

# Olympic Results and Information Services (ORIS)

## Requirements Document

### Rio 2016 - Games of the XXXI Olympiad

## Wrestling

Produced by:

- IOC - International Olympic Committee  
Château de Vidy, 1007 Lausanne, Switzerland
- UWW - United World Wrestling  
Rue du Château 6, 1804 Corsier-sur-Vevey, Switzerland
- Rio 2016 Organising Committee for the Olympic and Paralympic Games  
Rua Ulysses Guimarães, 2016  
Cidade Nova - 20211-225  
Rio de Janeiro - RJ - Brazil

**Release 6 Version 1.4**

**7 Apr 2015**

**Approved**

**Disclosure**

The material and information contained herein are provided by the IOC to be used for the purpose of preparing the infrastructure for information delivery at the Rio 2016 Olympic Games. This material and information is the property of the IOC, UWW and Rio 2016 and may not be disclosed to third parties or the general public, whether in whole or in part, without the prior written approval of the IOC. Sharing of such material and information is only permitted, under the condition of strict confidentiality, with third parties assisting in preparing the infrastructure for information delivery at the Rio 2016 Olympic Games, provided that such third parties agree to abide by the terms of this paragraph.

# Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

## 1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

## **2 ORIS Document Summary**

### **2.1 Terminology**

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

### **2.2 Document Structure**

The ORIS document is laid out as follows:

#### **2.2.1 Executive Summary**

This part of the document provides an overview of the ORIS project and the ORIS document for Wrestling. It includes information on the following topics: introduction, document content, cycle and participants.

#### **2.2.2 Wrestling References**

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

#### **2.2.3 Procedures**

This part of the document describes procedures to be followed by the OC and its partners, UWW and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

##### **2.2.3.1 Results Service and Competition Management Support**

The roles and responsibilities of UWW, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

##### **2.2.3.2 News Service and Background Information**

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of UWW, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of UWW and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

#### **2.2.4 Section 1: Printable Outputs**

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Wrestling Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

## **2.2.5 Section 2: Distribution Rules**

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
  - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
  - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
  - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
  - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

## **2.2.6 Section 3: Real Time Information**

This section defines the requirements for the presentation of real time information for scoreboards, Real Time Display System (RTDS) and sport specific real time data, as well as a reference to on screen results presentation.

### **2.2.6.1 Scoreboards**

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here. Sport specific scoreboards are also defined, when required by the UWW rules.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, UWW should approve the proposed solution.

### **2.2.6.2 Real Time Display System (RTDS)**

Requirements for real time information concerning the start order and/or current results to be displayed on monitors at the venue (supporting the competition and providing sport and media real time information), are defined in this part, including the content and timing of information.

### **2.2.6.3 Sport specific real time data**

Requirements regarding collection of sport specific real time data, are defined in this part and made available for use by certain ODF subscribers (e.g. GPS tracking data used to produce 3D graphics).

### **2.2.6.4 On screen results presentation**

This part contains references required for the development of on screen results presentation.

## **2.2.7 Appendix A: Glossary**

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

## **2.2.8 Appendix B: Abbreviations**

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

## **2.2.9 Appendix C: Rules for Data Formats and Presentation**

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## **2.2.10 Appendix D: Supporting Documents**

This appendix includes templates for the output "Official Communication" (C67)), information for results, medals and diplomas allocation as well as data to be captured.

## **2.2.11 Document Control**

This part describes all changes made in this document through its life cycle.

### **3 ORIS Project Cycle**

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

#### **3.1 Production of the Updated Version of the ORIS Document**

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Wrestling draft document, based on:
  - The last version of the ORIS Wrestling document of the previous Games
  - International Federation sport rules, competition format and requirements for these Games
  - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Wrestling meeting, the draft will be made available to the ORIS Wrestling Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Wrestling Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Wrestling document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Wrestling Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Wrestling document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

## **3.2 ORIS Document Sign-off**

UWW and the Organising Committee will sign-off the ORIS Wrestling document after all agreed changes have been implemented.

For UWW, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Wrestling competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

## **3.3 Change Management**

A Change Request should be logged if UWW or the OC requests any change which has an impact on the ORIS Wrestling document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Wrestling document.

## **3.4 Test Event**

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

### **3.4.1 ORIS Team Participation**

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (UWW, media, teams, etc.)
- To prepare required changes to the ORIS Wrestling document
- To provide support to key users and act as moderators

### **3.4.2 Test Event Review Meeting**

A Test Event review meeting will be held before the end of the Test Event with the ORIS Wrestling Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

### **3.5 Homologation Test**

The Homologation Test will be carried out in the OC lab, led by UWW and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Wrestling document. The test begins with entry data for athletes and officials, continues through the draws and with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, records, medals, etc.
- Scoreboards
- RTDS

UWW, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the UWW and WNPA reports. Those documents are then sent to the OC, UWW, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

### **3.6 IOC Technology Assistance and Observation**

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

### **3.7 Transfer of Knowledge**

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games

Questionnaires to document UWW, OC and media findings, comments and suggestions for improvement.

### **3.8      Support**

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Wrestling document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Wrestling Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

## 4 Rio 2016 ORIS Project Participants

The ORIS Wrestling project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of UWW, the OC (Sports, Media, Technology) and its IT partners.

### **The ORIS Steering Committee:**

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

### **The ORIS Management Team:**

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sports Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016, Results Technology Manager, Rio 2016 ORIS Liaison

### **The ORIS Wrestling Working Group:**

- Attends the ORIS meeting to discuss and agree on the Wrestling results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Wrestling Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Wrestling Working Group are:

- **Mr Jean-Daniel REY**, UWW, Director, Sports Department
- **Mr Sébastien GUÉNAT**, UWW, Director, IT Department
- **Mr Gilles TONOLI**, Rio 2016, Wrestling Competition Manager
- **Mr Eusébio GALVÃO**, Rio 2016, Press Services Manager
- **Mr Tassos KOUTSOGIANNIS**, Rio 2016, Cluster Venue Results Manager
- **Mr Abner LIMA**, Rio 2016, Venue Results Manager for Wrestling
- **Mr Tomas BIHARY**, Omega, Venue Manager
- **Mr Pavel BULIR**, Omega, Results Manager
- **Mr Javier ALAIX IDOATE**, Atos, Sport Analyst
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Helge STENERSEN**, IOC ORIS Sport Analyst for Wrestling

### **The ORIS project is supported by:**

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

## 1 Specifications

- Events: progression and competition format types

Event	Short Event Name	Event Phase	Progression Type	Competition Format Type
• Men's Greco-Roman 59kg	• MGR 59kg	• Qualifications	Qualification	Bracket
• Men's Greco-Roman 66kg	• MGR 66kg	• 1/8 Finals	Qualification	Bracket
• Men's Greco-Roman 75kg	• MGR 75kg	• 1/4 Finals		
• Men's Greco-Roman 85kg	• MGR 85kg	• Semifinals		
• Men's Greco-Roman 98kg	• MGR 98kg	• Repechage		
• Men's Greco-Roman 130kg	• MGR 130kg	• Finals		
• Women's Freestyle 48kg	• WFS 48kg			
• Women's Freestyle 53kg	• WFS 53kg			
• Women's Freestyle 58kg	• WFS 58kg			
• Women's Freestyle 63kg	• WFS 63kg			
• Women's Freestyle 69kg	• WFS 69kg			
• Women's Freestyle 75kg	• WFS 75kg			
• Men's Freestyle 57kg	• MFS 57kg			
• Men's Freestyle 65kg	• MFS 65kg			
• Men's Freestyle 74kg	• MFS 74kg			
• Men's Freestyle 86kg	• MFS 86kg			
• Men's Freestyle 97kg	• MFS 97kg			
• Men's Freestyle 125kg	• MFS 125kg			

- The events are presented in traditional UWW order
- Total number of events: 18
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

## 2 Competition

- Competition format

In the Wrestling competition at the Games there are two disciplines: Greco-Roman (Men's) and Freestyle (Women's and Men's).

The Greco-Roman and the Freestyle basically differ as follows:

- In Greco-Roman Wrestling, it is strictly forbidden to grasp the opponent below the belt line or to trip or to use the legs actively to perform any action
- In Freestyle Wrestling, however, it is permissible to grasp the legs of the opponent, to trip and to use the legs actively to perform any action

Double Nelsons are strictly forbidden in Women's Freestyle.

The competitions take place by direct elimination system with:

#### Pairing in the order of the numbers drawn at random

All competitions take place by direct elimination with a repechage for those wrestlers eliminated by the first and second place finalists. The ideal number of wrestlers is defined at the beginning of the competition and matches take place from the bottom of the draw.

#### All wrestlers losing against either of the two finalists contest a repechage

The repechage matches begin with the four wrestlers who lost in the first round (including in matches to obtain the ideal number) against one of the two finalists (up to the losers in the semifinals) by direct elimination. The winners of the two repechage matches will be awarded the bronze medals.

Each weight category begins and ends in a single day. The Weigh-in for each category takes place on the day before the competition.

The competition format is as follows:

- Qualifications
- Elimination rounds (1/8 finals, 1/4 finals, semifinals)
- Repechage
- Finals

If the number of wrestlers in a weight category is not ideal (i.e. 8 or 16), qualification matches will take place to reach this ideal number.

Each match has two periods of three (3) minutes with a thirty (30) second break. The winner is declared by the addition of the points scored in both periods. Technical superiority of eight points (Greco-Roman) or ten points (Freestyle) automatically leads to victory. For all the competitions the timing will run from zero (0) to six (6) minutes (2 x 3) on the mat scoreboards.

A fall automatically stops the match in any period.

If, after two (2) minutes, no wrestler has scored in Men's Freestyle and Women's Freestyle, the referee must obligatorily designate the passive wrestler.

If any match ends with a 0-0 tie in the Men's Greco-Roman, the victory will be awarded to the wrestler who was judged to be the most active at the end of the match.

#### • **Tie Break Rules**

The wrestlers of each weight category will be ranked in the following manner:

- The losers in the two bronze medals finals will be ranked 5<sup>th</sup> equal
- The classification points determine the rank of wrestlers from 7<sup>th</sup> place. In case of a ranking tie, they will be ranked by analysing the following criteria successively:
  1. The most victories by "Fall"
  2. The most match wins by superiority (8 or 10 points difference)
  3. The most technical points scored in the whole competition
  4. The fewest technical points given in the whole competition

If the place of the wrestlers cannot be determined, they will be ranked equally.

The wrestlers taking part in the Repechage rounds will also be ranked according to the classification points earned during the competition.

#### • **Venue type**

- Indoor
- Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Athletes: 344: 228 male, 108 female, plus 4 Tripartite Commission and 4 Host Country non gender places (max. 12 male and 6 female per NOC). The goal is to have 19 male and 18 female entered per weight category.
- Substitutes during competition: No

## 3 Documents

- Olympic Charter in force
- IOC Rio 2016 Host City Contract
- International Wrestling Rules, June 2013

# **Procedures**

## **1      Introduction**

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Wrestling events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

## **2 Results Service and Competition Management Support**

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

### **2.1 Pre-Games Activities**

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

#### **2.1.1 Schedules**

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the UWW Office well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once UWW and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Wrestling competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Training Schedule (C07)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

#### **2.1.2 Entries and Participant Data**

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

##### **2.1.2.1 After the Sport Entry Deadline**

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)

- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

### **2.1.2.2 Participant data verification**

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other UWW events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the output:

- Entry Data Checklist (C38)

will be produced with all name lengths to be used during the Games and given to OC Competition Management for checking and approval by the NOCs.

The approved/corrected outputs should be returned to the Venue Results Manager no later than 12:00 on the day before the first Draw.

In addition, the output:

- Entry Data Checklist - Competition Officials (C39)

will be given to the UWW Technical Delegate for checking and approval. The UWW Technical Delegate will return the approved/corrected outputs to OC Technology no later than twenty-eight (28) hours before the first Draw.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

### **2.1.2.3 Competition officials**

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the outputs "UWW Bureau Members" (C35A) and "Competition Officials" (C35B).

UWW should also provide OC Competition Management with the Referee Numbers to be displayed on the output "Competition Officials" (C35B).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- UWW Bureau Members (C35A)
- Competition Officials (C35B)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the UWW and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

### **2.1.2.4 Replacement of an athlete**

#### **2.1.2.4.1 Late athlete replacement**

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed no later than 12:00 on the day before the relevant event.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

#### **2.1.2.5 UWW unique athlete identification**

UWW maintain a unique wrestler identification, in the form "UWW-1234567890" (a 10 digit integer prefixed by "UWW-"). This is also referred to as the "UWW Licence Number".

## **2.2 Pre-Competition Activities**

After UWW officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the first Draw meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

### **2.2.1 Presenters at Victory Ceremonies**

No later than ten (10) days before the first day of competition the IOC and UWW will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

### **2.2.2 Medical Control, Weigh-in and Draw**

There are Medical Control, Weigh-in and Draw sessions for each event.

The Medical Control, Weigh-in and Draw will take place on the day before each competition day for all events scheduled on that day.

The Medical Control, Weigh-in and Draw are held at the competition venue. Media should be allowed to the site of the Draw, but they are not allowed into the Weigh-in and Draw room.

During the Draw, the audience should be able to follow the Draw as it proceeds, and it should be presented on large screens, or by other means such as projectors.

#### **2.2.2.1 Before the Medical Control, Weigh-in and Draw**

The evening before each Draw, OC Technology will produce the output:

- Medical Control, Weigh-in and Draw List (C50)

for the events to be drawn for the UWW Technical Delegate to check and approve. This approval process should be completed no later than one (1) hour before competition begins on the day of the Draw.

If changes are required, this output will be updated by OC Technology up until one (1) hour before the Medical Control and checked again by the UWW Technical Delegate.

No later than one (1) hour before the Medical Control, the UWW Technical Delegate will give the output "Medical Control, Weigh-in and Draw List" (C50) to the UWW officials in charge of the Medical Control.

#### **2.2.2.2 During the Medical Control, Weigh-in and Draw**

The Medical Control, Weigh-in and Draw process is managed by UWW in co-operation with the OC Competition Management and will take place on each day for each weight category competition that is scheduled for the next day, in a location at the competition venue back of house.

All wrestlers must pass a Medical Control and Weigh-in. The doctor and referees will sign the output:

- Medical Control, Weigh-in and Draw List (C50)

to confirm that wrestlers have, or have not, qualified for competition.

The Draw is displayed on a screen that all attendees can see.

OC Technology should be able to access the Games network at the Draw location.

It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Draw. The Draw procedure should be tested at the Test Event.

When the Medical Control and Weigh-in for a weight category is completed, those athletes who:

- Did not turn up for the Medical Control, or failed it
- Did not turn up for the Weigh-in, or failed to weigh within the prescribed limits for the category in which he is entered

will be known. They should not appear on any entry output. At this moment the number of wrestlers competing in that weight category will also be known.

### 2.2.2.3 After the Draw

Within ten (10) minutes after the Draw is completed the UWW TD will provide the OC Technology representative with the copy of the official output "Medical Control, Weigh-In and Draw List" (C50), on which reasons for failure to qualify will be identified.

Should one or more wrestlers fail the Medical Control or the Weigh-in, the UWW TD will provide OC Technology with the text to be included in the output "Official Communication" (C67). OC Technology will then produce the output:

- Official Communication (C67)

for verification by the UWW TD or the designated person. Once approved, the output will be distributed according to the ORIS distribution rules.

The OC Technology system must have the possibility to do the pairing automatically.

No later than thirty (30) minutes after the end of the Draw, OC Technology will produce the output:

- Competition Sheet (C75) - without match numbers for each weight category which was drawn on that day

for checking by the UWW Competition Secretariat Coordinator, who will then give them to the UWW TD within the following ten (10) minutes. Once approved by the UWW TD, the outputs will be distributed according to the ORIS distribution rules.

No later than thirty (30) minutes after the Weigh-in and Draw session, each day, the UWW Competition Secretariat Coordinator will provide OC Technology with data required for the outputs "UWW Competition Programme" (C58A), "Officials Assignment" (C58B) and "Session Programme" (C58C).

Data will include assignment of the weight category, round and match numbers to the particular mats during each session.

No later than thirty (30) minutes after receiving these data, OC Technology will produce the first version of the outputs:

- UWW Competition Programme (C58A)
- Officials Assignment (C58B)
- Session Programme (C58C)
- Competition Sheet (C75) - with match numbers
- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)
- Entry List by Event (C32C)

for checking by the UWW Competition Secretariat Coordinator, who will then give them to the UWW TD for approval. Once approved by the UWW TD, the outputs will be distributed according to the ORIS distribution rules.

The output "UWW Competition Programme" (C58A) should be updated for each session of every competition day. The output should therefore be updated after the first session (approximately one (1) hour after the first session ends) to include the schedule for the second session.

The outputs "Officials Assignment" (C58B) and "Session Programme" (C58C) should be updated at the end of each round (for each weight category), and after the first session (approximately thirty (30) minutes after the session ends) for the second session.

Once checked and approved by the UWW TD or the designated person, which should be within the following ten (10) minutes, four local copies will be produced (for the UWW Technical Delegate and each mat) and these outputs will be distributed according to the ORIS distribution rules.

**Note:** for the following sessions OC Technology should produce these two outputs no later than thirty (30) minutes after each session.

The same evening, the UWW TD should provide OC Technology with the officials' assignment in order to produce the first copy of the output:

- Mat Chairmen, Referees and Judges (C57)

for checking by the UWW Competition Secretariat Coordinator, who will then give it to the UWW TD for approval. Once approved by the UWW TD, the output will be distributed according to the ORIS distribution rules.

Note that this output will be reproduced only in case of changes during the Wrestling competition.

## **2.3 Results Processing**

The following procedures refer to the checking and approval of outputs by the UWW Technical Delegate. The UWW Technical Delegate may decide to designate another UWW official for this approval process.

The following procedures apply to all weight categories:

### **2.3.1 Before the start of a session**

No later than two (2) hours before the start of competition in a weight category, OC Technology will produce the output:

- Score Sheet (C65)

for the matches in the first round in that session. Two copies are required for each match, which should be printed as coloured pre-printed forms.

**Note 1:** for subsequent sessions this output (C65) will be produced at the end of each session, when wrestlers for all matches in the next session are known.

**Note 2:** before each session a "Start List Package" should be prepared for the UWW Bureau (30 sets). It should consist of the following outputs: C58A, C58C and C75. This package should be stapled together in this order.

### **2.3.2 Before each match (entering mat chairman, referee and judge numbers)**

No later than fifteen (15) minutes before a match the UWW Referee Delegate will, using the output "Officials Assignment" (C58B) provide OC Technology with the names of the mat chairman, referee and judges for this match, taking into account that they should not be from the same country as the competitors.

Once the information is entered into the system, OC Technology will return the output "Officials Assignment" (C58B) to the UWW Referee Delegate for the assignment of officials for the following matches.

### **2.3.3 During and after each match**

During each match:

- Scores and timing will be entered into the OC Technology results system by National Technical Officials at each mat, allowing OC Technology to drive field and public scoreboards and provide TV with score and time, etc.
- UWW officials will manually record required data onto the two "Score Sheets" (C65) which are strictly UWW internal documents and will not be distributed.

After each match the mat chairman will check that both score sheets are identical, enter the final results and classification points, sign the score sheets and give them to national technical officials who will give them to OC Technology.

OC Technology will first check that the two score sheets are identical and will enter missing data (final score and classification points). In case of discrepancies between the two score sheets, OC Technology should liaise with the UWW Technical Delegate, who will decide which version is correct.

OC Technology will then produce the output:

- Match Results (C73)

These outputs will be given to the UWW TD together with the original "Score Sheet" (C65) for verification and approval by signing.

Upon approval, the signed copy of the output "Match Results" (C73) is returned to OC Technology to be immediately distributed according to the ORIS distribution rules.

The UWW TD will give the one of the original copies of the output "Score Sheet" (C65) to the secretariat, and one copy to the UWW Video Crew Coordinator.

After being approved by the UWW TD, the output should be immediately distributed according to the ORIS distribution rules.

**Note:** the OC Technology results system must allow for the correction of scores. It should also allow for the fact that both wrestlers can be disqualified.

### **2.3.4 After the last match of a weight category in a round**

No later than one (1) minute after the last match in a weight category within a round is declared over, OC Technology will produce the output:

- Competition Sheet (C75)

on the field of play, to be checked by the UWW Competition Secretariat Coordinator immediately.

If required, any mistakes should be corrected, and the output reprinted and checked again. Once approved, this output will be distributed according to the ORIS distribution rules.

At the same time, as all wrestlers for the next round are known, OC Technology will produce the outputs:

- Session Programme (C58C)
- Score Sheet (C65), for the matches in the next round

for distribution according to the ORIS distribution rules. There is no need for verification by the UWW Technical Delegate.

Note that the UWW Video Crew will need four copies of the output C58C.

### **2.3.5 After the last match of a weight category in a session**

No later than one (1) minute after the last match in a weight category within a session is declared over, OC Technology will print the output:

- Session Results (C74)

for distribution according to the ORIS distribution rules.

### **2.3.6 After the end of the first session**

No later than thirty (30) minutes after the end of the first session, the UWW Competition Secretariat Coordinator will provide OC Technology with data required for the output "UWW Competition Programme" (C58A).

No later than the following thirty (30) minutes, OC Technology will produce the output:

- UWW Competition Programme (C58A), for the second session

for distribution according to the ORIS distribution rules.

### **2.3.7 Before the final match in a weight category - information about medal presenters**

No later than sixty (60) minutes before the finals the OC Protocol should provide ONS and OC Technology with the names of the medal presenter(s) and the accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

### **2.3.8 After the end of a weight category**

Once the final match in a weight category is declared over, OC Technology will, in addition to the regular outputs, produce the outputs:

- Tournament Statistics (C84A) - statistical output updated after each weight category
- Period Statistics (C84B) - statistical output updated after each weight category
- Match Statistics (C84C) - statistical output updated after each weight category
- Analysis of Scores - Individual (C84D) - statistical output updated after each weight category
- Analysis of Scores - by NOC (C84E) - statistical output updated after each weight category
- Medallists (Individual) (C92A) - new output for each weight category
- Medallists by Event (C93) - output updated after each weight category
- Medal Standings (C95) - table updated after each weight category (INFO only)
- Medal Standings by Wrestling Style (C97) - table updated after each weight category

All these outputs should be available in INFO, but their copying and distribution is heavily restricted, and carried out according to the ORIS distribution rules.

As these outputs are produced using previously checked data and software for their production, there is no need for these outputs to be checked and approved by UWW or OC Competition Management before their distribution.

### **2.3.9 After the end of the Wrestling competition**

Once all outputs for the last event have been released, OC Technology will produce the output:

- Final Classification by Event (C96)

As this output is produced using previously checked data and software for their production, there is no need for this output to be checked and approved by UWW or OC Competition Management before its distribution.

## **2.4 Common Sport Functions**

### **2.4.1 Official Communications**

The Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the UWW Technical Delegate or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or wrestler affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the UWW Technical Delegate or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

### **2.4.2 Sport Communications**

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from UWW, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

## **2.5 Exceptional Situations Handling**

For any of the following exceptional situations, the Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

### **2.5.1 Schedule Changes**

The following schedule status options are applicable to an event or event unit (session, weight category, phase or match):

#### **2.5.1.1 Delayed**

A delay may occur if a session does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

#### **2.5.1.2 Postponed**

A session did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled. If an interrupted session cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

#### **2.5.1.3 Interrupted**

A session may be interrupted if it is stopped after the start.

The time of resumption is unknown. If the session cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

The results of completed matches will be carried forward to the new date and start time. An uncompleted match may be restarted from the beginning or continue from the point of interruption.

#### **2.5.1.4 Rescheduled**

A session may be rescheduled if it cannot be held at the originally scheduled start date/time.

The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.

#### **2.5.1.5 Cancelled**

A weight category which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and UWW will decide what effect the situation would have on the competition and what actions should be taken.

If one or more event(s) is cancelled, all affected outputs (e.g. medal outputs, events summary, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added. For outputs with the indication "after x of y events", the number of events (y) will remain unchanged.

## **2.5.2 Competition Related**

### **2.5.2.1 Withdrawals after the Weigh-in and during the evening before competition**

It is possible that a wrestler, who successfully passed the Medical Control and Weigh-in, becomes ill or is injured the same evening. In that case, the UWW Technical Delegate will carry out a new pairing for that event. Depending on the time when the decision was taken, OC Technology should produce, as soon as possible, but not later than two (2) hours before competition starts, the updated version of the outputs:

- Competition Sheet (C75) - for the affected weight category
- UWW Competition Programme (C58A)
- Officials Assignment (C58B) - for the affected mat
- Session Programme (C58C) - for the affected session
- Score Sheet (C65) - for the affected weight category

All these outputs except the score sheets must be visibly marked (REVISED) to identify that they contain changes, and appropriate text explaining the reasons for the changes should be included in the last two lines of the output (as free text).

#### **2.5.2.2 Withdrawals in the morning before competition**

Should a withdrawal occur on the day of the competition, further changes are no longer possible and the opponent wrestler will win by Victory by Withdrawal (VA), and a score sheet for that match will be produced.

#### **2.5.2.3 Wrestler injured during an event**

In case of an injury before the start of a match, the opponent will be declared the winner by forfeit.

In case of an injury during a match, the opponent will be declared the winner by injury.

#### **2.5.2.4 Repetition of a match**

The repetition of a match is impossible.

### **2.5.3 Disqualifications**

#### **2.5.3.1 Disqualification from the current match**

Please refer to the International Wrestling Rules (Elimination from the Competition).

#### **2.5.3.2 Disqualification after completion of a match**

The winner of one match is disqualified before the start of the following phase: the match result is reversed and, depending of stage of the competition, the loser will progress to the next stage or will be awarded the rank of the disqualified wrestler if no progression is possible. The disqualified wrestler will be listed last on the classification with the winning code "EV".

#### **2.5.3.3 Double-disqualification during or after a Semifinal match but before the Final**

An additional Semifinal match should organised between the two wrestlers who lost against the disqualified wrestlers in the Quarterfinals.

#### **2.5.3.4 Disqualification after an event and up to three days after the Closing Ceremony**

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the Technical Delegate before distribution.

#### **2.5.3.5 Disqualification more than three days after the Closing Ceremony**

Starting from the 4<sup>th</sup> day after the Games Closing Ceremony, UWW will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or UWW. UWW is responsible for providing the updated results to the IOC.

## **2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission**

If an athlete is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on [www.olympic.org](http://www.olympic.org)).

The athlete, the athlete's NOC, UWW, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The UWW TD, or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D of this document (reference: E, 8, I, iv).

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the UWW TD, or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the UWW TD or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Wrestling competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the UWW TD during those periods before or after the Games may require that a designated person be available to cover this responsibility.

**Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant UWW and/or IOC documents and for gaining and analysing experience from other competitions.**

## 2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
  - UWW Competition Programme (C58A)
  - Officials Assignment (C58B)
  - Session Programme (C58C)
  - Competition Sheet (C75)
  - Tournament Statistics (C84A)
  - Period Statistics (C84B)
  - Match Statistics (C84C)
  - Analysis of Scores - Individual (C84D)
  - Analysis of Scores - by NOC (C84E)
  - Medallists by Event (C93)
  - Medal Standings (C95)
  - Final Classification by Event (C96)
  - Medal Standings by Wrestling Style (C97)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

## **2.7 Results Book**

The Results Book should contain the documents below, in the following order:

- Wrestling cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- UWW Bureau Members (C35A)
- Competition Officials (C35B)
- Number of Entries by NOC (C30)
- Medallists by Event (C93)
- Medal Standings by Wrestling Style (C97)

For each style (in traditional UWW order):

- Entry List by NOC (C32A)

For each weight category (in traditional UWW order):

- Entry List by Event (C32C)
- Competition Sheet (C75)
- Official Communication (C67) - if related to that weight category

At the end of the Results Book:

- Final Classification by Event (C96)

For each style (in traditional UWW order):

- Tournament Statistics (C84A)
- Period Statistics (C84B)
- Match Statistics (C84C)
- Analysis of Scores - Individual (C84D)
- Analysis of Scores - by NOC (C84E)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Wrestling competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- UWW
- All NOCs
- Accredited media

## **2.8 Daily Bulletin Protocol**

There is no need for the Daily Bulletin protocol at the Olympic Wrestling competition.

## **3 News Service and Background Information**

Data for all Biographies and Historical Results will be supplied by the IOC to the OC.

The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

UWW is currently not maintaining biographies but agrees to supply historical data as requested in ORIS, in accordance with a schedule agreed between the parties.

UWW cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from UWW and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between UWW and the third party provider. Schedules may be different depending on the type of data.

UWW wishes to validate part or all of the final data delivered by the provider. In that case, UWW and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live.

The provider will update data after final delivery as required (corrections, information updates, new records, etc.). Updates should be limited to one (1) delivery per day, and should be made outside of competition hours, except in case of error.

The IOC will act as a facilitator between UWW, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to UWW and all NOCs, in an agreed format.

### **3.1 Historical Results**

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A1)
- Results in Continental Championships (N17A2)

### **3.2 Biographies and Profiles**

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Referee/Judge Biography (N23)
- NOC Profile (N24)

### **3.3 Facts and Figures**

#### **3.3.1 Wrestling Background Information**

Data for the Wrestling background information will be developed by ONS, in cooperation with the OC Competition Management and the UWW Office well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate,

and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - UWW - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the UWW Office will immediately inform ONS who will update the information within one (1) working day.

### **3.3.2 Technical Background Information**

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the UWW Office well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the UWW Office for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the UWW Office will update the information within one (1) working day.

## **3.4 News**

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

### **3.4.1 Pre-competition News**

#### **3.4.1.1 Previews**

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Weight Category Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Wrestling Working Group recommends that ONS at the Wrestling venue produces the output:

- Sport Preview (N89), for each style

and, where practical, no later than the evening before the start of a new weight category, the output:

- Event Preview (N89)

The weight category previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

### **3.4.2 News During and After Competition**

Media covering Wrestling events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

#### **3.4.2.1 Flash quotes**

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

The English version of flash quotes needs to be distributed immediately, without waiting for translation into any other language.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

#### **3.4.2.2 Press conference highlights**

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

#### **3.4.2.3 Reviews**

ONS should produce competition highlights in the outputs:

- Event Review (N89)
- Sport Review (N89)

## **3.5 Media Communications**

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

*This page intentionally left blank.*

# Section 1 - Printable Outputs

## 1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

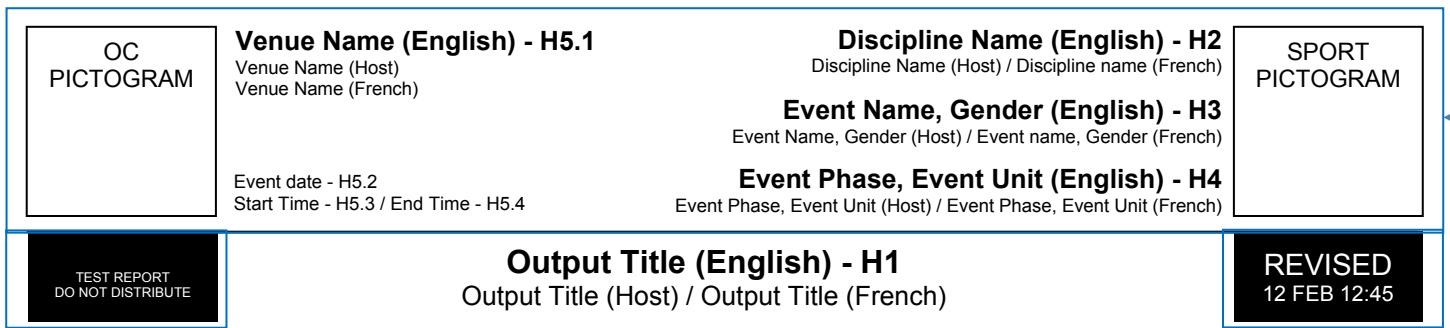

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

*This page intentionally left blank.*

## L&S - Look and Structure of Outputs

### Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

### Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

#### Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M      Mandatory

Ma     Mandatory - if applicable

Mc     Mandatory - required under conditions which are explained in the column for comments

D      Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da     Desirable, but only if such data is available

Dc     Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

## Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

## Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup> , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

## Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

<b>Jury</b>		<b>Technical Data</b>	
TD FIS	KROGOLL Peter	GER	Franz's GS
Referee	SKAARDAL Atle	FIS	1177m
Chief of Race	HOLLIDAY Bruce	CAN	805m
Start Referee	KLAMMER Herbert	ITA	372m
Finish Referee	PALOVICOVA Jana	SVK	8654/11/07

The corresponding data matrix levels are:

7 (n)	For each jury member	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	Technical data	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	HOELZL Kathrin	1984	GER	
2	205218	REBENSBURG Viktoria	1989	GER	
3	185140	POUTAINEN Tanja	1980	FIN	
4	55838	ZETTEL Kathrin	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric
11	Number of NOCs	M	Numeric
12 (n)	For each competitor	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

### Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

<b>Note:</b>	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
<b>Legend:</b>						
DH	Downhill	<b>GS</b>	Giant Slalom	<b>SC</b>	Super Combined	<b>SG</b>
SL	Slalom	<b>WCSL</b>	Overall points	<b>YB</b>	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	<b>Legend</b>		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

### Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

### Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

*This page intentionally left blank.*

# ACTIVITY LIST

## WRESTLING

**As of 1 AUG 2016**

<b>Date</b>	<b>Start Time</b>	<b>Estimated Finish Time</b>	<b>Activity</b>	<b>Location</b>	<b>Media Access</b>
FRI 5 AUG	8:00 14:00	12:00 15:00	Training Team Managers' meeting	Training Centre Venue meeting room	Open Open
SAT 6 AUG	8:00 14:00 15:15	12:00 15:00 15:45	Training Medical Control for Men's Greco-Roman 55kg / 74kg Weigh-in and Draw	Training Centre Olympic Hall 2 Olympic Hall 2	Open Closed Open

## TRAINING SCHEDULE WRESTLING

OLYMPIC HALL 2    5 AUG 2016

### **General**

Training will take place at the Redbridge Sport and Leisure Centre every day from Fri 5 Aug until Sun 14 Aug, 8:00 - 21:00.

### **Access**

Media Access is allowed if previously approved by the Site Manager, phone 123-4567. Note that special passes are required.

### **NOC Training Times**

The daily training schedule (time slot allocation per NOC) will be posted at the Venue Press Centres each evening for the following day. Note that this schedule is subject to daily changes.

Please note that time slots allocated to a particular NOC only indicate the time during which the NOC can use the training facility.

Date: \_\_\_\_\_ Time: \_\_\_\_\_ Signature: \_\_\_\_\_.

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.  
Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

**Note:**

Truncated names are indicated with an \* and must be checked carefully.

## C38 - Entry Data Checklist

Description	Detailed list of all wrestlers. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Gender (female first) 3 - Family name 4 - Given name
Page break	Break at "Condition = NOC code" with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" with repeated output headings and column headings.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available  To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the UWW/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations.  Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document").  Need ability to print the output for a single NOC.  The layout of this output may be either in portrait or landscape, as required.

## C58C - Session Programme

Description	Session programme for one session
Source	OC Technology
Sort by	1 - Mat code 2 - Match number 2 - Corner colour (red first)
Page break	Break at "Condition = Mat code" with repeated output headings and column headings. Within "Mat code" break at "Group = Short event name" with repeated output headings and column headings.
Notes	Note with static text: None Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: Class. Pts. - Classification Points MFS - Men's Freestyle MGR - Men's Greco-Roman No. - Number Res. - Results Tech. Pts. - Technical Points WFS - Women's Freestyle  To be displayed at the bottom of the page.
IRM rules	None
Comments	Session programme can include one, two or three mats.  Session numbers run from 1-N across all three Wrestling styles simultaneously.  The software should be flexible enough to also handle match numbers for different Wrestling styles running concurrently. It should therefore also be an option to have match numbers 1-N across all three Wrestling styles simultaneously.  If a match is moved from one mat to another, the original output remains unchanged.

## C65 - Score Sheet

Description	Pre-printed form for match results. UWW officials will use this output during each match to record scores and winning codes.
Source	UWW and OC Competition Management
Sort by	None
Page break	None, aim for a single page
Notes	Note with static text: none Note with predefined text: none Free text: see Appendix C - Rules for Data Formats and Presentation
Legend	None
IRM rules	None
Comments	This form is used at all UWW competitions. It should be possible to print all matches for a mat and/or session at once. Colour printouts of this form are preferred.  Session numbers run from 1-N across all three Wrestling styles simultaneously.  The software should be flexible enough to also handle match numbers for different Wrestling styles running concurrently. It should therefore also be an option to have match numbers 1-N across all three Wrestling styles simultaneously.  If a match is moved from one mat to another, the original output remains unchanged.

**OFFICIAL COMMUNICATION  
WRESTLING  
MEN'S GRECO-ROMAN 55kg**

**Item: 35**

**Schedule change**

**The Men's Greco-Roman 55kg has been rescheduled**

**Summary:**

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

**Details:**

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Wrestling Men's Greco-Roman 55kg has been rescheduled to 9:00 tomorrow.

Issued by: UWW Technical Delegate  
Time: 20:00  
Date: 14 AUG 2016

This decision affects: Results

## SPORT COMMUNICATION WRESTLING

Item: 35

### IOC Rule 50 (Reminder)

#### Manufacturer identification on clothing and equipment

##### **Summary:**

The National clothing must fully comply with IOC rule 50, in all aspects.  
This applies to all competition at the Rio 2016 Olympic Games.

##### **Details:**

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the UWW Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, UWW assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: UWW Technical Delegate  
Time: 21:10  
Date: 4 AUG 2016

## C73 - Match Results

Description	Results of one match
Source	OC Technology
Sort by	None
Page break	None, aim for a single page
Notes	Note with static text: None Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: No. - Number  To be displayed at the bottom of the page.
IRM rules	None
Comments	Match numbers run from 1-N for each Wrestling style, attributed to mat A, B then C. For Rio 2016 the plan is to complete one Wrestling style before the start of another. However, the software should be flexible enough to also handle match numbers for different Wrestling styles running concurrently. It should therefore also be an option to have match numbers 1-N across all three Wrestling styles simultaneously.  There are three samples: 1. Results presentation, decision by points - the loser with technical points 2. Results presentation, victory by withdrawal 3. Results presentation, victory by fall

# COMPETITION FORMAT AND RULES

## WRESTLING

**As of 23 JUN 2016**

### **Olympic Competition Format**

Traditional Wrestling, as practised worldwide, is subject to specific rules, and is further divided into styles. In Wrestling competition at the Games there are two disciplines: Greco-Roman and Freestyle.

The Greco-Roman and the Freestyle basically differ as follows:

- In Greco-Roman Wrestling, it is strictly forbidden to grasp the opponent below the belt line, to trip or to use the legs actively to perform any action
- In Freestyle Wrestling, however, it is permissible to grasp the legs of the opponent, to trip and to use the legs actively to perform any action

Double Nelsons are strictly forbidden in Women's Freestyle.

The competitions take place by direct elimination system with:

Pairing in the order of the numbers drawn at random

All competitions take place by direct elimination with a repechage for those wrestlers eliminated by the first and second place finalists. The ideal number of wrestlers is defined at the beginning of the competition and matches take place from the bottom of the draw.

All wrestlers losing against either of the two finalists contest a repechage

The repechage matches begin with the four wrestlers who lost in the first round (including in matches to obtain the ideal number) against one of the two finalists (up to the losers in the semifinals) by direct elimination. The winners of the two repechage matches will be awarded the bronze medals.

Each weight category begins and ends in a single day. The Weigh-in for each category takes place on the day before the competition.

The competition format is as follows:

- Qualifications
- Elimination rounds (1/8 finals, 1/4 finals, semifinals)
- Repechage
- Finals

If the number of wrestlers in a weight category is not ideal (i.e. 8 or 16), qualification matches will take place to reach this ideal number.

Each match has two periods of three minutes with a thirty second break. The winner is the wrestler who scored most at the end of the match, by the addition of the points scored in both periods. Evident superiority of eight points in Greco-Roman and ten points in Freestyle automatically leads to victory. For all the competitions the timing will run from zero to six minutes on the mat scoreboards.

A fall automatically stops the match in any period.

In the exceptional case that after two minutes in the first period, no wrestler has scored in Men's Freestyle and Women's Freestyle, the referee must obligatorily designate the passive wrestler.

If any match ends with a 0-0 tie in the Men's Greco-Roman, the victory will be awarded to the wrestler who was judged to be the most active at the end of the match.

### **Differences between UWW World Championships and the Olympic Games**

The World Championships field contains more competitors in each of the eight weight categories. At the Olympic Games, there are only six weight categories in each style.

## Changes since the London 2012 Olympic Games

The scoring system has been changed, to be cumulative over the match instead of per addition of period wins/losses. Women's Freestyle now has six weight categories (instead of 4) and there are six men's weight categories instead of seven.

## Sport Rules and Procedures

A match may be won by:

- a) A fall
- b) By injury, withdrawal, default, disqualification of the opponent
- c) By technical superiority
- d) By points

If a wrestler executes a "grande amplitude" 5 points hold, he/she will be declared the winner of the match whatever the score.

In case of a tie by points the winner shall be declared by successively considering: the highest value of holds; the lowest number of cautions; and the last technical points scored.

A wrestler receiving three cautions during a match is disqualified.

## Tie Break Rules

The wrestlers of each weight category will be ranked in the following manner:

- The losers in the two bronze medals finals will be ranked 5<sup>th</sup> equal
- The classification points determine the rank of wrestlers from 7<sup>th</sup> place. In case of a ranking tie, they will be ranked by analysing the following criteria successively:
  1. The most victories by "Fall"
  2. The most match wins by superiority (8 or 10 points difference)
  3. The most technical points scored in the whole competition
  4. The fewest technical points given in the whole competition

If the place of the wrestlers cannot be determined, they will be ranked equally.

The wrestlers taking part in the Repechage rounds will also be ranked according to the classification points earned during the competition.

## Penalties / Disqualification Rules

Each match should have a winner, as mentioned earlier, except in the case of a double disqualification.

## Protests / Appeals

No protest may be lodged after the end of a match, only the result obtained on the mat counts.

On each mat a Jury of Appeal, made up of three members of the UWW Bureau, is responsible for ensuring that no serious administration, timing or scoring mistake has been made by the Refereeing Body during the match.

The coordinator of this Jury of Appeal must bring any case detected to the attention of the mat chairman and ask for its rectification before the winner of the match, is declared.

Under no circumstances may the results of a match be modified.

During a match, a coach acting on behalf of his athlete, and with his/her agreement, is allowed to ask for one video replay (Challenge) on the public video board in case of disagreement with the Refereeing body. The match is interrupted during this review. In case of a positive outcome of the review, the score will be corrected and the team will retain the right to call for another challenge.

## Officials

In all competitions, the technical officials for each match shall consist of the following Refereeing Body:

- 1 Referee
- 1 Judge
- 1 Mat chairman

Replacement of an official during a match is strictly prohibited, except in the case of a serious illness that is medically confirmed. In no case may two officials be of the same nationality. Furthermore, it is strictly forbidden for an official to officiate in matches involving compatriot wrestlers.

## Mat details

The UWW approved mat is 9 metres in diameter.

The following terms are used to explain the various parts of the mat:

- The interior part of the mat lying within the red band will be called the central Wrestling area (7 metres in diameter)
- The red band: passivity zone (1 metre in width)
- The border: protection area (1.5m in width)

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

## REFEREE/JUDGE BIOGRAPHY

### WRESTLING

**As of 10 AUG 2016**

#### **Profile**

<b>Name:</b>	JACKSON Kevin
<b>Gender:</b>	Male
<b>NOC code</b>	USA
<b>Date of birth:</b>	28 JAN 1970
<b>Wrestling career:</b>	US team for 8 years
<b>Year of appointment as international Referee:</b>	2011
<b>Number of times refereed in Olympic Games:</b>	2
<b>Occupation:</b>	Wrestling Coach
<b>Language(s) spoken:</b>	English

#### **Career highlights**

He officiated at the 2008 Olympic Games in Beijing. (2008.nbcolympics.com, 21 Aug 2008)

#### **Major achievements as an athlete**

He competed in the men's light heavyweight wrestling competition at the 1996 Olympic Games in Atlanta, eventually finishing 10th. He also competed at both the World and European Championships in 1994 and 1995. (sports-reference.com, 2012)

#### **General Interest**

Jackson is considered one of the greatest Freestyle wrestlers in U.S. history, winning a gold medal at the 1992 Olympic Games in Barcelona, Spain, and claiming UWW World Championship gold medals in both 1991 and 1995. Jackson is one of only five U.S. wrestlers to claim three career world-level titles.

### Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

## HISTORY WRESTLING

### Origin of Wrestling

With a recorded history dating back over 5000 years to ancient Egypt, to watch modern Wrestling is to observe antiquity itself. Probably originated from hand-to-hand combat, Wrestling is the oldest known organised sport. Believed to be the most popular sport of the ancient Greeks, young men belonged to palestras, as the focal point of their social life. Illustrations of Wrestling on Greek vases and coins were common throughout the period of ancient Greece.

Wrestling was contested in the Olympic Games of 776 BC, and was on the programme of the first modern Olympic Games in Athens in 1896.

### Wrestling Today

UWW (United World Wrestling) rules world amateur Wrestling. Today there are two disciplines in Olympic Wrestling, Greco-Roman and Freestyle. The main difference between them is that Greco-Roman strictly forbids the competitor grasping the opponent below the belt line, to tip an opponent, or to use legs actively to perform any action, whereas with Freestyle all the above are permitted. The first World Championships were held in 1904 Vienna (Greco-Roman) and in 1951 Helsinki (Freestyle).

### Wrestling at the Olympic Games

Wrestling had its Olympic debut at the 1896 Games held in Athens. It has since been part of every Olympic Games except in Paris in 1900. Both styles have been held since 1920. Prior to that only one form was used, except in 1908. Three wrestlers have won gold medals in both styles: Kaarle ANTTILA (FIN), Ivar JOHANSSON (SWE), Kristjan PALUSALU (EST).

Only four wrestlers have won three gold medals at the Olympic Games, they are: Ivar JOHANSSON (SWE), Carl WESTERGREN (SWE), Alexandr MEDVED (Soviet Union), Alexander KARELIN (RUS). MEDVED is the only one with three gold medals in Freestyle. KARELIN is the only one to have won his three gold medals in the same body weight category, i.e. super heavyweight.

### Wrestling in Brazil

<TBD>

## FACILITY DESCRIPTION WRESTLING

<b>Facility name:</b>	Olympic Hall 3
<b>Location:</b>	Rio Olympic Park
<b>Address:</b>	One Western Gateway, Royal Victoria Dock
<b>History:</b>	<p>Rio Olympic Park is an existing exhibition and conference centre in Rio's Docklands which first opened in November 2000. It has hosted more than 3,500 events and welcomed more than 10 million visitors from more than 200 different countries.</p> <p>In May 2008 Rio Olympic Park was acquired by Abu Dhabi National Exhibitions Company and an expansion to the site - taking event space to nearly 100,000 square metres - was completed in May 2010.</p> <p>Notable events at Rio Olympic Park include the Rio Boat Show, Brazil International Motor Show, Rio International Music Show and Star Wars Celebration.</p> <p>Before Rio Olympic Park the area was a working dock which specialised in tobacco, South American beef, New Zealand lamb, citrus fruit and bananas. It was opened by Prince Albert in 1855 and was the first to use hydraulic cranes and lifts to raise ships. Traffic through the dock reached its peak in the middle of the 20th century but after rapid decline was closed in 1981.</p>
<b>Distance from:</b>	<p>Estimated travel time from the Media Transport Mall on Olympic Park: approximately 10-15 minutes, running at 30-minute intervals</p> <p>Estimated travel time from the Media Transport Hub in Bloomsbury: approximately 35-40 minutes, running at 30-minute intervals</p>
<b>How to get there:</b>	...
<b>Other sports at this venue:</b>	None
<b>Construction area:</b>	...
<b>Spectator capacity:</b>	3,800 seats
<b>Air conditioning:</b>	No
<b>Lighting levels:</b>	1500 lux/3200 degrees Kelvin
<b>Generic facilities available at the competition venue:</b>	...
<b>General information:</b>	This Hall is normally used for exhibitions and fairs, one of which is the very popular "Boat Show"
<b>Post Games use:</b>	Rio Olympic Park will revert to its role as one of Brazil's largest exhibition spaces
<b>Altitude:</b>	16m

## MEDIA INFORMATION WRESTLING

### Facilities

The Venue Media Centre (VMC), located on the south-east side of Olympic Hall 3, will provide comprehensive high-level service for accredited media. The media reception desk is located near the venue media entrance. If you need any help or information, please go to the reception.

The Press Tribunes comprise of 138 tabled seats and 78 non-tabled seats. Tabled seats have basic equipment consisting of CATV monitors, power outlets and phone connections. Accredited journalists may order fixed telephone, ADSL, WLAN internet access, wireless INFO access and additional equipment via the Press Rate Card. The seats are allocated according to the principle of "First Come, First Serve".

### Interviews

The press section of the Mixed Zone is located in a corridor next to the Press Workroom. As there is no direct view of the Field of Play, two monitors are installed in this area. Only journalists with HB, RT, E, EP and ENR accreditation cards are allowed to enter the mixed zone to interview the athletes. Journalists may meet wrestlers in the mixed zone as the wrestlers exit the competition area. Any interview in the mixed zone is not allowed to last more than 1 minute.

The Press Conference Room is on the opposite of the Press Workroom with a capacity of 100 seats, close to the Mixed Zone. Consecutive interpretation is provided.

### Photographer positions

There are 80 photo positions, 28 of which are in the Field of Play.

### Sub-Centre

The Press Workroom, with 150 workstations, is located on the west side of Olympic Hall 3, media entrance. Eighty lockers are provided free of charge for journalists working in this room. The Press Workroom is equipped with INFO2012 terminals, printers, internet access, pay phones, pay fax machines, CATV monitors, pigeonholes, power outlets and press lockers.

The Photo Workroom for 30 photographers is close to the media entrance, equipped with INFO2016 terminals, a printer, internet access, pay phones, pay fax machines, CATV monitors, pigeonholes, power outlets and special-sized lockers.

### Venue Press Manager

The Venue Press Manager is David Smith, assisted by Alan Moore (field of play), Mark Hughes (information services), Chris Bates (photographers) and Peter Jones (sub-centre). Please call (801) 234-5678 to reach the sub-centre Help Desk.

**FLASH QUOTES  
WRESTLING  
MEN'S FREESTYLE 125kg**

**News Item: 117**

**TAYMAZOV Artur (UZB) - Gold**

***On his victory:***

"I have prepared for this moment for a long time. Nothing except a gold medal can satisfy me".

***On competing at three Olympic Games:***

"I think I cannot compare my three Olympics. Each Olympics was difficult for me. I would like to give this gold medal to my country people, and to those who love me, trust me and respect me. I'm very happy I did not disappoint them".

**AKHMEDOV Bakhtiyor (RUS) - Silver**

***On how his strategy worked:***

"I was wrestling according to a good tactical plan, however I committed several mistakes. Maybe there was a lack of physical preparedness and experience. Nevertheless, it's a little bit early to give an overall assessment of my performance here in London".

**MUSULBES David (SVK) - Bronze**

***On his Bronze medal victory:***

"It doesn't matter what colour the medal is. I have trained for this competition for a long time. What keeps driving me to perform is my love for Wrestling".

## QUOTES OF THE DAY

News Item: 117

### A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

*Givenname FAMILYNAME (NOC) on the sights in the Olympic Village*

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

*Gold medallist Givenname FAMILYNAME (NOC) on her latest victory*

"There are a lot of countries here. I don't even know where half of them are on the map."

*The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)*

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

*Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)*

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

*Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games*

"I did not concentrate on my opponent. I only concentrated on my coach."

*Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost*

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

*Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)*

**PRESS CONFERENCE HIGHLIGHTS  
WRESTLING  
MEN'S FREESTYLE 125kg**

**News Item: 119**

**TAYMAZOV Artur (UZB) - Gold**

***On whether the tradition of Wrestling is still alive in Russia, the country of his birth:***

"I can say very briefly the result is there for all to see. The reason I said this was because since time immemorial, countries like Russia, Turkey and Iran have always fought each other".

**AKHMEDOV Bakhtiyor (RUS) - Silver**

***On whether the coach's advice helped in the final:***

"This is the final of the Olympic Games and it is a serious experience and serious struggle for everyone. The Olympics brings its own surprises and is always unpredictable".

***On whether the format, with the bouts taking place in one day, is too gruelling after some wrestlers collapsed today:***

"This is a very tiring competition, but I think the rules are the same for everyone. But bear in mind that Wrestling is a man's sport. It is natural to have bruises and injuries but when you set an aim and head towards this aim this is something that will be achieved".

**MUSULBES David (SVK) - Bronze**

***On whether the tradition of Wrestling is still alive in Russia, the country of his birth:***

"I think it is all very good. We are all young men, and we pursue the same dream. We all train and struggle from day to day. We all have had an excellent day, and if all the other sports achieve a similar friendly result, it would be good".

## SPORT PREVIEW WRESTLING

### News Item: 1

- Armen NAZARIAN (BUL) and Buvaysa SAYTIEV (RUS) will be seeking their third Olympic gold medals when Wrestling competition gets under way on Tuesday.
  - Gold medals for NAZARIAN or SAYTIEV in London will place them among the greats of Olympic Wrestling. Only four wrestlers have managed to win three Olympic Gold medals in Wrestling - Carl WESTERGREN (SWE), Ivar JOHANSSON (SWE), Alexander MEDVED (URS) and, most recently, Alexandre Kareline (URS, EUN, RUS).
  - NAZARIAN will be competing at 60kg when the Men's Greco-Roman style kicks off at the ExCeL on Tuesday and SAYTIEV will take to the mats at 74kg on the second day of Men's Freestyle, 24 July.
- ...

#### Men's Greco-Roman

- In addition to NAZARIAN's bid for a third Olympic gold medal, five gold medal winners from the Athens 2004 Olympic Games come to London in hopes of striking gold again, but only two - Farid MANSUROV (AZE) at 66kg and Aleksey MISHIN (RUS) at 84kg - return to the Olympic mats as reigning world champions.
- JUNG comes in as a world bronze medallist at 60kg and Khasan BAROEV (RUS) as the Silver medallist at 120kg. Karam IBRAHIM (EGY), however, has struggled under the new rules, in place since 2005, and was only able to secure his place in London with a win at the second Olympic qualification tourney at the end of May.
- At 55kg, Hamid SORYAN (IRI) will seek to cap his run of three straight World Championship titles with the gold medal in a category composed solely of Olympic first-timers.

#### Women's Freestyle

- Japanese wrestlers won four medals - two gold, a silver and a bronze - in Athens, where women's Wrestling made its Olympic debut. The same quartet has returned in a bid to improve on that mark.
  - Saori YOSHIDA (JPN) had her 119-match international winning streak snapped earlier this year, but Japanese coaches are confident they have addressed the problems that led to her loss.
- ...

#### Men's Freestyle

- Russian wrestlers won six world titles at the 2007 World Championships and are among the gold medal favourites in each of the seven weight categories.
- Only SAYTIEV and Mavlet BATIROV (RUS) were on the Russian team in Athens that bagged five medals overall, including three Gold.
- BATIROV was the Gold medallist at 55kg in Athens but has moved up to 60kg, where he won the world title last year in Baku, Azerbaijan. However, the 24-year-old will still likely face a strong challenge from Athens Gold medallist Yandro QUINTANA (CUB) and 2006 world champion Seyedmorad MOHAMMADI (IRI).

 Date: 5 AUG 2016

**EVENT PREVIEW**  
**WRESTLING**  
**MEN'S GRECO-ROMAN 60kg**

**News Item: 23**

- Armen NAZARIAN (BUL) seeks his third Gold medal in Olympic Wrestling and a place among the sport's all-time greats when competition in Men's Greco-Roman's 60kg category is held at ExCeL on Tuesday, 2 August.
- Reigning world champion David BEDINADZE (GEO) may well have a say in whether NAZARIAN will be able to slot in behind Alexandre KARELINE (RUS) as the second-most successful wrestler in the history of Greco-Roman Wrestling at the Olympic Games.
- KARELINE won three Gold medals and a Silver in four Olympic Games. NAZARIAN currently owns a pair of Gold medals and a Bronze, placing him fifth among Greco-Roman wrestlers at the Olympic Games.

**Favourites**

- NAZARIAN, 34, won gold medals at the Atlanta 1996 Games (for Armenia) and Sydney 2000. He had to settle for a Bronze medal at Athens 2004.
- NAZARIAN has also won the world championships three times (2002, 2003, 2005) along with two Silver and three Bronze medal showings, and has won the European championships six times to make him one of the most decorated wrestlers in the history of Greco-Roman Wrestling.
- NAZARIAN was Silver medallist at the 2008 European championships, which was good enough to qualify for the Beijing 2008 Olympic Games.
- BEDINADZE, 23, won the world title last year after a Silver medal in 2006.
- BEDINADZE was the 60kg winner of this year's Greco-Roman World Cup meet in Szombathely, Hungary.

**Challengers**

- JUNG Jihyun (KOR), 25, won the gold medal in Athens after defeating NAZARIAN in the semifinals, and was Bronze medallist in last year's world championships.
- Roberto MONZON (CUB), 30, is the Athens Silver medal winner and 2003 world runner-up, but finished a distant 22nd in last year's world championships after a loss to SHENG Jiang (CHN) in the round of 16.
- Makoto SASAMOTO (JPN), 30, was runner-up in last year's world championships and Asian Games champion in 2006.
- SASAMOTO has been bothered by a number of injuries all year, but came up with a win against MONZON in the German Grand Prix meet in June.
- Eusebiu DIACONU (ROU), 27, is a three-time world Bronze medallist and was European champion in 2007.
- Davor STEFANEK (SRB), 22, is Wrestling in his second Olympics and was junior world champion in 2005. He was also the Bronze medallist in this year's European championships.

**Also ...**

- NAZARIAN's Gold medal in Atlanta remains Armenia's only Gold medal in Olympic Wrestling.
- BEDINADZE's home of Georgia, which enjoyed considerable Wrestling success as part of the Soviet Union, is still waiting for its first Gold medal in Olympic Wrestling.
- STEFANEK will be seeking Serbia's first medal in Olympic Wrestling, although wrestlers from Yugoslavia have won three Gold and 12 medals overall in the past.

## EVENT REVIEW WRESTLING MEN'S GRECO-ROMAN 60kg

### News Item: 75

- Former junior world champion Islam-Beka ALBIEV (RUS) fashioned a 2-0 (2-0, 4-0) win over Vitaliy RAHIMOV (AZE) on Tuesday to claim Russia's second Gold medal of the Wrestling competition at the London 2012 Olympic Games.
- ALBIEV, the junior world champ in 2006, rolled RAHIMOV over for back exposure in both periods of the 60kg final on the first day of Greco-Roman Wrestling at ExCeL.
- In the first Bronze medal match, reigning Asia champion Ruslan TIUMENBAEV (KGZ) claimed Kyrgyzstan's first Olympic medal in Wrestling with a 2-0 (8-0, 3-0) win over Athens 2004 Silver medallist Roberto MONZON (CUB).
- Nurbakyt TENGIZBAYEV (KAZ), Asia champion in 2006, scored a late gut wrench to defeat 2006 Asian Games silver medallist SHENG Jiang (CHN), 2-1 (4-1, 1-2, 3-0) for the second Bronze medal.

#### Also ...

- Armen NAZARIAN (BUL) opened his bid for a third Olympic Gold medal with wins over world champion David BEDINADZE (GEO) and world No 2 Makoto SASAMOTO (JPN) before falling to RAHIMOV in the 1/4 finals.
- NAZARIAN also lost in Repechage to SHENG 2-0 (4-1, 6-0) and missed out on a medal for the first time in four trips to the Olympic Games. He finished in seventh place.
- JUNG Ji-Hyun (KOR), the Athens 2004 gold medallist, lost to TENGIZBAYEV in the 1/4 finals and finished ninth.

## SPORT REVIEW

### WRESTLING

**News Item: 15**

- Buvaysa SAITIEV (RUS) won an historic third Olympic Gold medal in Men's Freestyle at the London 2012 Olympic Games, sealing Russia's domination of the competition, winning six of the total 18 Gold medals on offer at ExCeL.

#### Men's Greco-Roman

- Russian youngsters Nazyr MANKIEV (RUS) and Islam-Beka ALBIEV (RUS) opened the Wrestling competition with surprise Gold medals in the 55kg and 60kg categories respectively. ALBIEV, at 19 years 7 months, 15 days, became the youngest wrestler to win an Olympic Gold in Greco-Roman Wrestling.
  - Unfortunately, Armen NAZARIAN (BUL) came up short in his bid at 60kg for a third Olympic Gold medal, failing to win a medal for the first time in four appearances at Olympic Games. Hamid SORYAN (IRI) was also unable to convert three world championship titles into Olympic Gold at 55kg.
  - Steeve GUENOT (FRA) won France's first Gold medal in Greco-Roman in 74 years with an inspired performance at 66kg, while his older brother Christophe GUENOT (FRA) took a Bronze medal at 74kg, signalling a resurgence for France in the sport.
- ...

#### Women's Freestyle

- Japan came into the Women's competition in London with the same quartet that won two Gold medals, a Silver and a Bronze in Athens, where Women's Wrestling made its Olympic debut. They won the same medals in Beijing.
  - Saori YOSHIDA (JPN) and Kaori ICHO (JPN) had little trouble repeating at 55kg and 63kg, although ICHO needed a last-second counter point to defeat Martine DUGRENIER (CAN) in the semifinals.
  - Chiharu ICHO (JPN) defeated Athens 2004 champion Irini MERLENI (UKR) in the 1/4 finals, but was outmanoeuvred and out-wrestled in the 48kg final by Carol HUYNH (CAN), who won Canada's first Gold medal in Olympic Women's Wrestling.
- ...

#### Men's Freestyle

- A big surprise and then no surprise at all came on the opening day of the Men's Freestyle events as Henry CEJUDO (USA), 31st in the world in 2007, and Athens gold medallist (at 55kg) Mavlet BATIROV (RUS) won the Gold medals at 55kg and 60kg, respectively.
  - Ramazan SAHIN (TUR) added Olympic Gold medallist to his collection of titles, that include world and European champion, at 66kg, and 33-year-old Buvaysa SAYTIEV (RUS) joined the list of Wrestling greats by winning his third Olympic gold medal at 74kg.
  - SAYTIEV's Gold puts him level with Alexander MEDVED (URS) as the only other freestyle wrestler to have won three Olympic Gold medals. Alexandre KARELINE (RUS) and Carl WESTERGREN (SWE) have won three Gold medals in Olympic Greco-Roman, while Ivar JOHANSSON (SWE) won gold medals in Freestyle and Greco-Roman in 1932 and a third in Greco-Roman in 1936.
- ...

## NEWS ARTICLE

News Item: 96

### Cuban wrestlers have high hopes for medals

Cuban wrestlers and coaches have high hopes for medal glory in the London 2012 Olympic Games to follow up their medal success in the 2011 world championships in Istanbul.

Among them is Mijain LOPEZ NUNEZ, the dominating wrestler since 2008 in the 120kg category in Greco-Roman style. Two other world medallists are among the 12 wrestlers who will compete for Cuba in London. Both the coaches and the wrestlers are aiming high in the Olympic tournament, as they explained after their first training session at the Redbridge Sport and Leisure Centre.

National team coach for Greco-Roman wrestling Pedro VAL said that he hopes for two medals. Four-time 120kg world champion Mijain LOPEZ NUNEZ carries the biggest hopes, while he considers the medallists in the 2010 and 2011 Greco-Roman world championships, Pedro Isaac MULENS HERRERA and Pablo Enrique SHOREY HERNANDEZ, to have a good chance of winning.

The athletes themselves are also confident that they can win medals.

Livan LOPEZ AZCUY, who won a medal in freestyle wrestling in the 2011 world championships, said: "I have improved my wrestling since last year, so I am in better shape than in the 2011 world championship, where I captured the bronze medal. But all the wrestlers in the 66kg category are very strong and belong in the international top (competition). I will not underestimate any one of them."

Katerina VIDIAUX LOPEZ, who is the first Cuban athlete in female wrestling at an Olympic Games, changed from judo to wrestling to become an Olympian in 2012. "In Cuba we have had no female wrestling for many years. In 2006 I registered for my first wrestling competition, still as a judo player. But since that first wrestling experience I have focused on that sport. In the 2010 world championship in Moscow I was close to a medal, but ranked fifth at the end. So my dream for the Olympic tournament is to return home with a medal."

## IOC NEWS

**News Item: 168**

### **Wrestling: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation**

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Wrestling Men's Greco-Roman 55kg of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Wrestling:
  - (i) is disqualified from the Men's Greco-Roman 55kg of the Rio 2016 Olympic Games where he placed 7th;
  - (ii) shall have his diploma in the above-mentioned event withdrawn; and
  - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. UWW is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.
- V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

# Section 2 - Distribution Rules

## 1 Introduction

This section explains what Wrestling information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Wrestling. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of UWW and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, UWW office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

## 2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. all weight categories).

## 2.1 Competition - Results Processing for all Weight Categories (men and women)

### 2.1.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code
<b>Before the Medical Control, Weigh-in and Draw</b>

## 3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

### 3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code
<b>Official Communications - produced at any time before, during or after competition</b>				
After each jury decision	(IOC, TD, CM, ...)	Text for official communication	OVR	--

## 4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Wrestling sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

## 5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day UWW and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EOD	End of day
FA	For archiving
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xEBC	X (x) evening(s) before the start of competition
xEBCD	X (x) evening(s) before a competition day
xMA1S	X (x) minute(s) after the end of the first session
xMAC	X (x) minute(s) after the competition
xMAD	X (x) minute(s) after the draw
xMAE	X (x) minute(s) after the event
xMAFA	X (x) minute(s) after the results of the final are approved
xMAJ	X (x) minute(s) after each jury or other official body decision
xMALBR	X (x) minute(s) after the last match of a round in a weight category
xMALFD	X (x) minute(s) after the last final of the day
xMALFS	X (x) minute(s) after the last final in each style
xMAMRA	X (x) minute(s) after medal match results are approved
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes / a press conference
xMARA	X (x) minute(s) after the results are approved
xMAWC	X (x) minute(s) after a weight category has finished
xMBSC	X (x) minute(s) before the start of competition for a weight category
xMLBSA	X (x) minute(s) after the last match for a weight category in a session is approved

# **Section 3 - Real Time Information**

## **1 Introduction**

This section of the document defines scoreboard layouts, Real Time Display System (RTDS) screens, sport specific real time data available through ODF and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between UWW and the OC (and providers).

*This page intentionally left blank.*

## **2 Scoreboards**

### **2.1 General Rules**

#### **2.1.1 NOC Names**

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

#### **2.1.2 Athletes and Officials' Names**

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

### **2.2 Technical Specifications**

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to UWW's approval.

## 2.3 Part A - During a session

### 2.3.1 Competition standings - all mats

What: Screen shows status for matches in progress (for all mats) for a given style with mat, weight category code, match number, round, for each wrestler: scoreboard name, NOC code, technical points (updated in real time), win indicator (shown when the winner is declared).

For subsequent matches: mat, scoreboard name and NOC code of each wrestler.

If only one mat is used: event name, match number (use "Gold Medal Match" or "Bronze Medal Match" if applicable), for each wrestler: scoreboard name, NOC code, technical points (updated in real time) and win indicator (shown when the winner is declared) (see sample c below).

If two simultaneous bronze medal matches take place: event name and for each mat: match number (use "Bronze Medal Match"), mat, for each wrestler: scoreboard name, NOC code, technical points (updated in real time) and win indicator (shown when the winner is declared) (see sample d below).

When: During a session (matches in progress).

Shown at the discretion of venue production.

How: Dynamic screen, updated real time for each match. Subsequent matches should be scrolled up from the bottom as the competition progresses.

If a mat is not used (empty) it should be presented as blank on the scoreboard (results of the previous match are cleared after a certain time).

a) Sample with all mats in use:

A	59KG	MOON MYONG S.	KOR	0
123	QUAL	TANABE CHIKARA	JPN	4
B	59KG	ZUUNBAYAN T.	MGL	2 W
125	QUAL	TAYEBI KERMANI	IRI	0
C	59KG	HENSON SAMUEL	USA	5
126	QUAL	KARNTANOV A.	GRE	0
----- NEXT MATCHES -----				
A	GARCIA	CUB--DONBAEV	KGZ	
B	ABDULLA	AZE--JIN J.	PRK	
C	ZUUNBAY	MGL--TAYEBI	IRI	

b) Sample with empty mat:

A	59KG	MOON MYONG S.	KOR	0
123	QUAL	TANABE CHIKARA	JPN	4
-----				
C	59KG	HENSON SAMUEL	USA	5
126	QUAL	KARNTANOV A.	GRE	0
----- NEXT MATCHES -----				
A	GARCIA	CUB--DONBAEV	KGZ	
B				
C	ZUUNBAY	MGL--TAYEBI	IRI	

c) Sample for Finals (one mat used):

MEN'S GRECO-ROMAN 59KG GOLD MEDAL MATCH
MOON MYONG SEOK                    KOR 0 TANABE CHIKARA                    JPN 4 W

d) Sample for two simultaneous Bronze medal matches:

MEN'S GRECO-ROMAN 59KG BRONZE MEDAL MATCH MAT A
MOON MYONG SEOK                    KOR 0 TANABE CHIKARA                    JPN 4 W
-----
BRONZE MEDAL MATCH MAT B
HENSON SAMUEL                    USA 0 KARNTANOV AMIRAN                    GRE 4

### **2.3.2 Road to the Final**

What: Screen shows the progression of a wrestler to reach the Finals with event name, screen title, for each wrestler: scoreboard name, NOC code, phase, opponent's scoreboard name and NOC code.

Note: Display "QUAL." only if a Qualification phase took place. Display "BYE" if no opponent for a match

When: Before a Final

How: Static screen

MEN'S GRECO-ROMAN 59KG ROAD TO THE FINAL		
BARAMONTES FREDERICO	ESP	
SEMIFINAL:	NNNNNNN F.	NOC
1/4 FINALS:	NNNNNNN F.	NOC
1/8 FINALS:	NNNNNNN F.	NOC
QUAL.	NNNNNNN F.	NOC

### **2.3.3 Final results**

What: Screen shows final results by event with event name, screen title, for each wrestler: rank, scoreboard name and NOC code.

Note: sort by rank and NOC code.

When: After finals at the discretion of venue production

How: Scroll through all wrestlers

MEN'S GRECO-ROMAN 59KG FINAL RESULTS		
1	BARAMONTES FREDERICO	ESP
2	SCHEIBE JUERGEN	GER
3	KARNTANOV AMIRAN	GRE
3	HENSON SAMUEL	USA
5	TAYEBI KERMANI BEHNAM	IRI
5	TANABE CHIKARA	JPN
7	ZUUNBAYAN TUMENDEMBEREL	MGL
8	MOON MYONG SEOK	KOR

## **2.4 Part B - During the Victory Ceremony**

### **2.4.1 Presenters**

- What: Screen shows the presenters with event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function.  
Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", etc.).
- When: As the dignitary is introduced before the ceremony
- How: Single screen

MEN'S GRECO-ROMAN 59KG VICTORY CEREMONY
PRESENTER: MR THOMAS BACH - GER IOC PRESIDENT
ACCOMPANIED BY: MR NENAD LALOVIC - SRB UWW PRESIDENT

### **2.4.2 Medallists - Individual**

- What: Screen shows list of medallists with event name, screen title. For each medallist show medal type, scoreboard name, NOC code.
- When: During the ceremony
- How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

MEN'S GRECO-ROMAN 59KG VICTORY CEREMONY
GOLD      SIM KWON HO                    KOR
SILVER     RIVAS LAZARO                  CUB
BRONZE    PAULSON BRANDON                USA
BRONZE    YADAV PAPPU                    IND

If the medallists are presented one by one, use the following order:

As the first bronze medallist is presented:

MEN'S GRECO-ROMAN 59KG VICTORY CEREMONY
BRONZE    YADAV PAPPU                    IND

As the second bronze medallist is presented:

MEN'S GRECO-ROMAN 59KG	VICTORY CEREMONY
------------------------	------------------

BRONZE	PAULSON BRANDON	USA
BRONZE	YADAV PAPPY	IND

As the silver medallist is presented:

MEN'S GRECO-ROMAN 59KG	VICTORY CEREMONY
------------------------	------------------

SILVER	RIVAS LAZARO	CUB
BRONZE	PAULSON BRANDON	USA
BRONZE	YADAV PAPPY	IND

As the gold medallist is presented:

MEN'S GRECO-ROMAN 59KG	VICTORY CEREMONY
------------------------	------------------

GOLD	SIM KWON HO	KOR
SILVER	RIVAS LAZARO	CUB
BRONZE	PAULSON BRANDON	USA
BRONZE	YADAV PAPPY	IND

### 3 Real Time Display System

#### 3.1 Part A - Before/during competition/session

##### 3.1.1 Current and next matches

What: Screen shows all mats with mat identification, current and subsequent matches with match number, round, short event name, red/blue indicator, NOC code and family name  
When: Before/during competition/session  
How: Updated real time if any changes.  
Colours/blinking can be used to indicate who is current and who is next (current is blinking, next bout is highlighted).  
Graphic icons may be used to indicate red and blue wrestler.

MAT A	MAT B	MAT C
CURRENT MATCH 134 1/4 BUL-YORDA   SYR-KHALED MGR 75KG	CURRENT MATCH 135 1/4 KAZ-DYUSENHOV   PER-BASALDIJA MGR 75KG	CURRENT MATCH 153 1/4 USA-BLOGGS   AUS-JONES MGR 98KG

## **4 Sport Specific Real Time Data**

All data elements presented in this section are supplementary to the data elements defined in Section 1 - Printable Outputs and other sections of the ORIS Wrestling document. The data elements listed here may be useful for other sport specific real time data presentation (e.g. live screens on websites).

### **4.1.1 Match duration**

- A match is made of two periods of three (3) minutes with a break of thirty (30) seconds. The timing clock starts at zero.

Frequency: at start, stop and after each score update

### **4.1.2 Score updated**

Frequency: when the score changes.

### **4.1.3 Video Replay request and outcome**

- Triggered when a review is requested. Includes the athletes who requested the review and the concerned wrestler(s).
- Triggered when the outcome is known: include wrestler(s), Accepted / Rejected, penalty update (positive or negative), remaining challenges.

*This page intentionally left blank.*

## **5      On Screen Results Presentation**

Some screens will be updated in real time whenever new information becomes available (e.g. score change). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including match results, competition sheet, statistics, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

*This page intentionally left blank.*

# Appendix A - Glossary

## 1 Terms

The specific terms used in the ORIS Wrestling document are defined as follows:

Term	Definition
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter). At the Olympic Games, Wrestling counts two disciplines: Greco-Roman and Freestyle.
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Draw	This is a public random draw carried out by UWW for all weight categories before competition starts.
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)  See "Wrestling References" for the list of events.
UWW Competition Secretariat Coordinator	A UWW official based on the field of play who manages the Competition Secretariat. Among other activities, the UWW Competition Secretariat Coordinator provides the information needed to establish the daily programmes, and checks the competition sheets.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be

Term	Definition
	accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Judge	A judge is responsible for all of the duties stipulated in the general rules of Wrestling. Sitting opposite the Mat Chairman, a judge awards points for each action, operates the judge display board and records points on the score sheet.
Jury of Appeal	The Jury of Appeal is formed by the UWW officiating commission or designated substitute. The Jury of Appeal is responsible for ensuring that all rules governing a wrestling match have been applied by the refereeing body before the winner of the period, or match, can be declared by the mat chairman.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Mat Chairman	The Mat Chairman is the chief of the refereeing body for a particular match (officiating together with a referee and a judge).
Match	The event unit. A match between red and blue competitors. Two periods with a thirty (30) second rest between each period.
Olympic Data Feed (ODF)	The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc. ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.). The ODF technical specifications are available at: <a href="http://odf.olympictech.org">http://odf.olympictech.org</a> .
Olympic Games	"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)
	The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.
Olympic News Service (ONS)	The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every

Term	Definition
	<p>session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.</p>
Phase	<p>Also called Round. A step in the progression of the competition.</p>
	<p>See "Wrestling References" for the list of competition phases.</p>
Rank	<p>Placing in an event. Wrestlers are ranked according to UWW rules.</p>
Referee	<p>The Referee is responsible for the orderly conduct of the match on the mat, which he or she must direct according to the rules.</p>
Referee Delegate	<p>There are two Referee Delegates nominated from the Refereeing Body. During the competition, the Referee Delegates are responsible for deciding which referees must attend the Weigh-in/draw and must be present themselves. They also assign the referees to each mat, assign the mat chairmen, and assign the referees to the matches by draw.</p>
Refereeing Body	<p>The Refereeing Body is composed of the mat chairman, a judge and a referee, and is designated for each match. Refereeing Body members are all International Technical Officials.</p>
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> <li>• DD: Discipline code</li> <li>• G: Gender</li> <li>• EEE: Event Code</li> <li>• P: Phase</li> <li>• UU: Event Unit</li> </ul>
Session	<p>A stage of a competition. At the Games, there are two sessions per day.</p>
Sport	<p>A sport is administered by an International Federation and may be composed of one or more disciplines.</p>
Sport Entries and Qualification (SEQ)	<p>A service provided by the OC Sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC</p>
(Wrestling) Style	<p>Wrestling, is divided into three styles:</p> <ul style="list-style-type: none"> <li>- Men's Greco-Roman</li> <li>- Women's Freestyle</li> <li>- Men's Freestyle</li> </ul>

Term	Definition
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided to the Technical Officials." (as per Olympic Charter)
Tripartite Commission	<p>The Tripartite commission is composed of:</p> <ul style="list-style-type: none"> <li>• The IOC</li> <li>• The Association of National Olympic Committees (ANOC)</li> <li>• The Association of Summer Olympic International Federations (ASOIF)</li> </ul>
	<p>The main objective of the Tripartite Commission is to allocate Invitation Places to a number of NOCs without or with few athletes qualified, allowing them to participate in the Olympic Games, in order to strengthen the principle of universal representation.</p>
Venue Results Manager (VRM)	<p>The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).</p>
Video Crew	<p>On each mat, a video camera is operated by an official to allow any replay if requested by a coach on behalf of a wrestler during a match. A Video Coordinator coordinates this crew.</p>

## 2 Specifications

### 2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none"><li>Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.</li></ul>	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none"><li>Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.</li></ul>	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	<ul style="list-style-type: none"><li>Artistic Gymnastics (team), Equestrian (team), etc.</li></ul>	G
Team	Team competition (group of players forming one side in Team sports)	<ul style="list-style-type: none"><li>Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.</li></ul>	T

### 2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	<ul style="list-style-type: none"><li>Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc.</li><li>Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.</li></ul>
Single phase	All participants compete for a ranking in one event phase/unit	<ul style="list-style-type: none"><li>Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.</li></ul>
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	<ul style="list-style-type: none"><li>Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc.</li><li>Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.</li></ul>

## 2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	<ul style="list-style-type: none"> <li>Measurements (time, weight, distance, height, etc.)</li> <li>Scores</li> <li>Judges' decisions (points, etc.).</li> </ul>
Pool	Group of several participants, competing against each other in a round robin	<ul style="list-style-type: none"> <li>Points</li> </ul>
Bracket	<p>Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected (e.g. "Bracket with direct elimination" in Tennis, "Bracket with classification" in Water Polo, "Bracket with repechage" in Judo).</p> <p>Bracket types:</p> <ul style="list-style-type: none"> <li>Bracket with direct elimination (e.g. Boxing)</li> <li>Bracket with direct elimination, classification and finals (e.g. Water Polo)</li> <li>Bracket with direct elimination and finals (e.g. Tennis)</li> <li>Bracket with direct elimination, repechage and finals (e.g. Judo)</li> </ul>	<ul style="list-style-type: none"> <li>Win/Loss</li> </ul>
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	<ul style="list-style-type: none"> <li>Addition of results (points, times)</li> </ul>

# Appendix B - Abbreviations

The following abbreviations are used in the ORIS Wrestling document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
<b>CIS</b>	Commentator Information System
<b>cm</b>	centimetre
<b>CM</b>	Organising Committee Competition Management
<b>D</b>	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
<b>Da</b>	Desirable, but only if such data is available
<b>Dc</b>	Desirable under conditions which are explained in the column for comments
<b>DRM</b>	Delegation Registration Meeting
<b>ft</b>	feet
<b>IBC</b>	International Broadcasting Centre
<b>ID</b>	Identification number
<b>IDS</b>	Information Diffusion System
<b>IF</b>	International Federation
<b>in</b>	inch
<b>IOC</b>	International Olympic Committee
<b>IRM</b>	Invalid Result Mark
<b>IT</b>	Information Technology
<b>kg</b>	kilogramme
<b>lb</b>	pound
<b>m</b>	metre
<b>M</b>	Mandatory
<b>Ma</b>	Mandatory - if applicable
<b>Mc</b>	Mandatory - required under conditions which are explained in the column for comments

<b>TD</b>	Technical Delegate
<b>TEC</b>	Technology
<b>UWW</b>	United World Wrestling
<b>VC</b>	Video Crew (Recording bouts on each mat)
<b>VPC</b>	Venue Press Centre
<b>VRM</b>	Venue Results Manager
<b>WC</b>	World Cup
<b>WCH</b>	World Championships
<b>WNPA</b>	World News Press Agencies
<b>WR</b>	Wrestling

# Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## 1 Wrestling Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Wrestling event presentation order	Please see "Wrestling References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none"><li>• Unscheduled Not visible on the schedule, optional (e.g. tie breaker if applicable)</li><li>• Scheduled The start time is known</li><li>• Getting_Ready At time x before start - "x" is defined by Olympic Broadcasting Services (OBS)</li><li>• Running In progress</li><li>• Scheduled_Break Planned break (e.g. end of period). Not applicable for Wrestling.</li><li>• Finished All action on the field of play is complete</li><li>• Delayed Did not start as scheduled, should start in the current ticketing session</li><li>• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present</li><li>• Interrupted Unplanned interruption after the start, and is expected to resume in the current ticketing session</li><li>• Rescheduled The new date and start time are known</li><li>• Cancelled Will not take place at these Games</li></ul>
Results status options	<ul style="list-style-type: none"><li>• Start List Start list has been created</li><li>• Live In progress</li><li>• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change. Not applicable for Wrestling.</li><li>• Partial The results and ranking of the athletes who have completed their performance are not subject to change by the results of athletes still competing.</li><li>• Unconfirmed Activity on the field of play is complete but there is no results status update yet. Not applicable for Wrestling.</li><li>• Unofficial Results are available but not approved.</li></ul>

	<ul style="list-style-type: none"> <li>Official</li> <li>Protested</li> </ul> <p>Results are approved</p> <p>The competition is no longer in progress and a protest has been lodged.</p> <p>Not applicable for Wrestling.</p>																																				
Invalid Results Marks (IRM)	<p>There are no IRMs used in this sport. The result of a bout is presented as a Win Code and the traditional IRMs (DNF, DNS and DSQ) are included in the set of possible Win Codes.</p> <p>Please note that a wrestler disqualified after the competition should be included in the final classification (without rank) - listed as "EV".</p> <p>A wrestler who lost a bout by forfeit ("VF" to the opponent) cannot compete in the repechage and is included in the final classification (without rank) - listed as "EV"</p>																																				
IRM presentation order	N/A																																				
Winning Codes	<table border="1"> <thead> <tr> <th>Code</th><th>Classification Points</th><th>Description</th></tr> </thead> <tbody> <tr> <td>VT</td><td>5:0</td><td>Victory by fall</td></tr> <tr> <td>VA</td><td>5:0</td><td>Victory by withdrawal</td></tr> <tr> <td>VB</td><td>5:0</td><td>Victory by injury</td></tr> <tr> <td>VF</td><td>5:0</td><td>Victory by forfeit</td></tr> <tr> <td>EV</td><td>5:0</td><td>Disqualification from the whole competition due to infringement of the rules</td></tr> <tr> <td>EX</td><td>5:0</td><td>Three "0" cautions for rule infringements (for the entire match)</td></tr> <tr> <td>ST</td><td>4:0</td><td>Great superiority - the loser without points</td></tr> <tr> <td>SP</td><td>4:1</td><td>Victory by technical superiority with the loser scoring technical points</td></tr> <tr> <td>PP</td><td>3:1</td><td>Decision by points - the loser with technical points</td></tr> <tr> <td>PO</td><td>3:0</td><td>Decision by points - the loser without technical points</td></tr> <tr> <td>E2</td><td>0:0</td><td>Both wrestlers have been disqualified from the match due to infringement of the rules</td></tr> </tbody> </table>	Code	Classification Points	Description	VT	5:0	Victory by fall	VA	5:0	Victory by withdrawal	VB	5:0	Victory by injury	VF	5:0	Victory by forfeit	EV	5:0	Disqualification from the whole competition due to infringement of the rules	EX	5:0	Three "0" cautions for rule infringements (for the entire match)	ST	4:0	Great superiority - the loser without points	SP	4:1	Victory by technical superiority with the loser scoring technical points	PP	3:1	Decision by points - the loser with technical points	PO	3:0	Decision by points - the loser without technical points	E2	0:0	Both wrestlers have been disqualified from the match due to infringement of the rules
Code	Classification Points	Description																																			
VT	5:0	Victory by fall																																			
VA	5:0	Victory by withdrawal																																			
VB	5:0	Victory by injury																																			
VF	5:0	Victory by forfeit																																			
EV	5:0	Disqualification from the whole competition due to infringement of the rules																																			
EX	5:0	Three "0" cautions for rule infringements (for the entire match)																																			
ST	4:0	Great superiority - the loser without points																																			
SP	4:1	Victory by technical superiority with the loser scoring technical points																																			
PP	3:1	Decision by points - the loser with technical points																																			
PO	3:0	Decision by points - the loser without technical points																																			
E2	0:0	Both wrestlers have been disqualified from the match due to infringement of the rules																																			
Time format	<p><b>Duration of bout:</b> M:SS      <b>Time of day:</b> HH:MM</p> <p>Times are displayed in 24 hour format, without leading zeros</p>																																				
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros      "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder      "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##0.00 becomes 4.23      E.g. 004.23 in the format 00.00 becomes 04.23</p>																																				
Points format	#0 #0:#0																																				
Final classification	<p>After completion of an event (weight category), wrestlers are ranked as follows:</p> <ol style="list-style-type: none"> <li>The winner of the final match will be ranked 1<sup>st</sup>, and the loser will be ranked 2<sup>nd</sup></li> <li>Winners of the bronze medal matches will be ranked tied 3<sup>rd</sup>, losers will be ranked equal 5<sup>th</sup></li> </ol>																																				

	<p>3. Remaining wrestlers (including wrestlers who took part in the repechage) are ranked from 7<sup>th</sup> place and downwards based on classification points</p> <p>4. If two or more wrestlers have the same number of classification points and the tie break rules cannot separate them, they will be ranked equally</p> <p>Tied wrestlers: Rank 1-5: 1 - Rank 2 - Branch name ("Upper branch" followed by "Lower branch") Rank 7-N: 1 - Rank 2 - Family name 3 - Given name</p>																								
Height/Weight formats	<p><b>Height (metric):</b>      <b>Height (imperial):</b>      <b>Weight (metric):</b>      <b>Weight (imperial):</b></p> <table style="margin-left: 100px;"> <tr><td>0.00m</td><td>0ft #0in</td><td>##0.00kg</td><td>##0.00lbs</td></tr> <tr><td>#00cm</td><td>0'#0"</td><td>##0.0kg</td><td>##0.0lbs</td></tr> <tr><td>0.00</td><td></td><td>##0kg</td><td>##0lbs</td></tr> <tr><td>##0</td><td></td><td>##0.00</td><td>##0.00</td></tr> <tr><td></td><td></td><td>##0.0</td><td>##0</td></tr> <tr><td></td><td></td><td>##0</td><td></td></tr> </table> <p>If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". Presentation of ties	<p>Medal presentation</p> <ul style="list-style-type: none"> <li>All medals will be shown even if tied: e.g. 1 GOLD FAMILYNAME Givenname 2 SILVER FAMILYNAME Givenname 3 BRONZE FAMILYNAME Givenname 3 BRONZE FAMILYNAME Givenname</li> <p>Results</p> <ul style="list-style-type: none"> <li>The primary rank (first column) must show a rank (if tied, repeat rank).</li> <li>Secondary rank(s), if any will be repeated, with an "=" sign if there is sufficient space.</li> <li>The bronze medallists are sorted as they appear on the Competition Sheet (upper branch followed by lower branch)</li> </ul> </ul>																								

## 2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, UWW, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> <li>• dd MMM yyyy (e.g. 6 APR 1896)           <ul style="list-style-type: none"> <li>• dd: date format, for example: 23 or 5 (presented without leading zero)</li> <li>• Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case)</li> <li>• DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case)</li> <li>• Mmm: month in abbreviation format - mixed case, for example: Apr for April</li> <li>• MMM: month in abbreviation format - upper case, for example: APR for April</li> <li>• yyyy: year format, for example: 1896</li> </ul> </li> <li>• The "As of date" may reflect one of the following:           <ul style="list-style-type: none"> <li>• Date when data has been collected (e.g. world ranking)</li> <li>• Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics)</li> <li>• Logical date if applicable</li> </ul> </li> <li>• Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8)</li> </ul> <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> <li>• When the complete output fits on a single page, "None, aim for a single page" is written</li> <li>• For multi-page outputs, there are three cases:           <ol style="list-style-type: none"> <li>1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:               <ul style="list-style-type: none"> <li>• Not controlled with repeated output headings and column headings</li> <li>• Not controlled with repeated column headings only</li> <li>• Not controlled without repeated output headings and/or column headings</li> </ul> </li> </ol> </li> </ul>

	<p><b>2. Forced page break by "Group":</b></p> <p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Group" with repeated output headings and column headings</li> <li>• Break at "Group" with repeated column headings only</li> <li>• Break at "Group" without repeated output headings and/or column headings</li> </ul> <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p><b>3. Forced page break by "Condition":</b></p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Condition" with repeated output headings and column headings</li> <li>• Break at "Condition" with repeated column headings only</li> <li>• Break at "Condition" without repeated report output headings and/or column headings</li> </ul> <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> <li>• "None" is specified if no abbreviations are used in the output</li> <li>• If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> <li>• Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend)</li> <li>• If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table</li> <li>• If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed</li> <li>• The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"</li> </ul> </li> </ul>
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> <li>1. Note with static text: <ul style="list-style-type: none"> <li>• If "Note with static text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated</li> </ul> </li> </ol>

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> <li>• If "Note with predefined text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition</li> </ul> <p>3. Note with free text:</p> <ul style="list-style-type: none"> <li>• Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output</li> </ul>
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

# Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

## 1      Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

<b>Event</b>	Affected event name (see "References" for list of events)
<b>Gender</b>	Event gender indication (men, women), if applicable
<b>Phase</b>	Affected stage of competition (e.g. quarterfinals, repechage, etc.), if applicable
<b>Unit</b>	Specification of the phase (e.g. bout, etc.), if applicable
<b>Subtitle</b>	One line space for describing the reason for the Official Communication
<b>Summary</b>	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
<b>Details</b>	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
<b>Issued by</b>	Initiator's (name and) function
<b>Date</b>	Date of decision as provided by the person issuing the Official Communication
<b>Time</b>	Time of decision as provided by the person issuing the Official Communication
<b>Note</b>	If needed, contact details for further information can be added here (as a Note)
<b>Signature</b>	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

The French translation of the English text can be included in the row "Details". This will ensure that the PDF version of the Official Communication includes both languages.

## OFFICIAL COMMUNICATION (empty form)

<b>Event</b>			<b>Gender</b>	
<b>Phase</b>		<b>Unit</b>		
<b>Subtitle</b>				
<b>Summary</b>				
<b>Details</b>				
<b>Issued by</b>				
<b>Date</b>	(dd MMM yyyy)	<b>Time</b>	(HH:MM)	
<b>Further information</b>

Affects Others:

## OFFICIAL COMMUNICATION (possible templates)

<b>Subtitle</b>	A	<Bout/Session/...> has been delayed
	B	<Bout/Session/...> has been postponed
	C	<Bout/Session/...> has been interrupted
	D	<Bout/Session/...> has been rescheduled
	E	<Bout/Session/...> has been cancelled
	F	Jury decision: <...>
	G	UWW decision: <...>
	H	Accident of FAMILYNAME Givenname (NOC)
	I	Wrestling: IOC disqualifies FAMILYNAME Givenname (NOC)
	J	Bad weather conditions
	K	...

<b>Summary</b>	1	The <...> had to be delayed due to <...>. It is expected that the delay should not be longer than nn minutes.
	2	The <...> had to be postponed due to <...>. The new start time of the <...> is unknown at the moment. Further details will be communicated as soon as available.
	3	The <...> had to be interrupted due to <...>. Further details will be communicated by the UWW as soon as available.
	4	The <...> had to be rescheduled due to <...>. The new date and start time is dd?? Mmm?? yyyy?? at HH:MM.
	5	The <...> had to be cancelled due to <...>. The <...> will not be held during these Games.
	6	FAMILYNAME Givenname (NOC) submitted a protest related to <...>
	7	FAMILYNAME Givenname (NOC), Bib No. <...> was disqualified for <...> (UWW rule <...>)
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a> <i>If the disqualified athlete is among medallists:</i> The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. The medallists are now: FAMILYNAME Givenname (NOC), gold, FAMILYNAME Givenname (NOC), silver, and FAMILYNAME Givenname (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a>

<b>Issued by</b>	I	UWW Technical Delegate
	II	Wrestling Competition Manager

<b>Further information</b>	i	For more details contact the UWW Office
	ii	For more details contact the UWW Technical Delegate
	iii	For more details contact the OC Competition Manager
	iv	For more details consult <a href="http://www.olympic.org">www.olympic.org</a>

**Note: Authors of this ORIS document do not imply that this is a complete list of Official Communications templates.**

## 2 Results, Medals and Diplomas

### 2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

### 2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Wrestling.

Eligible athletes:

- Men's/Women's events: Athletes listed on the results bracket

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/Diploma	Event Type	
	Individual	
Gold	• 1	
Silver	• 1	
Bronze	• 2 (winners of repechage)	
Diploma	• 8	

### 2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
<b>If the gold medallist is disqualified</b>			
4		FAMILYNAME 1 Givenname 1	NOC 1
2	1	FAMILYNAME 2 Givenname 2	NOC 2
3	3	FAMILYNAME 3 Givenname 3	NOC 3
3	3	FAMILYNAME 4 Givenname 4	NOC 4
5	5	FAMILYNAME 5 Givenname 5	NOC 5
5	5	FAMILYNAME 6 Givenname 6	NOC 6
7	7	FAMILYNAME 7 Givenname 7	NOC 7
8	8	FAMILYNAME 8 Givenname 8	NOC 8
9	9	FAMILYNAME 9 Givenname 9	NOC 9
10	10	FAMILYNAME 10 Givenname 10	NOC 10

Note: Only ranks within the group that the disqualified athlete reached is/are re-calculated; other athletes keep their ranking.

ORIS reference output:

- Final Classification by Event (C96)

Note: The software must be flexible enough to handle medal allocations as decided by the UWW and/or the IOC.

### **3 Data to be Captured**

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
UWW Licence Number	Text	SEQ	Provided by UWW
Type of Qualification	<ul style="list-style-type: none"><li>• Continental Qualification Tournament (CQT)</li><li>• Host Country Place (HCP)</li><li>• International Qualification Tournament (IQT)</li><li>• Tripartite Commission Place (TPC)</li><li>• World Championships (WCH)</li></ul>	SEQ	
Qualifying Rank	Integer	SEQ	Only for World Championships

# Document Control

## Version History

<b>Release 6 Version 1.4</b> 7 Apr 2015	<b>Approved version</b> Updated with Change Request 5392 based on comments and feedback from the UWW
<b>Release 6 Version 1.3</b> 27 Feb 2015	<b>Approved version</b> Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux
<b>Release 6 Version 1.2</b> 19 Dec 2014	<b>Approved (signed-off) version</b> Sign-off letters from both the UWW (29 January 2015) and Rio 2016 (30 January 2015) have been received by the IOC.  No further changes will be made to this document without Change Management except topics highlighted in yellow.
<b>Release 6 Version 1.2</b> 19 Dec 2014	<b>Submitted for sign-off</b> Updated with feedback from UWW on action items after the ORIS meeting related to output C75 and additional comments received from Omega
<b>Release 6 Version 1.1</b> 28 Apr 2014	<b>Submitted for sign-off</b> Updated with comments received in the review period after the ORIS meeting and feedback from UWW on action items
<b>Release 6 Version 1.0</b> 26 Mar 2014	<b>Submitted for review</b> Submitted for review after the ORIS Wrestling meeting, 28 - 30 Jan 2014. Based on the ORIS Wrestling meeting minutes as of 30 Jan 2014.
<b>Release 6 Version 0</b> 2 Dec 2013	<b>Draft</b> Updated based on ORIS document release 5, analysis of the London Questionnaire and issues logged as Rio 2016 improvements during the London Homologation Test

## Release 6 - Version 1.4 - 7 Apr 2015

### Section 1 - Outputs

#### Outputs

C75:

- Sample: Explanation of bracket and a list of victory types has been included in the upper right corner of the bracket
- The legend has been deleted

## Release 6 - Version 1.3 - 27 Feb 2015

### Global Changes

1. The new output "Entries by Event" (C31C) has been introduced.  
Affected documents: Procedures, Distribution Rules.
2. The output "Minimum / Maximum" (N86G) has been removed throughout the document.  
Affected documents: Procedures, Distribution Rules.
3. All appropriate references to "Live screens in INFO" have been adjusted to

	<p>"On Screen Results Presentation".  Affected documents: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").</p>
<b>Executive Summary</b>	<p>Chapter 2.2.4:</p> <ul style="list-style-type: none"> <li>In the second paragraph, the text has been updated regarding the presentation of column headings in outputs</li> </ul>
<b>Wrestling References</b>	<p>Chapter 1 - Specifications</p> <ul style="list-style-type: none"> <li>Events: progression and competition format types: In the column "Competition Format Types" the definition has been adjusted</li> <li>Events: progression and competition format types: In the last bullet below the table, the reference sentence has been adjusted</li> </ul>
<b>Procedures</b>	<p>Chapter 2.1.1 - "Schedules":</p> <ul style="list-style-type: none"> <li>The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony</li> </ul> <p>Chapter 2.1.2 - "Entries and Participant Data":</p> <ul style="list-style-type: none"> <li>The paragraph has been modified</li> </ul> <p>Chapter 2.1.2.1 - "After the Sport Entry Deadline":</p> <ul style="list-style-type: none"> <li>The first paragraph has been modified</li> </ul> <p>Chapter 2.1.2.3 - "Competition Officials":</p> <ul style="list-style-type: none"> <li>The text has been modified</li> </ul> <p>Chapter 2.1.2.4 - "Substitution of a Games participant":</p> <ul style="list-style-type: none"> <li>The title has been changed to "Replacement of an athlete"</li> </ul> <p>Chapter 2.1.2.4.1 - "Late athlete replacement":</p> <ul style="list-style-type: none"> <li>The text in the chapter has been modified</li> </ul> <p>Chapter 2.2.2.2 - "During the Medical Control, Weigh-in and Draw":</p> <ul style="list-style-type: none"> <li>A paragraph starting "It is the responsibility of the OC to ensure ..." has been added.</li> </ul> <p>Chapter 3 - "News Service and Background information"</p> <ul style="list-style-type: none"> <li>Last paragraph: The wording has been adjusted from "Olympic Closing Ceremony" to "Closing Ceremony"</li> </ul>
<b>Section 1 - Outputs</b>	
<b>General</b>	<ul style="list-style-type: none"> <li>Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated</li> <li>For N-outputs: All titles above tables or any other sub titles have been written in mixed case</li> </ul>
<b>Outputs</b>	<p>C06:</p> <ul style="list-style-type: none"> <li>In the sample and description table, the term has been changed to "Victory Ceremony" (instead of "Medal Ceremony")</li> </ul> <p>C30:</p> <ul style="list-style-type: none"> <li>The source has been changed from "OC Competition Management" to "OC Technology"</li> </ul> <p>C31A:</p> <ul style="list-style-type: none"> <li>The column heading "NOC" has been adjusted to "NOC Code"</li> </ul> <p>C38:</p> <ul style="list-style-type: none"> <li>Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added</li> <li>Description table, Comments: The reference has been adjusted to "ODF"</li> </ul>

	<p>General Messages Interface Document"</p> <p>C39:</p> <ul style="list-style-type: none"> <li>• Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added</li> <li>• Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"</li> </ul> <p>N15:</p> <ul style="list-style-type: none"> <li>• The order of the columns in the second table has been changed</li> <li>• Description table, Comments: The text has been updated</li> </ul> <p>N20:</p> <ul style="list-style-type: none"> <li>• In the Description table, the following comments have been added "For the field "Social media": Only declared public page(s) should be listed here" and "For Major Achievements show only the levels of competitions relevant for that athlete."</li> </ul> <p>N86B:</p> <ul style="list-style-type: none"> <li>• The sample has been updated with the latest UWW information</li> </ul>
--	---

## Section 2 - Distribution Rules

Main distribution table:

- Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016
- For C08: The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)"
- For C35A and C35B: The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)"
- Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added

## Section 3 - Real Time Information

### Scoreboards

Chapter 2.1.1 - "NOC Names":

- The entire bracket in the last sentence has been deleted

Chapter 2.2 - "Technical Specifications":

- A last sentence has been added: "The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to UWW's approval."

Chapter 2.4 - "Part B - During the Victory Ceremony":

- The medal screen titles has been adjusted from "MEDALLISTS" to "VICTORY CEREMONY"

## Appendix A - Glossary

Chapter 1 -"Terms"

- The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download" and "Results System Code (RSC)"
  - Term "Disqualification": The definition has been updated
  - Term "INFO": The definition has been updated
- Chapter 2.3 - "Competition Format Types"
- Different types of bracket format have been added

## Appendix C - Rules for Data Formats and Presentation

"Schedule status options" and "Results Status Options":

- Status options which are not applicable for Wrestling have the comment "Not applicable for Wrestling" added
- "Schedule status options": "Live" has been changed to "Running"
- "Results status options": "Intermediate" definition has been modified with "and/or"

- |   |
|---|
| <ul style="list-style-type: none"> <li>"Results status options": "Protested" has been included</li> </ul> |
|---|

## **Appendix D - Supporting Documents**

- |   |
|---|
| <ul style="list-style-type: none"> <li>Yellow highlighting has been removed</li> <li>Page 1: The bullets have been modified</li> <li>Chapter 1 - "Templates for Official Communication": Under "Summary", "8", the wording regarding the ranking has been deleted</li> <li>Chapter 2 - "Results, Medals and Diplomas" has been added (part of the information of the former chapter "Medal and Diploma reallocation" has been included here)</li> </ul> |
|---|

## **Release 6 - Version 1.2 - 19 Dec 2014**

### **Global Changes**

- |  |
|--|
| <ul style="list-style-type: none"> <li>The federation name has been changed to UWW - United World Wrestling</li> </ul> |
|--|

The following outputs have been renamed and the change is reflected throughout the document:

- |   |
|---|
| <ul style="list-style-type: none"> <li>C35A "UWW Bureau Members"</li> <li>C58A "UWW Competition Programme"</li> </ul> |
|---|

### **Pending Action Items**

The following sections contain text highlighted in yellow:

- |            |  |
|------------|--|
| Appendix D | <ul style="list-style-type: none"> <li>UWW to provide templates for Medal and Diploma Reallocation as well as a template for official communications.</li> <li>In addition the requirement for the use of "Qualifying Rank" in Data to be Captured should be confirmed by UWW</li> </ul> |
|------------|--|

### **Executive Summary**

- Chapter 2.1.2.3: the second and third paragraphs have been rewritten
- Chapter 2.1.2.4.1: the second and third paragraphs has been rewritten
- Chapter 2.2.2: the chapter has been rewritten
- Chapter 2.2.2.1: the chapter has been rewritten
- Chapter 2.2.2.2: some wording have been slightly revised
- Chapter 2.2.2.3: the chapter has been rewritten
- Chapter 2.2.3: the chapter has been deleted
- Chapter 2.3: the section has been rewritten
- Chapter 2.5.2: the section has been rewritten
- Chapter 2.5.3: 2.5.3.1-2.5.3.3 have been added and subsequent chapters have been renumbered
- 2.6: The list of outputs has been updated
- 2.7: The list of outputs has been updated
- 3: First optional text: Second option has been selected and option one and two have been deleted.  
Second optional text: Second option has been selected and option one has been deleted.

## Section 1 - Outputs

### Outputs

#### General:

- Weight categories in the samples have been adjusted according to the new categories
- Venue name in the samples has been changed to "Olympic Hall 2"

C06:

- Sample:
  - Media access has been changed to blank for competition
  - Description table - Source has been updated (consolidation)
  - Description table - Comments has been updated (consolidation)

C07:

- Sample - page 1: Table (first page) has been adjusted as per London layout

C08:

- Sample:
  - Session column has been added
  - Estimated Finish Time has been added
  - Weight Category - round: Data has been changed to show "Qualification and Elimination" and "Repechage and Finals" only
- Data matrix 7.2.2-7.2.4.3: Numbering has been adjusted

C30:

- Description table - Sort by has been updated
- Data matrix - level 7: Numbering has been adjusted

C31A:

- Sample:
  - Event column now shows the full event name
  - "-" has been removed from Date of birth for PAVLOV Daniel
- Legend has been updated (consolidation)

C32C:

- Description table - Sort by and Page break have been updated
- Data matrix - level 7: Numbering has been adjusted

C35A:

- Sample:
  - "Co-opted Bureau Members" (3 persons) have been added, "Vice-President Delegate" has been deleted, title "Members" has been changed to "Bureau Members"

C35B:

- Sample:
  - Functions "Referees Delegate" and "Jury" (as per London) have been added (first block of Referees)
- Data matrix 7.3.5: Comments now read "Text or blank" and M/D has been changed to "M"

C38:

- Sample:
  - Style has been adjusted (bold/not bold)
- Data matrix 7.3.2.3, 7.3.2.4: M/D and Comments have been updated

C39:

- Sample:
  - Style has been adjusted (bold/not bold)
- Description table - Sort by: Functions has been updated

C57:

- Sample:
  - Layout has been changed to landscape so that 3 mats can fit on one page
  - Wrestling style has been deleted from heading
  - Date has been changed to "As of date"
  - Session number has been deleted
- Description table - Description, Sort by, Page break and Comments have been updated

C58A:

- Sample:
  - Has been adjusted to show a maximum of 3 events per session
  - Style has been removed from heading, and short weight category names used in the body. Legend has been updated accordingly

C58B:

- Sample:
    - Points column has been deleted
    - Style has been removed from heading, and short weight category names used in the body. Legend has been updated accordingly
  - Description table: Sort by and Comments have been updated
  - Data matrix - level 8: Numbering has been adjusted
- C58C:
- Sample:
    - Layout (columns) now include Short Event Name, Technical Points and Classification Points and Officials (ref. C74). Legend has been updated accordingly
- C65:
- New output
- C67:
- Description table - Comments has been updated (text related to French text has been deleted)
- C73:
- New output
- C74
- Sample:
    - Style has been removed from heading, and short weight category names used in the body. Legend has been updated accordingly
    - Changed to Mat A in sub heading
    - Judges' assignment numbers have been aligned to the right
  - Description table: Description, Sort by and Comments have been updated
- C93:
- Sample:
    - Subtitle has been changed to "After x of y events"
  - Description table - Comments has been updated
- C95:
- Sample:
    - Subtitle has been changed to "After x of y events"
  - Description table - Comments has been updated
- C96:
- Sample:
    - Style has been removed from header
    - Changed to show full event names in subheadings
    - One output now includes all styles and events
  - Description table: Sort by, Page break and Comments have been updated
  - Data matrix 7.2.2: Official results order has been added and the numbering has been adjusted
- C97:
- Description table - Comments has been updated
- N02:
- Sample:
    - The text has been adjusted according to the rule changes and the new categories
- N11:
- Sample:
    - Output has been adjusted to present the data per style
    - Last column: the word "Medals" has been deleted from the heading
  - Description table: Description and Comments have been updated
- N15:
- Sample:
    - Table has been added to show "Two or more gold medals". Changed "Two or more medals" to "Three or more medals"
  - Description table: Description and Comments have been updated
- N17A1:
- Sample:
    - Order of events has been changed to be chronological (descending)

- Subheadings have been changed to mixed case
- State code for Las Vegas has been added
- Description table: Description, Sort by, Page break and Comments have been updated

N17A2:

- Sample:
  - Changed to only include data from 2016
  - Subheadings have been changed to mixed case
- Description table: Description, Sort by and Comments have been updated
- Data matrix - 7.5.2.5: Item has been deleted

N20:

- Sample:
  - "Hometown" has been deleted (consolidation)
  - Changed OQT to Olympic Qualification Tournament
  - Deleted field "Previous Categories"
  - Updated year in FILA ranking in Major Achievements
  - The following fields have been added: Former Names previously competed under, Higher Education, Reason for taking up the sport, Hobbies, Most influential person in career, Famous sporting relatives/spouse, International Senior Debut, Member of the national team since, Sporting philosophy or motto, Major awards and honours received, Hero/idol, Training information
  - Major achievements: "FILA Ranking and Awards" has been renamed "FILA Ranking"
  - Major achievements: Data updated to include World Championships, National Championships and Qualification tournament
- Description table: Comments has been updated

N23:

The distribution "H" at DIFO to Common Work Room MPC has been deleted.
- C30: availability "24HDBFD" has been deleted.  
Availability "60MAD" has been added.
- C32A: availability "24HDBFD" has been deleted.  
Availability "60MAD" has been added.
- C32C: availability "24HDBFD" has been deleted.  
Availability "60MAD" has been added.
- C35A: availability "3MBG" has been deleted

- C35B: availability "3MBG" has been deleted
- C50: availability "1HBMC" has been deleted.  
Availability "1EBC" has been added.
- C57: availability "60MBS" has been deleted.  
Availability "1EBC" has been added.
- C58A: availability "180MADC" and "60MAMS" have been deleted.  
Availability "60MAD" and "60MA1S" have been added.
- C58B: availability "180MADC" has been deleted.  
Availability "60MAD" has been added.
- C58C: availability "180MADC" has been deleted.  
Availability "60MAD" has been added.  
The distribution "Pc" at 5MALBR to Commentators has been added
- C65: New output
- C73: New output
- C74: availability "2MARA" and "10MAS" have been deleted.  
Availability "10MLBSA" has been added.
- C75: availability "45MADC" and "15MLBF" have been deleted.  
Availability "30MAD", "60MAD" and "15MLBSA" have been added.
- C84A: The distribution "H" at 15MALFS to Press Centre Work Room has been deleted.  
The distribution "P" at 15MALFS to CM has been deleted.  
The distribution "H" at 15MALFS to Teams has been changed to "B"
- C84B: The distribution "H" at 15MALFS to Press Centre Work Room has been deleted.  
The distribution "P" at 15MALFS to CM has been deleted.  
The distribution "H" at 15MALFS to Teams has been changed to "B"
- C84C: The distribution "H" at 15MALFS to Press Centre Work Room has been deleted.  
The distribution "P" at 15MALFS to CM has been deleted.  
The distribution "H" at 15MALFS to Teams has been changed to "B"
- C96: availability "5MAFA" and "30MALFS" have been deleted.  
Availability "15MAWC" has been added.
- C97: New output
- N91B: availability "30MBF" has been changed to "WPC"
- Legend has been updated
- Chapter 5:  
The following codes and definitions have been added:
  - "WPC" - When presenters are confirmed
  - "xMA1S" - X (x) minute(s) after the end of the first session
  - "xMAD" - X (x) minute(s) after the draw
  - "xMALFD" - X (x) minute(s) after the last final of the day
  - "xMAWC" - X (x) minute(s) after a weight category has finished
  - "XMLBSA" - X (x) minute(s) after the last match of a weight category in a session is approved
- Chapter 5: codes xDBDIO, xHBMC, xHDBFD, xMADC, xMAMS, xMAS, xMBF, xMBG and xMBS have been deleted

### Section 3 - Real Time Information

<b>Scoreboards</b>	<p>2.3.1:</p> <ul style="list-style-type: none"> <li>• Match number has been added</li> <li>• Layout has been adjusted to use more space for the names</li> <li>• Only cumulative score is shown (technical points)</li> </ul> <p>A new screen has been added to be used if only one mat is active (finals only)</p> <ul style="list-style-type: none"> <li>• A new screen has been added to be used if two bronze medal matches are competed in parallel (finals only)</li> </ul> <p>2.3.2:</p> <ul style="list-style-type: none"> <li>• New screen</li> </ul> <p>2.3.3:</p> <ul style="list-style-type: none"> <li>• New screen</li> </ul>
