Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Weightlifting. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Weightlifting References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, the IWF and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of the IWF, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the IWF, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the IWF and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Weightlifting Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
 - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
 - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
 - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
 - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards and Real Time Display System (RTDS), as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here. Sport specific scoreboards are also defined, when required by the IWF rules.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the IWF should approve the proposed solution.

2.2.6.2 Real Time Display System (RTDS)

Requirements for real time information concerning the start order and/or current results to be displayed on monitors at the venue (supporting the competition and providing sport and media real time information), are defined in this part, including the content and timing of information.

2.2.6.3 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67)), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Weightlifting draft document, based on:
 - The last version of the ORIS Weightlifting document of the previous Games
 - International Federation sport rules, competition format and requirements for these Games
 - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Weightlifting meeting, the draft will be made available to the ORIS Weightlifting Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Weightlifting Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Weightlifting document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Weightlifting Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Weightlifting document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

The IWF and the Organising Committee will sign-off the ORIS Weightlifting document after all agreed changes have been implemented.

For the IWF, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Weightlifting competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if the IWF or the OC requests any change which has an impact on the ORIS Weightlifting document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Weightlifting document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the IWF, media, teams, etc.)
- To prepare required changes to the ORIS Weightlifting document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Weightlifting Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by the IWF and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Weightlifting document. The test begins with entry data for athletes and officials, continues through the Technical Congress with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, records, medals, etc.
- Scoreboards
- RTDS

The IWF, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the IWF and WNPA reports. Those documents are then sent to the OC, the IWF, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games

Questionnaires to document the IWF, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Weightlifting document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Weightlifting Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Weightlifting project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the IWF, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016, Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Weightlifting Working Group:

- Attends the ORIS meeting to discuss and agree on the Weightlifting results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Weightlifting Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Weightlifting Working Group are:

- **Mr Attila ADAMFI**, IWF Director General
- **Mr Josué MORAES**, Rio 2016 Sport Group Manager
- **Mr Pedro MELONI**, Rio 2016 Sport Manager for Weightlifting
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Daniel CHANNON**, Rio 2016 Cluster Venue Results Manager
- **Mr Thiago LIMA**, Rio 2016 Venue Results Manager
- **Ms Katy ZAVALETA**, Atos major Events, Summer Sports Product Manager
- **Ms Daniela CÄSAR**, Atos, Rio 2016 IDS Manager
- **Mr Marco PRONOI**, OMEGA, OVR Project Manager
- **Mr Pedro Jinsung KIM**, OMEGA, Software developer
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Helge STENERSEN**, IOC ORIS Sport Analyst for Weightlifting

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

1 Specifications

- Events: progression and competition format types

Event	Event Phase	Progression Type	Competition Format Type
Women's 48kg	Finals only	Single phase	In-line
Women's 53kg			
Women's 58kg			
Women's 63kg			
Women's 69kg			
Women's 75kg			
Women's +75kg			
Men's 56kg			
Men's 62kg			
Men's 69kg			
Men's 77kg			
Men's 85kg			
Men's 94kg			
Men's 105kg			
Men's +105kg			

- The events are presented in traditional IWF order
- Total number of events: 15
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

2 Competition

- Competition format

- Women compete in seven bodyweight categories and men in eight. The competition format for each category consists of a single phase (final) and the combined results of the competition produce the Olympic Champion and the medal winners. Each competition consists of two parts: the Snatch and the Clean & Jerk, with generally a ten (10) minute break between the two. Each athlete may take three attempts at individually chosen weights in both the Snatch and the Clean & Jerk, and the best results achieved (in kilograms) are added to a total, which determines the ranking.

- Tie Break Rules

- The IWF rules define how to break ties if two athletes achieve the same total weight

- Venue type

- Indoor
- Single venue

- Participation references

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Athletes : 260, 104 female / 156 male

- Athletes by NOC: maximum 10, comprising of six men and four women. An NOC can enter a maximum of two athletes per bodyweight category.

3 Documents

- Olympic Charter in force
- IOC-Rio 2016 Host City Contract
- IWF Technical and Competition Rules & Regulations 2013-2016

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Weightlifting events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the IWF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once the IWF and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Weightlifting competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Training Schedule (C07)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)

- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other IWF events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

The forms "Entry Data Checklist" (C38) should be used to check data with the team officials during the verification of final entries. Required corrections should be entered on the appropriate forms (the output itself should be used as a form) and supplied to Competition Management.

The forms "Entry Data Checklist - Technical Officials" (C39) should be used to allow the Technical Delegate to verify the Technical Officials' data.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

2.1.2.3 Replacement of an athlete

2.1.2.3.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the Technical Congress.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

2.1.2.4 IWF unique athlete identification

The IWF does not maintain an athlete ID database at this time

2.2 Pre-Competition Activities

After the IWF officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the Technical Congress a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and the IWF will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 Records

Weightlifting has official senior world, Olympic and junior world records.

Together with historical data and biographies, records will be provided to the OC by the IOC.

When OVR becomes owner of the data, OC Technology should check them against the IWF official website, which is constantly updated, and produce the output:

- Records (C24)

for verification by the IWF.

Once approved, this output should be distributed according to the ORIS distribution rules.

2.2.3 Verification of final entries and the Technical Congress

The verification of the entries and the Technical Congress should take place two (2) days before the first competition day.

OC Technology should have a working space in the Technical Congress room, with access to the Games network and provision to print locally.

2.2.3.1 Twenty-four (24) hours before the Technical Congress

No later than twenty-four (24) hours before the Technical Congress, the IWF will provide the list of Technical Officials (with functions and groups) to OC Competition Management. OC Competition Management should in turn provide this information to OC Technology, in order to produce the output:

- Technical Officials (C35)

No later than twenty-four (24) hours before the Technical Congress, OC Technology will provide the Technical Delegate, or the designated person, with the following outputs:

- Entry List by Bodyweight Category (C32C) (without lot numbers)
- Entry Data Checklist (C38)
- Timetable (C58) (note: participants and officials columns are empty at this stage)

These outputs are not released for public distribution at this time.

2.2.3.2 Two (2) hours before the Verification of Final Entries

No later than two (2) hours before the Verification of Final Entries, OC Technology should provide the outputs:

- Technical Officials (C35)
- Entry Data Checklist - Technical Officials (C39)

to the Technical Delegate for verification,

and the output:

- Entry Data Checklist (C38)

to OC Competition Management for distribution to the NOC representatives during the Verification of Final Entries.

2.2.3.3 Verification of Final Entries

The Verification of Final Entries meeting will start two (2) hours before the start of the Technical Congress. The Verification of Final Entries will last for one (1) hour.

During this time NOC representatives will check, make any necessary corrections, and sign the forms "Entry Data Checklist (C38)" and return them to OC Competition Management. After checking each form (NOC quota in case of change of weight category, readability, etc.), OC Competition Management will return the forms to OC Technology. Any entry not checked by the NOC concerned should remain final as such.

Note that IWF rules allow athlete representatives to change both the bodyweight category and the entry total for their athletes during the Verification of Final Entries.

After all forms "Entry Data Checklist" (C38) have been returned and signed, OC Technology should produce a local copy of the output:

- Number of Entries by NOC (C30)

for verification of the quotas per bodyweight category by OC Competition Management. Once checked, OC Technology will randomly produce the lot numbers, under supervision of the Technical Delegate, or the designated person.

As soon as lots are drawn, OC Technology will produce the first copy of the outputs:

- Entry List by NOC (C32A)
- Entry List by Bodyweight Category (C32C) (with lot numbers)

which will be used by the Technical Delegate, or the designated person, for preparing the competition time table.

At the end of the Verification of Final Entries, all of the signed Entry Data Checklist forms should be returned to OC Competition Management for filing.

Within one (1) hour after the Verification of Final Entries, the Technical Delegate, or the designated person, will finalise the competition schedule and complete the timetable (allocating athletes and officials to groups), using the previously printed output "Timetable" (C58) as a form.

2.2.3.4 During the Technical Congress

No later than fifteen (15) minutes after receiving the schedule data from the Technical Delegate, OC Technology will produce a local copy of the output:

- Timetable (C58)

for the Technical Delegate, or the designated person, to check and approve.

At the end of the Technical Congress, when the output "Timetable" (C58) has been approved by the Technical Delegate, OC Technology will produce the first copy of the outputs:

- Start List (C51) - for all groups
- Number of Entries by NOC (C30)

which should in turn be checked and approved by the Technical Delegate, or the designated person.

No later than fifteen (15) minutes after the end of the Technical Congress, the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)
- Entry List by Bodyweight Category (C32C) (with lot numbers)
- Technical Officials (C35)
- Start List (C51) - for all bodyweight categories
- Timetable (C58)

should be distributed according to the ORIS distribution rules.

It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Technical Congress. The Technical Congress procedure should be tested at the Test Event.

2.2.3.5 Start List Package

It is a requirement at major Weightlifting competitions that after the Technical Congress the organiser will produce a "Start List Package" with the following contents:

- Cover page
- Contents
- Timetable (C58)
- Technical Officials (C35) - with groups
- Number of Entries by NOC (C30)
- Records (C24)
- Start List (C51) - sorted in chronological order of competition

This version of the Start List Package should be distributed, on paper, to:

- The IWF Competition Secretariat (10 copies)
- The IWF Technical Officials (one copy for each)
- All NOCs with participating athletes (at the village), one per NOC per gender
- OC Competition Management

and available as a single PDF in Info.

The Start List Package should be delivered to:

- INFO no later than thirty (30) minutes after production of the start lists
- The IWF Competition Secretariat and OC Competition Management no later than two (2) hours after production of the start lists
- The Technical Officials at the Technical Officials' meeting room no later than two (2) hours after production of the start lists
- The teams at the Olympic Village no later than three (3) hours after production of the start lists

as described in the ORIS distribution rules.

Note that the Start List Package will contain a large number of pages and therefore resources should be planned accordingly and the production rehearsed. It should also be noted that large numbers of the Start List Package will be required for distribution at the venue and the Olympic Village.

2.2.3.6 On the evening of the Technical Congress

On the evening of the Technical Congress, OC Technology will supply OC Competition Management with the outputs:

- Weigh-in List (C56A)
- Athlete's Card (C56C)

for all bodyweight categories.

2.3 Results Processing

During the following activities:

- Weigh-in procedure
- Calling order
- Acceptance or non acceptance of the lift (attempt)
- Next weight requested
- Record attempt

accuracy and timelines are critical for the successful running of the Weightlifting competition.

The following procedures apply to all bodyweight categories:

2.3.1 Weigh-in

OC Technology should have a working space in the Weigh-in area, with access to the Games network and provision to print locally.

The Weigh-in starts two (2) hours before a competition group and lasts a maximum of one (1) hour.

During the Weigh-in, for each athlete:

- The Technical Officials enter the recorded bodyweight on the "Athlete's Card" (C56C)

For each athlete passing the Weigh-in:

- The coach of each athlete declares the first attempt (Snatch and Clean & Jerk) and signs the "Athlete's Card" (C56C)
- The Technical Officials complete and signs the "Weigh-in List" (C56A)
- The Technical Officials assign and enter the Bib number on the "Athlete's Card" (C56C)

At the end of the Weigh-in, after verification and approval of the output "Weigh-in List" (C56A) (this process should not take longer than two (2) minutes), the Technical Officials will give it to OC Technology, in the weigh-in room, in order to update data in the system.

Within the next three (3) minutes OC Technology will produce the first copy of the output:

- Empty Protocol (C65)

which should be checked and approved by the Technical Officials within the following three (3) minutes.

After approval of the output "Empty Protocol" (C65) by the Technical Officials, the output:

- Competition Sheet (C56B)

should be produced and distributed according to the ORIS distribution rules, together with the output:

- Empty Protocol (C65)

Outputs that require corrections will be released only after the Technical Delegate has approved the corrected version.

At the end of the weigh-in, the forms "Weigh-in List" (C56A) should be returned to OC Competition Management for filing.

2.3.2 Before and during competition

No later than one (1) hour before each group competition, the Technical Delegate should provide OC Technology with the list of Jury members who will be on duty for that group.

Note that start lists do not need to be re-issued at this stage.

2.3.2.1 Calling order

OC Technology should provide a system that will allow the OC Competition Management to carry out the competition in full accordance with the rules of Weightlifting, providing a secure way of recording the progress of the competition, and ensuring that the calling order is accurate. The Jury will appoint an official to manually fill out the output "Empty Protocol" (C65) during competition.

The information concerning the next athlete should not be updated on the public scoreboard and the attempt board until the three lights for the previous athlete have been cleared from the attempt board.

The public scoreboard and the attempt board should be synchronised at all times.

In order to allow continuous checking, an IWF representative should be seated next to the OC Technology table on the field of play in a position that allows a clear view of the public scoreboard.

2.3.2.2 Change of data from any attempt

The Jury may decide to change the result of any attempt during competition.

In this case, the Jury President will inform OC Technology about the requested change.

The OC Technology software should be able to apply this change within ten (10) seconds.

If the output "Protocol" (C66) has been produced, OC technology should produce a revised version and provide it to the President of the Jury for verification and sign-off within the following one (1) minute.

2.3.2.3 Next weight requested

Be aware of the 15/20kg rule: the load of the starting (first Snatch and first Clean & Jerk) weights must not be lower than 15kg (for women) or 20kg (for men) below the entry total.

During both the Weigh-in and competition, the software should automatically monitor this rule, and if it is broken a warning should appear on the OVR warm-up computer, and the Chief Marshal should be informed. This warning message should not be displayed on any publicly available real time system.

If this occurs during the competition, the system should automatically increase the weight for the first Clean & Jerk to balance the first Snatch weight difference, immediately after the first Snatch is made. The warning should remain visible, but now showing a green indicator to show that the balance has been calculated and applied.

2.3.2.4 During each group

OC Technology will continuously (after each attempt and after each announcement of the next weight) update information on the attempt board, public scoreboard, RTDS and ODF. At the same time real time screen(s) should be updated in INFO. In all of these outputs the athletes should be listed in the order of their drawn lot number.

2.3.2.5 After each group

When the Clean & Jerk for any group is finished, OC Technology should produce, within one (1) minute, the first copy of the output:

- Protocol (C66)

and provide it to the Technical Delegate, or the designated person, for visual checking and signing, which will be done within the following one (1) minute.

The output "Protocol" (C66) should then be given to the President of the Jury for final verification and sign-off within the following three (3) minutes. This is strictly an internal document and there is no further distribution.

2.3.2.6 After Group "C" or "B"

When the Clean & Jerk for group "C" or "B" of a bodyweight category is finished, OC Technology should produce within one (1) minute after verification of the "Protocol" (C66), the first copy of the output:

- Intermediate Results after Group x (C70A)

for verification by the Technical Delegate. Once approved the output will be distributed according to the ORIS distribution rules.

2.3.2.7 Before Clean & Jerk in Group "A"

No later than sixty (60) minutes before the Clean & Jerk in Group A the OC Protocol should provide ONS and OC Technology with the names of the medal presenter(s) and the accompanying person(s).

No later than thirty (30) minutes before the Clean & Jerk in Group A, the output:

- Medal Presenters (N91B)

should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.2.8 After the end of a bodyweight category

When the Clean & Jerk for group "A" of a bodyweight category is finished, OC Technology should produce within one (1) minute after verification of the "Protocol" (C66), the output:

- Results (C73)

for distribution according to the ORIS distribution rules.

There is no need to check and approve this output as the OC Technology results software will be using data from approved outputs, and the software will have been checked during the IWF/IOC Homologation Test.

In addition, after the end of each bodyweight category the following outputs should be produced:

- Team Classification (C76)
- Medallists (Individual) (C92A)
- Medallists by Bodyweight Category (C93)
- Medal Standings (C95)

for distribution according to the ORIS distribution rules.

At the end of each bodyweight category, the forms "Athlete's Card" (C56C) should be returned to OC Competition Management for filing.

2.4 Common Sport Functions

2.4.1 Official Communications

The Technical Delegate, or the designated person, may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the IWF Technical Delegate, or the designated person, will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or athlete affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the IWF Technical Delegate, or the designated person, has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the IWF, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.4.3 Records

Weightlifting has official senior world, Olympic and junior world records.

During the Olympic Weightlifting competitions, all records broken, are communicated via the outputs:

- Intermediate Results after Group x (C70A)
- Results (C73)
- Protocol (C66)

The output:

- Records Broken (C81)

should then be updated in INFO, and printed once at the end of competition.

Records information on all real time outputs (Including scoreboard and RTDS) should be updated immediately.

Note that only the year of birth should be used for calculation of whether an athlete is a Junior (not date of birth), i.e. for Rio 2016 all athletes born in 1996 or later are considered to be Juniors.

The ORIS Working group recommends that ONS produces a news item if a youth world record is broken. For Rio 2016 all athletes born in 1999, 2000 and 2001 will be considered as youth athletes. The IWF will inform ONS if this situation occurs.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the Technical Delegate, or the designated person, may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

The following schedule status options are applicable to an event or event unit (session):

2.5.1.1 Delayed

A delay may occur if a session does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.2 Postponed

A session did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled. If an interrupted session cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A session may be subject to an unplanned interruption after it has started.

The time of resumption is unknown. If the session cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.4 Rescheduled

A session may be rescheduled if it cannot be held at the originally scheduled start date/time.

The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.

In the case of rescheduling, the Jury may decide to either keep the results achieved or to restart the competition for one or more weight categories. Software should be flexible enough to handle this.

2.5.1.5 Cancelled

A session which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the IWF will decide what effect the situation would have on the competition and what actions should be taken.

If one or more event(s) is cancelled, all affected outputs (e.g. medal outputs, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added. For outputs with the indication "after x of y events", the number of events (y) will remain unchanged.

2.5.2 Competition Related

2.5.2.1 Athletes failing the Weigh-in

If an athlete fails the Weigh-in, he/she will be considered as not taking part in the event and therefore should not appear on any distributed output.

There is however NO requirement to reproduce any of the following outputs on which the athlete who has failed the Weigh-in may appear:

- Number of Entries by NOC (C30)

- Entries (C31A)
- Entry list by NOC (C32A)
- Entry list by Bodyweight Category (C32C)
- Start List (C51)
- Timetable (C58)

He/she will not be listed on the outputs:

- Competition Sheet (C56B)
- Empty Protocol (C65)

and an official communication will be issued at the end of the Weigh-in listing all athletes who failed the Weigh-in.

2.5.3 Disqualifications

This chapter focuses on disqualifications that occur:

- In the period after the medals for an event have been awarded, and up to three (3) days (inclusive) after the Games Closing Ceremony
- Later than three (3) days after the Games Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology is in charge of updating the results. After this deadline, the International Federation will be responsible for updating results, and informing the IOC of any changes.

2.5.3.1 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the Technical Delegate before distribution.

The IWF regulations state that should an athlete be disqualified after completion of an event, all subsequent athletes will be moved up in the ranking by one place.

The output:

- Results (C73)

for the affected bodyweight category will be updated.

If the disqualified athlete has set a record, OC Technology should rollback records information and produce an updated version of the output:

- Records Broken (C81)

If the disqualified athlete has won a medal, OC Technology should re-calculate medals related information, and produce updated versions of the outputs:

- Medallists (Individual) (C92A)
- Medallists by Bodyweight Category (C93)
- Medal Standings (C95)

together with an update of all medal information at the Games level.

If the disqualified athlete was ranked in a position for which his NOC was awarded points for the team classification, OC Technology should re-calculate this information, and produce an updated version of the output:

- Team Classification (C76)

During the period from the end of the Weightlifting competition, up to three (3) days (inclusive) after the Games Closing Ceremony, it is vital that the IWF Technical Delegate or another person authorised to approve results, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS.

2.5.3.2 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, the IWF will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the IWF. The IWF is responsible for providing the updated results to the IOC.

2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission

If an athlete is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The athlete, the athlete's NOC, the IWF, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The IWF Technical Delegate, or the designated person,, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D (Subtitle: D, Summary: 11, Issued by: I, Further information: iv) of this.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the IWF Technical Delegate, or the designated person,, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the IWF Technical Delegate, or the designated person,, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Weightlifting competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the IWF Technical Delegate during those periods before or after the Games may require that a designated person be available to cover this responsibility.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant IWF and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
 - Number of Entries by NOC (C30)
 - Entry list by Bodyweight Category (C32C)
 - Technical Officials (C35)
 - Timetable (C58)
 - Team Classification (C76)
 - Records Broken (C81)
 - Medallists by Event (C93)
 - Medal Standings (C95)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Weightlifting cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- Medallists by Bodyweight Category (C93)
- Technical Officials (C35)
- Team Classification (C76), for women and men
- Records Broken (C81)
- Official communication (C67) not related to any event

For each of the IWF events (in traditional IWF order):

- Results (C73)
- Official Communication (C67) - selected outputs, related to IWF and/or IOC decisions which had an impact on results

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Weightlifting competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The IWF
- All NOCs
- Accredited media

3 News Service and Background Information

Data for all Biographies, Historical Results and Records will be supplied by the IOC to the OC. The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event, and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

The IWF is currently not maintaining biographies but agrees to supply historical data as requested in ORIS, in accordance with a schedule agreed between the parties.

The IWF cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the IWF and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the IWF and the third party provider. Schedules may be different depending on the type of data.

The IWF wishes to validate part or all of the final data delivered by the provider. In that case, the IWF and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live. In all cases, records will be validated by the IWF.

The provider will update data after final delivery as required (corrections, information updates, new records, etc.). Updates should be limited to one (1) delivery per day, and should be made outside of competition hours, except in case of error.

The IOC will act as a facilitator between the IWF, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the IWF and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- NOC Profile (N24)

3.3 Records

Records will be delivered by the provider. Each successive delivery shall completely override the previous delivery until the final pre-Games delivery is made.

No later than four (4) weeks before the Games, the provider will provide the OC Competition Management and the IWF with the pre-Games delivery of data on senior world, Olympic and junior world records.

A final delivery will be made a few days before the first Weightlifting competition (date to be agreed between OC Technology and the provider). From that moment, updates will be made by OC Technology, if required.

OC Technology will use this data to produce the output:

- Records (C24)

for approval by the IWF. Once approved, this output will be distributed according to the ORIS distribution rules.

3.4 Facts and Figures

3.4.1 Weightlifting Background Information

Data for the Weightlifting background information will be developed by ONS, in cooperation with the OC Competition Management and the IWF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - IWF - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the IWF will immediately inform ONS who will update the information within one (1) working day.

3.4.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the IWF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the IWF for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the IWF will update the information within one (1) working day.

3.5 News

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.5.1 Pre-competition News

3.5.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Weightlifting Working Group recommends that ONS at the Weightlifting venue produces the output:

- Sport Preview (N89)

and, where practical, no later than the evening before the start of a new bodyweight category, the output:

- Bodyweight Category Preview (N89)

The Bodyweight Category Preview should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.5.1.2 Extended start list

The output:

- Extended Start List (N59)

will be prepared not later than the evening before the start of the competition in a bodyweight category. This will allow journalists at the Games to focus on the most interesting events during the competition in a bodyweight category.

ONS should prepare and enter the details into the OC computer system, in English.

3.5.2 News During and After Competition

Media covering Weightlifting events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.5.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken. A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

The English version of flash quotes needs to be distributed immediately, without waiting for translation into any other language.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.5.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.5.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Bodyweight Category Review (N89)
- Sport Review (N89)

3.6 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

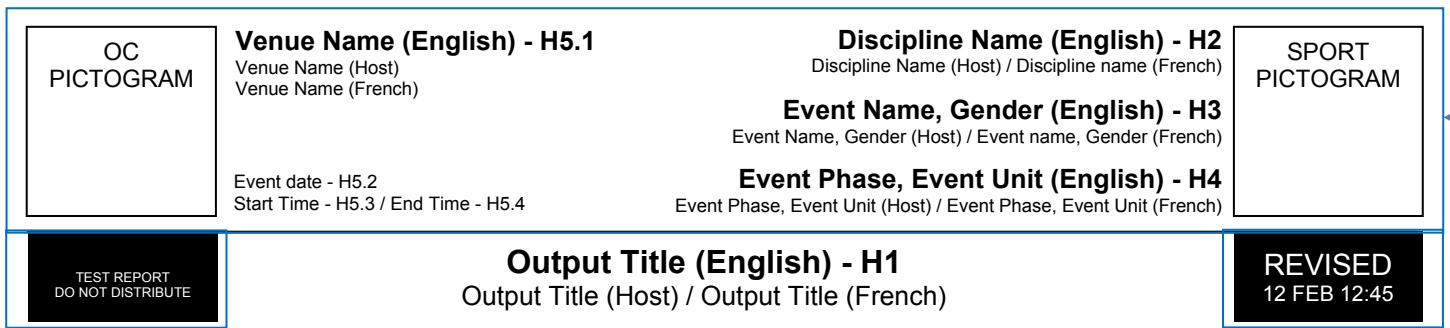

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

This page intentionally left blank.

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

Output body

Content information:

The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 st , 2 nd , 3 rd , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		Technical Data		
TD FIS	KROGOLL Peter	GER		
Referee	SKAARDAL Atle	FIS		
Chief of Race	HOLLIDAY Bruce	CAN		
Start Referee	KLAMMER Herbert	ITA		
Finish Referee	PALOVICOVA Jana	SVK		

The corresponding data matrix levels are:

7 (n)	For each jury member	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	Technical data	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	HOELZL Kathrin	1984	GER	
2	205218	REBENSBURG Viktoria	1989	GER	
3	185140	POUTAINEN Tanja	1980	FIN	
4	55838	ZETTEL Kathrin	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric
11	Number of NOCs	M	Numeric
12 (n)	For each competitor	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
Legend:						
DH	Downhill	GS	Giant Slalom	SC	Super Combined	SG
SL	Slalom	WCSL	Overall points	YB	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	Legend		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

This page intentionally left blank.

	17:00	19:00	Group 1	Riocentro - Pavilion 2	Open
...					

General

Training will take place at the Riocentro - Pavilion 5, Peachtree av. 101 every day from Wed 3 Aug until Sat 20 Aug, 9:00 - 19:00.

Access

Media Access is allowed if previously approved by Site Manager, phone 123-4567. Note that special passes are required.

NOC Training Times

The daily training schedule (time slot allocation per NOC) will be posted at the Venue Press Centres the evening before each training day, and will be available in INFO. Note that this schedule is subject to daily changes. Please consult INFO for updates

Please note that time slots allocated to a particular NOC just indicate the time during which the NOC can use the training facility.

Groups

- Group 1 AFG, BLR, CRO, PAR, QAT, RSA
- Group 2 ...
- Group 3
- Group 4
- Group 5

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.
 Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

Note:

Truncated names are indicated with an * and must be checked carefully.

C38 - Entry Data Checklist

Description	Detailed list of all athletes. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Gender (female first) 3 - Family name 4 - Given name
Page break	Break at "Condition = NOC code" with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" with repeated output headings and column headings.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the IWF/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. The layout of this output may be either in portrait or landscape, as required.

**OFFICIAL COMMUNICATION
WEIGHTLIFTING
MEN'S 77kg
GROUP A**

Item: 35

Schedule change

The Men's 77kg, Group A has been rescheduled

Summary:

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

Details:

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Weightlifting Men's 77kg, Group A has been rescheduled to 9:00 tomorrow.

Issued by: IWF Technical Delegate
Time: 11:00
Date: 16 AUG 2016

This decision affects: Results
Schedule
Other

Note:
For more details contact the IWF Office

SPORT COMMUNICATION WEIGHTLIFTING

Item: 35

IOC Rule 50 (Reminder)

Manufacturer identification on clothing and equipment

Summary:

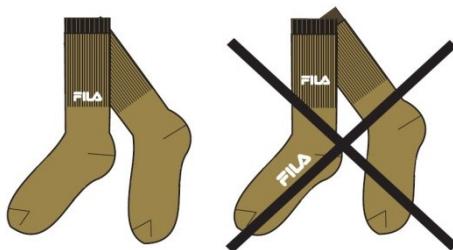

The National clothing must fully comply with IOC rule 50, in all aspects.
This applies to all competition at the Rio 2016 Olympic Games.

Details:

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the IWF Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, the IWF assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: IWF Technical Delegate
Time: 21:10
Date: 16 AUG 2016

TEAM CLASSIFICATION
WEIGHTLIFTING
WOMEN

As of 13 AUG 2016

Rank	NOC Code	Points / Number of Participants							Total
		48kg	53kg	58kg	63kg	69kg	75kg	+75kg	
1	CHN	28/1							28/1
2	THA	25/1							25/1
3	UKR	23/1							23/1
4	HUN	22/1							22/1
5	RUS	21/1							21/1
6	TUR	20/1							20/1
7	KOR	19/1							19/1
8	BLR	18/1							18/1
9	BUL	17/1							17/1
10	POL	16/1							16/1
11	INA	15/1							15/1
12	COL	14/1							14/1
13	IND	13/1							13/1
14	ROU	12/1							12/1
15	GRE	11/1							11/1
Total:		15							15

Note:

The first 25 ranked athletes are awarded points on their total result as per the IWF Technical Competition Rules.

There is no official team competition at the Olympic Games and therefore no medals are awarded.

The first number in each cell represents the points that athletes from an NOC were awarded in a bodyweight category; the second number in the cell represents the number of athletes from an NOC in a bodyweight category. The total column shows the total number of points and athletes for that bodyweight category.

COMPETITION FORMAT AND RULES

WEIGHTLIFTING

As of 23 JUN 2016

Olympic Competition Format

The Weightlifting competition at the Olympic Games comprises eight bodyweight categories for Men, and seven for Women. Each category's competition consists of a single phase (final), though it may be contested in multiple groups. The combined results of the competition produce the Olympic Champion and the medal winners. Each competition consists of two parts: the Snatch and the Clean & Jerk, with generally a ten minute break between the two. Each athlete may take three attempts at individually chosen weights in both the Snatch and the Clean & Jerk, and the best results achieved (in kilograms) are added to a total which determines the ranking. Each athlete is allowed one minute (or two minutes, if making consecutive attempts) between the calling of his or her name and the beginning of the attempt.

The rules of lifting and for the adjudication of attempts are the same for men and women.

The Olympic competition is individual and, even if a team classification is calculated, no medals are awarded to teams.

Differences between the IWF World Championships and the Olympic Games

The main difference is that while in the IWF World Championships, titles and medals are awarded also for the two individual lifts, the Snatch and the Clean & Jerk, in the Olympic classification, only the aggregate of these two, i.e. the total result counts. The other important difference is in the number of entries: In IWF World Championships each country may enter a maximum of eight men and seven women with a maximum of two athletes per bodyweight category, while in the Olympic Games, each NOC has a specific quota obtained in the Qualification process, with a maximum of six male athletes and a maximum of four female athletes. Athletes who started in Snatch, but have no valid results, can compete in Clean & Jerk at the World Championships, but this is not allowed at the Olympic Games because medals are awarded only for the total results of the Snatch and the Clean & Jerk.

Changes since the London 2012 Olympic Games

None

Sport Rules and Procedures

Each athlete has three attempts to make on both the Snatch and the Clean & Jerk, which can be on different weights.

The barbell is loaded progressively. The athlete requesting the lightest weight lifts first.

The weight of the barbell must always be increased by one kg increments.

One minute is allocated to each athlete between the calling of his/her name and the beginning of the attempt.

When an athlete attempts two lifts in succession, he/she is allowed two minutes for the succeeding attempt

Three referees adjudicate each lift and pass their decision, if accepted or not. The validity of the lift is decided on majority by the referees. Each decision made by the referees is immediately analysed by the Jury, and they can decide to reverse it. After this, the decision is final and irrevocable. The athlete with the highest total result will be the winner.

Calling Order

The following four factors listed in priority must be considered when calling the athletes:

1. The weight of the barbell (lightest weight first)
2. The number of the attempt (lowest number first)
3. The sequence/order of the previous attempt(s) (the athlete who lifted earliest is first)
4. The start number of the athlete (lowest first)

Tie Break Rules

In the case of identical results, lighter bodyweight (registered before the competition) gives a higher ranking. If two or more athletes obtain the same result and they are registered at the same bodyweight, the athlete who reached the result first in accordance with the sequence of the competition is classified before the other(s).

Penalties / Disqualification Rules

There are no penalties in the sport of Weightlifting and disqualification would only apply in case of violation to the rules.

Protests / Appeals

No protest or request for correction is accepted.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

Note:

ATHLETE BIOGRAPHY

WEIGHTLIFTING

As of 1 AUG 2016

Profile

<picture>			
Name:	SMITH Barbara	Other family names:	MILLER (maiden name)
Nickname:	Biba	NOC code:	AUS
Gender:	Female	Place of birth:	Sydney, NSW, Australia
Date of birth:	29 FEB 1987	Weight (kg / lbs):	59 / 130
Residence:	Perth, WA, Australia	Major injuries:	Rupture of ligaments of right knee in May 1996 after an accident
Height (m / ft in):	1.76 / 5'9"	Bodyweight category:	63kg
Occupation:	Professional athlete	Social media:	www.smith.barbara.com
Discipline:	Weightlifting	Other sports:	Golf
Language(s) spoken:	English, French, Japanese	Points of interest:	Her husband is also her coach
Hobbies:	Photography, music, travelling		
Family information:	Married, one child		
Started competing:	2003	Number of OG / WCH participations:	2 / 5
IWF World Ranking 2015:	11	Best result (IWF events):	210kg in 58kg weight category
2016 best (IWF events):	200kg in 63kg weight category	1st IWF official result:	155kg in 58kg weight category, Savannah, 2007
Personal coach:	SMITH John	Location:	Perth, WA, Australia
Previous Olympic Games competed in:	London 2012, Beijing 2008		
Club:	Perth Lions		

Major Achievements

Olympic Games:	2012 - London (GBR) 2008 - Beijing (CHN)	63kg 63kg	Silver 6 th
IWF World Championships:	2011 - Paris (FRA) 2010 - Antalya (TUR) 2007 - Chiang Mai (THA)	63kg 63kg 58kg	Gold 6 th Silver
Pan American Championships:	2007 - Rio de Janeiro, Brazil	58kg	4 th
IWF World Junior Championships:	2005 - Athens (GRE)	53kg	12 th
National Championships	2013 - Cairns, QL (AUS) 2012 - Sydney, NSW (AUS) 2010 - Perth, WA (AUS) ...	63kg 63kg 63kg	Gold 6 th Bronze

General Interest

She was the youngest athlete participating in the 63kg category at the Beijing 2008 Olympic Games. She was twice World Junior champion (2002, 2003). Becoming Olympic champion would be a dream come true.

Her parents own a sports equipment store in Sydney. Contact with all kinds of sports since she was little, motivated her to become a professional athlete.

Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

HISTORY WEIGHTLIFTING

Origin of Weightlifting

Practised already in Antiquity, weightlifting appeared as a sport in the late 19th Century. A memorable day in the history of weightlifting is 28 March 1891. The first World Championships were held on this day in London. In the course of the 20th Century, weightlifting developed into a clearly defined and strong sport with continuous presence extending into the five continents and various Games.

Weightlifting Today

In 1905 the International Weightlifting Federation was founded. Today the IWF counts 188 affiliated members in five continents. With the development of the sport of Weightlifting, the range of events grew gradually:

- Junior World Championships for Men - as of 1975 (Marseille, FRA)
- Women's World Championships - as of 1987 (Daytona Beach, FLO (USA))
- Junior Women's World Championships - as of 1995 (Warsaw, POL)
- Olympic Games Women - 2000 (Sydney, NSW (AUS))

Some of the biggest champions in the history of Weightlifting:

- SULEYMANOGLU Naim (TUR) - 23.01.1967 - The first triple Olympic Champion. 23-times world champion
- FOLDI Imre (HUN) - 08.05.1938 - Between 1960 and 1976 he participated in 5 Olympic Games. He was the only one in the world until 2004, when PECHALOV Nicolai (BUL/CRO), STEINHOFEL Ingo and WELLER Ronny (GER) also marked their fifth participations. FOLDI won Olympic gold medal in 1972 and two silver medals in other Games
- SCHEMANSKY Norbert (USA) - 30.05.1924 - He took part in 4 Games and won a medal in each. 1948: silver, 1952: gold, 1960: bronze, 1964: bronze. His bodyweight fluctuated between 90kg and 120.80kg
- KONO Tamio/Tommy (USA) - 27.06.1930 - In three OG he won 2 gold and 1 silver medal in three different bodyweight categories. Experts rank him as one of the All Time Best Weightlifters
- DIMAS Pyrros (GRE) - 13.10.1971 - The most successful athletes in relation to Olympic Games. Three times gold-medal winner and once bronze-medal winner
- REZAZADEH Hossein (IRI) - 12.05.1978 - The World's Strongest Man for several years. In Sydney and in Athens he took the gold medals with a total of 472.5kg - the best ever in the world.

Weightlifting at the Olympic Games

7 April 1896 is the Olympic "birthday" of Weightlifting. The venue was Athens, the 1st Olympic Games. Naturally, the quadrennial Olympic Games are the special highlights in the sport of Weightlifting. At the OG from Athens 1896 to Athens 2004, Weightlifting featured in the Olympic Games 22 times. Altogether 501 medals were awarded; 135 male and 14 female Olympic Champions were crowned. In the 108 years four athletes captured three Olympic gold medals (with a maximum of one gold medal available in each Games):

- SULEYMANOGLU Naim (TUR) - 1988, 1992, 1996
- DIMAS Pyrros (GRE) - 1992, 1996, 2000
- KAKHIAVILIS Kakhi (CIS/GRE) - 1992, 1996, 2000
- MUTLU Halil (TUR) - 1996, 2000, 2004

FACILITY DESCRIPTION WEIGHTLIFTING

Facility name:	Riocentro
Location:	Pavilion 2
Address:	One Western Gateway, Royal Victoria Dock
History:	Riocentro is an existing exhibition and conference centre in Rio's Docklands which first opened in November 2000. It has hosted more than 3,500 events and welcomed more than 10 million visitors from more than 200 different countries. In May 2008 Riocentro was acquired by Abu Dhabi National Exhibitions Company and an expansion to the site - taking event space to nearly 100,000 square metres - was completed in May 2010. Notable events at Riocentro include the Rio Boat Show, Brazil International Motor Show, Rio International Music Show and Star Wars Celebration. Before Riocentro the area was a working dock which specialised in tobacco, South American beef, New Zealand lamb, citrus fruit and bananas. It was opened by Prince Albert in 1855 and was the first to use hydraulic cranes and lifts to raise ships. Traffic through the dock reached its peak in the middle of the 20th century but after rapid decline was closed in 1981.
Distance from:	Estimated travel time from the Media Transport Mall on Olympic Park: approximately 25-35 minutes, running at 30-minute intervals Estimated travel time from the Media Transport Hub in Bloomsbury: approximately 35-40 minutes, running at 30-minute intervals
How to get there:	...
Other sports at this venue:	Boxing (Pavilion 1), Fencing (Pavilion 3), Judo (Pavilion 2), Table Tennis (Pavilion 5), Taekwondo (Pavilion 2), Wrestling (Pavilion 4)
Construction area:	...
Spectator capacity:	3,800 seats
Air conditioning:	No
Lighting levels:	1500 lux/3200 degrees Kelvin
Generic facilities available at the competition venue:	...
General information:	This Centre is normally used for exhibitions and fairs, one of which is the very popular "Boat Show" Riocentro will revert to its role as one of Brazil's largest exhibition spaces
Post Games use:	16m
Altitude:

MEDIA INFORMATION WEIGHTLIFTING

Facilities

There are 154 tabled seats, 174 non-tabled seats for press tribune and 90 photo positions around the field of play.

There are press work areas and photo work areas near the field of play, with work stations and pay phones, fax and internet access. Free lockers, laptop locks, drinking water and information services will be provided.

The media lounge is a portable building at the east side of the venue with free snacks and beverages. Hot meals are provided according to reservation and on-the-spot sales may be available depending on the circumstances.

Golf cart transportation is provided on-demand.

Interviews

Journalists may meet athletes in the mixed zone as the athletes exit the competition area. The section for broadcasters is beside the field of play, while the section for press is in corridor beside the press work area. Formal interviews with medallists in the press conference room will be held after the medal ceremony. Additional press conferences are possible by arrangement with specific athletes after each competition session.

Photographer positions

Designated photo positions are listed in the Photo Guide. They are located both in FOP (only 6 for POOL photographers with POOL bibs, only 1 for each POOL agency) and in stands. Positions in stands have special labels, namely Photo Position or POOL Position (with agency's name). Photographers may take pictures in spectators' area as long as they are not blocking the view of spectators. Catwalks are only for POOL photographers to install remote cameras with the approval of the Rio2016 photo chief and the venue photo manager.

Sub-Centre

A full-service sub-centre supporting journalists covering Weightlifting, Wrestling and Judo is available in the Day Lodge with complete results and information services, television monitors, working positions, telephones and food service. A total of 180 working positions are offered, with 90 charge-a-call telephones available. The sub-centre telephone number is (801) 123-4567. The sub-centre fax number is (801) 456-7890.

Hours of the sub-centre are 9:00 to 22:00 daily from 10 August through 27 August.

Transportation to the sub-centre will be provided according to the schedule in the Media Guide.

Venue Press Manager

The venue press manager is John SMITH, assisted by Paul YOUNG (Press Operations) and Anne JONES (Photo Services). Please call 66673096 for more information.

FLASH QUOTES
WEIGHTLIFTING
MEN'S 94kg

News Item: 117

ILIN Ilya (KAZ) - Gold

On being injured during competition:

"In my second Snatch I hurt my elbow and the doctor tried to fix it. I was worried that I could not compete, but my coach helped me and gave me confidence. He helped me stand up psychologically".

On waiting to see which medal he would get after his last lift:

"In the Clean and Jerk I got 226kg. I began to congratulate myself because I had done my best. If others had have lifted more than me, they are good boys. I would have been happy for them".

On his unique hair style:

"I designed my hair style especially for today's competition".

KOLECKI Szymon (POL) - Silver

On winning the silver medal:

"This medal is really very important to me and my career. I came back from a serious injury two years ago, I was upset during this time. But now, I've come back to Weightlifting. There was no reason why I didn't win the gold".

On this silver medal compared to the silver won at the Sydney 2000 Olympic Games:

"I am more satisfied with this silver than the silver I won in Sydney, because in Sydney it was very close and I got injured in the competition, so I have enjoyed this much more".

AKKAEV Khadzhimurat (RUS) - Bronze

On being allocated to Group B:

"My coach is a jerk. It's all my coach's decision, but I did not have a very good performance before I came here".

"If I had competed in Group A, I would have won the gold. My competitors were chasing my kilos".

On his performance:

"I'm feeling bad. I didn't perform very well today, but I think the gold medallist is very good".

On winning the Bronze medal:

"(Winning the) bronze is not the worst that might happen in life. I could not jump over my head".

QUOTES OF THE DAY

News Item: 117

A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

Givenname FAMILYNAME (NOC) on the sights in the Olympic Village

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

Gold medallist Givenname FAMILYNAME (NOC) on her latest victory

"There are a lot of countries here. I don't even know where half of them are on the map."

The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games

"I did not concentrate on my opponent. I only concentrated on my coach."

Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)

PRESS CONFERENCE HIGHLIGHTS

WEIGHTLIFTING

WOMEN'S 75kg

News Item: 119

CAO Lei (CHN) - Gold

On the importance of strength in Weightlifting:

"Strength is the most and utmost important thing in Weightlifting. Ever since our female Weightlifting team was established, we fully understood the importance of strength. So we have one gold medal after another".

On the connection between beauty and female Weightlifters:

"My belief is that being healthy is being beautiful. We are very healthy, so we are beautiful women. There is a saying 'health leads the trend of fashion'".

On winning the gold medal:

"For the gold medal, I dedicate it first of all to my motherland and all of the people in my country. But most importantly, I want to dedicate this medal to my dear mother who has passed away not long ago".

On failing to equal the senior world record of 159kg in her final clean and jerk attempt:

"For my last lift it is true that in my regular training sessions I could lift that kind of weight, but in my last lift on the platform I think there was some kind of psychological change (in me) and that's why I failed to lift it".

VAZHENINA Alla (KAZ) - Silver

On her coach not being able to attend today's competition:

"He is certainly with us despite his recent operation and a lot of pain, he is still here. I am glad I could win today so that I do not let him down".

EVSTYUKHINA Nadezda (RUS) - Bronze

On winning the Bronze medal:

"I just want to say that I am very happy to get a medal at the Olympic Games. That is all".

SPORT PREVIEW

WEIGHTLIFTING

News Item: 1

- Two Chinese athletes hope to be the first women to win two Olympic gold medals when the Rio 2016 Weightlifting programme begins at the Riocentro on Monday 15 August.
- CHEN Yanqing (CHN), the 2004 Olympic gold medallist, looks unbeatable in the 58kg category where she currently holds two senior world records. She is ranked almost 20kg ahead of her nearest rivals.
- LIU Chunhong (CHN) also has the chance to win a second Olympic gold in the 69kg category after her triumph in Athens eight years ago. She faces tougher opposition, from current world champion Oxana SLIVENKO (RUS) who defeated her at last year's world championships in Chiang Mai, Thailand.
- Women's 48kg category
CHEN Xiexia (CHN) is favoured to win China's first weightlifting gold medal of the Games. The Athens 2004 Olympic Games gold medallist Nurcan TAYLAN (TUR) is contesting this category however she has rarely approached her gold medal result since 2004. TAYLAN will have to fight for a medal from a group of athletes who have all registered similar results.
- Women's 53kg category
...
- Women's 58kg category
...
- Women's 63kg category
...
- ...
- Men's 56kg category
LONG Qingquan (CHN) is the favourite because of his strong performance at the Chinese national team trials in Quanzhou last April where he lifted a Total of 286kg. This will be 17-year-old LONG's international debut. World champion CHA Kum Chol (PRK) and Asian champion HOANG Anh Tuan (VIE) will provide the main opposition. Eko Yuli IRAWAN (INA) could surprise if he can lift near the 305kg Total he achieved at the 2008 Asian championships. IRAWAN then competed in the 62kg category.
- Men's 62kg category
ZHANG Xiangxiang (CHN) leads this category ahead of 2007 world championships silver medallist IM Yong Su (PRK) and 2008 Pan American champion Oscar FIGUEROA (COL). ZHANG won the bronze medal at the Sydney 2000 Olympic Games in the 56kg category.

**BODYWEIGHT CATEGORY PREVIEW
WEIGHTLIFTING
MEN'S 94kg**

News Item: 23

The men's 94kg category, to be contested on Monday, 15 August at the Riocentro, will feature the toughest battle for gold in Weightlifting at the Rio 2016 Olympic Games.

Favourite

- There is no clear favourite in this very competitive category and it would not surprise if an athlete from the B group manages to come through for a medal. Such is the high level of entries that current world champion Roman KONSTANTINOV (RUS) is ranked 10th.

Challengers

- Szymon KOLECKI (POL) is probably the sentimental favourite. A popular figure, he has battled for many years without an Olympic or world championships total gold medal to his name. KOLECKI's best lifting was done back in 2000 when he set the current clean and jerk senior world record of 232kg, at 18 years of age. A legitimate 400kg+ athlete, he has recently approached his best form with 397kg at the 2008 European championships.
- KONSTANTINOV was the gold medallist at last year's world championships with 397kg. He has yet to break through the 400kg barrier and so far at these Games the Russian team's form has been indifferent.
- Ilya ILIN (KAZ) burst onto the world Weightlifting scene in 2005 when he won the 85kg world title at the age of 17, with a total of 386kg. A year later, he moved up to the 94kg category and again won the gold medal with 392kg. However, due to injury ILIN has not competed internationally since the Asian Games in December 2006, where he won gold with a 397kg total and attempted a clean and jerk senior world record of 233kg. His nominated entry total of 411kg, the highest of the category, suggests that he is over his injury problems.
- Nizami PASHAYEV (AZE) is yet another former world champion (2005, 2002) contesting this category and has an official 405kg total to his name, however, his recent form is unknown.
- Yohandrys HERNANDEZ (CUB) won the silver medal at last year's world championships with 393kg and is a reliable athlete, a valuable asset in a tight contest where every lift will count.

Also...

- Bartlomiej BONK (POL), Arsen KASABIEV (GEO) and Asghar EBRAHIMI (IRI) have all nominated high entry totals yet none have registered a total of over 390kg in international competition. While they will be competitive, they may not be as steady at this level as their more experienced rivals.
- Khadzhimurat AKKAEV (RUS) impressed with his fighting qualities at the Athens 2004 Olympic Games, where he won the silver medal with 405kg. AKKAEV's nominated entry total of 390kg has him in the B group but if in form, he is likely to set the bar high for the A group athletes to follow.

**BODYWEIGHT CATEGORY REVIEW
WEIGHTLIFTING
MEN'S 94kg**

News Item: 75

- Ilya ILIN (KAZ) returned to international competition with a flourish, winning a gold medal in the Men's 94kg category Weightlifting on Monday at the Riocentro.
- ILIN appeared to hurt his elbow when he snatched 180kg to be placed 4th at the halfway mark. He trailed Khadzhimurat AKKAEV (RUS), who had snatched 185kg in the B group earlier in the day, Nizami PASHAYEV (AZE) with 181kg and Ashgar EBRAHIMI (IRI), who had also snatched 180kg but was lighter than ILIN. The experienced Szymon KOLECKI (POL) was handling the pressure better than most and was poised just behind this group on 179kg.
- ILIN safeguarded his injured elbow by passing on his third attempt in the snatch and came out firing in the clean and jerk. He rushed his first attempt on 223kg but made amends on his second to pass AKKAEV's total of 402kg by 1kg. ILIN then consolidated his position by lifting 226kg on his final attempt for a 406kg total.
- KOLECKI got the silver medal with a clean and jerk of 224kg then went after ILIN with 228kg on his final try. He failed but had lifted above expectations, going past the 400kg total mark for the first time since 2001.
- Arsen KASABIEV (GEO), who had earlier snatched 176kg, made a strong 223kg clean and jerk then made the decision to go straight for Gold rather than try for bronze and silver. He failed with 231kg, just 1kg below the senior world record, and ended 4th.
- AKKAEV won the bronze medal, becoming the first athlete at these Games to win a medal from the B group.
- PASHAYEV (215kg) and EBRAHIMI (212kg) could not match the leaders in the clean and jerk.
- Reigning world champion Roman KONSTANTINOV (RUS) finished in 8th with 387kg.

SPORT REVIEW

WEIGHTLIFTING

News Item: 15

- China dominated the Weightlifting events at the Rio 2016 Olympic Games, winning eight of the 15 gold medals on offer. The women's success was no surprise but the men's haul of four golds and one silver exceeded expectations.
- China's athletes, especially the women, went about their work with confidence and precision. The women succeeded with 23 of a maximum 24 attempts - an incredible strike rate.
- Matthias STEINER (GER) and JANG Miran (KOR) took gold in the blue riband events of weightlifting (the Super Heavyweight category), laying claim to the titles of strongest man and woman at the Games.

Women's Competition

- CHEN Xie Xia (CHN) won China's first gold medal with an Olympic record total of 212kg in the 48kg category, comfortably ahead of junior world champion, Sibel OZKAN (TUR).
 - Prapawadee JAROENRATTANATARAKOON (THA) defeated pre-competition favourites Nastassia NOVIKAVA (BLR) and YOON Jinhee (KOR) in the 53kg category, thanks to her strength in the Clean and Jerk. JAROENRATTANATARAKOON's total of 221kg was 8kg ahead of YOON, who was awarded silver ahead of NOVIKAVA owing to her lighter bodyweight, as both athletes had identical totals of 213kg.
 - CHEN Yanqing (CHN) became the first woman to win two Olympic gold medals in Weightlifting, with a convincing victory in the 58kg category. While adding to the gold she won in the same category at Athens 2004, CHEN set Olympic records in the Clean and Jerk (138kg) and total (244kg). There was an absorbing battle for silver and bronze. Marina SHAINOVA (RUS) secured the silver medal with a wonderful clean and jerk of 129kg and bronze medallist O Jong Ae (PRK) did likewise with an Olympic record 131kg.
- ...

Men's Competition

- LONG Qingquan (CHN) became the youngest-ever Olympic gold medallist in Weightlifting with his victory in the 56kg category. LONG, who turns 18 in December, set new junior world records for the Snatch (132kg) and total (292kg), missing only his final attempt with 164kg. Anh Tuan HOANG (VIE), whose silver medal was the first-ever Olympic medal by a male athlete from Vietnam, was just 2kg behind LONG, with a personal best of 290kg. Bronze medallist Eko Yuli IRAWAN (INA) also exceeded the previous junior world record for the total with 288kg.
 - ZHANG Xiangxiang (CHN), bronze medallist at the Sydney 2000 Olympic Games (at 56kg) marked his return to international competition with a gold medal in the 62kg category. ZHANG led at the halfway mark by just 1kg from JI Hunmin (KOR), snatching 143kg to JI's 142kg. JI failed three times to clean and jerk 161kg, whereas ZHANG lifted 176kg.

Praise for Riocentro Olympic Weightlifting Hall

The first athletes to train at Riocentro Olympic Weightlifting Hall have congratulated the Brazilian organisers for providing excellent facilities at the venue and at the Olympic Village.

Members of the Ecuador team, Alexandra ESCOBAR and Julio IDROVO trained at the venue late Friday less than 24 hours after their arrival in Rio following a lengthy flight.

ESCOBAR (58kg), a scholarship holder with the Olympic Solidarity Programme, has competed at three World Championships. She finished fourth in Vancouver last year after moving up from the 53kg class.

IDROVO (69kg) is ranked in the top 20 athletes in his class in the world. Asked about his prospects for the forthcoming Olympic Games, he replied: "It will be difficult to win a medal but not impossible".

Weightlifting: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Weightlifting Men's 62kg of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 15 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Weightlifting:
 - (i) is disqualified from the Men's 62kg of the Rio 2016 Olympic Games where he placed 7th;
 - (ii) shall have his diploma in the above-mentioned event withdrawn; and
 - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. The IWF is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.
- V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Weightlifting information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Weightlifting. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the IWF and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, IWF office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the Technical Congress, followed by the Congress itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. all bodyweight categories).

2.1 Pre-Competition Activities - Technical Congress

2.1.1 Process

3.2 Event Related Outputs Without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Weightlifting sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

IDS Information Diffusion System
ONS Olympic News Service
OVR On Venue Results system
VRM Venue Results Manager

Officials: Judges, Jury of Appeal, Referees, Doping Control Officer
(The VRM should consult Protocol/Ceremonies and the Doping Control Officer regarding the specific outputs required)
IWF: IWF President, IWF Secretary General, IWF Technical Delegates, IWF Secretariat, IWF Press Office

5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
AETC	At the end of the Technical Congress
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day IWF and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EDTC	On the evening of the day of the Technical Congress
EOD	End of day
WPC	When presenters are confirmed
hODTC	At HH on the day of the Technical Congress
OEDC	Once entry data have been checked during the verification of final entries
OVRO	On Venue Results becomes owner of data
xDBC	X (x) day(s) before the first day of competition
xEBCD	X (x) evening(s) before a competition day
xEBCS	X (x) evening(s) before competition starts in a bodyweight category
xHAC	X (x) hour(s) after the competition
xHAPS	X (x) hour(s) after production of the start lists
xHATC	X (x) hour(s) after the Technical Congress
xHBVFE	X (x) hour(s) before verification of final entries
xHBTC	X (x) hour(s) before the start of the Technical Congress
xMAC	X (x) minute(s) after the competition/the end of a bodyweight category
xMAD	X (x) minute(s) after the draw
xMAE	X (x) minute(s) after the event
xMAG	X (x) minute(s) after the end of a group in a bodyweight category
xMAGA	X (x) minute(s) after the results of a group in a bodyweight category are approved
xMAJ	X (x) minute(s) after each jury or other official body decision
xMALC	X (x) minute(s) after the last bodyweight category
xMALD	X (x) minute(s) after lots are drawn
xMAMRA	X (x) minute(s) after medal results are approved
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes/a press conference
xMARSI	X (x) minute(s) after receiving schedule information)
xMATC	X (x) minute(s) after the Technical Congress
xMAW	X (x) minute(s) after the Weigh-in is complete
xMBF	X (x) minute(s) before a final
xMBG	X (x) month(s) before the Games

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts, Real Time Display System (RTDS) screens, available through ODF and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the IWF and the OC (and providers).

This page intentionally left blank.

2 Scoreboards

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Athletes and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the IWF's approval.

The IWF recommends using a video projector (as well as a backup) as used during their international competitions (minimum 10 000 Lumens).

It is important that the size of the public scoreboard (including font size) allows all spectators to easily read the information displayed, even if seated on the furthest rows of the stand.

In addition to the static information, for Rio 2016 the IWF would like to have a scoreboard displaying 18 athletes from the current group as well as the leading three athletes from previous groups, if any.

2.3 Part A - Before the competition

2.3.1 Presentation of Technical Officials

What: List of officials with screen title, and for each function: scoreboard name and NOC code.

The following functions should be included:

- Centre Referee
- Referees (x2)
- Reserve Referee
- Chief Marshal
- Timekeepers (x2)
- Technical Controllers (x2)
- Doctors on duty (x2)

When: As the officials are presented on the podium.

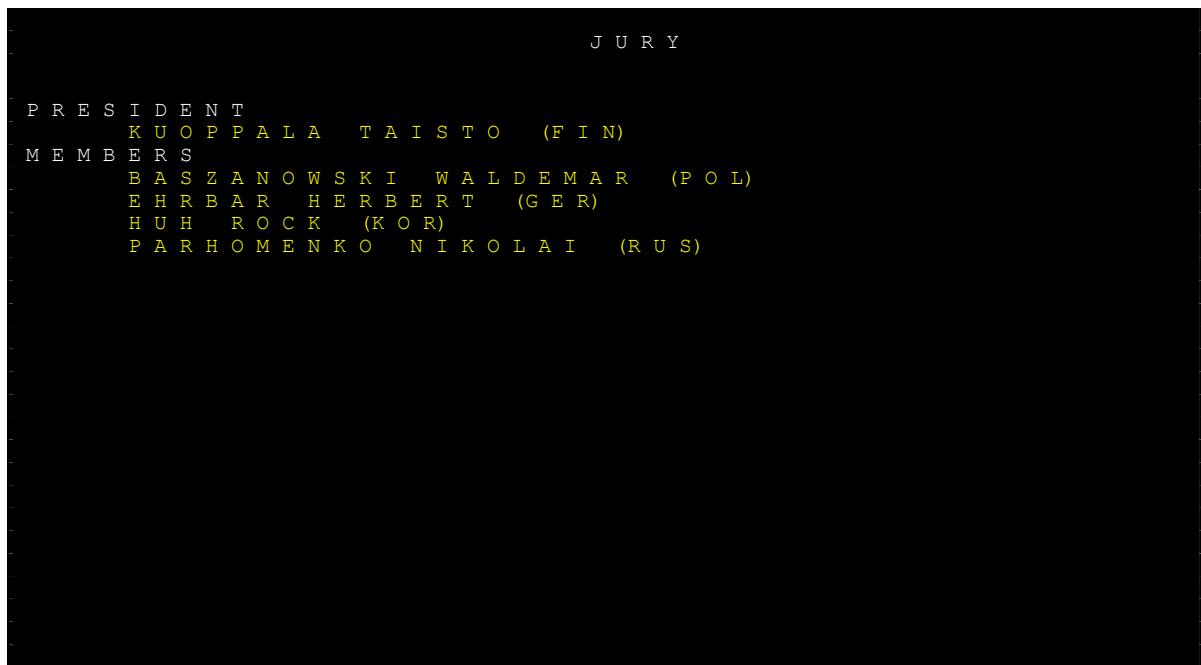

Shown at the discretion of sport production.

How: Single page displayed when the announcer introduces the International Technical Officials

TECHNICAL OFFICIALS		
CENTRE REFEREE	PIILONEEN	AULIS (FIN)
REFEREES	LIU FURONG	(CHN)
RESERVE REFEREE	SANCHEZ JENNIN	(AUS)
CHIEF MARSHAL	MUNOZ ROSARIO	(HUN)
TIMEKEEPERS	MAVRAK KOSTAS	(HUN)
TECHNICAL CONTROLLERS	KISS EDE	(HUN)
DOCTORS ON DUTY	MCVEY DEBORAH	(USA)
	SAKAUE KATSUMI	(JPN)
	TONIN IVAN	(BUL)
	AROGA MARTA	(ROU)
	HERRICK RICHARD	(USA)

2.3.2 Presentation of the Jury

- What: List of the Jury with screen title, and for each function: scoreboard name and NOC code.
The following functions should be included:
- President
 - Members
- When: As the Jury are presented (normally after the presentation of the International Technical Officials).
Shown at the discretion of sport production.
- How: Single page displayed when the announcer introduces the Jury

2.4 Part B - During the competition

2.4.1 Before the first group

- What: Weigh-in list with standard IWF bodyweight category, group and for each athlete: bib number, scoreboard name, NOC code, bodyweight and date of birth.
The first attempts for both Snatch and Clean & Jerk are shown. Columns 2, 3 for Snatch and Clean & Jerk, total and rank are blank.
Last three lines: Senior world, Olympic and Junior world records for Snatch, Clean & Jerk and Total.
- When: Before competition
- How: Single page with the athlete list for the first group according to the lot numbers drawn.
The layout of the main scoreboard has therefore been defined as follows:
Up to 18 athletes plus previous group
Lines 1 & 2 - Bodyweight category, ..., title
Lines 3 to 20 - 18 athletes
Line 21 - If successful ... (only for Clean & Jerk)
Lines 22 to 25 - Previous Group
Lines 26 to 29 - Senior world records, Olympic records,

Long scoreboard names (as long as possible) should be used for athletes.

Bib number, scoreboard name, NOC, bodyweight, date of birth and nominated first attempt for Snatch and Clean & Jerk are shown in amber.

MEN'S 56KG GROUP B				SNATCH	CLEAN	&	JERK	TOTAL	RK	
NAME	NOC	BWEIGHT	BORN	1	2	3	1	2	3	
1 CHISLEAN VICTOR	MDA	54.88	01.07.1982	90			145			
2 FIGUEROA MOSQUERA O.	COL	56.00	03.10.1983	102			145			
3 BONEL ERIC	FRA	55.16	27.11.1974	100			150			
4 CASTRO VELASQUEZ N.	COL	55.44	28.02.1974	100			100			
5 ALI MOHAMMED	IRQ	54.96	19.10.1981	102			151			
6 BENAMI NAFAA	ALG	54.13	09.03.1974	101			149			
7 YAMADA MASAHARU	JPN	53.66	16.01.1980	100			152			

SENIOR WORLD RECORDS			OLYMPIC RECORDS			JUNIOR WORLD RECORDS		
SNATCH : 138KG	HALIL MUTLU	(TUR)	137KG	HALIL MUTLU	(TUR)	135KG	LI ZHENG	(CHN)
CL&JERK: 168KG	HALIL MUTLU	(TUR)	167KG	HALIL MUTLU	(TUR)	165KG	WU WENXIONG	(CHN)
TOTAL : 305KG	HALIL MUTLU	(TUR)	305KG	HALIL MUTLU	(TUR)	287KG	ZHANG XIANGXIA	(CHN)

2.4.2 Before subsequent groups

- What: Weigh-in list with standard IWF bodyweight category, group and for each athlete: bib number, scoreboard name, NOC code, bodyweight and date of birth.
At the bottom: top 3 from previous group(s).
The first attempts for both Snatch and Clean & Jerk are shown. Columns 2, 3 for Snatch and Clean & Jerk, total and rank are blank.
Last three lines: Senior world, Olympic and Junior world records for Snatch, Clean & Jerk and Total.
- When: Before competition
- How: Single page with the athlete list according to the lot numbers drawn.
The layout of the main scoreboard has therefore been defined as follows:
Up to 18 athletes plus previous group
Lines 1 & 2 - Bodyweight category, ..., title
Lines 3 to 20 - 18 athletes
Line 21 - If successful ... (only for Clean & Jerk)
Lines 22 to 25 - Previous Group
Lines 26 to 29 - Senior world records, Olympic records,

Long scoreboard names (as long as possible) should be used for athletes.
Bib number, scoreboard name, NOC, bodyweight, date of birth and nominated first attempt for Snatch and Clean & Jerk are shown in amber.

MEN'S 56KG GROUP A			NOC	BWEIGHT	BORN	SNATCH			CLEAN & JERK			TOTAL	RK
NAME	1	2	3	1	2	3

TOTAL : 305KG	HALIL MUTLU (TUR)			305KG	HALIL MUTLU (TUR)			287KG	ZHANG XIANGXIA (CHN)				

2.4.3 During Competition

- What:** Results with standard IWF bodyweight category, group and for each athlete: bib number, scoreboard name, NOC code, bodyweight, date of birth, attempts 1, 2, 3 (with success/fail indicator) and best for both the Snatch and Clean & Jerk, total result and rank.
At the bottom: top 3 from previous group (if available).
Last three lines: Senior world, Olympic and Junior world records for Snatch, Clean & Jerk and Total.
- When:** Shown when the next athlete is announced.
Updated after each attempt during the competition.
- How:** Successful attempts should be shown in green, failed attempts should be shown in red and best results in each Snatch and Clean & Jerk should be shown inversed.
Always show previous group on lines 22-25 (if available).
Current athlete and weight on bar are shown in black on white background, the next athlete is shown in blue on a black background. Current athlete and weight on bar is shown blinking.
Only use one line for potential rank and record info. Longest possible string is "IF SUCCESSFUL WILL BE 1ST AND SET NEW RECORD(S)". All possible records (up to 6) are shown blinking (name of current record holder, NOC of current record holder and record value should blink).
The board remains unchanged until a referee decision (lights cleared off on the attempt board). The weight will then be changed to either red or green (failed or successful attempt).
Any DNS, DNF, DSQ should show "---" on any attempt not performed, the IRM code in the Total column and "-" in the Rank column.
If all three attempts are missed in Snatch, "---" should be shown for all attempts in Clean & Jerk, IRM in the Total column and "-" in the Rank column.
Athletes from the current group who are out of the competition (DNS, DNF, DSQ) should be displayed on the board.

2.4.4 Results - with placing information

- What: Results with standard IWF bodyweight category, group and for each athlete: bib number, scoreboard name, NOC code, bodyweight, date of birth, attempts 1, 2, 3 (with success/fail indicator) and best for both the Snatch and Clean & Jerk, total result and rank.
Information about the potential rank should be shown.
At the bottom: top 3 from previous group (if available).
Last three lines: Senior world, Olympic and Junior world records for Snatch, Clean & Jerk and Total.
- When: Shown when the next athlete is announced
- How: Successful attempts should be shown in green, failed attempts should be shown in red and best results in each Snatch and Clean & Jerk should be shown inversed.
Only use one line for potential rank.
The information concerning the next athlete should not be updated on the public scoreboard and the attempt board until the three lights for the previous athlete have been cleared from the attempt board.
Athletes who are out of the competition (DNS, DNF, DSQ) should be displayed on the board.

2.5 Part C - During the Victory Ceremony

2.5.1 Presenters

- What: Screen shows the presenters with discipline name, event name, screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function.
- When: As the dignitary is introduced before the ceremony
- How: Single screen

2.5.2 Medallists - Individual

- What: Screen shows list of medallists with discipline name, event name, screen title. For each medallist show medal type, scoreboard name, NOC code, results and record indicator, if any
- When: During the ceremony
- How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

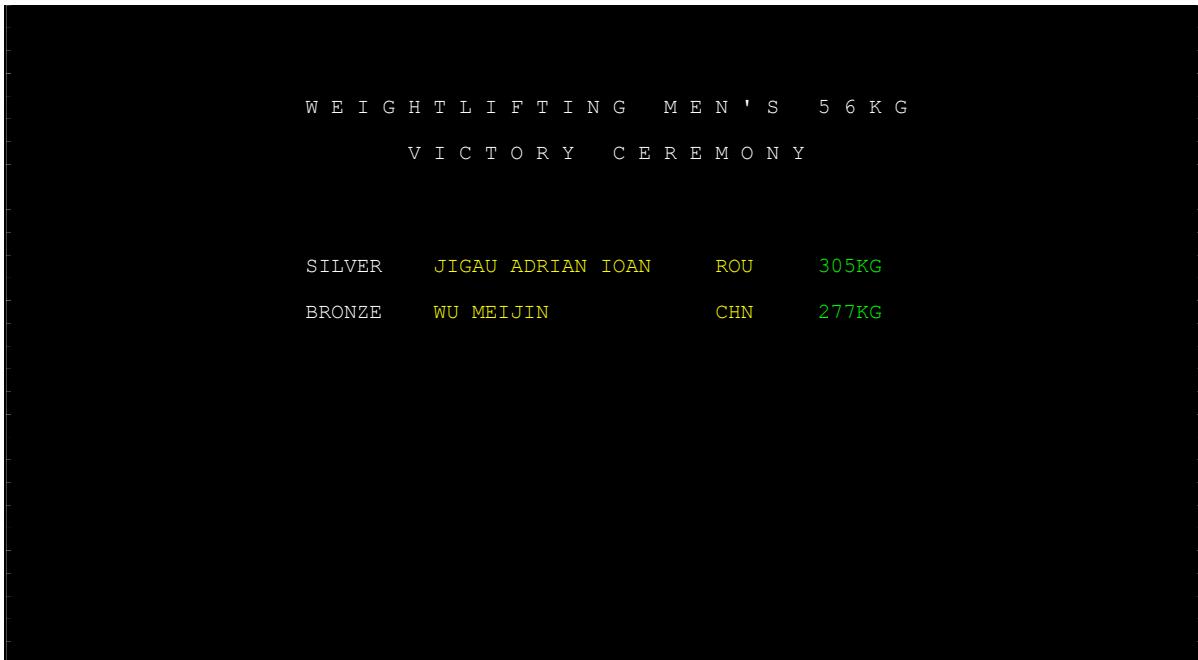

W E I G H T L I F T I N G M E N ' S 5 6 K G				
V I C T O R Y C E R E M O N Y				
GOLD	WANG SHIN YUAN	TPE	312KG	WR/OR
SILVER	JIGAU ADRIAN IOAN	ROU	305KG	
BRONZE	WU MEIJIN	CHN	277KG	

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

W E I G H T L I F T I N G M E N ' S 5 6 K G				
V I C T O R Y C E R E M O N Y				
BRONZE	WU MEIJIN	CHN	277KG	

As the silver medallist is presented:

W E I G H T L I F T I N G M E N ' S 5 6 K G
V I C T O R Y C E R E M O N Y

SILVER	JIGAU ADRIAN IOAN	ROU	305KG
BRONZE	WU MEIJIN	CHN	277KG

As the gold medallist is presented:

W E I G H T L I F T I N G M E N ' S 5 6 K G
V I C T O R Y C E R E M O N Y

GOLD	WANG SHIN YUAN	TPE	312KG	WR/OR
SILVER	JIGAU ADRIAN IOAN	ROU	305KG	
BRONZE	WU MEIJIN	CHN	277KG	

2.6 Part D - Attempt board

It is recommended to use a proportional font on the Attempt Board to display athlete names in order to avoid shortening them.

2.6.1 Before the next session

- What: Start time of next session (time of day). Includes standard IWF bodyweight category, group and start time.
When: Before/after a session
How: Static screen

2.6.2 Countdown clock

- What: Countdown in minutes and seconds. Includes standard IWF bodyweight category, group and countdown clock
When: From ten (10) minutes before the session onwards
How: The countdown runs from 10:00 minutes to 0:00

2.6.3 Current athlete

- What: Current athlete attempt board name, bib number, NOC code, attempt number, weight on bar, running time (countdown from one (1) or two (2) minutes accordingly). Success/Fail indicator for each judge.
Name field should hold at least the scoreboard short name, but if possible (i.e. by using graphic capabilities of the board) the scoreboard long name should be used.
Colours may be adjusted for best viewing.
- When: During the competition. Show each athlete's attempt.
- How: Single page displayed when next athlete is announced.
Athlete name should be displayed entirely, the font size being adjusted depending on the number of characters.

a) Before an attempt

MOTHAL Mmoloki
12 BOT 3 ATT
87KG 0:54

b) After an attempt (good lift)

MOTHAL Mmoloki
12 BOT 3 ATT
87KG 0:15
1 2 3

c) After an attempt (no lift)

MOTHAL Mmoloki
BOT 3 ATT
87KG 0:15
1 2 3

2.6.4 After competition

The attempt board is not used after competition other than to display the sport pictogram, the Olympic Games logo or the mascots.

3 Real Time Display System

3.1 Part A - Before/during/after each competition

3.1.1 Lift order

What: This screen should work exactly as part B (During the Competition) in Section 2 (Scoreboards) of this document

When: See description "Part B" in Section 2 - Scoreboards

How: See description "Part B" in Section 2 - Scoreboards.

The font size should be adjusted to fit all the requested information on this screen.

There is also a red indicator to help the Jury detect if the 15/20 rule is broken.

a) Before the competition start

4 Sport Specific Real Time Data

There is no additional real time data available other than defined in Section 1 - Outputs.

This page intentionally left blank.

5 On Screen Results Presentation

Some screens will be updated in real time whenever new information becomes available (e.g. results update). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists, results after each group, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

This page intentionally left blank.

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Weightlifting document are defined as follows:

Term	Definition
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Attempt	Each athlete has three attempts for the Snatch, and three for the Clean & Jerk, at weights requested and specified by the rules. In order to qualify for a total, the athlete must be successful in at least one attempt for each movement.
Attempt Board	An electronic scoreboard which displays: the name, NOC code and bib number of the athlete just called, the number of the attempt and the weight to be lifted. This board also incorporates the Referee decision lights and the timing clock indicating the passage of the time allocated to the athlete.
Bib number	Athlete's number during the competition. In each competition (group), a bib number is allocated to each athlete (1-15 or 1-10, etc.), according to the progression of the athletes' lot numbers.
Bodyweight	The weight of the athlete registered by the officials at the Weigh-in.
Bodyweight Category	A range of bodyweight specified in kilograms with the upper limit being the category's denomination (e.g. Category 94kg), within which athletes compete in the same event. In the Olympic Games, athletes compete in 15 bodyweight categories: seven for women, eight for men.
Chief Marshal	The Chief Marshal manages the athlete's cards during the competition. The Chief Marshal accepts or refuses changes made by the athlete/coach on attempts.
Clean & Jerk	One of the two types of movements/lifts which constitute the Weightlifting competition. A two-phase movement, during which the athlete first pulls the barbell with both hands to shoulder height, performing a squat and then standing up (Clean), then jerks the weight overhead in a fast movement finishing with arms fully extended and an upright body (Jerk). The Clean & Jerk is performed in the second half of the competition.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to

Term	Definition
	the completion of the last event of a sport, excluding the Opening and Closing Ceremonies
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter).
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Drawing of Lots	A lot number is allocated at random (generated electronically) to each participant. The lot number determines the order of Weigh-in and lifting during the competition.
Entries	In order to be able to compete in the Olympic Games, athletes must be correctly entered by their NOC into their respective bodyweight categories, with the indication of the Entry Totals. No more than two athletes of the same NOC may be entered into a bodyweight category. Final entries are verified before the Technical Congress and will be used to make the start lists.
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)
	See "Weightlifting References" for the list of events.
Good lift	An attempt judged as correctly completed by at least two of the three referees. The result of a good lift is added for the Total.
Group	Depending on the number of entries in one category, athletes may compete in a single group (a maximum of 18 participants) or in multiple groups (Group C, B and A). The allocation of athletes is made according to their Entry Totals, with Group A being the strongest.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.

Term	Definition
Introduction	The competition begins with the introduction of athletes. After the introduction of athletes and prior to the introduction of Technical Officials, the timing clock starts a countdown of ten (10) minutes. A further one (1) minute countdown is given prior for the first attempt.
Jury	The Jury consists of five members (plus additional reserves). The Jury President decides which Jury members will be on duty for a group. The Jury has the authority to reverse a decision made by the Referees.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Lot number	A unique number drawn (electronically) for each athlete, which determines the order of Weigh-in and lifting during the competition.
No lift	An attempt judged as unsuccessful by at least two of the three referees.
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: http://odf.olympictech.org.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p> <p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every athlete, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, RTDS, ODF, etc.</p>
Platform	A square platform of 4m on each side and a height 100mm made of

Term	Definition
	solid and non-slip material on which the athletes must execute the lifts.
Protocol	A document registering the progress of the competition, indicating each successful and unsuccessful lift, the total result, the officials, and the records achieved.
Rank	Placing in an event. Athletes are ranked according to IWF rules.
Referee	Three referees are appointed to each group to adjudicate the attempts performed by the athletes. Their majority or unanimous decision - passed with the help of an electronic referee light system - will define the validity or the failure of a lift. The Referees' audible and visible signal will allow the athlete to replace the barbell on the platform at the end of a lift.
Referee Lights System	An electronic device used by the Referees to signal to the athlete that he may replace the barbell on the platform, and to pass their decision on the validity of a lift.
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit
Snatch	One of the two types of movements/lifts which constitute the Weightlifting competition. A continuous, swift movement in which the athlete lifts the barbell with both hands from the platform to extended arms' length above the head finishing with an upright body. The Snatch is performed in the first half of the competition.
Speaker	The speaker moderates the competition, calling the athletes by name and NOC to the platform to perform their attempts, and announces the validity or non-validity of each lift. The speaker gives continuous information on the competition to both the participants and the public.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Technical Congress	A meeting held with NOC representatives, IWF officials and Competition Management two (2) days prior to the first competition day.
Technical Controller	The Technical Controllers check the athletes' outfits, the calling order and the accuracy of the load on the barbell, keep order in the warm-up area, etc.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and

Term	Definition
	validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter).
Technical Officials	Refer to "Appendix C - Rules for Data Formats and Presentation" for the list of Technical Officials.
Timekeeper	A Technical Official - appointed to operate the timing clock in accordance with the rules.
Timing Clock	An electronic timekeeping device - usually part of the Attempt Board - displaying the time allocated to the athlete to perform the attempt in a countdown mode starting from one (1) or two (2) minutes.
Total	A figure specified in kilograms being the aggregate of the best successful Snatch result and Clean & Jerk result achieved by the athlete. The total decides the classification/ranking of the athletes
Tripartite Commission	<p>The Tripartite commission is composed of:</p> <ul style="list-style-type: none"> • The IOC • The Association of National Olympic Committees (ANOC) • The Association of Summer Olympic International Federations (ASOIF) <p>The main objective of the Tripartite Commission is to allocate Invitation Places to a number of NOCs without or with few athletes qualified, allowing them to participate in the Olympic Games, in order to strengthen the principle of universal representation.</p>
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.).
Warm-up (room/area)	An area separated from, but adjacent to the competition stage, in which athletes warm up before being called to perform their lifts and where they return after each attempt.
Weigh-in	A process that begins two (2) hours before each group and lasts one (1) hour, during which the athletes enter to that group appear before a panel of officials and are weighed. Athletes who are under or over the limits of their indicated category will not be allowed to compete.

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none">Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none">Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	<ul style="list-style-type: none">Artistic Gymnastics (team), Equestrian (team), etc.	G
Team	Team competition (group of players forming one side in Team sports)	<ul style="list-style-type: none">Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.	T

2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	<ul style="list-style-type: none">Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc.Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.
Single phase	All participants compete for a ranking in one event phase/unit	<ul style="list-style-type: none">Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	<ul style="list-style-type: none">Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc.Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.

2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	<ul style="list-style-type: none"> Measurements (time, weight, distance, height, etc.) Scores Judges' decisions (points, etc.).
Pool	Group of several participants, competing against each other in a round robin	<ul style="list-style-type: none"> Points
Bracket	<p>Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected</p> <p>Bracket types:</p> <ul style="list-style-type: none"> Bracket with direct elimination (e.g. Boxing) Bracket with direct elimination, classification and finals (e.g. Water Polo) Bracket with direct elimination and finals (e.g. Tennis) Bracket with direct elimination, repechage and finals (e.g. Judo) 	<ul style="list-style-type: none"> Win/Loss
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	<ul style="list-style-type: none"> Addition of results (points, times)

Appendix B - Abbreviations

The following abbreviations are used in the ORIS Weightlifting document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
CIS	Commentator Information System
cm	centimetre
CM	Organising Committee Competition Management
D	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
Da	Desirable, but only if such data is available
Dc	Desirable under conditions which are explained in the column for comments
DRM	Delegation Registration Meeting
ft	feet
ID	Identification number
IDS	Information Diffusion System
IF	International Federation
in	inch
IOC	International Olympic Committee
IRM	Invalid Result Mark
IT	Information Technology
ITO	International Technical Official
IWF	International Weightlifting Federation
JWCH	Junior World Championships
kg	kilogramme
lb	pound
m	metre
M	Mandatory
Ma	Mandatory - if applicable
Mc	Mandatory - required under conditions which are explained in the column for comments
MMC	Main Media Centre
MOC	Main Operation Centre
MPC	Main Press Centre
N/A	Not Applicable
NF	National Federation
NOC	National Olympic Committee
OC	Organising Committee
ODF	Olympic Data Feed
OG	Olympic Games
ONS	Olympic News Service

Code	Description
ORIS	Olympic Results and Information Services
OVR	On Venue Results system
PO	Organising Committee Press Operations
SEQ	Sport Entries and Qualification
TAO	IOC Technology Assistance and Observation team
TBD	To be defined
TD	Technical Delegate
VPC	Venue Press Centre
VRM	Venue Results Manager
WC	World Cup
WCH	World Championships
WL	Weightlifting
WNPA	World News Press Agencies
yd	yard

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Weightlifting Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Weightlifting bodyweight category presentation order	Please see "Weightlifting References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none">• Unscheduled Not visible on the schedule, optional (e.g. tie breaker if applicable)• Scheduled The start time is known• Getting_Ready At time x before start - "x" is defined by Olympic Broadcasting Services (OBS)• Running In progress• Scheduled_Break Planned break (e.g. end of period). Not applicable for Weightlifting.• Finished All action on the field of play is complete• Delayed Did not start as scheduled, should start in the current ticketing session• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present• Interrupted Unplanned interruption after the start, and is expected to resume in the current ticketing session• Rescheduled The new date and start time are known• Cancelled Will not take place at these Games
Results status options	<ul style="list-style-type: none">• Start List Start list has been created• Live In progress• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change.• Partial The results and ranking of the athletes who have completed their performance are not subject to change by the results of athletes still competing. Not applicable for Weightlifting.• Unconfirmed Activity on the field of play is complete but there is no results status update.

	<p>Not applicable for Weightlifting.</p> <ul style="list-style-type: none"> • Unofficial Results are available but not approved. • Official Results are approved • Protested The competition is no longer in progress and a protest has been lodged. Not applicable for Weightlifting. 																																																																																																
Invalid Results Marks (IRM)	<ul style="list-style-type: none"> • DNF - Did Not Finish • DNS - Did Not Start • DSQ - Disqualified <p>An athlete who withdraws before the Technical Congress will not be listed on any protocol, start list or results but will remain on the entry lists.</p> <p>The start list is not reproduced if an athlete fails the Weigh-in.</p> <p>An athlete who fails the Weigh-in will not be listed on any output produced after the Weigh-in. An official communication will be issued at the end of the Weigh-in session.</p>																																																																																																
	<p><u>Scoreboard and RTDS:</u></p> <p>An athlete who passed the Weigh-in, but who has no referee decision will be listed as DNS on all subsequent screens:</p> <table border="1"> <thead> <tr> <th colspan="3">Snatch attempt</th> <th colspan="3">Clean & Jerk attempt</th> <th rowspan="2">Total</th> <th rowspan="2">Rank</th> </tr> <tr> <th>1</th> <th>2</th> <th>3</th> <th>1</th> <th>2</th> <th>3</th> </tr> </thead> <tbody> <tr> <td>---</td> <td>---</td> <td>---</td> <td>---</td> <td>---</td> <td>---</td> <td>DNS</td> <td>-</td> </tr> </tbody> </table> <p>An athlete who fails to finish with a valid snatch result (A), or withdraws after being called to the platform followed by a referee decision, and fails to finish with a valid total result (B) will be listed as DNF on all subsequent screens:</p> <table border="1"> <thead> <tr> <th colspan="3">Snatch attempt</th> <th colspan="3">Clean & Jerk attempt</th> <th rowspan="2">Total</th> <th rowspan="2">Rank</th> </tr> <tr> <th>1</th> <th>2</th> <th>3</th> <th>1</th> <th>2</th> <th>3</th> </tr> </thead> <tbody> <tr> <td>A 120</td> <td>120</td> <td>120</td> <td>---</td> <td>---</td> <td>---</td> <td>DNF</td> <td>-</td> </tr> <tr> <td>B 120</td> <td>125</td> <td>127</td> <td>150</td> <td>---</td> <td>---</td> <td>DNF</td> <td>-</td> </tr> </tbody> </table> <p>A disqualified athlete will be listed as DSQ on all subsequent screens:</p> <table border="1"> <thead> <tr> <th colspan="3">Snatch attempt</th> <th colspan="3">Clean & Jerk attempt</th> <th rowspan="2">Total</th> <th rowspan="2">Rank</th> </tr> <tr> <th>1</th> <th>2</th> <th>3</th> <th>1</th> <th>2</th> <th>3</th> </tr> </thead> <tbody> <tr> <td>120</td> <td>124</td> <td>128</td> <td>150</td> <td>155</td> <td>155</td> <td>DSQ</td> <td>-</td> </tr> </tbody> </table> <p>An athlete called to the platform, followed by a referee decision for all six attempts, but who fails to finish with valid results, will be listed without any IRM:</p> <table border="1"> <thead> <tr> <th colspan="3">Snatch attempt</th> <th colspan="3">Clean & Jerk attempt</th> <th rowspan="2">Total</th> <th rowspan="2">Rank</th> </tr> <tr> <th>1</th> <th>2</th> <th>3</th> <th>1</th> <th>2</th> <th>3</th> </tr> </thead> <tbody> <tr> <td>120</td> <td>124</td> <td>126</td> <td>155</td> <td>155</td> <td>155</td> <td>---</td> <td>-</td> </tr> </tbody> </table>	Snatch attempt			Clean & Jerk attempt			Total	Rank	1	2	3	1	2	3	---	---	---	---	---	---	DNS	-	Snatch attempt			Clean & Jerk attempt			Total	Rank	1	2	3	1	2	3	A 120	120	120	---	---	---	DNF	-	B 120	125	127	150	---	---	DNF	-	Snatch attempt			Clean & Jerk attempt			Total	Rank	1	2	3	1	2	3	120	124	128	150	155	155	DSQ	-	Snatch attempt			Clean & Jerk attempt			Total	Rank	1	2	3	1	2	3	120	124	126	155	155	155	---	-

Snatch attempt				Clean & Jerk attempt				Total	Rank																											
1	2	3	Result	1	2	3	Result																													
120	124	126	124	155	155	155	---	---																												
IRM presentation order	Rules for presentation of results for athletes with DNF, DNS, DSQ:																																			
	<ul style="list-style-type: none"> An athlete, who is called to the platform followed by a referee decision for all six attempts, but who fails to finish with valid results, will be listed before any athlete with IRM. IRMs are listed in the following order: DNS, DNF, DSQ - all without rank. If more than one athlete is marked as DNS, DNF or DSQ - they should be listed by draw lot number (even if the number is not printed on the output). Results for athletes, who Did Not Finish (DNF), or were Disqualified (DSQ), should include any results achieved. 																																			
Record codes	<ul style="list-style-type: none"> WR - Senior world record OR - Olympic record JWR - Junior world record <p>Records are listed in the following order: WR, OR, JWR. Note that that a record is possible for only the Snatch, only the Clean & Jerk or just the Total even if the Olympic medals are awarded for the Total only.</p> <p>If a record is broken, all records will be listed on the outputs. E.g. if the WR is broken it will also be an OR. If multiple records can be broken they are all indicated on the scoreboard and RTDS.</p>																																			
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23</p>																																			
Results format	##0 for good lift	##0 for invalid lift	---	for no result (athlete retired)																																

Height/Weight formats	Height (metric): 0.00m #00cm 0.00 ##0	Height (imperial): 0ft #0in 0'#0" ##0kg	Weight (metric): ##0.00kg ##0.0kg ##0kg ##0.00 ##0.0 ##0	Weight (imperial): ##0.00lbs ##0.0lbs ##0lbs ##0.00 ##0 ##0
	If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".			
Scoreboard countdown clock format	Time of day: HH:MM Countdown: MM:SS Times are displayed in 24 hour format, without leading zeros. Countdown from 10:00 minutes to 0:00			
Presentation of ties	Results <ul style="list-style-type: none">• The primary rank (first column) must show a rank (if tied, repeat rank).• Secondary rank(s), if any (e.g. after Snatch...) will be repeated, with an "=" sign if there is sufficient space.			
Weightlifting Technical Officials presentation order	Order in which IWF Technical Officials should be presented on outputs (not to be used for any protocol purpose): 1. Technical Delegates 2. Jury Members 3. Referees 4. Chief Marshals 5. Timekeepers 6. Technical Controllers 7. Competition Secretaries 8. Doctors on Duty			

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, IWF, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> • dd MMM yyyy (e.g. 6 APR 1896) <ul style="list-style-type: none"> • dd: date format, for example: 23 or 5 (presented without leading zero) • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case) • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case) • Mmm: month in abbreviation format - mixed case, for example: Apr for April • MMM: month in abbreviation format - upper case, for example: APR for April • yyyy: year format, for example: 1896 • The "As of date" may reflect one of the following: <ul style="list-style-type: none"> • Date when data has been collected (e.g. world ranking) • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics) • Logical date if applicable • Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8) <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> • When the complete output fits on a single page, "None, aim for a single page" is written • For multi-page outputs, there are three cases: <ol style="list-style-type: none"> 1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: <ul style="list-style-type: none"> • Not controlled with repeated output headings and column headings • Not controlled with repeated column headings only • Not controlled without repeated output headings and/or column headings 2. Forced page break by "Group":

	<p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p>3. Forced page break by "Condition":</p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> • "None" is specified if no abbreviations are used in the output • If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend) • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> 1. Note with static text: <ul style="list-style-type: none"> • If "Note with static text" is not planned, allowed or possible, "None" is written • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated 2. Note with predefined, but changeable text:

	<ul style="list-style-type: none"> • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition <p>3. Note with free text:</p> <ul style="list-style-type: none"> • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

This page intentionally left blank.

Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "References" for list of events)
Gender	Event gender indication (men, women), if applicable
Phase	Affected stage of competition (e.g. final, etc.), if applicable
Unit	Specification of the phase (e.g. Snatch, Clean & Jerk, etc.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

OFFICIAL COMMUNICATION (empty form)

	H	Accident of FAMILYNAME Givenname (NOC)
	I	Weightlifting: IOC disqualifies FAMILYNAME Givenname (NOC)
	J	Athlete replacement
	K	Competition schedule change
	L	Bodyweight category n??
	M	...
Summary	1	The <...> had to be delayed due to <...>. It is expected that the delay should not be longer than nn minutes.
	2	The <...> had to be postponed due to <...>. The new start time of the <...> is unknown at the moment. Further details will be communicated as soon as available.
	3	The <...> had to be interrupted due to <...>. Further details will be communicated by the IWF as soon as available.
	4	The <...> had to be rescheduled due to <...>. The new date and start time is dd?? Mmm?? yyyy?? at HH:MM.
	5	The <...> had to be cancelled due to <...>. The <...> will not be held during these Games.
	6	FAMILYNAME Givenname (NOC) submitted a protest related to <...>
	7	FAMILYNAME Givenname (NOC), Bib No. <...> was disqualified for <...> (IWF rule <...>)
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org <i>If the disqualified athlete is among medallists:</i> The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. The medallists are now: FAMILYNAME Givenname (NOC), gold, FAMILYNAME Givenname (NOC), silver, and FAMILYNAME Givenname (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: www.olympic.org
Issued by	I	IWF Technical Delegate
	II	Weightlifting Competition Manager
Further information	i	For more details contact the IWF Office
	ii	For more details contact the IWF Technical Delegate
	iii	For more details contact the OC Competition Manager
	iv	For more details consult www.olympic.org

Note: Authors of this ORIS document do not imply that this is a complete list of Official Communications templates.

2 Results, Medals and Diplomas

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas

The information included in this chapter should serve as a support for the medal and diploma allocation in Weightlifting.

Eligible athletes:

- Men's/Women's events: Athletes listed on the results

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/Diploma	Event Type	
	Individual	
Gold	• 1	
Silver	• 1	
Bronze	• 1	
Diploma	• 8	

2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
--------------	----------	------	----------

If the gold medallist is disqualified

4	FAMILYNAME 1 Givenname 1	NOC 1
2	FAMILYNAME 2 Givenname 2	NOC 2
3	FAMILYNAME 3 Givenname 3	NOC 3
4	FAMILYNAME 4 Givenname 4	NOC 4
5	FAMILYNAME 5 Givenname 5	NOC 5
6	FAMILYNAME 6 Givenname 6	NOC 6
7	FAMILYNAME 7 Givenname 7	NOC 7
8	FAMILYNAME 8 Givenname 8	NOC 8
9	FAMILYNAME 9 Givenname 9	NOC 9

Note: All athletes ranked after the disqualified athlete will be ranked one place higher, including sub-phases.

ORIS reference output:

- Results (C73)

Note: The software must be flexible enough to handle medal allocations as decided by the IWF and/or the IOC.

3 Data to be Captured

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
Entry Total	Numeric	SEQ	In kilograms for each athlete

This page intentionally left blank.

Document Control

Version History

Release 6 Version 1.2 27 Feb 2015	Approved version Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux. In addition Change Request 5135 has been applied.
Release 6 Version 1.1 19 Dec 2013	Approved (signed-off) version Sign-off letters from both the IWF (19 January 2014) and Rio 2016 (17 January 2014) have been received by the IOC. No further changes will be made to this document without Change Management except topics highlighted in yellow.
Release 6 Version 1.1 19 Dec 2013	Submitted for sign-off Updated with comments received in the review period after the ORIS meeting
Release 6 Version 1.0 6 Nov 2013	Submitted for review Submitted for review after the ORIS Weightlifting meeting, 30 Sep - 2 Oct 2013. Based on the ORIS Weightlifting meeting minutes as of 2 Oct 2013.
Release 6 Version 0 30 Aug 2013	Draft Updated based on ORIS document release 5, analysis of the London Questionnaire, issues logged as Rio 2016 improvements during the London Homologation Test and changes done for Nanjing 2014 which also impacts Rio 2016

Release 6 - Version 1.2 - 27 Feb 2015

Global Changes

1. The new output "Entries by Event" (C31C) has been introduced.
Affected files: Procedures, Distribution Rules.
2. The output "Minimum / Maximum" (N86G) has been removed throughout the document.
Affected files: Procedures, Distribution Rules.
3. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation".
Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").

Executive Summary

Chapter 2.2.4:

- In the second paragraph, the text has been updated regarding the presentation of column headings in outputs

Chapter 4:

- Steering Committee: The name of the IOC Sports Director has been changed to Mr Kit McCONNELL, the name of the Rio 2016 Sport Director has been changed to Mr Rodrigo GARCIA and Ms Flavia MELLO has been replaced by Ms Françoise PERROUD
- The department names for Mr Anthony EDGAR and Ms Françoise PERROUD have been adjusted
- Members of the Rio 2016 ORIS Management Team: The names and

- functions have been adjusted as follows:
- Ms Isabella BURCZAK, IOC Sports, Head of Sport Projects
 - Mr Pierre FRATTER-BARDY, IOC Sports, Head of Summer Sports and IF Relations
 - Members of the ORIS Weightlifting Working Group: The names and functions have been adjusted as follows:
 - Mr Robert NAGY, IWF Technology Director has been deleted
 - Mr Attila ADAMFI, IWF Director General
 - Mr Daniel CHANNON has replaced Mr Tassos KOUTSOGIANNIS as Rio 2016 Cluster Venue Results Manager
 - Mr Thiago LIMA, Rio 2016 Venue Results Manager has been added
 - Ms Flavia MELLO, Rio 2016 Information Technology General Manager has been deleted

Weightlifting References

Chapter 1 - Specifications

- Events: progression and competition format types: In the last bullet below the table, the reference sentence has been adjusted
- Participation references: Yellow highlighting has been removed

Procedures

Chapter 2.1.1 - "Schedules":

- The time to produce the output "Competition Schedule" (C08) has been changed to four (4) weeks before the Opening Ceremony

Chapter 2.1.2 - "Entries and Participant Data":

- The paragraph has been modified

Chapter 2.1.2.1 - "After the Sport Entry Deadline":

- The first paragraph has been modified

Chapter 2.1.2.3 - "Late athlete replacement":

- The title has been changed to "Replacement of an athlete"

Chapter 2.1.2.3.1 - "Late athlete replacement":

- The chapter title has been added and the text in the chapter has been modified

Chapter 2.2.3.4 - "During the Technical Congress":

- A new paragraph has been added to the end

Chapter 2.3.2.7 - "Before Clean & Jerk in Group "A""

- First paragraph: "and OC Technology" has been added

Chapter 3 - "News Service and Background information"

- Last paragraph: The wording has been adjusted from "Olympic Closing Ceremony" to "Closing Ceremony"

Section 1 - Outputs

General

- Description table, Page break for multiple page outputs: The text has been modified to state that output headings and column headings should always be repeated
- For N-outputs: All titles above tables or any other sub titles have been written in mixed case

Outputs

C06:

- In the sample "Media Access" has been changed to blank for competition
- In the sample "Victory Ceremony" has been added
- Description table, Comments: Activities to be included in the output have been added

C30:

- The source has been changed from "OC Competition Management" to "OC Technology"

C31A:

- Sample: The column heading "NOC" has been adjusted to "NOC Code"

- Sample: Data has been updated to include "-"
 - Description table, legend: The definition for "-" has been changed to "Information not available"
- C38:
- Sample: For TV names: Family names have been written in upper case (related CR 4933)
 - Description table, legend: The definition for "-" has been changed to "Information not available"
 - Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added
 - Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"
- C39:
- Sample: For TV names: Family names have been written in upper case (related CR 4933)
 - Description table, Comments: The reference to the OBS requirements document "TV Name Formats" has been added
 - Description table, Comments: The reference has been adjusted to "ODF General Messages Interface Document"
- C73:
- In the sample, the order of the last two (unranked) athletes have been swapped (Change Request 5135)
- C81:
- Fields "Total number of records" and "Total - sum of all records" have been deleted (Change Request 5135)
- C93:
- In the description table, Sort by, the text "For Results Book (PDF)" has been changed to "After the last event"
- N02:
- Sample - "Differences between the IWF World Championships and the Olympic Games": Yellow highlighting related to participation numbers has been removed
- N15:
- The table has been divided into two tables. The first table shows "Two or more gold medals" and the second table shows "Three or more medals".
- N20:
- Sample: Field "Hometown" has been deleted and yellow highlighting has been removed (IOC action item)
 - Sample: A blank line has been added between each profile
 - In the Description table, the following comments have been added "For the field "Social media": Only declared public page(s) should be listed here." and "For Major Achievements show only the levels of competitions relevant for that athlete."
- N86B:
- The sample has been updated with the latest IWF information
- N86E:
- The sample has been updated with the name of new IWF Media Contact

Section 2 - Distribution Rules

Chapter 2:

- The title has been changed to "Event Related Requirements with Predefined Production Time"

Distribution table:

- The client "VIP" has been changed to "Olympic Family Lounge"
- The code for N91B has been changed from "30MBF" to "WPC"

Main distribution table:

- Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016
- For C08: The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)" and Availability "4DBDIO" has been deleted
- For C35: The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)"
- Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added

Chapter 5 - "Distribution Availability Codes"

- Code "WPC - When presenters are confirmed" has been added
- Code "xDBDIO" has been deleted

Section 3 - Real Time Information

Scoreboards

Chapter 2.1.1 - "NOC Names":

- The entire bracket in the last sentence has been deleted

Chapter 2.2 - "Technical Specifications":

- A last sentence in the first paragraph has been added: "The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the IWF's approval."
- Screen 2.4.1, 2.4.2: Yellow highlighting has been removed (text confirmed by Omega in email 26 Jan 2015)
- Screen 2.4.3 - What: The third sentence ("Information about the potential rank...") has been deleted (Change Request 5135)

Chapter 2.5 - "Part C - During the Victory Ceremony":

- The medal screen titles has been adjusted from "MEDALLISTS" to "VICTORY CEREMONY"

Sport Specific Real Time Data

- New chapter

Appendix A - Glossary

Chapter 1 - "Terms"

- The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download" and "Results System Code (RSC)"
- Term "Disqualification": The definition has been updated
- Term "INFO": The definition has been updated

Chapter 2.3 - "Competition Format Types"

- The definition of type "Bracket" has been adjusted, and different types of bracket format have been added

Appendix C - Rules for Data Formats and Presentation

"Schedule status options" and "Results Status Options":

- Status options which are not applicable for Weightlifting have the comment "Not applicable for Weightlifting" added.
- "Schedule status options": Has been modified
- "Results status options": Has been added

- All yellow highlighting has been removed (IOC action item)

Appendix D - Supporting Documents

- Page 1: The bullets have been modified
- Chapter 1 - "Templates for Official Communication": Under "Summary", "11", the wording regarding the ranking has been deleted
- Chapter 2 - "Results, Medals and Diplomas" has been added
- Chapter 3 - "Data to be Captured" has been added

Release 6 - Version 1.1 - 19 Dec 2013

Pending Action Items

The following sections contain text highlighted in yellow:

References	<ul style="list-style-type: none"> • The participation numbers (male, female, athletes by NOC) should be provided by IWF pending Qualification System approval in February 2014
N02	<ul style="list-style-type: none"> • Sample - "Differences between the IWF World Championships and the Olympic Games": The participation numbers (male, female, athletes by NOC) pending Qualification System approval in February 2014
N20	<ul style="list-style-type: none"> • Sample - "Residence" and "Hometown" have been highlighted in yellow pending IOC decision
Scoreboard	<ul style="list-style-type: none"> • 2.4.1, 2.4.2: How: The layout definition has been highlighted in yellow pending OMEGA feedback
Rules for Data Formats and Presentation	<ul style="list-style-type: none"> • Schedule status options: Status "In preparation" and "Finished" have been highlighted in yellow pending IOC decision

Procedures

- Chapter 2.3.1: a first paragraph has been added: "OC Technology should have a working space in the Weigh-in area, with access to the Games network and provision to print locally" (Comment ID: 3)
- Chapter 2.3.2: the yellow highlighted text regarding RTDS equipment has been deleted based on agreement between IWF and IOC
- Chapter 2.4.3: the second last sentence has been changed to read: "For Rio 2016 all athletes born in 1999, 2000 and 2001 will be considered as youth athletes" (Comment ID: 1)
- Chapter 3.2: the title has been changed to read: Biographies and Profiles

Release 6 - Version 1.0 - 6 Nov 2013

Global Changes

- "Empty Protocol" (C75A) has been renumbered to C65
- "Protocol" (C75B) has been renumbered to C66

Pending Action Items

The following sections contain text highlighted in yellow:

References	<ul style="list-style-type: none"> • The participation numbers (male, female, athletes by NOC) should be provided by IWF as agreed in an IWF meeting 17-18 Oct 2013
Procedures 2.3.2	<ul style="list-style-type: none"> • To add here the list of RTDS equipment that should be provided to Technical officials • The Technical Controller should have RTDS (and an Attempt Board) as well

	(backstage)
N02	<ul style="list-style-type: none"> Sample - "Differences between the IWF World Championships and the Olympic Games": The participation numbers (male, female, athletes by NOC) should be provided by IWF as agreed in an IWF meeting 17-18 Oct 2013
N20	<ul style="list-style-type: none"> Sample - Residence and Hometown have been highlighted in yellow pending IOC decision
Scoreboard	<ul style="list-style-type: none"> 2.4.1, 2.4.2: How: The layout definition has been highlighted in yellow pending Omega feedback
Rules for Data Formats and Presentation	<ul style="list-style-type: none"> Schedule status options: Status "In preparation" and "Finished" pending IOC decision
Supporting Documents	<ul style="list-style-type: none"> OFFICIAL COMMUNICATION (possible templates): Summary items 8, 9, 10 and 11

Executive Summary

- Chapter 2.2.6: The text "and sport specific real time data" has been deleted
- Chapter 2.2.6.3: The chapter ("Sport specific real time data") has been deleted and subsequent chapters have been renumbered
- Chapter 4: the names of the Rio Steering Committee and the ORIS Liaison have been updated
- Chapter 4: the names of the ORIS Weightlifting Working Group has been updated

Weightlifting References

- Chapter 2 - Tie Break Rules: The text has been revised
- Chapter 2 - Participation references: Total number of athletes set to 260, and remaining numbers have been yellow shaded

Procedures

- Chapter 2.1.1: the text regarding the production of C08 has been consolidated
- Chapter 2.1.2.2: the chapter has been rewritten
- Chapter 2.1.2.3: the chapter has been deleted and subsequent chapters have been renumbered
- 2.1.2.3: new chapter regarding Late Athlete Replacement (consolidation). subsequent chapters have been renumbered.
- Chapter 2.1.2.4: the text has been modified
- Chapter 2.2.2: the chapter has been rewritten
- Chapter 2.2.3: the title has been changed to "Verification of final entries and the Technical Congress" and the text has been modified
- Chapter 2.2.3.1: the chapter has been rewritten
- Chapter 2.2.3.2: the chapter has been added and subsequent chapters have been renumbered
- Chapter 2.2.3.3: the title has been changed to "Verification of final entries" and chapter has been rewritten
- Chapter 2.2.3.4: the chapter has been added and subsequent chapters have been renumbered
- Chapter 2.2.3.5: the chapter has been rewritten
- Chapter 2.3.1: the text has been slightly modified
- Chapter 2.3.2: a new introduction paragraph has been added
- Chapter 2.3.2.2: the chapter has been added and subsequent chapters have been renumbered
- Chapter 2.3.2.5: the title has been changed to "After each group"
- Chapter 2.3.2.8: the text has been slightly modified
- Chapter 2.4.2: "Info Desk" has been replaced with "Sport Information Desk"
- Chapter 2.4.3: the text has been slightly modified
- Chapter 2.5.2.1: the output "Entries" (C31A) has been added to the list of

- outputs
- Chapter 2.5.2.2: the chapter has been deleted
 - Chapter 2.5.3: new text has been added
 - Chapter 2.5.3.1: the title has been changed to "Disqualification after an event and up to three days after Closing Ceremony", subtitle 2.5.3.1.1 has been deleted and some modifications have been made to reflect the latest information on procedures received from the IOC (consolidation)
 - Chapter 2.5.3.2: the chapter has been added (consolidation)
 - 2.5.4 the first and fourth paragraphs have been updated (consolidation)
 - Chapter 2.7: the output "Sport Communication" (C68) has been deleted from the list of outputs
 - Chapter 2.8: the chapter has been deleted
 - Chapter 3: some minor modifications have been made

Section 1 - Outputs

- Introduction**
- Fifth paragraph has been updated (consolidation)
- Outputs**
- C06, C07, C08, C51, C56A, 56B, C58, C70A, C73, C75A, C75B, N59, N86D, N91B: the venue name has been changed from "Pavilion 6" to "Pavilion 2"
 - C06: "Media Conference" has been changed to "Press Conference"
 - C24, C56B, N59, N88, N89, N90B: "World Record" has been changed to "Senior World Record"
 - C06:
 - Sample - "Medal Ceremony" has been removed
 - Sample - "Info Room Hall" has been to "Pavilion 5"
 - C07:
 - Sample - "Info Room Hall" has been to "Pavilion 5"
 - Sample - Text in the General has been updated to read: "Training will take place at the Riocentro - Pavilion 5, Peachtree av. 101 every day from Wed 3 Aug until Sat 20 Aug, 9:00 - 19:00".
 - Sample - First paragraph in the NOC Training Times paragraphs has been updated to read: "The daily training schedule (time slot allocation per NOC) will be posted at the Venue Press Centres the evening before each training day, and will be available in INFO. Note that this schedule is subject to daily changes. Please consult INFO for updates"
 - C08:
 - Sample - kept Estimated Finish Time and removed grey highlighting
 - Sample - Estimated Finish Time has been changed to 11:30 in first row.
 - Sample - A note has been added (as per C58). Description table and data matrix have been updated accordingly
 - C31A:
 - Sample - Substitute indicator has been removed and legend updated accordingly
 - Sample - Event for first athlete has been changed to "Women's +75kg"
 - Sample - Weight column has been deleted
 - C32A:
 - Sample - "kg" has been added to weight category in the output body and deleted in the header
 - Description table - "Sort by": Family and Given Name has been added
 - Description table - "Comments": Last two sentences have been deleted ("This is an INFO only output. Print should not be allowed. Any public release of this information is allowed only after IWF President approval.")
 - C35:
 - First sample has been deleted
 - Description table - "Comments": Grey shaded text has been deleted
 - C38:
 - The passport names have been removed and the Sort by has been adjusted accordingly (consolidation)
 - Sample - Weight has been deleted

- Sample - Attempt board name has been deleted
 - Sample - IWF ID has been deleted
 - Sample - layout has been slightly modified
- C39:
- The passport names have been removed and the Sort by has been adjusted accordingly (consolidation)
- C56A:
- Data matrix (8.8-8.10): Reference to Weigh-in Official has been changed to Technical Official
- C56C:
- Data matrix (7.1.9-7.1.13.3): Reference to Weigh-in Official has been changed to Technical Official
- C67:
- The second sample regarding DSQ has been deleted. Templates for DSQ cases are now included in Appendix D.
- C76:
- Sample - As of date has been deleted on the second sample
- C93:
- Sample - As of date: time of day has been removed
 - Description table - "Comments": Text has been changed to "None"
- C95:
- Sample - As of date: time of day has been removed
 - Description table - "Comments": Text has been changed to "For ties in primary ranking the same rank will be repeated for all tied NOCs"
- N02:
- Sample - the text has been modified
- N17A:
- Sample - Order of events has been changed to be chronological - descending (Games at the bottom - not the top)
 - Sample - Results have been changed to only include the top eight
 - Sample - Note has been updated with a direct link to the IWF results page
- N20:
- Sample - Residence and Hometown have been highlighted in yellow
 - Sample - Previous Categories has been deleted

- C08: the producers and distribution codes have been modified to reflect Procedures chapter 2.1.1.
- C24: rows with distribution 48HBTC, 2HATC and 3HAPS have been deleted
- C30: rows with distribution OVRO, 90MATC, 2HATC and 2HAPS have been deleted.
Rows with distribution OEDC, AETC and 15MATC have been added
- C32C: row with distribution 5MAD has been deleted.
Rows with distribution 5MALD and 15MATC have been added
- C35: rows with distribution 3MBG, DIO, 24HBTC, 11ODTC, 1HATC, 2HATC

- and 3HAPS have been deleted.
 Rows with distribution 2HBVFE and 15MATC have been added.
- C38: rows with distribution OVRO and 24HBTC have been deleted.
 Row with distribution 2HBVFE has been added
 - C39: rows with distribution OVRO and 24HBTC have been deleted.
 Row with distribution 2HBVFE has been added
 - C51: rows with distribution 90MATC, 2HATC and 3HAPS have been deleted.
 Rows with distribution AETC and 15MATC have been added
 - C56A: the distribution "H" at EDTC to IWF has been deleted
 - C58: rows with distribution 1HATC, 2HATC and 3HAPS have been deleted.
 Rows with distribution 15Marsi and 15MATC have been added
 - Start List Package: rows with distribution 30MAPS and 2HAPS have been added.
 The distribution "H*" at 3HAPS to IWF, Competition Management and Officials have been deleted, and "H*" has been changed to "H" for Olympic Village
 - C67: the distribution "Pc" to Commentators has been added
 - C68: Output has been removed from Results Book
 - C70A: the distribution "H+B" at 5MAGA to Teams has been changed to "H", and distribution "P" has been deleted from VIP, and the distribution "P" to Press Stands and Commentators has been changed to "Pc"
 - C73: the distribution "H+B" at 5MAGA to Teams has been changed to "H", and distribution "P" has been deleted from VIP, and the distribution "P" to Press Stands and Commentators has been changed to "Pc"
 - C75A: the distribution "H" at 5MAW to Officials has been changed to "P",
 C76: the distribution "H+B" at 30MAC to Teams has been changed to "H", and the distribution "P" to Commentators has been changed to "Pc"
 - C92A: the distribution "1" at 5MAMRA to IWF and Competition Management have been deleted
 - C93: the row has been consolidated by having OVR as producer at 5MAMRA with Y to PDF and screen format. The "Y" for the Results Book has been added (consolidation)
 - N90A: the distribution "1" at 15MAPR to IWF, Competition Management and Sport Production have been deleted
 - N90B: row with distribution 15MAPR has been deleted (ONS request)
 - All distribution to the client "Agencies & Newspapers" has been removed (ONS request).
 - All distribution of N-outputs to Commentators has been deleted
 - Legend: Code "R" and "S" have been added
 - Chapter 5: for the code ASEd, an additional explanation has been added
 - Chapter 5: new codes AETC, OEDC, xDBDIO, xHBVFE, xMALD and xMarsi have been added

Section 3 - Real Time Information

- | | |
|---------------------|---|
| Introduction | <ul style="list-style-type: none"> • Reference to "sport specific real time data" in the first paragraph has been deleted |
| Scoreboards | <p>General:</p> <ul style="list-style-type: none"> • "World Record" has been changed to "Senior World Record" • Text in "How" has been updated to indicate that the screen should always fit 18 athletes and the text is yellow highlighted (where applicable) • The record presentation has been changed to the format: xxxkg Lastname Firstname (NOC) <p>2.2:</p> <ul style="list-style-type: none"> • Text has been added to the end: "It is important that the size of the public scoreboard (including font size) allows all spectators to easily read the information displayed, even if seated on the furthest rows of the stand. In addition to the static information, for Rio 2016 the IWF would like to have a scoreboard displaying 18 athletes from the current group as well as the leading three athletes from previous groups, if any." |

	<p>2.6.1, 2.6.2:</p> <ul style="list-style-type: none"> "Session" has been changed to "Group". Weight category and group are now shown on line 2 (e.g. MEN'S 56KG GROUP A)
RTDS	<p>General:</p> <ul style="list-style-type: none"> "World Record" has been changed to "Senior World Record" The screen has been adjusted to always fit 18 athletes (as per scoreboard) The record presentation has been changed to the format: xxxkg Lastname Firstname (NOC)
Sport Specific Real Time data	<p>There is no real time information available other than the results information</p> <ul style="list-style-type: none"> Chapters 4.1, 4.2, 4.2.1, 4.2.2, 4.2.3 have been deleted

Appendix A - Glossary

The following definitions have been updated:

- Bodyweight
- Discipline/Sport discipline
- Group
- Introduction
- Jury
- Lot number
