# COMPETITION FORMAT AND RULES

## ARTISTIC GYMNASTICS

**As of 23 JUN 2016**

### **Olympic Competition Format**

There are 14 Artistic Gymnastics events at the Rio 2016 Olympic Games, including men's and women's individual apparatus events, team events and all-around events.

In Artistic Gymnastics, men and women compete separately. Men compete on six apparatus: floor, pommel horse, rings, vault, parallel bars and horizontal bar. Women compete on four apparatus: vault, uneven bars, beam and floor.

There are four competition phases in Artistic Gymnastics: qualifications, team finals, individual all-around finals, and individual apparatus finals.

**Qualifications:** All gymnasts compete as part of a team, or as individuals and the results of this phase are used to qualify gymnasts for the team, individual all-around and the apparatus finals. No scores are carried over from the qualifications to the finals.

**Team finals:** The top eight men's and women's teams from the qualification phase proceed to the team finals. The teams compete again on all apparatus and the teams with the highest total scores are awarded the medals.

**All-around finals:** The top 24 men and women from the qualification phase (maximum two per NOC) proceed to the individual all-around finals. The gymnasts perform again on all apparatus and those with the highest scores are awarded the medals in the individual all-around. The individual all-around title is considered to be the premium achievement in Gymnastics.

**Apparatus finals:** The top eight men and women who placed highest on each apparatus in the qualification phase (maximum two per NOC) proceed to the apparatus finals. The gymnasts perform again on each apparatus and those with the highest scores are awarded the individual medals for each apparatus.

### **Differences between the FIG World Championships and the Olympic Games**

There is a restriction on entry to the Olympic Games. Only the top 12 men's and women's teams and a designated number of nations with individuals, who qualified at the World Championships in the previous year and the second qualifying event can participate; whereas the World Championships are open to all FIG member federations.

Basically, the Olympic Games have fewer competitors than the World Championships.

### **Changes since the London 2012 Olympic Games**

None

### **Sport Rules and Procedures**

#### **Judging**

Artistic Gymnastics is a judged sport with a panel of nine judges presiding over each apparatus. The nine judges are broken down into two panels to calculate the "F" (Final score). The "D" (Difficulty) panel (two judges) calculates the D Score which is the score a gymnast receives based on the content of the routine. The "E" (Execution) panel (five judges) determines deductions from the maximum possible score (10.00) based on the gymnast's execution of the routine. Two Reference judges have been introduced. The Reference Judges' System has been introduced to establish an automatic and time-saving correction system in case of problems with Execution scores. All Reference judges will be appointed by the FIG.

If the difference between the marks of the two Reference Judges exceeds the pre-defined tolerances, the R-score is not taken into account at all (i.e. the calculation of the E-score is done the "traditional" way and the Execution Jury score will remain unchanged).

#### **Calculation of Scores**

Definitions:

- E-score: The judges' scores for Execution are averaged after the highest and lowest E judges' marks have been deleted.
- R-score: The Reference score is calculated by taking the average of the two Reference judges' marks.
- Gap: The E-score and the R-score are compared according to the Reference Judges' System (RJS).
  1. The highest and lowest of the five E (Execution) judges' scores are dropped and the average of the three remaining scores is used to calculate the Execution judges' score (E-score).
  2. If the gap between the E-score and the R-score exceeds the pre-defined tolerances, the E-score will be replaced by the average of the R-score and the E-score. Otherwise the Execution judges' score will remain unchanged.

$$D + E - \text{Penalties (if any)} = F$$

Example:

D-score: 6.00

E-score: 9.30 (calculated from: 9.10, 9.20, 9.60, 9.30, 9.40)

Final Score:  $6.00 + 9.30 = 15.30$

### Tie Break Rules

The FIG tie breaking rules are presented in the FIG Technical Regulations and define how to break ties in case of equality of points. In Artistic Gymnastics, the main principles are the following:

#### Qualification for the all-around finals and the all-around finals

In case of a tie for any place, ties will be broken by the following criteria:

1. The highest sum of the final apparatus scores (i.e. add the total of the 5, 4, 3, 2, 1 of the highest final apparatus scores for men / the total of the 3, 2, 1 of the highest final apparatus scores for women)
2. The highest total Execution score by adding all apparatus
3. The highest total Difficulty score by adding all apparatus
4. If the gymnasts remain tied they will share the same classification

#### Qualification for the apparatus finals (except Vault) and the apparatus finals (except Vault)

If a tie occurs on any apparatus, except Vault, ties will be broken by the following criteria:

1. The highest Execution score
2. The highest Difficulty score
3. If the gymnasts remain tied they will share the same classification

#### Qualification for the apparatus finals for Vault and the apparatus finals for Vault

If a tie occurs on Vault, ties will be broken by the following criteria:

1. The highest score between the two vaults
2. The highest Execution score from either vault
3. The highest Difficulty score from either vault
4. If the gymnasts remain tied they will share the same classification

#### Qualification for the team finals and the team finals

In case of a tie at any place, ties will be broken by the following criteria:

1. The highest sum of the final team apparatus scores (i.e. the total of 5, 4, 3, 2, 1 highest apparatus team scores for men / the total of 3, 2, 1 highest apparatus team scores for women)
2. If the teams remain tied they will share the same classification

• For a qualification position to finals, any ties after tie breaking criteria are exhausted, will be decided by FIG.

### Penalties / Disqualification Rules

Penalties can be imposed on either an individual gymnast, or on a team as a whole, depending on the infraction:

- Individual penalties can include, for example, going out of bounds on the floor, exceeding a time limit for a routine, exceeding the limited time for warm up, or for resuming performance after having fallen from an apparatus. (These types of penalties are deducted from the gymnast's score for the apparatus).
- More general penalties can include wearing inappropriate attire and are deducted from the gymnast's all-around total score for the day or from the apparatus score, where first noticed, for gymnasts not competing in the all-around.

There are two types of disqualification (DSQ):

- Disqualification as a result of a breach of the FIG technical rules and regulations (decisions are taken by the competition jury)
- Disqualification as a result of infringing recognised sport ethics and rules (e.g. positive doping control) (decisions are taken by the IOC and FIG authorities)

If a gymnast is disqualified from a phase of the competition, his/her name and results will be eliminated and removed from the disputed phase and the results of the phase will be re calculated. Disqualification from qualification means that the gymnast may not proceed to any finals. Disqualification from all-around final means that the gymnast receives no results in all-around final, but the gymnast may compete in apparatus finals and team final if qualified.

For team competition the disqualified gymnast's name and his/her results will be removed from the team and the team results will be re calculated.

In any of the above situations, the affected results output(s) will be produced and marked as "REVISED" with an explanation.

Expulsion from competition:

A gymnast can be expelled from the competition. In case of an expulsion, the gymnast in question will not be allowed to continue the competition. The scores achieved to the point of expulsion will count and remain as part of the results for individuals or teams.

### **Protests / Appeals**

A written inquiry may be submitted to the jury only regarding the value of the D scores.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

**General Interest**

Romania go into the competition as favourites, having won the last two World Championships.
The team trains at the national centre in Deva.
Just two days before competition in Atlanta began, the Romanians lost one of their top gymnasts, Anna-Maria Bican, through a knee injury sustained while training.
The Romanian team went through two major upheavals in the 1980's. Firstly, in 1981 when their national coach, Bela KAROLYI, defected to the USA, resulting in poor performances at the 1981 World Championships, and secondly, during the Romanian revolution of 1989 when the training centre in Deva had to be temporarily closed down.

# HISTORY

## ARTISTIC GYMNASTICS

### **Origin of Artistic Gymnastics**

Gymnastics evolved from ancient times. The word 'gymnastics' is derived from the Greek 'gymnos' (naked), as most athletes during the ancient Olympic Games were either partly or wholly nude. The Greek 'gymnasium' or 'gymnasion' was a public school or place designated for physical exercise.

The philosophy of expansion of the mind through physical exercise thrived throughout early history but declined in the Middle Ages. It was not until the Age of Enlightenment in the 17<sup>th</sup> and 18<sup>th</sup> centuries that certain philosophers and educationalists such as Jean-Jacques ROUSSEAU Jean-Henri PESTALOZZI returned to the idea that education should consist of both physical and mental exercise.

The history of contemporary gymnastics is closely related to Johann-Friedrich Guts-Muths (1759-1839) and Friederich-Louis Jahn (1778-1852) of Germany. They are considered to be the grandfather and father of gymnastics respectively. Jahn invented the first apparatus to develop strength, dexterity and courage - bars and pommel horse. He also founded German gymnastics societies after the Napoleonic wars. Swedish poet Per Henrik Ling (1776-1839), Frenchman Fransisco Amoros (1770-1848), among others made an enormous impact on the development of gymnastics. Gymnastics spread throughout Europe by both German and Swiss practitioners, with Canada the first country outside Europe to follow.

### **Artistic Gymnastics Today**

The 20<sup>th</sup> century saw a surge in the development of gymnastics, with incredible world-class standards seen today. The first rules for judging ('Code of Points') were written in 1949 and consisted of just 12 pages. By contrast, today's judging guidelines are bulky, complex manuals that require continuous, intensive study.

The world governing body for gymnastics is the Fédération Internationale de Gymnastique (FIG). Founded in 1881 by the Belgian Nicolas Cuperus in Liege, it now incorporates 129 affiliated national federations and has approximately 40 million registered gymnasts, involved in Gymnastics for Men's, Women's and mixed Artistic Gymnastics, Rhythmic Gymnastics, Trampoline Gymnastics, Aerobic Gymnastics and Acrobatic Gymnastics.

### **Artistic Gymnastics at the Olympic Games**

The history of gymnastics is closely related to the ancient Olympic Games, but 1,000 years before that time (2,700BC-1,400BC), King Minos and his peers had already given the royal seal of approval to physical exercise.

Artistic gymnastics is one of the few sports to have been contested at every Olympic Games since 1896. Women have competed in gymnastics at the Games since 1928. The first Olympic gymnastics competition in Athens involved 18 gymnasts from five nations. Only voluntary routines on six apparatus were performed: high bar, parallel bars, pommel horse, rings, vault and rope climbing. Gold and silver medals alone were awarded and German gymnasts, many of whom also competed in other sports, such as athletics and wrestling, won the majority of them.

Changes were made at each subsequent Olympic competition, from the number of apparatuses used to the number of gymnasts per team and the quality of routines. However, the era of discipline-specific gymnastics began at the Helsinki 1952 Olympic Games.

A number of Olympians have had a significant impact on gymnastics: Larissa LATININA (URS- UKR) set the unsurpassed record of 18 medals, including nine gold, at three consecutive Olympics (1956, 1960 and 1964); Nicolai ANDRIANOV (URS- RUS) won 12 medals, six of them gold; Boris CHAKLIN (URS -RUS) has seven gold in his medal tally; Olga KORBUT(URS - BLR) served as the catalyst for major escalation in the popularity of world gymnastics; Nadia COMANECI (ROU) was the first to score the maximum 10.00 points, a feat she accomplished six times at the Montreal 1976 Olympic Games. In 1992, at the Barcelona Olympic Games, Vitaly SCHERBO (CEI) won six gold medals.

In the history of modern Olympics only three men have been all-around champions more than once: Alberto BRAGLIA (ITA) in 1908 and 1912; Viktor TCHUKARIN (URS) in 1952 and 1956; and Sawao KATO (JPN) in 1968 and 1972.

At the close of the Athens 2004 Olympic Games, FIG authorities invited the Men's and Women's Technical Committees to coordinate their regulations, in order to create a common foundation for the discipline. More recently, FIG authorities modified the qualification criteria for the Olympic Games from 2012, and now adhere to the Youth Olympic Games project as developed by the IOC.

Artistic Gymnastics is still the most popular discipline on the FIG competitions programme. It is among the most widely viewed sports of the Olympic Games.

**Medallists**

**YANG Yilin (CHN) - Bronze medallist**

**On being nervous before performing on Balance Beam:**

"I felt a little bit nervous because I am used to competing on the beam first, but today I competed fifth."

**On her performance overall:**

"I have done my utmost. Before the competition I didn't think about the result. I just tried to do my best."

**On her best performances during the competition:**

"My best apparatuses during the competition were the Uneven Bars and Balance Beam."

**On teammate JIANG Yuyuan's (CHN) performance:**

"There were some problems with her technique, and also she lacked confidence."

**On encouragement from her coach, LIU Qunlin (CHN):**

"The best encouragement comes from my coach, LIU Qunlin (CHN). I joined the national team just over a year ago, and LIU always encouraged me, and here I am, on the podium."

**LIUKIN Nastia (USA) - Gold medallist**

**On her relationship with Shawn JOHNSON (USA), the Silver medallist, leading up to the finals:**

"We both supported each other 100 per cent, and we just wanted to go out there and give it our all and have fun because this is the Games. There is nothing bigger or greater than this. Going to sleep last night, we both looked at each other, we made a calendar, each of us, by our bed and looked at the next day and saw it's the All-Around Final. We just looked at each other and were like, 'Can you believe this? Tomorrow is the day.' It's been a great experience so far."

**On her contact with JOHNSON during the Beijing Games:**

"In between events, we look at each and give a head nod. It means so many words. I was trying to encourage her and say 'Come on!' without distracting her."

**On being born in Russia but competing for the United States of America:**

"I was born in Russia, but I am representing the USA in the Olympics. I feel like I am representing both countries, but I am competing for the US. With my name being Nastia LIUKIN, I hope I made fans proud in Russia and the USA."

**On competing in medal count with her dad:**

"I'm still chasing him for that medal count (he has two Gold and two Silver medals), but I have three more finals to beat him. A few months ago I made a board of pictures and other things that inspired me. My mom hung one of his medals on the board, and it gave me the extra motivation and it made a difference being empowered to see it every day for those few months."

**LIUKIN Valeri (USA) - Coach**

**On USA Gymnastics:**

"I think this is an absolutely incredible day for USA gymnastics. I think we did prove that we are very strong. We had a few little mistakes in two days, it's tough, but one, two is not by accident. I think we are very strong in gymnastics and there is more to come."

- The defending Team world champions boast a powerful pool, including three who are competing at their third Olympics.
- The Chinese feature All-Around world champion and Sydney 2000 Olympic Games All-Around Silver medallist YANG Wei, and world champions on Pommel Horse and Rings - XIAO Qin and CHEN Yibing. HUANG Xu, LI Xiaopeng and ZOU Kai make up the rest of the team.
- Japan, Gold medallists at the Athens 2004 Olympic Games, are weakened by the loss of Hishashi MIZUTORI, world Bronze medallist in All-Around, Floor Exercise and Horizontal Bar, due to a shoulder injury.
- Germany, who include world All-Around Silver medallist Fabian HAMBUCHEN, are also medal contenders.
- The USA Men's team will participate at the Games without Athens 2004 All-Around Gold medallist Paul HAMM (USA). He was forced to withdraw from the Olympic squad two weeks before the Games due to a broken hand and an injured rotator cuff.
- Raj BHAVSAR (USA) will replace HAMM. This is BHAVSAR's first Olympic Games - he was an alternate in Athens 2004.
- The Canadian men's team is facing an injury scare after Brandon O'NEILL suffered ligament damage to his ankle while training his Floor Exercise routine at the National Indoor Stadium on Monday. If he is unable to compete, Ken IKEDA will take his spot.
- Individual All-Around contenders include YANG, HAMBUCHEN and KIM Daeeun (KOR), while there are several contenders for Gold medals in the Individual Floor Exercise, Pommel Horse, Rings, Vault, Parallel Bars and Horizontal Bar.
- Kyle SHEWFELT (CAN) is aiming to successfully defend the Floor Exercise Gold medal he won at the Athens 2004 Olympic Games after injuries to both knees ruled him out of the 2007 world championships in Stuttgart, Germany. - Beijing 2008 is the first Olympics to use a modified scoring system. The "perfect 10" score was replaced after Athens 2004 by a system designed to be fairer and more consistent. Routines are now judged on Difficulty (starting at zero and adding points based on the difficulty of an element) and Execution (starting at 10.0 and deducting points for errors).

**Men**

- China rebounded from a faulty start in qualifications to collect five medals. They successfully defended their team title from Beijing 2008, and ZOU Kai (CHN) retained his title as floor exercise champion. FENG Zhe (CHN) swung to his first individual Olympic gold on his specialty, parallel bars.
- Led by All-Around champion Kohei UCHIMURA (JPN), Japan won three medals, including team silver. UCHIMURA improved from silver in 2008 to earn the Japanese men's fifth individual all-around title in Games history, and their first since Los Angeles 1984.
- Japan initially placed fourth in the provisional results of the team final, but they successfully inquired about UCHIMURA's difficulty score on pommel horse in the last rotation. The jury subsequently raised UCHIMURA'S difficulty score by 0.700 points, moving Japan into second place. The scoring change bumped Britain and Ukraine to third and fourth place.
- Germany and Britain won three medals each. Standouts for Germany were Marcel NGUYEN, who won silvers in the individual all-around and parallel bars, and Fabian HAMBUCHEN, who won silver on horizontal bar.
- Britain won team bronze, their first Olympic gymnastics team medal in 100 years, and two of the three available medals on pommel horse.
- Two NOCs won Olympic gymnastics gold for the first time. Arthur NABARRETE ZANETTI (BRA) placed first on still rings, and YANG Hak Seon (KOR) placed first on vault.
- Horizontal bar gold medallist Epke ZONDERLAND (NED) became the first Dutch male gymnast to win an Olympic Games medal of any kind, and Netherlands' first Olympic gymnastics champion since the Dutch women won team gold at Amsterdam 1928.
- Denis ABLYAZIN (RUS) earned both of Russia's medals, silver on vault and bronze on floor exercise.
- Eight NOCs took one medal each. Among them was Hungary, whose Krisztian BERKI (HUN) won gold on pommel horse in his Olympic debut. BERKI and Louis SMITH (GBR) earned the same final score, but BERKI's higher execution score broke the tie in his favour.

**Women**

- Although Russia tallied the most medals (six), USA were the most successful NOC at London 2012, with the most golds. They won their first Olympic team gold since Atlanta 1996, and Gabrielle DOUGLAS (USA) became the third consecutive USA woman to take the Olympic individual all-around title.
- Alexandra RAISMAN (USA) became the first USA woman to win Olympic gold on floor exercise. She won bronze on balance beam after a successful inquiry to the jury raised her difficulty score by 0.100. RAISMAN and Catalina PONOR (ROU) had the same final score, but RAISMAN's higher execution score broke the tie in her favour. RAISMAN was awarded bronze, and PONOR fourth.
- All-Around silver medallist Victoria KOMOVA (RUS) led Russia to team silver, but teammate Aliya MUSTAFINA (RUS) collected the most medals for her NOC. In addition to team silver, MUSTAFINA won gold on uneven bars, and bronze in the individual all-around and floor exercise.
- In the floor exercise final, MUSTAFINA and Vanessa FERRARI (ITA) earned the same final score, but MUSTAFINA's higher execution score broke the tie in her favour. FERRARI finished fourth.
- Romania collected a medal of each kind. Sandra Raluca IZBASA (ROU) took gold on vault, PONOR took silver on floor exercise, and the team took bronze.
- On balance beam DENG Linlin (CHN) and SUI Lu won gold and silver. They produced the only one-two finish by an NOC in women's or men's artistic gymnastics at London 2012.

### Olympic legend COMANECI says China deserved Team Gold

Olympic gymnastics legend Nadia COMANECI (ROU), who now resides in the USA, said China deserved to win the Women's Team Final over the USA at the National Indoor Stadium on Wednesday.

"You have to acknowledge when you make a mistake and when someone is better," said COMANECI, the All-Around champion of the Montreal 1976 Olympic Games. "And the Chinese team were better."

COMANECI and her husband, 1984 Olympic gymnastics Gold medallist Bart CONNER (USA), are working at the Beijing 2008 Olympic Games as Gymnastics commentators for the Mexican television network, Televisa.

COMANECI said the USA team deserved the Silver medal they earned behind China.

"I think second was their place, and I don't know why everyone is talking about the Silver medal as a loss," said COMANECI during the Women's All-Around Final on Friday. "They won the Silver. They probably wanted to win the Gold, but they made mistakes."

COMANECI, who scored seven perfect 10.00s at the Montreal 1976 Olympic Games, said China made fewer mistakes and had a higher overall Start Value as a team than the USA.

"China were better from the beginning, and their Start Values as a total team were (almost three points) higher than the USA," said COMANECI. "Even without Alicia SACRAMONE's (USA) fall from the beam, the Chinese still had an advantage in Start Values."

COMANECI said she supports the USA gymnasts, as well as their rivals.

"I live in the USA, and I care about them (USA gymnasts) and everybody else," said COMANECI. "I care that the best gymnasts win, because this is the best thing for gymnastics."
