# Olympic Results and Information Services (ORIS)

## Requirements Document

### Rio 2016 - Games of the XXXI Olympiad

## Trampoline Gymnastics

Produced by:

- IOC - International Olympic Committee  
Château de Vidy, 1007 Lausanne, Switzerland
- FIG - Fédération Internationale de Gymnastique  
Avenue de la Gare 12, 1003 Lausanne, Switzerland
- Rio 2016 Organising Committee for the Olympic and Paralympic Games  
Rua Ulysses Guimarães, 2016  
Cidade Nova - 20211-225  
Rio de Janeiro - RJ - Brazil

**Release 6 Version 1.2**

**27 Feb 2015**

**Approved**

## **Disclosure**

The material and information contained herein are provided by the IOC to be used for the purpose of preparing the infrastructure for information delivery at the Rio 2016 Olympic Games. This material and information is the property of the IOC, the FIG and Rio 2016 and may not be disclosed to third parties or the general public, whether in whole or in part, without the prior written approval of the IOC. Sharing of such material and information is only permitted, under the condition of strict confidentiality, with third parties assisting in preparing the infrastructure for information delivery at the Rio 2016 Olympic Games, provided that such third parties agree to abide by the terms of this paragraph.

# Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

## 1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

## **2 ORIS Document Summary**

### **2.1 Terminology**

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

### **2.2 Document Structure**

The ORIS document is laid out as follows:

#### **2.2.1 Executive Summary**

This part of the document provides an overview of the ORIS project and the ORIS document for Trampoline Gymnastics. It includes information on the following topics: introduction, document content, cycle and participants.

#### **2.2.2 Trampoline Gymnastics References**

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

#### **2.2.3 Procedures**

This part of the document describes procedures to be followed by the OC and its partners, the FIG and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

##### **2.2.3.1 Results Service and Competition Management Support**

The roles and responsibilities of the FIG, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

##### **2.2.3.2 News Service and Background Information**

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the FIG, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the FIG and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

#### **2.2.4 Section 1: Printable Outputs**

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Trampoline Gymnastics Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

## **2.2.5 Section 2: Distribution Rules**

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
  - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
  - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
  - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
  - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

## **2.2.6 Section 3: Real Time Information**

This section defines the requirements for the presentation of real time information for scoreboards, as well as a reference to on screen results presentation.

### **2.2.6.1 Scoreboards**

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the FIG should approve the proposed solution.

## **2.2.6.2 On screen results presentation**

This part contains references required for the development of on screen results presentation.

## **2.2.7 Appendix A: Glossary**

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

## **2.2.8 Appendix B: Abbreviations**

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

## **2.2.9 Appendix C: Rules for Data Formats and Presentation**

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## **2.2.10 Appendix D: Supporting Documents**

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation and data to be captured.

## **2.2.11 Document Control**

This part describes all changes made in this document through its life cycle.

### **3 ORIS Project Cycle**

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

#### **3.1 Production of the Updated Version of the ORIS Document**

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Trampoline Gymnastics draft document, based on:
  - The last version of the ORIS Trampoline Gymnastics document of the previous Games
  - International Federation sport rules, competition format and requirements for these Games
  - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Trampoline Gymnastics meeting, the draft will be made available to the ORIS Trampoline Gymnastics Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Trampoline Gymnastics Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Trampoline Gymnastics document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Trampoline Gymnastics Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Trampoline Gymnastics document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

## **3.2 ORIS Document Sign-off**

The FIG and the Organising Committee will sign-off the ORIS Trampoline Gymnastics document after all agreed changes have been implemented.

For the FIG, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Trampoline Gymnastics competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

## **3.3 Change Management**

A Change Request should be logged if the FIG or the OC requests any change which has an impact on the ORIS Trampoline Gymnastics document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Trampoline Gymnastics document.

## **3.4 Test Event**

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

### **3.4.1 ORIS Team Participation**

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the FIG, media, teams, etc.)
- To prepare required changes to the ORIS Trampoline Gymnastics document
- To provide support to key users and act as moderators

### **3.4.2 Test Event Review Meeting**

A Test Event review meeting will be held before the end of the Test Event with the ORIS Trampoline Gymnastics Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

## **3.5 Homologation Test**

The Homologation Test will be carried out in the OC lab, led by the FIG and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Trampoline Gymnastics document. The test begins with entry data for athletes and officials, continues through the draws and with start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, records, medals, etc.
- Scoreboards

The FIG, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the FIG and WNPA reports. Those documents are then sent to the OC, the FIG, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

## **3.6 IOC Technology Assistance and Observation**

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

## **3.7 Transfer of Knowledge**

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games Questionnaires to document the FIG, OC and media findings, comments and suggestions for improvement.

### **3.8 Support**

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Trampoline Gymnastics document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Trampoline Gymnastics Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

## 4 Rio 2016 ORIS Project Participants

The ORIS Trampoline Gymnastics project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the FIG, the OC (Sports, Media, Technology) and its IT partners.

### **The ORIS Steering Committee:**

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

### **The ORIS Management Team:**

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

**The ORIS Trampoline Gymnastics Working Group:**

- Attends the ORIS meeting to discuss and agree on the Trampoline Gymnastics results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Trampoline Gymnastics Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Trampoline Gymnastics Working Group are:

- **Ms Slava CORN**, FIG Vice President
- **Mr Horst KUNZE**, Trampoline Gymnastics Technical Committee President
- **Mr Rui VINAGRE**, FIG Sports Event Manager
- **Ms Mariana PALOMARES ACCARDO**, Rio 2016 Sport Manager
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Patrick MORAES**, Rio 2016 ONS Manager
- **Mr Daniel CHANNON**, Rio 2016 Cluster Venue Results Manager
- **Mr Antonio MORENO**, Atos IDS Sports Analyst
- **Mr Christophe PITTEL**, OMEGA Project Manager
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Mr Ketil PETTERSEN**, IOC ORIS Sport Analyst for Trampoline Gymnastics

**The ORIS project is supported by:**

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

*This page intentionally left blank.*

# Trampoline Gymnastics References

## 1 Specifications

- Events: progression and competition format types

Event	Event Phase	Progression Type	Competition Format Type
Women	Qualification	Single phase	In-line
	Final	Single phase	In-line

- Total number of events: 2
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

## 2 Competition

- Competition format

The competition consists of a qualification and a final. Both phases of the men's event will take place on one day, and both phases of the women's event on another day, with the following format:

- Qualification
  - Two routines: one voluntary routine with 10 skills (with two skills counting difficulty) including set requirements and a second voluntary routine of 10 different skills without limitations
- Final
  - The top eight gymnasts, including all tied for the eighth place, from the qualifications will perform a single voluntary routine of 10 different skills without limitations

- Tie Break Rules

- Qualification

In case of a tie for any place, ties will be broken by the following criteria:

- The higher sum of the execution scores of both routines
- The higher sum of the time of flight scores of both routines
- If the gymnasts remain tied they will share the same classification

- Final

In case of a tie at any place, ties will be broken by the following criteria:

- The higher execution score in the final routine
- The higher time of flight score in the final routine
- If the gymnasts remain tied they will share the same classification

- Venue type

- Indoor
- Single venue

- **Participation references**

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Gymnasts: 32 (16 men / 16 women, conditions IOC and FIG qualification criteria)
- Alternates/Substitutes: No

## 3 Documents

- Olympic Charter in force
- IOC - Rio 2016 Host City Contract
- FIG Technical Regulations - current version
- FIG Code of Points - current version (including all related news letters)

# **Procedures**

## **1      Introduction**

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Trampoline Gymnastics events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

## **2 Results Service and Competition Management Support**

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

### **2.1 Pre-Games Activities**

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

#### **2.1.1 Schedules**

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the FIG Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once the FIG and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Trampoline Gymnastics competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Training Schedule (C07A)
- Podium Training Schedule (C07B)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

#### **2.1.2 Entries and Participant Data**

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

##### **2.1.2.1 After the Sport Entry Deadline**

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

### **2.1.2.2 Participant data verification**

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other FIG events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Entry Data Checklist - Competition Officials (C39)

will be produced with all name lengths to be used during the Games and given to FIG for checking and approval.

The FIG will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than two (2) hours before the orientation meeting.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

After the orientation meeting, OC Technology will produce the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)

for checking and approval by the FIG Technical Delegate or designated person. Once approved, the outputs should be distributed according to the ORIS distribution rules.

### **2.1.2.3 Competition officials**

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the FIG and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

### **2.1.2.4 Replacement of an athlete**

#### **2.1.2.4.1 Late athlete replacement**

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed twenty-four (24) hours before the start of the first day of the competition.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

#### **2.1.2.5 FIG unique athlete identification**

The FIG maintains a unique athlete identification (FIG Licence Number) as an eight character number.

The FIG ID will remain the same throughout the athlete's career.

The FIG requests that this ID also be included in the appropriate ODF messages.

## **2.2 Pre-Competition Activities**

After the FIG officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the orientation meeting, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

### **2.2.1 Presenters at Victory Ceremonies**

No later than ten (10) days before the first day of competition the IOC and the FIG will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

### **2.2.2 Draw**

The draw for starting positions for the qualification phase is conducted approximately three (3) months prior to the Games.

The FIG Secretary General or the designated person will provide the OC Competition Management, within seven (7) days of the draw, with the results of the draws for each event.

Once draw data is received, OC Technology will enter it into the OC computer system, and will produce hard copies of the output mentioned below for the OC Competition Management. The output will be sent to the FIG Secretary General within seven (7) days for verification and final approval. The FIG Secretary General will return it within the following seven (7) days.

The output:

- Competition Draw (Qualification) (C50)

should be produced and distributed according to the ORIS distribution rules.

### **2.2.3 Pre-Event - Qualification**

The OC Competition Management will provide the competition cards to the teams upon their arrival. The teams must fill up the competition cards for both the qualification and the final before the orientation meeting.

An orientation meeting will be held prior to the start of competition. At this meeting the NOCs will confirm their gymnasts and submit their competition cards. There will also be a draw for judges' assignments for the men's and women's qualification.

After the orientation meeting, the OC Competition Management will provide the confirmed list of gymnasts and judges' assignments to OC Technology.

The teams may change previously confirmed athletes (due to injury, etc.) up to twenty-four (24) hours before the start of the qualification.

No later than twenty-four (24) hours before the qualification, OC Technology will produce the output:

- Judges Assignments (Qualification) (C57)

for checking and approval by the FIG Technical Delegate. Once approved, the output should be distributed according to the ORIS distribution rules.

No later than twenty (20) hours before the qualification, OC Technology will produce the output:

- Start List (Qualification) (C51A)

for checking and approval by the FIG Technical Delegate. Once approved, the output should be distributed according to the ORIS distribution rules.

## **2.3 Results Processing**

All judges' scores and penalties will be entered into the Organising Committee's results system from the official timing/scoring system through electronic interface. Results must be reviewed promptly and efficiently, in order to reduce the risks of displaying incorrect information on the scoreboard, CIS or in INFO and for other results clients. A review of results by the FIG Technical Delegate or designated person before distribution will also reduce the likelihood of protests.

Results are time-critical. Production and distribution of printed results must be well planned. A well planned matrix describing when, to whom and in what quantities, printed results should be distributed is essential to avoid paper "overflow".

In the on-line version, results of every performance of every competition should be made available immediately after the results are made official.

### **2.3.1 Men's and Women's Trampoline Gymnastics**

#### **2.3.1.1 Qualification phase**

No later than sixty (60) minutes before the final the OC Protocol should provide ONS and OC Technology with the names of the potential medal presenter(s) and the accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

if the Victory Ceremony is organised at the venue immediately after the finals, should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

Immediately after the first routine, OC Technology will produce the output:

- Intermediate Results (Qualification) (C70A)

for distribution according to the ORIS distribution rules.

Immediately after the qualification, OC Technology will produce the outputs:

- Results (Qualification) (C73A)
- Individual Judges Scores (Qualification) (C66)

for checking and approval by the FIG Technical Delegate. Once approved, the outputs should be distributed according to the ORIS distribution rules.

If two or more gymnasts are tied for any positions, OC Technology will produce the output:

- Tie Break Report (C77)

for checking and approval by the FIG Technical Delegate. Once approved, the output should be distributed according to the ORIS distribution rules.

If there are unbreakable ties for qualified gymnasts, tied gymnasts will be drawn to the correct spots on the start lists for the final by the superior jury.

The FIG will appoint the judges for the finals immediately following the qualification. The OC Competition Management will then provide the confirmed list of judges' assignments and OC Technology will enter them into the OC computer system and produce the outputs:

- Start List (Final) (C51B)
- Judges Assignments (Final) (C57)

for checking and approval by the FIG Technical Delegate. Once approved, the outputs should be distributed according to the ORIS distribution rules.

This process should be finished no later than five (5) minutes before the start of the finals.

OC Technology should be aware of the possibility of changes to the starting order before the start of finals, for example in the event of injury. A reserve may replace a qualified finalist up until the first competitor starts his/her final routine. This may require that reserves be used to take the place of gymnasts unable to compete. While it may not be feasible to redistribute start lists after this time, INFO should be updated and the outputs marked with a "REVISED" stamp.

### 2.3.1.2 Final phase

During the final, all gymnasts start with a score of zero, as the qualification scores are not carried forward.

Immediately after the final, OC Technology will produce the outputs:

- Results (Final) (C73B)
- Individual Judges Scores (Final) (C66)

for checking and approval by the FIG Technical Delegate. Once approved, the outputs should be distributed according to the ORIS distribution rules.

If two or more gymnasts are tied for any positions, OC Technology will produce the output:

- Tie Break Report (C77)

for checking and approval by the FIG Technical Delegate. Once approved, the output should be distributed according to the ORIS distribution rules.

After the results have been made official, the following outputs:

- Medallists (Individual) (C92A)
- Medallists by Event (C93)
- Medal Standings (C95)
- Gymnastics Medal Standings (C97)

should be produced and distributed according to the ORIS distribution rules.

There is no need for the FIG or the OC Competition Management to verify these outputs because the data used has already been checked. The software used to produce these outputs will be tested during the homologation test.

## **2.4 Common Sport Functions**

### **2.4.1 Official Communications**

The Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes).

If any such decision is made, the FIG Technical Delegate or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or gymnast affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the FIG Technical Delegate, President of Appeal Jury or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

### **2.4.2 Sport Communications**

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the FIG, the IOC and/or the OC Competition Management (e.g. reminders, sport information, tie-break rules and gymnast's age, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

## **2.5 Exceptional Situations Handling**

For any of the following exceptional situations, the Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

### **2.5.1 Schedule Changes**

The following schedule status options are applicable to an event or event unit (phase or session):

#### **2.5.1.1 Delayed**

A delay may occur if a phase or session does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

#### **2.5.1.2 Postponed**

A phase or session did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.

If an interrupted phase or session cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

#### **2.5.1.3 Interrupted**

A phase or session may be subject to an unplanned interruption after it has started.

The time of resumption/restart is unknown. If the phase or session cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

The results of any gymnasts who have completed their routine will be retained.

#### **2.5.1.4 Rescheduled**

A phase or session may be rescheduled if it cannot be held at the originally scheduled start date/time. The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled.

In either of the above cases, the system should be able to perform the following actions:

- If an interrupted/rescheduled session or phase of competition continues under the conditions existing at the moment of interruption, all the results will be retained.
- If a session or phase of competition is interrupted/rescheduled, and it is not possible to complete the session or phase under the same conditions, all results will be deleted. The results database must be rolled back to the situation existing before the competition was rescheduled. Any intermediate results will be removed from the affected clients.

#### **2.5.1.5 Cancelled**

A phase/event which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the FIG will decide what effect the situation would have on the competition and what actions should be taken.

If one or more phase/event(s) is cancelled, all affected outputs (e.g. medal outputs, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added. For outputs with the indication "after x of y events", the number of events (y) will remain unchanged.

## **2.5.2 Competition Related**

### **2.5.2.1 Judge replacement**

If one or more judges are replaced during a competition, the updated output "Judges Assignments" (C57) will be produced, marked as "REVISED" with a "free text" note at the bottom of the output that describes the replacement.

### **2.5.2.2 Did not start a routine**

If a gymnast misses one routine, the gymnast will be marked as "DNS" for the routine.  
If a gymnast misses both routines in the qualification, or the routine in the final, the gymnast is marked as "DNS" for the event.  
If a gymnast receives at least one score in the qualification, the gymnast is marked as "DNF" for the event.

### **2.5.2.3 Change of score**

Changes to a score are not possible after results have been made official by the FIG Technical Delegate, according to the FIG rules.

### **2.5.2.4 Inquiry procedure**

Inquiries are allowed only for the difficulty scores, according to the FIG Technical Regulations.

In exceptional circumstances, the FIG may decide to issue the output:

- Official Communication (C67)

with an explanation of the situation, for distribution according to the ORIS distribution rules.

## **2.5.3 Disqualifications**

### **2.5.3.1 Disqualification of gymnast**

Disqualification as a result of infringement of recognised sport ethics and rules (e.g. DNS without valid reason, positive doping control, etc.):

- If a gymnast is disqualified from an event, the gymnast will remain on the result list, will receive "DSQ" as a result and will not be ranked.
- In any of the above situations, the affected results output(s) will be reissued, marked as "REVISED", with a note explaining the disqualification.

### **2.5.3.2 Disqualification after an event and up to three days after the Closing Ceremony**

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the FIG Technical Delegate before distribution.

### **2.5.3.3 Disqualification more than three days after the Closing Ceremony**

Starting from the 4<sup>th</sup> day after the Games Closing Ceremony, the FIG will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the FIG. The FIG is responsible for providing the updated results to the IOC.

## **2.5.4 Communication in case of Disqualification by the IOC Disciplinary Commission**

If an athlete is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony,

the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on [www.olympic.org](http://www.olympic.org)).

The athlete, the athlete's NOC, the FIG, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The FIG Technical Delegate, or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this "Official Communication" (C67) is detailed in Appendix D (Subtitle: E, Summary: 8, Issued by: I, Further information: iv) of this document.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the FIG Technical Delegate, or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the FIG Technical Delegate or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Trampoline Gymnastics competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the FIG Technical Delegate during those periods before or after the Games may require that a designated person be available to cover this responsibility.

**Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant FIG and/or IOC documents and for gaining and analysing experience from other competitions.**

## 2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
  - Medallists by Event (C93)
  - Medal Standings (C95)
  - Gymnastics Medal Standings (C97)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

## **2.7 Results Book**

The Results Book should contain the documents below, in the following order:

- Trampoline Gymnastics cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- Competition Schedule (C08)
- Entry List by NOC (C32A)
- Competition Officials (C35)
- Medallists by Event (C93)
- Medal Standings (C95)
- Gymnastics Medal Standings (C97)
- Official Communications (C67) - selected outputs, related to FIG and/or IOC decisions which had an impact on results
- Sport Communication (C68) - if requested by the FIG

For each event and phase in chronological of events:

- Qualification:
  - Judges Assignments (C57)
  - Start List (Qualification) (C51A)
  - Results (Qualification) (C73A)
  - Tie Break Report (Qualification) (C77) (print only if ties exist)
- Final:
  - Judges Assignments (C57)
  - Start List (Final) (C51B)
  - Results (Final) (C73B)
  - Tie Break Report (Final) (C77) (print only if ties exist)

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

If Trampoline Gymnastics is not the last Gymnastics discipline scheduled at the Games, an updated version of the Results Book should be produced to include the final version of the output "Gymnastics Medal Standings" (C97).

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Trampoline Gymnastics competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The FIG
- All NOCs
- Accredited media

## **3 News Service and Background Information**

Data for all Biographies, Historical Results and Achievements will be supplied by the IOC to the OC. The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

The FIG agrees to supply all requested data, in accordance with a schedule agreed between the parties.

The FIG cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the FIG and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the FIG and the third party provider. Schedules may be different depending on the type of data.

The FIG wishes to validate part or all of the final data delivered by the provider. In that case, the FIG and the third party provider will agree on a schedule covering the validation process which will be finished before INFO goes live. In all cases, achievements will be validated by the FIG.

The provider will update data after final delivery as required (corrections, information updates, new achievements, etc.).

The IOC will act as a facilitator between the FIG, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the FIG and all NOCs, in an agreed format.

### **3.1 Historical Results**

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)
- Individual Achievements (N18A)

### **3.2 Biographies and Profiles**

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- NOC Profile (N24)

### **3.3 Facts and Figures**

#### **3.3.1 Trampoline Gymnastics Background Information**

Data for the Trampoline Gymnastics background information will be developed by ONS, in cooperation with the OC Competition Management and the FIG Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - FIG - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the FIG Secretary General will immediately inform ONS who will update the information within one (1) working day.

### **3.3.2 Technical Background Information**

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the FIG Secretary General well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the FIG Secretary General for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the FIG Secretary General will update the information within one (1) working day.

## **3.4 News**

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

### **3.4.1 Pre-Competition News**

#### **3.4.1.1 Previews**

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Trampoline Gymnastics Working Group recommends that ONS at the Trampoline Gymnastics venue produces the output:

- Sport Preview (N89)

and every evening for the following days, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

#### **3.4.1.2 Extended start list**

The following output:

- Extended Start List (N59)

contains additional information in free text format about gymnasts. The type of information can vary, but usually includes a brief summary of Olympic Games, World Championships and World Cups results, as well as personal information and honours. Severe space constraints may necessitate use of commonly used Trampoline Gymnastics or sports abbreviations.

It should be produced by the ONS no later than one (1) hour before the start of the qualification. Background information on most of the top gymnasts will be "preloaded" into the OC computer system in the weeks before competition, but updates (for example, new medals won at the current Olympic Games) are still needed.

### **3.4.2 News during and after Competition**

Media covering Trampoline Gymnastics events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

#### **3.4.2.1 Flash quotes**

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

#### **3.4.2.2 Press conference highlights**

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

#### **3.4.2.3 Reviews**

ONS should produce competition highlights in the outputs:

- Daily Review (N89)
- Sport Review (N89)

## **3.5 Media Communications**

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

*This page intentionally left blank.*

# Section 1 - Printable Outputs

## 1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

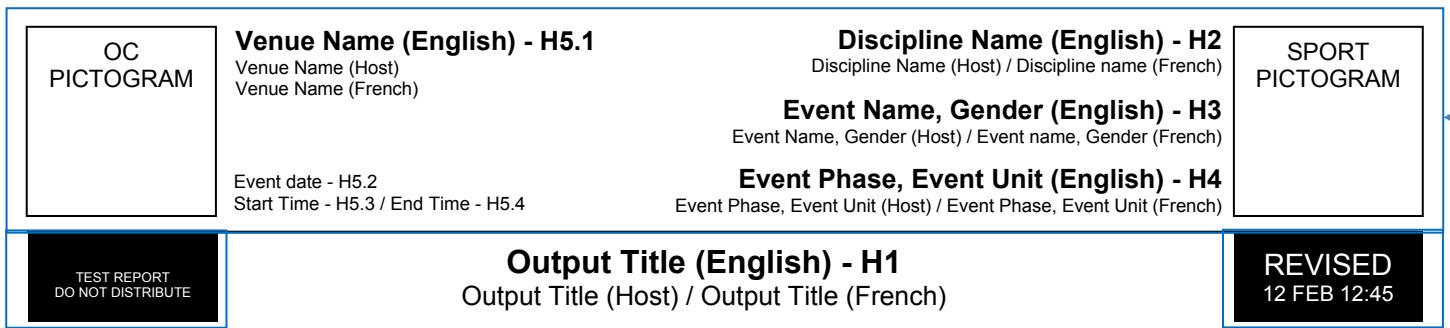

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

*This page intentionally left blank.*

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.  
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

### Output body

#### Content information:

The content for this part of the output is defined in each appropriate ORIS output.  
The requirements set in ORIS need to be met.

#### Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

#### Note:

## L&S - Look and Structure of Outputs

### Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

### Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

#### Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M      Mandatory

Ma     Mandatory - if applicable

Mc     Mandatory - required under conditions which are explained in the column for comments

D      Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da     Desirable, but only if such data is available

Dc     Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

## Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

## Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 <sup>st</sup> , 2 <sup>nd</sup> , 3 <sup>rd</sup> , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

## Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

<b>Jury</b>		<b>Technical Data</b>		
TD FIS	KROGOLL Peter	GER		Franz's GS
Referee	SKAARDAL Atle	FIS		1177m
Chief of Race	HOLLIDAY Bruce	CAN		805m
Start Referee	KLAMMER Herbert	ITA		372m
Finish Referee	PALOVICOVA Jana	SVK		8654/11/07

The corresponding data matrix levels are:

7 (n)	For each jury member	--		
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG	
7.2	Family name	M	Text	
7.3	Given name	M	Text	
7.4	NOC code	M	Standard IOC NOC code or "FIS"	
8	<b>Technical data</b>	--		
8.1	Course name	M	Text	
8.2	Start altitude	M	Numeric	
8.3	Finish altitude	M	Numeric	
8.4	Vertical drop	M	Numeric	
8.5	Course length	Mc	Numeric (N/A for GS and SL).	
8.6	Homologation number	M	Text	

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

**Number of Competitors: 86, Number of NOCs: 47**

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	<b>HOELZL Kathrin</b>	1984	GER	
2	205218	<b>REBENSBURG Viktoria</b>	1989	GER	
3	185140	<b>POUTAINEN Tanja</b>	1980	FIN	
4	55838	<b>ZETTEL Kathrin</b>	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric	
11	Number of NOCs	M	Numeric	
12 (n)	For each competitor	--		
12.1	Bib number	M	Numeric	
12.2	FIS code	M	Numeric	
12.3	Family name	M	Text	
12.4	Given name	M	Text	
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard	
12.6	NOC code	M	Standard IOC NOC code	
12.7	Time	M	Space	

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

### Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

<b>Note:</b>	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
<b>Legend:</b>						
DH	Downhill	<b>GS</b>	Giant Slalom	<b>SC</b>	Super Combined	<b>SG</b>
SL	Slalom	<b>WCSL</b>	Overall points	<b>YB</b>	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	<b>Legend</b>		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

### Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

### Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

ESTRADA ESTRADA CHRIS ESTRADA CHRIS ESTRADA C Estrada Chris

Date: \_\_\_\_\_ Time: \_\_\_\_\_ Signature: \_\_\_\_\_.

Scoreboard name lengths (max. characters) should be adjusted by OVR according to the technical scoreboard specifications.  
 Be aware that all scoreboard name lengths in use must be included in this output and verified before the start of competition.

**Note:**

Truncated names are indicated with an \* and must be checked carefully.

## C38 - Entry Data Checklist

Description	Detailed list of all gymnasts. The purpose of this list is to facilitate the checking of entry data, spelling and name abbreviations for official use on outputs, scoreboards, TV, etc. This output is an internal quality control list.
Source	OC Technology
Sort by	1 - NOC code 2 - Gender (female first) 3 - Family name 4 - Given name
Page break	Break at "Condition = NOC code" on a new page with repeated output headings and column headings. Within "NOC code" break at "Group = Accreditation number" on a new page with repeated output headings and column headings.
Notes	Note with static text: See sample Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: "-" - Information not available  To be displayed at the bottom of the last page of each NOC.
IRM rules	None
Comments	All name items must initially conform to the FIG/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations.  Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document").  Need ability to print the output for a single NOC.  The layout of this output may be either in portrait or landscape, as required.

**OFFICIAL COMMUNICATION  
TRAMPOLINE GYMNASTICS  
MEN**

**Item: 35**

**Schedule change**

**The Men's competition has been rescheduled**

**Summary:**

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

**Details:**

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Trampoline Gymnastics Men's competition has been rescheduled to 9:00 tomorrow.

Issued by: FIG Technical Delegate  
Time: 11:00  
Date: 8 AUG 2016

This decision affects: Results  
Schedule  
Other

X

**Note:**

For more details contact the FIG Office.

## SPORT COMMUNICATION TRAMPOLINE GYMNASTICS

Item: 35

### IOC Rule 50 (Reminder)

#### Manufacturer identification on clothing and equipment

##### **Summary:**

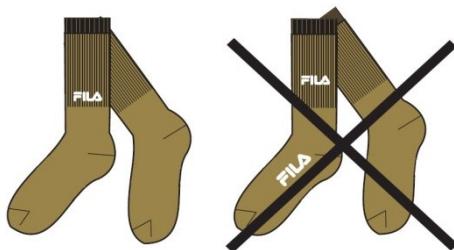

The National clothing must fully comply with IOC rule 50, in all aspects.  
This applies to all competition at the Rio 2016 Olympic Games.

##### **Details:**

All competition at the Rio 2016 Olympic Games will be held in accordance with the Olympic Charter and the FIG Constitution and Rules which are in force at the time of the Rio 2016 Olympic Games.

Pursuant to the Olympic Charter, the FIG assumes the responsibility for the technical control and direction of its sport at the Olympic Games.

Regarding brand identification on socks, all teams are reminded that the **Rule 50 states: One Identification per accessory item will be permitted, to a maximum.**

Issued by: FIG Technical Delegate  
Time: 21:10  
Date: 4 AUG 2016

# COMPETITION FORMAT AND RULES

## TRAMPOLINE GYMNASTICS

**As of 23 JUN 2016**

### **Olympic Competition Format**

The Trampoline Gymnastics competition at the Rio 2016 Games consists of a qualification phase and a final. Both phases of the men's event will take place on one day, and both phases of the women's event on another day, with the following format:

Qualification:

- Two routines: one voluntary routine with 10 different skills (with two skills counting difficulty) including set requirements and a second voluntary routine of 10 different skills without limitations

Final:

- The top eight gymnasts, including all tied for the eighth place, from the qualifications will perform a single voluntary routine of 10 different skills without limitations

### **Differences between the FIG World Championships and the Olympic Games**

There are no qualifications for the FIG World Championships, but strict qualifications for the Olympic Games made at the FIG World Championships prior to the Games.

Only individual Trampoline Gymnastics is recognised as an Olympic discipline.

At the FIG World Championships some other events are contested, such as synchronised trampoline (two competitors on separate trampolines performing simultaneously), double mini-trampoline and tumbling.

There are team events for all disciplines at the FIG World Championships.

### **Changes since the London 2012 Olympic Games**

- The code of points has been changed
- The tie break rules for qualification have been changed

### **Sport Rules and Procedures**

#### **Rules for Olympic Competition**

For both men and women, 16 gymnasts (maximum two per NOC) will take part in the qualification.

Each routine consists of 10 different skills on the trampoline bed. Competitors must submit a competition card before the competition, listing the skills which they intend to perform.

The routines are judged for difficulty, execution and time of flight.

In the case of the first voluntary routine, all the skills must be performed as stated or a deduction will apply.

Competitors begin on a signal given by the Chair of the Judges' Panel. After this signal is given, the competitor must initiate the first skill within one minute; otherwise there is a deduction.

The starting order in the qualifications is decided by a draw.

In the finals the starting order is by rank, with the competitor receiving the lowest score from the qualifications starting first.

#### **Jury Composition**

There are nine judges appointed for individual competition:

Chair of Judges Panel, two Difficulty Judges, five Execution Judges and one Time of Flight Judge.

- Difficulty Jury (two judges) - calculate and agree on the final difficulty score. They check the difficulty values entered on the competition card, determine the difficulty score and display it.
- Execution Jury (five judges) - evaluate the quality of the actual execution (deducting 0.1-0.5 points for technical faults such as lack of form, consistency of height and control in each skill; 0.1-0.2 points for the final landing, etc.) They record their deductions for all completed skills.
- Time of Flight Judge (one judge) - the evaluation of Time of Flight mark will be done electronically. The appointed judge is responsible for controlling the electronic timing.

## Distribution and Calculation of Scores

The evaluation is done in tenths of a point.

Difficulty - Open score - depending on the level of difficulty included.

Execution - Each of the five judges evaluates the performances with deductions from 0.10 to 0.50 points in each skill.

The median deduction of the five execution judges is taken as the deduction per element, then the sum of the median deductions (including median of additional deductions) is subtracted from the maximum mark (indicated by CJP) and tripled to give the gymnast's execution score for a routine.

Time of Flight - The total time of flight, measured to 1/1000<sup>th</sup> of a second, is considered as the score for the Time of Flight.

For each Qualification routine and Final: D + E + T – Penalties (if any) = F

Example:

D: 11.500;

E: 28.000;

T: 18.455;

P: 0.200

Final score: 11.500 + 28.000 + 18.455 - 0.200 = 57.755

## Tie Break Rules and Procedures

The FIG Tie breaking Rules are presented in the FIG Technical Regulations and define how to determine which gymnast should prevail in case of equality of points. In Trampoline Gymnastics, the main principles are the following:

### Qualification

In case of a tie at any place, ties will be broken by the following criteria:

1. The higher sum of the execution scores of both routines
2. The higher sum of the time of flight scores of both routines
3. If the gymnasts remain tied they will share the same classification

### Final

In case of a tie at any place, ties will be broken by the following criteria:

1. The higher execution score in the final routine
2. The higher time of flight score in the final routine
3. If the gymnasts remain tied they will share the same classification

## Penalties / Disqualification Rules

Penalties occur out of the performance (e.g. exceeding time of warm-up). The penalties are deducted from the score of the next routine. Failure to abide by the regulations, or un-sportsmanlike behaviour, are grounds for disqualification. In such instances, the competitor would first be given a warning, and then would be disqualified if the misconduct were repeated.

## Protests (Inquiries) / Appeals

Inquiries are allowed only for the difficulty scores, provided that they are made verbally immediately after the display of the score, or no later than the end of the exercise of the following gymnast. For the last gymnast of a rotation, this limit is one minute after the score is shown on the score board.

Only the accredited coaches in the competition area are entitled to submit an inquiry.

Late verbal inquiries will be rejected. A federation may not inquire about a gymnast from another federation.

Every inquiry must be examined by the Superior Jury and a final decision (which may not be appealed) must be taken.

The detailed procedure is outlined in the respective Code of Points and the Technical Regulations.

In exceptional circumstances, the FIG might issue an "Official Communication" (C67) with an explanation of the situation.

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

	2000 - Eindhoven (NED)	Gold	Gold	4 <sup>th</sup>
	1995 - Antibes (FRA)	Gold	-	Gold

### **General Interest**

#### **Fair Play**

At the 2001 Trampoline World Championships, she was presented with the gold medal but it was later realised that a serious judging mistake was made and gold was awarded to the wrong gymnast. A month later, she made the following statement."I very much regret the mistake of the judges at the World Championships in Denmark. I consider that it is necessary to correct this mistake and I decided to give the gold medal to my friend Anna Dogonadze from Germany in the spirit of friendship and fair-play.". But according to the rules of the International Gymnastics Federation [FIG], an official result cannot be changed after the medals have been awarded. FIG President Bruno Grandi, decided to make an exception to this rule and to correct the error. The results have since been officially changed and Anna Dogonadze declared as 2001 world champion. Karavaeva was awarded with the silver medal. (FIG 02/03/04).

### **Rio 2016 Results**

Women	Qualification:	66.400	2 <sup>nd</sup>	Final:	Gold	37.800

### Highlights

- Switzerland competed at the Athens 1896 Olympic Games and have been ever present since then
- Their first Olympic champion was gymnast Louis ZUTTER in the pommel horse in 1896
- In dressage, Hans MOSER won gold in 1948, Henri CHARMARTIN did likewise in 1964 and Christine STUECKELBERGER was the first Swiss woman to win an Olympic gold medal when she won the dressage in 1976. She competed in six Olympic Games and collected a further three silver medals and a bronze medal.
- Roger FEDERER won gold in the Tennis Men's Doubles with Stanislas WAWRINKA at the Beijing 2008 Olympic Games. He carried his country's flag in both 2004 and 2008.

## HISTORY TRAMPOLINE GYMNASTICS

### Origin of Trampoline Gymnastics

This sport can be seen as a reflection of man's desire to defy gravity since the beginning of time. Early civilisations devised various methods of sending a person into the air, such as using outstretched animal skins to throw them up and safely catch them on their descent. Circuses have used a number of methods to propel performers into the air for a variety of somersaults.

The modern trampoline came about through the intervention of modern technology. The first prototype apparatus was built by George Nissen of the USA in his garage in 1936. As well as being a source of great fun at recreational level, the trampoline has also been used by the Air Force and later by space agencies to acclimatise their pilots and astronauts to aerial activity.

Competitive trampolining began in the USA after World War 2. The activity spread to Europe in the 1950s, inspired by visits from George Nissen. Display teams travelled to all continents in the 1950s and 1960s, a time when many national federations were formed. In 1958 the first Nissen Cup was held in Switzerland, an event that continues to this day. In 1964, the International Trampoline Federation (FIT) was formed and the first FIG World Championships were held in that year. European and Pan Pacific Championships soon followed. USA gymnasts dominated in the early years, but these days many nations share in the top honours. The first FIG World Cup took place in 1993 and sparked a tremendous interest in the sport.

### Trampoline Gymnastics Today

This breath-taking sport is now well-known across the world, and the most modern trampolines can project an gymnast to such heights that the top stars can touch 10 metre-high ceilings and perform multiple somersaults with ease. As well as being a sport in its own right, it is widely recognised as a training tool for many other sports such as gymnastics, diving, freestyle skiing and so on.

### Trampoline Gymnastics at the Olympic Games

In 1996, at the first-ever Olympic gymnastics gala in Atlanta, trampolining was performed and the following year it was granted Olympic status by the IOC. This required the FIT to merge with the FIG, a tricky business that was successfully accomplished at the end of 1998 ensuring trampoline's debut at the 2000 Olympic Games in Sydney.

## MEDIA INFORMATION TRAMPOLINE GYMNASTICS

### Facilities

The Press Tribune extends along much of the west side of the National Indoor Stadium, with perfect views of the Field of Play. About 100 tabled seats and 100 non-tabled seats are located on the second and the third floor; another 200 tabled seats and 200 non-tabled seats are located at the fourth and the fifth floor. The Press Tribune is accessible via dedicated media staircases.

The Press Conference Room, two Press Workrooms and the Photo Workroom are located on the first floor.

The Press Conference Room has a capacity of 250 seats, and provides professional interpreting services. Two Press Workrooms with altogether 260 workstations are near the media entrance. The Photo Workroom is located next to the Press Work Room, just beside the entrance of the Field of Play. One hundred workstations are available in this area.

The Media Lounge is located in the west part of the ring lobby on the second floor, along the high glass wall of the venue.

Opening hours and transportation to the venue media centre of the National Indoor Stadium will be provided according to the schedule in the Olympic Games Media Guide.

The telephone number of the venue media centre help desk is: 86-10-66659038.

### Interviews

Journalists may interview gymnasts in the mixed zone as the gymnasts exit the competition area, and may ask the medal winners or their coaches' questions during the post-game press conference.

### Sub-Centre

A full-service venue press centre supporting journalists covering gymnastics events is available with complete results and information services, television monitors, working positions, telephones and food service. A total of 100 working positions are offered, with 60 charge-a-call telephones available.

Hours of the venue press centre are 9 a.m. to 6 p.m. daily from 1st August through to 31st August.

Transportation to the venue press centre will be provided according to the schedule in the Media Guide.

### Photographer positions

Photographers may shoot from designated positions listed in the Olympic Games Media Guide. One hundred positions are reserved at the spectator area and another 140 are in the FOP area. In addition, photographers may stop briefly to take pictures from any public area so long as they are not blocking the view of any spectator.

### Venue Deputy Manager (Media)

The Venue Deputy Manager (Media) is Mr. Ding Zhiyong, assisted by Ms. Jiang Wei (Venue Press Manager), Mr. Shi Jun (Venue Photo Manager) and Mr. Yin Yingyao (Olympic News Service Manager).

### FIG Media Officer

The FIG media officer is Mr. Philippe Silacci.

**FLASH QUOTES**  
**TRAMPOLINE GYMNASTICS**  
**MEN**  
**FINAL**

News Item: 117

**LU Chunlong (CHN) - Gold medallist**

***On competing in Men's Trampoline Gymnastics:***

"I heard DONG Dong's (CHN) score before I started my routine so I was a little nervous. Although it doesn't matter whether he or I win the Gold medal. But his score was still a surprise to me. And since the women's team had already won the Gold medal (in Trampoline Gymnastics) we didn't want to fall behind. When I was doing my first and second movement, I was scared. But after I got through both of them, I told myself that I can't make any more mistakes."

**BURNETT Jason (CAN) - Silver medallist**

***On his score:***

"I was hoping for a 41.0. It would have been nice, but I got a 40.7. I knew it was beatable by the Chinese because they have beaten that in previous competitions."

***On why he chose Gymnastics Trampoline Gymnastics:***

"I was good at it from a young age. Well actually, the first day I sucked at it."

***On the National Indoor Stadium:***

"I liked it. The arena didn't look nearly as big on the floor as it did in the stands. So that was comforting."

***On Karen COCKBURN (CAN) winning Silver in the Women's Trampoline Gymnastics final on Monday:***

"It inspired me to come out here and do my best."

**DONG Dong (CHN) - Bronze medallist**

***On the results:***

"I don't pity myself because I finished this competition and enjoyed the Olympic Games."

***On the reason for his lower than expected score:***

"I think the general reason is that the height of my movements was a little low. And, nothing is for sure in the Olympic Games. No one can guarantee 100 per cent success in the Olympic Games. Everyone needs practise and experience."

***On the reason why he cried after winning the Bronze medal:***

"The reason (for crying) is not sadness or pity. Ever since the Qualifications I was deeply moved by the spectators and the atmosphere (in the National Indoor Stadium). This is the best I have ever felt."

## QUOTES OF THE DAY

News Item: 117

### A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

*Givenname FAMILYNAME (NOC) on the sights in the Olympic Village*

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

*Gold medallist Givenname FAMILYNAME (NOC) on her latest victory*

"There are a lot of countries here. I don't even know where half of them are on the map."

*The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)*

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

*Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)*

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

*Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games*

"I did not concentrate on my opponent. I only concentrated on my coach."

*Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost*

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

*Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)*

**PRESS CONFERENCE HIGHLIGHTS  
TRAMPOLINE GYMNASTICS  
MEN  
FINAL**

**News Item: 119**

**Medallists**

**LU Chunlong (CHN) - Gold medallist**

***On his Gold medal:***

"I want to share the Gold medal with my teammates, DONG Dong, YE Shuai, and TU Xiao. I am not the only person who lead to the success of the Men's Trampoline Gymnastics team. When the four of us go out for competitions, we often rank in the top four. During training, our levels advance at a similar rate. If we didn't have such a good environment for training, we wouldn't have improved so quickly. At competitions we are competitors but we are brothers in daily life."

**HU Xinggang (CHN) - Coach**

***On LU's advantages:***

"He only ranked fourth in last year's world championships. Then we underwent a selection process in China. LU competed in seven competitions, where points were calculated and he ranked first in all them. His movements are high and light. He has a good control of his movements."

***On the development of Gymnastics Trampoline Gymnastics in China:***

"During the 10 years we've participated in Trampoline Gymnastics, we have improved rapidly. Firstly, I think it's due to the support of the country. Secondly, we've accumulated experience from related events, like Gymnastics Artistic and Diving. In 10 years, we have achieved what European and North American..."

## SPORT PREVIEW

### TRAMPOLINE GYMNASTICS

#### News Item: 1

#### **Veterans expected to jump for Trampoline Gymnastics gold**

- The defending Men's and Women's Gold medallists from the Athens 2004 Olympic Games will face tough competition to keep their top spot
- Trampoline Gymnastics, which made its Olympic debut at the Sydney 2000 Olympic Games, will see 16 men and 16 women battle for the Individual title at the National Indoor Stadium

#### **Women**

- Defending champion Anna DOGONADZE (GER), Sydney 2000 champion Irina KARAVAEVA (RUS) and two-time Olympic medallist Karen COCKBURN (CAN) are expected to be contenders for the medals
- DOGONADZE, who at 35 is the oldest Women's Trampolinist at the Beijing 2008 Olympic Games, won the Gold medal at the Athens Games
- The other two medallists from the Athens Games - Silver medallist COCKBURN and Bronze medallist HUANG Shanshan (CHN) - are preparing to give DOGONADZE a new challenge in Beijing
- COCKBURN is the only Trampolinist at the Beijing Games who has won more than one Olympic medal. She was the Bronze medallist at the Sydney Games. HUANG won the Silver medal at the 2007 world championships
- After a disappointing result at the Athens Games, KARAVAEVA should be in top form in Beijing. KARAVAEVA, who at the Sydney Games became the first Women's Trampoline Gymnastics Gold medallist in Olympic history, mistimed one of her routines in the Qualifications at Athens 2004 and failed to advance to the Finals. She has since won the World title in 2005 and 2007.
- China's HE Wanna is another strong medal contender. HUANG and HE placed second and fourth, respectively, at the 2007 world championships
- COCKBURN's teammate, Rossanagh MACLENNAN (CAN), has recently demonstrated top-level difficulty and consistency. She won the Bronze medal at the 2007 world championships.

#### **Men**

- Yuriy NIKITIN (UKR) has his work cut out to defend his Gold medal from Athens 2004
- China started a formal Trampoline Gymnastics programme only a decade ago, but their athletes have created a reputation as the ones to watch in the Men's competition
- 2007 Individual world Silver medallist DONG Dong (CHN) will represent his country, alongside LU Chunlong (CHN). Current world champion YE Shuai (CHN) did not make the Chinese Olympic squad
- The Japanese men have never made an Olympic Final, but Yasuhiro UHEYAMA (JPN) will be looking to change that. He is a world medallist, having won Silver in 2005 and Bronze in 2007. Tetsuya SOTOMURA (JPN) is one step behind, with a Bronze medal in 2005 and a fourth-place finish in the 2007 world championships.
- Alexander RUSAKOV (RUS) and Dmitry USHAKOV (RUS) will represent Russia, while Germany's Henrik STEHLIK will make his third Olympic appearance at the Beijing Games. Although STEHLIK's routines are generally lower in difficulty, his clean execution often compensates. STEHLIK was the Bronze medallist in Athens 2004.

## DAILY PREVIEW TRAMPOLINE GYMNASTICS

**SAT 20 AUG**

**News Item: 14**

### **Women: China looks to win first gold in Trampoline Gymnastics**

- HE Wanna (CHN) leads the way into the Trampoline Gymnastics Finals after two impressive routines earned her the highest score of Qualifications (67.20) at the National Indoor Stadium Saturday
- She will be the only woman representing her country. Fellow Chinese trampolinist HUANG Shanshan, the Bronze medallist in Athens 2004, failed to advance to the Finals after falling during one of her two routines in Qualifications.
- If HE wins Gold, it will be a first for China in Trampoline Gymnastics at an Olympic Games
- Irina KARAVAEVA (RUS) enters the Finals with the second-highest Qualification score (66.40), despite a small slip after her Voluntary routine. KARAVAEVA, Gold medallist in the first-ever Olympic Women's Trampoline Gymnastics competition at the Sydney 2000 Olympic Games, failed to make the Final at Athens 2004 after she mistimed one of her routines in the Qualifications.
- Canadians Rosannagh MACLENNAN (66.00) and Karen COCKBURN (65.60) claimed the next best Qualifications scores. COCKBURN, who won Bronze at the Sydney 2000 Olympic Games and Silver in the Athens 2004 Olympic Games, impressed the judges with her high degree of difficulty.
- Anna DOGONADZE (GER) earned the chance to defend her Athens 2004 Gold medal as she advanced to the Final with high execution scores on her Voluntary routine
- The top eight women from the Qualifications advance to Finals. Men's Finals will be held 19 August at the National Indoor Stadium.

## DAILY REVIEW TRAMPOLINE GYMNASTICS

THU 18 AUG

**News Item: 133**

### **China wins first Trampoline Gymnastics Olympic Gold Medal**

- HE Wanna (CHN) won China's first Olympic Games Trampoline Gymnastics Gold medal at the National Indoor Stadium on Monday
- HE, who finished fourth in the Individual finals at the 2007 world championships, impressed the judges with a difficult routine that earned her a final score of 37.80 points
- Karen COCKBURN (CAN) won her second Olympic Games Silver medal, finishing with 37.00 points. The three-time Olympian's medal collection already includes a Bronze medal in Sydney 2000 and a Silver in Athens 2004.
- Ekaterina KHILKO (UZB) was third with a score of 36.90. She was the first to perform and is the first Uzbekistan athlete to win an Olympic Games medal in Trampoline Gymnastics.
- Anna DOGONADZE (GER), the Athens 2004 Gold medallist, fell midway through her routine, taking her out of medal contention. Sydney 2000 Gold medallist Irina KARAVAEVA (RUS), the current Individual world champion, made a small slip after her voluntary elements and finished in fifth place.
- The Men's Finals take place at the National Indoor Stadium on 19 August

Date: 18 AUG 2016

## SPORT REVIEW TRAMPOLINE GYMNASTICS

**News Item: 15**

### **China dominate with four medals**

- Jumping to gold and bronze in the men's final, and silver and bronze in the women's final, China dominated the Trampoline Gymnastics competition at the North Greenwich Arena on 3-4 August.

#### **Men**

- Beijing 2008 bronze medallist DONG Dong (CHN) soared to the highest difficulty and execution scores of the field in the final to take gold, ahead of Dmitry USHAKOV (RUS) and LU Chunlong (CHN).
- USHAKOV tied LU in difficulty score and yielded 0.225 points in time of flight score to LU. The Russian gymnast's substantially higher execution score, however, pushed him ahead of LU for silver.
- LU, the defending champion, had the highest time of flight score of the final and won bronze.

#### **Women**

- Fourth in qualifications, Rosannagh MACLENNAN (CAN) earned the field's top difficulty and execution scores in the final to win Canada's first Olympic gold in trampoline gymnastics.
- Athens 2004 bronze medallist HUANG Shanshan (CHN) qualified second, and maintained her position in the final to take silver. HUANG notched the second-highest difficulty, execution and time of flight scores in the final.
- Defending champion and top qualifier HE Wanna (CHN) had the highest time of flight score in the final. HE slipped on the landing of her last skill, however, and took bronze.

## NEWS ARTICLE

**News Item: 96**

### **Enthusiasm from the Olympic Village's first Greek citizens**

Greece's sole Trampoline Gymnastics representative Michail PELIVANIDIS (GRE) was one of the first Greek athletes to move into the Olympic Village and his coach, Vassilis AGGELAKOS was quick to praise the facilities.

"Being here (the village) is a unique experience. The food is great, the room facilities are perfect and we are next to the training complex," he said.

AGGELAKOS said he'd also spoken to other athletes and found his opinions on the village were common.

"I have talked to a lot of foreign athletes who are also excited with the Olympic Village," he added

## IOC NEWS

**News Item: 168**

### **Trampoline Gymnastics: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation**

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Trampoline Gymnastics Women's competition of the Rio 2016 Olympic Games.

Immediately after her participation in the event on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Ms Givenname FAMILYNAME, NOC name, Trampoline Gymnastics:
  - (i) is disqualified from the Women's competition of the Rio 2016 Olympic Games where placed 7th;
  - (ii) shall have her diploma in the above-mentioned event withdrawn; and
  - (iii) shall have her Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. The FIG is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Ms FAMILYNAME in the above-mentioned event, in which Ms FAMILYNAME placed 7th at the Rio 2016 Olympic Games.
- V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

# Section 2 - Distribution Rules

## 1 Introduction

This section explains what Trampoline Gymnastics information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Trampoline Gymnastics. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the FIG and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, FIG office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

## 2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with start lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. men's and women's events).

## 3.2 Event Related Outputs without Defined Production Time

This table lists all outputs (both event related and non-event related) that could be produced at any time before, during or after competition. These outputs may also be produced at defined times within an event (e.g. Flash Quotes, Press Conference Highlights after finals) in which case they would also be included in the appropriate process in chapter "Event Related Requirements".

### 3.2.1 Process

Time Reference (When)	From (Who)	Deliverable (What)	To-For (Whom)	Distribution Availability Code

## 4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Trampoline Gymnastics sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.

Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

## 5 Distribution Availability Codes

Code	Description of abbreviation
AEDRM	After each Delegation Registration Meeting
AOM	After the orientation meeting
ASED	After both the Sport Entry Deadline has passed, and INFO operations have started (whichever is later)
DIFO	Day FIG and Competition Management operations start
DIO	Day INFO operations start
DPCO	Day press centre (main or venue whichever comes first) operations start
EOD	End of day
OVRO	On Venue Results becomes owner of data
WPC	When presenters are confirmed
xDBC	X (x) day(s) before the first day of competition
xEBCD	X (x) evening(s) before a competition day
xHBQ	X (x) hour(s) before the qualification
xMA1QR	X (x) minute(s) after the results of the first routine
xMAC	X (x) minute(s) after the competition
xMAFA	X (x) minute(s) after the results of the final are approved
xMAJ	X (x) minute(s) after each jury or other official body decision
xMAL	X (x) minute(s) after the last event of that day
xMALF	X (x) minute(s) after the last final of that day
xMAMRA	X (x) minute(s) after medal results are approved
xMAPR	X (x) minute(s) after public release of a communication
xMAQ	X (x) minute(s) after quotes/a press conference
xMAQRA	X (x) minute(s) after the results of the qualification are approved
xMARA	X (x) minute(s) after the results are approved
xMBF	X (x) minute(s) before a final

*This page intentionally left blank.*

# **Section 3 - Real Time Information**

## **1 Introduction**

This section of the document defines scoreboard layouts and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the FIG and the OC (and providers).

*This page intentionally left blank.*

## **2 Scoreboards**

### **2.1 General Rules**

#### **2.1.1 NOC Names**

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

#### **2.1.2 Athletes and Officials' Names**

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

### **2.2 Technical Specifications**

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the FIG's approval.

## **2.3 Part A - Before the event**

### **2.3.1 Schedule**

- What: Screen shows schedule heading (title) and for each day: date of event, event name, each routine: time and routine name  
When: Displayed prior to each event  
How: Free text. Scroll through list of all events yet to be completed

COMPETITION SCHEDULE	
13 AUG	WOMEN'S QUALIFICATION
20:00	ROUTINE 1
20:45	ROUTINE 2
	WOMEN'S FINAL
	21:35 FINAL ROUTINE

### **2.3.2 Judges assignments**

- What: Screen shows the judges' assignments with heading (title)  
For Superior Jury and Chair of Judges' Panel: function, scoreboard name,  
For each difficulty and execution judge: judge's number, scoreboard name and NOC code.  
For time judge: code, scoreboard name, NOC code  
When: Displayed prior to the start of each event  
How: Scroll through each panel of judges

Superior jury:

SUPERIOR JURY	
PRESIDENT:	
KUNZE HORST GEORG	
MEMBERS:	
ANDERSSON ULF HENRIK	
LAMBERT CHRISTOPHE JEAN	
MAKAROV NIKOLAY	
SHUISKA TETIANA	
ZEMAN VLADIMIR	
DUCHESNE STEFAN	

Chair of judges and difficulty judges:

JUDGES		
CHAIR OF JUDGES' PANEL:		
CJP BEETON JOHN DARNLEY		
DIFFICULTY:		
D1 AUSTINE BRETT THOMAS	AUS	
D2 DE JONGHE JOERI R Y	BEL	

**Execution judges:**

JUDGES

**EXECUTION:**

E1	VICENTE MARINO MIGUEL	ESP
E2	THORSSON MARTIN ANDREAS	SWE
E3	VAN WETERING BABETTE	NED
E4	OKONIEWSKI WALDEMAR	POL
E5	LIMOUZY EP GARCIA A.	FRA

**Time judge:**

JUDGES

**TIME OF FLIGHT:**

T	GRANT IAN	GBR
---	-----------	-----

## **2.4 Part B - Qualification - routine 1**

### **2.4.1 Start list**

- What: Screen shows list of each gymnast in start order for routine 1 with heading: event name, phase name and title, for each gymnast: start order, scoreboard name and NOC code
- When: Before the start of each routine of the qualification
- How: Scroll through list of all gymnasts

WOMEN'S QUALIFICATION START LIST	
1	HONZAKOVA LENKA CZE
2	TSYHULEVA OXANA UKR
3	KARAVAEVA IRINA RUS
4	LEBEDEVA IRINA BLR
5	DOGONADZE-LILKENDEY ANNA GER
6	KHOPERIA RUSUDAN GEO
7	COCKBURN KAREN CAN
8	PARILLA JENNIFER USA

### **2.4.2 Before the performance**

- What: Screen shows gymnast to perform with heading: event name, phase name and routine name, scoreboard name and NOC code. For current top three gymnasts: rank, scoreboard name, NOC code and total score
- When: Before the performance
- How: Static screen

Before the first performance:

WOMEN'S QUALIFICATION ROUTINE 1	
HONZAKOVA LENKA	CZE
<hr/>	

Before the fourth performance and subsequent performances:

WOMEN'S QUALIFICATION ROUTINE 1	
DOGONADZE-LILKENDEY ANNA	GER
<hr/>	
1	KARAVAEVA IRINA RUS 46.135
2	TSYHULEVA OXANA UKR 46.051
3	HONZAKOVA LENKA CZE 45.678

### 2.4.3 After the performance

- What: Screen shows results of a gymnast after performance with heading: event name, phase name and routine name, scoreboard name, NOC code, difficulty score, execution score, time of flight score, penalty score (conditionally), total score and rank
- When: After each performance when the judges scores are ready
- How: Static screen

WOMEN'S QUALIFICATION ROUTINE 1		
BAKHTINA	DIFFICULTY	6.100
SVETLANA	EXECUTION	8.966
RUS	FLIGHT	12.101
	TOTAL	27.167
	RANK	5

WOMEN'S QUALIFICATION ROUTINE 1		
BAKHTINA	DIFFICULTY	6.100
SVETLANA	EXECUTION	8.966
RUS	FLIGHT	12.101
	PENALTY	- 0.100
	TOTAL	27.067
	RANK	5

Penalty score:  
Title "PENALTY" and  
penalty score is only  
displayed if penalty is not  
zero

### 2.4.4 Intermediate results

- What: Screen shows intermediate results with heading: event name and phase name, for each gymnast: rank, scoreboard name, NOC code, total score or IRM and gap score (blank for first ranked gymnast)
- When: After routine 1
- How: Scroll through if required

WOMEN'S QUALIFICATION		
RK		TOTAL GAP
1	COCKBURN	CAN 28.550
2	MUSTAFINA	RUS 28.350 0.200
3	CHELARU	ROU 27.775 0.775
4	RAISMAIN	USA 27.275 1.275
5	SUI L	CHN 27.100 1.450
6	FERRARI	ITA 26.900 1.650
7	MITCHELL	USA 26.550 2.000
8	WRIGHT I	RUS 25.000 3.550

## 2.5 Part C - Qualification - routine 2

### 2.5.1 Before the performance

- What: Screen shows gymnast to perform with heading: event name, phase name and routine name, scoreboard name and NOC code. For routine 1: score and rank, for current top three gymnasts: rank, scoreboard name, NOC code and total score
- When: Before the performance
- How: Static screen

Before the first performance:

WOMEN'S QUALIFICATION ROUTINE 2		
CULLY JACKIE		AUS
<hr/>		
ROUTINE 1	44.425 (11)	
1 KARAVAEVA IRINA	RUS	49.135
2 WRIGHT CLARE	GBR	49.100
3 TSYHULEVA OXANA	UKR	49.051

Before the fourth performance and subsequent performances:

WOMEN'S QUALIFICATION ROUTINE 2		
KHOPERIA RUSUDAN		GEO
<hr/>		
ROUTINE 1	44.633 (7)	
1 CULLY JACKIE	AUS	96.080
2 HONZAKOVA LENKA	CZE	95.703
3 DURLIK SYLWIA	POL	95.700

### 2.5.2 After the performance

- What: Screen shows results of a gymnast after performance with heading: event name, phase name and routine name, scoreboard name, NOC code, difficulty score, execution score, time of flight score, penalty score (conditionally), routine 2 score, routine 1 score, rank and total score
- When: After each performance when the judges scores are ready
- How: Static screen

WOMEN'S QUALIFICATION ROUTINE 2		
COCKBURN	DIFFICULTY	5.800
KAREN	EXECUTION	8.700
CAN	FLIGHT	14.100
	PENALTY	- 0.100
	ROUTINE 2	28.500
	ROUTINE 1	15.166
RANK 4	TOTAL	43.666

Penalty score:  
Title "PENALTY" and  
penalty score is only  
displayed if penalty is not  
zero

### 2.5.3 Results

- What: Screen shows intermediate results with heading: event name, phase name and title, for each gymnast: rank, scoreboard name, NOC code, total score or IRM and qualification indicator "Q" for qualified gymnasts or "R" for reserve gymnasts
- When: After the qualification
- How: Scroll through if required

First page:

WOMEN'S QUALIFICATION RESULTS				
1	KARAVAEVA IRINA	RUS	99.243	Q
2	TSYHULEVA OXANA	UKR	98.499	Q
3	DOGONADZE-LILKEN	GER	98.150	Q
4	KHOPERIA RUSUDAN	GEO	97.488	Q
4	LEBEDEVA GALINA	BLR	97.488	Q
6	COCKBURN KAREN	CAN	97.213	Q
7	WRIGHT CLARE	GBR	96.608	Q
8	KHILKO EKATERINA	UZB	95.888	Q

Second page:

WOMEN'S QUALIFICATION RESULTS

10	LEWTON KIRSTEN	GBR	93.454	R
11	DALY LESLEY	AUS	92.154	
12	PARILLA JENNIFER	USA	91.432	
13	PETRENIA TATIANA	BLR	91.412	
14	LENDERS ANDREA	NED	91.209	
15	HIROTA HARUKA	JPN	90.630	
16	MOVCHAN OLENA	UKR	89.811	

## 2.6 Part D - Final

### 2.6.1 Start list

- What: Screen shows list of each gymnast in start order for the final with heading: event name, phase name and title, for each gymnast: start order, scoreboard name and NOC code  
When: Before the start of the final  
How: Scroll through if required

WOMEN'S FINAL		
START LIST		
1	KHILKO EKATERINA	UZB
2	WRIGHT CALRE	GBR
3	COCKBURN KAREN	CAN
4	LEBEDEVA IRINA	BLR
5	KHOPERIA RUSUDAN	GEO
6	DOGONADZE-LILKENDEY ANNA	GER
7	TSYHULEVA OXANA	UKR
8	KARAVAEVA IRINA	RUS

### 2.6.2 Before the performance

- What: Screen shows gymnast to perform with heading: event name, phase name and routine name, scoreboard name and NOC code. For current top three gymnasts: rank, scoreboard name, NOC code and total score  
When: Before the performance  
How: Static screen

Before the first performance:

WOMEN'S FINAL		
KHILKO EKATERINA	UZB	

Before the fourth performance and subsequent performances:

WOMEN'S FINAL		
LEBEDEVA IRINA	BLR	
1	COCKBURN KAREN	CAN 53.312
2	WRIGHT CLARE	GBR 53.050
3	KHILKO EKATERINA	UZB 52.805

### 2.6.3 After the performance

- What: Screen shows results of a gymnast after performance with heading: event name and phase name, scoreboard name, NOC code, difficulty score, execution score, time of flight score, penalty score (conditionally), total score and rank
- When: After each performance when the judges scores are ready
- How: Static screen

WOMEN'S FINAL	
COCKBURN	DIFFICULTY 5.800
KAREN	EXECUTION 8.700
CAN	FLIGHT 14.100
	PENALTY - 0.100
	TOTAL 28.500
	RANK 4

Penalty score:  
Title "PENALTY" and  
penalty score is only  
displayed if penalty is not  
zero

### 2.6.4 Results

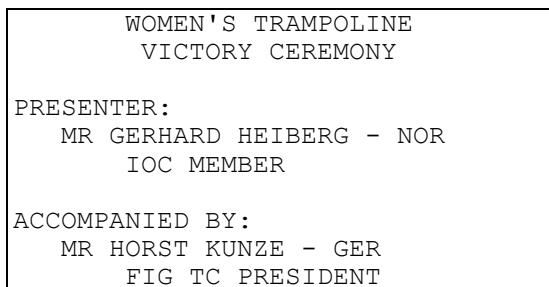

- What: Screen shows intermediate results with heading: event name and phase name, for each gymnast: rank, scoreboard name, NOC code, total score or IRM
- When: After the final
- How: Scroll through if required

WOMEN'S FINAL	
RESULTS	
1 KARAVAEVA IRINA	RUS 58.499
2 TSYHULEVA OXANA	UKR 58.106
2 DOGONADZE-LILKENDE	GER 55.788
4 KHOPERIA RUSUDAN	GEO 54.500
5 COCKBURN KAREN	CAN 53.312
6 WRIGHT CLARE	GBR 53.050
7 KHILKO EKATERINA	UZB 52.805
8 LEBEDEVA GALINA	BLR 52.622

## **2.7 Part E - During the Victory Ceremony**

### **2.7.1 Presenters**

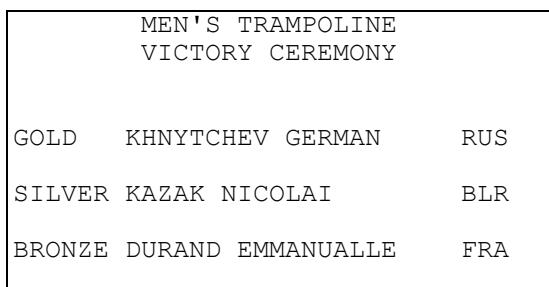

- What: Screen shows the presenters with event name, discipline name and screen title and for each presenter or accompanying person: title, scoreboard name, NOC code and function. Please note that there is a possibility that the screen title should be applied if required (e.g. "Victory Ceremony" could be "Flower Ceremony", etc.).
- When: As the dignitary is introduced before the ceremony
- How: Single screen

### **2.7.2 Medallists**

- What: Screen shows list of medallists with event name, discipline name, screen title. For each medallist show medal type, scoreboard name, NOC code.
- When: During the ceremony
- How: Static screen if all medallists are presented at the same time, dynamic screen if the medallists are presented by medal type

If the medallists are presented at the same time:

If the medallists are presented one by one, use the following order:

As the bronze medallist is presented:

MEN'S TRAMPOLINE VICTORY CEREMONY
BRONZE DURAND EMMANUELLE FRA

As the silver medallist is presented:

MEN'S TRAMPOLINE VICTORY CEREMONY
SILVER KAZAK NICOLAI BLR
BRONZE DURAND EMMANUELLE FRA

As the gold medallist is presented:

MEN'S TRAMPOLINE VICTORY CEREMONY
GOLD KHNYTCHEV GERMAN RUS
SILVER KAZAK NICOLAI BLR
BRONZE DURAND EMMANUELLE FRA

*This page intentionally left blank.*

### **3      Sport Specific Real Time Data**

There is no additional real time data available other than defined in Section 1 - Outputs.

*This page intentionally left blank.*

## **4      On Screen Results Presentation**

Some screens will be updated in real time whenever new information becomes available (e.g. score change/results update). These screens are split into two major categories:

- Schedules (before, during and after competition)
- Results (including start lists, statistics, summaries, etc.)

Detailed descriptions of these screens are available in the document "On Screen Results Presentation".

*This page intentionally left blank.*

# Appendix A - Glossary

## 1 Terms

The specific terms used in the ORIS Trampoline Gymnastics document are defined as follows:

Term	Definition
1st Routine	First routine of the qualification phase in which gymnasts perform set skills. Only two difficulty skills are used to calculate the difficulty score of the routine.
2nd Routine	Second routine of the qualification phase in which gymnasts perform a voluntary routine of 10 different skills without limitations.
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Chair	The official co-ordinating the panel of judges.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Competition Jury	See Superior Jury
Competitor Number	A number issued to each gymnast before the competition. It is used to assist in the running of the competition. It is assigned by the Competition Management after the closing of the entries.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Difficulty Score (D)	Ten difficulty skills comprise the routine (except in the qualification phase, 1 <sup>st</sup> routine where only two difficulty skills are used to calculate the difficulty score). Each skill has a specific value and the addition of these determines the difficulty score.
Discipline	Trampoline Gymnastics
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)
Disqualification	A ruling by officials that a competitor has broken the rules of the sport and cannot be considered for placing in an event unit, a

Term	Definition
	phase or an event.
Draw	Random selection that determines the order in which gymnasts compete, or by which the judges are assigned to each panel.
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)
Execution Score (E)	See "Trampoline Gymnastics References" for the list of events.
	Score which takes into account errors in the execution of an exercise.
	Each of the five judges evaluates the performances with marks from 0.00 to 0.50.
	The addition of the median mark for each skill gives a score which is then tripled and gives the final E score of a routine.
Final	The session, or phase, in which events are contended for medals.
Final Routine	Final routine in which gymnasts perform a voluntary routine of 10 different skills without limitations.
Gala	A show for the public featuring all gymnastic disciplines, by the medal winners (or potential medal winners, if held before the end of competition).
Head of Delegation	Leader of, or person responsible for, an NOC team.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
Inquiry	Inquiries are allowed only for Difficulty scores, provided that they are made verbally immediately after the publication of the score and confirmed in writing no later than four (4) minutes after the announcement of the scores (their presentation on the scoreboards).
Intermediate Results	Results after the first routine of qualification where competitors have only completed part of the competition.
Judge	A qualified official who evaluates the performance of the competitors. There are Difficulty, Execution and Time of flight judges.

Term	Definition
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
March (March-in, March-out)	Process of the gymnasts entering and leaving the competition area.
Mark	The score given by a judge.
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: <a href="http://odf.olympictech.org">http://odf.olympictech.org</a>.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p> <p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.</p>
Panel	<p>A group of judges presiding over a specific aspect of a performance on an apparatus (e.g. the Execution Panel).</p>
Penalty	<p>A penalty imposed as a score deduction for rule infringements or technical errors in performance.</p>
Phase	<p>A step in the progress of the competition.</p>
	<p>See "Trampoline Gymnastics References" for the list of competition phases.</p>

Term	Definition
Podium	The raised floor structure that the trampoline sits on.
Podium Training	Training in the competition venue, on the actual apparatus that will be used during competition, as opposed to training on apparatus in a training gym.
Qualification	Preliminary phase of the competition, which decides the gymnasts for the final.
Qualified	A gymnast that has gained the right to compete in the final.
Rank	Placing in an event. Gymnasts are ranked by competition results according to FIG rules.
Reserve	A gymnast who will only participate in the final if other qualified gymnasts default.
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> <li>• DD: Discipline code</li> <li>• G: Gender</li> <li>• EEE: Event Code</li> <li>• P: Phase</li> <li>• UU: Event Unit</li> </ul>
Routine	<p>Required combination of 10 skills.      There are two routines in the qualification phase:      • 1<sup>st</sup> voluntary routine with requirements      • 2<sup>nd</sup> voluntary routine      and one in the final phase:      • Final voluntary routine</p>
Score	The final score achieved by the gymnast after all the judges' scores are calculated.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Start List	Output containing the names and order in which each gymnast will start.
Superior Jury	The Technical Delegate (Technical Committee President) with the other members of the Technical Committee constitute the Superior Jury and preside over the competition.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical components of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Time of Flight Score	The Time of Flight score is the total time of flight measured to

Term	Definition
	1/1000 <sup>th</sup> of a second
Tripartite Commission	<p>The Tripartite commission is composed of:</p> <ul style="list-style-type: none"> <li>• The IOC</li> <li>• The Association of National Olympic Committees (ANOC)</li> <li>• The Association of Summer Olympic International Federations (ASOIF)</li> </ul>
	<p>The main objective of the Tripartite Commission is to allocate Invitation Places to a number of NOCs without or with few athletes qualified, allowing them to participate in the Olympic Games, in order to strengthen the principle of universal representation.</p>
Venue Results Manager (VRM)	<p>The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.)</p>
Working Order	<p>The sequence in which each gymnast performs.</p>

## 2 Specifications

### 2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none"><li>Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.</li></ul>	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none"><li>Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.</li></ul>	IG
Group - Divisible	Individual athlete results are recognised as part of the group results (teams, doubles, etc.)	<ul style="list-style-type: none"><li>Artistic Gymnastics (team), Equestrian (team), etc.</li></ul>	G
Team	Team competition (group of players forming one side in Team sports)	<ul style="list-style-type: none"><li>Basketball, Curling, Football, Handball, Hockey, Volleyball, Water Polo, etc.</li></ul>	T

### 2.2 Progression Types

Progression	Definition	Disciplines / Events
Seeding or Qualification	All participants are ranked after an initial phase. All of the participants (Seeding), or a limited number of the participants (Qualification), advance to the next event phase/unit based on this ranking.	<ul style="list-style-type: none"><li>Seeding: Archery, Cycling BMX, Snowboard (Snowboard-Cross), etc.</li><li>Qualification: Athletics (Long Jump), Canoe Sprint, Rowing, etc.</li></ul>
Single phase	All participants compete for a ranking in one event phase/unit	<ul style="list-style-type: none"><li>Cycling Mountain Bike, Cycling Road, Swimming Marathon, Triathlon, etc.</li></ul>
Combined	All participants compete in one or more event units, in a single phase, or in multiple phases	<ul style="list-style-type: none"><li>Disciplines: Athletics (Decathlon), Equestrian, Modern Pentathlon, etc.</li><li>Races: Alpine Skiing (for the 1+ run events), Bobsleigh, Cycling Track, Luge, Sailing, Skeleton, etc.</li></ul>

## 2.3 Competition Format Types

Type	Definition	Results Type
In-line	Participants compete under the same conditions to achieve a result which will lead to a ranking from 1 to n	<ul style="list-style-type: none"> <li>Measurements (time, weight, distance, height, etc.)</li> <li>Scores</li> <li>Judges' decisions (points, etc.).</li> </ul>
Pool	Group of several participants, competing against each other in a round robin	<ul style="list-style-type: none"> <li>Points</li> </ul>
Bracket	Competition in which participants compete in heats or head-to-head. Winner(s) progress in a bracket towards the gold medal, loser(s) are eliminated or redirected	<ul style="list-style-type: none"> <li>Win/Loss</li> </ul>
	<p>Bracket types:</p> <ul style="list-style-type: none"> <li>Bracket with direct elimination (e.g. Boxing)</li> <li>Bracket with direct elimination, classification and finals (e.g. Water Polo)</li> <li>Bracket with direct elimination and finals (e.g. Tennis)</li> <li>Bracket with direct elimination, repechage and finals (e.g. Judo)</li> </ul>	
Cumulative	Results achieved in different stages of competition, contributing to the participant's event results (e.g. Athletics combined events, Sailing fleet racing)	<ul style="list-style-type: none"> <li>Addition of results (points, times)</li> </ul>

*This page intentionally left blank.*

# Appendix B - Abbreviations

The following abbreviations are used in the ORIS Trampoline Gymnastics document with the exception of:

- Results codes, see Appendix C - Rules for Data Formats and Presentation
- Distribution Availability Codes, see end of Section 2 - Distribution Rules

Code	Description
<b>CIS</b>	Commentator Information System
<b>CM</b>	Organising Committee Competition Management
<b>D</b>	Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory
<b>D</b>	Difficulty
<b>Da</b>	Desirable, but only if such data is available
<b>Dc</b>	Desirable under conditions which are explained in the column for comments
<b>DRM</b>	Delegation Registration Meeting
<b>Dx</b>	Difficulty Judges (x=1-2)
<b>E</b>	Execution
<b>Ex</b>	Execution Judges (x=1-5)
<b>FIG</b>	Fédération Internationale de Gymnastique, the international governing body for gymnastics
<b>ft</b>	feet
<b>GT</b>	Trampoline Gymnastics
<b>ID</b>	Identification number
<b>IF</b>	International Federation
<b>in</b>	inch
<b>IOC</b>	International Olympic Committee
<b>IRM</b>	Invalid Result Mark
<b>IT</b>	Information Technology
<b>J</b>	Judge
<b>kg</b>	kilogramme
<b>lb</b>	pound
<b>M</b>	Mandatory
<b>m</b>	metre
<b>Ma</b>	Mandatory - if applicable
<b>Mc</b>	Mandatory - required under conditions which are explained in the column for comments
<b>MMC</b>	Main Media Centre
<b>MOC</b>	Main Operation Centre
<b>MPC</b>	Main Press Centre
<b>N/A</b>	Not Applicable
<b>NF</b>	National Federation
<b>NOC</b>	National Olympic Committee

<b>Code</b>	<b>Description</b>
<b>OC</b>	Organising Committee
<b>ODF</b>	Olympic Data Feed
<b>OG</b>	Olympic Games
<b>ONS</b>	Olympic News Service
<b>ORIS</b>	Olympic Results and Information Services
<b>OVR</b>	On Venue Results system
<b>PO</b>	Organising Committee Press Operations
<b>PTS</b>	Points
<b>Q</b>	Qualified to final
<b>R</b>	Reserve
<b>SEQ</b>	Sport Entries and Qualification
<b>T</b>	Time of flight
<b>TAO</b>	IOC Technology Assistance and Observation team
<b>TB</b>	Tie Break
<b>TBD</b>	To be defined
<b>TD</b>	Technical Delegate
<b>VPC</b>	Venue Press Centre
<b>VRM</b>	Venue Results Manager
<b>WC</b>	World Cup
<b>WCH</b>	World Championships
<b>WNPA</b>	World News Press Agencies
<b>yd</b>	yard

# Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

## 1 Trampoline Gymnastics Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Trampoline Gymnastics event presentation order	Please see "Trampoline Gymnastics References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none"><li>• Unscheduled Not visible on the schedule, optional (e.g. tie breaker if applicable)</li><li>• Scheduled The start time is known</li><li>• Getting_Ready At time x before start - "x" is by Olympic Broadcasting Services (OBS)</li><li>• Running In progress</li><li>• Scheduled_Break Planned break (e.g. end of period). Not applicable for Trampoline Gymnastics.</li><li>• Finished All action on the field of play is complete</li><li>• Delayed Did not start as scheduled, should start in the current ticketing session</li><li>• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present</li><li>• Interrupted Unplanned interruption after the start, and is expected to resume/restart in the current ticketing session</li><li>• Rescheduled The new date and start time are known</li><li>• Cancelled Will not take place at these Games</li></ul>
Results status options	<ul style="list-style-type: none"><li>• Start List Start list has been created</li><li>• Live In progress</li><li>• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change.</li><li>• Partial The results and ranking of the gymnasts who have completed their performance are not subject to change by the results of gymnasts still competing. Not applicable for Trampoline Gymnastics.</li><li>• Unconfirmed Activity on the field of play is complete but there is no results status update yet. Not applicable for Trampoline Gymnastics.</li></ul>

	<ul style="list-style-type: none"> <li>• Unofficial              Results are not approved</li> <li>• Official                Results are approved</li> <li>• Protested             The competition is no longer in progress and a protest has been lodged. Not applicable for Trampoline Gymnastics.</li> </ul>								
Invalid Results Marks (IRM)	<ul style="list-style-type: none"> <li>• DNF - Did Not Finish</li> <li>• DNS - Did Not Start</li> <li>• DSQ - Disqualified</li> </ul>								
IRM presentation order	<p>Rules for presentation of results for gymnasts with DNF, DNS, DSQ:</p> <p>For output C73A:</p> <ul style="list-style-type: none"> <li>• IRMs will be grouped in the following order: 1. DNF 2. DNS 3. DSQ.</li> <li>• Within IRM code sort gymnast by competitor number.</li> </ul> <p>For outputs C70A and C73B:</p> <ul style="list-style-type: none"> <li>• IRMs will be grouped in the following order: 1. DNS 2. DSQ</li> <li>• Within IRM code sort gymnast by competitor number.</li> </ul>								
Time format	<p>MM:SS</p> <p>Times are displayed in 24 hour format, without leading zeros</p>								
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23</p>								
Score format	<ul style="list-style-type: none"> <li>• The presentation of scores should be the following: <ul style="list-style-type: none"> <li>• Format ##0.0: Judges' scores: To one decimal place (e.g. 9.2)</li> <li>• Format ##0.00: Calculated scores (for output C66 only): To two decimal places (e.g. 0.05)</li> <li>• Format ##0.000: All jury scores, Penalty (for output C66) and Total Score: To three decimal places (e.g. 9.225)</li> <li>• Format -##0.000: Penalty with minus indicator (for all outputs except C66): To three decimal places (e.g. -0.500)</li> </ul> </li> </ul>								
Height format	<p><b>Height (metric):      Height (imperial):</b></p> <table style="margin-left: 100px;"> <tr> <td>0.00m</td> <td>0ft #0in</td> </tr> <tr> <td>#00cm</td> <td>0'##"</td> </tr> <tr> <td>0.00</td> <td></td> </tr> <tr> <td>##0</td> <td></td> </tr> </table> <p>If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".</p>	0.00m	0ft #0in	#00cm	0'##"	0.00		##0	
0.00m	0ft #0in								
#00cm	0'##"								
0.00									
##0									

Presentation of ties	<p><b>Medal presentation</b></p> <ul style="list-style-type: none"> <li>• All medals will be shown even if tied: e.g. 1 GOLD FAMILYNAME Givenname 1 GOLD FAMILYNAME Givenname 3 BRONZE FAMILYNAME Givenname</li> </ul> <p><b>Results</b></p> <ul style="list-style-type: none"> <li>• The primary rank (first column) must show a rank (if tied, repeat rank).</li> <li>• Secondary rank(s), if any (e.g. at intermediate...) will be repeated, with an "=" sign if there is sufficient space.</li> </ul>
----------------------	---

## 2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, FIG, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<ul style="list-style-type: none"> <li>• dd MMM yyyy (e.g. 6 APR 1896)           <ul style="list-style-type: none"> <li>• dd: date format, for example: 23 or 5 (presented without leading zero)</li> <li>• Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case)</li> <li>• DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case)</li> <li>• Mmm: month in abbreviation format - mixed case, for example: Apr for April</li> <li>• MMM: month in abbreviation format - upper case, for example: APR for April</li> <li>• yyyy: year format, for example: 1896</li> </ul> </li> <li>• The "As of date" may reflect one of the following:           <ul style="list-style-type: none"> <li>• Date when data has been collected (e.g. world ranking)</li> <li>• Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics)</li> <li>• Logical date if applicable</li> </ul> </li> <li>• Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8)</li> </ul> <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <ul style="list-style-type: none"> <li>• When the complete output fits on a single page, "None, aim for a single page" is written</li> <li>• For multi-page outputs, there are three cases:           <ol style="list-style-type: none"> <li>1. Natural page break: This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:               <ul style="list-style-type: none"> <li>• Not controlled with repeated output headings and column headings</li> <li>• Not controlled with repeated column headings only</li> <li>• Not controlled without repeated output headings and/or column headings</li> </ul> </li> </ol> </li> </ul>

	<p><b>2. Forced page break by "Group":</b></p> <p>This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Group" with repeated output headings and column headings</li> <li>• Break at "Group" with repeated column headings only</li> <li>• Break at "Group" without repeated output headings and/or column headings</li> </ul> <p>A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page).</p> <p><b>3. Forced page break by "Condition":</b></p> <p>This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table:</p> <ul style="list-style-type: none"> <li>• Break at "Condition" with repeated output headings and column headings</li> <li>• Break at "Condition" with repeated column headings only</li> <li>• Break at "Condition" without repeated report output headings and/or column headings</li> </ul> <p>A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page).</p> <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <ul style="list-style-type: none"> <li>• "None" is specified if no abbreviations are used in the output</li> <li>• If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply: <ul style="list-style-type: none"> <li>• Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend)</li> <li>• If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table</li> <li>• If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed</li> <li>• The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"</li> </ul> </li> </ul>
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> <li>1. Note with static text: <ul style="list-style-type: none"> <li>• If "Note with static text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated</li> </ul> </li> </ol>

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> <li>• If "Note with predefined text" is not planned, allowed or possible, "None" is written</li> <li>• If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition</li> </ul> <p>3. Note with free text:</p> <ul style="list-style-type: none"> <li>• Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output</li> </ul>
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

# Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

## 1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

<b>Event</b>	Affected event name (see "Trampoline Gymnastics References" for list of events)
<b>Gender</b>	Event gender indication (women), if applicable
<b>Phase</b>	Affected stage of competition (e.g. qualification/final, etc.), if applicable
<b>Unit</b>	Specification of the phase (e.g. rotation, subdivision, etc.), if applicable
<b>Subtitle</b>	One line space for describing the reason for the Official Communication
<b>Summary</b>	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
<b>Details</b>	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
<b>Issued by</b>	Initiator's (name and) function
<b>Date</b>	Date of decision as provided by the person issuing the Official Communication
<b>Time</b>	Time of decision as provided by the person issuing the Official Communication
<b>Note</b>	If needed, contact details for further information can be added here (as a Note)
<b>Signature</b>	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

## OFFICIAL COMMUNICATION (empty form)

Event			Gender	
Phase		Unit		
Subtitle				
Heading				
Summary				
Details				
Issued by				
Date	(dd MMM yyyy)	Time	(HH:MM)

Signature				

Affects Results:  Affects Schedules:  Affects Others:

## OFFICIAL COMMUNICATION (possible templates)

<b>Subtitle</b>	A	Jury decision
	B	FIG decision
	C	Bad weather conditions
	D	Accident of FAMILYNAME Givenname (NOC)
	E	Trampoline Gymnastics: IOC disqualifies FAMILYNAME Givenname (NOC)
	F	...
<b>Heading</b>	a	<Phase/Session> has been delayed
	b	<Phase/Session> has been postponed
	c	<Phase/Session> has been interrupted
	d	<Phase/Session> has been rescheduled
	e	<Phase/Session> has been cancelled
	f	...
<b>Summary</b>	1	The <...> had to be delayed due to <...>. It is expected that the delay should not be longer than nn minutes.
	2	The <...> had to be postponed due to <...>. The new start time of the <...> is unknown at the moment. Further details will be communicated as soon as available.
	3	The <...> had to be interrupted due to <...>. Further details will be communicated by the FIG as soon as available.
	4	The <...> had to be rescheduled due to <...>. The new date and start time is dd MMM yyyy at HH:MM.
	5	The <...> had to be cancelled due to <...>. The <...> will not be held during these Games.
	6	FAMILYNAME Givenname (NOC) submitted a protest related to <...>
	7	FAMILYNAME Givenname (NOC), Competitor No. <...> was disqualified for <...> (FIG rule <...>)
	8	The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked nn?? in the En??. Results have been amended accordingly. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a>  <i>If the disqualified gymnast is among medallists:</i>  The IOC Disciplinary Commission decided on dd?? Mmm?? yyyy??? to disqualify FAMILYNAME Givenname (NOC) who was ranked n?? in the En??. Results have been amended accordingly. The medallists are now: FAMILYNAME Givenname (NOC), gold, FAMILYNAME Givenname (NOC), silver, and FAMILYNAME Givenname (NOC), bronze. Further details regarding the IOC Disciplinary Commission decision can be found at: <a href="http://www.olympic.org">www.olympic.org</a>
<b>Issued by</b>	I	FIG Technical Delegate
	II	Trampoline Gymnastics Competition Manager
<b>Further information</b>	i	For more details contact the FIG Office
	ii	For more details contact the FIG Technical Delegate
	iii	For more details contact the OC Competition Manager
	iv	For more details consult <a href="http://www.olympic.org">www.olympic.org</a>

**Note: authors of this ORIS document do not imply that this is a complete list of Official Communications templates.**

## **2 Results, Medals and Diplomas**

### **2.1 General**

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

### **2.2 Expected Number of Medals and Diplomas**

The information included in this chapter should serve as a support for the medal and diploma allocation in Trampoline Gymnastics.

Eligible athletes:

- Women/Men: Athletes who competed in the Final

In the following table the first bullet indicates the regular medal allocation; the following bullet(s) indicate additional possibilities.

Medal Type/ Diploma	Event Type
	Individual
Gold	<ul style="list-style-type: none"><li>• 1</li><li>• Tie(s) for 1<sup>st</sup> place</li></ul>
Silver	<ul style="list-style-type: none"><li>• 1</li><li>• Tie(s) for 2<sup>nd</sup> place</li></ul>
Bronze	<ul style="list-style-type: none"><li>• 1</li><li>• Tie(s) for 3<sup>rd</sup> place</li></ul>
Diploma	<ul style="list-style-type: none"><li>• 8</li><li>• Less than 8, only athletes ranked in the Final</li></ul>

Rules for awarding medals to tied gymnasts:

- If two gymnasts are tied for 1<sup>st</sup> place, the silver medal will not be awarded
- If three or more gymnasts are tied for 1<sup>st</sup> place, the silver and bronze medals will not be awarded
- If two or more gymnasts are tied for 2<sup>nd</sup> place, the bronze medal will not be awarded
- If two or more gymnasts are tied for 3<sup>rd</sup> place, all will be awarded bronze medals

## 2.3 New Classification after Disqualification

In case of disqualification among the medallists or diploma recipients in an event, the following rules will apply:

Initial Rank	New Rank	Name	NOC Code
--------------	----------	------	----------

If the gold medallist is disqualified

4		FAMILYNAME 1 Givenname 1	NOC 1
2	1	FAMILYNAME 2 Givenname 2	NOC 2
3	2	FAMILYNAME 3 Givenname 3	NOC 3
4	3	FAMILYNAME 4 Givenname 4	NOC 4
5	4	FAMILYNAME 5 Givenname 5	NOC 5
6	5	FAMILYNAME 6 Givenname 6	NOC 6
7	6	FAMILYNAME 7 Givenname 7	NOC 7
8	7	FAMILYNAME 8 Givenname 8	NOC 8

Note: All gymnasts in the top 8 ranked after the disqualified gymnast will be ranked one place higher. Rankings will not be recalculated for those gymnasts not ranked in the top 8.

ORIS reference output:

- Results (Final) (C73B)

Notes:

- It is FIG's preference that only gymnasts that participated in the final should be eligible for diplomas in the case of disqualification of a finalist.
- The software must be flexible enough to handle medal allocations as decided by the FIG and/or the IOC.

### **3 Data to be Captured**

In addition to the information provided by Accreditation, the following data elements should be provided to OVR in order to fulfil the requirements listed in this document:

Data	Formats / Values	Captured by	Comments
FIG Licence Number	Numeric	SEQ	Provided by the FIG

# Document Control

Version History	
<b>Release 6 Version 1.2</b> 27 Feb 2015	<b>Approved version</b> Updated with Change Request 4639 and 4951 after the final Consolidation meeting, 13-14 Nov 2014, Montreux.
<b>Release 6 Version 1.1</b> 1 Dec 2014	<b>Approved (signed-off) version</b> Sign-off letters from both the FIG (5 Jan 2015) and Rio 2016 (15 Jan 2015) have been received by the IOC.  No further changes will be made to this document without Change Management.
<b>Release 6 Version 1.1</b> 1 Dec 2014	<b>Submitted for sign-off</b> Updated with comments received in the review period after the ORIS meeting
<b>Release 6 Version 1.0</b> 21 Oct 2014	<b>Submitted for review</b> Submitted for review after the ORIS Trampoline Gymnastics meeting, 15-16 Sep 2014. Based on the ORIS Trampoline Gymnastics meeting minutes as of 16 Sep 2014.
<b>Release 6 Version 0</b> 18 Aug 2014	<b>Draft</b> Updated based on ORIS document release 5, analysis of the London Questionnaire and issues logged as Rio 2016 improvements during the London Homologation Test

Release 6 - Version 1.2 - 27 Feb 2015	
<b>Global Changes</b>	<ol style="list-style-type: none"><li>1. The output "Minimum / Maximum" (N86G) has been removed throughout the document. Affected files: Procedures, Distribution Rules, output N86G.</li><li>2. All appropriate references to "Live screens in INFO" have been adjusted to "On Screen Results Presentation". Affected files: Executive Summary, Distribution Rules above main distribution table, Introduction to Section 3, On Screen Results Presentation (former section title "Live Screens in INFO").</li></ol>

--	--

## Section 2 - Distribution Rules

Main distribution table:

- Distribution to the Press Stands, VPC and MPC has been updated based on the information provided by Rio 2016
- For C08: The value in the "Produced by" column has been changed from "VRM/IDS" to "OVR (VRM)"
- For C35: The value in the "Produced by" column has been changed from "VRM" to "IDS (VRM)"
- For C50: The value in column "INFO PDF format" has been changed to "Y", the value "Y" in column "INFO Screen format" has been removed
- Below the Legend of the main distribution table, under "Officials" the reference to Protocol/Ceremonies and the Doping Control Officer has been added

## Section 3 - Real Time Information

### Scoreboards

Chapter "NOC Names":

- The entire bracket in the last sentence has been deleted

Chapter "Technical Specifications":

- A last sentence has been added: "The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the FIG's approval."

Part "During the Victory Ceremony":

- The medal screen titles has been adjusted from "MEDALLISTS" to "VICTORY CEREMONY"

### Sport Specific Real Time data

- A statement regarding the fact that there is no additional real time data available other than defined in Section 1 - Outputs has been added

## Appendix A - Glossary

Chapter "Terms"

- The following new terms have been included: "Athlete preferred name", "Common Codes", "Initial Download" and "Results System Code (RSC)"
  - Term "Disqualification": The definition has been updated
  - Term "INFO": The definition has been updated
- Chapter "Competition Format Types"
- Different types of bracket format have been added

## Appendix C - Rules for Data Formats and Presentation

"Schedule status options" and "Results Status Options":

- Status options which are not applicable for a sport discipline should have the comment "Not applicable for Trampoline Gymnastics" added.
- "Schedule status options": "Getting\_Ready" and "Finished" definitions have been modified
- "Schedule status options": "Live" has been changed to "Running"
- "Results status options": "Intermediate" and "Unconfirmed" definitions have been modified
- "Results status options": "Protested" has been included

## **Appendix D - Supporting Documents**

- Page 1: The bullets have been modified
- Chapter "Templates for Official Communication": Under "Summary", "8", the wording regarding the ranking has been deleted
- New chapter "Results, Medals and Diplomas" has been added (part of the information of the former chapter "Medal and Diploma reallocation" has been included here)
- New chapter "Data to be Captured" has been added

## **Release 6 - Version 1.1 - 1 Dec 2014**

### **Appendix D - Supporting Documents**

- Chapter 2 "Medal and Diploma Reallocation" has been added

## **Release 6 - Version 1.0 - 21 Oct 2014**

### **Global Changes**

- "Individual Judges Scores (Qualification)" (C66A) has been renumbered and renamed to "Individual Judges Scores" (C66)
- "Individual Judges Scores (Final)" (C66B) has been removed

### **Executive Summary**

- Chapter 2.2.6: the reference to "sport specific real time data" has been removed
- Chapter 2.2.6.2 "Sport specific real time data" has been removed; the remaining chapters have been renumbered.
- Chapter 4: the ORIS Trampoline Gymnastics Working Group names/functions have been updated

### **Trampoline Gymnastics References**

- 1: "Specifications": the text "The events are presented in traditional FIG order" has been deleted
- 2: "Competition", "Competition format" the text for "Final" has been updated

### **Procedures**

- Chapter 2.2.3: the chapter has been updated as agreed in the meeting
- Chapter 2.3.1.1: the chapter has been updated as agreed in the meeting; the grey highlighting has been removed
- Chapter 2.4.2: the chapter has been updated as agreed in the meeting
- Chapter 2.5.2.2: the chapter has been updated as agreed in the meeting; the grey highlighting has been removed
- Chapter 2.5.3.1: the chapter has been updated as agreed in the meeting
- Chapter 2.7: the results book has been updated as agreed in the meeting
- Chapter 3.2: the chapter title has been changed to "Biographies and Profiles"
- Chapter 3.4.1.2: the chapter has been updated as agreed in the meeting
- Chapter 3.4.2.3: the grey highlighting has been removed

### **Section 1 - Outputs**

#### **Outputs**

C07B

- Columns "Trampoline 1" and "Trampoline 2" have been merged into a single column "Trampoline 1 and 2"

- The data in the columns "Date", "Start Time" and "Finish Time" have been modified
- The contents have been modified to indicate "Men" and "Women"

C08:

- Column "Details" has been moved closer to the column "Event"

C35:

- The grey highlighting has been removed
- The title "National Technical Officials/Judges" has been changed to "National Technical Officials"

C57:

- The superior jury supervising titles have been updated
- The text in Comments for data matrix level 7.4 has been changed to "Standard FIG name to be provided by the FIG before the draw"

C66:

- Columns "Jury" and "D" have been deleted
- Column "E Score" has been changed to "Score"

C70A:

- Data in the "Rank", "NOC Code" and "Total" columns have been centred between the lines

C73A:

- The grey highlighting has been removed
- Data in the "Rank", "NOC Code", "Total" and qualification/reserve indicators columns have been centred between the lines

N02:

- The text has been updated based on input from the FIG

N89:

- The grey highlighting has been removed

## **Section 2 - Distribution Rules**

Distribution of the following outputs has been updated as agreed in the meeting:

- C51A, C51B, C66, C70A, C77, C92A

## **Section 3 - Real Time Information**

### **Sport Specific Real Time Data**

- Section has been deleted

## **Appendix A - Glossary**

"1-Terms":

- Term "1st Routine" has been updated by the FIG
- Term "2nd Routine" has been updated by the FIG
- Term "Difficulty Score (D)": the definition has been updated by the FIG
- Term "Execution Score (E)": the definition has been updated by the FIG
- Term "Panel": the definition has been updated by the FIG
- Term "Reserve": the definition has been updated by the FIG
- Term "Routine": the definition has been updated by the FIG
- Term "Superior Jury": the definition has been updated by the FIG

"2-Specifications", "2.1-Participants":

- Participant Type "Group - Divisible": the definition has been updated by the FIG

## **Appendix B - Abbreviations**

- Codes "cm", "Diff", "Gym", "IBC" and "TC" have been deleted

## **Appendix C - Rules for Data Formats and Presentation**

- Topic "Invalid Results Marks (IRM)": the grey highlighting has been removed
- Topic "IRM presentation order": The grey highlighting has been removed; output C70A has been adjusted to show DNS, DSQ only
- Topic "Score format": The term has been updated

## **Release 6 - Version 0 - 18 Aug 2014**

### **Global Changes**

- The code of points has been changed; the Reference Judges' panels have been removed
- The IRM code "DNF - Did Not Finish" has been introduced
- "Venue Training and Competition Schedule" (C09) has been removed
- "Individual Judges Scores (Qualification)" (C75A) has been renumbered C66A
- "Individual Judges Scores (Final)" (C75B) has been renumbered C66B
- New output "Sport Communication" (C68) has been introduced
- "Intermediate Results (Final)" (C70B) has been removed
- Output C77 has been renamed to "Tie Break Report"
- New output "Individual Achievements" (N18A) has been introduced (output contents have been extracted from the previous output - "Facts and Figures - Individual Achievements" (N86))
- "Biography" (N20) has been renamed "Athlete Biography"
- New output "NOC Profile" (N24) has been introduced
- "Facts and Figures" (N86) has been split into separate outputs for each topic (N86A-N86G)
- "Flash Quotes" (N87) has been renumbered N87A
- New output "Quotes of the Day" (N87B) has been introduced
- New output "Sport Review" (N89) has been introduced
- New output "IOC News" (N90C) has been introduced

### **Executive Summary**

- Text has been reworded

### **Trampoline Gymnastics References**

- Text has been reworded

### **Procedures**

- Chapter 2.1 Pre-Games Activities: Section has been rewritten
- Chapter 2.2 Pre-Competition Activities: Section has been rewritten
- Chapter 2.3 Results Processing: Section has been rewritten
- Chapter 2.4 Common Sport Functions: Section has been rewritten
- Chapter 2.5 Exceptional Situations Handling: Section has been rewritten
- Chapter 2.7 Results Book: Section has been rewritten
- Chapter 3 News Service and Background Information: Section has been rewritten

### **Section 1 - Outputs**

**Introduction** • Text has been reworded

**Outputs** C57:

	<ul style="list-style-type: none"> <li>• Reserve judge has been added</li> </ul> <p>C66A:</p> <ul style="list-style-type: none"> <li>• The output has been updated to the new format provided by the FIG</li> </ul> <p>C66B:</p> <ul style="list-style-type: none"> <li>• The output has been updated to the new format provided by the FIG</li> </ul> <p>C77:</p> <ul style="list-style-type: none"> <li>• The underline mark indicator showing where the tie was broken has been removed; the note text has been updated accordingly</li> </ul>
<b>Section 2 - Distribution Rules</b>	
<b>Introduction</b>	<ul style="list-style-type: none"> <li>• Text has been reworded</li> <li>• Number of columns in the distribution table has been changed and some codes have been modified</li> </ul>
<b>Section 3 - Real Time Information</b>	
<b>Introduction</b>	<ul style="list-style-type: none"> <li>• Text has been reworded</li> </ul>
<b>Scoreboards</b>	The following chapters have been modified: 2.7.2: <ul style="list-style-type: none"> <li>• Sample screens of medallists presented one by one have been added</li> </ul>
<b>Sport Specific Real Time Data</b>	<ul style="list-style-type: none"> <li>• New part defining sport specific real time data</li> </ul>
<b>Live Screens in INFO</b>	<ul style="list-style-type: none"> <li>• New part containing references required for the development of live screens in INFO</li> </ul>
<b>Appendix A - Glossary</b>	<ul style="list-style-type: none"> <li>• Some terms and their appropriate descriptions have been updated</li> <li>• Chapter 2 "Specifications" has been added</li> </ul>
<b>Appendix B - Abbreviations</b>	<ul style="list-style-type: none"> <li>• Some codes and their appropriate descriptions have been updated</li> </ul>
<b>Appendix C - Rules for Data Formats and Presentation</b>	<ul style="list-style-type: none"> <li>• Wording of some items have been updated</li> </ul>
<b>Appendix D - Supporting Documents</b>	<ul style="list-style-type: none"> <li>• New appendix containing templates for the output "Official Communication" (C67)</li> </ul>
