Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Rugby Sevens. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Rugby Sevens References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, World Rugby and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of World Rugby, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of World Rugby, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of World Rugby and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Rugby Sevens Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
 - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
 - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
 - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
 - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards, as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, World Rugby should approve the proposed solution.

2.2.6.2 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Rugby Sevens draft document, based on:
 - International Federation sport rules, competition format and requirements for these Games
 - Previous experience on other major events
- A few weeks before the ORIS Rugby Sevens meeting, the draft will be made available to the ORIS Rugby Sevens Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Rugby Sevens Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Rugby Sevens document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Rugby Sevens Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Rugby Sevens document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

World Rugby and the Organising Committee will sign-off the ORIS Rugby Sevens document after all agreed changes have been implemented.

For World Rugby, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Rugby Sevens competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if World Rugby or the OC requests any change which has an impact on the ORIS Rugby Sevens document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Rugby Sevens document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (World Rugby, media, teams, etc.)
- To prepare required changes to the ORIS Rugby Sevens document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Rugby Sevens Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by World Rugby and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Rugby Sevens document. The test begins with entry data for athletes and officials, continues with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, medals, etc.
- Scoreboards

World Rugby, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in World Rugby and WNPA reports. Those documents are then sent to the OC, World Rugby, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games Questionnaires to document the World Rugby, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Rugby Sevens document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Rugby Sevens Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Rugby Sevens project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of World Rugby, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Rugby Sevens Working Group:

- Attends the ORIS meeting to discuss and agree on the Rugby Sevens results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Rugby Sevens Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Rugby Sevens Working Group are:

- **Mr Mark EGAN**, World Rugby, Head of Competitions and Performance
- **Ms Beth COALTER**, World Rugby, Sevens Operations Manager
- **Ms Clara GONZALEZ**, World Rugby, Competitions Coordinator
- **Mr Sean GLOVER**, Competitions System Integrator for World Rugby Sevens World Series
- **Mr João Gustavo CERQUEIRA-LIMA**, Rio 2016 Sport Group Manager
- **Ms Karin BRANDENBURG**, Rio 2016 Venue Results Manager
- **Mr Santiago RAMALLO**, Rio 2016 Sports, Group Manager
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Ms Françoise PERROUD**, Rio 2016 Results Technology Manager
- **Mr Tassos KOUTSOGIANNIS**, Rio 2016 Cluster Venue Results Manager
- **Mr Luis MALDONADO**, Atos Sports & CIS Product Manager
- **Mr Andy FISCHER**, OMEGA Venue Manager
- **Mr David TWOHIG**, OMEGA Result Manager
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Pagona GEROSIDERI**, IOC ORIS Sport Analyst for Rugby Sevens

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Nataša DUMIĆ**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

- The events are presented in World Rugby order
- A full overview of Progression and Competition Format types is included in Appendix - A Glossary

2 Competition

- Competition format

- The Olympic Rugby Sevens competition consists of Women's and Men's tournaments
- There are twelve teams in each tournament
- The same competition format and rules will be applied to both tournaments
- A tournament consists of two phases: The pool round and the knock out round
- The teams will be placed into three pools of four teams for a pool round. The teams will play each other (3 matches per team, or 6 matches in each pool).
- Classification points are awarded to both teams after each pool match according to the following criteria:
 - Win = 3 points
 - Draw = 2 points
 - Loss = 1 point
- Ranking in a pool is determined by the total of classification points. In case of equal total classification points the following criteria will determine pool ranking:
 - Points margin
 - Tries margin
 - Points for
 - Tries for
 - Games team seeding
- Following the completion of the pool round the teams are ranked in a combined ranking list using the criteria set out below. The eight best ranked teams will advance to the quarter-finals of the knock out round, while the four remaining teams will play in the 9th to 12th placing matches.

- The following rules will be used to populate the knock out round brackets:
 - All the teams will be ranked after the pool round according to the results achieved in the pools as follows:
 - The three winners of the pools will be ranked as #1 (pool A), #2 (pool B), #3 (pool C)
 - The three runners up will be ranked as #4 (pool C), #5 (pool B), #6 (pool A)
 - The three teams finishing 3rd in their pools will be ranked as #7, #8, #9 (according to following criteria: classification points, higher margin of points and tries, higher number of scored points and tries, Games team seeding)
 - The three teams finishing 4th in their pools will be ranked as #10, #11, #12 (according to the same criteria for ranking of 3rd placed teams)
 - The quarter-finals bracket will be set as follows:
 - Team #1 will play in the first quarter-finals match (upper bracket), team #4 in the second match (upper bracket), team #3 will play in the third match (lower bracket) and team #2 in the fourth match (lower bracket) of the quarter-finals
 - Team #1 will play in the first quarter-finals match against team #8, and team #2 will play in the fourth match against team #7. If either of these matches is between teams from the same pool, the teams will be reversed for these two matches (#2 vs #8, #1 vs #7).
 - Team #3 will play against team #6 (third quarter-finals match), and team #4 will play against team #5 (second quarter-finals match)
 - The winners of the quarter-finals matches will proceed to the semi-finals, and the losers to placing matches 5th-8th
 - The teams ranked as #9, #10, #11, and #12 will play in the placing 9th-12th bracket. The placing matches will be set as follows:
 - Team #9 will play against team #12, and team #10 will play against team #11. If either of these matches is between teams from the same pool, the teams will be reversed for these two matches (#9 vs #11, #10 vs #12).
 - The winners will play for 9th-10th placing, and the losers for 11th-12th placing.

- **Tie Break Rules**

Pool round

- A match in the pool round can end in a draw
- If at the conclusion of the pool round two teams are tied for any position in the pool, the team that won the match between those teams will be ranked higher in the pool
- If the match between the two teams was a draw, then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the greatest margin of points will be ranked higher in the pool.
 - If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the greatest margin of tries will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has scored the highest number of points in the pool matches will be ranked higher in the pool
 - If the tie remains unresolved: The team that has scored the highest number of tries in the pool matches will be ranked higher in the pool
 - If the tie remains unresolved: The team with the better Games team seeding will be ranked higher in the pool
- If at the end of the pool round more than two teams are tied on classification points then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the greatest margin of points will be ranked highest in the pool.

- If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the greatest margin of tries will be ranked higher in the pool.
- If the tie remains unresolved: The teams concerned will be ranked by reference to the number of points scored in all pool matches. The team with the highest number of points scored in the pool matches will be ranked higher in the pool.
- If the tie remains unresolved: The teams concerned will be ranked by reference to the number of tries scored in all pool matches. The team with the highest number of tries scored in the pool matches will be ranked higher in the pool.
- If the tie remains unresolved: The team with the better Games team seeding will be ranked higher in the pool

Knock out round

- For all matches in the knock out round, if teams are tied at full time, then the winner is determined by sudden death extra time until a winner is determined
- After a break of two (2) minutes, during which the referee organises a toss with the team managers to decide which team will kick off from which end, the extra time is played in periods of five (5) minutes. The team which scores first in extra time will immediately be declared the winner without further play. If additional periods of extra time are required teams change ends without an interval.

- **Venue type**

- Outdoor
- Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Teams: 12 for each gender, teams are made up of 12 athletes
- Athletes per team on the Team Long List: 14
- Athletes: On roster 12, on field of play 7, on bench 5

3 Documents

- Olympic Charter in force
- IOC-Rio 2016 Host City Contract
- World Rugby Laws of the Game and Seven-a-Side Variations 2014

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Rugby Sevens events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the World Rugby Technical Delegates well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once World Rugby and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Rugby Sevens competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the output:

- Training Schedule (C07)

This output will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Team Entries (C31T)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO. These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete and team names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other World Rugby events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Entry Data Checklist - Competition Officials (C39)

will be produced with all name lengths to be used during the Games and given to the World Rugby Technical Delegates for checking and approval.

World Rugby will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than forty-eight (48) hours before the Technical Committee Meeting.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

In Rugby Sevens, the team name corresponds with the NOC name. In order to ensure that the current NOC names in the OVR system are according to the requirements set by the IOC NOC naming policy, OVR should also produce the output:

- Entry Data Checklist - Teams (C38C)

for verification by the OC Venue Results Manager or any other party involved in the verification process.

2.1.2.3 Competition officials

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the World Rugby and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

2.1.2.4 Replacement of an athlete

2.1.2.4.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the Technical Committee Meeting.

However, once competition has started and under certain conditions, there is a possibility for an NOC to replace an athlete up until the final day of the competition.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

2.1.2.5 World Rugby unique athlete identification

World Rugby maintains a player ID database. However, this does not need to be included in the ODF messages.

2.2 Pre-Competition Activities

After World Rugby officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the Technical Committee Meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and World Rugby will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 Draw

The draw for Rugby Sevens will be held no later than one (1) month before the Games at a location to be determined. Teams will be drawn into the three pools and the pool round matches will be allocated.

2.2.3 Technical Committee Meeting

A Technical Committee Meeting will be organised twenty-four (24) hours before the Rugby Sevens competition starts.

No later than twenty-four (24) hours before the meeting, OC Technology will provide NOCs and the World Rugby Technical Delegates with the outputs:

- Team Declaration Form (C48A)

Teams will be responsible for checking all of the data in these outputs, and entering the shirt numbers for each player. Shirt numbers will be retained by the designated players for the duration of the event.

At the Technical Committee Meeting each team manager will return the completed "Team Declaration Form" (C48A) indicating updates, if any, for his/her team to the World Rugby Technical Delegates.

As soon as all outputs for each team have been received, OC Technology will update and produce the outputs:

- Team Roster (C33)
- Match Declaration Form (C48B) - for each team

and provide a single copy to the World Rugby Technical Delegates for checking and approval.

Sixty (60) minutes after the Technical Committee Meeting the approved outputs will be distributed according to the ORIS distribution rules.

2.2.4 Match Officials Allocation

The match officials (one referee, two assistant referees, and two in-goal judges) for the pool round matches will be provided by World Rugby before the Technical Committee Meeting, and forwarded to OC Technology.

The evening before the first day of competition, OC Technology will produce the output:

- Daily Schedule (C58)

for distribution according to the ORIS distribution rules.

The appointment of officials for the first phase of the knock out round matches will be confirmed at the conclusion of the pool round, and then on a phase by phase basis.

World Rugby retains the right to make changes to these appointments, based on performance, as the pool rounds progress. Any change in the allocation of match officials for a match will be announced at the venue before the match begins. No redistribution of the printed output "Daily Schedule" (C58) is required. The changes will be reflected in INFO.

2.3 Results Processing

2.3.1 Results Processing for the Women's and Men's Events

2.3.1.1 Before, during and after all matches

2.3.1.1.1 Before each match

The evening before the first day of competition, OC Technology will provide the World Rugby Technical Delegates with the output:

- Checklist - Score Sheet (C66)

for all the matches of the pool round. The same process should be repeated before each phase of the knock out round matches.

No later than forty (40) minutes before the scheduled start of a match, teams should submit the "Match Declaration Form" (C48B) indicating the seven players on the field of play to the World Rugby Technical Delegates. This information should be immediately available to OC Technology.

No later than thirty (30) minutes before the scheduled start of the match, the output:

- Start List (C51)

will be printed and distributed according to the ORIS distribution rules.

Once this output is published, and before the start of the match, the process will be repeated if the teams are forced to make a late change in the starting line-up due to injury or disciplinary reasons.

2.3.1.1.2 During each match

World Rugby Scorer will log the official match information (e.g. goals, tries, penalties, etc.) in the "Checklist - Score Sheet" (C66). The results system operator should be located in proximity and should enter the same information into the computer system. At the end of each half or extra time World Rugby Scorer will validate the results system information against the "Checklist - Score Sheet" (C66). The results will be distributed after they are approved by World Rugby. The statistics which are not part of the official World Rugby score sheet will be entered separately during the match.

These actions will be updated live.

2.3.1.1.3 After each match

At the completion of each match, OC Technology will print the output:

- Match Report (C73)

for verification and approval by the World Rugby Technical Delegates. The verification and approval process must be finished as soon as possible.

Within two (2) minutes after the results are approved the outputs:

- Match Report (C73)
- Results Summary (C74)
- Competition Summary (C76)
- Cumulative Statistics (C84A)
- Overall Team Statistics (C84B)
- Individual Overall Scoring Statistics (C85A)
- Best Performers (C85B)

should be available in INFO.

Five (5) minutes after the results are approved the output:

- Match Report (C73)

will be distributed according to the ORIS distribution rules.

2.3.1.2 After the last match of the day

Ten (10) minutes after the last match of the day is approved, OC Technology will produce the outputs:

- Results Summary (C74)
- Competition Summary (C76)
- Disciplinary Record (C89)
- Cumulative Statistics (C84A)
- Overall Team Statistics (C84B)

for distribution according to the ORIS distribution rules.

2.3.1.3 After the end of the pool round

Ten (10) minutes after the last match of the pool round is approved, OC Technology will produce the outputs:

- Checklist - Score Sheet (C66) (for the quarter-finals and placing 9-12 matches)
- Competition Summary (C76)

and one (1) hour after the last match of the pool round is approved, the output:

- Daily Schedule (C58) (updated with match officials for the quarter-finals and placing 9-12 matches)

for distribution according to the ORIS distribution rules.

2.3.1.4 After the end of the quarter-finals

Ten (10) minutes after the last match of the quarter-finals is approved, OC Technology will produce the outputs:

- Checklist - Score Sheet (C66) (for the semi-finals matches and placing match(es))
- Competition Summary (C76)

and one (1) hour after the last match of the quarter-finals is approved, the output:

- Daily Schedule (C58) (updated with match officials for the semi-finals matches and placing match(es))

for distribution according to the ORIS distribution rules.

2.3.1.5 After the end of the semi-finals and first round of placing matches

Ten (10) minutes after the last match of the semi-finals is approved, OC Technology will produce the outputs:

- Checklist - Score Sheet (C66) (for the medal and placing matches)
- Competition Summary (C76)

for distribution according to the ORIS distribution rules.

One (1) hour after the last match of the semi-finals is approved, OC Technology will produce the output:

- Daily Schedule (C58) (updated with match officials for the medal and placing matches)

for distribution according to the ORIS distribution rules.

2.3.1.6 Additionally for the bronze medal match

Five (5) minutes after the results of the bronze medal match are approved, OC Technology will produce the outputs:

- Medallists (Team) (C92C)
- Medallists by Event (C93)
- Medal Standings (C95)

for distribution according to the ORIS distribution rules.

2.3.1.7 Additionally for the gold medal match

No later than sixty (60) minutes before the finals the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

No later than sixty (60) minutes before the finals, the World Rugby Technical Delegates should provide ONS with the names of the players and their positions for the output "World Rugby Dream Team" (N98).

No later than thirty (30) minutes before the gold medal match, the output:

- World Rugby Dream Team (N98)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

Five (5) minutes after the results of the gold medal match are approved, OC Technology will produce the outputs:

- Medallists (Team) (C92C)
- Medallists by Event (C93)
- Medal Standings (C95)

for distribution according to the ORIS distribution rules.

2.4 Common Sport Functions

2.4.1 Official Communications

The World Rugby Technical Delegates or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the World Rugby Technical Delegates or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or player/team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the World Rugby Technical Delegates or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from World Rugby, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.4.3 Weather

Weather information that includes weather conditions for the current day and the forecast for the next two (2) days must be provided beginning three (3) days prior to the competition until the last day of competition. This information is specifically about weather at the Rugby Sevens venue.

The output:

- Weather (C49)

is updated in INFO after each update has been received from the meteorological services.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the World Rugby Technical Delegates or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

The following schedule status options are applicable to an event or event unit (match):

2.5.1.1 Delayed

A delay may occur if a match does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.2 Postponed

A match did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.

If an interrupted match cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A match may be interrupted if it is stopped after the start.

The match official will determine if the players should leave the field of play. If the match has to be stopped for up to twenty (20) minutes, the referee will restart the match at the point at which it was stopped. If the match has to be stopped for longer than fifteen (15) minutes, the match will resume after a sufficient warm up period has been allocated to the teams. World Rugby Technical Delegate will determine the length of the warm up period.

If the match cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

For additional actions see chapter 2.5.2.4 "Match Abandonment".

2.5.1.4 Rescheduled

A match may be rescheduled if it cannot be held at the originally scheduled start date/time.

The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled. Start lists will be reissued as "REVISED".

2.5.1.5 Cancelled

A match which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and World Rugby will decide what effect the situation would have on the tournament and what actions should be taken.

2.5.2 Competition Related

2.5.2.1 Replacements and Substitutions

A match is played by no more than seven players in each team on the field of play. A player may be replaced on account of injury or substituted. A team may nominate no more than five substitutes. A team can substitute up to five players. Temporary replacements for a blood injury or a head injury assessment are permitted. A player who has been replaced through injury may not resume play in the same match except if temporarily replaced. A player who has been substituted may not resume play in

the same match except as a temporary replacement. No replacement or substitution may be made except with the permission of the referee, and only during a stoppage in play.
For Head Injury Assessment World Rugby Laws of the Games will be followed.

2.5.2.2 Player Suspension

If a player is suspended for one or more matches he/she will not be listed in the start list and the match outputs for the related matches

2.5.2.3 Team Expulsion

If a team willfully refuses to play, or willfully abandons a match in progress, without the prior consent of the referee, then, subject to confirmation by the Disputes Committees, that team may be expelled from the tournament.

If a team is expelled from the tournament during the pool round, for whatever reason:

- That team will be deemed to have been awarded no match points and to have scored no tries or points in the pool matches; and
- For the purposes of determining ranking in the pool round, all match results against an expelled team will be deemed null and void. This means that all pool match points awarded in matches against the expelled team, as well as any tries and points scored or conceded in matches against this team, will not be taken into account in determining the pool standings.

If a team is expelled from the tournament during the knock out round, for whatever reason:

- The opponent will be declared the winner of the match

2.5.2.4 Match Abandonment

If a match has to be stopped after it has started under the provisions of the Laws of the Game, then subject to confirmation by the Disputes Committee, the following procedure will apply:

Pool round

- If a match is abandoned either at half time, or at any time in the second half, the result and any points and tries scored by each team in the match will remain
- If a match is abandoned during the first half the result will be declared a draw
- If a match is declared a draw each team will be awarded two match points, and any points and tries scored will count towards the total points and tries scored by each team in the pool matches

Knock out round

- If a match is abandoned either at half time, or at any time in the second half, the result will stand. If both teams are tied then the tie breaking rules will be used to determine a winner with points scored in all matches in the tournament taken into consideration.
- If a match is abandoned during the first half the result will be declared a draw and the tie breaking rules will be used to determine the winner with points scored in all matches in the tournament taken into consideration

2.5.2.5 Protests/Appeals

- The referee will manage all matches, and any incident on the field of play during a match not seen to be properly dealt with by the referee will be reviewed by the Citing Official; the Citing Official will decide whether or not to issue a report for further action to be taken and must issue this report within one (1) hour following the completion of the match
- A team may refer an incident to the Citing Official; the Citing Official will decide whether or not the referral will be upheld
- A Judicial Officer will conduct a hearing as quickly as possible once the Citing Officer's report has been issued and will decide whether or not to uphold the Citing Officer's Report and if so, will issue a sanction in line with World Rugby's Disciplinary Guidelines
- A team may appeal the decision of the Judicial Officer but the player will not be permitted to play again in the competition until the appeal is heard

- Any dispute not related to the playing of the match will be dealt with by World Rugby's appointed Technical Director in accordance with the tournament dispute resolution guidelines

2.5.2.6 Team in wrong uniform

The incident will be referred to the Disputes Committee who will determine the appropriate sanction.

2.5.2.7 Shirt number change

The shirt numbers declared before the beginning of the competition should be retained by the designated players for the duration of the event. Failure to adhere to this requirement can lead to referral to the Disputes Committee and the imposition of fines.

2.5.2.8 Team with fewer than seven players

The incident will be referred to the Disputes Committee who will determine the appropriate action.

2.5.3 Disqualifications

There are a number of exceptional situations both for individual players and for teams that the OC Technology results system must be able to handle. This section will describe what capabilities must be built into the OC Technology results system to cater for World Rugby rules and requirements. In addition to the procedures described below, the output:

- Official Communication (C67)

must be produced and released to give a timely and understandable explanation of what has occurred and what action has been taken.

An Official Communication (C67) must be issued before any action on the other outputs is taken, and it will be distributed according to the ORIS distribution rules.

2.5.3.1 Disciplinary actions against individual players

A player may be disqualified from the tournament as a result of unsportsmanlike behaviour, breach of major sport ethics rules (e.g. tested positive for drugs) or a breach of other World Rugby rules. For players disqualified from the tournament the following actions should be taken:

- "Team Roster" (C33) - From this point on INFO should be updated to show the player at the bottom of the list with "DSQ" in place of the shirt number. A note describing the disqualification should be added to the bottom of the page. The modified output will not be distributed. It will only be available in INFO.
- "Start List" (C51), "Match Report" (C73) - From this point on the player should not appear in these outputs. A note describing the reason why the player is missing from these outputs should be added to the bottom of the page.
- "Cumulative Statistics" (C84A) - The tournament statistics for the player should be maintained and reported appropriately for the duration of the tournament. The disqualified player should be shown at the bottom of the list with "DSQ" in place of the shirt number. A note describing the disqualification should be added to the bottom of the page.
- The player should no longer show up in any of the outputs: "Individual Overall Scoring Statistics" (C85A), "Best Performers" (C85B), "Medallists" (C92C) and "Medallists by Event" (C93). If the medal outputs have already been issued and a revised version is required, a free text note describing the reason why the player is missing from the medals outputs (C92C and C93) should be added to the bottom of the page.

2.5.3.2 Disciplinary actions against teams

A team can also be disqualified from the tournament as a result of a breach of major sport ethics and rules or due to a breach of other World Rugby rules.

If a team is disqualified from the tournament, the action that must be taken by the OC Technology results system is different, depending on the point of progression of the tournament at which the disqualification occurs. There are four distinct cases to be handled by the OC Technology results system.

2.5.3.2.1 Team disqualification during the pool round

If a team is disqualified during or after the pool round but before any matches have been played by any teams in the knock out round ("Before any matches have been played by any teams" is the time designated by World Rugby before the scheduled time for the first match of the next round):

- All the pool round matches of the disqualified team will be cancelled
- The team and player statistics for all matches involving the disqualified team will be deleted
- The outputs "Team Roster" (C33), "Start List" (C51), "Match Report" (C73) for all matches played and "Cumulative Statistics" (C84A) for the disqualified team will be removed from INFO. However, the "Match Report" (C73) for the affected match should be generated with the status "CANCELLED" and is included in the Results Book but not distributed.
- All "N" outputs of matches already played must be updated and re-distributed
- The outputs "Competition Summary" (C76) and "Cumulative Statistics" (C84A) (for the remaining teams in the same group as the disqualified team), "Overall Team Statistics" (C84B), "Individual

"Overall Scoring Statistics" (C85A) and "Best Performers" (C85B), are recalculated (by removing the statistics for all individual players in the disqualified team and for the disqualified team) and distributed as revision (with a note explaining the reason for the revision) according to the ORIS distribution rules

- The disqualified team will be listed last without rank but with a "DSQ" mark in the pool standings and the combined ranking table in the output "Competition Summary" (C76) and all the matches of this team will be marked as "CANCELLED" in the pool results matrix table. A note describing the disqualification should be added to the bottom of the page.
- The outputs "Daily Schedule" (C58) and "Results Summary" (C74) will be updated accordingly

2.5.3.2.2 Team disqualification during the knock out round

If a team is disqualified after the start of the knock out round and before the bronze medal match:

- The output "Competition Summary" (C76) will be re-issued showing:
 - In the schedule table, the result of the match of a disqualified team as "DSQ" following the NOC code of the disqualified team
 - In the bracket, the code "DSQ" following the NOC name of the disqualified team and the opposing team as the winner
 - In the final standings table, the disqualified team listed last without rank but with a "DSQ" mark
 - A note describing the disqualification should be added to the bottom of the page
- If a team from one of the quarter-final matches is disqualified, the opposing team will play in the semi-final match. The disqualified team should be shown at the bottom of the final standings without rank but with a "DSQ" mark. The final rankings will be adjusted moving all teams ranked after the disqualified team one rank up.
- If a team from one of the semi-final matches or first round of placing matches is disqualified, the opposing team will play in the gold medal match or the final match of the placing round respectively. The bronze medal match or the match for the lower place will be cancelled. The loser of the other semi-final or first round of placing matches will be awarded the bronze medal or ranked as appropriate. The disqualified team should be shown at the bottom of the final standings without rank but with a "DSQ" mark. The final rankings will be adjusted moving all teams ranked after the disqualified team one rank up. The outputs "Daily Schedule" (C58), "Results Summary" (C74) and "Competition Summary" (C76) will be updated accordingly.
- The outputs "Start List" (C51) and "Match Report" (C73) of the match played by the disqualified team will be removed from INFO. However, the "Match Report" (C73) for the affected match should be generated with the status "DSQ" and is included in the Results Book but not distributed.
- The output "Team Roster" (C33) for the disqualified team will be removed from INFO
- All "N" related outputs of the match must be updated and re-distributed
- "Cumulative Statistics" (C84A) - The team statistics and statistics for players on the team will be maintained. A note describing the disqualification should be added to the bottom of the page.
- "Overall Team Statistics" (C84B) - The team statistics will be maintained. The disqualified team will be listed at the bottom of the list and marked as "DSQ". A note describing the disqualification should be added to the bottom of the page.
- The players from the disqualified team should no longer show up in the outputs "Individual Overall Scoring Statistics" (C85A) and "Best Performers" (C85B)

If a team is disqualified after the bronze medal match has begun:

- The output "Competition Summary" (C76) will be re-issued showing:
 - In the schedule table, the result of the match of a disqualified team as "DSQ" following the NOC code of the disqualified team
 - In the bracket, the code "DSQ" following the NOC name of the disqualified team and the opposing team as the winner
 - In the final standings table, the disqualified team listed last without rank but with a "DSQ" mark
 - A note describing the disqualification should be added to the bottom of the page

- If a disqualified team is involved in the bronze medal match, the opposing team will be awarded the bronze medal. The disqualified team should be shown at the bottom of the final standings without rank but with a "DSQ" mark. The final rankings will be adjusted moving all teams ranked after the disqualified team one rank up.
- If a disqualified team is involved in the gold medal match, the opposing team will be awarded the gold medal. The winner of the bronze medal match will be awarded the silver medal and the loser will be awarded the bronze medal. The disqualified team should be shown at the bottom of the final standings without rank but with a "DSQ" mark. The final rankings will be adjusted moving all teams ranked after the disqualified team one rank up.
- The outputs "Start List" (C51) and "Match Report" (C73) of the match played by the disqualified team will be removed from INFO. However, the "Match Report" (C73) for the affected match should be generated with the status "DSQ" and is included in the Results Book but not distributed.
- The output "Team Roster" (C33) for the disqualified team will be removed from INFO
- All "N" related outputs of the match must be updated and re-distributed
- "Cumulative Statistics" (C84A) - The team statistics and statistics for players on the team will be maintained. A note describing the disqualification should be added to the bottom of the page.
- "Overall Team Statistics" (C84B) - The team statistics will be maintained. The disqualified team will be listed at the bottom of the list and marked as "DSQ". A note describing the disqualification should be added to the bottom of the page.
- The players from the disqualified team should no longer show up in the outputs "Individual Overall Scoring Statistics" (C85A) and "Best Performers" (C85B)

2.5.3.2.3 Team disqualification after the tournament

If a team is disqualified after the gold medal match is completed:

- All rankings are adjusted, and appropriate medals are re-awarded
- "Competition Summary" (C76):
 - In the schedule table: The result of the last match of the disqualified team will be updated showing the result of the match as "DSQ" following the NOC code of the disqualified team.
 - In the bracket: The code "DSQ" will follow the NOC name of the disqualified team and the opposing team will be marked as the winner.
 - In the final standings table: The disqualified team will be listed last without rank but with a "DSQ" mark. The final rankings will be adjusted moving all teams ranked after the disqualified team one rank up.
 - A note describing the disqualification should be added to the bottom of the page.
- "Cumulative Statistics" (C84A) - The team statistics and statistics for players on the team will be maintained. A note describing the disqualification should be added to the bottom of the page.
- "Overall Team Statistics" (C84B) - The team statistics will be maintained. The disqualified team will be listed at the bottom of the list and marked as "DSQ". A note describing the disqualification should be added to the bottom of the page.
- The players from the disqualified team should no longer show up in the outputs "Individual Overall Scoring Statistics" (C85A) and "Best Performers" (C85B).

If a disqualified team won a medal, the outputs "Medallists" (C92C), "Medallists by Event" (C93) and "Medal Standings" (C95) will be updated.

2.5.3.3 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the World Rugby Technical Delegates before distribution.

2.5.3.4 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, World Rugby will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or World Rugby. World Rugby is responsible for providing the updated results to the IOC.

2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission

If an athlete or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The athlete/team, the athlete's/team's NOC, World Rugby, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The World Rugby Technical Delegates, or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D (Subtitle: H, Summary: 8, Issued by: I, Further information: iv) of this document.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the World Rugby Technical Delegates or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the World Rugby Technical Delegates or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Rugby Sevens competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the World Rugby Technical Delegates during those periods before or after the Games may require that a designated person be available to cover this responsibility.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the tournament. The OC and their technology suppliers are responsible for researching any missing information in the relevant IRB and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
 - Daily Schedule (C58)
 - Results Summary (C74)
 - Competition Summary (C76)
 - Disciplinary Record (C89)
 - Cumulative Statistics (C84A)
 - Overall Team Statistics (C84B)
 - Medallists (Team) (C92C)
 - Medallists by Event (C93)
 - Medal Standings (C95)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Rugby Sevens cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- Medallists by Event (C93)

For each of World Rugby events (in traditional World Rugby order):

- Women
 - Results Summary (C74)
 - Competition Summary (C76)
 - Match Report (C73) (by match number order)
 - Cumulative Statistics (C84A) (by NOC code)
 - Overall Team Statistics (C84B)
 - Individual Overall Scoring Statistics (C85A)
 - Best Performers (C85B)
 - Team Roster (C33)
 - Official Communication (C67) - selected outputs, related to World Rugby and/or IOC decisions which had an impact on results (in chronological order)
- Men
 - Results Summary (C74)
 - Competition Summary (C76)
 - Match Report (C73) (in match number order)
 - Cumulative Statistics (C84A) (by NOC code)
 - Overall Team Statistics (C84B)
 - Individual Overall Scoring Statistics (C85A)
 - Best Performers (C85B)
 - Team Roster (C33)
 - Official Communication (C67) - selected outputs, related to World Rugby and/or IOC decisions which had an impact on results (in chronological order)
- Competition Officials (C35)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Rugby Sevens competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- World Rugby
- All NOCs
- Accredited media

3 News Service and Background Information

Data for all Biographies and Historical Results will be supplied by the IOC to the OC.

The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event, and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

World Rugby agrees to supply all requested data, in accordance with a schedule agreed between the parties.

World Rugby cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from World Rugby and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between World Rugby and the third party provider. Schedules may be different depending on the type of data.

World Rugby may wish to validate part or all of the final data delivered by the provider. In that case, World Rugby and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live.

The provider will update data after final delivery as required (corrections, information updates, etc.). Updates should be limited to one (1) delivery per day, and should be made outside of competition hours, except in case of error.

The IOC will act as a facilitator between World Rugby, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to World Rugby and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Results in Last Olympic Cycle (N17A)
- Head to Head (N62)

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Coach Biography (N21)
- Team Profile (N22)
- NOC Profile (N24)

3.3 Facts and Figures

3.3.1 Rugby Sevens Background Information

Data for the Rugby Sevens background information will be developed by ONS, in cooperation with the OC Competition Management and the World Rugby Technical Delegates well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - World Rugby - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the World Rugby Technical Delegates will immediately inform ONS who will update the information within one (1) working day.

3.3.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the World Rugby Technical Delegates well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the World Rugby Technical Delegates for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the World Rugby Technical Delegates will update the information within one (1) working day.

3.4 News

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.4.1 Pre-competition News

3.4.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Rugby Sevens Working Group recommends that ONS at the Rugby Sevens venue produces the output:

- Sport Preview (N89)

and every evening during competition days, the outputs:

- Daily Preview (N89)
- Match Preview (N89)

The daily previews and Match previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.4.2 News During and After Competition

Media covering Rugby Sevens events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.4.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

The English version of flash quotes needs to be distributed immediately, without waiting for translation into any other language.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.4.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.4.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Match Review (N89)
- Daily Review (N89)
- Sport Review (N89)

3.5 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

This page intentionally left blank.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

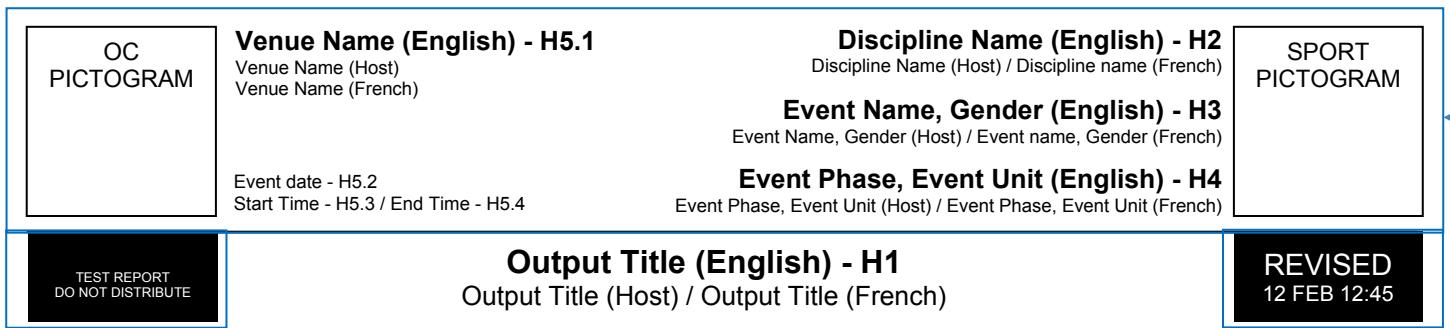

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

This page intentionally left blank.

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

Output body

Content information:

The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M Mandatory

Ma Mandatory - if applicable

Mc Mandatory - required under conditions which are explained in the column for comments

D Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da Desirable, but only if such data is available

Dc Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 st , 2 nd , 3 rd , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		Technical Data		
TD FIS	KROGOLL Peter	GER		
Referee	SKAARDAL Atle	FIS		
Chief of Race	HOLLIDAY Bruce	CAN		
Start Referee	KLAMMER Herbert	ITA		
Finish Referee	PALOVICOVA Jana	SVK		

The corresponding data matrix levels are:

7 (n)	For each jury member	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	Technical data	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	HOELZL Kathrin	1984	GER	
2	205218	REBENSBURG Viktoria	1989	GER	
3	185140	POUTAINEN Tanja	1980	FIN	
4	55838	ZETTEL Kathrin	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric
11	Number of NOCs	M	Numeric
12 (n)	For each competitor	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
Legend:						
DH	Downhill	GS	Giant Slalom	SC	Super Combined	SG
SL	Slalom	WCSL	Overall points	YB	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	Legend		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

This page intentionally left blank.

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.
 Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

Note:

Truncated names are indicated with an * and must be checked carefully.

Legend:

(C) Captain

C38 - Entry Data Checklist

Description	Detailed list of all players and team officials. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Function (athlete, manager, coach, assistant coach, physiotherapist, doctor) 3 - Family name 4 - Given name
Page break	Break at "Condition = NOC code" on a new page with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" on a new page with repeated column headings only.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "--" - Information not available (C) - Captain Int. - International To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the World Rugby/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. Only list those team officials who appear on at least one output or in an interface message. The layout of this output may be either in portrait or landscape, as required.

**OFFICIAL COMMUNICATION
RUGBY SEVENS
MEN
POOL ROUND**

Item: 35

Schedule change

The Rugby Sevens Men's Match 18 has been rescheduled

Summary:

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

Details:

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Rugby Sevens Men's Match 18 has been rescheduled to 9:00 tomorrow.

Issued by: World Rugby Technical Delegate
Time: 11:00
Date: 6 AUG 2016

SPORT COMMUNICATION RUGBY SEVENS

Item: 35

IOC Rule 50 (Reminder)

Manufacturer identification on clothing and equipment

Summary:

The National clothing must fully comply with IOC rule 50, in all aspects.
This applies to all competition at the Rio 2016 Olympic Games.

Details:

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the World Rugby Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, World Rugby assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: World Rugby Technical Delegate
Time: 21:10
Date: 15 AUG 2016

C73 - Match Report

Description	The match report shows match results and statistics as well as the major actions during the match listed chronologically.
Source	OC Technology
Sort by	For each match official: 1 - Function (as per sample: "Referee", "Assistant Referees", "In-Goal Judges"). Within function: no sort applies, as provided by World Rugby. For each team: 1 - Team A (top), Team B (bottom) For each half time/period result: 1 - Chronologically (Half Time, Full Time, After Extra Time) For each starting player: 1 - Shirt number For each substitute: 1 - Shirt number For each half time/period: 1 - Chronologically (1st Half, 2nd Half, Extra Time) For each action within a half time/period: 1 - Time when action occurs
Page break	Break at "Condition = Half time/Period" (1st Half, 2nd Half, AET) on a new page with repeated output headings and column headings
Notes	Note with static text: None Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "n/n" - Made /Attempt AET - After Extra Time (C) - Captain C - Conversion DG - Drop Goal DSQ - Disqualified FT - Full Time HT - Half Time Mn - Men's match number n No. - Shirt Number PG - Penalty Goal Pts - Points RC - Red Card TR - Try Wn - Women's match number nd YC - Yellow Card
	To be displayed at the bottom of each page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	There are four samples: <ol style="list-style-type: none"> 1. A match with extra time 2. A match with two periods of extra time and a suspended player 3. Team disqualification during a match in the pool round 4. Team disqualification during a match in the knock out round <p>"AET" (After Extra Time) information is possible only for the knock out round matches (placing 9-12, quarter-finals, placing 5-8, semi-finals, bronze and gold medal matches) and it is shown only if the match goes to extra time.</p> <p>Show only players who were eligible to play that match.</p>

7	Pool round	--	
7.1	Round name	M	Text - "Pool Round"
7.2 (2)	For each pool	--	
7.2.1	Pool name	M	Text - "Pool A", "Pool B", "Pool C"
7.2.2 (6)	For each team in the pool	--	All teams are initially shown in draw order and without any statistics information. All teams that have completed at least one match should be shown in rank order. Any teams that have not yet completed one match should be shown with no rank (in order of draw number) after all teams with a rank.
7.2.2.1	Draw number	M	Numeric - hidden, used for initial sort only
7.2.2.2	Rank	Mc	Numeric or invalid results mark - "DSQ" - Calculate rank after end of each match - Before a team completes one match, the rank should be blank
7.2.2.3	NOC code	M	Standard IOC NOC code
7.2.2.4	Ranking points	M	Numeric or blank before a team completes one match or in case of DSQ. Three points for a win, two points for a draw, one point for a loss.
7.2.2.5	Matches played	M	Numeric or blank before any team has completed one match or in case of DSQ
7.2.2.6	Number of matches won	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.7	Number of matches drawn	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.8	Number of matches lost	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.9	Number of points for	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.10	Number of points against	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.11	Points difference	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.12	Number of tries for	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.13	Number of tries against	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.14	Tries difference	M	Numeric or blank before a team completes one match or in case of DSQ
7.2.2.15	Games seeding	M	Numeric or blank in case of DSQ
7.3	For pool results matrix	--	
7.3.1 (6)	For each team in the pool	--	
7.3.1.1	Draw order	M	Numeric - hidden, used for sort only
7.3.1.2	NOC code	M	Standard IOC NOC code. Teams are shown in the same order (from left to right) as they are ordered in rows (from top to bottom)
7.3.1.3 (n)	For each match in the group	--	
7.3.1.3.1	Match date or match result	Mc	Date - in the format defined in the OC Look and Feel standard. The date is replaced by the match results when the match is completed. Show "CANCELLED" in case of DSQ.
7.3.1.3.2	Team score	Mc	Numeric or text
7.3.1.3.3	Opponent team score	Mc	Numeric or text
8	Pool Round Combined Ranking	--	
8.1 (n)	For each team	--	
8.1.1	Rank	M	Numeric or invalid results mark - "DSQ"
8.1.2	Pool	M	Pool name - "A", "B", "C". Before the pool round is complete show only the pool name for the top 6 places.

Level	Data Item	M/D	Comments
8.1.3	Team	M	Standard IOC NOC code. This is blank before the pool round is complete.
8.1.4	Pool rank	M	Numeric or blank in case of DSQ
8.1.5	Points	M	Numeric or blank before the pool round is complete or in case of DSQ
8.1.6	Points difference	M	Numeric or blank before the pool round is complete or in case of DSQ
8.1.7	Tries difference	M	Numeric or blank before the pool round is complete or in case of DSQ
8.1.8	Points for	M	Numeric or blank before the pool round is complete or in case of DSQ
8.1.9	Tries for	M	Numeric or blank before the pool round is complete or in case of DSQ
8.1.10	Games seeding	M	Numeric or blank before the pool round is complete or in case of DSQ
9	Knock out round - schedule	--	
9.1 (n)	For each day	--	
9.1.1	Date	M	Date - in the format defined in the OC Look and Feel standard
9.1.2	For each match during the day		
9.1.2.1	Start time	M	Time - in the format defined in the OC Look and Feel standard
9.1.2.2	Teams	--	
9.1.2.2.1	Team A	M	Standard IOC NOC code for confirmed matches or text (e.g. 1st, Loser #W16, etc.) for matches that are not yet confirmed
9.1.2.2.1	Team B	M	Standard IOC NOC code for confirmed matches or text (e.g. 1st, Loser #W16, etc.) for matches that are not yet confirmed
9.1.2.3	Phase	M	Standard World Rugby phase name
9.1.2.4	Match number	M	Code - "Wn", "Mn"
9.1.2.5	Scores of the match	--	
9.1.2.5.1	Match score	Mc	Numeric or text (NOC code followed by DSQ, if the match ends in DSQ)
10	Knock out round - brackets	--	
10.1	Round name	M	Text - "Knock out Round"
10.2	Brackets	M	Graphic representation using brackets. Show: - Phase name - Team A and Team B description text (e.g. 1st, 8 th (*), Winner #Wn or Mn, Loser #Wn or Mn) or standard IOC NOC name - Match number, match date, match time for scheduled matches - Match result for completed matches. Show "DSQ" as the result of a disqualified team and blank for the opponent
11	Final standings	--	Shown as soon as at least one final rank is known
11.1	Medal Type	Mc	Text, only if team ranked 1st, 2nd or 3rd
11.2	Rank	M	Numeric or code - "DSQ"
11.3	Team NOC	M	Standard IOC NOC name
12	Note with static text	Mc	Text
13 (n)	Note for each predefined text	--	
13.1	Predefined text	--	NOT APPLICABLE
14 (n)	Legend	--	
14.1	Abbreviation	Mc	Code
14.2	Description of abbreviation	Mc	Text

COMPETITION FORMAT AND RULES

RUGBY SEVENS

As of 23 JUN 2016

Olympic Competition Format

The Olympic Rugby Sevens competition consists of Women's and Men's tournaments. Each tournament consists of the pool round and the knock out round phases. The 12 competing teams in each tournament are placed into three pools of four teams each, with a round robin format. Classification points are awarded to both teams after each pool match according to the following criteria:

- Win = 3 points
- Draw = 2 points
- Loss = 1 point

Following the completion of the pool round the teams are ranked in a combined ranking list. The eight best teams ranked according the below mentioned criteria advance to the quarter-finals of the knock out round, while four remaining will playing in the 9th to 12th placing matches.

The following rules will be used to set the knock out brackets:

- All the teams are ranked after the pool round according to the results achieved in the pools: three winners of the pools are ranked as #1 (pool A), #2 (pool B), #3 (pool C), three runners up as #4 (pool C), #5 (pool B), #6 (pool A), three 3rd ranked teams as #7, #8, #9 (according to following criteria: classification points, higher margin of points and tries, higher sored points and tries, Games team seeding), and three 4th ranked teams as #10, #11, #12 (according to the same criteria for ranking of 3rd ranking teams).
- The quarter-finals bracket is set as follows:
 - Team #1 plays in the first quarter-finals match, team #4 in the second match (upper bracket), team #3 plays in third match and team #2 in the fourth match (lower bracket) of the quarter-finals
 - Team #1 plays in the first quarter-finals match against team #8, and team #2 plays in the fourth match against team #7. If in any of these matches the match is set between the teams from the same pool, teams are reversed for these two matches.
 - Team #3 plays against team #6 (third quarter-finals match), and team #4 plays against team #5 (second quarter-finals match)
- The winners of the quarter-finals matches proceed to the semi-finals, and losers to placing 5-8
- The teams ranked as #9, #10, #11, and #12 play in the placing 9-12 bracket. This placing matches are set as follows:
 - Team #9 plays against team #12, and team #10 plays against team #11. If in any of these matches the match is set between the teams from the same pool, the teams are reversed for these two matches.
 - The winners play for 9th-10th placing and losers for 11th-12th placing.

Differences between the Sevens World Series and the Olympic Games

Both tournaments follow different competition format.

Changes since the London 2012 Olympic Games

The Rio 2016 Olympic Games is the first time that Rugby Sevens is part of the Olympic programme.

Sport Rules and Procedures

The Olympic Rugby Sevens competition is conducted in accordance with the World Rugby Laws of the Game and Seven-a-Side Variations 2014.

Game Description

Rugby Sevens is a fast and exciting team sport where the objective of the game is that two teams should, by carrying, passing, kicking and grounding the ball, score as many points as possible. A Try is worth five points and is awarded when a player touches the ball down on or beyond the opposing team's Goal Line. After a Try is scored, the team also has a chance to register an additional two points with a Conversion Kick which is completed by kicking the ball over a bar between two goal posts. If the opposition commits an offence a penalty may be awarded. A team can then choose to drop-kick at the goal which, if successful, is worth three points. During open play, a team may also attempt to drop-kick the ball through the posts for a drop goal which is also worth three points. Play stops at the discretion of the match referee who is the sole judge of fact and law including time. The referee is assisted by the assistant referees and in-goal judges during a match. The match referee may choose not to stop the play at an infringement if the non-offending team gains an advantage.

A match is played with no more than seven players in each team on the field of play. A team can substitute or replace up to five players. Temporary replacement of a player is permitted for a blood injury or Head Injury Assessment. A player who has been replaced due to injury may not resume play in the same match. A player who has been substituted may not resume play in the same match except in the case of a temporary blood replacement. No replacement or substitution may be made except with the permission of the referee, and only during a stoppage in play.

In line with World Rugby Laws and Regulations, all matches are officiated by five officials (referee, two assistant referees and two in-goal judges) together with the World Rugby appointed Citing and Judicial Officials.

Match Duration

The duration of all matches (except medal matches) is fourteen minutes; two halves of seven minutes each, counting down to zero, with a two minute half-time interval. The duration of the bronze and gold medal matches is twenty minutes; two halves of ten minutes each, counting down to zero, with a two minute half-time interval.

If extra time is required (during the knock out round matches only) then after a break of two minutes, the extra time is played in periods of five minutes.

Each half and each period of extra time finishes once the clock reaches zero and the referee calls time.

Tie Break Rules

Pool round

- A match in the pool round can end in a draw.
- If at the conclusion of the pool round two teams are tied for any position in the pool, the team that won the match between those teams will be ranked higher in the pool.
- If the match between the two teams was a draw, then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the greatest margin of points will be ranked higher in the pool.
 - If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the greatest margin of tries will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has scored the highest number of points in the pool matches will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has scored the highest number of tries in the pool matches will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has better Games team seeding will be ranked higher in the pool
- If at the end of the pool round more than two teams are tied on match points then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the greatest margin of points will be ranked highest in the pool.
 - If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the greatest margin of tries will be ranked higher in the pool.
 - If the tie remains unresolved: The teams concerned will be ranked by reference to the number of points scored in all pool matches. The team with the highest number of points scored in the pool matches will be ranked higher in the pool.

- If the tie remains unresolved: The teams concerned will be ranked by reference to the number of tries scored in all pool matches. The team with the highest number of tries scored in the pool matches will be ranked higher in the pool.
- If the tie remains unresolved: The team that has better Games team seeding will be ranked higher in the pool

Knock out round

- For all matches in the knock out round, if teams are tied at full time, then the winner is determined by sudden death extra time. The team which scores first in extra time will immediately be declared the winner without further play.
- After a break of two minutes, during which the referee organizes a toss with the team managers to decide which team will kick off from which end, the extra time is played in periods of five minutes. If additional periods of extra time are required teams change ends without an interval.

Penalties / Disqualification Rules

Penalties can be awarded for many reasons in Rugby Sevens. Some of the most common are: high tackle (tackle above shoulder height), not rolling away at a tackle or ruck (a player on the ground must not interfere with play), being offside. A severe or cynical offence may result in a yellow card, at which time the player spends two minutes in the sin-bin and the team plays the ensuing period a player down. For very serious offences, the referee can issue a red card, which means the offending player is sent off for the remainder of the match. A player receiving a second yellow card in the same match results in a red card.

Protests / Appeals

The protests and appeals process will be according to World Rugby Rules and Regulations.

- The Referee will manage all matches and any incident on the field of play during a match not seen to be properly dealt with by the Referee will be reviewed by the Citing Official; the Citing Official will decide whether or not to issue a report for further action to be taken and must issue this report within one hour following the completion of the match.
- A team may refer an incident to the Citing Official; the Citing Official will decide whether or not the referral will be upheld.
- A Judicial Officer will conduct a hearing as quickly as possible once the Citing Officer's report has been issued and will decide whether or not to uphold the Citing Officer's Report and if so, will issue a sanction in line with the World Rugby's Disciplinary Guidelines.
- A team may appeal the decision of the Judicial Officer but the player will not be permitted to play again in the competition until the appeal is heard.
- Any dispute not related to the playing of the match will be dealt with by the World Rugby's appointed Technical Director in accordance with the tournament dispute resolution guidelines.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

HISTORY RUGBY SEVENS

Origin of Rugby Sevens

The concept of Rugby Sevens was first born in the sleepy Scottish town of Melrose in 1883 where, an internal Rugby club dispute resulted in a split between the playing group. As the tale goes, neither the new or old club had enough players to field a 15-man team, so it was decided a seven-a-side match would go ahead instead.

With players enjoying extra space to work in, individual flare and fancy footwork gave life to a new version of running Rugby where more tries were scored and skill, timing and agility were key.

The fans soon took to the spectator-friendly sport, much like new cricket fans sit alongside the traditional Test match supporters at the popular hit-a-minute Twenty20 fixture.

A carnival of rugby - with non-stop action on and away from the field - appealed largely to the expat community and the tournament grew steadily throughout the 1970s and 1980s. Sevens, with seven players on a team, playing seven minute halves across a weekend of non-stop high-octane competition, soon took off - not only in terms of the number of spectators coming to the event - but also the number of club and international teams the tournament was attracting.

By 1982, the sport outgrew its original home at the Hong Kong Football Club and was relocated to the larger Hong Kong Stadium and as ticket demands regularly outstretched its capacity by the early 1990s, the stadium was rebuilt in 1994 as the majestic 40,000-seat ground it is today.

Rugby Sevens Today

Taking pride of place on the Sevens calendar, Hong Kong's turf has played host to a myriad of Rugby greats including the famed Ella brothers in the 1980s and Jonah Lomu and George Gregan in the 90s while handfuls of up-and-coming stars turn out at the "Jewel in the Sevens Crown" each year to try their hand on the world stage.

1993 saw the advent of the Sevens Rugby World Cup in Scotland, where the sport was first played, and since then the event has taken place every four years - in Hong Kong, Argentina, Hong Kong and Dubai respectively.

Pacific Island heavyweights Fiji have claimed the title twice while England, New Zealand and Wales have also been crowned world champions.

The Australian Women's Sevens team beat all-comers to claim the inaugural Women's Sevens World Cup in Dubai in 2009.

Rugby Sevens gained a further boost in stature when it was introduced to the Commonwealth Games in 1998, prior to World Rugby recognising the true value of the game and launching its first World Sevens Series in 1999/2000.

Adopting a naming-rights sponsor in 2011, the HSBC Sevens World Series now boasts a core of 16 of the world's top teams which compete in tournaments across the globe.

New Zealand has claimed the Sevens World Series on eight occasions since its inception with Fiji, South Africa and Samoa the only other winners. Australia has never won a title, however has featured in the top three in three of the 11 seasons - 1999/00, 2000/01 and 2009/10.

Sevens Rugby will only keep on building as the sport now enjoys Olympic status and is set to make its first appearance on the playing roster, in the men's and women's competitions, in 2016 in Rio de Janeiro.

Rugby Sevens at the Olympic Games

The Rio 2016 Olympic Games will be the first time Rugby Sevens is part of the Olympic programme although fifteen-a-side rugby has appeared on four separate occasions - 1900 Paris, 1908 London, 1920 Antwerp and 1924 Paris. The USA is the most successful NOC in rugby having won gold in both 1920 and 1924.

Rugby Sevens in Brazil

Rugby Sevens was first introduced to Brazil in the late 19th century by British immigrants. It is most popular in the east of the country with the first ever recorded match being played at the Sao Paulo club in 1888.

HISTORY RUGBY SEVENS

The national men's team has been playing international 15-a-side matches since the 1950s but has yet to qualify for the Rugby World Cup.

The Brazil women's rugby sevens team has won all seven South American championships held without losing a single match.

RUGBY SEVENS
MEN
KNOCK OUT ROUND - GOLD MEDAL MATCH**

News Item: 117

FIJ 31 - KEN 20

VIRIVIRI Samisoni (FIJ)

What did you think of the win?

"To win this gold medal for Fiji is a great honour."

"We really wanted to win, we were really aggressive from the start and we totally dedicate our gold to Waisele SEREVI, (FIJ), the true legend of sevens rugby."

AYANGE Felix (KEN) - Captain

You must be disappointed to lose, but happy with the silver medal?

"For us to make the gold medal game was a real thrill, and we gave it our best shot but the Fijians have been the best team all tournament. No one can argue with that."

QUOTES OF THE DAY

News Item: 117

A selection of the best quotes from the Rio 2016 Games on Tuesday 6 August 2016

"You can meet a champion on every corner."

Givenname FAMILYNAME (NOC) on the sights in the Olympic Village

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

Gold medallist Givenname FAMILYNAME (NOC) on her latest victory

"There are a lot of countries here. I don't even know where half of them are on the map."

The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games

"I did not concentrate on my opponent. I only concentrated on my coach."

Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)

**PRESS CONFERENCE HIGHLIGHTS
RUGBY SEVENS
WOMEN
KNOCK OUT ROUND - GOLD MEDAL MATCH**

News Item: 119

RSA 21 - NZL 18

JORDAAN Zenay (RSA) - Captain

What was your game plan?

"Our game plan was just to make sure we were ahead of New Zealand when the final whistle blew. We just knew we had to give it 100 percent and run hard for the whole 15 minutes."

"Spinning the ball wide as often as possible and trying to stretch the New Zealanders was definitely part of the plan."

BROWN Lorinda (RSA)

On her try-saving tackle which kept South Africa in the lead late in the game:

"I knew (Huriana) MANUEL (NZL) was the player to watch, so I was ready to cover her if she broke the line. When she did I thought to myself, 'this is my moment', so I angled for the corner and just got her in time. All the sand hill training finally paid off."

SPORT PREVIEW

RUGBY SEVENS

WOMEN

News Item: 1

- Rio 2016 will be the very first time that women's rugby has been part of the Olympic Games programme.
- Winners of the past two World Cups in 2009 and 2013, New Zealand, are hot favourites to become the first women's Rugby Sevens Olympic gold medallists.
- New Zealand captain Huriana MANUEL can become the first woman to win the women's World Cup and Olympic gold medal.
- European NOCs make up half of the 12-team competition - France, Great Britain, Ireland, Netherlands, Russia and Spain
- Of the other six teams, four are from the southern hemisphere (Australia, Fiji, New Zealand and South Africa) northern hemisphere Japan are the sole Asian representative while host Brazil straddles the equator.

**DAILY PREVIEW
RUGBY SEVENS
MEN
POOL ROUND
THU 18 AUG**

News Item: 14

Match 11 at 9:30, MEN - Pool A, AUS v PHI

- Australia has never lost to the Philippines in Rugby Sevens
- Australia will qualify for the knockout round of the tournament with a victory in this match
- Philippines need to win and markedly improve its 'for and against' record to keep its chance of advancing to the knockout round alive.
- Peter ALLOTT (AUS) can become the first player in the tournament to score 50 points. He has so far scored 43 in four matches.

Match 12 at 11:30, MEN - Pool B, ARG v CAN

- Argentina and Canada have drawn two of their last three matches against each other, so a close match is expected
- Jon CENA (CAN) tops the try scoring list so far in the tournament with eight after four matches.
- Argentine captain Alfredo HIGUAIN will miss the match due to suspension after being red carded in his team's narrow 15-14 loss to Japan last Wednesday.
- A victory can see Canada qualify to the knockout round with one pool game remaining, but that will hinge on the result of the match between Japan and South Africa on Thursday.

Match 13 at 13:30, MEN - Pool A, NZL v SAM

- New Zealand has outscored its opponents 120-19 in the four matches played so far at Rio 2016.
- However, Samoa beat New Zealand 21-16 the last time these two teams met, at the Rugby Sevens World Series event in Edinburgh, and has beaten the reigning world cup champions three times in their last eight matches against each other.
- New Zealand speed machine Iva LOTAZIP (NZL), who has scored seven tries so far in the tournament, will miss the match because of a thigh injury.

RUGBY SEVENS
WOMEN
POOL ROUND - POOL A**

News Item: 23

USA vs CAN

- Traditionally matches between the two north American rivals are close and fiery. In the last five matches between the two teams, the largest margin of victory was five points when Canada beat the USA 12-7 at the Las Vegas World Series event last month.
- Three red cards have also been issued in the last four matches between USA and Canada.
- USA has won all three matches so far at Rio 2016 and can confirm qualification to the knockout round with a win against (or even a narrow loss to) Canada.
- Canada is in a must-win situation after its narrow 14-12 loss to New Zealand on Tuesday.

MATCH REVIEW RUGBY SEVENS MEN GOLD MEDAL MATCH

News Item: 75

KEN 33 vs NZL 14

- Kenya has won an astonishing gold medal match 33-14 against reigning World Cup holders New Zealand at Deodoro Olympic Stadium in Rio de Janeiro on Thursday.
- Despite being down 14-5 early in the second half, Kenya sparked into life and overwhelmed New Zealand by scoring four converted tries in the final six minutes.
- Kennedy ODUMBA (KEN), with three tries and four conversions in the second half, led the late charge.
- Towering forward Elton CHIGUMBUWE (KEN) inspired his teammates with some rampaging running and huge hits in defence.
- Key players Stu WILSON (NZL) and Tony WOODCOCK (NZL) both had to leave the field through injury in the second half after tackles from CHIGUMBUWE.
- It is the first non-athletics gold medal for Kenya in any Olympic Games.

**DAILY REVIEW
RUGBY SEVENS
MEN
PLACING 9-12
SAT 20 AUG**

News Item: 133

PLACING 9-12

Men's Placing 9-12: ARG 31 - RSA 22

Argentina beat South Africa 31-22 to place ninth while South Africa had to settle for tenth. Early tries from Lionel GONZALEZ (ARG) and Fernando FERRARA (ARG) in the first half got Argentina off to a flying start, with FERRARA adding two more tries to his tally in the second half to help seal the win. South African captain Jacques COPUS was the top scorer for his side with two tries and two conversions.

Men's Placing 9-12: ESP 29 - PHI 14

Pacy winger Miguel ORTIZ (ESP) scored a hat-trick of tries to help Spain to a comfortable 29-14 win over Philippines and 11th place overall in the Rio de Janeiro 2016 men's rugby sevens tournament. ORTIZ scored all three tries in the first half as Spain raced to a 22-0 halftime lead. The Philippines fought back in the second half through two converted tries from Eugene Gerardo TAN (PHI), but the damage had been done in the first seven minutes and the Philippines finished in 12th position overall.

SPORT REVIEW

RUGBY SEVENS

MEN'S

News Item: 15

- New Zealand became the first ever men's rugby sevens Olympic gold medallist by defeating South Africa 28-25 in a tense final.
- New Zealand was undefeated in the tournament to claim gold but had to survive some tense moments against a fierce South African team in the gold medal match.
- After captain Buck SHELFORD (NZL) was sent off with two minutes remaining in the second half, South Africa scored two late converted tries to come within three points, but couldn't find possession in the final 60 seconds as New Zealand counted down the clock.
- Kenya won an historic bronze medal by beating Fiji 18-15, it's first Olympic medal away from the athletics track since 1968.
- Pre-tournament favourites Australia and Great Britain had disappointing tournaments, with Australia losing to Fiji in the quarterfinals while Great Britain failed to advance from the pool stage.
- The Philippines had a first-ever win against Samoa in the pool stage and showed that the game is developing quickly in south-east Asia.
- Top try scorer for the tournament was Flip VAN DER MERWE (RSA) with 17 while top overall point scorer was New Zealand's Rico GEAR with 126 (12 tries, 30 conversions and two drop goals)

NEWS ARTICLE

News Item: 96

Argentine school buddies reunited

Valentin CRUZ, Diego PALMA and Gaston REVOL were primary school friends in Mendoza for two years in 1998 and 1999 before their families all moved in different directions and they did not meet up together again until all three were selected in the Argentine Rugby Sevens Olympic squad in March this year.

All three were keen rugby players in their youth and played rugby for the Mendoza Schoolboys in junior tournaments in the late 1990s.

CRUZ has these days returned to Mendoza while PALMA and REVOL are based in Buenos Aires, where their families moved 16 years ago.

All three play representative senior rugby for their provinces and have variously represented Argentina in international sevens, but have not before been selected in the same national squad.

IOC NEWS

News Item: 168

Rugby Sevens: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the men's Rugby Sevens of the Rio 2016 Olympic Games.

Immediately after his participation in the match on 14 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Rugby Sevens:
 - (i) is disqualified from the men's Rugby Sevens of the Rio 2016 Olympic Games where he placed 7th;
 - (ii) shall have his diploma in the above-mentioned event withdrawn; and
 - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. World Rugby is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Rugby Sevens information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Rugby Sevens. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of World Rugby and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, World Rugby office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the Technical Committee Meeting, the production of the final team rosters and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. in Rugby Sevens the same process is followed for both the Women's and Men's tournaments before and during the competition).

2.1 Pre-Competition Activities

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Rugby Sevens sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

IDS Information Diffusion System
 ONS Olympic News Service
 OVR On Venue Results system
 VRM Venue Results Manager

Officials: Referee, Assistant Referees, In-Goal Judges, Doping Control Officer
 (The VRM should consult Protocol/Ceremonies and the Doping Control Officer regarding the specific outputs required)

World Rugby: World Rugby President, World Rugby Secretary General, Technical Delegates, World Rugby office, World Rugby Media, etc.

5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day World Rugby and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EBCD	The evening before a competition day
EOD	End of day
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xHBTM	X (x) hour(s) before the Technical Committee Meeting
xMAC	X (x) minute(s) after the competition
xMAE	X (x) minute(s) after the event
xMAER	After the end of the preliminary round and each phase of the knock out round
xMAJ	X (x) minute(s) after each jury or other official body decision
xMAL	X (x) minute(s) after the last event of that day
xMALMD	X (x) minute(s) after the last match of the day
xMAMRA	X (x) minute(s) after medal match results are approved
xMAPR	X (x) minute(s) after public release of a communication
xMATCM	X (x) minute(s) after the Technical Committee Meeting
xMAQ	X (x) minute(s) after quotes/a press conference
xMARA	X (x) minute(s) after the results are approved
xMBF	X (x) minute(s) before a final
xMBSM	X (x) minute(s) before the start of a match
xPDyDBC	X (x) times per day, starting Y (y) days before the competition

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the IRB and the OC (and providers).

This page intentionally left blank.

2 Scoreboards

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Players, Teams and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to World Rugby's approval.

2.3 Part A - Before the Event

2.3.1 Pool Composition

- What: Screen shows composition of each pool with sport discipline name, event name, pool name ("POOL A", "POOL B", "POOL C") and teams (NOC name) sorted by draw number
When: At the beginning of a session during the pool round matches
How: Scrolling screen

RUGBY SEVENS
WOMEN
POOL A
NEW ZEALAND
FRANCE
RUSSIAN FEDERATION
SOUTH AFRICA

2.3.2 Schedule

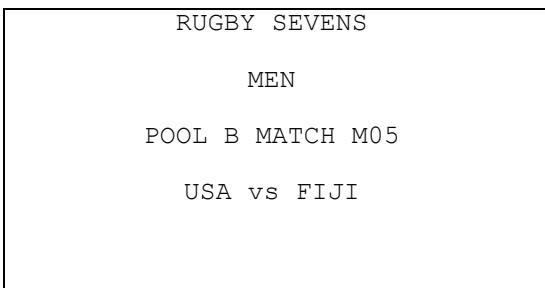

- What: Screen shows schedule with sport discipline name, screen title, start time, gender, teams (NOC code) and pool indication
When: At the beginning of a session
How: Scrolling screen

RUGBY SEVENS
TODAY'S SCHEDULE
11:00 WOMEN NZL vs RSA POOL A
11:30 WOMEN CAN vs CHN POOL B
12:00 WOMEN AUS vs BRA POOL C
12:30 WOMEN FRA vs RUS POOL A
13:00 WOMEN USA vs FIJ POOL B
13:30 WOMEN GBR vs ESP POOL C

2.4 Part B - Before the Match

2.4.1 Match Presentation

- What: Screen shows match presentation with sport discipline name, event name, phase name and match number (for pool matches only) and teams (NOC code)
- When: Before the start of each match
- How: Static screen

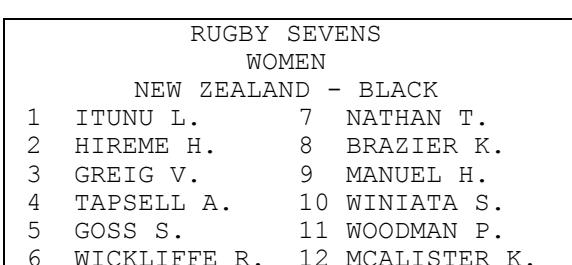

2.4.2 Match Officials

- What: Screen shows match officials with sport discipline name, event name, phase name and match number (for pool matches only) title "REFEREE", referee scoreboard name and NOC code, title "ASSISTANT REFEREES", assistant referees' scoreboard name and NOC code, title "IN-GOAL JUDGES", in-goal judges' scoreboard name and NOC code
- When: Before the start of each match
- How: Static screen

2.4.3 Team Presentation - all team players

- What: Screen shows team presentation with sport discipline name, event name, team (NOC name), team shirt colour and team players (6 on the left and 6 on the right) with shirt number and scoreboard name. The players are sorted by shirt number.
- When: On demand
- How: Static screen

2.4.4 Starting Seven

What: Screen shows the starting seven players for a match with sport discipline name, event name, screen title, teams with NOC code and team shirt colour (team A on the left, team B on the right) and team players with shirt number and scoreboard name. The players are sorted by shirt number.

When: Before the start of each match

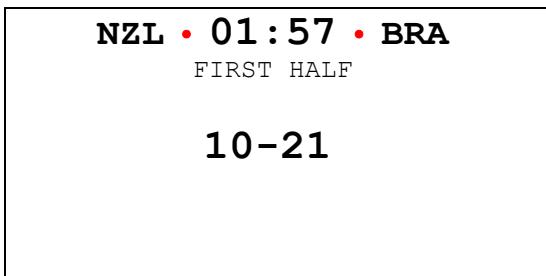

How: Static screen

RUGBY SEVENS WOMEN	
STARTING SEVEN	
NZL - BLACK	NED - ORANGE
1 ITUNU H.	1 VAN ALTENA J.
2 HIREME H.	2 FRANSSEN L.
3 GOSS S.	3 VISSER I.
8 BRAZIER K.	4 SELBECK P.
9 MANUEL H.	7 HARSKAMP K.
11 WOODMAN P.	8 HIELCKERT A.
12 MCALISTER K.	9 VAN ROSSUM A.

2.5 Part C - During the Match

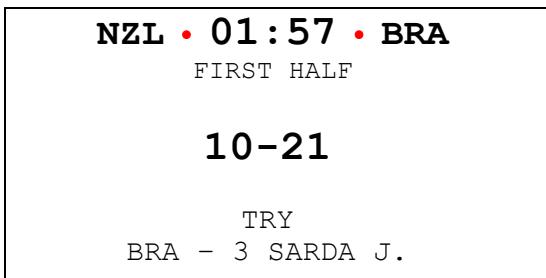

2.5.1 Match Score

- What: Screen shows match score with teams (NOC code), match count down time (from 7:00 or 10:00 to 0:00), clock stop indicator (•), and match period ("FIRST HALF", "SECOND HALF", "EXTRA TIME", "SECOND EXTRA TIME")
- When: During the match
- How: Dynamic updates

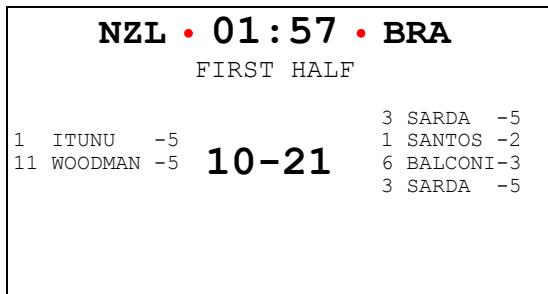

2.5.2 Point Scorer

- What: Screen shows point scorer with teams (NOC code), match count down time (from 7:00 or 10:00 to 0:00), clock stop indicator (•), match period ("FIRST HALF", "SECOND HALF", "EXTRA TIME", "SECOND EXTRA TIME"), match score and action ("TRY", "CONVERSION", "PENALTY GOAL", "DROP GOAL"). For each action show team (NOC code), scorer's shirt number and scoreboard name.
- When: During the match
- How: Dynamic updates

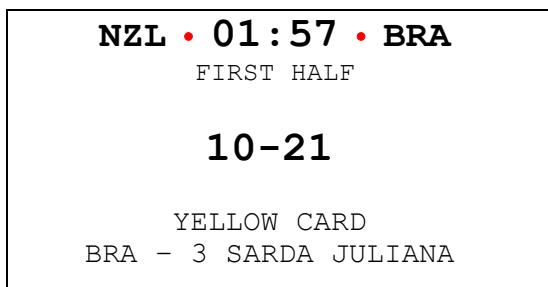

2.5.3 Match Scorers

- What: Screen shows match scorers with teams (NOC code), match count down time (from 7:00 or 10:00 to 0:00), clock stop indicator (●), match period ("FIRST HALF", "SECOND HALF", "EXTRA TIME", "SECOND EXTRA TIME"), match score and team scorers with shirt number, scoreboard name and number of points scored
- When: During the match
- How: Dynamic updates. Scroll through the scorers names only (match time and match results always need to be displayed).

2.5.4 Sanctions

- What: Screen shows sanctions with teams (NOC code), match count down time (from 7:00 or 10:00 to 0:00), clock stop indicator (●), match period ("FIRST HALF", "SECOND HALF", "EXTRA TIME", "SECOND EXTRA TIME"), match score and sanction ("YELLOW CARD", "RED CARD"). For each sanction show team (NOC code), player's shirt number and scoreboard name.
- When: During the match when a sanction occurs
- How: Dynamic updates

2.6 Part D - After the Match

2.6.1 Pool Standings

- What: Screen shows pool standings with sport discipline name, event name, screen title, pool name ("POOL A", "POOL B", "POOL C") and for each team show rank (only for teams that have played at least one match), NOC name, points and points difference. Use the following abbreviations for column headings: "PTS"- points, "MP" - matches played, "PDIFF"- points difference.
- When: Before and after each match, during the pool stage
- How: Static screen

RUGBY SEVENS WOMEN POOL STANDINGS – POOL C			
	PTS	MP	PDIFF
1 BRAZIL	9	3	48
2 SPAIN	5	3	-10
3 AUSTRALIA	5	3	-12
4 GREAT BRITAIN	5	3	-25

2.6.2 Leading Points Scorers

- What: Screen shows the top six points scorers with sport discipline name, event name, screen title and for each player show rank, scoreboard name, NOC code and points. Use the abbreviation "PTS" for the column points.
- When: On demand
- How: Static screen

RUGBY SEVENS WOMEN LEADING POINTS SCORERS		
		PTS
1 GARCIA B.	ESP	66
2 MUHLBAUER B.	BRA	65
3 WILLIAMS S.	AUS	63
4 ITUNU L.	NZL	61
5 GRASSINEAU C.	FRA	51
6 KABEEVA K.	RUS	49

2.6.3 Leading Try Scorers

- What: Screen shows the top six try scorers with sport discipline name, event name, screen title and for each player show rank, scoreboard name, NOC code and tries
- When: On demand
- How: Static screen

RUGBY SEVENS WOMEN LEADING TRY SCORERS		
		TRIES
1 GARCIA B.	ESP	4
1 ITUNU L.	NZL	4
3 KABEEVA K.	RUS	3
3 MUHLBAUER B.	BRA	3
3 WILLIAMS S.	AUS	3
6 BARKER K.	AUS	2

2.7 Part E - During the Victory Ceremony

2.7.1 Presenters

- What: Screen shows the presenters with sport discipline name, event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function. Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", or "Medal Ceremony", etc.).
- When: As the dignitary is introduced before the ceremony
- How: Single screen

RUGBY SEVENS MEN VICTORY CEREMONY
PRESENTER: SIR PHILIP CRAVEN - GBR IOC MEMBER
ACCOMPANIED BY: MR BERNARD LAPASSET - FRA WORD RUGBY CHAIRMAN

2.7.2 Medallists - Teams

- What: First screen shows sport discipline name, event name, screen title. For each team winning a medal, show medal type and NOC.
Second screen shows sport discipline name, event name, medal type, NOC. For each medallist (six on the left and six on the right) show shirt number and scoreboard name.
Medallists are sorted by shirt number.
- When: During the ceremony
- How: Dynamic screen, first show screen with medal type and NOC, then change to screen for name presentation

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented (show left screen first, then right screen):

RUGBY SEVENS MEN VICTORY CEREMONY	RUGBY SEVENS MEN BRONZE - ARGENTINA

This page intentionally left blank.

3 On Screen Results Presentation

Some screens will be updated in real time whenever new information becomes available (e.g. score change). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start list, results, pool summary, knock out summary, statistics, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

This page intentionally left blank.

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Rugby Sevens document are defined as follows:

Term	Definition
Assistant Citing Officer	Assisting the Citing Officer in all his or her duties.
Assistant Referee	An assistant referee is responsible for signalling, touch, touch-in-goal and indicating foul play.
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Ball carrier manager	Manages and assigns ball carriers to each match. Develops the schedule of ball carriers and ensures there are sufficient balls and that they are pumped to the correct pressure.
Citing Officer	A Citing Officer views all the matches and may cite a Player for an act of foul play which in his/her opinion warrants a player to be ordered off.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Conversion	When a player scores a try it gives the player's team the right to attempt to score a goal by taking a kick at goal. This is a conversion kick. A conversion kick must be a drop-kick. The kicker must take the kick within thirty (30) seconds of a try having been scored. The kick is disallowed if the kicker does not take the kick in the time allowed.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter).
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.

Term	Definition
Drop goal	A player scores a drop goal by kicking a goal from a drop-kick in general play. The team awarded a free kick cannot score a drop goal until the ball next becomes dead, or until an opponent has played or touched it, or has tackled the ball carrier. This restriction applies also to a scrum taken instead of a free kick.
Event	<p>"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)</p> <p>See "Rugby Sevens References" for the list of events.</p>
Half time	The interval between the two halves of the match.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	<p>IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc.</p> <p>IDS also includes provision of INFO and CIS.</p>
In-goal	The area on the field of play where a try is scored. It is bounded by the goal line, the dead ball line and the touch-in-goal lines. The portion of the touch line within the in-goal area is known as the touch in-goal line.
In-goal judge	There is one In-goal Judge in each in-goal area responsible for signalling the result of a kick at goal, touch in-goals and tries.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Judicial Appeal Officer	A Judicial Appeal Officer may adjudicate on appeals arising from the decisions of the Judicial Officer.
Judicial Coordinator	Administrative support to the Citing officer, Judicial Officer and Appeal Officer. The Judicial Coordinator may undertake investigations into incidents under the direction of the Judicial Officer.
Judicial Officer	A Judicial Officer will adjudicate on all disciplinary matters in relation to the event.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Line out	When the ball goes over either side line play is restarted with a line-out. Two lines are formed by players from each team. The ball is thrown between the lines. Teams may lift players to contest for the ball.

Term	Definition
Match	<p>A match is a contest between two teams. It consists of two halves. The duration of all the matches (except the medal matches) is fourteen (14) minutes; two halves of seven (7) minutes each, with a two (2) minute half-time interval. The duration of the bronze and gold medal matches is twenty (20) minutes; two halves of ten (10) minutes each, with a two (2) minute half-time interval.</p> <p>A match in the pool round can end in a draw. If a match in the final round ends in a draw, a five (5) minute extra time period will be played until a winner is determined. After each extra time period, the teams will change ends without interval. The team which scores first in extra time will immediately be declared the winner without further play.</p>
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: http://odf.olympictech.org.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p> <p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.</p>
Penalty	<p>Penalties can be awarded for many reasons in rugby. A severe or cynical offence may result in a yellow card, at which time the player spends two (2) minutes in the sin-bin and the team plays the ensuing period a player down. For very serious offences, the referee can issue a red card, which means the offending player is sent off for the remainder of the match.</p>

Term	Definition
Penalty goal	A player scores a penalty goal by kicking a goal from a penalty kick.
Penalty try	If a player would probably have scored a try but for foul play by an opponent, a penalty try is awarded between the goal posts.
Phase	A step in the progression of the competition.
	See "Rugby Sevens References" for the list of competition phases.
Rank	Placing in an event. Teams are ranked according to World Rugby rules.
Red card	A card, red in colour, shown to a player who has been sent off for breaking the World Rugby foul play rules. A player who receives two yellow cards in the same match will be sent off (automatic red card). A player who is sent off takes no further part in the same match.
Referee	The official responsible for the conduct of the match in accordance with the World Rugby Laws of the Game.
Referee Manager	World Rugby will appoint a Referee Manager who is responsible for all the match officials and who will be the point of contact for the Technical Delegate on all related matters.
Referee Performance Reviewer	Assists the Referee Manager in assessing the performance of the referees and making referee appointments for the duration of the Tournament.
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit
Round	A stage of a competition.
Scorer / World Rugby Scorer	The scorer is responsible for keeping an accurate record of the score and records all player movements onto, and off, the field of play (i.e. substitutions).
Shirt number	See "Squad number".
Side line	The lines running along the sides of the pitch. When a ball in play crosses the side line it has gone into "touch". The side lines may also be called touch lines.
Side Line Manager	Manages the substitution officials, timing officials, scoring officials, team benches and technical zones.
Sin bin	The designated area in which a temporarily suspended player must remain for two (2) minutes playing time.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs,

Term	Definition
	according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Squad number	The shirt number (1-12) that is assigned to all players who participate in any match in the Rugby Sevens competition. Once assigned a number, a player will retain such number for the duration of the competition.
Substitute Controller	Manages the substitutes from each team in the Technical Zone.
Substitution (during a match)	A team can substitute or replace up to five players. Temporary replacement of a player is permitted for a blood injury. A player who has been replaced due to injury may not resume play in the same match. A player who has been substituted may not resume play in the same match except in the case of a temporary blood replacement. No replacement or substitution may be made except with the permission of the referee, and only during a stoppage in play.
Sudden Death	The team which scores first in extra time will immediately be declared the winner without further play.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Technical Zone	Defined perimeter area on the sideline to accommodate the team management and substitute players.
Technical Zone Manager	Manages the technical zone rules and substitutes on and off the pitch.
The 22	The 22 is the area between the goal line and the 22 metre line including the 22 metre line, but excluding the goal line.
Timekeeper	Time is officially kept by the referee on the field of play. The timekeeper will keep time in line with the referee's signals for time on and time off and at half time and full time will sound a hooter. Half time and full time will not end until the referee decides.
Touch line	See Side line
Try	A try is scored when an attacking player is first to ground the ball in the opponents' in-goal (on or over the goal line).
Tunnel Manager	Manages the tunnel area where the teams enter and/or exit the field of play to ensure teams are in place at the appointed time and take the field of play at the time appointed on the match schedule; ensures the tunnel and tunnel area are kept clear at all times.
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).

Term	Definition
World Rugby Game Analyst	Analyses statistics from each match to provide to the teams, the Referee manager and the Referee Performance Reviewer.
Yellow card	A card, yellow in colour, shown to a player who has been cautioned and temporarily suspended for two (2) minutes playing time. A player who receives two yellow cards in the same match will be sent off (automatic red card).

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none">Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none">Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	<ul style="list-style-type: none">Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	<ul style="list-style-type: none">Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	<ul style="list-style-type: none">Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc.Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	<ul style="list-style-type: none">Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	<ul style="list-style-type: none">Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc.Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	<ul style="list-style-type: none"> Measurements (time, weight, distance, height, etc.) Scores Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	<ul style="list-style-type: none"> Points
Bracket	<p>Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected (e.g. "Bracket with direct elimination" in Tennis, "Bracket with classification" in Water Polo, "Bracket with repechage" in Judo)</p> <p>Bracket types:</p> <ul style="list-style-type: none"> Bracket with direct elimination (e.g. Boxing) Bracket with direct elimination, classification and finals (e.g. Water Polo) Bracket with direct elimination and finals (e.g. Tennis) Bracket with direct elimination, repechage and finals (e.g. Judo) 	<ul style="list-style-type: none"> Win/Loss
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	<ul style="list-style-type: none"> Addition of results (points, times)

Appendix B - Abbreviations

The following abbreviations are used in the ORIS Rugby Sevens document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
Avg	Average
BK	Back
C	Conversion
Cm	Conversion missed
CM	Organising Committee Competition Management
D	Draw
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
D	Drop Goal
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments
DG	Drop goal
Dm	Drop Goal missed
DRM	Delegation Registration Meeting
ft	feet
FW	Forward
ID	Identification number
IDS	Information Diffusion System
IF	International Federation
in	inch
IOC	International Olympic Committee
IRM	Invalid Result Mark
IT	Information Technology
kg	kilogramme
L	Loss
lb	pound
m	metre
M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
MMC	Main Media Centre
MP	Matches Played
MPC	Main Press Centre
NOC	National Olympic Committee
OC	Organising Committee

Code	Description
ODF	Olympic Data Feed
OG	Olympic Games
ONS	Olympic News Service
ORIS	Olympic Results and Information Services
OVR	On Venue Results system
P	Penalty Goal
PA	Points Against
PDiff	Points Difference
PF	Points For
PG	Penalty goal
Pm	Penalty Goal missed
Pos	Playing Position
PT	Penalty Try
PTS	Points
RC	Red Card
RU	Rugby Sevens
SEQ	Sport Entries and Qualification
SP	Surrendered Position
T	Try
TAO	IOC Technology Assistance and Observation team
TA	Tries Against
TD	Technical Delegates
TDiff	Tries Difference
TF	Tries For
TR	Try
VPC	Venue Press Centre
VRM	Venue Results Manager
W	Win
WNPA	World News Press Agencies
YC	Yellow Card

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Rugby Sevens Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Rugby Sevens event presentation order	Please see "Rugby Sevens References".
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none">• Unscheduled Not visible on the schedule, optional (e.g. tie-breaker if applicable)• Scheduled The start time is known• Getting_Ready At time x before start - "x" is defined in a separate ODF document• Running In progress• Scheduled_Break Planned break (e.g. end of period)• Finished No further action on the field of play• Delayed Did not start as scheduled, should start in the current ticketing session• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present• Interrupted Unplanned interruption after the start, and is expected to resume or restart in the current ticketing session• Rescheduled The new date and start time are known• Cancelled Will not take place at these Games
Results status options	<ul style="list-style-type: none">• Start List Start list has been created• Live In progress• Intermediate Used after the competition has started and is not finished, but is not currently live. Results and ranks are subject to change.• Partial The results and ranking of the teams who have completed their performance are not subject to change by the results of teams still competing. Not applicable for Rugby Sevens.• Unconfirmed Activity on the field of play is complete but there is no status update in the results yet• Unofficial Results are not approved• Official Results are approved

	<ul style="list-style-type: none"> • Protested The competition is no longer in progress and a protest has been lodged. Not applicable for Rugby Sevens.
Match numbering	Each match is given a unique identifier as follows: <ul style="list-style-type: none"> • Women's matches: W01, W02, ..., W10, etc. • Men's matches: M01, M02, ..., M10, etc.
Invalid Results Marks (IRM)	<ul style="list-style-type: none"> • DSQ - Disqualified
IRM presentation order	Rules for presentation of results for players/teams with DSQ: <ul style="list-style-type: none"> • Outputs C33, C84A: Disqualified players are listed at the bottom of the list with a "DSQ" in place of the shirt number • Output C73: The match result is blank and the "DSQ" mark follows the disqualified NOC • Output C76: Disqualified teams are listed last without rank but with a "DSQ" mark in the pool standings and the final standings tables • Output C84B: Disqualified teams are listed at the bottom of the list and marked as "DSQ" • If more than one player/team is marked as DSQ they should be listed in alphabetical order of family name/NOC respectively
Time format	Times are displayed in 24 hour format, without leading zeros.
Match action time format	MM:SS M:SS
General rules for formats	"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears. "0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains. E.g. 004.23 in the format ##0.00 becomes 4.23. E.g. 004.23 in the format 00.00 becomes 04.23.
Points format	##0
Height/Weight format	Height (metric): Height (imperial): Weight (metric): Weight (imperial): 0.00 0'#0" ##0 ##0 If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".
Presentation of ties	Results <ul style="list-style-type: none"> • The primary rank (first column) must show a rank (if tied, repeat rank). • Secondary rank(s), if any, will be repeated, with an "=" sign if there is sufficient space.

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, World Rugby, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> • dd MMM yyyy (e.g. 6 APR 1896) <ul style="list-style-type: none"> • dd: date format, for example: 23 or 5 (presented without leading zero) • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case) • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case) • Mmm: month in abbreviation format - mixed case, for example: Apr for April • MMM: month in abbreviation format - upper case, for example: APR for April • yyyy: year format, for example: 1896 • The "As of date" may reflect one of the following: <ul style="list-style-type: none"> • Date when data has been collected (e.g. world ranking) • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics) • Logical date if applicable • Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8) <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> • When the complete output fits on a single page, "None, aim for a single page" is written • For multi-page outputs, there are three cases: <ol style="list-style-type: none"> 1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: <ul style="list-style-type: none"> • Not controlled with repeated output headings and column headings • Not controlled with repeated column headings only • Not controlled without repeated output headings and/or column headings

	<p>2. Forced page break by "Group":</p> <p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p>3. Forced page break by "Condition":</p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> • "None" is specified if no abbreviations are used in the output • If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend) • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> 1. Note with static text: <ul style="list-style-type: none"> • If "Note with static text" is not planned, allowed or possible, "None" is written • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition <p>3. Note with free text:</p> <ul style="list-style-type: none"> • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

This page intentionally left blank.

Appendix D - Supporting Documents

This appendix includes the following supporting document:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "Rugby Sevens References" for list of events)
Gender	Event gender indication (women, men), if applicable
Phase	Affected stage of competition (e.g. pool round, knock out round, quarter-finals, etc.), if applicable
Unit	Specification of the phase (e.g. match W01, match M01, etc.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Heading	One line space for describing the topic
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

Note: authors of this ORIS document do not imply that this is a complete list of Official Communications templates.

2 Results, Medals and Diplomas

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Rugby Sevens.

Eligible athletes:

- Women's/Men's Tournament: Athletes listed on the roster

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/ Diploma	Event Type	
	Team	
Gold	12	One athlete replaced during the event
Silver	12	One athlete replaced during the event
Bronze	12	One athlete replaced during the event
Diploma	96	Athletes replaced during the event

2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
If the gold medallist is disqualified			
4		NOC Name 1	NOC 1
2	1	NOC Name 2	NOC 2
3	2	NOC Name 3	NOC 3
4	3	NOC Name 4	NOC 4
5	4	NOC Name 5	NOC 5
6	5	NOC Name 6	NOC 6
7	6	NOC Name 7	NOC 7
8	7	NOC Name 8	NOC 8
From the Final Ranking where rank 9 is clearly identified			
9	8	NOC NAME 9	NOC 9

Note: All teams ranked after the disqualified team will be ranked one place higher, including sub-phases.

ORIS reference output:

- Competition Summary (C76)

Note: The software must be flexible enough to handle medal allocations as decided by World Rugby and/or the IOC.

3 Data to be Captured

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
Replacement athlete	<ul style="list-style-type: none">• Yes• No	SEQ	
Shirt number	Numeric	SEQ	
Captain flag	<ul style="list-style-type: none">• Yes• No	SEQ	
Position in the team	<ul style="list-style-type: none">• "B" - Back• "F" - Forward	SEQ	
Uniform colour	Text	SEQ	
Substitutes	<ul style="list-style-type: none">• Yes• No	SEQ	
Club name, city	Text	SEQ

Version History

Release 6 Version 1.4 12 Oct 2015	Submitted for sign-off Updated with the latest information received by World Rugby
Release 6 Version 1.3 23 Sep 2015	Submitted for sign-off Updated with the latest information received by World Rugby
Release 6 Version 1.2 3 Aug 2015	Submitted for sign-off Updated with the new competition format after the meeting with World Rugby, 7-8 Jul 2015, Dublin and Change Requests 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux
Release 6 Version 1.1 18 Dec 2013	Submitted for sign-off Updated with comments received in the review period after the ORIS meeting.
Release 6 Version 1.0 31 Oct 2013	Submitted for review Submitted for review after the ORIS Rugby Sevens meeting, 23-26 Sep 2013. Based on the ORIS Rugby Sevens meeting minutes as of 26 Sep 2013.
Release 6 Version 0 23 Aug 2013	Draft Developed based on the IRB Laws of the Game and Seven-a-Side Variations 2013 analysis.

Release 6 - Version 1.4 - 12 Oct 2015

Global Changes

1. The rule for the quarter-finals matches #1 vs #8 and #2 vs #7 has been changed. According to the rule if either of these matches is between teams from the same pool the teams will be reversed for these two matches. The old rule has been deleted.
Affected files: References, C76, N02.

Section 1 - Outputs

C76:

- Sample: The symbol "(*)" for quarter-finals matches #1 vs #8 and #2 vs #7 has been added. Note and data matrix have been updated.

Release 6 - Version 1.3 - 23 Sep 2015

Global Changes

2. The rule for the quarter-finals matches #1 vs #8 and #2 vs #7 has been changed. According to the new rule these matches will be played as per the rankings regardless of whether the teams competed in the same pool (teams will not be reversed). The old rule has been deleted.
Affected files: References, C76, N02.
3. The Late Athlete Replacement procedure has been confirmed by the IOC and World Rugby. Yellow highlighted text has been deleted and text has been added.
Affected files: Procedures 2.1.2.4.1, C33, C38, Appendix D (chapters 2.2, and 3).

4. It has been confirmed by the IOC and World Rugby that there will be no "P" alternate athletes for Rugby Sevens. Yellow highlighted text has been deleted.
Affected files: Procedures 2.1.2.4.2, Appendix D (chapter 3).

Section 1 - Outputs

C33:

- A third sample has been added to show the presentation of a replaced player. Description table and data matrix have been updated.

C38:

- Under column "Identification" a field "Status" with value "Replacement athlete" has been added. Data matrix has been updated.

C76:

- Sample: The symbol "(*)" for quarter-finals matches #1 vs #8 and #2 vs #7 has been deleted. Note and data matrix have been updated.

Release 6 - Version 1.2 - 3 Aug 2015

Global Changes

5. "IRB" and "International Rugby Board" have been replaced by "World Rugby"
6. World Rugby confirmed the competition format. Yellow highlighting has been removed. Affected files: Rugby Sevens References, Procedures, C08, C74, C76, N02, Scoreboards.
7. The terms "Quarterfinals" and "Semifinals" have been changed to "Quarter-finals" and "Semi-finals". Affected files: References, Procedures, C08, C51, C73, C74, C76, C84B, C89, N02, N21, N22, N89, Distribution Rules, and App. D.
8. The output "Minimum / Maximum" (N86G) has been removed throughout the document
9. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".
Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").

Pending Action Items

The following sections contain text highlighted in yellow:

- | | |
|--|--|
| Procedures
2.1.2.4.1 | • The time by which the Late Athlete Replacement procedure should be completed will be confirmed by World Rugby by 15 Sep 2015 |
| Procedures
2.1.2.4.2, Glossary,
Appendix D | • The IOC will confirm if "P" alternate athletes are allowed for Rugby Sevens by 15 Sep 2015 |

Cover Page

- The address of World Rugby has been updated

Executive Summary

Chapter 2.2.4:

- In the second paragraph, the text has been updated regarding the presentation of column headings in outputs

Chapter 2.2.6.2:

- Chapter has been renamed "On screen results presentation"

Chapter 2.2.10:

- The chapter has been updated
- Chapter 4:
- Functions of IOC members of the Rio Steering Committee, the ORIS Management Team and the ORIS Working Group have been updated

Rugby Sevens References

- Chapters 1 and 2: The chapters have been updated based on the new competition format. Classification points assignments have also been confirmed and updated. Yellow highlighting has been removed.
- Chapter 3: Last bullet has been updated

Procedures

Chapter 2.1.1 - Schedules:

- The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony

Chapter 2.1.2 - Entries and Participant Data:

- The paragraph has been modified

Chapter 2.1.2.1 - After the Sport Entry Deadline:

- The first paragraph has been modified
- The output Facts and Figures - Minimum / Maximum (N86G) has been deleted from the second paragraph

Chapter 2.1.2.3 - Competition Officials:

- The text has been modified

Chapter 2.1.2.4 - Substitution of a Games participant:

- The title has been changed to "Replacement of an athlete"

Chapter 2.1.2.4.1 - Late athlete replacement:

- The text in the chapter has been modified
- Text has been highlighted in yellow, see Action Item

Chapter 2.1.2.4.2 - Alternates:

- The title has been adjusted to "P" alternate athletes
- The chapter has been modified and highlighted in yellow, see Action Item

Chapter 2.2.2 - Draw:

- The chapter has been updated. Yellow highlighting has been removed.

Chapters 2.3 - Results Processing:

- Yellow highlighting has been removed, see global change #2

Chapter 2.3.1.5 - After the end of the semi-finals and first round of placing matches:

- The chapter title "After the end of the semifinals" has been renamed "After the end of the semi-finals and first round of placing matches" and the text has been updated

Chapter 2.3.1.7 - Additionally for the gold medal match:

- The first two paragraphs have been reworded
- The output N98 "IRB Dream Team" has been renamed "World Rugby Dream Team"

Chapter 2.4.3 - Weather:

- It has been confirmed that INFO will include weather information. Yellow highlighting has been removed.

- The last part of the sentence has been deleted

Chapter 2.5.2.1 - Replacements and Substitutions:

- The last paragraph referring to the Head Injury Assessment has been updated. Yellow highlighting has been removed.

Chapter 2.5.2.8 - Team with fewer than seven players:

- The chapter has been updated. Yellow highlighting has been removed.

Chapter 2.5.3.2.1 - Team disqualification during the pool round:

- A sentence has been added to the third bullet point referring to the production of C73 with status "CANCELLED"

Chapter 2.5.3.2.2 - Team disqualification during the knock out round:

- A sentence has been added to the fourth bullet point referring to the production of C73 with status "DSQ"

- Chapter 2.7 - Results Book:
- It has been confirmed that the output will be separate by event. Yellow highlighting has been removed and the output has been listed under each event.
- Chapter 3 - News Service and Background information:
- Last paragraph: The wording has been adjusted from "Olympic Closing Ceremony" to "Closing Ceremony"

Section 1 - Outputs

General	<ul style="list-style-type: none"> The venue name has been updated ("DEODORO STADIUM") in all samples Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated
Outputs	<p>C08:</p> <ul style="list-style-type: none"> The competition format has been confirmed. The sample has been updated and the yellow highlighting has been removed. <p>C31T:</p> <ul style="list-style-type: none"> Sample: <ul style="list-style-type: none"> The athlete status for all athletes from an NOC has been adjusted to be all the same ("ENT" or "CNF") The list of team officials that should be displayed on this output has been updated <p>C33:</p> <ul style="list-style-type: none"> Sample: <ul style="list-style-type: none"> Column heading "Int. Tournaments" has been changed to "World Rugby Tournaments" Socks has been added to the "Uniform Colour" information The list of team officials that should be displayed on this output has been updated <p>C38:</p> <ul style="list-style-type: none"> Sample: Under column "Identification" a field "Status" with value "P" alternate athlete has been added and highlighted in yellow, see Action Item Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document" <p>C38C:</p> <ul style="list-style-type: none"> Scoreboard name: The max. character field "25" has been replaced by "30" (according to the "NOC long and short names document") <p>C39:</p> <ul style="list-style-type: none"> Sample: <ul style="list-style-type: none"> For TV names: Family names have been written in upper case (related CR 4933) Functions have been corrected to show event rather than match officials Description table, Comments: <ul style="list-style-type: none"> The reference to the OBS requirements document "TV Name Formats" has been added The reference has been adjusted to "ODF General Messages Interface Document" <p>C49:</p> <ul style="list-style-type: none"> It has been confirmed that INFO will include weather information. Yellow highlighting has been removed. The output has been extensively modified <p>C89:</p>

- Sample:
 - The column "Phase" has been moved after "Match No."
 - The column "Referee" has been deleted
- N02:
- The sample has been updated to describe the new competition format. Yellow highlighting has been removed.
- N17A:
- The presentation order has been adjusted to chronologically (descending)
- N20:
- Sample: The fields "Hometown" and "Points of interest" have been deleted
 - In the Description table, the following comments have been added: "For the field "Social media": Only declared public page(s) should be listed here" and "For Major Achievements show only the levels of competitions relevant for that athlete."
- N21:
- The "Rio 2016 Results" table will be included in this output. Yellow highlighting has been removed.
 - In the Description table, the following comment has been added "For Major Achievements show only the levels of competitions relevant for that coach."
- N22:
- Sample:
 - Column heading "International Matches Played" has been renamed "World Rugby Tournaments"
 - "Socks" has been added to the "Uniform Colour" information
 - The list of team officials that should be displayed on this output has been updated
 - In the Description table, the following comment has been added "For Major Achievements show only the levels of competitions relevant for that team."
- N86B:
- The sample has been updated with the latest World Rugby information
- N86G:
- The output has been deleted
- N98:
- The output has been renamed "World Rugby Dream Team"

Section 2 - Distribution Rules

Main distribution table:

- Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016
- For C08:
 - The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)"
 - Availability "4DBDIO" has been deleted
- For C35:
 - The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)"
 - Availability "3MBG" has been deleted
 - Availability "DIO" has been added
- For N91B: Availability "30MBF" has been replaced by "WPC"
- Output N86G has been deleted
- Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added

Section 3 - Real Time Information

Scoreboards

Chapter 2.1.1 - "NOC Names":

- The entire bracket in the last sentence has been deleted

Chapter 2.2 - "Technical Specifications":

- A last sentence has been added: "The content of the scoreboard screens are

defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to World Rugby's approval."

Chapter 2.3.1 - Pool Composition:

- Sample has been updated to follow the new competition format (four teams in each pool). Yellow highlighting has been removed.

Chapter 2.6.1 - Pool Standings:

- Description and sample have been updated to follow the new competition format. Yellow highlighting has been removed.

Chapter "Part E - "During the Victory Ceremony":

- The medal screen titles have been adjusted from "MEDALS" to "VICTORY CEREMONY"

Appendix A - Glossary

Chapter "Terms"

- The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download", "P alternate athlete" and "Results System Code (RSC)"
- "P alternate athlete" has been highlighted in yellow, see Action Items
- Term "Disqualification": The definition has been updated
- Term "INFO": The definition has been updated
- Term "IRB Game Analyst" has been renamed "World Rugby Game Analyst" and ordered alphabetically

Chapter "Competition Format Types"

- Different types of bracket format have been added

Appendix B - Abbreviations

- The code "IRB" and its description have been deleted

Appendix C - Rules for Data Formats and Presentation

- "Schedule status options":
 - Status options which are not applicable for Rugby Sevens have had the comment "Not applicable for Rugby Sevens" added.
 - "Schedule status options": "Live" has been changed to "Running"
- "Results status options": This item has been added
- "IRM presentation order": Presentation rules for the output C73 have been added

Appendix D - Supporting Documents

- Page 1: The bullets have been modified
- Chapter "Templates for Official Communication": Under "Summary", "8", the wording regarding the ranking has been deleted
- New chapter "Results, Medals and Diplomas" has been added
- New chapter "Data to be Captured" has been added

Release 6 - Version 1.1 - 18 Dec 2013

Global Changes

10. The output C84A has been renamed "CUMULATIVE STATISTICS"
11. The output C84B has been renamed "OVERALL TEAM STATISTICS"

 - Chapter 2.5.2.8: New chapter, "Team with fewer than seven players", to be defined by the IRB
 - Chapter 2.5.3 (and subchapters): This chapter has been extensively modified
 - Chapter 2.6: The outputs C08, C84C, C85A, C85B and C85C have been deleted
 - Chapter 2.7:
 - The outputs C08, C92C, C84C, C8C, C68 have been deleted
 - The output C93 has been added after C74
 - The output C33 has been moved after C85B in both events (Women, Men)
 - Chapter 3: The sixth and seventh paragraphs have been modified
 - Chapter 3.1: The output N17A has been added

Section 1 - Outputs

Introduction	The fifth paragraph has been updated
Outputs	<p>The following outputs have been modified:</p> <p>C08:</p> <ul style="list-style-type: none"> • Sample: The order of columns has been changed to "Date", "Start Time", "Teams", "Gender", "Phase" and "Match No." Data matrix has been updated. • Sample: Presentation of matches that have not yet been defined has been changed as follows: "1st in Pool A" now reads "A1", "Winner Match W33" now reads "Winner # W33", etc. • The second sample has been deleted <p>C31T:</p> <ul style="list-style-type: none"> • Sample: The columns "Known as" and "Position" have been deleted. Data matrix has been updated • Sample, Description Table: The abbreviations "BK" and "FW" have been removed from the Legend <p>C33:</p> <ul style="list-style-type: none"> • Sample: <ul style="list-style-type: none"> • The sample without shirt numbers has been deleted • The columns "Known as" and "Position" have been deleted • The abbreviations "BK" and "FW" have been removed from the Legend • A column "Int'l Tournaments" has been added • A row, "Team Average", has been added below all players names for the Height, Weight and Age information • Captain indication "(C)" has been added. The code has been added to the Legend. • A note has been added: "International tournaments includes number of tournaments played in IRB Sevens World Series and Rugby World Cup Sevens" • A sample has been added for team GBR with the following note, applicable to this team only: "For GBR International Tournaments refers to appearances for ENG, SCO or WAL in IRB Sevens World Series and Rugby World Cup Sevens". Note with predefined text in the Description table has been updated. • The new sample includes a DSQ • Data matrix has been updated <p>C35:</p>

- The sample has been updated with the functions given by the IRB
- C38:
- Sample column, "Identification": The field "Passport Name" has been deleted
 - Sample, column "Sport Specific": The fields "Shirt Number" and "Position" have been deleted and the fields "Captain" and "Int'l Tournaments" have been added. Legend has been added for the abbreviation "(C)".
 - Sample, column "Preferred Names": The fields "Shirt Name" and "IRB Popular Name" have been deleted
 - Description table and data matrix have been updated
- C38C:
- The post-it note has been updated
- C39:
- Sample, column "Identification": The field "Passport Name" has been deleted
 - Sample, column "Preferred Names": The field "Shirt Name" has been deleted
 - Description table and data matrix have been updated
- C48A:
- Sample: Captain indication "(C)" has been added. The code has been added to the Legend.
 - Description table: NOC has been deleted from the sorting criteria
- C48B:
- Sample:
 - Instruction text has been modified
 - Column title "Starters" has been changed to "Starters (F, B)". Codes "F" and "B" have been added to the Legend.
 - Captain indication "(C)" has been added. The code has been added to the Legend.
 - Description table: "NOC" has been deleted from the sorting criteria
- C51:
- Output has been renumbered to C51 from C51B.
 - Sample:
 - For match opponents: presentation has been changed to "NOC vs NOC"
 - Officials box has been moved to the top of the page, below the match opponents
 - Captain indication "(C)" has been added
 - Position data has been deleted for substitutes
 - "Date of Birth" has been changed to "Age"
 - A table with the matches scheduled/played has been added for each team
 - The second sample has been modified to show a player suspension and team DSQ
 - The abbreviations "(C)", "DSQ", "PR", "PL", "QF", "SF" have been added to the Legend
 - Data matrix has been updated
- C58:
- Sample: The order of columns has been changed to "Start Time", "Teams", "Gender", "Phase", "Match No." and "Officials"
 - Sample: A free text note describing a DSQ in the pool round has been added
 - Data matrix has been updated
- C67:
- The second sample has been deleted
- C73:
- Sample:
 - Officials box has been moved to the top of the page, below the match opponents

- The layout has been modified. Team tables are printed on the left side (team B below team A) and the actions table on the right.
- Team table: Captain indication "(C)" has been added
- Team table: Substitution time has been deleted from the teams table and moved to the actions table
- Team table: The "PT" column has been deleted and added as a new row, "Penalty Tries", above "Total"
- Actions table: Superscript is no longer used. "1st Half" now reads "1st Half"
- Three samples have been added to show different exceptional situations
- Legend and Data matrix have been updated

C74:

- Sample:
 - The order of columns has been changed to "Date", "Start Time", "Teams", "Phase", "Match No." and "Score"
 - Presentation of matches that have not yet been defined has been changed as follows: "1st in Pool A" now reads "A1", "Winner Match W33" now reads "Winner # W33", etc.
 - Sample: A DSQ has been added to the pool round and the knock out round
- Legend and Data matrix have been updated

C76:

- Sample: The brackets and final standings have been moved to a new page and the schedule and results for the knock out round have been moved below the pool tables
- Description table: Sorting for the pool results matrix after a team has played one match has been changed to 1 - Rank 2 - NOC code
- Description table: NOC name has been added as an additional sorting criteria for the final standings
- A sample has been added to show a disqualification in the pool round and the knock out round
- Legend and Data matrix have been updated

C84A:

- Sample:
 - The columns "PA", "K", "TA", "ER" have been deleted
 - The column "PT" has been deleted and added as a new row, "Penalty Tries", above "Total"
 - A DSQ has been added in the sample
- Legend and Data matrix have been updated

C84B:

- Sample:
 - The columns "Rank", "PA", "K", "TA", "RU", "SP" and "ER" have been deleted
 - The columns "PC" and PDiff have been added after "Pts" and the column "TC" after "TR"
 - A DSQ has been added in the sample
- Legend and Data matrix have been updated

C85A:

- Description table: The following phrase has been added in the comments field, "Every player that has scored will be listed in this output"

C85B:

- Sample: "(top 20)" has been added to the head title of each table. Top 20 players are listed and a note below each table has been added if ties would make the list exceed 20 players or if less than 20 players have met the category criteria
- Description table - Comments: Updated to describe the procedure if ties would make the list exceed 20 players or if less than 20 players have met the category criteria
- Data matrix has been updated

- C89:
- Sample:
 - Column "NOC" has been changed to "NOC Code" and moved after the column "Name"
 - An athlete has been added with two yellow cards resulting in a red card
 - Description table - Sort by: "NOC code" has been deleted. The sorting criteria now are: 1 - Family name 2 - Given name
 - Data matrix has been updated
- C92C:
- A sample has been added to show a disqualified player.
- C93:
- Sample: The shirt number has been added before the players' names
 - A sample has been added to show a disqualified player.
 - Description table: "(Women followed by Men)" has been updated to the first sorting criteria. The sorting criteria for the Results Book have been deleted.
 - Data matrix has been updated
- N02:
- Olympic Competition Format:
 - Order has been swapped to "Women's" and "Men's" events
 - Differences between the Sevens World Series and the Olympic Games: Text has been updated

Chapters 2.1, 2.2 and 3: All chapters have been updated based on the changes described in the "Procedures" and the "Distribution Rules" below

4 - Distribution Rules

- C07: Availability at "DIFO" has been deleted
- C08: Producers, availability and distribution points have been changed
- C30: This output has been deleted
- C33:
 - The "without shirt numbers" version of the output and its availability has been deleted
 - "- with shirt number" has been deleted. The output now reads "Team Roster"
 - Availability at "30MATCM" has been changed to "60MATCM"
- C35: Distribution to "Common Work Room" at "DIFO" has been deleted
- C38C: This output has been removed from the distribution table
- C48A: Availability at "48HBCTM" has been changed to "24HBCTM"
- C48B: Availability at "30HBCTM" has been changed to "60HBCTM"
- C51A: The output has been deleted
- C51: The output C51B has been renumbered to C51 and distribution to "Commentators" has been added
- C58: Availability at "30HBCTM" has been changed to "EBCD" and "10MAER" to "60MAER". Also, distribution points at "60MAER" have been added
- C66: The output and its availability have been added
- C67: Distribution to "Commentators" has been added
- C68: Availability in the "Results Book" has been deleted
- C73:
 - Availability "LIVE" has been deleted
 - Distribution to "VIP" has been added
- C74: Availability in the "Results Book" has been added
- C76:
 - Distribution to "VIP" at "10MALMD" has been added
 - Availability at "10MAER" has been added
- C84A, C84B: Distribution to "INFO (Screen format)" at "2MARA" and to "Press Centre Work Room" at "10MALMD" have been deleted
- C84C: The output and its availability have been deleted
- C85A, C85B:
 - Distribution to "INFO (Screen format)" at "2MARA"
 - Availability "10MALMD" has been deleted
- C85C: The output and its availability have been deleted
- C92C, C95: Availability in the "Results Book" has been deleted
- C93: Availability in the Results Book has been added
- N90B: Availability at "15MAPR" has been deleted
- N98: The output and its availability have been added

Section 3 - Real Time Information

Scoreboards

- 2.4.1: Leading zero has been added to the match number (i.e., M01)
- 2.4.2: "TOUCH JUDGES" has been changed to "ASSISTANT REFEREES"
- 2.4.3:
 - The screen has been updated to show players sorted by shirt number and grouped 6 on the left side and 6 on the right.
