

# Olympic Results and Information Services (ORIS)

## Requirements Document

### Rio 2016 - Games of the XXXI Olympiad

## Beach Volleyball

Produced by:

- IOC - International Olympic Committee  
Château de Vidy, 1007 Lausanne, Switzerland
- FIVB - International Volleyball Federation  
Château Les Tourelles, Edouard-Sandoz 2-4, 1006 Lausanne, Switzerland
- Rio 2016 Organising Committee for the Olympic and Paralympic Games  
Rua Ulysses Guimarães, 2016  
Cidade Nova - 20211-225  
Rio de Janeiro - RJ - Brazil

**Release 6 Version 1.2**

**9 Mar 2015**

**Approved**

## **Disclosure**

The material and information contained herein are provided by the IOC to be used for the purpose of preparing the infrastructure for information delivery at the Rio 2016 Olympic Games. This material and information is the property of the IOC, the FIVB and Rio 2016 and may not be disclosed to third parties or the general public, whether in whole or in part, without the prior written approval of the IOC. Sharing of such material and information is only permitted, under the condition of strict confidentiality, with third parties assisting in preparing the infrastructure for information delivery at the Rio 2016 Olympic Games, provided that such third parties agree to abide by the terms of this paragraph.

# Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

## 1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

## **2 ORIS Document Summary**

### **2.1 Terminology**

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

### **2.2 Document Structure**

The ORIS document is laid out as follows:

#### **2.2.1 Executive Summary**

This part of the document provides an overview of the ORIS project and the ORIS document for Beach Volleyball. It includes information on the following topics: introduction, document content, cycle and participants.

#### **2.2.2 Beach Volleyball References**

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

#### **2.2.3 Procedures**

This part of the document describes procedures to be followed by the OC and its partners, the FIVB and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

##### **2.2.3.1 Results Service and Competition Management Support**

The roles and responsibilities of the FIVB, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

##### **2.2.3.2 News Service and Background Information**

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the FIVB, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the FIVB and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

#### **2.2.4 Section 1: Printable Outputs**

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Beach Volleyball Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

## **2.2.5 Section 2: Distribution Rules**

This section defines the distribution of all outputs produced, whether printed or published in INFO. It is divided into three chapters:

- Event related requirements
  - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
  - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
  - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
  - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

## **2.2.6 Section 3: Real Time Information**

This section defines the requirements for the presentation of real time information for scoreboards as well as a reference to on screen results presentation.

### **2.2.6.1 Scoreboards**

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here. Sport specific scoreboards are also defined, when required by the FIVB rules.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the FIVB should approve the proposed solution.

### **2.2.6.2 Sport specific real time data**

Requirements regarding collection of sport specific real time data, are defined in this part and made available for use by certain ODF subscribers (e.g. GPS tracking data used to produce 3D graphics).

### **2.2.6.3 On screen results presentation**

This part contains references required for the development of on screen results presentation.

## **2.2.7 Appendix A: Glossary**

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

## **2.2.8 Appendix B: Abbreviations**

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

## **2.2.9 Appendix C: Rules for Data Formats and Presentation**

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## **2.2.10 Appendix D: Supporting Documents**

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

## **2.2.11 Document Control**

This part describes all changes made in this document through its life cycle.

### **3 ORIS Project Cycle**

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

#### **3.1 Production of the Updated Version of the ORIS Document**

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Beach Volleyball draft document, based on:
  - The last version of the ORIS Beach Volleyball document of the previous Games
  - International Federation sport rules, competition format and requirements for these Games
  - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Beach Volleyball meeting, the draft will be made available to the ORIS Beach Volleyball Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Beach Volleyball Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Beach Volleyball document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Beach Volleyball Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Beach Volleyball document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

## **3.2 ORIS Document Sign-off**

The FIVB and the Organising Committee will sign-off the ORIS Beach Volleyball document after all agreed changes have been implemented.

For the FIVB, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Beach Volleyball competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

## **3.3 Change Management**

A Change Request should be logged if the FIVB or the OC requests any change which has an impact on the ORIS Beach Volleyball document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Beach Volleyball document.

## **3.4 Test Event**

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

### **3.4.1 ORIS Team Participation**

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the FIVB, media, teams, etc.)
- To prepare required changes to the ORIS Beach Volleyball document
- To provide support to key users and act as moderators

### **3.4.2 Test Event Review Meeting**

A Test Event review meeting will be held before the end of the Test Event with the ORIS Beach Volleyball Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

## **3.5 Homologation Test**

The Homologation Test will be carried out in the OC lab, led by the FIVB and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Beach Volleyball document. The test begins with entry data for athletes and officials, continues through the draws and with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, medals, etc.
- Scoreboards

The FIVB, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the FIVB and WNPA reports. Those documents are then sent to the OC, the FIVB, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

## **3.6 IOC Technology Assistance and Observation**

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

## **3.7 Transfer of Knowledge**

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games Questionnaires to document the FIVB, OC and media findings, comments and suggestions for improvement.

### **3.8 Support**

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Beach Volleyball document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Beach Volleyball Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

## 4 Rio 2016 ORIS Project Participants

The ORIS Beach Volleyball project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the FIVB, the OC (Sports, Media, Technology) and its IT partners.

### **The ORIS Steering Committee:**

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

### **The ORIS Management Team:**

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

### **The ORIS Beach Volleyball Working Group:**

- Attends the ORIS meeting to discuss and agree on the Beach Volleyball results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Beach Volleyball Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Beach Volleyball Working Group are:

- **Mr Angelo SQUEO**, FIVB Event Director
- **Mr Alberto RIGAMONTI**, FIVB IT Coordinator
- **Mr Fernando COSTA MARQUES**, Rio 2016 Sport Manager for Beach Volleyball
- **Mr Amedeo RICOTTILLI**, Rio 2016 Senior Manager of Press Operations
- **Mr John SHARP**, Rio 2016 Cluster Venue Results Manager
- **Mr Gustavo GARRAFOLI**, Rio 2016 Venue Results Manager
- **Ms Katy ZAVALETA**, Atos Major Events, IDS Sport Specialist
- **Mr Tino SCHIMOSSEK**, OMEGA Results Manager
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Itziar DEL ARCO**, IOC ORIS Sport Analyst for Beach Volleyball

### **The ORIS project is supported by:**

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Nataša DUMIĆ**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

*This page intentionally left blank.*

# Beach Volleyball References

## 1 Specifications

- Events: progression and competition format types

Event	Event Phase	Progression Type	Competition Format Type
Women Men	Preliminary phase: <ul style="list-style-type: none"><li>Round robin round:<ul style="list-style-type: none"><li>6 pools of 4 teams</li></ul></li><li>Lucky loser round:<ul style="list-style-type: none"><li>2 matches (four lowest 3<sup>rd</sup> ranked teams)</li></ul></li></ul>	Qualification	Pool
	Final phase: <ul style="list-style-type: none"><li>Round of 16</li><li>Quarterfinals</li><li>Semifinals</li><li>Finals (bronze and gold medal matches)</li></ul>	Qualification	Bracket with direct elimination and finals

- The events are presented in traditional FIVB order (women followed by men)
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

## 2 Competition

- Competition format

- Preliminary phase
  - The preliminary phase will consist of six pools of four teams each in a round robin format. Every team will play the three other teams in their pool. The ranking of teams within their pools will be determined by the total number of match points, with the following points awarded per match to each team:

Match won	2 points
Match lost	1 point
Match forfeited	0 points (21-0; 21-0)

- The first two ranked teams from each pool, plus the two best third ranked teams from the pools advance automatically to the round of 16
- The remaining third ranked teams play in the lucky loser round (3<sup>rd</sup> vs 6<sup>th</sup> and 4<sup>th</sup> vs 5<sup>th</sup>). The two winners of the lucky loser round qualify to the round of 16.
- Final phase
  - The 16 men's and 16 women's teams advancing to the final phase will play a single elimination system. Seeding of the teams will be in accordance with the FIVB regulations, with the six best ranked teams from the preliminary phase being seeded directly into the round of 16.

- Tie Break Rules

Ranking in the pools will be determined by the total number of points. If a tie should occur during the team ranking process, the following processes will be followed.

During the preliminary phase:

Between two teams:

- If teams have played against each other, the winner of the head to head match is ranked higher
- If teams concerned have not played against each other, their ranking is determined by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

Between three teams:

- If three teams are tied by points, their ranking is determined by the points ratio in the matches between the three tied teams
- If still tied then the tied teams are ranked by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

Between four teams:

- The ranking is determined by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

At the end of the preliminary phase:

Between two teams:

- The winner of the head to head match is ranked higher

Between three teams:

- The ranking is determined by the points ratio in the matches between the three tied teams
- If still tied then their ranking is determined by the points ratio between all teams in the pool
- If still tied then their ranking is determined by a draw

- **Venue type**
  - Outdoor
  - Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Athletes: 48 female / 48 male
- Teams: 24 for each gender, teams are made up of two athletes
- **Team composition**
  - Each team is composed of two athletes from the same NOC

## 3 Documents

- Olympic Charter in force
- IOC-Rio 2016 Host City Contract
- 2013-2016 Official Beach Volleyball Rules
- Sports Events Regulations
- Beach Volleyball Handbook

# **Procedures**

## **1      Introduction**

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Beach Volleyball events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

## **2 Results Service and Competition Management Support**

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

### **2.1 Pre-Games Activities**

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

#### **2.1.1 Schedule**

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the FIVB Beach Volleyball Events Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule [B2] (C08) - tentative

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live.

Once the pool allocation for all pool matches of the preliminary phase has been determined by the FIVB, OC Technology (OVR) will produce the output:

- "Competition Schedule" (C08)

which should be distributed according to the ORIS distribution rules. Under normal circumstances this output will be produced only once for the entire Beach Volleyball competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the output:

- Activity List (C06)

This output will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

#### **2.1.2 Entries and Participant Data**

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

##### **2.1.2.1 After the Sport Entry Deadline**

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)
- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

### **2.1.2.2 Participant data verification**

Emphasis should be placed on data accuracy and correct spelling and/or transcription of player and team names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other FIVB events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Entry Data Checklist - Competition Officials (C39)

will be produced with all name lengths to be used during the Games and given to the FIVB Office Secretary for checking and approval.

The FIVB will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than two (2) hours before the pool allocation.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

Based on these returned copies by the FIVB, OC Technology should produce the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC [B1] (C32A)
- Entry List by Event [B1] (C32C)

for distribution according to the ORIS distribution rules.

### **2.1.2.3 Competition officials**

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the FIVB and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

### **2.1.2.4 Replacement of an athlete**

#### **2.1.2.4.1 Late athlete replacement**

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the

participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the last day of the preliminary inquiry.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

#### **2.1.2.5 FIVB unique athlete identification**

The FIVB has implemented a unique athlete identification (player ID) with 6 digits.

The FIVB requests that this ID also be included in the appropriate ODF messages.

## **2.2 Pre-Competition Activities**

After the FIVB officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the draw, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

### **2.2.1 Presenters at Victory Ceremonies**

No later than ten (10) days before the first day of competition the IOC and the FIVB will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

### **2.2.2 Pool Allocation**

At least five (5) days before the competition starts the FIVB will allocate the pools and produce the schedule for all pool matches of the preliminary phase, according to the process defined by the FIVB.

OC Technology will update the outputs:

- Competition Schedule [B2] (C08) - all preliminary phase matches except the afternoon session of competition day 6 (court 2) and the two lucky loser matches
- Results Table - Preliminary Phase [B4] (C76A) - with schedule data only

The OC Competition Management will send these outputs to the FIVB for verification and approval.

After approval by the FIVB, these outputs will be distributed according to the ORIS distribution rules.

No later than the end of competition day 5 the FIVB will provide the schedule for the afternoon session of competition day 6.

### **2.2.3 Training Schedule**

Based on the preliminary phase schedule, the FIVB and OC Competition Management will produce the training schedule at the official courts (primary and secondary) for the preliminary phase period seven (7) days before the competition. The training schedule on the official courts will be updated and managed in the same way during the preliminary phase (pool round and lucky loser round) and the final phase (round of 16, quarterfinals and semifinals).

The teams must sign up for the additional training schedule with the OC Competition Management on a daily basis for the following day only. The output:

- Training Schedule (C07)

will be updated on a daily basis and will show the training schedule at the official courts for the preliminary phase period, the training schedule for the day and the remaining availability of training times for the following day at the other courts.

### **2.2.4 Shirt Numbers, Colours and Captain Assignments**

After the preliminary inquiry the FIVB will confirm the shirt numbers, the captains and will assign the uniform colours (tops and shorts/briefs) for all the pool matches. This will be confirmed at the general technical meeting.

## **2.3 Results Processing**

### **2.3.1 Results Processing for Men's and Women's during the Preliminary Phase**

#### **2.3.1.1 Daily activities - before and during the competition**

Details of the schedules (with session, time, etc.) and official assignments of the referee are made available through the FIVB Technical Delegate on the evening before the first competition day and then at the end of the daily FIVB Control Committee meeting (no later than ninety (90) minutes after the last match of the day) for the following day. This information will be entered into the OC computer system and used to produce the outputs:

- Competition Daily Schedule (C58)
- Competition Daily Schedule - Assignment of Match Officials (C58B)

These outputs will be validated by the FIVB Technical Delegate and must be available for distribution within thirty (30) minutes of receipt of information by the OC Competition Management.

OC Technology will also produce the output:

- Start List (C51) - without referees

on the evening before the first competition day and then for the following days at the end of the competition day for each match scheduled on the following day. This output will be verified by the FIVB Technical Delegate and will be made available in INFO.

The OC Competition Management will then prepare the official score sheets for each match of the next day, and deliver them to the FIVB.

At the same time, ONS will produce the output:

- Team Match-up (N62)

for each match scheduled on the following day.

#### **2.3.1.2 Pool matches - for all matches of the day**

At least ninety (90) minutes before a match (except lucky loser matches that have to be released as soon as available), OC Technology will print the output:

- Start List (C51) - with referees

This output will be verified by the FIVB Technical Delegate, and will then be distributed according to the ORIS distribution rules.

Weather conditions will be reported by the OC Competition Management to the results control room at the start of the match and included in the output "Match Results [B3]" (C73).

During the match all actions will be entered as soon as they occur and the following outputs will be continuously updated in INFO:

- Play by Play [B3b] (C69)
- Match Results [B3] (C73)

A designated Jury member should provide OC Technology with the number of spectators at the end of the first set of each match.

If the results system directly interface the FIVB electronic score sheet, the results will be automatically verified after the match.

If the results system does not directly interface the FIVB electronic score sheet, the following verification process will take place:

After each match is completed, the output:

- Match Results [B3] (C73)

produced by the OC Technology results system, will be compared with the official FIVB electronic score sheet (to help with verification).

Verification will be carried out by the FIVB Technical Delegate or the designated person and any discrepancies will immediately be corrected in the OC Technology results system. He/she should sign off the results output (C73), validating only the score, the match duration and playing time and the referee's names, after confirming this information against the Official Score Sheet. If there are any discrepancies in the match duration or playing time, the time provided by the FIVB will be considered as the official time. This verification should be carried out at the jury table and must be completed within five (5) minutes of the end of the match.

After verification of the results, the output:

- Match Results [B3] (C73)

will be produced and distributed according to the ORIS distribution rules.

After each match is approved, the outputs:

- Play by Play [B3b] (C69)
- Results Summary [B4] (C74)
- Results Table - Preliminary Phase [B4] (C76A)
- Team Ranking by Skill [B6] (C85A)
- Player Ranking by Skill [B5] (C85B)

will be produced and distributed according to the ORIS distribution rules.

### **2.3.1.3 Pool matches - after the last match of the day for the gender**

On completion of the last match of the day for the gender the output:

- Results Table - Preliminary Phase [B4] (C76A)

will be produced for verification and approval by the FIVB Technical Delegate or the designated person.

After approval, the output:

- Results Table - Preliminary Phase [B4] (C76A)

for that gender will be produced and distributed according to the ORIS distribution rules.

### **2.3.1.4 Pool matches - after the last match of every pool (men's or women's pool A-F)**

The FIVB Technical Delegate or the designated person will verify and approve the output:

- Results Table - Preliminary Phase [B4] (C76A)

After approval, the outputs:

- Results Brackets - Final Phase [B4] (C75) - updated with pool winners
- Results Table - Preliminary Phase [B4] (C76A)
- Tournament Ranking [B4] (C76B)

will be produced and distributed according to the ORIS distribution rules.

### **2.3.1.5 Before lucky loser round matches (men's or women's)**

At the end of the competition day 6, the FIVB Technical Delegate should provide OC Technology with match schedule information for the following day's afternoon session. This should include details of the referee, FIVB Control Committee, line judges and scorers as well as the teams' uniform colours (tops and shorts/briefs). The OC Technology results system should use this information to produce the outputs:

- Competition Daily Schedule (C58), and
- Competition Daily Schedule - Assignment of Match Officials (C58B)

for distribution according to the ORIS distribution rules.

After the last match of the last pool (men's or women's) has been played, the best two teams that ranked third will advance automatically to the final phase. The four remaining third ranked teams will play a two match lucky loser round (3<sup>rd</sup> vs. 6<sup>th</sup>, and 4<sup>th</sup> vs. 5<sup>th</sup> ranked team).

Immediately after the last match of the last pool (men's or women's), the FIVB Technical Delegate should provide the OC Technology results system with match schedule information for the two lucky loser matches. This should include details of the referees, FIVB Control Committee, line judges and scorers, and the teams' uniform colours (tops and shorts/briefs). The OC Technology results system should use this information to produce or update the outputs:

- Start List (C51) - with referees
- Competition Daily Schedule (C58)
- Competition Daily Schedule - Assignment of Match Officials (C58B)
- Results Table - Preliminary Phase [B4] (C76A)

for distribution according to the ORIS distribution rules.

### **2.3.1.6 After lucky loser round matches (men's or women's)**

After completion of the lucky loser round, OC Technology will produce the outputs:

- Results Table - Preliminary Phase [B4] (C76A)
- Tournament Ranking [B4] (C76B)

for verification and approval by the FIVB Technical Delegate.

After approval, the outputs:

- Results Table - Preliminary Phase [B4] (C76A)
- Tournament Ranking [B4] (C76B)
- Team Ranking by Skill [B6] (C85A)
- Player Ranking by Skill [B5] (C85B)

will be produced and distributed according to the ORIS distribution rules.

### **2.3.1.7 Draw after completion of each preliminary phase (men's and women's)**

The draw is made up of the six second ranked teams from each pool, the best two third ranked teams and the two winners of the lucky loser round.

The draw will be public. The exact location and the time of the draw will be communicated through the output:

- Media Communication (N90A)

for distribution according to the ORIS distribution rules.

The FIVB requires that OC Technology provide support for the computerized draw. OC Technology will project the results of the computerized draw on a screen large enough for all attendees to view. OC Technology should enter the six pool winners into the start bracket of the final round immediately after the last match of the preliminary phase. During the draw, OC Technology should enter each team into its designated spot in the brackets as soon as the team is drawn. The updated start bracket should be projected onto a screen. The FIVB and OC Technology will agree on all details no later than three (3) months before the Beach Volleyball Test Event. It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Draw. The Draw procedure should be tested at the Test Event.

Five (5) minutes after the draw is completed the updated output:

- Results Brackets - Final Phase [B4] (C75) (without the match times)

with all qualified teams for the final phase, should be produced for checking and approval by the FIVB TD. After approval, OC Technology should be able to provide sufficient copies of the output "Results Brackets - Final Phase [B4]" (C75) to the attendees at the draw location.

No later than thirty (30) minutes after completion of the draw, the FIVB Technical Delegate should provide the OC Technology results system with match times for both days of competition for the round of 16. OC Technology should use this information to produce the output:

- Results Brackets - Final Phase [B4] (C75) (with the match times)

for distribution according to the ORIS distribution rules.

No later than one (1) hour after completion of the draw, the FIVB Technical Delegate should provide the OC Technology results system with match schedule information including details of FIVB Control Committee, as well as the teams' uniform colours (tops and shorts/briefs) for both days of competition for the round of 16. OC Technology should use this information to produce the output:

- Competition Daily Schedule (C58),

and distribute it according to the ORIS distribution rules.

Additionally, no later than one (1) hour after completion of the draw, the FIVB Technical Delegate should provide the OC Technology results system with a list of the referee, line judges and scorers names for the first day of competition for the round of 16. OC Technology should use this information to produce the output:

- Competition Daily Schedule - Assignment of Match Officials (C58B)

and distribute it according to the ORIS distribution rules. The same process will be repeated for the second day of competition for the round of 16 evening before the second day.

OC Technology will then produce the output:

- Start List (C51) - without referees

for all matches of the round of 16 competition. This output will be verified by the FIVB Technical Delegate and will be made available in INFO.

The OC Competition Management will then prepare the official score sheets or FIVB electronic score sheet for each match of the next day and deliver them to the FIVB.

At the same time, the ONS will produce the output:

- Team Match-up (N62)

for each match scheduled on the following day.

In addition, the output:

- Training Schedule (C07)

will be updated. The schedule will be populated with the teams competing in the round of 16. The schedule should be produced and distributed according to the ORIS rules.

## **2.3.2 Results Processing for Men's and Women's during the Final Phase**

### **2.3.2.1 Before each match**

At least ninety (90) minutes before each match, OC Technology will print the output:

- Start List (C51) - with referees

This output will be verified by the FIVB Technical Delegate, and will then be distributed according to the ORIS distribution rules.

### **2.3.2.2 During and after each match (round of 16, quarterfinals, semifinals, gold and bronze medal matches)**

Weather conditions will be reported by the OC Competition Management to the results control room at the start of the match and included in the output "Match Results [B3]" (C73).

During the match all actions will be entered as soon as they occur. The following outputs will be continuously updated in INFO:

- Play by Play [B3b] (C69)
- Match Results [B3] (C73)

A designated Jury member should provide OC Technology with the number of spectators at the end of the first set of each match.

If the results system directly interface the FIVB electronic score sheet, the results will be automatically verified after the match.

If the results system does not directly interface the FIVB electronic score sheet, the following verification process will take place:

After each match is complete, the output:

- Match Results [B3] (C73)

produced by the OC Technology results system, will be compared with the official FIVB electronic score sheet (to help with verification).

Verification will be carried out by the FIVB Technical Delegate or the designated person and any discrepancies will immediately be corrected in the OC Technology results system. He/she should sign off the results output (C73), validating only the score, the time of the match and the referee's names, after confirming this information against the Official Score Sheet. If there are any discrepancies in the match duration or playing time, the time provided by the FIVB will be considered as the official one. This verification should be carried out at the jury table and must be completed within five (5) minutes of the end of the match.

After verification of the results, the output:

- Match Results [B3] (C73)

will be produced and distributed according to the ORIS distribution rules.

After each match is approved, the outputs:

- Results Summary [B4] (C74)
- Results Brackets - Final Phase [B4] (C75)
- Results Table - Preliminary Phase [B4] (C76A)
- Team Ranking by Skill [B6] (C85A)
- Player Ranking by Skill [B5] (C85B)

will be produced and distributed according to the ORIS distribution rules.

### **2.3.2.3 Last match of the day except final days (for men and women)**

Ten (10) minutes after the result of the last match of the day for each gender is approved the output:

- Results Brackets - Final Phase [B4] (C75)

will be produced and distributed according to the ORIS distribution rules.

### **2.3.2.4 Last match of the second day of the round of 16, quarterfinals, and semifinals (for men and women)**

Ten (10) minutes after the result of the last match of the day for each gender is approved the output:

- Results Brackets - Final Phase [B4] - without match times (C75)

will be produced and distributed according to the ORIS distribution rules.

No later than one (1) hour after completion of the round, the FIVB Technical Delegate should provide the OC Technology results system with match schedule information including details of the referee, FIVB Control Committee, line judges and scorers, as well as the teams' uniform colours (tops and shorts/briefs) for both days of the next round. OC Technology should use this information to produce the outputs:

- Competition Daily Schedule (C58)
- Competition Daily Schedule - Assignment of Match Officials (C58B), and

- Results Brackets - Final Phase [B4] - with match times (C75) and distribute them according to the ORIS distribution rules.

OC Technology will then produce the output:

- Start List (C51) - without referees

for each match scheduled on the following day. This output will be verified by the FIVB Technical Delegate and will be made available in INFO.

The OC Competition Management will then prepare the official score sheets for each match of the next round and deliver them to the FIVB.

At the same time, the ONS will produce the output:

- Team Match-up (N62)

for each match scheduled in the following round.

In addition, the output:

- Training Schedule (C07)

will be updated for both men and women after each round before the medal matches. The schedule will be populated with the teams competing in the round of 16. The schedule should be produced and distributed according to the ORIS rules.

### **2.3.2.5 Additional procedure after a bronze medal match**

No later than five (5) minutes after approval of the results of the bronze medal match, OC Technology should produce the outputs:

- Medallists (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)
- FIVB Medal Standings (C97)

and distribute them according to the ORIS distribution rules.

There is no requirement for FIVB verification of these outputs. However, should any correction be required to any previously issued output, the output will be reissued and marked as "REVISED", with the specific correction(s) indicated.

### **2.3.2.6 Additional procedure before and after a gold medal match**

#### **2.3.2.6.1 Before a gold medal match**

No later than sixty (60) minutes before the gold medal match the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

if the Victory Ceremony is organised at the venue immediately after the finals, should be produced and distributed according to the ORIS distribution rules.

#### **2.3.2.6.2 After a gold medal match**

No later than five (5) minutes after approval of the results of the gold medal match, OC Technology should produce the outputs:

- Medallists (C92C)
- Medallists by Event (C93)
- Medal Standings (C95)

- FIVB Medal Standings (C97)

and distribute them according to the ORIS distribution rules.

There is no requirement for FIVB verification of these outputs. However, should any correction be required to any previously issued output, the output will be reissued and marked as "REVISED", with the specific correction(s) indicated.

### **2.3.2.7 Protests**

Immediately following the match, the FIVB Control Committee will inform the OC Competition Management and OC Technology of any protests which have been made during the match. It is also recommended that a FIVB Press Officer be available for the press following each match. The FIVB Press Officer will inform the OC Press of any possible penalties or other actions, which may be taken by the FIVB Control Committee, but will not discuss the agenda of the FIVB Control Committee meeting.

Information on all decisions will be available for the OC Press Office not later than five (5) minutes after the decision is made. The FIVB Press Officer should take into account that explanations of decisions should be easy to understand.

## **2.4 Common Sport Functions**

### **2.4.1 Official Communications**

The FIVB Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the FIVB Control Committee or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the FIVB Press Officer or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

### **2.4.2 Sport Communications**

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the FIVB, the IOC and/or the OC Competition Management (e.g. protest announcements, reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

### **2.4.3 Weather**

Weather information that includes weather conditions for the current day and the forecast for the next two (2) days must be provided beginning three (3) days prior to the competition until the last day of competition. This information is specifically about weather at the Beach Volleyball venue.

The output:

- Weather (C49)

is updated in INFO after each update has been received from the meteorological services.

## **2.5 Exceptional Situations Handling**

For any of the following exceptional situations, the Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

### **2.5.1 Schedule Changes**

The following schedule status options are applicable to an event or event unit (match):

#### **2.5.1.1 Delayed**

A delay may occur if a match does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

#### **2.5.1.2 Postponed**

A match did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.

If an interrupted match cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

#### **2.5.1.3 Interrupted**

A match may be subject to an unplanned interruption after it has started.

The time of resumption is unknown. If the match cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

If the interruption(s) do not exceed four (4) hours in total the match will continue, the statistics accumulated to the point at which it was suspended are retained and additional statistics resulting from the completion of the match are added to them.

#### **2.5.1.4 Rescheduled**

A match may be rescheduled if it cannot be held at the originally scheduled start date/time.

The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.

Should a match be stopped (once or several times) during play (due to weather conditions, etc.) for more than four (4) hours in total, the match will be rescheduled and played again. Any scores up to that point in the match will not be included in the cumulative totals for the tournament.

The OC Competition Management will be responsible for communicating changes to OC Technology in order to update the output:

- Competition Schedule [B2] (C08)
- Competition Daily Schedule (C58)

#### **2.5.1.5 Cancelled**

A match which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the FIVB will decide what effect the situation would have on the tournament and what actions should be taken.

## **2.5.2 Team forfeit**

In case of an injury forfeit of a team (team is at the court on time for the start of their match, however cannot start the match due to injury), the winning team will be awarded 2 points for the win, and a

score of 2:0 (0:0, 0:0). The losing team will be awarded 1 match point, and a score of 0:2 (0:21, 0:21). The score sheet however will reflect a score of 2:0 (0:0, 0:0). Match duration should not be considered.

In case of an injury forfeit of a team after the start of the match (e.g. BRA is leading AUS 6:4 in the first set and AUS is injured at this point and cannot continue the match), the winning team will be awarded 2 points for the win, and a score of 2:0 (6:4, 0:0). The losing team will be awarded 1 match point, a score of 0:2 (4:21, 0:21). The score sheet however will reflect a score of 2:0 (6:4, 0:0).

In case of a forfeit due to no show of the team before the start of their match, the winning team will be awarded 2 points for the win, a score of 2:0 (0:0, 0:0). The losing team will be awarded 0 match points, a score of 0:2 (0:21, 0:21). The score sheet however will reflect a score of 2:0 (0:0, 0:0). The forfeiting team will also be subject to a sanction. Match duration should not be considered.

In case of an eventual disqualification of a team after the start of the match (e.g. BRA is leading AUS 6:4 in the first set and AUS is injured at this point and cannot continue the match), the winning team will be awarded 2 points for the win, and a score of 2:0 (6:4, 0:0). The losing team will be awarded 0 match point, a score of 0:2 (4:21, 0:21). The score sheet however will reflect a score of 2:0 (6:4, 0:0).

## 2.5.3 Disqualifications

### 2.5.3.1 Disqualification during an event for unsportsmanlike behaviour

#### 2.5.3.1.1 Disqualification or suspension of an individual player

If an **individual player** is disqualified for one or more matches or is suspended from the remainder of the tournament, the team will lose all these matches by forfeit with a score of 0-2 (0:21, 0:21). If a disqualification takes place in the preliminary round, the concerned team will not be awarded any match points. Match duration should not be considered.

#### 2.5.3.1.2 Elimination of a team

A **team** can be eliminated from the tournament or can declare voluntary forfeit. The action that must be taken by the computer system is different, depending on the point in the progression of the tournament at which the elimination occurs. There are two distinct cases to be handled by the computer system:

(a) A team is disqualified during or after the preliminary round but before any matches in the lucky loser round have been played:

- All the preliminary round matches of the disqualified team will be forfeited with a score of 0-2
- The team and player statistics for all matches involving the disqualified team will be deleted
- The outputs "Results Summary [B4]" (C74), "Competition Schedule [B2]" (C08) and "Competition Daily Schedule" (C58) will be updated accordingly
- The "Start List" (C51), "Results [B3]" (C73) and "Play by Play [B3b]" (C69) for all matches played will be removed from INFO
- All "N" related outputs of matches already played must be updated and re-distributed ("Biography" (N20), "Match and Daily Review" (N89), etc.)
- The outputs "Results Table - Preliminary Phase [B4]" (C76A) (for the remaining teams in the same pool as the disqualified team), "Team Ranking by Skill [B6]" (C85A) and "Player Ranking by Skill [B5]" (C85B) are recalculated (removing the statistics for all individual players in the disqualified team and for the disqualified team) and distributed as corrections (with a note explaining the reason for the correction) according to the ORIS distribution rules
- A disqualified team should be shown at the bottom of the final standing without rank and with "DSQ" following the NOC in the output "Tournament Ranking [B4]" (C76B). A note describing the disqualification should be added to the bottom of the page.

(b) A team is disqualified during the lucky loser or final round:

- The output "Results Brackets - Final Phase [B4]" (C75) will be re-issued showing the result of the match of a disqualified team as a forfeited (0-2) loss. A note describing the disqualification should be added to the bottom of the page. The result will not be considered for statistics calculation.
- A disqualified team should be shown at the bottom of the final standing without rank and with "DSQ" following the NOC in the output "Tournament Ranking [B4]" (C76B)
- The outputs "Results Summary [B4]" (C74), "Competition Daily Schedule" (C58), "Entry List by NOC [B1]" (C32A) and "Entry List by Event [B1]" (C32C), will be updated accordingly
- The "Start List" (C51), "Results [B3]" (C73) and "Play by Play [B3b]" (C69) for the match played by the disqualified team will be removed from INFO
- All "N" related outputs of matches already played must be updated and re-distributed ("Biography" (N20), "Match and Daily Review" (N89), etc.)
- Team Ranking by Skill [B6] (C85A) - The team statistics will be maintained. The disqualified team will be listed at the bottom of the list with a "DSQ" mark. A note describing the disqualification should be added to the bottom of the page.
- Players from the disqualified team should no longer show up in the output "Player Ranking by Skill [B5]" (C85B)
- If a disqualified team was scheduled to play a medal match, the FIVB Control Committee will replace the disqualified team by its opponent from the previous round to ensure that the medal matches are played

### **2.5.3.2 Disqualification after an event and up to three days after the Closing Ceremony**

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required.

The FIVB regulations state that should team be disqualified after completion of an event, all subsequent teams will be moved up in the ranking by one place.

The following outputs should be updated:

- "Results Brackets - Final Phase [B4]" (C75) and "Tournament Ranking [B4]" (C76B) - The result of the last match of disqualified team will be updated showing the result of the final rounds match of a disqualified team as a forfeited (0-2) loss. The disqualified team should be shown at the bottom of the final standing without rank and with "DSQ" following the NOC. The final rankings will be adjusted moving all teams ranked, one rank up, after the disqualified team. A note describing the disqualification should be added to the bottom of the page.
- "Team Ranking by Skill [B6]" (C85A) - The team statistics will be maintained. The disqualified team will be listed at the bottom of the list with a "DSQ" mark. A note describing the disqualification should be added to the bottom of the page.
- Player from the disqualified team should no longer show up in the output: Players Ranking by Skill [B5] (C85B)
- The output "Results Summary [B4]" (C74) will be updated accordingly

All updated outputs should be approved by the FIVB Technical Delegate before distribution.

### **2.5.3.3 Disqualification more than three days after the Closing Ceremony**

Starting from the 4<sup>th</sup> day after the Games Closing Ceremony, the FIVB will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the FIVB. The FIVB is responsible for providing the updated results to the IOC.

### **2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission**

If an athlete or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing

Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on [www.olympic.org](http://www.olympic.org)).

The team, the team's NOC, the FIVB, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The FIVB Control Committee or a designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D of this document (Subtitle: D, Summary: 8, Issued by: III, Further information: iv).

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the FIVB Control Committee or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the FIVB Control Committee or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Beach Volleyball competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the responsible person of the FIVB Control Committee during those periods before or after the Games may require that a designated person be available to cover this responsibility.

**Note:** Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the tournament. The OC and their technology suppliers are responsible for researching any missing information in the relevant FIVB and/or IOC documents and for gaining and analysing experience from other competitions.

## 2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
  - Competition Schedule [B2] (C08) (tentative/pool matches assigned)
  - Start List (C51) - (without/with referee names)
  - Competition Daily Schedule (C58)
  - Competition Daily Schedule - Assignment of Match Officials (C58B)
  - Results Summary [B4] (C74)
  - Results Brackets - Final Phase [B4] (C75)
  - Results Table - Preliminary Phase [B4] (C76A)
  - Tournament Ranking [B4] (C76B)
  - Team Ranking by Skill [B6] (C85A)
  - Player Ranking by Skill [B5] (C85B)
  - Medallists by Event (C93)
  - Medal Standings (C95)
  - FIVB Medal Standings (C97)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

## **2.7 Results Book**

The Results Book should contain the documents below, in the following order:

- Beach Volleyball cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)

For each tournament (in traditional FIVB order):

- Medallists (C92B)
- Tournament Ranking [B4] (C76B)
- Results Brackets - Final Phase [B4] (C75)
- Match Results [B3] (C73) (in the following order: gold medal match, bronze medal match, semifinal matches chronologically, quarterfinal matches chronologically and round of 16 matches chronologically)
- Results Table - Preliminary Phase [B4] (C76A)
- Match Results [B3] (C73) (in the following order: by pool (A to F) chronologically)
- Team Ranking by Skill [B6] (C85A)
- Player Ranking by Skill [B5] (C85B)
- Competition Officials (C35)
- Official Communication (C67), only selected outputs related to schedules and results (ordered by news item number)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

If Beach Volleyball is not the last Volleyball and Beach Volleyball disciplines scheduled at the Games, an updated version of the Results Book should be produced to include the final version of the output "FIVB Medal Standings" (C97).

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Beach Volleyball competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The FIVB
- All NOCs
- Accredited media

## **2.8 Daily Bulletin Protocol**

The OC Competition Management is responsible for producing and distributing daily bulletins. One day before the first competition day the initial bulletin should be available. During the tournament a daily bulletin should be available after each competition day. A final bulletin should be produced after the last match of the Beach Volleyball competition. The bulletin will cover the men's and women's competitions clearly separated within the bulletin.

After the conclusion of the last match of the day, daily bulletins (the number and availability timing to be agreed between FIVB and Competition Management) must be delivered to the FIVB hotel for the officials identified by the FIVB and to Rio 2016 Competition Management. The remaining bulletins must be distributed as per the ORIS distribution rules.

The ORIS Beach Volleyball Working Group requests the following daily bulletins:

(a) Daily Bulletin #1 (initial bulletin, one day before the first day of competition)

- Cover sheet
- Sport Preview (N89)
- For each tournament (women's, then men's)
  - Entry List by Event [B1] (C32C)
  - Results Table - Preliminary Phase [B4] (C76A) (initial - without results)
  - Daily Preview (N89)
- Competition Schedule [B2] (C08)
- Competition Daily Schedule (C58)
- Training Schedule (C07)
- Weather (C49)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

(b) Daily Bulletin from #2 to #6 (after each day, except the last day of the preliminary phase)

- Cover sheet
- For each tournament (women's, than men's)
  - Daily Review (N89)
  - Results Table - Preliminary Phase [B4] (C76A)
  - Results Summary [B4] (C74)
  - Team Ranking by Skill [B6] (C85A)
  - Player Ranking by Skill [B5] (C85B)
  - Daily Preview (N89)
- Competition Schedule [B2] (C08) (if changed)
- Competition Daily Schedule (C58)
- Training Schedule (C07)
- Weather (C49)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

(c) Daily Bulletin #7 (after the last day of the preliminary phase)

- Cover sheet

- For each tournament (women's, than men's)
  - Daily Review (N89)
  - Results Table - Preliminary Phase [B4] (C76A)
  - Tournament Ranking [B4] (C76B)
  - Results Brackets - Final Phase [B4] (C75)
  - Results Summary [B4] (C74)
  - Team Ranking by Skill [B6] (C85A)
  - Player Ranking by Skill [B5] (C85B)
  - Daily Preview (N89)
- Competition Daily Schedule (C58)
- Training Schedule (C07)
- Weather (C49)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

(d) Daily Bulletin from #8 to #11 (after the round of 16, quarterfinal and semifinal days)

- Cover sheet
- For each tournament (women's, than men's)
  - Daily Review (N89)
  - Tournament Ranking [B4] (C76B)
  - Results Brackets - Final Phase [B4] (C75)
  - Results Summary [B4] (C74)
  - Team Ranking by Skill [B6] (C85A)
  - Player Ranking by Skill [B5] (C85B)
  - Daily Preview (N89)
- Competition Daily Schedule (C58)
- Training Schedule (C07)
- Weather (C49)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

(e) Daily Bulletin #12 (after the last day of the women's tournament)

- Cover Sheet
- Medallists (C92B) - for women
- Daily Review (N89) - for women
- Tournament Ranking [B4] (C76B) - for women
- Results Brackets - Final Phase [B4] (C75) - for women
- Results Summary [B4] (C74) - for women
- Team Ranking by Skill [B6] (C85A) - for women
- Player Ranking by Skill [B5] (C85B) - for women
- Daily Preview (N89) - for men

- Competition Daily Schedule (C58)
- Weather (C49)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

(f) Daily Bulletin #13 (final bulletin, after the last day of the men's tournament)

- Cover Sheet
- Medallists (C92B)
- Daily Review (N89)
- Tournament Ranking [B4] (C76B)
- Results Brackets - Final Phase [B4] (C75)
- Results Summary [B4] (C74)
- Team Ranking by Skill [B6] (C85A)
- Player Ranking by Skill [B5] (C85B)
- Official Communication (C67) (if produced)
- Sport Communication (C68) (if produced)
- Internal FIVB Control Committee communications (provided by the FIVB)

The FIVB Technical Delegate must sign-off each Daily Bulletin before its distribution.

These bulletins will be distributed to the FIVB President and the FIVB Secretary General, the FIVB Technical Delegates, the FIVB Control Committee members, the teams, sports information desks (Olympic Village and venue), the IBC (recipients to be determined), the venue press manager, and to international and national technical officials.

## **3 News Service and Background Information**

Data for all Biographies and Historical Results will be supplied by the IOC to the OC.

The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

The FIVB agrees to supply all requested data, in accordance with a schedule agreed between the parties.

The FIVB cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the FIVB and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the FIVB and the third party provider. Schedules may be different depending on the type of data.

The FIVB wishes to validate part or all of the final data delivered by the provider. In that case, the FIVB and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live.

The provider will update data after final delivery as required (corrections, information updates, etc.). The IOC will act as a facilitator between the FIVB, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the FIVB and all NOCs, in an agreed format.

### **3.1 Historical Results**

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)

### **3.2 Biographies and Profiles**

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Team Profile (N22)
- Referee Biography (N23)
- NOC Profile (N24)

## **3.3 Facts and Figures**

### **3.3.1 Beach Volleyball Background Information**

Data for the Beach Volleyball background information will be developed by ONS, in cooperation with the OC Competition Management and the FIVB Beach Volleyball Events Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - FIVB - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the FIVB Beach Volleyball Events Director will immediately inform ONS who will update the information within one (1) working day.

### **3.3.2 Technical Background Information**

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the FIVB Beach Volleyball Events Director well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the FIVB Beach Volleyball Events Director for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the FIVB Beach Volleyball Events Director will update the information within one (1) working day.

## **3.4 News**

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

### **3.4.1 Pre-competition News**

#### **3.4.1.1 Previews**

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Beach Volleyball Working Group recommends that ONS at the Beach Volleyball venue produces the output:

- Sport Preview (N89)

and every evening for the following days, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

### **3.4.2 News During and After Competition**

Media covering Beach Volleyball events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

#### **3.4.2.1 Flash quotes**

Throughout the Games ONS should produce quotes from players, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

#### **3.4.2.2 Press conference highlights**

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

#### **3.4.2.3 Reviews**

ONS should produce competition highlights in the outputs:

- Match Review (N89)
- Daily Review (N89)
- Sport Review (N89)

## **3.5 Media Communications**

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

*This page intentionally left blank.*

# Section 1 - Printable Outputs

## 1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

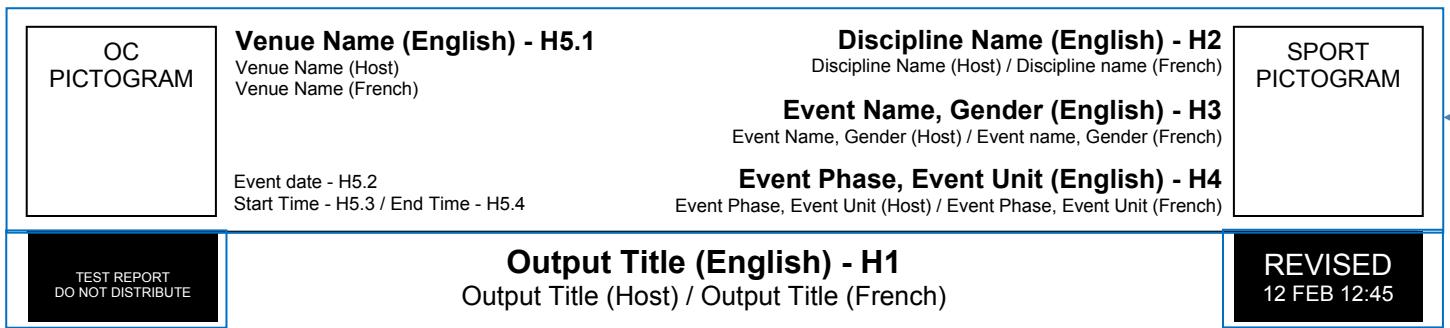

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

*This page intentionally left blank.*

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.  
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

## Output body

### Content information:

The content for this part of the output is defined in each appropriate ORIS output.  
The requirements set in ORIS need to be met.

### Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

## L&S - Look and Structure of Outputs

### Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

### Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

#### Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

## Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

## Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup> , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

## Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

<b>Jury</b>		<b>Technical Data</b>		
TD FIS	KROGOLL Peter	GER	Franz's GS	
Referee	SKAARDAL Atle	FIS	1177m	
Chief of Race	HOLLIDAY Bruce	CAN	805m	
Start Referee	KLAMMER Herbert	ITA	372m	
Finish Referee	PALOVICOVA Jana	SVK	8654/11/07	

The corresponding data matrix levels are:

7 (n)	For each jury member	--		
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG	
7.2	Family name	M	Text	
7.3	Given name	M	Text	
7.4	NOC code	M	Standard IOC NOC code or "FIS"	
8	<b>Technical data</b>	--		
8.1	Course name	M	Text	
8.2	Start altitude	M	Numeric	
8.3	Finish altitude	M	Numeric	
8.4	Vertical drop	M	Numeric	
8.5	Course length	Mc	Numeric (N/A for GS and SL).	
8.6	Homologation number	M	Text	

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

**Number of Competitors: 86, Number of NOCs: 47**

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	<b>HOELZL Kathrin</b>	1984	GER	
2	205218	<b>REBENSBURG Viktoria</b>	1989	GER	
3	185140	<b>POUTAINEN Tanja</b>	1980	FIN	
4	55838	<b>ZETTEL Kathrin</b>	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric	
11	Number of NOCs	M	Numeric	
12 (n)	For each competitor	--		
12.1	Bib number	M	Numeric	
12.2	FIS code	M	Numeric	
12.3	Family name	M	Text	
12.4	Given name	M	Text	
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard	
12.6	NOC code	M	Standard IOC NOC code	
12.7	Time	M	Space	

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

### Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

<b>Note:</b>	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
<b>Legend:</b>						
DH	Downhill	<b>GS</b>	Giant Slalom	<b>SC</b>	Super Combined	<b>SG</b>
SL	Slalom	<b>WCSL</b>	Overall points	<b>YB</b>	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	<b>Note with static text</b>			M	Text	
9 (n)	<b>Note for each predefined text</b>			--		
9.1	Predefined text			--	NOT APPLICABLE	
10 (n)	<b>Legend</b>			--		
10.1	Abbreviation			Mc	Code	
10.2	Description of abbreviation			Mc	Text	
11	<b>Free text</b>			Ma	Text	

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

### Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

### Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.  
Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

**Note:**

Truncated names are indicated with an \* and must be checked carefully.

**Legend:**

- Information not available      (c) Captain

## C38 - Entry Data Checklist

Description	Detailed list of all teams and players. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Gender (female first) 3 - Team identification 4 - Function (team, athlete) 5 - Shirt number
Page break	Break at "Condition = NOC code" on a new page with repeated output headings and column headings. Within "NOC code" break at "Group = Team identification" on a new page with repeated output headings and column headings.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available (c) - Captain  To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the FIVB/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations.  Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document").  Need ability to print the output for a single NOC.  The layout of this output may be either in portrait or landscape, as required.

**OFFICIAL COMMUNICATION  
BEACH VOLLEYBALL  
MEN**

**Item: 35**

**Schedule change**

**The Men's competition has been rescheduled**

**Summary:**

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

**Details:**

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Beach Volleyball Men's competition has been rescheduled to 9:00 tomorrow.

Issued by: FIVB Technical Delegate  
Time: 11:00  
Date: 5 AUG 2016

This decision affects: Results  
Schedule  
Other

X

**Note:**

For more details contact the FIVB Office.

## SPORT COMMUNICATION BEACH VOLLEYBALL

Item 35

### IOC Rule 50 (Reminder)

#### Manufacturer identification on clothing and equipment

##### **Summary:**

The National clothing must fully comply with IOC rule 50, in all aspects.  
This applies to all competition at the Rio 2016 Olympic Games.

##### **Details:**

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the FIVB Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, the FIVB assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: FIVB Technical Delegate  
Time: 21:10  
Date: 5 AUG 2016

Schacht/Slack (AUS)	Match 50 15 AUG 21:30	<b>Prosser/Williams</b> <b>2-1 (16:21, 21:19, 15:10)</b>	<b>Bye</b>
Match 46 12 AUG 22:30	0-2 (19:21, 12:21)	Dieck/Scheuerpflug	
Dieck/Scheuerpflug (GER)			
			<b>Match 53</b> <b>Bronze Medal Match</b> <b>18 AUG 19:30</b>
			<b>Prosser/Williams</b> <b>Bronze Medal</b>

**Legend:****DSQ** Disqualified**INJ** Injury

The winner of the first semifinal, Heuscher/Kobel (SUI), has been disqualified for uniform violation. Ricardo/Emanuel (BRA) advance to the final match.

**B4 RESULTS BRACKETS - FINAL PHASE****MEN**

As of 18 AUG 2016 at 23:05

No gold medal and bronze medal matches took place due to disqualification of Ricardo/Emanuel (BRA) and Heuscher/Kobel (SUI) for doping violation.

## C75 - Results Brackets - Final Phase [B4]

Description	Results bracket for Beach Volleyball competition - Final phase
Source	OC Technology
Sort by	1 - Match number
Page break	None, aim for a single page
Notes	<p>Note with static text: See sample</p> <p>Note with predefined text: None</p> <p>Free text: See Appendix C - Rules for Data Formats and Presentation</p>
Legend	<p>Use the following description for abbreviations which appear in the output:</p> <p>DSQ - Disqualified</p> <p>INJ - Injury</p> <p>TBD - Date/time to be determined</p> <p>To be displayed at the bottom of the page.</p>
IRM rules	None
Comments	<p>Winning teams should be shown in bold text.</p> <p>After the last match of the pool round is finished the output should display the winners of each pool placed in the bracket predefined position (A1, E1, D1, C1, F1 and B1).</p> <p>The remaining ten teams will be placed in the bracket according to the draw, ensuring that they do not meet teams from their preliminary round pool. The ten teams in the draw are: the six teams placed 2<sup>nd</sup> in each pool; the best two 3<sup>rd</sup> ranked teams (ranking based on match points, set and points ratio); and the two winners of the lucky loser round.</p> <p>This output will be updated dynamically at the end of each match in the final phase of competition.</p> <p>Display in bracket format.</p> <p>Best of three sets and rally score system applied.</p> <p>After each match, the winner's path should be highlighted. At the end, only the gold medal winner's path should be highlighted.</p> <p>In the INFO system each bracket will be split into logical parts that fit onto the screen. Navigation to a particular part should be established by clicking on the special icon that will appear on the screen when the user asks for this output. This icon should look like a small bracket showing the parts into which that bracket is split.</p> <p>The INFO system should update this output at the completion of the preliminary phase, after the draw for the final phase and after each match of the final phase is completed.</p> <p>The INFO system should also update this output each time schedule data becomes available or schedule data changes in the final phase.</p> <p>There are eight samples:</p> <ol style="list-style-type: none"> <li>1. Before the competition start until the end of preliminary phase (before LL matches)</li> <li>2. After the last matches of the pool and the lucky loser round to be used for the draw for the final phase</li> <li>3. After draw without times (before LL matches)</li> <li>4. 30 minutes after draw with times before end of LL matches</li> <li>5. After LL matches</li> <li>6. With results updated during the final phase of competition</li> <li>7. With results updated after the semifinals, with one disqualified team (not for doping violation)</li> <li>8. With results updated after the semifinals, with two disqualified teams for doping violation in the same match</li> </ol> <p>New presentation of results in sample 8 is pending FIVB decision. If it is approved all the remaining samples will be updated accordingly.</p>

q Qualified as best 3rd

Sfyri/Karadassiou (GRE) has been disqualified for misconduct and unsportsmanlike behaviour.

## C76A - Results Table (Preliminary Phase [B4])

Description	Table of round robin group with match schedule and results of completed matches in the preliminary phase finalised to the date
Source	OC Technology
Sort by	Initial pool: 1 - Team seeding position Pool results: 1 - Date 2 - Time 3 - Match number Pool ranking: 1 - Rank Lucky loser round: 1 - Match number
Page break	Break at "Group = Pool information" on a new page with repeated output headings and column headings
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: DSQ - Disqualified INJ - Injury TBD - To be determined q - Qualified as best 3rd  To be displayed at the bottom of the page.
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	Match duration is the total match time calculated from the starting time of the match until the end time.  Ratios will be calculated to three decimal points. If the number of losses is zero, the value is "MAX".  If a match is forfeited, "FORFEIT" will be shown next to the team.  The top two teams from each pool, the two best ranked 3 <sup>rd</sup> teams (rank based on the match points, set and points ratio) and the two lucky loser winners, all qualify to the round of 16. The two lucky loser matches will be played between the four 3 <sup>rd</sup> ranked teams from the pool round who did not qualify to the round of 16. The matches will be set according to their ranking (3 <sup>rd</sup> vs 6 <sup>th</sup> and 4 <sup>th</sup> vs 5 <sup>th</sup> ).  There are four samples: 1. Before the tournament 2. During the preliminary phase 3. After the matches in pool and the lucky loser matches assigned 4. After the preliminary phase completed - before the draw for the final phase

## C85A - Team Ranking by Skill [B6]

Description	Ranking of teams by scoring and non-scoring skills for Beach Volleyball
Source	OC Technology
Sort by	<p>For "Service" table: 1 - Service aces 2 - Matches played 3 - Service attempts 4 - NOC code        5 - Team name</p> <p>For "Attack" table: 1 - %Successes 2 - Successes 3 - Matches played 4 - Attempts        5 - NOC code 6 - Team name</p> <p>For "Block" table: 1 - Successes 2 - Matches played 3 - NOC code 4 - Team name</p> <p>For "Dig" table: 1 - Successes 2 - Matches played 3 - Attempts 4 - NOC code 5 - Team name</p> <p>For each new "Stats": 1 - ... 2 - ...</p>
Page break	None, aim for a single page
Notes	<p>Note with static text: None</p> <p>Note with predefined text: None</p> <p>Free text: See Appendix C - Rules for Data Formats and Presentation</p>
Legend	<p>Use the following description for abbreviations which appear in the output:</p> <p>DSQ - Disqualified</p> <p>NR - No Rank</p> <p>Rk - Rank</p> <p>To be displayed at the bottom of the page.</p>
IRM rules	See Appendix C - Rules for Data Formats and Presentation
Comments	<p>Output will be dynamically updated at the end of each match.</p> <p>For ties in primary ranking, the ranking will not be repeated. Only when sorting criteria has been exhausted the ranking will be repeated. Teams will be sorted according to the sorting criteria (refer to "Sort by").</p> <p>Teams with no matches played will not be displayed.</p>

Level	Data Item	M/D	Comments
1	<b>Output title (H1)</b>	M	FIVB output code "B6" and text
2	<b>Sport discipline (H2)</b>	M	Text
3	<b>Event/Gender (H3)</b>	M	Standard FIVB event name
4	<b>Phase &amp; event unit (H4)</b>	--	NOT APPLICABLE
5	<b>Venue - date - start time - end time (H5)</b>	--	
5.1	Venue name (H5.1)	--	NOT APPLICABLE
5.2	Event date (H5.2)	--	NOT APPLICABLE
5.3	Event start time (H5.3)	--	NOT APPLICABLE
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	<b>As of date/time (H6)</b>	M	Date/time - in the format defined in the OC Look and Feel standard
7	<b>Subtitle - date</b>	M	Text - Date (in the format defined in the OC Look and Feel standard) of last matches included in the output
8	<b>For service</b>	--	
8.1 (n)	For each team in the tournament	--	Only teams with one or more matches played will be displayed
8.1.1	Rank	M	Numeric or "NR" or IRM
8.1.2	Team name	M	Text
8.1.3	Team NOC code	M	Standard IOC NOC code
8.1.4	Matches played	M	Numeric
8.1.5	Service attempts	M	Numeric
8.1.6	Service aces	M	Numeric
9	<b>For attack</b>	--	
9.1 (n)	For each team in the tournament	--	Only teams with one or more matches played will be displayed
9.1.1	Rank	M	Numeric or "NR" or IRM
9.1.2	Team name	M	Text
9.1.3	Team NOC code	M	Standard IOC NOC code

Level	Data Item	M/D	Comments
9.1.4	Matches played	M	Numeric
9.1.5	Attack attempts	M	Numeric

## **B5** PLAYER RANKING BY SKILL BEACH VOLLEYBALL MEN

As of 18 AUG 2016 at 22:23

Legend:	
NR	No Rank

## C85B - Player Ranking by Skill [B5]

Description	Ranking of player's individual skills for Beach Volleyball
Source	OC Technology
Sort by	For "Scoring" table: 1 - Total points 2 - Sets played 3 - NOC code 4 - Shirt name For "Service" table: 1 - Service aces 2 - Matches played 3 - Service attempts 4 - NOC code 5 - Shirt name For "Fastest Serve": 1 - Speed (Km/h) 2 - NOC code 3 - Shirt name For "Attack" table: 1 - %Successes 2 - Successes 3 - Matches played 4 - Attempts 5 - NOC Code 6 - Shirt name For "Block" table: 1 - Successes 2 - Matches played 4 - NOC code 5 - Shirt name For "Dig" table: 1 - Successes 2 - Matches played 3 - Attempts 4 - NOC code 5 - Shirt name For each new "Stats": 1 - ... 2 - ...
Page break	Break at "Group = Tables (Scoring) then (Service and Fastest Serve)" on a new page with repeated output headings and column headings. Within "Tables", aim for a single page.
Notes	Note with static text: None Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: NR - No Rank Rk - Rank  To be displayed at the bottom of the last page.
IRM rules	None
Comments	Output will be dynamically updated at the end of each match.  For ties in primary ranking, the ranking will not be repeated. Only when sorting criteria has been exhausted the ranking will be repeated. Players will be sorted according to the sorting criteria (refer to "Sort by").  Players with no matches played will not be displayed.

# COMPETITION FORMAT AND RULES

## BEACH VOLLEYBALL

**As of 23 JUN 2016**

### **Olympic Competition Format**

The Olympic competition for Men and Women consists of two phases - the preliminary phase and the final phase. A total of 24 men and 24 women grouped in two-player teams will take part in the competition. In total, 108 matches will be played (54 men's and 54 women's).

#### **Preliminary phase**

The preliminary phase will consist of six pools of four teams each in a round robin format, followed by the lucky loser round.

Seeding of the teams and pool allocation will be determined by a draw to be conducted by the FIVB in cooperation with Rio 2016 no later than one week before the start of the competition.

A total of 16 teams will qualify to the final phase for each of the men's and women's events.

- The first two ranked teams from each pool advance automatically to the final phase - 12 teams qualify
- The best two teams that ranked third will also advance automatically to the final phase - 2 teams qualify
- The four remaining third ranked teams will play a two match lucky loser round (3<sup>rd</sup> vs 6<sup>th</sup> and 4<sup>th</sup> vs 5<sup>th</sup>) - 2 teams qualify

#### **Final phase**

The 16 men's and 16 women's teams advancing to the final phase will play a single elimination system - a head-to-head match from which the winner advances to the next round, the loser is eliminated from the competition.

Seeding of the teams will be in accordance with the FIVB regulations.

The pool winners (six teams) will be placed in predefined positions in the final phase bracket (A1, E1, D1, C1, F1, B1). The remaining ten teams will be placed in the bracket according to the draw. These ten teams comprise the six teams that placed 2<sup>nd</sup> in each pool, the best two 3<sup>rd</sup> ranked teams, and the two winners of the lucky loser round.

### **Differences between FIVB World Championships World Championships and the Olympic Games**

The World Championships currently has 48 teams per gender. Divided into 12 pools of four teams each, the top two in each pool and the eight best third-placed teams qualify for a round of 32. There is no Lucky Loser play-off.

Four teams per NOC (and six teams for the host NOC) are allowed in the World Championships. Only two teams per gender per NOC are allowed at the Olympic Games.

An automatic seeding system is used at the World Championships.

Results at the Olympic Games do not count towards world rankings.

### **Changes since the London 2012 Olympic Games**

None

### **Sport Rules and Procedures**

#### **Scoring**

Each match is the best of three sets. The first two sets are played to 21 points and the third set, if needed, is played to 15 points. All sets require a two-point advantage (which is unlimited) to win.

Beach Volleyball uses the rally point system (sometimes referred to as RPS) where the team winning a rally scores a point regardless of which team is serving. When a team wins a rally, it gains a point and the right to serve.

At the completion of each match during the pool stage, two points will be awarded to the winner, one point will be awarded to the loser. Zero points are awarded to a forfeited team.

### **Ranking in Pools**

Ranking in the pools will be determined by the total number of points. If a tie should occur during the team ranking process, the following processes will be followed.

During the preliminary phase:

Between two teams:

- If teams have played against each other, the winner of the head to head match is ranked higher
- If teams concerned have not played against each other, their ranking is determined by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

Between three teams:

- If three teams are tied by points, their ranking is determined by the points ratio in the matches between the three tied teams
- If still tied then the tied teams are ranked by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

Between four teams:

- The ranking is determined by the points ratio between all teams in the pool
- If still tied then the teams will share the same rank

At the end of the preliminary phase:

Between two teams:

- The winner of the head to head match is ranked higher

Between three teams:

- The ranking is determined by the points ratio in the matches between the three tied teams
- If still tied then their ranking is determined by the points ratio between all teams in the pool
- If still tied then their ranking is determined by a draw

### **Definition of 3<sup>rd</sup> Ranked Pool Teams**

All 3<sup>rd</sup> ranked teams from the pools will be ranked according to their match points, set and points ratio. If two or more teams are tied their ranking will be determined by a draw.

The two best 3<sup>rd</sup> ranked teams from the pools will qualify directly to the final round.

The remaining four 3<sup>rd</sup> ranked teams from the pools will play in the two lucky loser matches. The matches will be set according to their pool ranking (3<sup>rd</sup> vs 6<sup>th</sup> and 4<sup>th</sup> vs 5<sup>th</sup>).

### **Protests - Appeals**

Disputes will be resolved under the FIVB regulations. The FIVB Control Committee will make decisions in accordance with the FIVB regulations.

All protests and appeals must be lodged with the FIVB Control Committee in writing no later than sixty minutes after the end of the match and should be accompanied by a deposit of 500 dollars.

Protests based on the rules of the game will be studied and resolved by the referee delegate and passed on to the FIVB Control Committee not later than six hours after the protest is submitted. A final verdict will be given by the jury not later than twelve hours after the protest is submitted or at the latest, before the start of the following match of the team concerned.

FIVB Control Committee members of the same nationality as the team making a protest will be excluded from the deliberations when the protest is being studied.

## FIVB Control Committee

The judges and jury for Beach Volleyball are chosen in accordance with the FIVB regulations.

The FIVB Board of Administration will appoint ten FIVB control committee members, two Technical Delegates and one referee delegate who will also perform the duties of jury of appeal for Beach Volleyball.

The FIVB will be responsible for the technical control and direction of the Olympic Beach Volleyball competition.

## Appointment of Referees

There will be a total of 16 referees for Beach Volleyball. The FIVB will be responsible for appointing all referees and a sufficient number of competition officials, ten international referees from the FIVB pool and up to four referees from the host international pool. The FIVB will be responsible for appointing referees for each match.

## Beach Volleyball Rules

The Beach Volleyball competition at the Rio 2016 Olympic Games will be held in accordance with the Official Beach Volleyball Rules, Edition 2013-2016 and the Olympic Charter in force at that time.

The FIVB assumes the responsibility for technical control and direction of its sport at the Olympic Games.

The Official Beach Volleyball Rules are available from the FIVB and may be found on their website <http://www.fivb.org>.

## Penalties / Disqualification Rules

In accordance with the FIVB Official Volleyball Rules

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

### Note:

For further information please consult: [www.fivb.org](http://www.fivb.org).

# ATHLETE BIOGRAPHY

## BEACH VOLLEYBALL

**As of 5 AUG 2016**

### **Profile**

<b>&lt;picture&gt;</b>			
<b>Name:</b>	BRUNO BEDE Shelda Kelly	<b>Nickname:</b>	Shelda
<b>Gender:</b>	Female	<b>NOC code:</b>	BRA
<b>Date of birth:</b>	1 Jan 1973	<b>Place of birth:</b>	Fortaleza - Ceara (Brazil)
<b>Residence:</b>	Logoa Rio de Janeiro (Brazil)	<b>Height</b>	1.65 / 5'4"
<b>Occupation:</b>	Beach Volleyball player	<b>Major injuries:</b>	Surgery of the right hand. Duration of injury six months.
<b>Language(s) spoken:</b>	Portuguese and English	<b>Social media:</b>	<a href="http://www.BedeShelda.branet.br">www.BedeShelda.branet.br</a>
<b>Hobbies:</b>	Reading, surfing, listening to music and having dinner with friends		
<b>International debut:</b>	1996	<b>Previous Olympic Games competed in:</b>	Athens 2004, Beijing 2008
<b>Shirt number:</b>	2	<b>Shirt name:</b>	Shelda
<b>Specialist position:</b>	Defender/Passing from right	<b>Teammate:</b>	BRANDAO BEHAR Adriana
<b>Handedness:</b>	Right	<b>Previous teammates:</b>	PIRES Sandra
<b>Prize money total:</b>	USD 897,408		

### **Major Achievements**

<b>Olympic Participation:</b>			
Previous Olympic Games:	2	<b>Number of matches played:</b>	12
Played for:	BRA	<b>Year, location, rank:</b>	2004, Athens (GRE), Silver
<b>World Championship Participation:</b>			
Previous World Championships:	5	<b>Number of matches played:</b>	19
Played for:	BRA	<b>Year, location, rank:</b>	1997, Osaka (JPN), Bronze
<b>Pan American Games Participation:</b>			
Previous Pan American Games:	1	<b>Number of matches played:</b>	9
Played for:	BRA	<b>Year, location, rank:</b>	2011, Guadalajara (MEX), Gold
<b>World Tour Participation:</b>			
Previous World Tour events:	89	<b>Number of matches played:</b>	298
Played for:	BRA	<b>Word Tour victories:</b>	29

### **General Interest**

I like to concentrate one hour before matches starting with a stretching session.

I pray every day.

Ambitions: The Olympic Games and to win a gold medal. After, to give support to other players.

**Rio 2016 Results**

### Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

## HISTORY BEACH VOLLEYBALL

### Origin of Beach Volleyball

Beach Volleyball originated on the beaches of Santa Monica, California, USA during the 1920s.

Within ten years the game had spread to Europe and by the 1950s the first organised tournaments were taking place in USA and Brazil. The first organised championships were held in California in 1976.

The Federation Internationale de Volleyball (FIVB) recognised Beach Volleyball as an official discipline of Volleyball in 1986 and a year later, the first international FIVB-sanctioned Beach Volleyball tournament was held on Ipanema Beach in Rio de Janeiro, Brazil.

### Beach Volleyball Today

Beach Volleyball is one of the most entertaining sports in the world, with cheerleaders, DJs and explosive action all part of the prestigious FIVB World Tour. The FIVB World Tour consists of around 30 events in Europe, Africa, Asia and the Americas with more than 7.5 million USD (US Dollars) in prize money available.

There are 220 National Volleyball Federations which have Beach Volleyball activities and the FIVB estimates there are more than 2,000 professional players worldwide.

### Beach Volleyball at the Olympic Games

Beach Volleyball made its official debut at the Atlanta 1996 Olympic Games.

The sport has been dominated by USA, who have won five of the eight gold medals. Brazil (twice) and Australia are the other nations to have won an Olympic gold medal in Beach Volleyball, while China, Canada, Spain, Germany and Switzerland have all featured on the podium.

One of the most successful pairings in Olympic history is USA's Misty MAY-TREANOR and Kerri WALSH. The American duo won the gold medal at both the Athens 2004 Games and the Beijing 2008 Games without losing a single set - a flawless run of 14 matches.

...

### Beach Volleyball in Brazil

Brazil is not only dominating the sport professionally, as their many Olympic medals show, but Beach Volleyball is one of the most popular sports among amateur players, especially in Rio where a beach is never too far away.

Most schools mix different levels of Beach Volleyball players as well as men and women, so everyone can join them and improve their game.

The Brazuka Gringo group is a social event. Current players are from all around the world, so one can exchange experiences about life in Brazil or ask the Brazilians about their country.

## MEDIA INFORMATION BEACH VOLLEYBALL

### Facilities

There are 150 working places for news media, 120 workings places in the press workroom and 30 working stations in the photo work area.

The Venue Media Centre is located approximately 100 meters from the playing courts.

### Interviews

Journalists may meet players in the mixed zone as they exit the field of play.

### Photographer positions

Photographers may shoot from designated positions listed in the Media Guide. In addition, photographers may stop briefly to take pictures from any public area as long as they are not blocking the view of any spectator. Special positions may be arranged in cooperation with the venue Press Manager and Photo Manager.

### Sub-Centre

A full-service venue media centre supporting journalists covering Beach Volleyball is available at the venue with access to a complete results and information service (INFO2016), television monitors, working positions, telephones, fax, printers, photo copiers and food service. There are 23 pay phones in the press workroom and another five pay phones in the photo workroom. The centre telephone number is (000) 0000000/00 and the fax number is (000) 0000000.

### Venue Press Manager

**FLASH QUOTES  
BEACH VOLLEYBALL  
MEN  
GOLD MEDAL MATCH**

**News Item: 117**

Comments from Germany's Beach Volleyball players Julius BRINK/Jonas RECKERMANN following their 2-1 (23-21, 16-21, 16-14) win over Brazil's Emanuel REGO/Alison CERUTTI in the men's gold medal match at Copacabana Stadium on Thursday.

**Julius BRINK (GER) - Gold**

***On coming back from losing the second set:***

"It is great that we have been through that experience before. When I was doubting that we could win, Jonas was there, saying come on. Even when it was going badly, whether we win or lose one ball, just 'come on'. And we dragged ourselves back into the match."

**Jonas RECKERMANN (GER) - Gold**

***On how it feels to have won gold at the Rio 2016 Olympic Games:***

"We need time to take this in. It is unbelievable. There were so many ups and down during the match and I can't believe that we won."

***On the difference between this and the last four times they faced, and lost to, the Brazilian team:***

"This time we fought until the very end. We didn't let the match get out of our hands. We were more controlled than before, just thinking about the next point. We have been working with a sports psychologist to help keep our heads clear, because there are always doubts."

## QUOTES OF THE DAY

News Item: 117

### A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

*Givenname FAMILYNAME (NOC) on the sights in the Olympic Village*

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

*Gold medallist Givenname FAMILYNAME (NOC) on her latest victory*

"There are a lot of countries here. I don't even know where half of them are on the map."

*The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)*

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

*Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)*

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

*Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games*

"I did not concentrate on my opponent. I only concentrated on my coach."

*Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost*

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

*Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)*

**PRESS CONFERENCE HIGHLIGHTS**  
**BEACH VOLLEYBALL**  
**MEN**  
**GOLD MEDAL MATCH**

News Item: 119

**Julius BRINK (GER) - Gold**

***On what they did between winning the match and the medal ceremony:***

"We had to change clothes and hug as many people as we could in the 15 minutes we had before the ceremony. Because of broadcast media there are a lot of demands on us. It was tough to find our families, our wives or girlfriends."

***On if this win will change them:***

"We will not change our personalities, but this has been a big push to the sport. We are really happy for ourselves and for our team, and everyone surrounding us. The German federation really supported us."

...

**Jonas RECKERMANN (GER) - Gold**

***On the match:***

"It was a big, big match for us and the sport. The drama was unbelievable. I have too many impressions, too many emotions right now."

***On their opponents:***

"They have been the best team in the last few years, but we always knew we had a chance. EMANUEL is the best player ever, the most successful. He is a living legend. It was great to meet them in the Olympic final. ALISON and (Philip) DALHAUSER (USA) are the best blockers in Beach Volleyball."

...

**Emanuel REGO (BRA) - Silver**

***On the atmosphere of the Olympic final:***

"What a final. I think it was more than an experience. The fans were so intense. I think there must be 15,000 satisfied fans, there were so many flags waving. Beach Volleyball means that to me, it was a party."

***On the match:***

"It was a tough battle. ALISON and I did what we needed to do, but it wasn't enough. If we had won the first set, maybe it would have been different."

...

**Alison CERUTTI (BRA) - Silver**

***On the match result:***

"The German team is a great team and deserve our respect. In the first set we made some mistakes, in the second we were better. In the tie break we came back from three match points and that shows that our team never gives up. Losing is never good, but that is life. We have no excuses, we are sad, but happy that we never gave up throughout the tournament."

## SPORT PREVIEW

### BEACH VOLLEYBALL

#### News Item: 1

The men's Beach Volleyball tournament gets underway at Copacabana Stadium on Saturday with the USA pairing of Todd ROGERS/Phil DALHAUSSER striving to repeat of their gold medal performance at the Beijing 2008 Olympic Games.

- The duo have been a long-standing force in the sport, claiming 17 first place finishes on the FIVB World Tour since that memorable day in Beijing. Their most recent tour wins came in 2012 at Shanghai and Brasilia.
- Despite DALHAUSSER withdrawing from last week's A1 Grand Slam in Klagenfurt, Austria with an ankle strain, the USA team are expected to be a strong force. They line up in the Pool B competition, which also includes Czech Republic, Japan and Spain.
- One team looking to halt the USA's charge towards back-to-back gold medals is Emanuel REGO/Alison CERUTTI (BRA). REGO won gold at the Athens 2004 Olympic Games and is a two-time FIVB Beach Volleyball world champion.
- The duo started playing together in 2008, but it wasn't until 2011 that their work started to reap rewards. REGO/CERUTTI won the 2011 FIVB world championships in Rome and further golds followed in Gstaad and Moscow, ensuring their finish as world tour champions. They are expected to top a group that includes Italy, Switzerland and Austria.
- Elsewhere, in Pool E, Netherlands pairing of Reinder NUMMERDOR/Richard SCHUIL have hit form at the right time. They won the A1 Grand Slam at Klagenfurt. They arrive with Olympic experience too, having made the quarterfinals at Beijing 2008.
- Great Britain hopes rest with John GARCIA-THOMPSON/Steve GROTOWSKI, though the British team face tricky opponents in Pool F in the form of Ricardo SANTOS/Pedro CUNHA (BRA). SANTOS is one of the most decorated Beach Volleyball players. He won silver at Sydney 2000, gold at Athens 2004 and bronze at Beijing 2008.
- In Pool D, the men's USA pairing of Jacob GIBB/Sean ROSENTHAL could make a big impression on the tournament. They claimed their spot at Copacabana Stadium, and USA's second and final placing by reaching the semifinals of the Smart Grand Slam in Rome. That performance beat the result of their rivals and fellow Olympic qualification hopefuls, Matthew FUERBRINGER/Nicholas LUCENA (USA).
- Jonas RECKERMANN/Julius BRINK (GER) are the other strong contenders in this tournament, having won a bronze medal at the 2011 world championships. In 2011 they won seven medals in 10 events. In their first FIVB world tour event of 2012 in Moscow they finished fourth.

## DAILY PREVIEW BEACH VOLLEYBALL MEN

**THU 18 AUG**

**News Item: 14**

The German duo of Julius BRINK/Jonas RECKERMANN take on the top seeded team of ALISON/EMANUEL (BRA) at the Rio 2016 Olympic Games in a potentially thrilling climax to the men's tournament at Copacabana Stadium on Thursday.

**Gold medal match - Julius BRINK/Jonas RECKERMANN (GER) vs EMANUEL/ALISON (BRA) -**

- When BRINK/RECKERMANN secured their place in the final of the Men's Beach Volleyball tournament at Copacabana Stadium. Their place in the final is deserved. They have looked strong throughout the competition and have struck a rich seam of form to get this far.
- Their opponents, EMANUEL/ALISON carry a tough blend of strength and match-winning experience. The German team will have to prolong their hot streak if they're to have any hope of making it to the podium top on Thursday night.

**Bronze medal match - Martins PLAVINS/Janis SMEDINS (LAT) vs Reinder NUMMERDOR/Rich SCHUIL (NED)**

- In making it this far, SMEDINS/PLAVINS have already made Olympic Beach Volleyball history. No Latvian pairing has ever got this far in the sport and they went out only to the powerful Brazilian duo of ALISON/EMANUEL in the semifinals.
- Whether that defeat will halt their momentum remains to be seen. Netherlands were dealt a psychological piledriver when BRINK/RECKERMANN dismantled them in convincing manner on Tuesday night. They will need to find a tough inner resolve if they're to claim a bronze medal.

 Time: 10:30  
 Date: 18 AUG 2016

**MATCH REVIEW  
BEACH VOLLEYBALL  
MEN  
GOLD MEDAL MATCH**

**News Item: 23**

Julius BRINK/Jonas RECKERMANN (GER) beat Emanuel REGO/Alison CERUTTI (BRA) 2-1 (23-21, 16-21, 16-14) in their men's gold medal match at Copacabana Stadium on Thursday.

- BRINK/RECKERMANN reached the final on the back of a hot streak of form. EMANUEL, an Olympic champion, hasn't hit his typically high standards at Rio 2016, but the Brazilian duo have been powered by the strength and speed of his teammate, ALISON.
- The opening battles of the first set proved typically tight. Neither side could move into a significant lead and, after ALISON started the game with a kill block, Brazil and Germany traded leads with an exciting display of kills and acrobatic defensive play on the sand.
- After a series of crowd-pleasing rallies, the teams came together at 19-19 before a hefty ALISON spike blasted the German sand to give Brazil set point. The Germans drew level, Brazil advanced, then Germany took the advantage before a RECKERMANN kill fizzed off the line to give his team the first set in dramatic fashion.
- ALISON was ignited by the setback. He smashed kills into the German court and set EMANUEL up for effective spikes. Germany fell to his kill block at the net and Brazil moved into a 12-7 lead. No matter what BRINK/RECKERMANN tried, they were unable to get past ALISON at the front of the court and EMANUEL in defence. ALISON in particular was a powerful force and scored point after point to take the second set and draw the match level.
- The decider followed the same pattern as the first set. Neither team could push into a commanding lead and the scores were tied at 5-5 until an overhit spike from ALISON and a fiery kill from RECKERMANN pushed Germany into a 7-5 lead. Germany advanced further and RECKERMANN drew on the match-winning resolve that has served him so well in this competition to push his team into an 11-8 lead.
- What followed was pure Beach Volleyball theatre: EMANUEL, with all his Olympic experience, fired the ball into his side of the net. RECKERMANN began to dominate at the front of court and suddenly Germany were 14-11 ahead.
- With the gold medal almost out of reach, Brazil saved three match points, drawing level with an ALISON ace. RECKERMANN hit back with a kill, and the Copacabana Stadium crowd cheered louder than ever.
- When Brazil fired the ball out, BRINK/RECKERMANN became the second team to write themselves into the Olympic record books on Thursday.

## DAILY REVIEW

### BEACH VOLLEYBALL

### MEN

**THU 18 AUG**

**News Item: 75**

Germans and Latvians took gold and bronze medals in the most exciting day of Beach Volleyball competition at the Rio 2016 Olympic Games.

#### **Bronze medal match - Martins PLAVINS/Janis SMEDINS (LAT) vs Reinder NUMMERDOR/Rich SCHUIL (NED)**

- Martins PLAVINS/Janis SMEDINS (LAT) beat Reinder NUMMERDOR/Rich SCHUIL (NED) 2-1 (19-21, 21-19, 15-11) to take the bronze medal. The Latvian duo made history just by getting this far in the tournament - by winning this match their position as the best Beach Volleyball team in their country's history was furthered.
- PLAVINS in particular was in inspired form, but NUMMERDOR/SCHUIL responded strongly. SCHUIL's height and intelligence at the net helped them back into the set. NUMMERDOR's athleticism at the back of the court saved vital points and they won a set that looked beyond them at times.
- During the second, Latvia began to sense another upset on their impressive adventure at Rio 2016. Despite some strong work at the net from SCHUIL, it was the Latvians who reached set point with a spike from SMEDINS. He drew the game level at 1-1 in sets with a kill block to push the match to a decider.
- By the time NUMMERDOR blew a save at the sand to give his opponents match point in the third, PLAVINS/SMEDINS had a cushion of four points. NUMMERDOR then palmed his serve into the net to give PLAVINS/SMEDINS the match, a bronze medal and a little slice of Beach Volleyball history

#### **Gold medal match - Julius BRINK/Jonas RECKERMANN (GER) vs EMANUEL/ALISON (BRA)**

- The Rio 2016 Olympics Games waited until the final match of the tournament before delivering the best tie of the competition. BRINK/RECKERMANN beat EMANUEL/ALISON 2-1 (23-21, 16-21, 16-14) during a three set thriller that delivered drama and technical excellence in equal measure.
- Germany shocked the No.1-ranked team in the tournament by taking a one set lead with a strong, offensive display - RECKERMANN in particular delivered devastating kills. Brazil rallied and pulled the match level in the second, as ALISON used his strength, speed and guile to dominate the court and score kill after kill.
- The final set was pure Beach Volleyball theatre. The two teams wrestled for superiority before Germany hit gold medal point at 14- 11, but then the unexpected happened: Brazil won three on the bounce to draw the two teams level.
- RECKERMANN killed for yet another match point. And when Brazil fired the ball out, BRINK/RECKERMANN became the second team to have written themselves in the Olympic record book on Thursday. Alongside Latvia's groundbreaking win, Germany became the first European team in Olympic Beach Volleyball to win a gold medal. They also delivered a fitting and dramatic end to an enthralling tournament.

## SPORT REVIEW

### BEACH VOLLEYBALL

#### News Item: 15

Germans and Latvians took gold and bronze medals in the most exciting day of Beach Volleyball competition at the Rio 2016 Olympic Games.

- The Rio 2016 Olympic Games played host to a Beach Volleyball competition that delivered thrills, spills and a handful of upsets at Copacabana Stadium.
- The opening game of the competition set the tone when Anastasia VASINA/Anna VOZAKOVA defeated the highly-rated China team of ZHANG Xi/XUE Chen in a thrilling Pool B match in the women's event.
- What followed was a competition full of close matches and exciting clashes as the big guns of Misty MAY-TREANOR/Kerri WALSH (USA), April ROSS/Jennifer KESSY (USA), ZHANG/XUE (CHN), LARISSA/JULIANA (BRA) and Sara GOLLER/Laura LUDWIG (GER) made it through to the knockout stages in the women's competition.
- The Men's tournament stuck to a similar theme and the top-seeded pairings made it through their groups with barely a hitch. EMANUEL/ALISON (BRA), Todd ROGERS/Phil DALHAUSSER (USA), Julius BRINK/Jonas RECKERMANN (GER) and Reinder NUMMERDOR/Rich SCHUIL (NED) advanced with ease.
- The pool stages made heroes of some players: Aleksandrs SAMOILOVS of Latvia - nicknamed 'The Lion King' because of his wild hair - wowed the crowd and Daniele LUPO (ITA) gathered a reputation as being the most exciting blocker in the competition. Meanwhile, Doris SCHWAIGER/Stefanie SCHWAIGER (AUT) became the first and only team to win a set against MAY-TREANOR/WALSH in 12 years of Olympic competition.
- Elsewhere, the Australian duo of Nat COOK/Tamsin HINCHLEY and the Great Britain team of Shauna MULLIN/Zara DAMPNEY had the crowd support, but they were unable to match the raucous reception with wins.
- Once the competition had moved into the round of 16 matches and quarterfinals, the action really started to hot up. Both USA teams asserted their strength in the women's competition and were matched only by the brilliance of Laura LUDWIG (GER) and the much-fancied Brazilian duo of LARISSA/JULIANA.
- In the Men's competition, the big names began to topple and ROGERS/DALHAUSSER (USA) were knocked out by the impressive Lativan duo of Martins PLAVINS/Janis SMEDINS who became the most successful Latvian Beach Volleyball team in Olympic history by making it to the semifinals. Elsewhere, the German duo of Julius BRINK/Jonas RECKERMANN discovered a rich seam of form and powered their way into the final four alongside NUMMERDOR/SCHUIL and EMANUEL/ALISON.
- The semifinals in both competitions were packed full of excitement. In the Women's event, KESSY/ROSS defeated LARISSA/JULIANA to set up an all-USA final once MAY-TREANOR/WALSH nudged aside ZHANG/XUE, who had recovered their nerve after their opening day wobble. Brazil took the bronze medal match and MAY-TREANOR/WALSH powered past their compatriots in the final to win their third gold medal in three Olympics.
- The men delivered equal levels of adrenaline. BRINK/RECKERMANN defeated the attacking flair of NUMMERDOR/SCHUIL to join Brazil's EMANUEL/ALISON in the final. Latvia's PLAVINS/SMEDINS, their victims at the semifinal stage, went onto win the bronze medal, adding to their already historic achievements in this competition.
- The best was saved until last. NUMMERDOR/SCHUIL and EMANUEL/ALISON embarked on a three-set thriller that delivered technical brilliance and thrills in equal measure. BRINK/RECKERMANN - who have been in sparkling form all Games - won through 16-14 in a dramatic 16-14 final set. Their victory made them the first European team to win an Olympic gold in Beach Volleyball. A fitting climax to a wonderful competition.

## NEWS ARTICLE

**News Item: 96**

### **Big name withdrawals**

Defending Olympic champion Phil DALHAUSSER (USA) has pulled out of with a slight ankle strain after he and partner Todd ROGERS (USA) lost their semifinal against Reinder NUMMERDOR/Richard SCHUIL (NED).

DALHAUSSER/ROGERS forfeited their bronze medal match against compatriots Jacob GIBB/Sean ROENTHAL (USA).

Meanwhile the London-bound Chinese teams in both the men's and women's Rio Olympic Games have withdrawn due to medical reasons. The women's duo, ZHANG Xi/XUE Chen (CHN) forfeited at the semifinal stage, while XU Linyin/WU Penggen (CHN) pulled out at the quarterfinal round.

## IOC NEWS

**News Item: 168**

### **Beach Volleyball: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation**

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Beach Volleyball Men's tournament of the Rio 2016 Olympic Games.

Immediately after his participation in the match on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Beach Volleyball:
  - (i) is disqualified from the Men's tournament of the Rio 2016 Olympic Games where he placed 7th;
  - (ii) shall have his diploma in the above-mentioned event withdrawn; and
  - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. The FIVB is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

# Section 2 - Distribution Rules

## 1 Introduction

This section explains what Beach Volleyball information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Beach Volleyball. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the FIVB and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (FIVB Technical Delegate, FIVB office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

## 2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together.

## 2.1 Pre-Competition Activities

## 3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

### 3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code

## 4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Beach Volleyball sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

## 5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
ALLPD	After the lucky loser matches participants are decided
APP	After the preliminary phase
AQR	After a quarterfinal round
AR16	After the round of 16
ASR	After a semifinal round
ATM	After the general technical meeting
DAOVO	Daily after the Olympic Village opening
DIFO	Day FIVB and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EBSC	Evening before the start of 1 <sup>st</sup> day of competition
ECD	End of a competition day
ECDF	Evening before the 1 <sup>st</sup> competition day of the final phase
ECDP	Evening before a competition day for pool matches
EOD	End of day
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xEBCD	X (x) evening(s) before a competition day
xMAC	X (x) minute(s) after the competition
xMADA	X (x) minute(s) after the draw is approved
xMAE	X (x) minute(s) after the event
xMAJ	X (x) minute(s) after each jury or other official body decision
xMAL	X (x) minute(s) after the last event of that day
xMALA	X (x) minute(s) after the result of the last match of that day and gender is approved (except last day)
xMALMFA	X (x) minute(s) after the last match of the day in final phase is approved
xMALPA	X (x) minute(s) after the result of the last match in a pool is approved
xMAMA	X (x) minute(s) after match results are approved
xMAMFA	X (x) minute(s) after a match in the final phase is approved
xMAMRA	X (x) minute(s) after medal match results are approved
xMAGM	X (x) minute(s) after the end of the gold medal match
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes/a press conference
xMBF	X (x) minute(s) before a final
xMBM	X (x) minute(s) before the start of a match
WTH	Service starts three (3) days before the 1 <sup>st</sup> competition day, distributed one (1) hour before each session. The forecast for the next day is included in the daily bulletin at the end of the day.

# **Section 3 - Real Time Information**

## **1 Introduction**

This section of the document defines scoreboard layouts, sport specific real time data available through ODF and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the FIVB and the OC (and providers).

*This page intentionally left blank.*

## **2 Scoreboards**

### **2.1 General Rules**

#### **2.1.1 NOC Names**

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

#### **2.1.2 Players, Teams and Officials' Names**

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

In case of teams being presented on a single scoreboard line with insufficient available characters, names should be abbreviated by sharing the number of available characters as equally as possible to ensure maximum readability of both names. This may require that a shorter name is written in full, while a longer name is abbreviated.

### **2.2 Technical Specifications**

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the FIVB's approval.

## **2.3 Part A - Before the Event**

### **2.3.1 Welcome**

- What: Welcome screen for spectators as they arrive at the venue.  
Contains today's date, current time (HH:MM - real time), welcome text, discipline name, event name and start time of competition
- When: Before, during and after the match
- How: Static screen

### **2.3.2 Announcement**

- What: Screen shows an announcement for the current day with current time, event description, time of the event and place
- When: Prior to each event, at the discretion of sport presentation
- How: Single screen for each announcement

### **2.3.3 Schedule of next matches**

- What: Screen shows schedule for subsequent matches (sessions) with date, screen title and current time, session number, session start time and session end time, for each match: start time, event name, round name, team scoreboard names and NOC codes
- When: During a session, information about the remaining matches in each session of the day  
During the last session, the next day's matches in each session should also be presented
- How: Scroll through the list of all matches to be played (next session or next day)

### **2.3.4 Team's previous results**

- What: Screen shows previous results of the teams playing in a match with gender, screen title, current time, team scoreboard name and NOC code; and for each opposing team: round code, team scoreboard name, NOC code and results
- When: Before the start of the match
- How: All team's match results, on a single screen. The matches played should be in chronological order

MEN	PREVIOUS RESULTS	10:42
	SMITH/HENKEL	USA
	VS	
SF	EMANUEL/LOIOLA	BRA 2-0
QF	HOLDEN/LEINEMANN	CAN 2-1
R16	ENGLEN/PETERSSON	SWE 0-2

### **2.3.5 Pool previous results**

- What: Screen shows previous results of matches playing in a pool with gender, pool identification, screen title, current time, for each match: team scoreboard names , NOC codes and results
- When: Before the start of the match
- How: All team's match results, on a single screen. The matches played should be in chronological order.

MEN	POOL A	RESULTS	10:17
	SMITH/HENKEL	USA 2	
	ENGLEN/PETERSSON	SWE 1	
	ENGLEN/PETERSSON	SWE 0	
	HOLDEN/LEINEMANN	CAN 2	

### **2.3.6 Pool standings**

- What: Screen shows pool standings with gender, pool identification, screen title, current time, for each team: rank, team scoreboard name, NOC code, matches won, matches lost and points
- When: Before the start of the match
- How: Single screen for each pool

MEN	POOL A	STANDINGS	10:57
W L PTS			
1	SMITH/HENKEL	USA 2 0 4	
2	HOLDEN/LEINEMANN	CAN 1 1 3	
3	ENGLEN/PETERSSON	SWE 1 1 3	
4	MARTINEZ/CONDE	ARG 0 2 2	

### **2.3.7 Referee presentation**

- What: Screen shows referee presentation before the start of a match with screen title, current time, 1<sup>st</sup> and 2<sup>nd</sup> referee names and NOC codes  
When: Before the start of the match  
How: Single screen for each match, with two referees

REFEREES	9 : 08
1ST REFEREE	
BENNETT JOHN	AUS
2ND REFEREE	
REGGIANI ROBERTO	ITA

### **2.3.8 Match presentation**

- What: Screen shows match announcement with screen title, current time, gender, round name, start time, for each team: team scoreboard name and NOC code  
When: Before the start of the match  
How: Single screen for each match

TEAMS PLAYING	21:08
MEN - LUCKY LOSER 1	
START AT 21:15	
SMITH/HENKEL	USA
VS	
ENGLEN/PETERSSON	SWE

### **2.3.9 Player presentation**

- What: Screen shows player presentation with gender, round name, current time, player's scoreboard name, NOC code, age, height, position, role  
When: Before the start of the match  
How: Single screen for each player

MEN QUARTERFINALS	10 : 02
MATHIEU HAMEL - FRA	
AGE	26
HEIGHT	194CM
POSITION	LEFT
ROLE	BLOCKER

### **2.3.10 Head to head results in major competitions**

- What: Compare teams' results in Olympic qualifications and Games achievements. Screen shows match-up comparison with gender, round name, current time and for each team: team scoreboard name, NOC code and head to head results: Olympic Games, World Championships, World Tour, World Cup, winner in FIVB events and total
- When: Before the start of the match
- How: Two screens alternating for each match. Alternating head to head and match-up.

MEN SEMIFINALS	10:28
BRA ZE MARCO/RICARDO	CAN
CHILD/HEESE	
HEAD TO HEAD	
3 OLYMPIC GAMES	2
8 WORLD CHAMPIONSHIPS	3
34 WORLD TOUR	23

MEN SEMIFINALS	10:28
BRA ZE MARCO/RICARDO	CAN
CHILD/HEESE	
HEAD TO HEAD	
1 WORLD CUP	3
1 WINNER IN FIVB EVENTS	2
45 TOTAL	28

### **2.3.11 Team skill comparison**

- What: Compare teams' skills in Olympic Games matches. Screen shows: gender, round name, current time and for each team: team scoreboard name, NOC code and achievements at Olympic Games: service aces, fastest serve, attacks, blocks and digs
- When: Before the start of the match except for the 1<sup>st</sup> match
- How: Two screens alternating for each match. Alternating head to head and match-up.

MEN ROUND OF 16	10:35
BRA ZE MARCO/RICARDO	CAN
CHILD/HEESE	
9 SERVICE ACES	7
79 FASTEST SERVE (KMH)	80
23 ATTACKS	43
16 BLOCKS	9
8 DIGS	14

### **2.3.12 Countdown**

- What: Screen shows countdown as soon as the court is ready to introduce the teams with current date, screen title, current time, match start time, gender, round name, for each team: team scoreboard name, NOC code and, at the bottom, "START" and countdown time
- When: Prior to each match
- How: Static, with countdown

18 AUG 2016	SCHEDULE	9 : 57
10:00	MEN FINAL	
FRANCO/ROBERTO		BRA
NURMUFID/MARKOHI		INA
START		2 : 59

## 2.4 Part B - During the event

### 2.4.1 Match results

- What: Screen shows match results with gender, round name, current time, current set duration, for both teams: players names and NOC code, server indicator ">" (servers should be highlighted in the proper colour), current match result, previous set(s) results (after the first set), current set result
- When: During the match in progress
- How: Refresh the scoreboard whenever the match's score changes. Display the scores from all courts.

MEN SEMIFINALS	10:02		
SET DURATION = 2MIN

MARKOHI	INA	1	11	21	9

### 2.4.2 Time-outs

- What: Time-outs used with a note of the number of time-outs per set and countdown time to the start of the match. Screen shows a time-out with gender, round name, current time, screen title, first team scoreboard name, NOC code, number of time-outs used, second team scoreboard name, NOC code, number of time-outs used, possible number of time-outs per set and countdown time to the re-start of the match
- When: During a time-out
- How: Update the countdown time from time-out duration to 0:00

MEN SEMIFINALS	10:41	
TIME-OUTS USED		
ENGLEN/PETERSSON	SWE	1
SMITH/HENKEL	USA	2
1 TIME-OUT PER SET	0:23	

### **2.4.3 30" Technical time-out**

- What: Used when the sum of points reaches 21 after the third switch of the court. Screen shows that a technical time-out lasts 30" with gender, round name, current time, screen title, countdown time to the re-start of the match, first team scoreboard name, NOC code, previous set results, current match result, second team scoreboard name, NOC code, previous set results, current match result
- When: During the time-out
- How: Update the countdown time from time-out duration to 0:00

MEN SEMIFINALS	10:41
30"TECHNICAL TIME-OUT	0:16
ENGLEN/PETERSSON SWE 21 9 12	
SMITH/HENKEL USA 11 21 9	

### **2.4.4 Medical time-out**

- What: Screen shows a medical time-out with gender, round name, current time, screen title, NOC code of the team asking for the time-out, medical time-out indicator ">", player names and countdown time to the re-start of the match
- When: During a medical time-out
- How: Update the countdown time from time-out duration to 0:00

MEN SEMIFINALS	10:41
MEDICAL TIME-OUT	
SWE	
> ENGLEN

### **2.4.5 Match statistics**

- What: Match skills (service speed, service aces, attacks, blocks, digs and fastest serves, opponent errors, penalties **and additional stats**) by player and team totals where applicable. Each screen displays: gender, round name, current time, type of statistics, first team's NOC code and names (player by player), number of successes for each player and total per team (for the layout 2.4.5.7 show the number of penalties for team, each player and total) , second team's NOC code and names (player by player), number of successes for each player and total per team
- When: During the match in progress: layout with penalties only if penalties infringed
- How: Refresh the scoreboard whenever the match's score changes. Display a screen depending on the type of the winning point.

## **2.4.8 The next day's matches**

What: The next day's schedule (tomorrow's schedule): screen title, current time, session number, session start time and session end time, for each match: event gender code, match start time, for each team: first and second teams names and NOC codes

When: After the end of the competition day

How: Scroll up automatically every twenty (20) seconds

TOMORROW'S SCHEDULE		8:30
SESSION 1 - 9:00 - 12:45		
M	9:00 GRINLAUBS/SLACK	AUS
	BERG/DAHL	SWE
W	10:00 XIONG/CHI	CHN
	SANDRA/ADRIANA	BRA

## **2.5 Part C - During the Victory Ceremony**

### **2.5.1 Presenters**

- What: Screen shows the presenters with discipline name, event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function.  
Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", etc.).
- When: As the dignitary is introduced before the ceremony
- How: Single screen

### **2.5.2 Medallists**

- What: Screen shows list of medallists with discipline name, event name, screen title. For each medallist show medal type, scoreboard name, NOC code.
- When: During the ceremony
- How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

BEACH VOLLEYBALL MEN VICTORY CEREMONY		
GOLD	HEUSCHER/KOBEL	SUI
SILVER	RICARDO/EMANUEL	ARG
BRONZE	BOSMA/HERRERA	ESP

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

BEACH VOLLEYBALL MEN VICTORY CEREMONY		
BRONZE	BOSMA/HERRERA	ESP

As the silver medallist is presented:

BEACH VOLLEYBALL MEN
VICTORY CEREMONY

SILVER	RICARDO/EMANUEL	ARG
BRONZE	BOSMA/HERRERA	ESP

As the gold medallist is presented:

BEACH VOLLEYBALL MEN
VICTORY CEREMONY

GOLD	HEUSCHER/KOBEL	SUI
SILVER	RICARDO/EMANUEL	ARG
BRONZE	BOSMA/HERRERA	ESP

## 2.6 Part D - At any time

### 2.6.1 Entertainment

What: To be defined  
When: Any time depending on the production scenario  
How: Single screen at any time

This part is to be defined and developed by the Sport Presentation in co-operation with the FIVB. Due to the nature of the sport, entertainment and interaction with the public is essential for the success of the event.

The following items give an idea of what information could be presented:

- Trivia
- Special effects (animation)
- Glossary of terminology
- Rules and format presentation
- Service speed (radar linked to scoreboard)
- etc.

*This page intentionally left blank.*

# **3 Sport Specific Real Time Data**

## **3.1 ORIS Data Availability Description**

All data elements presented in this section are supplementary to the data elements defined in Section 1 - Printable Outputs and other sections of the ORIS Beach Volleyball document. The data elements listed here may be useful for other sport specific real time data presentation (e.g. live screens on websites).

- Serve indicator (H for Home Team/A for Away Team)
- Match point indicator (H for Home Team/A for Away Team)
- Set point indicator (H for Home Team/A for Away Team)
- Serve Speed (Numeric)

*This page intentionally left blank.*

## **4      On Screen Results Presentation**

Some screens will be updated in real time whenever new information becomes available (e.g. score change, serve, etc.). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

*This page intentionally left blank.*

# Appendix A - Glossary

## 1 Terms

The specific terms used in the ORIS Beach Volleyball document are defined as follows:

Term	Definition
Ace	A served ball that lands within the playing boundaries without being touched by the receiving team.
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Attack	All actions, which direct the ball towards the opponents, with the exception of service and block.
Block	An action close to the net to intercept the ball crossing the net by reaching above the net.
Cancellation	An event is considered cancelled when it is delayed or postponed, and cannot be restarted or re-scheduled.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Dig	When a player keeps the ball in play following an opponent's attack.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)  See "Beach Volleyball References" for the list of disciplines.
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Draws	Drawing of lots for the preliminary round is conducted by the FIVB five to seven days before start of the competition. Brackets allocation for a final round is conducted by the tournament official. Seeded players (winners of the pools) are placed in the

Term	Definition
	bracket according to FIVB rules. Unseeded players (all second ranked teams and best two third ranked teams) are then drawn at random into the bracket. The draw for the remaining two positions (lucky loser winners) is done after the lucky loser matches. There are separate draws for the men's and women's final phases.
Event	<p>"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)</p>
	See "Beach Volleyball References" for the list of events.
Event Director	<p>The Event Director takes directions from the Beach Volleyball Committee. The primary duties of the Event Director are:</p> <ul style="list-style-type: none"> <li>• To ensure that the rules and direction of the FIVB are adhered to</li> <li>• To advise the organisers within the scope of their duties</li> <li>• To be the official representative of the FIVB in preparation for the Games</li> <li>• To be the official representative of the FIVB to the IOC regarding questions on the sport</li> </ul>
Fault	Failure to perform a shot (can be by dig, set, spike, attack, etc.) which causes a team to concede a point or sideout.
First Referee	The first referee directs the match from the start until the end. He/she has authority over all members of the refereeing corps and the members of the teams. During the match the first referee's decisions are final. The first referee carries out his/her functions seated or standing on a referee's stand located at one end of the net.
FIVB Control Committee	The FIVB Control Committee will decide on any correctly lodged protest.
FIVB Output Number	<p>The FIVB Beach Volleyball output number:</p> <ul style="list-style-type: none"> <li>• B1 - Participating Team</li> <li>• B2 - Schedule</li> <li>• B3 - Match Results</li> <li>• B3b - Play by Play</li> <li>• B4 - Round Robin or Results in a Brackets</li> <li>• B5 - Final ranking and Player Statistics</li> <li>• B6 - Final ranking and Team Statistics</li> </ul>
FIVB Technical Delegate (TD)	The FIVB Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Forfeit	When a team has withdrawn from the tournament through illness or injury or, (on rare occasions) is late reporting for the match, it will be described as having forfeited the match. The opposing team is awarded the win without playing the match.
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to

Term	Definition
	different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Injury	A situation when a player is not able to continue the game due to a physical injury.
International Technical Official	The official, holding an International FIVB licence, who is in charge of the tournament play. The international technical official conducts the draw, schedules, matches, and upholds the rules of the competition.
Jury	The Jury will make a decision on any correctly lodged protest.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Line Judges	One of a team of four court officials who assist the referees during a match by ruling whether a ball is in or out. When an official is unsighted the referee makes the decision. An official's decision is final on all points of fact for which that official is responsible.
	<p>The line judges perform their functions by using flags (30 x 30 cm):</p> <ul style="list-style-type: none"> <li>• Line judges signal the ball as "in" or "out" whenever the ball lands near their line(s)</li> <li>• Line judges signal the touches of "out" balls for the team receiving the ball</li> <li>• Line judges signal whenever the ball crosses the net outside the crossing space, touches the antenna, etc. It is primarily the line judge closest to the path of the ball that is responsible for the signal</li> <li>• Line judges in charge of the end lines signal foot faults of the server</li> </ul>
	On the referee's first request, a line judge must repeat his/her signal.
Lucky Loser Round	The round in the preliminary phase in which the fourth to sixth placed 3 <sup>rd</sup> ranked teams from the pool round compete for the last two places in the final phase.
Match	A contest between two teams comprising at least two sets. A team wins a set by scoring 21 points, with at least a two-point lead. If the teams are tied after two sets a third set is played to 15 points, with at least a two-point lead, to decide the match.
Match Duration	Total match time calculated from the starting time of the match until the end time.

Term	Definition
National Technical Official	The National Technical Official holds a national federation licence and is in charge of tournament play. The national technical official assists in conducting the draw, schedules, matches, and upholds the rules of the competition.
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: <a href="http://odf.olympictech.org">http://odf.olympictech.org</a>.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p> <p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
Opponent Error	Unsuccessful opponent actions, which result in the scoring of a point.
On Venue Results (OVR)	The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.
Pass	Technique of playing the ball underhand using the forearms, with both hands together to direct the ball to the other team member.
Penalties	<p><b>DELAYS TO THE GAME</b> - an improper action of a team that delays the resumption of the game.</p> <ul style="list-style-type: none"> <li>• The first delay by a team in a set is sanctioned with a <b>DELAY WARNING</b>.</li> <li>• The second and subsequent delay of any type by the same team in the same set constitutes a fault, and is sanctioned with a <b>DELAY PENALTY</b>: loss of a rally.</li> </ul>
	MISCONDUCT - Improper conduct by a team member towards

Term	Definition
	<p>officials, opponents, their team mate or spectators is classified in four categories according to the degree of the offence as follows:</p> <ul style="list-style-type: none"> <li>• MISCONDUCT WARNING: for unsportsmanlike conduct, no sanction is given but the team member concerned is warned against repetition in the same set</li> <li>• MISCONDUCT PENALTY: for rude conduct or repeated unsportsmanlike conduct, the team is sanctioned with the loss of a rally</li> <li>• EXPULSION: repeated rude or offensive conduct is sanctioned by expulsion. The team member who is sanctioned with expulsion must leave the playing area and the team is declared incomplete for the set</li> <li>• DISQUALIFICATION: for aggression, the player must leave the playing area and the team is declared incomplete for the match</li> </ul>
Phase	A step in the progression of the competition
	See "Beach Volleyball References" for the list of competition phases.
Playing time	Total match duration excluding the intervals, plus any medical time-outs, protest protocols and other exceptional interruptions.
Points Ratio	The total number of points won divided by the total number of points lost.
Pool	Preliminary group playing a round robin. It will consist of six pools of four teams each.
Position	Position of player on the field of play (right or left).
Protest	<p>During the match, both players are authorized to speak to the referees while the ball is out of play.  If either player has previously requested a Protest Protocol from the first referee, he/she has the right to confirm it as a protest, and it will then be recorded on the score sheet.</p>
Rally	The sequence of playing actions from the moment of the service hit by the server until the ball is out of play.
Rally Point System (RPS)	The team winning a rally scores a point. When the receiving team wins a rally, it gains a point and the right to serve, and its players rotate one position clockwise.
Rank	Placing in an event. Teams are ranked according to FIVB rules.
Referee	The official responsible for the conduct of the competition in accordance with the official FIVB rules and for maintaining discipline and order on the playing field during the competition.
Reserve Referee	A third referee may be appointed under the competition rules and officiates if any of the two match officials is unable to continue, unless a reserve referee is appointed. He assists the referee at all times.

Term	Definition
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> <li>• DD: Discipline code</li> <li>• G: Gender</li> <li>• EEE: Event Code</li> <li>• P: Phase</li> <li>• UU: Event Unit</li> </ul>
Role	Position within a team: Right/Left Blocker/Defender
Round Robin	Type of competition in which every team play against every other team in a pool.
Sanction	<p>Depending on the degree of the sanctioned conduct, according to the judgment of the first referee, the possible sanctions to be applied are (they must be recorded on the score sheet):</p> <ul style="list-style-type: none"> <li>• Misconduct warning</li> <li>• Misconduct penalty</li> <li>• Expulsion</li> <li>• Disqualification</li> </ul>
Scorer	The FIVB shall appoint an official scorer, who shall have sole authority to make all decisions involving judgment regarding scoring. The official scorer shall communicate such decisions to the press box, the broadcasting booths and the public address announcer.
Second Referee	The second referee assists the first referee, but also has his/her own range of jurisdiction. Should the first referee be unable to continue his/her work, the second referee may replace him/her. The second referee controls the work of the scorer(s) and performs his/her functions standing outside the playing court near the post, on the opposite side from the first referee.
Seeding	The deliberate placement in the draw of the six pool winners.
Serve	Putting the ball into play.
Session	A stage of a competition: morning, afternoon and evening.
Set (1)	Action of setting the ball up for a fellow teammate to attack from.
Set (2)	<p>Each match is broken into two or three sets.            The first two sets are won by the team that first scores 21 points with a minimum lead of two points. If necessary the third, deciding set, is won by the team that first scores 15 points with a minimum lead of two points.</p>
Sideout	Occurs when the receiving team effectively puts the ball away against the serving team; or when the serving team commits an unforced error and, as a result, the receiving team gains the right to serve.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the

Term	Definition
	qualification systems defined by the International Federations, which are approved by the IOC.
Standings	Placement in order of achievement of the teams by matches won.
Statistics	Statistics evaluate the performance of the teams and players.
Success	When a ball is blocked onto the ground in the opponent's court, or if touched by the opponent team is not kept in play. The result is a point or sideout for the blocker's team.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).

## 2 Specifications

### 2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

### 2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc. Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc. Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

## 2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	Measurements (time, weight, distance, height, etc.) Scores Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	Points
Bracket	Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected	Win/Loss
	Bracket types: <ul style="list-style-type: none"><li>• Bracket with direct elimination (e.g. Boxing)</li><li>• Bracket with direct elimination, classification and finals (e.g. Water Polo)</li><li>• Bracket with direct elimination and finals (e.g. Tennis)</li><li>• Bracket with direct elimination, repechage and finals (e.g. Judo)</li></ul>	
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	Addition of results (points, times)

*This page intentionally left blank.*

# Appendix B - Abbreviations

The following abbreviations are used in the ORIS Beach Volleyball document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
<b>BV</b>	Beach Volleyball
<b>CC</b>	FIVB Control Committee
<b>cm</b>	centimetre
<b>CM</b>	Organising Committee Competition Management
<b>D</b>	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
<b>Da</b>	Desirable, but only if such data is available
<b>Dc</b>	Desirable under conditions which are explained in the column for comments
<b>DRM</b>	Delegation Registration Meeting
<b>FIVB</b>	Fédération Internationale de Volleyball (International Volleyball Federation)
<b>ft</b>	feet
<b>IBC</b>	International Broadcasting Centre
<b>in</b>	inch
<b>IOC</b>	International Olympic Committee
<b>IRM</b>	Invalid Result Mark
<b>kg</b>	kilogramme
<b>lb</b>	pound
<b>LL</b>	Lucky Loser
<b>m</b>	metre
<b>M</b>	Mandatory
<b>Ma</b>	Mandatory - if applicable
<b>Mc</b>	Mandatory - required under conditions which are explained in the column for comments
<b>Mo</b>	Mandatory - for outdoor sports
<b>MMC</b>	Main Media Centre
<b>MPC</b>	Main Press Centre
<b>NOC</b>	National Olympic Committee
<b>OC</b>	Organising Committee
<b>ODF</b>	Olympic Data Feed
<b>OG</b>	Olympic Games
<b>ONS</b>	Olympic News Service
<b>ORIS</b>	Olympic Results and Information Services
<b>OVR</b>	On Venue Results system
<b>PTS</b>	Points
<b>SEQ</b>	Sport Entries and Qualification
<b>TAO</b>	IOC Technology Assistance and Observation team

<b>Code</b>	<b>Description</b>
<b>TBD</b>	( Date/time) to be determined
<b>TD</b>	Technical Delegate
<b>VPC</b>	Venue Press Centre
<b>VRM</b>	Venue Results Manager
<b>WNPA</b>	World News Press Agencies

# Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## 1 Beach Volleyball Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Beach Volleyball event presentation order	Please see "Beach Volleyball References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none"><li>• Unscheduled Not visible on the schedule, optional (e.g. tie-breaker if applicable).</li><li>• Scheduled The start time is known</li><li>• Getting_Ready At time x before start - "x" is defined by Olympic Broadcasting Services (OBS)</li><li>• Running In progress</li><li>• Scheduled_Break Planned break (e.g. end of period)</li><li>• Finished All action on the field of play is complete</li><li>• Delayed Did not start as scheduled, should start in the current ticketing session</li><li>• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present</li><li>• Interrupted Unplanned interruption after the start, and is expected to resume in the current ticketing session</li><li>• Rescheduled The new date and start time are known</li><li>• Cancelled Will not take place at these Games</li></ul>
Results status options	<ul style="list-style-type: none"><li>• Start List Start list has been created</li><li>• Live In progress</li><li>• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change.</li><li>• Partial The results and ranking of the players/pairs who have completed their performance are not subject to change by the results of players/pairs still competing.</li><li>• Unconfirmed Activity on the field of play is complete but there is no results status update yet. Not applicable for Beach Volleyball.</li><li>• Unofficial Results are available but not approved</li></ul>

	<ul style="list-style-type: none"> <li>• Official Results are approved</li> <li>• Protested The competition is no longer in progress and a protest has been lodged.</li> </ul>								
Results marks	<ul style="list-style-type: none"> <li>• BYE - Bye (the team advances to the next round in the absence of an assigned opponent)</li> </ul>								
Invalid Results Marks (IRM)	<ul style="list-style-type: none"> <li>• DSQ - Disqualified</li> <li>• INJ - Injury</li> </ul>								
IRM presentation order	<p>Rules for presentation of results for teams with DSQ, INJ:</p> <ul style="list-style-type: none"> <li>• IRMs are listed in the following order: INJ, DSQ</li> <li>• If more than one team was DSQ or INJ they should be listed in alphabetical order of their NOC</li> <li>• Teams having the same IRM within the same NOC, should be sorted by team name</li> </ul>								
Time format	HHh MMmin MMmin								
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23</p>								
Height format	<p><b>Height (metric):      Height (imperial):</b></p> <table style="margin-left: 100px;"> <tr><td>0.00m</td><td>0ft #0in</td></tr> <tr><td>#00cm</td><td>0'#0"</td></tr> <tr><td>  0.00</td><td></td></tr> <tr><td>  ##0</td><td></td></tr> </table> <p>If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".</p>	0.00m	0ft #0in	#00cm	0'#0"	0.00		##0	
0.00m	0ft #0in								
#00cm	0'#0"								
0.00									
##0									
Temperature formats	<p><b>Celsius:</b>                  <b>Fahrenheit:</b></p> <table style="margin-left: 100px;"> <tr><td>#0.00°C</td><td>##0.00°F</td></tr> <tr><td>#0.0°C</td><td>##0.0°F</td></tr> <tr><td>#0°C</td><td>##0°F</td></tr> <tr><td>...</td><td>...</td></tr> </table> <p>If Celsius and Fahrenheit units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".</p>	#0.00°C	##0.00°F	#0.0°C	##0.0°F	#0°C	##0°F	...	...
#0.00°C	##0.00°F								
#0.0°C	##0.0°F								
#0°C	##0°F								
...	...								
Presentation of ties	<p>Results</p> <ul style="list-style-type: none"> <li>• The primary rank (first column) must show a rank (if tied, repeat rank)</li> <li>• Secondary rank(s), if any, will be repeated with an "=" sign if there is sufficient space</li> </ul>								

## 2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, FIVB OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> <li>• dd MMM yyyy (e.g. 6 APR 1896)           <ul style="list-style-type: none"> <li>• dd: date format, for example: 23 or 5 (presented without leading zero)</li> <li>• Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case)</li> <li>• DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case)</li> <li>• Mmm: month in abbreviation format - mixed case, for example: Apr for April</li> <li>• MMM: month in abbreviation format - upper case, for example: APR for April</li> <li>• yyyy: year format, for example: 1896</li> </ul> </li> <li>• The "As of date" may reflect one of the following:           <ul style="list-style-type: none"> <li>• Date when data has been collected (e.g. world ranking)</li> <li>• Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics)</li> <li>• Logical date if applicable</li> </ul> </li> <li>• Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8)</li> </ul> <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> <li>• When the complete output fits on a single page, "None, aim for a single page" is written</li> <li>• For multi-page outputs, there are three cases:           <ol style="list-style-type: none"> <li>1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:               <ul style="list-style-type: none"> <li>• Not controlled with repeated output headings and column headings</li> <li>• Not controlled with repeated column headings only</li> <li>• Not controlled without repeated output headings and/or column headings</li> </ul> </li> </ol> </li> </ul>

	<p><b>2. Forced page break by "Group":</b></p> <p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Group" with repeated output headings and column headings</li> <li>• Break at "Group" with repeated column headings only</li> <li>• Break at "Group" without repeated output headings and/or column headings</li> </ul> <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p><b>3. Forced page break by "Condition":</b></p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Condition" with repeated output headings and column headings</li> <li>• Break at "Condition" with repeated column headings only</li> <li>• Break at "Condition" without repeated report output headings and/or column headings</li> </ul> <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> <li>• "None" is specified if no abbreviations are used in the output</li> <li>• If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> <li>• Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend)</li> <li>• If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table</li> <li>• If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed</li> <li>• The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"</li> </ul> </li> </ul>
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> <li>1. Note with static text: <ul style="list-style-type: none"> <li>• If "Note with static text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated</li> </ul> </li> </ol>

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> <li>• If "Note with predefined text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition</li> </ul> <p>3. Note with free text:</p> <ul style="list-style-type: none"> <li>• Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output</li> </ul>
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

*This page intentionally left blank.*

# Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

## 1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

<b>Event</b>	Affected event name (see "Beach Volleyball References" for list of events)
<b>Gender</b>	Event gender indication (men, women), if applicable
<b>Phase</b>	Affected stage of competition (e.g. preliminary phase, round 16, quarterfinals, etc.), if applicable
<b>Unit</b>	Specification of the phase (e.g. match 1, match 2, etc.), if applicable
<b>Subtitle</b>	One line space for describing the reason for the Official Communication
<b>Summary</b>	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
<b>Details</b>	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
<b>Issued by</b>	Initiator's (name and) function
<b>Date</b>	Date of decision as provided by the person issuing the Official Communication
<b>Time</b>	Time of decision as provided by the person issuing the Official Communication
<b>Note</b>	If needed, contact details for further information can be added here (as a Note)
<b>Signature</b>	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

## OFFICIAL COMMUNICATION (empty form)

Event			Gender	
Phase		Unit		
Subtitle				
Summary				
Details				
Issued by				
Date	(dd MMM yyyy)	Time	(HH:MM)	
Further information

## OFFICIAL COMMUNICATION (possible templates)

<b>Subtitle</b>	A	Match delayed
	B	Match postponed
	C	Match interrupted
	D	Match rescheduled
	E	Match cancelled
	F	Referee decision
	G	FIVB decision
	H	Bad weather conditions
	I	Beach Volleyball: IOC disqualifies Team Name (NOC)
	J	...

<b>Summary</b>	1	The <...> had to be delayed due to <...>. It is expected that the delay should not be longer than nn minutes.
	2	The <...> had to be postponed due to <...>. The new start time of the <...> is unknown at the moment. Further details will be communicated as soon as available.
	3	The <...> had to be interrupted due to <...>. Further details will be communicated by the FIVB as soon as available.
	4	The <...> had to be rescheduled due to <...>. The new date and start time is dd MMM yyyy at HH:MM.
	5	The <...> had to be cancelled due to <...>. The <...> will not be held during these Games.
	6	TEAM NAME (NOC) submitted a protest related to <...>
	7	TEAM NAME (NOC) was disqualified for <...> (FIVB rule <...>)
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC), member of <team name> (NOC). According to the FIVB rules, this disqualification impacts on the results and ranking of the entire team. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a>  <i>If the disqualified athlete is among medallists:</i>  The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC), member of <team name> (NOC). According to the FIVB rules, this disqualification impacts on the results and ranking of the entire team. Results have been amended accordingly. The medallists are now: <team name> (NOC), gold, <team name> (NOC), silver, and <team name> (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a>

<b>Issued by</b>	I	FIVB Technical Delegate
	II	Beach Volleyball Competition Manager
	III	FIVB Control Committee

<b>Further information</b>	i	For more details contact the FIVB Office
	ii	For more details contact the FIVB Technical Delegate
	iii	For more details contact the OC Competition Manager
	iv	For more details consult <a href="http://www.olympic.org">www.olympic.org</a>

**Note: authors of this ORIS document do not imply that this is a complete list of Official Communications templates.**

## 2 Results, Medals and Diplomas

### 2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

### 2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Beach Volleyball.

Eligible athletes:

- Men's/Women's events: Athletes who competed in the quarterfinals and finals

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/ Diploma	Event Type	
	Team	
Gold	• 2	
Silver	• 2	
Bronze	• 2	
Diploma	• 16 (8x2) • Less than 16, only teams ranked in the quarterfinals and finals	

### 2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
<b>If the gold medallist is disqualified</b>			
4	4	TEAM Name 1	NOC 1
2	1	TEAM Name 2	NOC 2
3	2	TEAM Name 3	NOC 3
4	3	TEAM Name 4	NOC 4
5	5	TEAM Name 5	NOC 5
5	5	TEAM Name 6	NOC 6
5	5	TEAM Name 7	NOC 7
5	5	TEAM Name 8	NOC 8

Note: If a team ranked 1 to 4 is disqualified, only the ranks of the other teams ranked 1 to 4 will be recalculated. If a team ranked 5 or lower is disqualified, all teams ranked after the disqualified team will be ranked one place higher.

ORIS reference output:

- Tournament Ranking [B4] (C76B)

Note: The software must be flexible enough to handle medal allocations as decided by the FIVB and/or the IOC.

### **3 Data to be Captured**

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
FIVB player ID	Numeric	SEQ	Provided by the FIVB
Shirt name	Text	SEQ	
Shirt number	Numeric	SEQ	
Handedness	Left Right Both	SEQ	
Role	Right Blocker Left Blocker Right Defender Left Defender	SEQ	
Captain	Yes No	SEQ	
Shirt colours one, two and three	Text	SEQ	
Shorts colours one, two and three	Text	SEQ	

# Document Control

## Version History

<b>Release 6 Version 1.2</b> 9 Mar 2015	<b>Approved version</b> Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux.
<b>Release 6 Version 1.1</b> 6 Mar 2014	<b>Approved (signed-off) version</b> Sign-off letters from both the FIVB (26 Sep 2014) and Rio 2016 (29 Sep 2014) have been received by the IOC.  No further changes will be made to this document without Change Management except topics highlighted in yellow.
<b>Release 6 Version 1.1</b> 6 Mar 2014	<b>Submitted for sign-off</b> Updated with comments received in the review period after the ORIS meeting.
<b>Release 6 Version 1.0</b> 22 Jan 2014	<b>Submitted for review</b> Submitted for review after the ORIS Beach Volleyball meeting, 9 - 11 Dec 2013. Based on the ORIS Beach Volleyball meeting minutes as of 11 Dec 2013.
<b>Release 6 Version 0</b> 8 Nov 2013	<b>Draft</b> Updated based on ORIS document release 5 and the analysis of the London Questionnaire

## Release 6 - Version 1.2 - 9 Mar 2015

### Pending Action Items

The following sections contain text highlighted in yellow:

- |                                       |   |
|---------------------------------------|---|
| Global                                | <ul style="list-style-type: none"><li>Outputs with new statistics highlighted in yellow are pending FIVB decision on how to present them (due date 31 Dec 2014)</li></ul>                                   |
| C85A, C85B                            | <ul style="list-style-type: none"><li>How to present the statistics tables for "Attack and "Dig" is pending FIVB decision (due date 31 Dec 2014)</li></ul>  |
| Procedures 2.3.1.2 and 2.3.2.2        | <ul style="list-style-type: none"><li>Text regarding the source for the weather information needed for the output C73 will be included after Rio 2016 feedback</li></ul>                                    |
| Procedures 2.5.3.2, 2.5.3.3 and 2.5.4 | <ul style="list-style-type: none"><li>Text regarding disqualification is pending FIVB approval after checking if procedures match with the current FIVB rules and policies (due date 30 Jun 2014)</li></ul> |
| C75                                   | <ul style="list-style-type: none"><li>Pending FIVB decision on how to present the results for a match in the bracket</li></ul>  |

### Global Changes

- The new output "Entries by Event" (C31C) has been introduced.  
Affected files: Procedures, Distribution Rules, output C31C.
- The output "Minimum / Maximum" (N86G) has been removed throughout the document.  
Affected files: Procedures, Distribution Rules, output N86G.
- All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".  
Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former

section title "Live Screens in INFO").

## Executive Summary

### Chapter 2.2.4:

- In the second paragraph, the text has been updated regarding the presentation of column headings in outputs

### Chapter 4:

- Steering Committee: The name of the IOC Sports Director has been changed to Mr Kit McCONNELL, the name of the Rio 2016 Sport Director has been changed to Mr Rodrigo GARCIA and Ms Flavia MELLO has been replaced by Ms Françoise PERROUD
- The department names for Mr Anthony EDGAR and Ms Françoise PERROUD have been adjusted
- Members of the Rio 2016 ORIS Management Team: The names and functions have been adjusted as follows:
  - Ms Isabella BURCZAK, IOC Sports, Head of Sport Projects
  - Mr Pierre FRATTER-BARDY, IOC Sports, Head of Summer Sports and IF Relations
- Members of the ORIS Beach Volleyball Working Group: The names and functions of the venue results manager and cluster venue results manager have been adjusted as follows:
  - Mr John SHARP, Rio 2016 Cluster Venue Results Manager
  - Mr Gustavo GARRAFOLI, Rio 2016 Venue Results Manager

## Beach Volleyball References

### Chapter 1 - Specifications

- Events: progression and competition format types: In the column "Event Phase", all appropriate event phase names have been spelt out in full.
- Events: progression and competition format types: In the last bullet below the table, the reference sentence has been adjusted

## Procedures

### Chapter 2.1.1 "Schedule":

- The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony

### Chapter 2.1.2 "Entries and Participant Data":

- The paragraph has been modified

### Chapter 2.1.2.1 "After the Sport Entry Deadline":

- The first paragraph has been modified

### Chapter 2.1.2.3 "Competition Officials":

- The text has been modified

### Chapter 2.1.2.4 "Substitution of a Games participant":

- The title has been changed to "Replacement of an athlete"

### Chapter 2.1.2.4.1 "Late athlete replacement":

- The text in the chapter has been modified

### Chapter 2.3.2.6.1 "Before a gold medal match":

- The term "medal ceremony" has been changed to "Victory Ceremony"

### Chapter 2.7 "Results Book"

- A second to last paragraph has been added regarding outputs including data from more than one discipline (e.g. C97)

### Chapter 3 "News Service and Background information"

- Last paragraph: The wording has been adjusted from "Olympic Closing Ceremony" to "Closing Ceremony"

## Section 1 - Outputs

### General

- Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated

	<ul style="list-style-type: none"> <li>For N-outputs: All titles above tables or any other sub titles have been written in mixed case</li> </ul>
<b>Outputs</b>	<p>C06:</p> <ul style="list-style-type: none"> <li>In the sample and description table, the term has been changed to "Victory Ceremony" (instead of "Medal Ceremony")</li> </ul> <p>C30:</p> <ul style="list-style-type: none"> <li>The source has been changed from "OC Competition Management" to "OC Technology"</li> </ul> <p>C31A:</p> <ul style="list-style-type: none"> <li>The column heading "NOC" has been adjusted to "NOC Code"</li> </ul> <p>C38:</p> <ul style="list-style-type: none"> <li>Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added</li> <li>Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"</li> </ul> <p>C39:</p> <ul style="list-style-type: none"> <li>For TV names: Family names have been written in upper case (related CR 4933)</li> <li>Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added</li> <li>Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"</li> </ul> <p>N15:</p> <ul style="list-style-type: none"> <li>The table has been divided into two tables.
