors to jump 10 to 12 obstacles similar in nature to those found in the jumping event, though not as difficult. The test consists of a maximum of 15 jumping efforts and is designed to demonstrate that horses have retained their suppleness and correct training after the cross country test. The length of the course will be between approximately 500 and 600 metres. The required speed will be 375 metres per minute.

The first jumping test will determine the team classification. This is followed by the second jumping test, where the 25 best placed athletes, including those who tie for 25th place (classified in the team competition with a maximum of three best athletes of team classification per NOC), qualify to participate in the final individual jumping test to determine the individual classification.

In the jumping test, the height of the jumps is limited to 1.25m in the 1st qualifier, and 1.30m in the individual final.

Horse Inspections

The 1st and 2nd horse inspections will be open to the public. They will be conducted on a 30-50 metre tarmac strip in the main stadium. In order to be eligible to compete in the event, a horse must undergo two horse inspections, one on the day prior to the dressage test and a second inspection before the jumping test.

These two inspections are conducted by the ground jury and the veterinary delegate. In addition, there are two examinations performed by the veterinarian, the first on the arrival of the horse at the stables, the second after the athlete has completed the cross country.

Differences between the FEI World Championships and the Olympic Games

At FEI World Championships, the team and individual events are held concurrently. The winning team (four athletes nominated before the start of competition, whereas in the Olympic Games the three best results out of five athletes count for team classification) is the one with the lowest total score (three best scores), a country can have the additional two competing athletes count only for the individual classification. At the Olympic Games, an additional jumping phase will decide the final classification of the individual athletes.

Changes since the London 2012 Olympic Games

At Rio up to four team members may compete, at London up to five team members were permitted.

The NOC quota has changed from 75 to 65 (the total quota has been harmonized between the three disciplines).

Sport Rules and Procedures

In the dressage test, each competitor's good marks awarded by the judges are converted into penalty points. In the cross country test, each competitor's penalties for faults at obstacles are added to the penalties which the competitor may have incurred for excess time.

In the jumping test, each competitor's penalties for faults at obstacles are added to the penalties which the competitor may have incurred for excess time.

Eventing Individual

Final classification will be decided by adding all the penalty points incurred in the four tests. The competitor with the lowest total number of penalty points will be declared the winner.

Eventing Team

The team whose three best athletes have the lowest total number of penalty points after three tests will be declared the winner.

Tie Break Rules

Eventing Individual

In the event of a tie, classification will be decided on the results of:

1. Best overall cross country score
2. Cross country time closest to the optimum time
3. Best final jumping score
4. Best qualifier jumping score
5. Best time (fastest) in the final jumping
6. Best total of collective marks in the dressage test
7. If still equality the ties shall be declared

Eventing Team

In the event of a tie, the team who has the highest three individual placing will be declared the winner. If they are still tied, the medal or placing will be shared.

Elimination / Retirement / Withdrawal

If an athlete is eliminated, retired or withdraws from the competition he/she will receive no rank and will be listed at the bottom of the individual ranking. However, for team classification only, a competitor who fails to complete the competition will be awarded 1000 points.

Disqualification

The ground jury may disqualify a competitor for a number of reasons according to the FEI Rules for eventing. In such a case, the competitor will receive no rank and will be listed at the bottom of the individual ranking. A disqualified competitor will not count for the team results.

Protests / Appeals

The NOCs may protest or appeal according to the FEI rules.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

COMPETITION FORMAT AND RULES
EQUESTRIAN
DRESSAGE

As of 23 JUN 2016

Olympic Competition Format

The Olympic Equestrian dressage discipline comprises two separate events: the dressage team event and the dressage individual event. The dressage team event includes the Grand Prix and the Grand Prix Special. The dressage individual event includes the Grand Prix, the Grand Prix Special and the Grand Prix Freestyle (also known as the Kür). A team consists of three or four athlete/athlete combinations. The team points are the sum of the points of three best athletes on the team. All the athletes compete in the Grand Prix test in which the points of the athletes count both towards the dressage individual event and the dressage team event. After the Grand Prix test the best six teams, including all teams tied for 6th place, will qualify to the final team competition (Grand Prix Special). The highest placed eight athletes, including all athletes tied for 8th place not otherwise participating as the qualified team members, plus all athletes from qualified teams, qualify for the individual 2nd qualifier (Grand Prix Special). After the Grand Prix Special, medals are awarded for the best three dressage teams. The final team results for the teams placed 1st to 6th are the combined results of the Grand Prix and the Grand Prix Special. The final team results for the teams placed 7th to the last are the results from the Grand Prix. The best 18 athletes, with a maximum of three athletes from one NOC, (including all athletes tied for 18th place) after the Grand Prix Special (based on the points earned in the Grand Prix Special) qualify to the Grand Prix Freestyle. The final ranking of the individual athletes is set according to the results of the Grand Prix Freestyle only.

Differences between the FEI World Championships and the Olympic Games

1. Teams

A National Federation (NF), having obtained eligibility and qualification according to the Olympic Games Eligibility and Qualification procedures, may enter a team composed of three athlete/horse combinations.

2. Individuals (as opposed to teams)

NFs may enter one or two individuals with one horse each after having obtained eligibility and qualification according to the Olympic Games Eligibility and Qualification procedures.

3. Reserve horses

One reserve horse per team is allowed

Changes since the London 2012 Olympic Games

At Rio up to four team members may compete, at London up to three team members were permitted.

The NOC quota has changed from 50 to 60 (the total quota has been harmonized between the three disciplines).

Sport Rules and Procedures

Horses must be at least eight years of age. Qualification is achieved by meeting the minimum standards of performance at nominated competitions, or competition levels, in the period beginning from 1st January 2015.

The arena must be a perfectly flat and level sand surface; 60 metres long and 20 metres wide; marked outside the enclosure of the arena and separated from the spectators by a distance of not less than 15 metres.

The FEI Grand Prix test contains a series of compulsory movements. The Grand Prix Special is a slightly shorter and more concentrated version of the Grand Prix test. The Grand Prix Freestyle (Kür) is a freestyle composition of Grand Prix movements performed with the athlete's own choreography to musical accompaniment. Seven judges award marks out of ten for each movement and for a collective assessment.

There is one horse inspection which takes place before the Grand Prix.

Tie Break Rules

Team

If two or more teams are tied by score, ties will be broken as follows:

- The best result by the lowest scoring team member in the Grand Prix Special will be used to break the tie
- If still tied, the same rule will be applied to the next lowest scoring athlete
- For teams placed 7th and below, the same rules apply for the Grand Prix

Individual

If two or more athletes are tied by score, ties will be broken as follows:

- The artistic marks in the Grand Prix Freestyle will be used to break the tie
- If still tied the marks for harmony will be used to break the tie
- If still tied the marks for choreography will be used to break the tie.
- If still tied, the competitors will share the rank

Penalties and Disqualification

Error of course; first time - 2 marks; second time - 4 marks; third time - elimination.

Protests / Appeals

There is no appeal against the judges' marks. The NOCs may protest or appeal according to the FEI rules.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

COMPETITION FORMAT AND RULES
EQUESTRIAN
JUMPING

As of 23 JUN 2016

Olympic Competition Format

The Olympic Equestrian jumping discipline comprises two separate events: The jumping team event and the jumping individual event. 75 athlete/horse combinations are allowed to enter the Olympic jumping discipline. This quota is for both events.

The jumping individual event comprises the following five rounds: 1st individual qualifier, 2nd individual qualifier, 3rd individual qualifier, round A and round B of the individual final. In each round, athlete/horse combinations jump a series of obstacles that may include water jumps, simulated stone walls, parallel rails, triple bars and many other variations all designed to test the athlete's skill and the horse's jumping ability. Penalties are given for faults such as knocking down an obstacle, refusals and exceeding the time allowed.

The team consists of a maximum of four and a minimum of three athletes. The jumping team event comprises two rounds: Team round 1 and team round 2. The team event also serves as the 2nd and 3rd individual qualifier. In the team event, the teams are ranked by the lowest total number of penalties for the team's best three athletes in each round of the team competition.

All the athletes compete in the 1st individual qualifier test in which the points of the athletes count only towards qualifying for the individual final. The teams compete in the 1st individual qualifier test as well. The team results in this phase are used to set the start list for the team round 1. The top 60 athletes (including all athletes tied for 60th place) plus team athletes ranked lower than 60th are allowed to start in the 2nd qualifier.

The team points are the sum of the points of the three best athletes on the team. After the 2nd individual qualifier/team round 1, the best 45 athletes (including all athletes tied for 45th place) (based on the combined score of the 1st and 2nd individual qualifier) will qualify for the 3rd individual qualifier and the best eight teams will qualify for the team round 2 (including all teams tied for 8th place).

After the team round 2, medals are awarded for the jumping team event (based on the combined results of the team round 1 and 2). If two or more teams are tied for medal places with the same number of points, ties will be broken by a jump-off(s). The best 35 athletes (including all athletes tied for 35th place), with a maximum of three athletes from the same NOC after the 3rd individual qualifier (based on the combined results of all three qualifiers), qualify for the round A individual final.

The best 20 athletes (including all athletes tied for 20th place) after the final round A (based on the final round A points, the results of the qualifiers do not count) qualify for round B of the jumping individual final. The final ranking of the individual athletes is set according to the combined points earned in rounds A and B of the individual final. If two or more athletes are tied for the medal places with the same number of points, ties will be broken by a jump-off(s).

Differences between the FEI World Championships and the Olympic Games

The formula for the FEI World Championships is totally different. At the first and second competitions, a speed competition and a two-round team competition decide the team medals. These two competitions together with a third competition over two rounds serve as the qualifying competition to select the four athletes who will decide the Individual World Championship medals in a change-of-horse final.

Changes since the London 2012 Olympic Games

None

Sport Rules and Procedures

Horses must be at least nine years of age. Qualification is achieved by meeting minimum standards of performance at nominated competitions or competition levels in the period beginning from 1st January 2015.

A maximum of four athletes/horses per nation, selected from among those entered, may compete. The Organising Committee will organise a training session before the competition, for the competitors of the jumping competition in the main arena or elsewhere under FEI regulations.

The course of ten to thirteen jumps is laid out in an enclosed arena (turf or sand), with removable obstacles erected typically in the form of barriers, fences, gates and balustrades. Various attributes are tested in the discipline (speed, precision, power, etc.) but the object is always the same: to jump the entire course within the time allowed without making a mistake - a clear round. If any part of an obstacle is knocked down or if the horse refuses a jump, "faults" are accumulated, and a fall of either horse or athlete entails elimination.

Tie Break Rules

Any tie for teams or individual medals is broken by a jump-off(s).

Disqualification Rules

A disqualification means that a competitor and his horse or horses may take no further part in the event or in any other event of the competition.

Protests / Appeals

The NOCs may protest or appeal according to the FEI rules.

General Interest

She began riding horses at the age of 11 and first started competing internationally at the age of 21. She was inspired to take up the sport by the Princess Royal's performance at the 1976 Olympic Games in Montreal.

Her husband, David O'Connor, also competed in Equestrian and won a gold and bronze medal at the 2000 Olympic Games in Sydney. He also serves as president of the United States Equestrian Federation. In 1996, she and her husband, David, became only the second husband and wife team to share a medal in Olympic history when they took silver in the team three day event.

She was named United States Combined Training Association's (USCTA) Lady Rider of the Year three times as well as the 1993 US Olympic Committee's Female Equestrian Athlete of the Year.

Sporting philosophy / motto:
"Be nice to the people on the way up, because you will always see them again on the way down."

HISTORY
EQUESTRIAN

Origin of Equestrian

Equestrian sport as we know it today, particularly the Olympic disciplines of show jumping, dressage and eventing, evolved during the latter half of the 19th Century. On 15th April 1868, the Royal Dublin Society included for the first time in the programme of its annual horse show, two jumping competitions: the "high leap" and the "wide leap", both derived from the Irish passion for fox hunting. The growth of modern equestrian sport was very rapid, but initially, only relatively few competitors were involved in international competitions. They all knew each other and they probably knew all the judges and they were quite prepared to accept any local variations to the fairly simple rules which existed at the time.

Equestrian Today

In 1900, to commemorate the Olympic Games, the Societe Hippique Francais extended its annual National Horse Show in Paris in April by three days and invited foreign athletes. Two years later a big international horse show was held in Turin, Italy. After the 1920 Olympic Games, as the rules in many sports were unsatisfactory, the IOC's President, Baron de Coubertin, invited representatives of several sports to Lausanne to discuss the rules and the formation of representative international federations. Consequently, in May 1921, delegates from ten equestrian countries met in Lausanne and four of them - the USA, France, Japan and Sweden - decided on the constitution of an International Equestrian Federation.

Equestrian at the Olympic Games

The idea of including equestrian sport was already raised when the first Olympic Games were being planned for 1896 in Athens but, due to organisational problems and the lack of Greek interest in equestrian sport, nothing became of it. The first serious attempt to include riding as an Olympic discipline was made by a group of Swedish officers led by Count Clarence von Rosen. The Count appealed to Baron de Coubertin at the International Olympic Committee meeting in 1906 and, as a result, he was asked by the Baron to draft an Olympic equestrian programme. This was presented to the Olympic Congress at The Hague in 1907 and accepted for the 1908 Games to be held in London. However, when the Organising Committee received the entries from eighty-eight athletes from eight nations, they backed down. Fortunately, the next Games of 1912 were awarded to Stockholm and there was no difficulty about accepting the programme proposed by Count von Rosen in 1907. Eventing was limited to entries made by military officers but the jumping and dressage competitions were opened to civilians. Sixty-two competitors from ten nations with seventy horses took part in the competitions, but they were all officers.

MEDIA INFORMATION
EQUESTRIAN

Facilities

There are approximately 350 places for news media to stand in and around the finish area, with the mixed zone for athletes and journalists to meet nearby. Special tickets are not expected to be required for admission to this venue.

The venue press centre and formal interview rooms are located 150 meters from the media entry.

Interviews

Journalists may meet athletes in the mixed zone as the athletes exit the competition area. Formal interviews will be held at least after the medals are awarded and possibly more often in co-operation with specific athletes after each competition session.

Photographers' positions

Photographers may shoot from designated positions listed in the 2016 Olympic Summer Games Media Guide. In addition, photographers may stop briefly to take pictures from any public area as long as they are not blocking the view of any spectator. Special positions may be arranged in co-operation with the venue press chief.

Sub-Centre

A full-service venue press centre supporting journalists covering equestrian events is available with complete results and information services, television monitors, working positions, telephones and food service. A total of 100 working positions are offered, with 60 charge-a-call telephones available. The venue press centre telephone number is (801) 123-4567. The venue press centre fax number is (801) 456-7890.

Hours of the venue press centre are 9 a.m. to 6 p.m. daily from 1st August through to 31st August.

Transportation to the venue press centre will be provided according to the schedule in the Media Guide.

Venue Press Chief

The venue press chief is David Smith, assisted by Alan Moore (finish area), Mark Hughes (information services), Chris Bates (photographers) and Peter Jones (venue press centre). Please call (801) 234-5678 to reach the venue press centre Help Desk.

JUMPING INDIVIDUAL

News Item: 117

LAMAZE Eric (CAN) - Gold medal winner

On winning the gold medal:
"It will take a while for it to sink in. It's a dream come true. I love Hong Kong. I am going to cheer with friends, and thank everybody."

On his horse:
"My horse is very dependent and careful, and he's at the peak of his condition."

On Canada's performance:
"It has been our week, and this Gold is the icing on the cake. It has been worth waiting for this moment."

BENGTSSON Rolf-Goran (SWE) - Silver medal winner

On winning a silver medal:
"I am very happy with second place."

On his horse NINJA:
"I enjoy every second, every minute riding him."

On the jump-off:
"I took a little risk at the jump-off but my horse jumped very good and I am very happy with him."

MADDEN Beezie (USA) - Bronze medal winner

On her performance:
"Mclain (WARD - USA) pulled it off for me, and told me where to go."

On winning a bronze medal:
"I'm extremely happy. Our goal was to do well and to defend our Gold medal from Athens, which we did as a team."

"I said I would love to have an individual medal, and I got it. Bronze is good."

JUMPING INDIVIDUAL

News Item: 119

LAMZE Eric (CAN) - Gold medal winner

On his horse HICKSTEAD:
"He is the easiest horse to ride. He is always a winner. He does everything from instinct and pure talent."
"He will start breeding after the Masters. We will have him available for breeding next season."

On Equestrian sport in Canada:
"I think Canada always had great athletes. For many years we lacked the horses. We have never been able to fill a team for the longest time. In the last few years we were able to do that, and that changed everything."

On getting a clear round in the jump-off:
"My horse is really careful. You can count on him to give you 100 per cent effort. I have all the confidence in the world (in him.) He makes my job very easy."

On recovering from his career pitfalls (being banned from two Olympics for testing positive for cocaine):
"You cannot come back to the sport without the support of your sponsors, friends and family. They make it nearly impossible to try (giving up)."
"If this Gold medal does not make people forgive and stop talking about my past all the time, I do not know what will."

On being Olympic champion:
"For days this is only a dream. But now this is reality."

BENGTSSON Rolf-Goran (SWE) - Silver medal winner

On dropping the last brick wall:
"My horse became too strong and too forward in jumping the last brick wall. I am super-satisfied with my horse, and it is a great winner today."

On his horse NINJA:
"He is a very brave horse, not so big. He doesn't think about jumping big fences. When I steer him at anything, he will jump. He is a sweet horse, and it is a real pleasure riding a horse like that."

On the top three horses being Dutch-bred:
"My horse NINJA and Beezie MADDEN's (USA) horse (AUTHENTIC) have the same sire."

On his performance:
"I had a very strong feeling the whole week. I got a bit worried when the spectators shouted out at the corner of the water jump. I noticed that there was a little sea (pool of water, from a leak) behind the jump. My mind went back to the incident in Athens (2004 Olympic Games), when the gate (of a fence) fell down. I thought that would happen here again. I didn't panic and stayed cool when I saw that it was taking too long to repair it (the leaking water). I took the horse out of the arena to remain calm thinking that Eric (LAMAZE, CAN) was riding behind me with a super-fast horse (HICKSTEAD)."

SPORT PREVIEW
EQUESTRIAN

News Item: 1

- Growing interest in Equestrian sport is evident at the Beijing 2008 Olympic Games as athletes from a record 42 National Olympic Committees compete, three more than at the Athens 2004 Olympic Games.
- China is represented at the Equestrian Games for the first time and is fielding ride. rs for all three disciplines.
- Rule changes affect all three disciplines for different reasons.

Eventing

- 73 competitors are to represent 24 NOCs. 11 NOCs have enough athletes to form teams.
- Australia holds 10 Olympic medals for Equestrian, all in Eventing. The 2008 team features Clayton and Lucinda FREDERICKS, husband and wife, who won the Four-star competitions in Lexington and Badminton.
- Defending silver medallist Great Britain won the 2007 European Championships by more than 60 points. Veteran team members are Mary KING, participating in her fifth Olympics, and William FOX-PITT, ranked number 3 in the world.
- Experienced athletes include two times Olympic Australian Eventing Team gold medallist Philip DUTTON, who has since changed nationality, and 2004 bronze medallist Amy TYRON.

Dressage

- 49 competitors representing 22 NOCs, up from 18 in 2004, are scheduled to compete in the Dressage events.
- Teams are reduced to three members, following the IOC rule that no more than three members per NOC may compete for medal finals. Previously, teams could enter four horse/athlete combinations and drop one score. Now each score counts towards the Team classification. This allows smaller NOCs to qualify Teams and compete on an equal footing with NOCs from areas where Dressage is more popular.
- For both the Team and Individual medals, all eyes are on Germany and the Netherlands. While Germany has an unprecedented Olympic record, the Netherlands has been catching up recently and took the European Championship in 2007.
- Current number 1 ranked athlete and holding six medals as well, Anky VAN GRUNSVEN on SALINERO, plays the leading role for the Dutch team.

Jumping

- The total numbers of competitors in the following stages of the competition have been reduced with only the top 50 athletes (including those tied for 50th place) going through to the Individual 3rd Qualifier.
- Jumping can expect the same head-to-head competition as Dressage between Germany and the Netherlands.
- The Germans have experienced horsepower and strong athletes, including world-ranking leader Meredith MICHAELS-BEERBAUM on SHUTTERFLY and four-time medallist Ludger BEERBAUM, her brother-in-law.
- The Dutch are world champions but have only Gerco SCHRODER left from their winning team after several athletes' recent injuries.
- Experience counts and two members of the USA gold medal-winning team at the Athens 2004 Olympic Games will compete with the same horses: Beezie MADDEN riding AUTHENTIC and McLain WARD riding SAPPHIRE.

Switzerland and United States of America top contenders

- Switzerland and defending gold medallists the USA are tied in top position on 12 penalties going into the second Round of the Team Jumping competition on Monday.
- Third-ranked Sweden is only one time penalty behind the leaders, with Ralf-Goran BENGTSSON and NINJA staying clear in the first round.
- Great Britain and Canada are tied on fourth place on 16 points, Netherlands and Norway are one point behind, tied on sixth place.
- Favourite Germany and outsider Australia are both tied on 20 penalties, as nine teams move into the second round of the Team final.
- The competition also serves as the third qualifier for places in the Individual final. Eric LAMAZE (CAN) and Mclain WARD (USA) are tied for first place with clean slates.
- Defending gold medallist Rodrigo PESSOA (BRA) is ranked third, carrying forward only one time penalty.
- Denis LYNCH (IRL), Tony Andre HANSEN (NOR) and Jos LANSINK (BEL) are tied for fourth position on two penalties.
- Fifty athletes will move into the third round, among them Patrick LAM for Hong Kong, China, placed 22, in front of Meredith MICHAELS-BEERBAUM (GER) and BEEZIE MADDEN (USA), who were second and third at the 2006 World Championship.
- The Team final opens at HK Equestrian (Shatin) on Monday at 19:15.

TEAM ROUND 1 / INDIVIDUAL 2ND QUALIFIER
SUN 14 AUG

News Item: 133

Switzerland and USA in the lead

- Switzerland and USA are in the lead after the first Round of the Jumping team competition at HK Equestrian (Shatin) on Sunday. Both finished on 12 penalties, but Switzerland gave a more even performance. Each of their four athletes had only one pole down.
- The American team had Mclain WARD finishing clear, but silver World Champion Beezie MADDEN became the scratch result after a surprise stop by AUTHENTIC coming into the triple combination.
- Sweden is currently in third place, scoring 13 penalties. Rolf-Goran BENGTSSON had a clean slate with NINJA.
- On 16 points each, Great Britain and Canada share fourth place. Britain had only three athletes competing after John WHITAKER had to withdraw PEPPERMILL shortly before the competition.
- Canadian Eric LAMAZE, No. 3 in the world ranking, delivered one of the night's five clear rounds. Teammate Ian MILLAR came in with just one pole down at his ninth Olympics.
- Germany ended on a score of 20 with no clear round. World No. 1 Meredith MICHAELS-BEERBAUM produced the team's best round with one pole down in the triple combination, which proved a bogey obstacle for many athletes.
- Course designers Leopoldo PALACIOS (VEN) and Steve STEVENS (USA) offered a technical course with a tricky line over the water fence. At 4.20 metres wide, the water proved difficult to clear because horses saw it only very late behind a low barrier at the take-off point.
- The last fence over 1.60 metre triple bar proved another tough challenge for many horses.
- Individual athletes Jos LANSINK (BEL) and Denis LYNCH (IRL) turned in clear rounds, as did defending gold medallist from Athens 2004 Rodrigo PESSOA (BRA). All three take only time penalties forward, as does Tony Andre HANSEN (NOR).
- Four athletes were eliminated, among them the Ukrainian tycoon Aleksandr ONISHCHENKO and Pedro VENISS of Brazil, leaving the Brazil team with only three athletes and out of the second round on Monday.
- Twenty-year-old Jamal RAHIMOV, Azerbaijan's first Olympic athlete, had a nasty fall and was taken to hospital, but soon released. His horse IONESCO DE BREKKA was unharmed.

DISCIPLINE REVIEW
EQUESTRIAN
DRESSAGE

News Item: 15

Individual

- Anky VAN GRUNSVEN (NED) retained her Individual gold medal for a record third time after scoring 82.40 per cent in the Grand Prix Freestyle riding SALINERO.
- Her combined total for both Grand Prix Special and Freestyle tests was 78.68 per cent.
- The win confirms her reputation as Queen of the Freestyle and makes her the most successful Dutch Olympic athlete.
- Silver went to Team gold medallist Isabell WERTH (GER) with SATCHMO on a combined score of 76.65 per cent. She now holds five gold and three individual silver medals.
- WERTH (GER) has had problems in both the Grand Prix Special and the Grand Prix Freestyle with SATCHMO spooking during the piaffe movement.
- Heike KEMMER (GER) riding BONAPARTE claimed bronze, winning her first Olympic Individual medal.
- KEMMER's freestyle score of 75.95 per cent gave her a combined score of 74.45 per cent. Going into the Freestyle test from third position, KEMMER (GER) was one of few athletes to use a combination of vocals and orchestration with a medley of 1960s pop hits.
- Steffen PETERS (USA) and RAVEL showed smooth transitions and movements like extended half pass in passage to give them a total score of 74.150 per cent, but could not improve from fourth place, ending just out of the medals.
- The second Dutch athlete Hans-Peter MINDERHOUD moved up to fifth place, riding NADINE.
- Fifteen competitors from 10 NOCs let their horses dance to music and showed a prescribed set of movements in the order of their choice. They were marked on both technical execution and artistic impression.

Team

- Germany are the unbeaten Dressage gold medallists for the seventh time running after Isabell WERTH produced a stunning performance on SATCHMO that put the team on 72.916 per cent, well in front of the Netherlands on 71.750.
- The bronze medal went to Denmark, scoring a team average 68.875 per cent. The Danish score was boosted after a stellar performance by Nathalie ZU SAYN-WITTGENSTEIN on home-bred DIGBY, bringing in a score of 70.417 per cent. Her uncle HM King CONSTANTINE was especially pleased to present the medal to his niece.
- WERTH put in the top performance of the competition, reaching 76.417 per cent of the possible points. Teammates Heike KEMMER and Nadine CAPPELLMANN scored enough for third and ninth places.
- Double gold medallist Anky van GRUNSVEN (NED) had to save silver for the Dutch team, but SALINERO's 74.750 per cent was not enough to make up for teammates Imke SCHELLEKENS-BARTELS and Hans Peter MINDERHOUD. Both stayed below expectations.
- The USA team could not keep their record of four back-to-back bronze medals, ending in fourth. Last athlete out, Steffen PETERS (USA), on 70 per cent did not make up for Debbie McDONALD'S unsettled test on BRENTINA that sent her down to 34th place. Newcomer Courtney KING (USA) scored best on 70.458.
- Great Britain's hopes for their first Dressage medal were dashed when Laura BECHTOLSHEIMER, No. 13 in world rankings, turned in a disappointing 65.917 per cent. They finished in 6th place.
- The top 25 athletes (including all tied for 25th place) after the Grand Prix test will go through to the Grand Prix Special on Saturday, 16 August. The scores will be set back to zero.

Jumping competition starts at 19:15 despite weather worries

Jumping competition at the Hong Kong Equestrian Shatin venue is still scheduled to start at 19:15 on Thursday despite threats of storms.

A possible disruption by approaching Typhoon Nuri has receded because it was still 300km away from Hong Kong, China, at 17:00 and unlikely to strike until well after competition. Forecasts for local thunderstorms have awakened some concern but two hours before the start of Jumping Individual Final Round A, the weather was still calm.

"We will not proceed if it becomes hazardous for horses, athletes and spectators," Prof. Leo JEFFCOTT (GBR), Foreign Veterinary Delegate, told a press conference on Thursday.

However, there was a reasonable chance the weather would hold up and the competition could be completed during the evening.

"We will stop things only if we have no choice," he said. "We would not want to see thunder and lightning. The stadium is very safe but it is probably a good guideline to stop if we count more than 15 strikes within 15 minutes in the vicinity of the stadium."

Venue manager Miranda CHIU (HKG) said: "It will be business as usual and events will go ahead as we have scheduled."

JEFFCOTT said poor weather could affect the transport of the horses out of Hong Kong after the competition. Most are due to leave on 24 August.

"We are trying to get the competition done first and hope we will be able to get the horses out on time." said JEFFCOTT, adding, "The final decision, of course, will be with the pilot of the plane."

Horse transporters Martin ATOCK (IRL) and Peden Bloodstock had plans in place to ensure horses left close to scheduled departures.

Equestrian: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Equestrian Eventing Individual of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

I. The athlete, Mr Givenname FAMILYNAME, NOC name, Equestrian:

(i) is disqualified from the Eventing Individual of the Rio 2016 Olympic Games where he placed 7th;

(ii) shall have his diploma in the above-mentioned event withdrawn; and

(iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.

II. The FEI is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.

III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.

IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.

V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Equestrian information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Equestrian. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the FEI and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, FEI office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together.

3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Equestrian sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.
Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts, sport specific real time data available through ODF and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the FEI and the OC (and providers).

This page intentionally left blank.

2 Scoreboards

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Athletes, Horses and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

In case of horses being presented on a single scoreboard line with insufficient available characters, names should be abbreviated by sharing the number of available characters as equally as possible to ensure maximum readability of both names. This may require that a shorter name is written in full, while a longer name is abbreviated.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the FEI's approval.

2.9 Part (C)A - Eventing - dressage

FEI recommendation: The scoreboard SHOULD NOT be visible to the judges for dressage

Note: If there are two scoreboards, as is usual, one may be visible to the judges. The visible one can show all information except the individual judges' marks for each movement during the execution of the test.

2.9.1 Presentation before performance (team/individual)

What: Screen shows list of current and previous athletes with heading: discipline name, phase name, for "NOW RIDING": bib number, NOC code, scoreboard name, text "TEAM" (for team members only) and name of horse, for "PREVIOUS ATHLETE": score, rank, bib number, NOC code, scoreboard name, text "TEAM" (for team members only), name of horse, for "RESULTS AFTER 3 ATHLETES" in one team: NOC, team score and rank (only those teams with 3 or more athletes who have finished will be ranked)

When: Before the start of the next athlete

How: NOC rank is to be established only for those teams who have the same number of athletes finished at this time.
The top three ranked NOCs will have the same number of athletes who have finished their dressage test.

For the first athlete in the dressage test:

```
      EVENTING - DRESSAGE
NOW RIDING

3 Sport Specific Real Time Data

There is no additional real time data available other than defined in Section 1 - Outputs.

This page intentionally left blank.

4 On Screen Results Presentation

Some screens will be updated in real time whenever new information becomes available (e.g. score change/results update). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists, statistics, summaries, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Equestrian document are defined as follows:

Term	Definition
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Bib number	Competitor's number during the competition - based on start order. The bib numbers are usually allocated in the order of events, allowing more bib numbers than the actual number of competitors per event.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport, or has breached sport ethics rules or doping rules, and cannot be considered for placing in an event unit, a phase or an event.
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter) See "Equestrian References" for the list of events.
Ground Jury	A group of qualified officials who judge and score the athletes' performance in each event of the competition
Horse number	The number assigned to the horse by the OC sorted by NOC and discipline.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport

Term	Definition
	and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Judge	The official who manages the competition and ensures that the rules are observed. The judge's responsibilities include providing an objective assessment of each athlete's round/test to verify that it is in accordance with the rules.
Jump-off	A part of the jumping discipline to resolve tied teams and/or individuals for medal winners.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Minimum participation standard	Minimum results to be achieved by an athlete and horse to be eligible to participate in the Olympic Games.
Olympic Data Feed (ODF)	The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc. ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.). The ODF technical specifications are available at: http://odf.olympictech.org.
Olympic Games	"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter) The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.
Olympic News Service (ONS)	The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.

Term	Definition
	The news service is the official source for independent and balanced coverage of the Olympic Games.
On Venue Results (OVR)	The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.
"P" alternate athlete	"P" alternate athletes are non-competing athletes, and are not included within the athlete's quota. They are granted "P" accreditation allowing them to train and access the competition venue under certain conditions. "P" alternate athletes can only become competing athletes as per the conditions outlined in the "IOC/Rio 2016 Late Athlete Replacement policy".
Phase	A step in the progression of the competition. See "Equestrian References" for the list of competition phases.
Qualification	Fulfilling the requirements set by the IOC and the FEI by a nation (NOC) thereby obtaining the right to participate at the Olympic Games.
Rank	Placing in an event. Competitors and teams are ranked according to FEI rules.
Results System Code (RSC)	The Result System Code is a nine character code structured as follows: DDGEEPUU, where: • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit
Round	A stage of a competition.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	• Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	• Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	• Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	• Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	• Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc. • Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	• Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	• Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc. • Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	• Measurements (time, weight, distance, height, etc.) • Scores • Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	• Points
Bracket	Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected	• Win/Loss
	Bracket types: • Bracket with direct elimination (e.g. Boxing) • Bracket with direct elimination, classification and finals (e.g. Water Polo) • Bracket with direct elimination and finals (e.g. Tennis) • Bracket with direct elimination, repechage and finals (e.g. Judo)	
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	• Addition of results (points, times)

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Equestrian Specific Rules

Gender abbreviations	Event gender: X (mixed) Athlete gender: F (female), M (male)
Traditional Equestrian event presentation order	Please see "Equestrian References"
Schedule status options	The following schedule status options are applicable to an event or event unit: • Unscheduled — Not visible on the schedule, optional (e.g. tie-breaker if applicable) • Scheduled — The start time is known • Getting_Ready — At time x before start - "x" is defined by Olympic Broadcasting Services (OBS) • Running — In progress • Scheduled_Break — Planned break (e.g. end of period) • Finished — All action on the field of play is complete • Delayed — Did not start as scheduled, should start in the current ticketing session • Postponed — Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present • Interrupted — Unplanned interruption after the start, and is expected to resume in the current ticketing session • Rescheduled — The new date and start time are known • Cancelled — Will not take place at these Games
Results status options	• Start List — Start list has been created • Live — In progress • Intermediate — Updated results at scheduled points or breaks. Results and/or ranks are subject to change. • Partial — The results and ranking of the athletes/teams who have completed their performance are not subject to change by the results of athletes/teams still competing. Not applicable for Equestrian. • Unconfirmed — Activity on the field of play is complete but there is no status update in the results yet. Not applicable for Equestrian. • Unofficial — Results are available but not approved

	• Official — Results are approved • Protested — The competition is no longer in progress and a protest has been lodged.
Invalid Results Marks (IRM)	• DSQ - Disqualified • EL - Eliminated • NS - Not Started • RT- Retired • WD - Withdrawn
IRMs - Eventing	Possible IRM codes: • DSQ - Disqualified • EL - Eliminated • RT- Retired • WD - Withdrawn
IRM presentation order - Eventing	For outputs C51(C)C, C51(C)F: • Possible IRM code is DSQ. It will be displayed as it occurs. For outputs C70(C)A, C73(C)A, C73(C)C, C73(C)E: • For teams - The IRM DSQ will be grouped at the bottom. Within each group sort by NOC code. • For athletes: IRMs will be displayed as they occur For outputs C70(C)B, C73(C)B, C73(C)D, C73(C)F, C73(C)G: • Within the same competition phase, IRMs will be grouped in the following order: 1. RT 2. EL 3. WD 4. DSQ. Within each group sort by athlete number. For output C77(C): • Possible IRM codes are EL and RT. They will be displayed as they occur.
IRMs - Dressage	Possible IRM codes: • DSQ - Disqualified • EL - Eliminated • RT- Retired • WD - Withdrawn
IRM presentation order - Dressage	For outputs C70(D)A1, C70(D)A2, C73(D)A1, C73(D)A2: • For teams: IRMs will be grouped in the following order: 1. EL 2. DSQ. Within each group sort by NOC code. • For athletes: IRMs will be displayed as they occur For outputs C70(D)B, C70(D)C, C70(D)D, C73(D)B, C73(D)C, C73(D)D: • Within the same competition phase, IRMs will be grouped in the following order: 1. RT 2. EL 3. WD 4. DSQ. Within each group sort by horse number.

IRMs - Jumping	Possible IRM codes: • DSQ - Disqualified • EL - Eliminated • NS - Not Started • RT- Retired • WD - Withdrawn Individual 1st Qualifier, IRM codes during and after the phase: • During the phase: The IRM code will be retained. • After the phase: The athlete will receive a manually entered score which is based on their penalties at the time the IRM was received.
IRM presentation order - Jumping	For outputs C51(S)D, C51(S)F: • IRM codes will be displayed as they occur For outputs C73(S)A, C73(S)B: • For teams: IRMs will be grouped in the following order: 1. EL 2. DSQ. Within each group sort by NOC code. • For athletes: IRMs will be displayed as they occur For outputs C73(S)C, C73(S)D, C73(S)E, C73(S)F, C73(S)G: • Within the same competition phase, IRMs will be grouped in the following order: 1. EL 2. RT 3. WD 4. NS 5. DSQ. Within each group sort by horse number.
Time format	MM:SS SSS.tt SSS SS Times are displayed in 24 hour format, without leading zeros
General rules for formats	"#" Digit placeholder, suppression of leading zeros "#"should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears. "0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains. E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23
Score format	**Eventing:** ###0.00 ##0.00 #0.00 0.00 #0 0 **Dressage:** ##0.000 #0.000 **Jumping:** ##0 #0 0
Calculation formula - Dressage	<u>Grand Prix and Grand Prix Special Individual total score:</u> Average score, the sum of judges % scores divided by the number of <u>Grand Prix Freestyle Individual total score:</u> The sum of average technical scores and average artistic scores divided by two <u>Team total score:</u> The sum of team members % scores of the Grand Prix and Grand Prix Special divided by six

	judges
Height/Weight formats	**Height (metric):** 0.00m #00cm 0.00 ##0 **Height (imperial):** 0ft #0in 0'#0" **Weight (metric):** ##0.00kg ##0.0kg ##0kg ##0.00 ##0.0 ##0 **Weight (imperial):** ##0.00lbs ##0.0lbs ##0lbs ##0.00 ##0 If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".
Temperature formats	**Celsius:** #0.00°C #0.0°C #0°C … **Fahrenheit:** ##0.00°F ##0.0°F ##0°F … If Celsius and Fahrenheit units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".
Presentation of ties	Medal presentation • All medals will be shown even if tied: e.g. 1 GOLD FAMILYNAME Givenname 1 GOLD FAMILYNAME Givenname 3 BRONZE FAMILYNAME Givenname Results • The primary rank (first column) must show a rank (if tied, repeat rank). • Secondary rank(s), if any (e.g. at intermediate…) will be repeated, with an "=" sign if there is sufficient space.

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, FEI, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns

Date formats	• dd MMM yyyy (e.g. 6 APR 1896)
	  • dd: date format, for example: 23 or 5 (presented without leading zero)
	  • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case)
	  • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case)
	  • Mmm: month in abbreviation format - mixed case, for example: Apr for April
	  • MMM: month in abbreviation format - upper case, for example: APR for April
	  • yyyy: year format, for example: 1896
	
	• The "As of date" may reflect one of the following:
	  • Date when data has been collected (e.g. world ranking)
	  • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics)
	  • Logical date if applicable
	• Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8)
	
	This date is according to the local time zone at the competition venue.

Page break	Page break applies only for printed outputs.
	• When the complete output fits on a single page, "None, aim for a single page" is written
	• For multi-page outputs, there are three cases:
	  1. Natural page break:
	  This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:
	  • Not controlled with repeated output headings and column headings
	  • Not controlled with repeated column headings only
	  • Not controlled without repeated output headings and/or column headings

	2. Forced page break by "Group": This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings A "Group" is a logical group of data e.g. NOC/team/relay/athlete/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page). 3. Forced page break by "Condition": This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page). A combination of the above three cases is possible within a single output.

Legend	The description table defines if a legend is required on an output:
	• "None" is specified if no abbreviations are used in the output
	• If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply:
	  • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend)
	  • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table
	  • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed
	  • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"

Notes	Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.
	Each output could contain up to three different types of "Notes":
	1. Note with static text:
	  • If "Note with static text" is not planned, allowed or possible, "None" is written
	  • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated

	2. Note with predefined, but changeable text: • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition 3. Note with free text: • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "Equestrian References" for list of events)
Gender	Event gender indication (mixed), if applicable
Phase	Affected stage of competition (e.g. round/event, etc.), if applicable
Unit	Specification of the phase (e.g. Round A/jump-off, etc.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results: ☐ Affects Schedules: ☐ Affects Others: ☐

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

2 Results, Medals and Diplomas

The following rules should apply in case of a disqualification within the top eight ranked athletes/teams in an event and up to three (3) days (inclusive) after the Games Closing Ceremony:

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Equestrian.

2.2.1 Eventing (EC)

Eligible athletes:

- Individual/Team: Athletes listed on the final results

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

	Event Type	
Medal Type/ Diploma	**Individual**	**Team**
Gold	• 1 • Tie(s) for 1st place	• 3-4 • Tie(s) for 1st place
Silver	• 1 • Tie(s) for 2nd place	• 3-4 • Tie(s) for 2nd place
Bronze	• 1 • Tie(s) for 3rd place	• 3-4 • Tie(s) for 3rd place
Diploma	• 8	• 24-32

Rules for awarding medals to tied athletes/teams:

- If two athletes/teams are tied for 1st place, the silver medal will not be awarded
- If three or more athletes/teams are tied for 1st place, the silver and bronze medals will not be awarded
- If two or more athletes/teams are tied for 2nd place, the bronze medal will not be awarded
- If two or more athletes/teams are tied for 3rd place, all will be awarded bronze medals

2.2.2 Dressage (ED)

Eligible athletes:

- Individual/Team: Athletes listed on the final results

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

	Event Type	
Medal Type/ Diploma	**Individual**	**Team**
Gold	• 1 • Tie(s) for 1st place	• 3-4 • Tie(s) for 1st place
Silver	• 1 • Tie(s) for 2nd place	• 3-4 • Tie(s) for 2nd place
Bronze	• 1 • Tie(s) for 3rd place	• 3-4 • Tie(s) for 3rd place
Diploma	• 8	• 18-24 from Grand Prix Special 2nd Qualifier • + 6-8 athletes who participated in Grand Prix 1st Qualifier

Rules for awarding medals to tied athletes/teams:

- If two athletes/teams are tied for 1st place, the silver medal will not be awarded
- If three or more athletes/teams are tied for 1st place, the silver and bronze medals will not be awarded
- If two or more athletes/teams are tied for 2nd place, the bronze medal will not be awarded
- If two or more athletes/teams are tied for 3rd place, all will be awarded bronze medals

2.2.3 Jumping (ES)

Eligible athletes:

- Individual/Team: Athletes listed on the final results

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

	Event Type	
Medal Type/ Diploma	**Individual**	**Team**
Gold	• 1	• 3-4
Silver	• 1	• 3-4
Bronze	• 1	• 3-4
Diploma	• 8	• 24-32

2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

2.3.1 Eventing (EC)

Individual:

Initial Rank	New Rank	Name	NOC Code
If the gold medallist is disqualified			
~~1~~		~~FAMILYNAME 1 Givenname 1~~	~~NOC 1~~
2	1	FAMILYNAME 2 Givenname 2	NOC 2

Global Changes

1. The new output "Entries by Event" (C31C) has been introduced.
   Affected files: Procedures, Distribution Rules, output C31C.
2. The output "Minimum / Maximum" (N86G) has been removed throughout the document.
   Affected files: Procedures, Distribution Rules.
3. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".
   Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").

Pending Action Items

The following sections contain text highlighted in yellow:

Global	• The FEI will confirm to the ORIS team the groupings that will be used for the Dressage Grand Prix Special draw process by the end of June 2014 • The FEI will confirm to the ORIS team the decision regarding rule changes for the Ground Jury members (whether it will be four or five members for the Jumping discipline) by the end of 2014 • The FEI and OMEGA will agree on principles for Eventing team calculations for intermediate results during competition by the end of June 2014
Appendix D	• The FEI and Rio 2016 will agree on the data to be provided in chapter "3 - Data to be Captured" by June 2015

Executive Summary	Chapter 2.2.4:
	• In the second paragraph, the text has been updated regarding the presentation of column headings in outputs
	Chapter 4:
	• Steering Committee: The name of the IOC Sports Director has been changed to Mr Kit McCONNELL, the name of the Rio 2016 Sport Director has been changed to Mr Rodrigo GARCIA and Ms Flavia MELLO has been replaced by Ms Françoise PERROUD
	• The department name for Mr Anthony EDGAR and Ms Françoise PERROUD have been adjusted
	• Members of the Rio 2016 ORIS Management Team: The names and functions have been adjusted as follows:
	  • Ms Isabella BURCZAK, IOC Sports, Head of Sport Projects
	  • Mr Pierre FRATTER-BARDY, IOC Sports, Head of Summer Sports and IF Relations
	• Members of the ORIS Equestrian Working Group: The names and functions have been adjusted as follows:
	  • Ms Veronica COSTA, Rio 2016, Venue Results Manager has been added
