Sport Rules and Procedures

Game Description

The main object of Water Polo is to score a higher number of goals than the opposing team in order to win the match. Water Polo is played in a pool which is 20m wide and 30m long for men, or 25m long for women. Teams of seven players, including a goalkeeper, are in the water at any one time. Six reserves are on the sideline waiting to take part in the game whenever they are substituted. Unlimited substitutions are allowed. The game is played in four quarters of eight minutes actual playing time. The clock must stop each time the referee blows the whistle. This is called "dead time". Minor fouls in dead time are considered major fouls. It is during dead time that most players get ejected from the match. Although playing time is only 32 minutes, a game usually takes a little over one hour to complete. There are two minute breaks after the 1st and 3rd period, and a five minute break after the 2nd period (half time). In Water Polo there is an added dimension - the extra player. This is when one or more players from a team are ejected from the pool for 20 seconds. This is known as power play, extra player play or six-on-five play.

Scoring Rules

In group play, teams score two points for a win, one point for a tie, and zero points for a loss or a forfeit. Teams are ranked and advance to the next competition phase based on their total points in the preliminary round.

Tie-Break Rules and Procedures

Classification in each group is based on the total number of points obtained in the preliminary round.

(a) If two teams are tied with equal points, ties will be broken as follows:

- The team winning the game between the tied teams shall be placed higher.
- If the game between them was tied, then the results against the highest placed team (or teams, if tied) in the group shall be considered, based on goal difference, and if still tied, then based on goals scored.

- If still tied, the results against the next highest placed team (or teams, if tied) shall be used in succession until all results have been considered.
- If still tied, a penalty shoot out competition will determine which team will be placed higher. Each team shall nominate five players and a goalkeeper who will participate in the penalty shoot out. The team will take five penalty shots at the goal of the other team, alternating shots. If still tied after each team has taken five shots, then teams will take sets of alternate shots until one team scores and the other does not. The penalty shoot out competition will be held following the final game of the round, or at the first practical opportunity.
- If there is more than one tie in a group, the highest placed tie shall be determined first.

(b) If three or more teams are tied with equal points, ties will be broken as follows:

- The results among the tied teams shall determine which team is placed highest.
- If, at any time during the application of this procedure (b), the highest placed team is determined and the number of tied teams is reduced to two, then the method (a) above shall be used to determine which of the two remaining teams is placed higher.
- The comparison shall be made first, upon the points of the games among the tied teams, second, upon the goal difference, and third, upon goals scored.
- If still tied, the games played against the highest placed team (or teams, if tied) shall be considered, based on goal difference, and if still tied, then based on goals scored.
- If still tied, the results against the next highest placed team (or teams, if tied) shall be used in succession until all results have been considered.
- If still tied, the teams will play penalty shoot out competition to determine which team will be placed highest. Each team shall nominate five players and a goalkeeper who will participate in the penalty shoot out. Each team will take five penalty shots at its opponent's goal in alternate succession. The first team shall take its first penalty shot and then each other team shall take its first penalty shot, etc. If still tied, the teams will then take sets of alternate shots until one or more teams score and another does not. The penalty shoot out competition will be held following the final game of the round, or at the first practical opportunity.
- If there is more than one tie in a group, the highest placed tie shall be determined first.

The above tie-breaking criteria will be applied after the preliminary round.

The group (preliminary round) tie-breaking rules might be adjusted in the summer of 2014.

During the preliminary round, the classification is based on the total number of points obtained in the group matches.

FINA will schedule any penalty shoot out competition required to break ties.

For Men's tournament:

The teams ranked 6th in each group of the preliminary round shall be ranked 11th and 12th according to the following criteria:

1. Win-loss record in their preliminary round group
2. If both teams have the same win-loss record they will be ranked by **goal average** (by division) taking into account all games played in the respective group
3. If their **goal average** is the same they will be tied for the 11th place

The teams ranked 5th in each group of the preliminary round shall be ranked 9th and 10th by applying the same criteria.

After the preliminary rounds it is necessary to determine a winner for all matches. If the score of a match is tied at the end of regular time, a penalty shoot out will determine the result.

Penalties / Disqualification Rules

Any player/team official ejected for brutality shall be suspended for a minimum of one game. If more than one brutality occurs as the result of any one incident, the player/team official involved shall be suspended for one or more matches (see FINA - Water Polo rules (Regulations for Disciplinary Actions in Water Polo at FINA Events)).

A Water Polo team, in which a player/a team official has committed a violation of doping rules shall lose all the matches in which this player/official took part.

A Water Polo team, in which more than one player/ team official has committed a violation of doping rules shall be disqualified from the tournament.

Further sanction regarding the team may be decided by FINA or the ruling body of the competition in question (FINA Doping Rules 2009 - 2013).

Protests / Appeals

Protests are possible and shall be resolved according to the FINA rules. The TWPC Commission shall consider the protest and give recommendations to the Jury of Appeal.

Jury of Appeal

The Jury of Appeal is the FINA Bureau.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

HISTORY WATER POLO

Origin of Water Polo

Water polo was one of the first team events at the modern Olympic Games, being introduced in Paris in 1900. The game was created by the London Swimming Club in 1870 and soon found support in Europe. The concept was to develop a "football-like game in water" - a sporting comparison that still remains relevant today.

Given the degree of difficulty of their game, water polo players are considered among the best conditioned athletes in the sporting arena. Ideally, players are tall with long reach. Many players start their career as competitive swimmers.

Water Polo Today

The founding of the international swimming federation in 1908 was a pragmatic response to the increase in international sporting events crowned by the Olympic Games. At the first modern Olympics in 1896, three swimming contests were held. However, no universally-accepted rules, regulations or definitions governed the swimming events.

The Olympic Games competitions prior to FINA had included a variety of unusual events such as underwater swimming (1900), 200m obstacle swimming (1900), plunge for distance (1904) and springboard diving 4m, 8m, 12m (1906). Prior to the 1908 London Olympics, where a 100m pool was used, the ocean (1896 and 1906), the River Seine (1900), and a little lake in St. Louis, USA (1904), had been used as Olympic sites.

In order to unify the rules and create a forum for international meetings, the leaders of eight attending countries (Germany, Belgium, Denmark, Finland, France, Great Britain, Hungary and Sweden) met on 19 July, 1908, at the Manchester Hotel, London on the occasion of the Games of the IV Olympiad, and resolved to form a world-wide swimming association.

Priority decisions or goals were clear: to standardise the rules for swimming, diving and water polo; to obtain control of world records and maintain an up-to-date list of these records; and finally, to ensure the direction of Olympic Games competitions for swimming, diving and water polo.

Water Polo at the Olympic Games

The first Olympic water polo gold medal was won by Great Britain in Paris in 1900. European countries such as Hungary have since dominated this sport at the international level. Between 1932 and 1956, Hungary won five of the seven Olympic gold medals awarded. The USA is the only non-European team to have won gold.

Women's water polo made its Olympic Games debut in Sydney in 2000 after the IOC agreed to admit women in 1997. The host nation ensured the success and high profile of the tournament with victory over the United States in the final with Russian Federation beating the Netherlands for the bronze medal. Capacity crowds greeted the women for every match and created a world record for water polo matches with up to 18,000 people watching the medal play-offs.

Hungary (HUN) - Italy (ITA)

RUDIC Ratko (ITA) - Coach

Feeling about the win:

"You know we are the only team to have won every game in regulation time, not including yesterday's game. Yesterday's loss to Croatia was a game that we were winning until tie. I am very satisfied with this win today. We have confirmed today that we are a strong team with high quality and character. We can win in the tough moments. This is characteristic of a strong team. I am also satisfied because my team is young and they played at very high level."

Regarding the penalty shot at the end of game:

"I did not agree with this call because the referees had whistled the end of the game. We could have protested. But for me, there is more satisfaction in winning under such difficult circumstances".

Difference between winning bronze medal versus gold medal:

"There is no difference an Olympic medal is an Olympic medal, that is the best victory."

CALCATERA Roberto (ITA) - Player

"Both teams were saddened by their losses yesterday. It was not really a nice game. It was a game played solely with the heart, not using tricks. The person who won today was the person who was able to overcome yesterday's loss."

SILIPO Carlos (ITA) - Player

"This is the hardest game I've played in. It was as enjoyable as winning the gold medal would have been. I am happy because the team won. I could score three or four or zero goals, but that doesn't matter. What matters is the team."

On the four-metre penalty with 0.2 seconds remaining:

"Those are things that happen. In sport you have to expect everything. RUDIC (ITA) told us to remain concentrated after the penalty. He said he'd never seen a call like that, so we had to keep our cool."

HORKAI Gyorgi (HUN) - Coach

"Everyone agrees that the refereeing was horrible in the game. How can you have a Yugoslavian referee work a game where one of the coaches is the ex coach of Yugoslavian National Team (RUDIC Ratko (ITA)). We played well after yesterday's disappointing loss. We were better today, but you can't beat two referees. I'm happy with how the team played today. We overcame a lot of adversity."

KASAS Tamas (HUN) - Player

Feelings on the game:

"I feel badly. It is big mistake to lose from 13-9 lead. It would not have been so bad if it hadn't happened in the second half. I don't know what happened. We lost our concentration. We had our chance to come back when we had the penalty shot. It should have given us mental inspiration. We felt very tired and we had many faults in the end."

On Italy's ability to seal the victory:

"They are a team that can concentrate. But last year at the World Cup (Atlanta, 1995) it was the same for us. We were leading 9-6 and Italy came back to tie 9-9. That time we were the ones to stand up and win the game."

"The crowd was unbelievable. It was so big and we were just loving it. It was great to have the crowd support behind us."

BAKER Guy (USA) - Coach

SPORT REVIEW

WATER POLO

News Item: 2343

Men's tournament

- The Men's tournament was all about whether Hungary could gain a third consecutive Gold medal and they did, with a 14-10 margin over the United States of America.
- For six players - Tamas KASAS, Zoltan SZECSI, Tamas MOLNAR, Peter BIROS, Gergely KISS and captain Tibor BENEDEK - Olympic nirvana has been achieved with three successive Water Polo crowns. Head coach Denes KEMENY (HU N) has been in charge each time.
- Three successive titles has been achieved once before by Great Britain in 1904, 1908 and 1912.
- The final lacked nothing as both sides provided a packed stadium with plenty to cheer as Hungary started celebrating by surging to 14-9 in the dying minutes, allowing USA to close the scoring.
- In the Bronze medal match, depleted world league champions Serbia beat former teammates Montenegro 6-4. Serbia started without scoring machine Aleksandar SAPIC and goalkeeper Denis SEFIK, who both sustained injuries late last week.
- Fittingly, Hungary and the USA topped their respective groups but not after some mathematical calculations as no team finished the five games without blemish.
- Hungary drew with European champions Montenegro in Group A and Australia were denied a draw with Hungary when their final shot in the dying seconds did not fully cross the line.
- Spain claimed second in the group with the one loss to Hungary, while Montenegro was third with a 5-5 draw against Australia - enough to keep medal hopes alive.
- In Group B, the USA had to defeat Germany in the final preliminary game, which they did, to finish top or lose and finish fourth. USA's redeeming match was victory over world champion Croatia. USA and Croatia finished equal on points but the first tiebreaker saw USA advance.
- Disgruntled Serbia finished ahead of Germany, Greece and People's Republic of China for third spot.
- In the semifinals, Hungary looked shaky before beating Montenegro 11-9 while the USA blew away Serbia 10-5.
- Spain finished off Croatia 11-9 for fifth; Greece defeated Australia 9-8 for seventh; Italy downed Germany 10-8 for ninth and Canada beat People's Republic of China 8-7 for 11th.

Women's tournament

- It was the Women's third Olympic edition and it produced a third winner with the Netherlands, so long a major force in the sport but in decline since the late 1990s, beating world champions United States of America 9-8 in the final.
- The victory was built on a magnificent seven goals from veteran Danielle DE BRUIJN (NED), who announced at the Gold-medal press conference that it was her last international match.
- She totally mesmerised the USA with her powerful and accurate shooting that came from just eight attempts.
- The game saw a third Olympic medal go to two USA players in captain Brenda VILLA and Heather PETRI following their Silver at Sydney 2000 and Bronze at Athens 2004.
- The story behind the Dutch win was that the Netherlands only finished third in their group, losing to the two teams in the Bronze-medal play-off - Hungary (11-9) and Australia (10-9).
- Australia, just like their men in the 7th to 10th semifinals, needed a penalty shootout to win their second medal after claiming Gold in Sydney 2000 Olympic Games, beating Hungary 12-11. Hungary caused a stir when levelling their group match in the dying seconds and finishing ahead of Australia on a third tiebreak.
- The USA won their group, just beating People's Republic of China 12-11 and romping home 12-7 against world league and European champions Russian Federation. The Russian Federation also suffered a 13-11 loss to People's Republic of China and had to settle for seventh place with a 12-6 win over Greece.

- People's Republic of China went on to beat Italy 10-7 for fifth place.
- The medal matches saw USA beat Australia 9-8, while the Netherlands defeated Hungary 8-7.

VALKAI sisters on opposing Water Polo teams

Beijing, 26 July - Women's Water Polo will see a rare occurrence when sisters compete against each other at the Beijing 2008 Olympic Games.

Agnes VALKAI (HUN) and her sister Erzsebet VALKAI (ITA) started playing Water Polo together on their father's team when they were just seven and eight years old.

Just four years ago, they both played on the Hungarian Water Polo team at the Athens 2004 Olympic Games finishing sixth.

In 2006, Erzsebet joined the Italian team and now it is possible that they will play against each other in the crossovers. Italy is in Group A of the eight-team competition and Hungary in Group B.

"I hope to meet her as late as possible. She is just another player. If we could meet in the final, it would be the best thing," said Agnes.

Erzsebet agreed: "I hope we can reach the final. It would be the best for us."

Agnes and Erzsebet each play different positions, but if they do meet in the pool, they will meet as opponents, not sisters.

Erzsebet added: "In that moment you do not think about it at all, you just play. After it's over, then she is my sister."

"I cannot hit her. Sometimes I might make a foul, and be like 'Hey, it's you!'" she said.

The earliest possible date that Agnes and Erzsebet could meet each other is in one of the quarterfinal matches on 5 August.

Hungary's first match will be against the Kazakhstan, while Italy will play Spain on Monday, 30 July at the Yingdong Natatorium.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood.
