Executive Summary

The Executive Summary covers major steps and milestones of the ORIS project for the Rio 2016 Olympic Games.

1 Introduction to the ORIS Project

Information management is a key component in the efficient operation of sporting events. Accurately documented requirements are essential to ensure reliable, cost efficient results management, and facilitate the transfer of knowledge from one Games to the next.

In 1993, recognising the high costs and risks incurred in the continual redefinition of requirements, the IOC initiated a pilot project "INFOTECH" whose aim was the definition of minimum requirements for Information Technology support at the Olympic Games. Rowing was chosen for this pilot project.

Information requirements were analysed in detail by the International Rowing Federation (FISA) together with representatives of the major World News Press Agencies (WNPA), several large sports newspapers and representatives from the IOC. In the course of this process, the needs of the written press and news press agencies and potential areas for improvement were highlighted. At the same time, information users gained a better understanding of the procedures involved in running a major sporting event. This collaboration brought about a greater mutual understanding and commitment to working together for the benefit of athletes, sports officials, viewers, readers and subscribers and therefore, ultimately, the sport.

Experience gained during this pilot project encouraged the IOC, the International Federations, and participating media representatives to extend the process to all other sports in the Olympic Programme for future Games, starting with the Nagano 1998 Olympic Winter Games.

The experience gained from the pilot project helped to set the objectives for all subsequent versions of the project. These project objectives are to:

- Form a Working Group for each discipline made up of experts from the various fields related to information technology and information usage for the sport
- Establish and consolidate the IT requirements that an Organising Committee (OC) will be required to fulfil in order to meet the needs of the International Federations (IFs) and media during the Games through a process of consultation among the Working Group
- Set consistency in the level of IT support across the different disciplines at the Games, whilst respecting each sport's traditions
- Analyse and propose changes to current working practices in order to ensure that information delivery is up to date
- Document procedures in a readable and user friendly format, focusing on a description of the required information from a user's perspective
- Ensure that the experience gained at each Game's edition is transferred forward to subsequent Games

During the winter of 1995-1996, the International Olympic Committee (IOC), the Organising Committee for the XVIII Olympic Winter Games, Nagano 1998 (NAOC), 35 representatives of the International Winter Sports Federations and 42 media personnel from 16 countries completed the requirements documents for the 14 Winter Olympic sports.

In February 1997, while the Winter Games documents were being finalised for Nagano, the IOC launched the Summer Games project in parallel. The project was renamed ORIS (Olympic Results and Information Services). Over the next two years, documents for the 37 disciplines on the Sydney programme were completed by the ORIS team, working with sports, media and technology personnel from the Sydney Organising Committee for the XXVII Olympic Games (SOCOG). More than 130 representatives of the 28 International Summer Sports Federations and over 120 journalists from 31 countries were involved in the project.

As a result of the success of the Nagano and Sydney Games, the ORIS project has been leading the results delivery at every Summer and Winter Games organised since.

In parallel, requirements for a data feed to serve the press agencies were defined and documented together with the main news agencies in the so called World News Press Agencies working group (WNPA). The first version of the "Requirements for the Results Data Feed" for summer sports was released in 1995. Subsequent documents were improved, extended to the winter and implemented from the Nagano Winter Games onwards. These requirements have been replaced by a new universal data feed named the Olympic Data Feed (ODF) which was first implemented at the Vancouver 2010 Games.

The development of the ORIS document has combined the expertise and experience of many diverse users who together have thousands of hours of first-hand experience at Olympic Games and other major competitions. The legacy of the lessons learned and the experience gained has been brought to the present version, and the experience gained at the Sochi 2014 Games will be used to further improve future versions.

The ORIS development process (ORIS document production, Change Management, Test Event, Homologation Test, TAO observation, Questionnaires) ensures that the ORIS document remains stable during the development cycle. This also ensures that the document continues to be developed to include valuable feedback received from the Games, and from actual end users of the outputs and feeds produced.

2 ORIS Document Summary

2.1 Terminology

Some terminology used in this document is generic and each OC may use its own terminology. For example, the "Venue Press Centre" may be called "Venue Media Centre", "Sport Presentation" may be called "Sport Production", a "Competition Manager" may be called a "Sport Manager", "ONS" may be called "OPNS", etc.

In this document, the masculine gender used in relation to any physical person (for example, names such as Technical Delegate, official, athlete, judge, referee, score verifier, member of a jury or pronouns such as he, they or them) shall, unless there is a specific provision to the contrary, be understood as including the feminine gender.

2.2 Document Structure

The ORIS document is laid out as follows:

2.2.1 Executive Summary

This part of the document provides an overview of the ORIS project and the ORIS document for Table Tennis. It includes information on the following topics: introduction, document content, cycle and participants.

2.2.2 Table Tennis References

This part of the document describes the references on which the ORIS document is based. It includes the list of events, competition format, competition phases, participation references and source documents.

2.2.3 Procedures

This part of the document describes procedures to be followed by the OC and its partners, the ITTF and the IOC. It covers procedures for results services and news services, for both the preparation period and the Games.

2.2.3.1 Results Service and Competition Management Support

The roles and responsibilities of the ITTF, the OC Competition Management and OC Technology during all stages of the results delivery process for the competition are defined here. This includes "end to end" information technology support beginning with the athlete entry process up until the completion of the event, including the handling of exceptional situations. Special attention is given to the results verification process and the initiation of results distribution. Procedures are designed to ensure maximum data accuracy in the most efficient manner.

2.2.3.2 News Service and Background Information

Procedures regarding the collection, acquisition and transfer of historical data, biographies and similar background information prepared before the Games are defined here. The roles and responsibilities of the ITTF, the IOC and the OC in this process and the data exchanged between these parties before and after the Games are also outlined.

Procedures on the preparation of news (e.g. previews, reviews, flash quotes, press conference highlights, etc.) by the Olympic News Service (ONS) are defined. The expected responsibilities of the ITTF and the OC Competition Management in order to support these processes are outlined. The role of OC Technology in the collection and distribution of this information is described.

2.2.4 Section 1: Printable Outputs

All outputs which should be produced are listed in section 1. In addition to technical information linked to the outputs (description of the data items, sorting rules, legend definition, etc.), samples are

provided in order to help the organisers and users understand the type of information required. The format and content of some outputs have become traditional and standard in some sports. ORIS support the policy that such standards should be followed. Details of information content are shown independently of the delivery method, which defines whether information presented in the sample of each output will be printed or be available in INFO.

The "Look" of printed outputs is defined by the OC while ORIS defines the content and structure of information to be displayed or printed in the output body. Printed outputs must include the same data in the same order as defined in ORIS. While text should be formatted as described in ORIS, minor layout adjustments are acceptable (e.g. a column position, height of a cell...). In sport specific outputs, column headings may also be adjusted to display the full title where an abbreviation is presented in the ORIS document, if space allows (e.g. "Rank" could be shown instead of "Rk"). For outputs that are common across all sports (e.g. tables in medal outputs) column headings should be shown as presented in the ORIS document for consistency across sports. For INFO, developers should include the ORIS proposal for the content, though the layout may need to be adjusted because of technical constraints, subject to approval by the ORIS Table Tennis Working Group.

This document does not impose any particular technical solution and therefore many different possible solutions could be used to achieve the production and distribution of the outputs defined in ORIS (e.g. outputs related to news, training schedules, etc. could be produced by using a standard word processor).

2.2.5 Section 2: Distribution Rules

This section defines the distribution of all outputs produced, whether printed or published in INFO.

It is divided into three chapters:

- Event related requirements
 - Process description and distribution rules for event related printed outputs and INFO grouped by type of event in chronological order (e.g. results of a competition phase)
- Other outputs
 - Process description and distribution rules of non-event related printed outputs and INFO grouped in chronological order (e.g. competition schedule, three (3) months before the Games)
 - Process description and distribution rules of event related printed outputs and INFO that have no defined production time (e.g. Official Communications)
- Distribution rules and availability of all outputs
 - These outputs are ordered by ORIS output code, and all delivery time variations are grouped under the same output code. These rules are documented in tabular format, showing which outputs the users require, when and where the outputs are needed.

The checking/approval process during output production and distribution is essential. Underestimation of this critical area could result in outputs not being delivered at the right place at the right time.

2.2.6 Section 3: Real Time Information

This section defines the requirements for the presentation of real time information for scoreboards, Real Time Display System (RTDS, as well as a reference to on screen results presentation.

2.2.6.1 Scoreboards

The provision of information to the public at the venues is an important part of the success of an event, keeping those who know the sport informed; and those who are new to the sport enlightened and entertained.

Public scoreboards are defined here.

It is not the intention to describe all that can be done in this area, but to suggest what is possible, as well as to define what information is mandatory or minimally required. In all cases, the ITTF should approve the proposed solution.

2.2.6.2 Real Time Display System (RTDS)

Requirements for real time information concerning the start order and/or current results to be displayed on monitors at the venue (supporting the competition and providing sport and media real time information), are defined in this part, including the content and timing of information.

2.2.6.3 On screen results presentation

This part contains references required for the development of on screen results presentation.

2.2.7 Appendix A: Glossary

Since some terminology may be used differently across sports, the glossary helps the reader to understand exactly the intended definition in the ORIS document (e.g. the term "event" as defined in the Olympic Charter may have a different meaning than commonly used in a sport specific context).

2.2.8 Appendix B: Abbreviations

Common abbreviations used in this document are defined in this appendix. Invalid results marks are described in Appendix C - Rules for Data Formats and Presentation.

2.2.9 Appendix C: Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

2.2.10 Appendix D: Supporting Documents

This appendix includes templates for the output "Official Communication" (C67), information for results, medals and diplomas allocation as well as data to be captured.

2.2.11 Document Control

This part describes all changes made in this document through its life cycle.

3 ORIS Project Cycle

Together with well-defined requirements, one of the key factors for success in the area of information delivery is proper expectation management. With the ORIS process, the key information users (representatives of International Federations and media) can communicate their information requirements for the Games. These requirements are assessed in the context of the available resources (time, budget, risks, etc.).

3.1 Production of the Updated Version of the ORIS Document

The process for updating the ORIS documentation will be as follows:

- The ORIS team will prepare the ORIS Table Tennis draft document, based on:
 - The last version of the ORIS Table Tennis document of the previous Games
 - International Federation sport rules, competition format and requirements for these Games
 - Previous Games experience (including Questionnaires and Homologation Test issues logged)
- A few weeks before the ORIS Table Tennis meeting, the draft will be made available to the ORIS Table Tennis Working Group, allowing them to prepare for the meeting
- During the ORIS meeting the draft will be analysed and ideas for improvements discussed and agreed upon through consensus of the ORIS Table Tennis Working Group
- Based on agreements reached during the ORIS meeting, the ORIS Table Tennis document version 1.0 will be produced and published on the IOC ORIS extranet for review. The ORIS Table Tennis Working Group members can make comments directly on the IOC ORIS extranet regarding implementation of these agreements.
- The ORIS team will analyse the feedback and publish version 1.1 of the ORIS Table Tennis document submitted for sign-off
- Once the document is signed-off (status approved), all modifications will be brought through a Change Management process
- After the last ORIS meeting for Rio 2016, a consolidation meeting may be held between the ORIS team and the OC (Sports, ONS, Results and partners)

Attending the ORIS meetings and working together on ORIS document updates will help all parties build and maintain good working relationships and improve understanding of their individual needs and responsibilities. The ORIS meeting is the best opportunity for all of the Working Group members to provide their input to the ORIS team and to help with the development of the ORIS document. It is emphasised that the development of the ORIS document is a collaborative effort and the goal is to develop a consensus among the Working Group members. The ORIS team will make every effort to facilitate this process.

As the process of updating the ORIS document is organised at an early stage in the Games preparations, OC Technology can issue early warnings whenever ORIS might request deliverables or availability of requirements which are difficult or impossible to satisfy with the resources available (budget, time, etc.). Because of this, some topics may remain highlighted in yellow, pending decisions by the International Federation, the IOC or the OC. Deadlines for resolution of these topics will be set during the ORIS meeting. Most of these deadlines will occur after sign-off of the ORIS document. Therefore any change regarding yellow highlighted text is automatically exempt from the Change Management process.

The procedure for updating the ORIS document also allows the OC's Technology providers to present the functionality and performance of existing solutions, in order to minimise changes and to raise any points for clarification required by their development teams.

The entire ORIS process (ORIS meeting, Test Event and Homologation Test) provides excellent opportunities for team building. The Test Event (if any) provides an opportunity to test production and distribution of outputs under high pressure and stressful conditions, similar to those experienced at the Games.

3.2 ORIS Document Sign-off

The ITTF and the Organising Committee will sign-off the ORIS Table Tennis document after all agreed changes have been implemented.

For the ITTF, the sign-off will represent a commitment that requirements are well defined and consistent with current sport rules, that they will be adequate for the smooth running of the Table Tennis competition and that the procedures as described in the document will be followed.

For the Organising Committee, the sign-off will represent its commitment to deliver the ORIS requirements. The sign-off letter will be signed by the representative of Sports, Media and Technology.

Some issues, such as anticipated rule changes, could remain open and will be highlighted in yellow in the document. Updates of these topics will be made under the Change Management Process, however, implementation of these changes is mandatory.

3.3 Change Management

A Change Request should be logged if the ITTF or the OC requests any change which has an impact on the ORIS Table Tennis document.

The most common reasons for International Federations requesting changes are changes to the competition format or to the implementation of new rules. For Organising Committees the most common reason for requesting changes is because commitments made in the ORIS document no longer match the organisation of the discipline at the Games.

It is also possible that experience from the OC's Test Event (or other event), or the findings of the Homologation Test, will show that some requirements or procedures are no longer valid or require further improvements.

Change Requests will be registered and reported as per the ORIS Change Management procedures as defined in a separate document, as agreed between the IOC and the OC.

Once a Change Request has been approved, the ORIS team will publish an updated version of the ORIS Table Tennis document.

3.4 Test Event

The OC, in conjunction with the International Federation, will conduct a Test Event (sometimes also called Sport Event) which is the best (and only) chance for OC Technology to test its systems and operational procedures in real conditions. A successful Test Event should preferably be run under conditions which are as close as possible to the competition format that will be used at the Games.

3.4.1 ORIS Team Participation

IOC Technology will appoint ORIS observer(s) for each Test Event. The main tasks of these observers are:

- To help OC Technology evaluate the performance of the implemented systems
- To monitor if procedures described in ORIS are followed and applicable
- To collect feedback from all users (the ITTF, media, teams, etc.)
- To prepare required changes to the ORIS Table Tennis document
- To provide support to key users and act as moderators

3.4.2 Test Event Review Meeting

A Test Event review meeting will be held before the end of the Test Event with the ORIS Table Tennis Working Group in order to evaluate the findings and discuss solutions and improvements for the Games.

It is recommended that the Venue Results Manager organises and chairs this meeting and takes the meeting minutes.

Following the Test Event, the ORIS Sport Analyst will prepare the Change Request if required.

3.5 Homologation Test

The Homologation Test will be carried out in the OC lab, led by the ITTF and supported by OC Technology and partners. The lab set-up must simulate all the major functions of the Games (venues, central system and their interfaces).

It must be organised early enough (six to nine (6-9) months before the Games) to allow sufficient time for the OC's Technology providers to solve any issue detected.

The Homologation Test covers the complete "end to end" process for the system's functions defined in the ORIS Table Tennis document. The test begins with entry data for athletes and officials, continues through the draws and start lists creation, followed by results activities and production of the results outputs and medals. The test also evaluates the ability of the system to fulfil the key ORIS requirements including (but not limited to):

- Outputs produced by On Venue Results system (OVR)
- Olympic Data Feed (ODF) messages
- INFO presentation of competition and news outputs, direct print from INFO, live screens, medals, etc.
- Scoreboards
- RTDS

The ITTF, with the help of the ORIS team, will prepare all possible test cases and scenarios (from normal progression to exceptional situations) at a reasonable time before the Homologation Test. All the important variations of results should be tested and all the affected outputs should be checked with such test cases.

All issues identified during a Homologation Test are immediately entered into the OC's issue tracker. The issues are discussed and agreed upon, and action plans are proposed by the participants during the daily issue management meetings. If a consensus is not reached, the issue will be escalated to the IOC and the OC Technology management.

All parties affected by any of the issues identified should be kept fully updated of the progress.

The results of the Homologation Test are summarised in the ITTF and WNPA reports. Those documents are then sent to the OC, the ITTF, the IOC, and the news press agencies. Any problem areas identified will be the subject of future testing.

The success of the Homologation Test largely depends on the level of preparation of the OC Technology team, and on the quality of the testing software. This process has been used at every Games since Nagano 1998. It was one of the key factors which contributed to the success of these Games.

3.6 IOC Technology Assistance and Observation

For each Olympic Games the IOC Technology department will establish an IOC Technology Assistance and Observation programme (TAO).

The principal tasks of the TAO team during the Games are to help OC Technology ensure the success of the Games through efficient and accurate Information Technology support to the key users, as well as to evaluate lessons learned in order to contribute to improving the processes and deliverables for future Games (outputs and procedures).

The ORIS team will attend as many of the key phases as possible (draw, change of competition phase, etc.).

All problems will be reported using the regular OC Technology reporting lines. The ORIS team will be a part of the problems escalation process and, if required, be a link with the International Federation representatives.

The ORIS team should also report any feedback to the OC concerning the IT services that they have received from International Federations and Media.

3.7 Transfer of Knowledge

In order to contribute to the process of technology transfer to future organisers and to prepare the basis for the ORIS document update for the next Games, the ORIS TAO team will use the Games

Questionnaires to document the ITTF, OC and media findings, comments and suggestions for improvement.

3.8 Support

The IOC ORIS extranet is the platform used to share all documents related to ORIS (current version of the ORIS Table Tennis document, Homologation Test documentation, ORIS meeting documentation and reports, etc.). The IOC ORIS extranet is also used to record and share feedback within the ORIS Table Tennis Working Group.

Access to the IOC ORIS extranet will be granted by the IOC ORIS extranet Manager.

4 Rio 2016 ORIS Project Participants

The ORIS Table Tennis project is managed and supervised by different committees and groups. It is coordinated by the IOC and composed of representatives of the ITTF, the OC (Sports, Media, Technology) and its IT partners.

The ORIS Steering Committee:

- Initiates and oversees the ORIS project for Rio 2016
- Resolves exceptional issues that cannot be managed by the ORIS Project Management and the OC Technology team
- Meets at the official project launch and subsequently if required
- Is informed by regular reporting (deliverables, finances...)

The members of the Rio 2016 ORIS Steering Committee are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr Kit McCONNELL**, IOC Sports, Director
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Mr Rodrigo GARCIA**, Rio 2016 Sport Director
- **Ms Lucia MONTANARELLA**, Rio 2016 Head of Press Operations
- **Mr Elly RESENDE**, Rio 2016 Technology Director
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)

The ORIS Management Team:

- Follows the Rio 2016 ORIS project sport by sport and step by step
- Receives reports after each of the ORIS meetings, Homologation Tests and Test Events
- Each member communicates potential issues to his/her functional areas when they are affected

The members of the Rio 2016 ORIS Management Team are:

- **Mr Jean-Benoît GAUTHIER**, IOC Technology and Information, Director (Chair)
- **Mr John GIANCARLO**, IOC Technology and Information, Head of Olympic Games Technology
- **Mr Anthony EDGAR**, IOC Games, Head of Olympic Games Media
- **Ms Isabella BURCZAK**, IOC Sports, Head of Sport Projects
- **Mr Pierre FRATTER-BARDY**, IOC Sports, Head of Summer Sports and IF Relations
- **Mr Nicolas HUREL**, IOC Technology and Information, Head of Olympic Results and Information Services (ORIS)
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Françoise PERROUD**, Rio 2016 Technology Results Manager, Rio 2016 ORIS Liaison

The ORIS Table Tennis Working Group:

- Attends the ORIS meeting to discuss and agree on the Table Tennis results information requirements for the Rio 2016 Olympic Games, based on the documents used and experience gained at previous Games as well as taking potential rule changes into consideration
- Follows the ORIS document evolution
- Participates in the Table Tennis Homologation Test in the OC lab
- Receives reports after the ORIS meeting, Homologation Test and Test Event
- Participates in the ORIS Change Management process, including document review and feedback

The members of the ORIS Table Tennis Working Group are:

- **Mr Raul CALIN**, ITTF Director of Operations and Olympic Games
- **Mr Graeme IRELAND**, ITTF Technical Commissioner
- **Mr Josué MORISSON de MORAES**, Rio 2016 Sport Group Manager
- **Mr Edimilson PINHEIRO**, Rio 2016 Sport Manager
- **Mr Eusébio GALVAO**, Rio 2016 Press Services Manager
- **Mr Daniel CHANNON**, Rio 2016 Cluster Venue Results Manager
- **Ms Katy ZAVALETA**, Atos Major Events IDS Sport Specialist
- **Mr Hervé JOLIDON**, OMEGA Venue Manager
- **Mr KIM In Dok**, OMEGA Result Manager
- **Mr Namik DJUMISIC**, IOC ORIS Project Manager and Sport Coordinator
- **Ms Pagona GEROSIDERI**, IOC ORIS Sport Analyst for Table Tennis

The ORIS project is supported by:

- **Ms Marlène DROZ**, IOC Technology and Information, ORIS Project Technical Editor, IOC ORIS extranet support
- **Ms Natasa DUMIC**, IOC Technology and Information, ORIS Project Secretary
- **Mr Charlie GROVES**, IOC ORIS Project Language Support
- **Ms Nadine SAAGER**, IOC ORIS Project Technical Editor
- **Ms Renée SEWJEE**, IOC ORIS Project Technical Editor

Men's Team Women's Team	Competition rounds: <ul style="list-style-type: none">Round 1, Quarterfinals, Semifinals, Finals (Bronze Medal/Gold Medal)	Qualification	Bracket with direct elimination and finals

- The events are presented in traditional ITTF order
- A full overview of Progression and Competition Format types is included in Appendix A - Glossary

2 Competition

- Competition format

Both the singles and team events are played in a direct elimination format (the winner of each match advances to the next round, and the loser is eliminated).

- Singles

The singles events consist of the following rounds:

- Preliminary round

This round will take place if there are more than 64 players; up to 6 matches.

- Initial rounds:

- Round 1 (players ranked 33+ and winners of the preliminary round matches if played; 16 matches).

- Round 2 (players ranked 17-32 drawn directly into this round and winners from round 1; 16 matches).

- Round 3 (players ranked 1-16 drawn directly into this round and winners from round 2; 16 matches).

- Final rounds:

- Round 4 (winners from round 3; 8 matches)

- Quarterfinals (winners from round 4; 4 matches)

- Semifinals (winners from quarterfinals; 2 matches)

- Finals (Bronze Medal/Gold Medal), (the winners of the two semifinal matches advance to the gold medal match. The losers of the two semifinal matches compete for the bronze medal.)
- Team

The team events consist of the following rounds:

 - Round 1 (all 16 teams are drawn into this round; 8 matches)
 - Quarterfinals (winners from round 1; 4 matches)
 - Semifinals (winners from quarterfinals; 2 matches)
 - Finals (Bronze Medal/Gold Medal), (the winners of the two semifinal matches advance to the gold medal match. The losers of the two semifinal matches compete for the bronze medal.)

Tie Break Rules

- All singles event matches are the best of seven games and all the team event matches are the best of 5 games. A game is won by the player or pair first scoring 11 points unless both players or pairs score 10 points, in which case the game is won by the first player or pair gaining a lead of 2 points.

Venue type

- Indoor
- Single venue

Participation references

The following information is an indication of the estimated participation at these Games for the purposes of software development only. Actual numbers are defined in the Qualification System document approved by the IOC.

- Athletes: 86 men / 86 women (up to 70 men and 70 women may participate in the singles events. In addition up to 22 athletes may be required to complete teams from those NOCs that qualified two or only one singles athletes.)
- Teams: 16 for each gender, teams are made up of 3 athletes

3 Documents

- Olympic Charter in force
- IOC-Rio 2016 Host City Contract
- ITTF Handbook (version applicable for the Rio 2016 Olympic Games)

Procedures

1 Introduction

The aim is to document the procedures to be followed to ensure an efficient results delivery and to determine who should act (when, where and how) in order to satisfy user information expectations.

The proposed procedures are based on the experience gained at previous Games and other large Table Tennis events and, in some cases, include proposals on how to improve existing practices.

The responsibilities of each party involved in the production and delivery of specified outputs are precisely defined including the time frame or deadlines in which the parties have to fulfil them.

2 Results Service and Competition Management Support

Roles and responsibilities of the key participants are documented in chronological order, starting a few months before the Games and ending with the production and distribution of the Results Book.

2.1 Pre-Games Activities

Some competition-related information must be available as soon as INFO goes live.

The final few weeks before the Games can be hectic and the OC should anticipate the workload as much as possible.

2.1.1 Schedules

Schedules are available from a number of different sources prior to the Games (OC communications, official website, ticketing, etc.).

OC Technology must develop appropriate procedures to ensure that any schedule updates are promptly and accurately published and distributed to the users.

The Games competition schedule will be developed between the OC Competition Management and the ITTF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate. This schedule data should be used to build the integrated Games schedule navigation page and the schedule screens for each discipline in INFO.

Four (4) weeks before the Opening Ceremony, the Venue Results Manager should produce the output:

- Competition Schedule (C08)

for verification and approval by OC Competition Management.

OC Technology (Venue Results Manager and Technical Operations Centre) will then upload this file in INFO. This output will be available in PDF format on the day INFO goes live. Once the ITTF and OC Competition Management arrive at the venue, the output should be distributed accordingly.

The output "Competition Schedule" (C08) will normally be produced only once for the entire Table Tennis competition. However if changes to the schedule do occur, the output "Competition Schedule" (C08) will be updated by OVR once they become owner of the data. It will be redistributed (at the end of the day) and marked as "REVISED".

OC Technology will, based on information provided by the OC Competition Management, also produce the outputs:

- Activity List (C06)
- Practice Schedule (C07)

These outputs will become available on the day that INFO goes live, and will be distributed according to the ORIS distribution rules.

2.1.2 Entries and Participant Data

The entry process is managed by the Sport Entries sub-function within the OC Sport Department. In order to fulfil the ORIS requirements, special attention should be paid to the information to be collected through the entry forms (data to be captured are included in Appendix D - Supporting Documents).

2.1.2.1 After the Sport Entry Deadline

All eligible athletes for the Games must have been entered by their NOCs by the Sport Entry Deadline, in accordance with the Qualification System.

After the Sport Entry Deadline, OC Technology will produce and update the outputs:

- Entries (C31A)

- Entries by Event (C31C)
- Facts and Figures - Birthdays during the Games (N86F)

and make them available in INFO.

These outputs will be updated after each Delegation Registration Meeting (DRM) in case of replacement or data correction.

2.1.2.2 Participant data verification

Emphasis should be placed on data accuracy and correct spelling and/or transcription of athlete and team names.

Information users, in particular the media, are used to seeing names spelt in a certain manner at other ITTF events, and the Games should be no different. At Games time, the space available to display a name (e.g. in an output or on a scoreboard screen) may vary considerably. It is therefore extremely important that all different name lengths (the maximum number of character spaces available) are verified before any entry lists are produced.

As soon as OVR becomes the owner of the participant data, the outputs:

- Entry Data Checklist (C38)
- Entry Data Checklist - Competition Officials (C39)

will be produced with all name lengths to be used during the Games and given to the ITTF Events and Olympic Games Expert for checking and subsequent ITTF approval.

The ITTF will decide if this approval process is done internally or if all participants should be contacted personally to verify their different name spellings. The approved/corrected outputs should be returned to OC Technology no later than two (2) hours before the pre-draw meeting.

It is essential that only a single copy of the checklists circulates at any time in order to avoid errors.

In Table Tennis, the team name corresponds with the NOC name. In order to ensure that the current NOC names in the OVR system are according to the requirements set by the IOC NOC naming policy, OVR should also produce the output:

- Entry Data Checklist - Teams (C38C)

for verification by the OC Venue Results Manager or any other party involved in the verification process.

2.1.2.3 Competition officials

No later than one (1) month before the Opening Ceremony, the OC Competition Management will provide the Venue Results Manager with the names and functions of all persons who may be included in the output "Competition Officials" (C35).

Four (4) days before INFO goes live, the Venue Results Manager should produce the output:

- Competition Officials (C35)

for verification and approval by the OC Competition Management. Once approved, this output will be available in PDF format on the day INFO goes live. Once the ITTF and OC Competition Management arrive at the venue, the output should be distributed according to the ORIS distribution rules.

2.1.2.4 Replacement of an athlete

2.1.2.4.1 Late athlete replacement

Only those athletes who are eligible can be used as replacements and should be included in the initial data transfer to OVR.

Once the Late Athlete Replacement (LAR) procedure has been completed and Sport Entries has confirmed the change to the Venue Results Manager, the replacement athlete should be activated and the relevant output "Entry Data Checklist" (C38) should be produced for validation as defined in the participant data verification process. At the same time, the replaced athlete should be removed from the entries and the entry output(s) updated accordingly.

This procedure must be completed before the Draw.

If any output including the replaced athlete name has been released it should be reissued, marked as "REVISED", with a free text note explaining the replacement.

2.1.2.4.2 "P" alternate athletes

In addition to the late athlete replacement, the qualification system as agreed between the ITTF and the IOC allows "P" alternate athletes for the Team events. These athletes will be granted "P" accreditation allowing them to train and access the competition venue under certain conditions.

When a "P" alternate athlete changes function, the replaced athlete should be indicated accordingly and the entry output(s) reissued, marked as "REVISED", with a free text note explaining the replacement.

"P" alternate athletes should be included in the initial data transfer to OVR and be part of the standard participant data verification process using the output "Entry Data Checklist" (C38).

"P" alternate athletes are not included in any quota and should not be counted in any statistics concerning the number of accredited, registered and participating athletes.

Replacement can occur before or during a match.

2.1.2.5 ITTF unique athlete identification

The ITTF maintains an athlete ID (number of max 6 character length) database.

2.2 Pre-Competition Activities

After the ITTF officials arrive in the host city, they will work with the OC Competition Management on the final preparations for the Games. During the period before the Draw, a lot of time will be spent on final checking of the participant data and the preparation, checking and correction of other information if necessary.

2.2.1 Presenters at Victory Ceremonies

No later than ten (10) days before the first day of competition the IOC and the ITTF will provide OC Technology and ONS with the list of potential presenters and persons accompanying them, that will include all data necessary for presenting this information for the Victory Ceremonies.

2.2.2 Pre-draw activities - all events

The ITTF will hold two separate pre-competition draw meetings. One meeting will be for both singles events, with this draw based on a selected world ranking prior to the Games. The second meeting will be for both team events, with the draw based on the Olympic team ranking for both genders.

It is important that the process for transferring the ranking data from its official source to the Organising Committee is agreed by the end of September 2014 and that any technology solution planned for such transfer is properly tested, if possible before and during the Test Event. Such transfer mechanisms will also be tested during the Table Tennis Homologation Test.

2.2.2.1 Final ITTF ratification of entries

Prior to either of these draws the ITTF will convene a pre-draw meeting in order to finalise preparations for the draws. One (1) hour before this meeting the version of the output:

- Entry Data Checklist (C38)

which has been checked and approved as described above, will be made available for use in the meeting for the final verification of data. At the conclusion of the pre-draw meeting, the entry data is released.

Two (2) hours after entry data are confirmed OC Technology will produce the outputs:

- Number of Entries by NOC (C30)
- Entry List by NOC (C32A)
- Entry List by Event (Singles) (C32C1)
- Entry List by Event (Team) (C32C2)

for distribution according to the ORIS distribution rules.

2.2.2.2 Preparation of the individual world ranking for both genders

The world rankings of the individual players are published by the ITTF. The calculation of points is based on results achieved in ITTF competitions. The ITTF publishes the world ranking monthly (more than 1000 men and 700 women).

The world ranking, which will be used in the Olympic Games, should include the top 50 names (men's and women's singles) plus all other players participating in the Games.

The world ranking lists are used to establish the seeding and player rank of the Men's and Women's Singles events at the Olympic Games.

The ITTF should provide the OC Competition Management and OC Technology with the world ranking to be used for seeding and player rank in the singles events no later than one (1) week prior to the opening of the Venue Press Centre. In separate lists (for Men's and Women's Singles), the data will include rank, player's name, NOC code and points.

No later than the day on which the ITTF and OC Competition Management operations start, OC Technology will, using this data, produce the output:

- World Ranking (Singles) (C26A)

with visible "as of date" identification. This output will be checked by the OC Competition Management and verified by the Technical Delegate or Operations Manager before public release.

Within two (2) hours after entry data are confirmed, the output:

- World Ranking (Singles) (C26A)

will be available in INFO and distributed according to the ORIS distribution rules. If the Technical Delegate or Operations Manager requests changes, the process will be repeated within the next working day. Once approved, the updated output will be distributed according to the ORIS distribution rules.

2.2.2.3 Preparation of the Olympic team ranking for both genders

The ITTF computerised team ranking method will be used to determine the order of ranking of teams, taking into consideration only the NOCs concerned and the qualified players from those NOCs.

Once the continental quota and the host nation direct entry are determined, the remaining teams will qualify for the team events according to the May 2016 Team Specific Ranking list of all NOCs with two players qualified for the singles event.

A special team ranking list will be produced during July 2016 (based on the individual ranking list 7/16), taking into consideration only those players participating from each team, to establish the seeds for the team events.

No later than one (1) week prior to the team draws the ITTF will give information about the Olympic team ranking for the Men's and Women's Team events to OC Competition Management and OC Technology in preparation for the draw.

No later than the day on which the ITTF and OC Competition Management operations start, OC Technology will, using this data, produce the output:

- Olympic Team Ranking (C26B)

with visible "as of date" identification. This output will be checked by the OC Competition Management and verified by the Technical Delegate or Operations Manager before public release.

Within two (2) hours after entry data are confirmed, the output:

- Olympic Team Ranking (C26B)

will be available in INFO and distributed according to the ORIS distribution rules. If the Technical Delegate or Operations Manager requests changes, the process will be repeated within the next working day. Once approved, the updated output will be distributed according to the ORIS distribution rules.

2.2.3 Draw

The ITTF will hold two separate draw meetings, one for both singles events and one for both team events. The location of the draw will be determined by the ITTF and the OC Competition Management in consultation with OC Press Operations. The draws are public, and are held no later than two (2) days before the singles and team competitions respectively.

As large numbers of outputs will be required it is extremely important that OC Technology fully prepare for this process together with the OC Competition Management and provide adequate resources and trained personnel to meet the distribution time (printing, copying, collation and stapling equipment, distribution personnel).

It is the responsibility of the OC to ensure that the Sports and Technology departments communicate with each other and define their respective responsibilities for organising the Draw. The Draw procedure should be tested at the Test Event.

During the draw, the audience should be able to follow the draw as it proceeds, and it should be presented on large screens, or by other means such as projectors.

2.2.3.1 The draw for singles events

At least twenty-four (24) hours before the draw session for singles events, OC Technology will produce the output:

- Pre-draw List (Singles) (C45A)

which will be available in INFO and distributed according to the ORIS distribution rules, and the output:

- Draw Card (C46) (for the singles events)

which will be printed for use as a backup at the draw.

Two (2) hours before the draw, the outputs:

- Pre-draw List (Singles) (C45A)
- World Ranking (Singles) (C26A)
- Entry List by Event (Singles) (C32C1)

will be provided in sufficient quantities for OC Competition Management to collate and staple packages to be handed out.

No later than thirty (30) minutes before the draw, at the entrance to the draw site, those attending the draw should receive a stapled set of outputs.

The draws for the Men's and Women's Singles events are carried out as follows:

The singles events follow a direct elimination format. In both the Men's and Women's Singles events there will be a maximum of 70 players, with not more than two players from any one NOC. If there are ties for placement in the groups (ties for 16th, 32nd, 48th or 64th place) they will be decided by a pre-draw.

The top 16 seeded players are drawn directly into round 3 of play into the top place of each match. The player seeded 1 is placed into the 1st match, and the player seeded 2 is placed into the 16th match. The players seeded 3 and 4 are drawn into matches 8 and 9; the players seeded 5, 6, 7 and 8 are drawn into matches 4, 5, 11 and 12; the remaining eight (8) players are drawn into the remaining matches.

The next 16 players (seeded 17 to 32) are drawn directly into round 2 of play into the top place of each match.

The next 16 players (seeded 33 to 48) are drawn directly into round 1 of play into the top place of each match.

The remainder of the draw depends on the number of players in the event:

- If there are 64 or less players, the remaining players (players seeded 49 up) will be drawn into round 1 into the bottom place of the matches.
- If there are more than 64 players in the event, the remainder of the draw is carried out as follows:
 - The players seeded 49 to 64 are drawn into the preliminary round into the top place of each match. The remaining n players are then drawn into the preliminary round (making n matches) into the bottom place of each match. Any players, who do not have opponents, and the n winners of the n preliminary round matches, will advance to round 1.

In all draws players from the same NOC must be drawn into different halves of the draw.

During the draw the referee will ensure the draw actions are presented in such a way that allows OC Technology (OVR) to capture the actions as they occur.

Immediately after each singles draw, OC Technology will produce the outputs:

- Draw (Singles - Preliminary Round) (C75A) (with no results)
- Draw (Singles - Initial Rounds) (C75B) (with no results)

and make them available to the ITTF Technical Delegate and referee for checking and approval. As part of this approval process, if scheduling constraints require early sessions that comprise both preliminary round and round 1 matches for an event, the referee must ensure that the round 1 matches do not involve any players competing in the preliminary round (i.e. contain only players who have advanced to round 1 or winner of preliminary round match).

Two (2) minutes after approval of each draw, the above outputs will be available in INFO, and five (5) minutes after approval of each draw they will be printed in sufficient quantities to be distributed to the draw site.

Fifteen (15) minutes following the approval of each draw, the outputs:

- Draw (Singles - Preliminary Round) (C75A) (with no results)
- Draw (Singles - Initial Rounds) (C75B) (with no results)

will be distributed (to points other than the draw location) according to the ORIS distribution rules.

It is important that those persons attending the draw session receive these outputs before they leave the draw. Many of the previous Games organisers underestimated the complexity of this task, and failed to satisfy this requirement. The OC Competition Management and OC Technology should precisely plan all the steps in the production of draw outputs and plan appropriate copying equipment, support personnel, etc.

The draw will be conducted by the referee and will be supervised by an ITTF Technical Delegate.

The draw itself can be organised either traditionally (manually), or electronically using the OC computer system or as a combination of both. A computerised draw is advantageous because the data does not need to be re-entered into the OC computer system. This reduces the risks of data entry mistakes and allows quick production and distribution of outputs.

The ORIS Table Tennis Working Group recommends a combination of manual and computerised draw in order to provide for back-up alternatives. The final decision has to be made by the end of December 2014 to allow OC Technology adequate time to prepare appropriate software support and the ITTF to test any proposed solution during the Homologation Test and Test Event.

2.2.3.2 The draw for team events

At least twenty-four (24) hours before the draw session for team events, OC Technology will produce the output:

- Pre-draw List (Team) (C45B)

which will be available in INFO and distributed according to the ORIS distribution rules, and the output:

- Draw Card (C46) (for the team events)

will be printed for use at the draw.

Two (2) hours before the draw, the outputs:

- Pre-draw List (Team) (C45B)
- Olympic Team Ranking (C26B)
- Entry List by Event (Team) (C32C2)

will be provided in sufficient quantities for OC Competition Management to collate and staple packages to be handed out.

No later than thirty (30) minutes before the draw, at the entrance to the draw site, those attending the draw should receive a stapled set of outputs.

The draws for teams are conducted following the ITTF rules to place the 16 teams into round 1. During the draw the referee will ensure the draw actions are presented in such a way that allows OC Technology (OVR) to capture the actions as they occur.

Immediately after each team draw, OC Technology will produce the output:

- Draw (Team) (C75E) (with no results)

and make it available to the ITTF Technical Delegate and referee for checking and approval.

Two (2) minutes after approval of each draw, the above output will be available in INFO, and five (5) minutes after approval of each draw it will be printed in sufficient quantities to be distributed to the draw site.

Fifteen (15) minutes following the approval of each draw, the output:

- Draw (Team) (C75E)

will be distributed (to points other than the draw location) according to the ORIS distribution rules.

It is important that those persons who attend the draw session receive these outputs before they leave the draw. Many of the previous Games organisers have underestimated the complexity of this task, and failed to satisfy this requirement. The OC Competition Management and OC Technology should precisely plan all the steps in the production of draw outputs and plan appropriate copying equipment, support personnel, etc.

The draw will be conducted by the referee and will be supervised by an ITTF Technical Delegate. The draw itself will be organised traditionally (manually).

2.3 Results Processing

This section describes the procedures for production of outputs relating to the progression of competition, both for results and statistics.

The OC Technology results system must be capable of real time capture of all data required for match results and statistics defined in this document. This data includes score changes, serves, number of strokes and the terminating action of each rally. This information may be entered manually or may be partially captured directly from an electronic feed from the scoring and timing system.

2.3.1 Results processing for singles events

The Table Tennis competition is divided into multiple sessions each day. Within each session there may be multiple "time slots", that is concurrent matches with the same scheduled start time.

This section will describe the activities and procedures that apply to each round in the progression through a singles event:

- Preliminary round
- Initial rounds (round 1, round 2, round 3) and
- Final rounds (round 4, quarterfinals, semifinals, finals: bronze medal match and gold medal match)

2.3.1.1 Each competition day

The evening before a day of competition the TD will provide OC Technology with the schedule of the matches for all sessions of the next day (times of the matches for the preliminary round and initial rounds, and date and time of the matches for the final rounds). Based on this input, after entering the data, OC Technology will update the outputs:

- Draw (Singles - Preliminary Round) (C75A) and/or
- Draw (Singles - Initial Rounds) (C75B) and/or
- Draw (Singles - Final Rounds) (C75C)

for approval.

At the same time the referee will provide OC Technology with the data for tables and umpires for the first session of the next day. Based on this input, after entering the data, OC Technology will provide the referee with the output:

- Daily Competition Schedule (C58)

for approval.

After the referee's approval, the outputs will be distributed according to the ORIS distribution rules and available in INFO.

Also, on the evening before a day of competition, OC Technology will print for each match in the first session of the next day the output:

- Match Score Sheet (C65A)

which will only be distributed to, and used by the ITTF.

After the first session of the day, the referee will provide OC Technology with the data for tables and umpires for any remaining session(s) of the day. Based on this input, after entering the data, OC Technology will provide the referee with the output:

- Daily Competition Schedule (C58)

for approval.

After the referee's approval, the output will be distributed according to the ORIS distribution rules and available in INFO.

Also, after the first session of the day, OC Technology will print for each match in the remaining sessions of the day the output:

- Match Score Sheet (C65A)

which will only be distributed to, and used by the ITTF.

Five (5) minutes after the last session of the day, OC Technology will print the output:

- Results Summary (C74)

for distribution according to the ORIS distribution rules. If there are singles and team competitions on the same day, one output will be produced for singles and another for teams.

2.3.1.2 During each competition day - for each match

At completion of the match, OC Technology will print the output:

- Match Results (C73A)

for the referee assigned for verification against the manual score sheet (delivered by the umpire for each match). The referee will verify and approve the results of the games and the match. The verification and approval process must be finished as soon as possible.

Two (2) minutes after the results of the match are approved, the outputs:

- Match Results (C73A)
- Draw (Singles - Preliminary Round) (C75A) (during the preliminary round), or
- Draw (Singles - Initial Rounds) (C75B) (during the preliminary and initial rounds), or
- Draw (Singles - Final Rounds) (C75C) (during round 3 and final rounds)
- Results Summary (C74)
- Player Statistics (C83) - for singles
- Tournament Statistics (Singles) (C84A) (for the gender)
- Tournament Statistics (Singles) (C84A) (singles totals)

will be available in INFO.

Five (5) minutes after the results of the match are approved the output:

- Match Results (C73A)

will be printed for distribution according to the ORIS distribution rules.

2.3.1.3 Additionally at the end of round 3 for each singles event

Fifteen (15) minutes after the results of all round 3 matches are approved, the outputs:

- Player Statistics (C83) - (for singles)
- Tournament Statistics (Singles) (C84A) (for the gender)

will be printed and distributed according to the ORIS distribution rules.

2.3.1.4 Additionally at the end of round 3 for both singles events

Fifteen (15) minutes after the results of all round 3 matches are approved, the outputs:

- Tournament Statistics (Singles) (C84A) (singles totals)

will be printed and distributed according to the ORIS distribution rules.

2.3.1.5 Additionally for a gold medal match

2.3.1.5.1 Before the gold medal match

No later than sixty (60) minutes before the gold medal match the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

if the Victory Ceremony is organised at the venue immediately after the gold medal match, should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.1.5.2 After the gold medal match

Five (5) minutes after the results of the final are approved, the outputs:

- Medallists (Individual) (C92A)
- Medallists by Event (C93)
- Medal Standings (C95)

will be available in INFO, and in addition the output:

- Medallists (Individual) (C92A)

will be distributed according to the ORIS distribution rules.

Fifteen (15) minutes after the results of the final are approved the outputs:

- Player Statistics (C83) - (for singles)
- Tournament Statistics (Singles) (C84A) (for the gender)

will be printed for distribution according to the ORIS distribution rules.

2.3.1.5.3 Additionally after the gold medal match for both singles events

Fifteen (15) minutes after the results of the gold medal match are approved the output:

- Tournament Statistics (Singles) (C84A) (singles totals)

will be printed for distribution according to the ORIS distribution rules.

2.3.2 Results processing for team events

The team Table Tennis competition is divided into multiple sessions each day. Within each session there may be concurrent team matches with the same scheduled start time.

This section will describe the activities and procedures that apply to each round in the progression through a team event:

- Round 1, quarterfinals, semifinals, finals: bronze medal match and gold medal match

2.3.2.1 Each competition day

The evening before a day of competition the TD will provide OC Technology with the schedule of the matches for all sessions of the next day (times of the matches for the preliminary round and initial rounds, and date and time of the matches for the final rounds). Based on this input, after entering the data, OC Technology will update the outputs:

- Draw (Team) (C75E)

for approval.

At the same time the referee will provide OC Technology with the data for tables and umpires for the first session of the next day. Based on this input, after entering the data, OC Technology will provide the referee with the output:

- Daily Competition Schedule (C58)

for approval.

After the referee's approval, the output will be distributed according to the ORIS distribution rules and available in INFO.

After the first session of the day, the referee will provide OC Technology with the data for tables and umpires for the remaining sessions of the day. Based on this input, after entering the data, OC Technology will provide the referee with the output:

- Daily Competition Schedule (C58)

for approval.

After the referee's approval, the output will be distributed according to the ORIS distribution rules and available in INFO.

Five (5) minutes after the last session of the day, the output:

- Results Summary (C74)

will be printed and distributed according to the ORIS distribution rules. If there are singles and team competitions on the same day, one output will be produced for singles and another for teams.

2.3.2.2 During each competition day - before each session

Sixty (60) minutes before the start of the team match OC Technology will print the output:

- Team Match Team Order List (C65C1)

and give it to the umpire for the team order draw.

The umpire will draw the order of teams and mark (circle) ABC or XYZ for each team forty-five (45) minutes before the start of the team match. The umpire will give the team order list to each team captain. Immediately following the draw, the team captains will assign A/B/C or X/Y/Z to the team members, write the team captains name, sign the team order list and give it back to the umpire. The umpire will immediately give the signed team order lists to OC Technology (team order "1" or "2" and team sequence "ABC" or "XYZ" respectively). OC Technology will update the team orders and sequences.

Thirty (30) minutes before the start of the team match, OC Technology will produce the outputs:

- Team Match Score Sheet (C65B) and
- Team Match Team Order List - Doubles Pairing (C65C2)

and give them to the umpire.

Twenty-five (25) minutes before the start of the team match, the output:

- Team Match Start List (C51D)

will be available in INFO, and twenty (20) minutes before the start of the team match, the output:

- Team Match Start List (C51D)

will be distributed according to the ORIS distribution rules.

2.3.2.3 During each competition day - during each session (all active tables)

A five (5) minute break will take place after the first two matches of the team match. The umpire will give the output:

- Team Match Team Order List - Doubles Pairing (C65C2)

to the team captains. The team captains will immediately mark the remaining player (A/B, or X/Y) for the doubles match, sign it and return it to the umpire. The umpire will manually update his/her "Team Match Score Sheet (C65B)" with the names/IDs (A/B or X/Y) for the remaining matches and immediately give the "Team Match Team Order List - Doubles Pairing (C65C2)" to OC Technology. OC Technology will update the names of the players in the remaining matches of the team match and the output:

- Team Match Start List (C51D)

will be available in INFO before the start of the doubles match of each team match.

If the team match is not decided after three matches, a break of up to five (5) minutes will take place before the fourth match.

At completion of a team match the output:

- Detailed Team Match Results (C73C)

will be printed for the referee or his/her designee for verification and approval. The referee will verify and approve the results of the games, the matches and the team match. The verification and approval process must be finished as soon as possible.

Two (2) minutes after the results of the team match are approved the outputs:

- Detailed Team Match Results (C73C)
- Draw (Team) (C75E)
- Results Summary (C74)
- Player Statistics (C83) - (for team)
- Tournament Statistics (Team) (C84B) (for the gender)
- Tournament Statistics (Team) (C84B) (team totals)

will be available in INFO.

Ten (10) minutes after the results of the team match are approved the output:

- Detailed Team Match Results (C73C)

will be printed for distribution according to the ORIS distribution rules.

2.3.2.4 Additionally for a gold medal team match

2.3.2.4.1 Before the gold medal team match

No later than sixty (60) minutes before the gold medal match the OC Protocol should provide ONS and OC Technology with the names of potential presenter(s) and accompanying person(s).

As soon as the presenters are known by OC Protocol, the output:

- Medal Presenters (N91B)

if the Victory Ceremony is organised at the venue immediately after the gold medal match, should be produced and distributed according to the ORIS distribution rules.

Late changes frequently occur shortly before the Victory Ceremonies. Any such changes should be communicated immediately by the OC Venue Protocol Manager to OC Technology, Sport Production and ONS.

2.3.2.4.2 After the gold medal team match

Five (5) minutes after the results of the final are approved, the outputs:

- Medallists (Teams) (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)

will be available in INFO, and in addition the output:

- Medallists (Teams) (C92B)

will be distributed according to the ORIS distribution rules.

Fifteen (15) minutes after the results of the gold medal team match are approved the outputs:

- Player Statistics (C83) - (for team)
- Player Statistics (C83) - (cumulative for singles and team)
- Tournament Statistics (Team) (C84B) (for the gender)

will be distributed according to the ORIS distribution rules.

2.3.2.4.3 Additionally after the gold medal team match for both team events

Fifteen (15) minutes after the results of the gold medal team match are approved the output:

- Tournament Statistics (Team) (C84B) (team totals)

will be printed for distribution according to the ORIS distribution rules.

2.4 Common Sport Functions

2.4.1 Official Communications

The ITTF Technical Delegate or the designated person may issue the output:

- Official Communication (C67)

to inform all clients about key decisions (e.g. schedule and results changes) or to communicate significant information that media and broadcasters should know.

If any such decision is made, the ITTF Technical Delegate or the designated person will, within the following five (5) minutes, complete the text of the decisions made on the appropriate form. The following information should be included:

- Who made the decision
- The event and/or player/team affected
- The date and time of the decision
- The text of the decision
- The affected area (results, schedule or other)

OC Technology will receive the form, enter it into the OC computer system and print a copy of the output "Official Communication" (C67) within two (2) minutes.

As soon as the ITTF Technical Delegate or the designated person has authorised the copy, it will be distributed immediately according to the ORIS distribution rules. All affected outputs should be updated and republished as "REVISED" as soon as possible. If the Results Book has already been produced, an updated version should be published.

An appropriate form is included in Appendix D of this document.

Note: If an "Official Communication" (C67) affects a Games stakeholder or partner, they should be consulted before releasing the output for distribution.

2.4.2 Sport Communications

The output:

- Sport Communication (C68)

should be used to inform a sport specific audience about information or decisions from the ITTF, the IOC and/or the OC Competition Management (e.g. reminders, sport information, etc.).

The principles for the production of this output are similar to those described for the output "Official Communication" (C67). Paper distribution is limited to the venue, the Sport Information Desk at the athletes' village and in INFO.

2.5 Exceptional Situations Handling

For any of the following exceptional situations, the ITTF Technical Delegate or the designated person may request production of the output:

- Official Communication (C67)

and will provide the appropriate text to be used.

2.5.1 Schedule Changes

Please be aware that Table Tennis uses a different terminology for schedule status options. However, the OC terminology will be applied for schedule status options.

The following schedule status options are applicable to an event or event unit (session or match):

2.5.1.1 Delayed

A delay may occur if a session or match does not start as scheduled, but should start within the current ticketing session.

The new start time is unknown. If the delay exceeds the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

2.5.1.2 Postponed

A session or match did not start as scheduled and has been postponed to a later ticketing session. The new date and start time is unknown. The status will subsequently be changed to rescheduled or cancelled.

If an interrupted session or match cannot be resumed within the current ticketing session and the new date and start time is unknown, the status will be changed to postponed. The status will subsequently be changed to rescheduled or cancelled.

2.5.1.3 Interrupted

A match may be subject to an unplanned interruption (or suspension as commonly known in Table Tennis) after it has started.

The time of resumption is unknown. If the match cannot be completed within the current ticketing session, the status will be changed to postponed, rescheduled or cancelled.

In any case when a match is interrupted OC Technology should be able to handle any of the possible ITTF decisions, such as:

- Resumption of the match at exactly the game and point at which it was suspended
- Replay the entire match from the beginning

In the latter case, results and statistics must be appropriately adjusted.

If the match is not completed on the day on which it started, the partial result of the match will not be included in any of the final results outputs. At the same time the interrupted match must be included in the schedules for the session in which it will be continued.

2.5.1.4 Rescheduled

A session or match may be rescheduled if it cannot be held at the originally scheduled start date/time. The new date and start time are known. If it is impossible to reschedule a session or phase of competition within a certain time frame, the status may be changed to cancelled. Affected outputs will be reissued as "REVISED".

2.5.1.5 Cancelled

A match which cannot be rescheduled prior to the Closing Ceremony of the Olympic Games is cancelled.

In such a case the IOC and the ITTF will decide what effect the situation would have on the competition and what actions should be taken.

If one or more event(s) is cancelled, all affected outputs (e.g. medal outputs, results summary, etc.) must be adjusted and a free text note listing the cancelled event(s) should be added.

2.5.2 Competition Related

2.5.2.1 A player or a team not appearing for a match/team match (walkover - "W/O")

If a player or a team is not able to play at the scheduled time, the opponent is awarded the win by walkover. The result of the match or team match will not be recorded or presented. No statistics are recorded. The outputs must indicate the winner and the manner ("W/O") in which the match was won.

2.5.2.2 Player failing to finish a match (retired - "RET")

If a player is not able to play a match to its conclusion (due to injury, etc.), the match is awarded to the opponent with the appropriate indication in the results. The results and statistics for any game (completed or not) are retained. If a game was in progress at the time of retirement, then this game and any game not played necessary to give the opponent four games (in singles events) or three games (in team events) are awarded to the opponent.

2.5.2.3 Team matches in which one team has only two players

A team of two players is allowed to participate in the team matches if the third player of the team is injured, ill, disqualified or not able to continue for other reason at the discretion of the referee.

Before the start of the match, the team winning the toss shall choose either to be the ABC team or the XYZ team, and the two team captains should decide the order of players. The team with the absent player will lose the match(es) that would have been played by this player automatically by walkover following the established order of matches. The final result of the team match will be the playing matches scored plus walkover matches scored.

Team matches in which both teams have only two players:

The competition format will be as follows:

Order	Type	ABC team	XYZ team
1	Singles	A	X
	Five (5) minute break		
2	Doubles	AB	XY
	Five (5) minute break		
3	Singles	B	Y

If both teams have only two players participating in the team match, the final score will not reach a third match point for any of them. The team match shall end when one team has won a majority of the possible matches and this team will be declared the winner of this team match (2:0 or 2:1).

2.5.2.4 Hardware/software malfunction

In a case of hardware or software malfunction the competition must continue using the manual procedures.

2.5.3 Disqualifications

The referee has the power to disqualify a player from a match, a team match, an event or a competition for seriously unfair or offensive behaviour, whether reported by the umpire or not. As the referee does so he/she shall hold up a red card.

If a player is disqualified from two matches of the team event, that player shall automatically be disqualified from that event.

2.5.3.1 Player disqualification from a match

A player can be disqualified from a match (DSQ). If a player is disqualified, his/her match(es) will be forfeited. Results and statistics of the contested match will be erased. In singles events, the opponent will qualify for the next round. In team events, the played match may be retained or forfeited (ITTF decision), and the unplayed match will be forfeited with "DSQ".

2.5.3.2 Player disqualification from any event(s)

A player can be disqualified (DSQ) from any event(s) due to a positive drug test or due to the breach of other ITTF rules. If a disqualified player is a member of a team, the team will be disqualified. The same rules will apply for a disqualified team.

If a player is disqualified from any event(s) the results of the played matches will remain except the last match played.

The statistics of the previous matches will be maintained but not shown. A disqualified player will be listed at the bottom on the output "Player Statistics" (C83) with no statistics and with a "DSQ" indication.

The results outputs (C73x) for matches already played by the disqualified player/team will be handled as follows:

- C73A and C73C will be reissued with top level results updated but no results or statistics details. They will be included in the Results Book.

The results in the "Draw" outputs (C75x) will be marked "DSQ" and any medals won will be re-awarded.

A disqualification in one event does not necessarily mean disqualification from other events.

If the player is disqualified after the completion of the event, the final rankings will be adjusted and any medals re-awarded.

OC Technology will make any required updates, with a note explaining the disqualification, and produce the outputs:

- Medallists (Individual) (C92A) and/or
- Medallists (Teams) (C92B)
- Medallists by Event (C93)
- Medal Standings (C95)
- Players Statistics (C83)
- Tournament Statistics (Singles) (C84A)
- Tournament Statistics (Team) (C84B)

for checking and approval. After approval these outputs will be distributed as "REVISED" according to the ORIS distribution rules.

If for any of the above reasons the results of a match are annulled, the system must be able to reinstate them if the annulment is subsequently over-ruled.

2.5.3.3 Disqualification after an event and up to three days after the Closing Ceremony

This three (3) day period corresponds to the time for which the Court of Arbitration for Sport remains in the host city after the Games, and is available to pronounce on a disqualification in case of appeal.

Up to this deadline, OC Technology will update all results as required. All updated outputs should be approved by the Technical Delegate before distribution.

2.5.3.4 Disqualification more than three days after the Closing Ceremony

Starting from the 4th day after the Games Closing Ceremony, the ITTF will become responsible for updating the results if necessary. Disqualifications may come from either the IOC or the ITTF. The ITTF is responsible for providing the updated results to the IOC.

2.5.4 Communication in case of disqualification by the IOC Disciplinary Commission

If a player or a team is disqualified by the IOC Disciplinary Commission after the results of an event have been made official and distributed and up to three (3) days (inclusive) after the Games Closing Ceremony, the IOC Disciplinary Commission will communicate its decision through the IOC official communication channels (press release and publication on www.olympic.org).

The player/team, the player's/team's NOC, the ITTF, OC Competition Management and OC Technology will be informed following the established IOC procedure.

The Technical Delegate, or the designated person, should, together with OC Technology, produce an "Official Communication" (C67) explaining that results have been updated according to the IOC Disciplinary Commission decision.

The sample text to be used in this Official Communication (C67) is detailed in Appendix D (Subtitle: E, Summary: 8, Issued by: I, Further information: iv) of this document.

As soon as the decision for disqualification is made public by the IOC, the following procedures should be followed:

- ONS should copy the IOC press release and paste it without any modifications into the output "IOC News" (N90C) and publish it in INFO
- As soon as the Technical Delegate, or the designated person, has authorised its release, the output "Official Communication" (C67) will be distributed according to the ORIS distribution rules
- OC Technology will update and republish all affected outputs with a "REVISED" stamp and a free text note explaining the disqualification

Since such a decision can occur at any time, and publication of accurate information is extremely time critical, it is vital that the Technical Delegate or the designated person, is available and able to communicate with the OC Competition Management, OC Technology and the IOC Head of ORIS at all times. This includes the period before the Games start, the period after the Table Tennis competition ends, and the period after the Games end (up to three (3) days after the Closing Ceremony). Travel by the Technical Delegate during those periods before or after the Games may require that a designated person be available to cover this responsibility.

Note: Authors of this ORIS document do not imply that this is a complete list of exceptional situations that could occur before, during or after the competition. The OC and their technology suppliers are responsible for researching any missing information in the relevant ITTF and/or IOC documents and for gaining and analysing experience from other competitions.

2.6 Reissuing Outputs

There are two conditions for reissuing an output:

- A new version of a previously distributed output is produced as a regular case: no stamp is required. This applies to the following outputs:
 - Daily Competition Schedule (C58)
 - Results Summary (C74)
 - Draw (Singles - Preliminary Round) (C75A) (with no results)/(during the preliminary round)
 - Draw (Singles - Initial Rounds) (C75B) (with no results)/(during the preliminary and initial rounds)
 - Draw (Singles - Final Rounds) (C75C) (during round 3 and final rounds)
 - Draw (Team) (C75E) (with no results)
 - Player Statistics (C83)
 - Tournament Statistics (Singles) (C84A)
 - Tournament Statistics (Team) (C84B)
 - Medallists by Event (C93)
 - Medal Standings (C95)
- A new version of a previously distributed output is produced due to a change of data: a "REVISED" stamp is required, including the date and time of output creation. The reason for the revision must be explained as a note (free text) at the bottom of the last page of the output.

For outputs which need to be reissued with a "REVISED" stamp and have an "at time" in the heading, the following rules will apply:

- If an error needs to be corrected (e.g. data entry error), the same "at time" should be kept as used in the originally released version of this output
- If an update needs to be made based on new information received (e.g. data change), the "at time" should be adjusted to the time at which this new information was provided

Note: The outputs "Official Communication" (C67) or "Sport Communication" (C68) will not be issued with a "REVISED" stamp. If a C67 or C68 needs to be corrected, a new output (with a new item number) should be produced.

2.7 Results Book

The Results Book should contain the documents below, in the following order:

- Table Tennis cover page
- Version History (only if more than one version of the Results Book is produced)
- Competition Format and Rules (N02)
- Medallists by Event (C93)
- Medal Standings (C95)
- Competition Officials (C35)
- Entry List by NOC (C32A)

For each of the ITTF events (in traditional ITTF order):

- Singles
 - For each singles event (men's singles, then women's singles)
 - Entry List by Event (Singles) (C32C1)
 - Draw (Singles - Preliminary Round) (C75A)
 - Draw (Singles - Initial Rounds) (C75B)
 - Draw (Singles - Final Rounds) (C75C)
 - Match Results (C73A) (for each match** - ordered by match number)
 - Player Statistics (C83) (for gender)
 - Tournament Statistics (Singles) (C84A)
 - Official Communication (C67) - selected outputs, related to ITTF and/or IOC decisions which had an impact on results
 - Tournament statistics (Singles) (C84A) (Singles totals)
- Teams
 - For each team event (men's team, then women's team)
 - Entry List by Event (Team) (C32C2)
 - Draw (Team) (C75E)
 - Detailed Team Match Results (C73C) (for each team match** - ordered by team match number)
 - Player Statistics (C83) (for teams)
 - Tournament Statistics (Team) (C84B) (for the gender)
 - Official Communication (C67) - selected outputs, related to ITTF and/or IOC decisions which had an impact on results
 - Tournament statistics (Team) (C84B) (Team totals)
- Cumulative for Team and Singles
 - Player Statistics (Singles) (C83) (Men's cumulative singles and teams)
 - Player Statistics (Singles) (C83) (Women's cumulative singles and teams)

** The output C73A or C73C for any matches/team matches won by a player/team who was later disqualified will not be included in the Results Book.

All outputs to be included in the Results Book will be the last version produced. If any included output has been reissued as revised it will show the "REVISED" stamp.

Navigation within the Results Book should be facilitated by the use of bookmarks.

Results Books must be clearly identified with version number and date and time of production. If more than one version of the Results Book is produced, the changes should be described in the Version History.

The OC will produce the Results Book electronically, in PDF format, and make it available for download no later than one (1) day after the Table Tennis competition has finished.

This Results Book will be made available to at least the following parties:

- The IOC
- The ITTF
- All NOCs
- Accredited media

2.8 Daily Bulletin Protocol

The OC Competition Management is responsible for producing and distributing the Daily Bulletin. The ITTF Events and Olympic Games Expert and the OC Competition Management will define the distribution rules and number of copies to be included.

The ORIS Table Tennis Working Group recommends that Daily Bulletins should be produced as follows:

An initial Daily Bulletin made up of:

- Activity List (C06)
- Practice Schedule (C07)
- Competition Schedule (C08)
- Competition Officials (C35)

A Daily Bulletin after the draw, made up of:

- Practice Schedule (C07)
- Draw (Singles - Preliminary Round) (C75A) (with no results)
- Draw (Singles - Initial Rounds) (C75B) (with no results)
- Draw (Team) (C75E) (with no results)
- Daily Competition Schedule (C58) (for first day of competition)
- Official Communication (C67) (if any)

For each day of competition Daily Bulletins, made up of:

- Practice Schedule (C07) (initial version and when changed)
- Daily Competition Schedule (C58) (for the next day of competition)
- Results Summary (C74)
- The appropriate summary of results for any events contested that day as follows:
 - Draw (Singles - Preliminary Round) (C75A), or
 - Draw (Singles - Initial Rounds) (C75B), or
 - Draw (Singles - Final Rounds) (C75C), or
 - Draw (Team) (C75E)
 - Official Communication (C67) if any
 - Daily Preview (N89)
 - Daily Review (N89)

3 News Service and Background Information

Data for all Biographies and Historical Results will be supplied by the IOC to the OC.

The IOC has contracted this data collection, integration and delivery to a third party provider. However, the IOC retains full responsibility for this process.

The schedule for delivery of these data is defined by contract. Together with the third party provider, the OC will be responsible for the testing of the transfer mechanism prior to the Test Event and during the Homologation Test. Transfer mechanisms are subject to IOC approval.

The OC and the IOC, together or in parallel, will undertake data quality testing at certain key points in the build-up to the Games.

THE ITTF agrees to supply all requested data (for the outputs N62A and N62B), in accordance with a schedule agreed between the parties.

The ITTF cannot guarantee that all mandatory data items requested to produce the relevant outputs will be included in the data provided.

Checking and updating of data from the ITTF and adding missing data shall remain the provider's sole responsibility.

The delivery schedules will be agreed between the ITTF and the third party provider. Schedules may be different depending on the type of data.

There is no requirement for data validation by the ITTF.

The provider will update data after final delivery as required (corrections, information updates, etc.). The IOC will act as a facilitator between the ITTF, the OC and the provider.

Before the Games, and within three (3) months following the Closing Ceremony, the IOC will make this data available to the ITTF and all NOCs, in an agreed format.

3.1 Historical Results

The following historical data outputs will be available in INFO when it goes live:

- Medallists from previous Olympic Games (N10)
- Medals by NOC (N11)
- Multi-Medallists (N15)
- Results in Last Olympic Cycle (N17A)

3.2 Biographies and Profiles

The following biography and profile outputs will be available in INFO when it goes live:

- Athlete Biography (N20)
- Coach Biography (N21)
- Team Profile (N22)
- NOC Profile (N24)

3.3 Facts and Figures

3.3.1 Table Tennis Background Information

Data for the Table Tennis background information will be developed by ONS, in cooperation with the OC Competition Management and the ITTF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Facts and Figures - History (N86A)
- Facts and Figures - ITTF - Federation Facts (N86B)
- Facts and Figures - Qualification Criteria (N86C)

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, the ITTF will immediately inform ONS who will update the information within one (1) working day.

3.3.2 Technical Background Information

Technical background information will be developed by ONS, in cooperation with the OC Competition Management and the ITTF well in advance of the Games. This process must be initiated sufficiently early so that there is adequate time to ensure that data are complete and accurate, and they will then be entered into the OC computer system. This procedure should be completed no later than one (1) month before the Games.

OC Technology will use these data to prepare the outputs:

- Competition Format and Rules (N02)
- Facts and Figures - Facility Description (N86D)
- Facts and Figures - Media Information (N86E)

and will send them to the ITTF for verification.

These outputs will first become available on the day that INFO goes live and will be distributed according to the ORIS distribution rules.

Should any of the data change, ONS in consultation with the ITTF will update the information within one (1) working day.

3.4 News

There are potentially many different types of information produced under the category of "News". News items are generated during the Games by the Olympic News Service (ONS) at each venue and from the Main Press Centre.

To guarantee continuity news items must be assigned a sequential number.

3.4.1 Pre-competition News

3.4.1.1 Previews

Since many journalists at the Games cover sports in which they may have limited experience, Sport Previews and Daily Previews can be extremely helpful for them.

No later than four (4) days before the first day of competition, the ORIS Table Tennis Working Group recommends that ONS at the Table Tennis venue produces the output:

- Sport Preview (N89)

and every evening for the following day, the output:

- Daily Preview (N89)

The daily previews should summarise the next day's activities for a discipline, focusing on the most newsworthy elements.

3.4.1.2 Production of the outputs Head to Head and Road to the <Semifinal/Bronze Medal/Gold Medal>

Since many journalists at the Games cover sports in which they may have limited experience, the outputs Head to Head (N62A) and Road to the <Semifinal/Bronze Medal/Gold Medal> (N63A) can be very helpful for them.

3.4.1.2.1 From the quarterfinals onward (for Single events)

Once the players that have advanced to the quarterfinals are known, head to head statistics outputs showing previous competition history involving matches between the advancing players are produced. This occurs from the quarterfinals onward for both singles events. The ITTF is responsible for providing this data in the ORIS defined format to the ONS team at the venue.

In the evening one (1) day before a round requiring head to head statistics, the output:

- Head to Head (Singles) (N62A)

will be distributed according to the ORIS distribution rules and available in INFO.

However, if the round requiring the head to head statistics is scheduled for later on the same day, then sixty (60) minutes before the competition, the output:

- Head to Head (Singles) (N62A)

will be distributed according to the ORIS distribution rules and available in INFO.

3.4.1.2.2 Before the semifinals, bronze medal and gold medal matches

For the semifinals, bronze medal and gold medal matches in each event information describing how each player in a match-up progressed to this point in the tournament is described in the output "Road to the <Semifinal/Bronze Medal/Gold Medal> Match (N63A)".

Thirty (30) minutes after completion of the last match of the previous round the output:

- Road to the Semifinal Match (N63A) or
- Road to the Bronze Medal Match (N63A) or
- Road to the Gold Medal Match (N63A)

will be distributed according to the ORIS distribution rules and available in INFO for each of the matches.

3.4.1.2.3 From the quarterfinals onward (for Team events)

Once the teams that have advanced to the quarterfinals are known, head to head statistics outputs showing previous competition history involving team matches between the advancing teams are produced. This occurs from the quarterfinals onward for both team events. The ITTF is responsible for providing this data in the ORIS defined format to the ONS team at the venue.

In the evening, one (1) day before a round requiring the head to head statistics the output:

- Head to Head (Team) (N62B)

will be distributed according to the ORIS distribution rules and available in INFO.

However, if the round requiring the head to head statistics is scheduled for later the same day, then sixty (60) minutes before the competition, the output:

- Head to Head (Team) (C62B)

will be distributed according to the ORIS distribution rules and available in INFO.

3.4.1.2.4 Before semifinals, bronze medal and gold medal team matches

For the semifinals, bronze medal and gold medal team matches in each event information describing how each team in a match-up progressed to this point in the tournament is described in the output "Road to the <Semifinal/Bronze Medal/Gold Medal> Team Match (N63B)".

Thirty (30) minutes after completion of the last team match of the previous round the output:

- Road to the Semifinal Team Match (N63B) or
- Road to the Bronze Medal Team Match (N63B) or
- Road to the Gold Medal Team Match (N63B)

will be distributed according to the ORIS distribution rules and available in INFO for each of the matches.

3.4.2 News During and After Competition

Media covering Table Tennis events remotely will need to receive information supplementing the results. ORIS recommends that ONS prepare the outputs described below.

3.4.2.1 Flash quotes

Throughout the Games ONS should produce quotes from athletes, coaches, medallists and any surprise performances in the output:

- Flash Quotes (N87A)

This output must be produced and distributed within fifteen (15) minutes after the quotes are taken.

A selection of the best quotes of each day of the Games should be produced by ONS in the output:

- Quotes of the Day (N87B)

and distributed according to the ORIS distribution rules.

Note: ONS should plan in advance to ensure easy access for interviewers and interpretation services, if required.

3.4.2.2 Press conference highlights

ONS should produce newsworthy press conference highlights in the output:

- Press Conference Highlights (N88)

This output must be produced and distributed no later than thirty (30) minutes after the press conference.

3.4.2.3 Reviews

ONS should produce competition highlights in the outputs:

- Session Review (N89)
- Daily Review (N89)
- Sport Review (N89)

3.5 Media Communications

Useful information (concerning press conferences, announcements, changes in opening or closing times of the Venue Press Centre, etc.) should be communicated to the media in the output:

- Media Communication (N90A)

General information considered by ONS to be newsworthy (e.g. visitors to the venue, dignitaries, detailed description of equipment used, interesting statistics such as the number and names of world champions competing and missing, etc.) should be communicated to the media in the output:

- News Article (N90B)

ONS should use the output:

- IOC News (N90C)

to publish statements made by the IOC.

Section 1 - Printable Outputs

1 Introduction

This section of the document presents samples for all printable outputs.

There are two groups of outputs:

- Competition related (C outputs)
- News and Background related (N outputs)

ORIS defined outputs are available as PDFs and/or in screen format.

Every output that is printed from a PDF or screen format should be formatted so that it meets the ORIS requirements, including the Look and Feel defined by the OC.

The basic objective has been to make user friendly samples which show the required information and how it should be presented in each output. Emphasis is placed on using data which is as realistic as possible. However, athletes' data may be modified to focus on the necessary types of data (e.g. actual results changed to show ties, IRMs, etc.), venue names used in the samples may differ from the actual Games venues, etc.

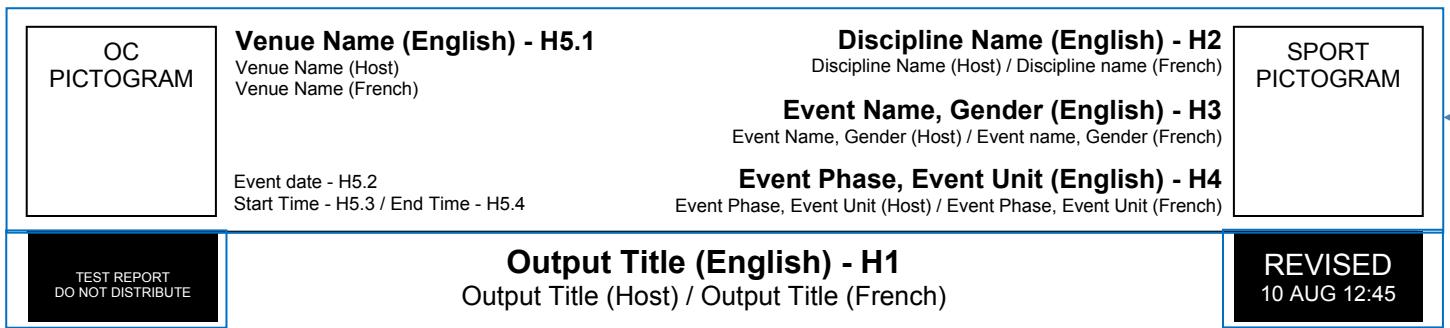

As it is impossible to find samples where all variations of data are used in the same output, in a number of samples some fields or data elements are missing. It should be **particularly noted** that schedule and quota data used in this document do **not** accurately reflect actual schedules and quotas.

Bearing this in mind, **samples should not be used as a reference for complete output definition**, including all possible data variations. All possible data elements and values are included in the data matrix. In all cases the **IF rules should be considered as the primary source** for data processing.

A detailed explanation of the structure of the output samples, description table and data matrix can be found in the "Look & Structure" output.

Rules for Data Formats and Presentation are described in the Appendix C.

This page intentionally left blank.

As of dd MMM yyyy at HH:MM - H6

This is a standard sample to illustrate possible positions of the output header data, stamps and footer.
It is the responsibility of the OC to define the actual look of the printed outputs (separate document).

Output body

Content information:

The content for this part of the output is defined in each appropriate ORIS output.
The requirements set in ORIS need to be met.

Technical information:

All possible values for this part of the output are defined in the data matrix of each output.

Depending on the ORIS requirements for each output, an appropriate Note and/or a Legend may be included

The two free text lines are reserved for content related information e.g. explanations of IRMs, reason for a revised output, etc.

L&S - Look and Structure of Outputs

Description table

The description table gives an overview of output specific requirements and offers space for additional explanations.

Description	A brief description of the purpose of this output
Source	Defines the source of the information for this output. Possible sources are: OC Competition Management , OC Technology, International Federation, etc.
Sort by	Defines the sort criteria by which the content of the output is sorted. The list of criteria will be as long as required to accurately define the sort order. The sort criteria are presented as follows: 1 - Criterion 1 2 - Criterion 2 3 - Criterion 3, etc.
Page break	Defines page breaks into logical groups (if the output does not fit onto a single page)
Notes	Note with static text: if a static Note is required for this output
	Note with predefined text: if a Note with predefined text is required for this output. All possible texts and conditions of predefined Notes will be listed here.
	Free text: refers to "Appendix C - Rules for Data Formats and Presentation"
Legend	Shows all possible abbreviations which could occur in this output. It also indicates if the Legend needs to be positioned on each page of the output or only on the last page of the output. Sports with a large number of possible results codes may state "See Appendix C - Rules for Data Formats and Presentation" rather than listing all results codes here.
IRM rules	In most cases a reference to "See Appendix C - Rules for Data Formats and Presentation" is made here. If there are specific IRM rules for this output, they may be mentioned here.
Comments	Space for further explanations which cannot be included in the samples, in other rows of the description table above, or in the data matrix. These comments should support the users by giving extra information and explanations.

Data matrix

The data matrix defines the required data items, and all possible values, needed in order to create the output. The data matrix follows the structure of the output in a logical order from the top to bottom and from the left to the right, wherever possible.

Columns

The column "Level" can be compared to the headings used for sections and subsections in a technical document:

"Levels" are ordered as follows:

- Whole integer levels (1, 2, 3, 4, etc.) represent a section heading. Each time a new section heading is required the next whole integer is used.
- Levels with two or more digits (1.1, 1.2.1, etc.) represent a subsection heading, or third level heading, etc., of the appropriate higher level heading (like a subsection heading in a technical document)
- The "(n)" in brackets after the level number indicates a "loop" for the values listed under that level or sublevel. Typically, data elements which are defined as "for each" have a level number containing an "(n)".

The column "Data Item" could be compared to the "section heading" (whole integer level numbers) with subsection headings (level numbers with decimal places).

The column "M/D" defines in general if that level is mandatory, desirable or not applicable/explanation only. The following main codes are used:

M Mandatory

Ma Mandatory - if applicable

Mc Mandatory - required under conditions which are explained in the column for comments

D Desirable - users found this information useful for their work and if an organiser can provide it, it would be appreciated but is not compulsory

Da Desirable, but only if such data is available

Dc Desirable under conditions which are explained in the column for comments

-- Not applicable / level explanation only

The column "Comments" includes all possible values of that level, additional conditions, explanations, etc.

Organisation

The data matrix is basically divided into three parts:

- Header data
- Output body data
- Legend, Note and free text data

Note: some static elements (e.g. spelling "Start Time" in header or column titles) are not specifically listed in the data matrix. The data matrix only includes variable data fields.

Header data levels

The header data elements are always defined in levels 1 to 6. These levels are always listed in each data matrix, regardless of the output requirements.

Output header example:

The corresponding data matrix levels are:

Level	Data Item	M/D	Comments
1	Output title (H1)	M	Text
2	Sport discipline (H2)	M	Text
3	Event/Gender (H3)	M	Standard FIS event name
4	Phase & event unit (H4)	Mc	Text - "Run 1" or "N Training" (N="1 st , 2 nd , 3 rd , etc.). (Applicable for DH only if split in 2 runs. N/A for SG).
5	Venue - date - start time - end time (H5)	--	
5.1	Venue name (H5.1)	M	Text
5.2	Event date (H5.2)	M	Date - in the format defined in the OC Look and Feel standard
5.3	Event start time (H5.3)	M	Time - in the format defined in the OC Look and Feel standard
5.4	Event end time (H5.4)	--	NOT APPLICABLE
6	As of date (H6)	--	NOT APPLICABLE

Note: the levels 5.1, 5.2, 5.3 and 5.4 are sublevels of the main level 5 "Venue - date - start time - end time (H5)" since they define values which belong to the same main level (same "topic").

Output body data levels

The output body data elements are defined in levels 7 and higher. In these levels only output specific requirements are listed.

Output body data example (extract 1):

Jury		Technical Data		
TD FIS	KROGOLL Peter	GER	Franz's GS	
Referee	SKAARDAL Atle	FIS	1177m	
Chief of Race	HOLLIDAY Bruce	CAN	805m	
Start Referee	KLAMMER Herbert	ITA	372m	
Finish Referee	PALOVICOVA Jana	SVK	8654/11/07	

The corresponding data matrix levels are:

7 (n)	For each jury member	--	
7.1	Function	M	Text - Assistant referee is only applicable for DH and SG
7.2	Family name	M	Text
7.3	Given name	M	Text
7.4	NOC code	M	Standard IOC NOC code or "FIS"
8	Technical data	--	
8.1	Course name	M	Text
8.2	Start altitude	M	Numeric
8.3	Finish altitude	M	Numeric
8.4	Vertical drop	M	Numeric
8.5	Course length	Mc	Numeric (N/A for GS and SL).
8.6	Homologation number	M	Text

Note: the levels 7.1, 7.2, 7.3 and 7.4 are sublevels of the main level 7 "For each Jury member" since they define values which belong to the same main level (topic). The "(n)" indicates that the following levels are a "loop", i.e. that levels 7.1 to 7.4 need to be repeated for each jury member. Level 8 represents a new topic and therefore is numbered as the next main level (8). Levels 8.1 to 8.6 are then sublevels of the main level 8. For level 8, no "(n)" is required since each data only appears once.

Output body data example (extract 2):

Number of Competitors: 86, Number of NOCs: 47

Bib	FIS Code	Name	YB	NOC Code	Time
1	205993	HOELZL Kathrin	1984	GER	
2	205218	REBENSBURG Viktoria	1989	GER	
3	185140	POUTAINEN Tanja	1980	FIN	
4	55838	ZETTEL Kathrin	1986	AUT	

The corresponding data matrix levels are:

10	Number of competitors	M	Numeric
11	Number of NOCs	M	Numeric
12 (n)	For each competitor	--	
12.1	Bib number	M	Numeric
12.2	FIS code	M	Numeric
12.3	Family name	M	Text
12.4	Given name	M	Text
12.5	Year of birth	M	Year - in the format defined in the OC Look and Feel standard
12.6	NOC code	M	Standard IOC NOC code
12.7	Time	M	Space

Note: level 10 is a separate main level, only related to the "Number of competitors". Level 11 is the next main level, only related to the "Number of NOCs". Level 12 (n) is another main level, with the "(n)" indicating that the following levels 12.1 to 12.7 are a loop (data required for each competitor).

Note, Legend, free text

The Note, Legend and free text elements are defined at the end of the data matrix. All these levels are always listed, regardless the output requirements.

Example:

Note:	FIS points are from "Special OWG List". FIS WCSL points include all the FIS World Cup races before the Olympic Games.					
Legend:						
DH	Downhill	GS	Giant Slalom	SC	Super Combined	SG
SL	Slalom	WCSL	Overall points	YB	Year of Birth	Super-G
The corresponding data matrix levels are:						
8	Note with static text		M	Text		
9 (n)	Note for each predefined text		--			
9.1	Predefined text		--	NOT APPLICABLE		
10 (n)	Legend		--			
10.1	Abbreviation	Mc	Code			
10.2	Description of abbreviation	Mc	Text			
11	Free text	Ma	Text			

Note: level 8 is a separate main level, only related to the "Note with static text". Level 10 (n) is the main level for the Legend information. The "(n)" is used to indicate a loop since each abbreviation (10.1) and the appropriate description (10.2) need to appear.

Note 2: usually the level "Note with static text" starts as a main level (full number). In special cases, where the Note and Legend should be presented after each output body data, this could be numbered as a sublevel, as part of a level with a loop "(n)".

Stamps

There are two types of stamps. The exact position of these stamps is defined in the separate OC document.

- "Test Report" stamp: this stamp should ensure that no test data is mistaken for real Games data
- "Revised" stamp: if a new version of a previously distributed output is produced (excluding those outputs which are regularly updated and reissued, e.g. outputs containing brackets, statistics, ranking, etc.), it must be stamped "REVISED" including the date and time of output creation. The reason for the revision must be explained as a free text note at the bottom of the last page of the output.

The revised date and time in the stamp is the same date and time as in the output footer data ("Report Creation").

For initial releases stamps are not required.

Output footer data

Each output produced at the Games has clear and unique information in the footer data. These requirements are not listed in the ORIS data matrix, but defined and explained in a separate OC document. In order to have the full overview of an output layout, these data are briefly explained here:

- The "Report Identifier" consists of a nine characters Results System Code (RSC), the ORIS output number (without leading "C" or "N") and the version number
- The "Report Creation" shows the date and time and when the output was created
- The "Page x/y" indicates the current page number (x), and the total number of pages (y), of the output

Comments	All name items must initially conform to the ITTF/OC names policy for the competition. However, names may be changed, as required, to allow for personal preferences and other considerations. Truncated names should be indicated with an * for manual checking. This output should show every name type and the maximum number of characters which may be used (maximum number of characters defined by OC Technology depending on the solution used). For TV names please refer to the OBS requirements document "TV Name Formats". For scoreboard names: The technical characteristics of the scoreboard may require that scoreboard names of several different maximum lengths be defined. The fields "Family name (25)" and "Given name (25)" should be used as the WNPA names (please refer to the "ODF General Messages Interface Document"). Need ability to print the output for a single NOC. The layout of this output may be either in portrait or landscape, as required.

C58 - Daily Competition Schedule

Description	Detailed schedule of a day of competition showing table numbers and umpires for each match
Source	ITTF, OC Competition Management and OC Technology
Sort by	1 - Competition type 2 - Start time 3 - Table number 4 - Draw order (see comment below) For umpires: 1 - Function (Umpire first, then Assistant Umpire)
Page break	Break at "Condition = Competition type" on a new page with repeated output and column headings. Within "Competition type" attempt to fit on one page, but if necessary: Break at "Group = Start time" on a new page with repeated output headings and column headings.
Notes	Note with static text: None Note with predefined text: See sample (used for days with more than one session and only the first session information is available) Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	Use the following description for abbreviations which appear in the output: BM - Bronze medal match/team match GM - Gold medal match/team match MS - Men's Singles MT - Men's Team No. - Number PR - Preliminary Round QF - Quarterfinals Rn - Round n SF - Semifinals WS - Women's Singles WT - Women's Team To be displayed at the bottom of each page. Note: When BM or GM appear on the sample, in the legend use " BM - Bronze medal match" or "GM - Gold medal match" for singles and "BM - Bronze medal team match" or "GM - Gold medal team match" for team.
IRM rules	None
Comments	There are two samples: 1. For singles events - as it would appear before the first session is complete 2. For team events - as it would appear after the first session is complete Delineate sessions by extra spacing between the last time slot of one session and the first time slot for the next session. The draw order used for the presentation of competitors in a match/team match is determined by the player's/team's order in the bracket - top player first and bottom player second.

Comments	The "Team order" is determined by a draw prior to the team match. The first team listed is the team that is drawn first ("Team order = 1") and is given team sequence designation as A/B/C. The other team ("Team order =2") is given team sequence designation as X/Y/Z. However, the teams will remain in their original draw positions (host or visiting) on the schedules and competition summary outputs. The duration statistics are very important to the ITTF. It is very important that the ITTF officials capture these statistics as described in the data matrix below.

C65C1 - Team Match Team Order List

Description	A form used for the coaches/team captains to designate the team order and team captain for a team match
Source	OC Competition Management and OC Technology
Sort by	1 - Event name 2 - Round 3 - Date 4 - Time 5 - Team match number 6 - Draw order 7 - Family name 8 - Given name For umpires: 1 - Family name 2 - Given name
Page break	Break at "Condition = Team match number" on a new page with repeated output headings and column headings. Within "Team match number" break at "Condition = NOC code" on a new page with repeated output headings and column headings.
Notes	Note with static text: None Note with predefined text: None Free text: See Appendix C - Rules for Data Formats and Presentation
Legend	None
IRM rules	None
Comments	The team captain can be either the coach or one of the team players. Draw order is the team's order in the bracket - top team first and bottom team second. This output is used at the team order draw before each team match, when the referee will instruct each team representative (team captain) to circle the correct team sequence, strike through the other team sequence, assign the corresponding letter to each team member, fill in the team captain's name and sign the form. For example, the team that is assigned team order 1 will circle "ABC", strike through "XYZ", assign the corresponding letter to each team member, fill in the team captain's name and sign.

MEN'S SINGLES**

Item: 35

Schedule change

The Men's Singles Quarterfinals has been rescheduled

Summary:

Due to the weather forecast (high probability of thunderstorms), access to the venue may be affected. The competition has consequently been rescheduled to 9:00 tomorrow.

Details:

Thunderstorms with wind speeds of over 120 km/h are forecast for this afternoon, with associated heavy rain and lightning. Due to the increased risk to spectators travelling to the venue and the potential impact on transportation, the Table Tennis Men's Singles Quarterfinals has been rescheduled to 9:00 tomorrow.

Issued by: ITTF Technical Delegate
Time: 11:00
Date: 9 AUG 2016

COMPETITION FORMAT AND RULES

TABLE TENNIS

As of 23 JUN 2016

Olympic Competition Format

The Olympic competition will consist of four events: Men's Singles, Women's Singles, Men's Team and Women's Team.

Singles:

The singles events will be played in a direct elimination format in the following rounds: preliminary round (conditional), round 1 (16 matches), round 2 (16 matches), round 3 (16 matches), round 4 (8 matches), quarterfinals (4 matches), semifinals (2 matches) and medal matches (2 matches). The winner of each match will advance to the next round, and the loser will be eliminated. The winners of the two semifinal matches will advance to the gold medal match, the winner of this match will receive the gold medal and the loser will receive the silver medal. The losers of the two semifinal matches will compete for the bronze medal.

In each singles event (Men and Women) there will be a maximum of 70 players entered with a maximum of two players from the same NOC. The seeding for the singles events will be based on the World Ranking List as of July 2016.

In accordance with ITTF rules entries ranked 1 to 16 will be seeded directly into round 3; entries ranked 17 to 32 will be drawn into round 2 and entries ranked 33 to 48 will be drawn into round 1. The remainder of the draw depends on the number of entries in the event.

- If there are 64 or less entries in the event, the remaining players (players seeded 49 up) are drawn into round 1.
- If there are more than 64 entries, the remainder of the draw is carried out as follows:
 - The players seeded 49 to 64 are drawn into the preliminary round into the top place of each match.
 - The remaining n players are then drawn into the preliminary round (making n matches) into the bottom place of each match. Any players, who do not have opponents, and the n winners of the n preliminary round matches, will advance to round 1.

Team:

In both the Men's and Women's Team events there will be a maximum of 16 teams entered. Sixteen NOC teams will be chosen according to the Qualification System for the Rio 2016 Olympic Games. The ITTF Ranking Consultant will use a computerized ranking method to determine the team rankings for seeding purposes, taking into consideration the singles rankings of the three players of each NOC participating in the Team event.

The team competition will also be played in a knock-out (direct elimination) format. The 16 participating teams will be drawn into round 1 and progress through quarterfinals, semifinals and medal team matches to the finals (bronze and gold medal team matches).

Differences between the ITTF World Championships and the Olympic Games

The ITTF World Championships is open to all registered players and any association which is not in arrears according to ITTF rules, will be eligible to enter teams or individual players in the Championships.

Entry for the Olympic Games is limited and a qualification system is applied.

In even numbered years, the Championships include Men's Team and Women's Team events; while in odd numbered years the Championships include Men's Singles, Women's Singles, Men's Doubles, Women's Doubles and Mixed Doubles events.

Changes since the London 2012 Olympic Games

There are no changes since the London 2012 Olympic Games.

Sport Rules and Procedures

Individual match

All singles event matches are the best of seven games, each game with 11 points. A game is won by the player first scoring 11 points unless both players score 10 points, in which case the game is won by the first player gaining a lead

of 2 points. There is an interval of up to one minute between successive games of an individual match; a player may claim one time-out period of up to one minute during an individual match. Players may receive advice from a coach during the intervals between games or during other authorized suspension of play.

Team match

Each team match consists of up to 4 singles matches and 1 doubles match. All singles matches and doubles matches are the best of 5 games, with no other differences from the Men's and Women's Singles event. The players of the two teams in a team match will play in the following order:

ABC Team			XYZ Team	
First match	Singles	A	plays	X
Second match	Singles	B	plays	Y
...team indicates the second doubles player				
Third match	Doubles	C / <A or B>	play	Z / <X or Y>
...if necessary, after a 5 minute break				
Fourth match	Singles	<A or B> *	plays	Z
...if necessary				
Fifth match	Singles	C	plays	<X or Y> *
* - the player not involved in the doubles match				

A team match ends when one team has won three singles/doubles matches.

Match points scoring

Unless the rally is a let, a player scores a point:

- if his opponent fails to make a correct service
- if his opponent fails to make a correct return
- if, after he has made a service or a return, the ball touches anything other than the net assembly before being struck by his opponent
- if the ball passes over his court or beyond his end line without touching his court, after being struck by his opponent
- if his opponent obstructs the ball
- if his opponent strikes the ball twice successively
- if his opponent strikes the ball with a side of the racket blade whose surface does not comply with the requirements
- if his opponent, or anything his opponent wears or carries, moves the playing surface
- if his opponent, or anything his opponent wears or carries, touches the net assembly
- if his opponent's free hand touches the playing surface
- if a doubles opponent strikes the ball out of the sequence established by the first server and first receiver
- as provided under the expedite system

The service

The service starts with the ball resting freely on the open palm of the server's stationary free hand. The server then projects the ball near vertically upwards, without imparting spin, so that it rises at least 16cm after leaving the palm of the free hand and then falls without touching anything before being struck. As the ball is falling the server strikes it so that it touches first his court and then, after passing over or around the net assembly, touches directly the receiver's court; in doubles, the ball touches successively the right half court of server and receiver. From the start of service until it is struck, the ball should be above the level of the playing surface and behind the server's end line, and it should not be hidden from the receiver by the server, or his doubles partner, or by anything that they wear or carry. As soon as the ball has been projected, the server's free arm and hand should be removed from the space between the ball and the net. The space between the ball and the net is defined by the ball, the net and its indefinite upward extension.

The return

The ball, having been served or returned, should be struck so that it passes over or around the net assembly and touches the opponent's court, either directly or after touching the net assembly.

The expedite system

Except in a game where at least 18 points have been scored, the expedite system comes into operation after 10 minutes play in a game, or at any time at the request of both players or pairs.

If the ball is in play when the time limit is reached and the expedite system is due to come into operation, play is interrupted by the umpire and resumes with service by the player who served in the rally that was interrupted. If the ball is not in play when the expedite system comes into operation, play resumes with service by the player who received in the immediately preceding rally.

Thereafter, each player serves for 1 point in turn until the end of the game and if the receiving player or pair makes 13 correct returns in a rally the receiver scores a point.

Introduction of the expedite system does not alter the order of serving and receiving in the match.

Once introduced, the expedite system remains in operation until the end of the match.

Tie Break Rules

A game is won by the player or pair first scoring 11 points unless both players or pairs score 10 points, in which case the game is won by the first player or pair gaining a lead of 2 points.

Penalties/disqualification rules

Players and coaches or other advisers should refrain from behaviour that may unfairly affect an opponent, offend spectators or bring the sport into disrepute, such as abusive language, deliberately breaking the ball or hitting it out of the playing area, kicking the table or surrounds and disrespect of match officials.

1. If at any time a player, a coach or another adviser commits a serious offence the umpire suspends play and reports immediately to the referee; for less serious offences the umpire may, on the first occasion, hold up a yellow card and warn the offender that any further offence is liable to incur penalties.
2. Except as provided in (1) and (4), if a player who has been warned commits a second offence in the same individual match or team match, the umpire awards 1 point to the offender's opponent and for a further offence he awards 2 points, each time holding up a yellow and a red card together.
3. If a player against whom 3 penalty points have been awarded in the same individual match or team match continues to misbehave, the umpire suspends play and reports immediately to the referee.
4. If a player changes his racket during an individual match when it has not been damaged, the umpire suspends play and reports to the referee.
5. A warning or penalty incurred by either player of a doubles pair applies to the pair, but not to the non-offending player in a subsequent individual match of the same team match; at the start of a doubles match the pair is regarded as having incurred the higher of any warnings or penalties incurred by either player in the same team match.
6. Except as provided in (1), if a coach or another adviser who has been warned commits a further offence in the same individual match or team match, the umpire holds up a red card and sends him away from the playing area until the end of the team match or, in an individual event, of the individual match.
7. The referee has the power to disqualify a player from a match, an event or a competition for seriously unfair or offensive behaviour, whether reported by the umpire or not; as he does so he holds up a red card.
8. If a player is disqualified from two matches of a team or individual event he is automatically disqualified from that team event or individual competition.
9. The referee may disqualify for the remainder of a competition anyone who has twice been sent away from the playing area during that competition.
10. Cases of very serious misbehaviour are reported to the offender's NOC.

Protests/appeals

An appeal may be made to the referee against a decision of a match official on a question of interpretation of Laws or Regulations, and the decision of the referee is final. Also, an appeal may be made to the jury against a decision of the referee on a question of tournament or match conduct not covered by the Laws or Regulations, and the decision of the jury is final. Such an appeal may be made only by a participating player (singles event) or participating captain (team event).

The structure and content of this output is recommended as a baseline for creation of the actual output for Games time.

General Interest

Overwhelming favourites for Olympic gold at the 2016 Olympic Games. China enjoy a total domination of the places at the top of the men's world rankings and their Rio team will contain three of the best talents in the sport. As if to confirm their dominance, the team cruised through the 2016 World Championships earlier this year, dropping just one game between them in eight matches on the way to a fourth consecutive world title. More ominously for their opponents, China haven't lost any team competition at continental or world level since Sweden took the honours at the 2000 World Championships in Kuala Lumpur, Malaysia. Add to the mix the guidance of former world and Olympic Games singles champion LIU Guoliang as head coach and anything other than gold for the hosts will be a massive surprise.

HISTORY TABLE TENNIS

Origin of Table Tennis

Like many other sports, Table Tennis began as a mild social diversion; it was probably first played - with improvised equipment - in England, during the last quarter of the 19th century. Descending, along with badminton and lawn tennis, from the ancient medieval game of tennis, it was popular at the turn of the century under its present name and various trade names such as Gossima and Whiff-Waff.

After Ping-Pong (an imitation of the sound made by the ball striking the hollow vellum battledores that were then used) was registered in 1900, the game became a fashionable craze that quickly spread through Europe, the USA and soon afterwards was introduced in Asia. After a period when it had dropped out of favour in Europe, the game was revived in England and Wales in the early twenties. National associations were formed and standardization of the rules began, in both Europe and Asia.

Table Tennis Today

Table Tennis has developed into a major world-wide sport, practiced by perhaps forty million competitive players and by uncountable millions who play less seriously. However, the game itself has not changed in essence since its earliest days, though it is faster, more subtle and more demanding than it was even only twenty years ago.

Modern Table Tennis at national and international level is as rigorous as any sport in its demands for the highest degree of physical fitness and mental concentration, attained only by arduous training to develop natural skill.

Table Tennis at the Olympic Games

As the result of the efforts of Roy Evans, Table Tennis was recognised in 1977 as an Olympic sport and was included in the summer Games for the first time in Seoul in 1988.

In the capital of Korea, it joined the Olympic family, presented in a very fair formula, which was to have Table Tennis represented in the Olympics by a sizeable element of top players, with the opportunity for players from all affiliated associations to win their way there via qualifying competitions. After a promising debut, Table Tennis was staged successfully in every Summer Olympics since Barcelona (1992).

BRONZE MEDAL MATCH

News Item: 117

WANG Liqin (CHN)

On whether he was using a backup racquet in the Rio de Janeiro 2016 Olympic Games bronze medal match:
 "In the semifinal match against MA Lin (CHN), there was one ball that sliced the rubber on my racquet. So I used the backup racquet then. But in the evening match, I still used my main racquet, but I changed the rubber."

On how he won the bronze medal match:

"I mainly won because I was in a good mental state. After losing in the semifinal match, I put all my efforts into fighting for a Bronze medal."

"My first goal before I entered this Olympic Games was to win against all foreign players."

"The opening game was key. PERSSON (SWE) played very well. He slowly fought his way into the semifinals. He was fast today. At the start, I could not open up and play. But in the second, third and fourth games, I played better."

On also winning a bronze medal at the London 2012 Olympic Games:

"Although I have not entered the finals this time, I do not regret anything. I believe that I have given it my all."

On smiling during the match:

"It wasn't an easy match. But as an athlete, you have to give yourself encouragement on the field of play."

On having a scroll which says "Heaven will repay you for your hard work" on his wall at home:

"My result comes from my hard work. Also, my name carries the word "Qin", which means "hard working" in Chinese. My parents have always carried great hopes for me. They have taught me to work hard."

"It was more about a mental adjustment than a physical one."

Jorgen PERSSON (SWE)

On requiring medical treatment at the start of the fourth game:

"I had this problem with my left leg. I had to take some spray to make it (my muscle tissues) soft. The muscles were tight together. We were having a lot of rallies at wide angles, I had to stretch a lot, so I had pain."

On how competing in the bronze medal match at the Rio de Janeiro 2016 Olympic Games differ from the Beijing 2008 Olympic Games:

"This time I felt better. After Beijing I was very disappointed. But I prepared better this time. I tried everything."

On the match:

"The first game was very important. It was a key game. After WANG Liqin won it, he could relax and then he Liqin could play better."

A selection of the best quotes from the Rio 2016 Games on Tuesday 16 August 2016

"You can meet a champion on every corner."

Givenname FAMILYNAME (NOC) on the sights in the Olympic Village

"Of course, it is an amazing feeling to represent your country and I hope there will be many more occasions to come, because I really love the sound of our national anthem."

Gold medallist Givenname FAMILYNAME (NOC) on her latest victory

"There are a lot of countries here. I don't even know where half of them are on the map."

The diversity of the Olympic Games amazes Givenname FAMILYNAME (NOC)

"It's our lucky talisman. In 2010 we won the World Championships wearing these bandanas. Have we washed them since? Yes."

Red bandanas with white palm tree motifs are more than a fashion statement for Givenname FAMILYNAME (NOC) and his partner Givenname FAMILYNAME (NOC)

"I did not yet have this colour. I only had three golds and five silvers, so my collection is complete now."

Givenname FAMILYNAME (NOC) completed the set by taking bronze at these Games

"I did not concentrate on my opponent. I only concentrated on my coach."

Givenname FAMILYNAME (NOC) admits taking his eye off opponent Givenname FAMILYNAME (NOC) and this may have been one reason that he lost

"I was tapped on the leg and then I felt myself landing on my shoulder. I cannot really remember what happened. My heart is broken into a thousand pieces."

Givenname FAMILYNAME (NOC) tells of his despair after the collision with Givenname FAMILYNAME (NOC)

GOLD MEDAL MATCH**

News Item: 119

MA Lin (CHN) - gold medallist

On his performance:

"Today (Saturday) I think I performed well. I had very good preparation. In the course of the competition, I tried to make many chances to take the lead. I tried not to rush and to control the critical points."

On winning three world championship silver medals, but never a gold and being named "a king without a crown":

"After so many years, going through so many championships and winning silver, I moved to my goal. Mentally, I started to have problems. I was criticized for being conservative in my play, not stable during crucial points, and I hesitate a lot. Every time my shortcomings are pointed out, my heart begins to ache and it is a piercing pain. But slowly, with my coach's support and encouragement, I began to face the problems and to address my shortcomings."

"Without experiencing great pain, I would not experience great joy."

WANG Hao (CHN) - silver medallist

On the gold medal match against MA Lin:

"I believe that in terms of performance, MA Lin and I did equally well, although I lost. But in points, we were still very close. Some of the critical points, I did not play so well. I did not control the ball in subtle ways, but generally I played well."

SPORT PREVIEW

TABLE TENNIS

News Item: 1

China poised to make clean sweep of Table Tennis medals

- The individual events begin on Saturday 6 August and culminate with the Women's Singles final on Saturday 13 August and the Men's Singles final on Sunday 14 August. The team events start on Tuesday 16 August with the Women's final to be staged on Saturday 20 August and the Men's final on Sunday 21 August.
- China starts as clear favourite to clinch gold in the Men's and Women's Team events at the Rio de Janeiro 2016 Olympic Games. In the Men's and Women's Singles events China could win all three medals in each discipline.
- The top four men and top five women players in the world rankings are from China.

Men's Singles competition

- The greatest obstacles to a Chinese clean sweep will come from Vladimir SAMSONOV (BLR), Timo BOLL (GER) and Athens 2004 champion, RYU Seung Min (KOR).
- In February 2015, SAMSONOV beat WANG Hao en route to winning the Men's Singles at the Salwa Cup Kuwait Open, and at the Liebherr Men's World Cup in September 2015, RYU defeated MA Lin and WANG Liqin.

Women's Singles competition

- In the Women's Singles, the Chinese look set to continue their tradition of success. They have won the title at every Olympic Games since Table Tennis made its debut in 1988. Any upset would most likely come from Singapore or Hong Kong, China.

Men's Team competition

- On the Chinese men's team are: WANG Hao (CHN) and MA Lin (CHN), ranked No. 1 and No. 2 respectively, plus WANG Liqin (CHN), ranked No. 4. The player to miss out is 19-year-old MA Long (CHN), ranked No. 3.
- The greatest threat to them may well come from Germany, led by with Timo BOLL (GER), a former world No. 1.
- The man in form for Germany is Dimitrij OVTCHAROV (GER), who in the past year has experienced a meteoric rise up the rankings to reach world No. 14.
- Not to be discounted is No. 3 seed Korea, led by RYU Seung Min (KOR) who was Men's Singles champion at Athens 2004, and he will have OH Sang Eun (KOR) and YOON Jae Young (KOR) in support.
- Hong Kong, China, seeded No. 4, is represented by LI Ching (HKG), KO Lai Chak (HKG) and CHEUNG Yuk (HKG). They were all born in China and left in search of international competition.

Women's Team competition

- The top two ranked players - LI Xiaoxia (CHN) and GUO Yan (CHN) are in action for the Chinese team, along with WANG Nan (CHN), ranked No. 5.
- In the Women's Team event, the appearance of Chinese-born players representing other NOCs is even more prevalent than in the Men's competition. Singapore, seeded No. 2, and Hong Kong, China, No. 3, are fielding teams comprised entirely of players who could not establish a regular place for China.
- LI Jia Wei (SIN), WANG Yue Gu (SIN), and FENG Tianwei (SIN) represent Singapore and the line-up for Hong Kong, China, is TIE Yana (HKG), LIN Ling (HKG) and LAU Sui Fei (HKG).
- Singapore and Hong Kong have medal aspirations but their hopes could be doused by Korea, who finished runners-up to China in the World Team Cup in October 2015.

DAILY PREVIEW TABLE TENNIS

MON 6 AUG 2016

News Item: 14

Top seeds enter the fray in Men's Table Tennis

- The top 16 seeds in the Men's Singles Table Tennis competition enter the tournament at the third round stage on Thursday, joining the qualifiers from the first two rounds. The fourth round matches will be contested on the same day at Riocentro.
- In the Women's Singles event, the fourth round and quarterfinals matches fill the schedule.

Men's Singles

- RYU Seung Min (KOR), the 2004 Athens Olympic champion, starts his programme of matches by playing KO Lai Chak (HKG), a match in which the Korean could be tested. KO Lai Chak is left-handed and the right-handed RYU has experienced problems in recent years against left-handers, who attack his body and prevent him playing his powerful forehand.
- No. 1 seed WANG Hao (CHN) meets CHEN Weixing (AUT) in round three.
- No. 2 seed MA Lin (CHN) takes on Bojan TOKIC (SLO).
- WANG Liqin (CHN), the reigning world champion, faces Lucjan BLASZCZYK (POL).
- Vladimir SAMSONOV (BLR), seeded No. 3, plays Christian SUSS (GER).
- OVTCHAROV Dimitrij (GER), seen by many as the biggest threat to Chinese dominance in Table Tennis at the Rio de Janeiro 2016 Olympic Games, faces KIM Hyok Bong (PRK).
- Werner SCHLAGER (AUT), the 2010 world champion, meets YOON Jae Young (KOR).
- The two most experienced players in the draw, Jorgen PERSSON (SWE) and Zoran PRIMORAC (CRO), both of whom have played in every Olympic Games since Table Tennis was introduced in Seoul 1988, face testing adversaries. PERSSON plays CHEUNG Yuk (HKG) while PRIMORAC faces Michael MAZE (DEN), a Bronze medallist in the Men's Singles event at the 2005 world championships.

Women's Singles

- No. 1 seed ZHANG Yining (CHN) faces Ai FUKUHARA (JPN).
- GUO Yue (CHN), seeded No. 2, meets LI Jiao (NED), the reigning European champion.
- WANG Nan (CHN), seeded No. 3, plays the defensive Korean PARK Mi Young (KOR).
- No. 4 seed LI Jia Wei (SIN) takes on LIN Ling (HKG).
- In the remaining fourth round matches, KIM Kyung Ah (KOR), the Athens 2004 Women's Singles Bronze medallist, faces WANG Chen (USA), LI Jie (NED) plays FENG Tianwei (SIN), LI Qiangbing (AUT) meets TIE Yana (HKG) and GAO Jun (USA) takes on WU Xue (DOM).

Korea clinch Team Bronze

- Korea won the Bronze medal in the Women's Team competition in Table Tennis at Riocentro on Sunday. The No. 4 seeded Korea beat No. 5 Japan 3-0.
- The classic defensive skills of KIM Kyung Ah gave Korea the start they needed. KIM captured the first two games with her backspin play rock solid against Sayaka HIRANO (JPN). HIRANO fought in typical style, taking the third game, but KIM proved too secure, attacking with her much improved forehand drive when the opportunity arose.
- After the four-games victory for KIM, it was the same scoreline in the next match on court, with DANG Ye Seo overcoming Ai FUKUHARA (JPN) in a duel that was fought at a fast and furious pace.
- DANG won the first two games, the next went to FUKUHARA but then a change of tactics reaped rewards. Instead of playing her first attack at high speed, DANG used heavy topspin. The ploy brought errors from the FUKUHARA racquet and gave the Korean the confidence to resume her fast-hitting and take the victory.
- The momentum and odds were now with Korea. KIM partnered PARK Mi Young to victory in the Doubles against HIRANO and Haruna FUKUOKA.

China still the team to beat

- Favourites China remain on course for Table Tennis gold in both the men's and women's events after the first day's action.
- The men's team beat Greece 3-0 in the opening encounter while the women overcame both Croatia and the Dominican Republic by the same margin.
- Matches went according to seeding in the Men's Team competition, with No. 2 seeds Germany beating Croatia, and No. 3 seeds Korea overcoming Sweden and Brazil.
- The Koreans suffered a shock, however, when RYU Seung Min (KOR), Men's Singles champion from Athens 2004 was beaten by Thiago MONTEIRO (BRA).
- There were no great surprises in the Men's Team event, but that was not the case in the women's category. Germany, seeded No. 6, lost 3-0 to No. 13 seeds Romania, while the Netherlands, seeded No. 7, lost 3-1 to No. 9 seeded USA.

Men's Singles: China sweep medals to achieve perfect Olympics

China won all medals in the Men's Singles tournament at the Rio de Janeiro 2016 Olympic Games. MA Lin won the gold, WANG Hao silver and WANG Liqin took bronze. China also won all medals in Women's Singles and gold in both the Men's and Women's Team events.

- It is the first time one NOC has won all the medals in the Men's Singles event.
- MA's gold in the Men's Singles was the 20th Olympic gold medal for China in Table Tennis. In total, 24 gold medals have been won since the introduction of Table Tennis to the Olympic programme in 1988.
- At the Atlanta 1996 Olympic Games and Sydney 2000 Olympic Games, China won all Table Tennis gold medals.
- MA has now become the most successful male Table Tennis player in the Olympic Games.

Table Tennis: IOC disqualifies FAMILYNAME Givenname (NOC) for doping violation

The International Olympic Committee (IOC) on Monday announced that it has disqualified FAMILYNAME Givenname (NOC) from the Table Tennis Men's Singles of the Rio 2016 Olympic Games.

Immediately after his participation in the event on 10 August, FAMILYNAME, 23, provided a urine sample that tested positive for the prohibited substance 11-nor-delta-9-tetrahydrocannabinol-9-carboxylic acid.

The IOC Disciplinary Commission, composed for this case of Mr Givenname FAMILYNAME (Chairman), Mr Givenname FAMILYNAME and Mr Givenname FAMILYNAME, decided:

- I. The athlete, Mr Givenname FAMILYNAME, NOC name, Table Tennis:
 - (i) is disqualified from the Men's Singles of the Rio 2016 Olympic Games where he placed 7th;
 - (ii) shall have his diploma in the above-mentioned event withdrawn; and
 - (iii) shall have his Olympic identity and accreditation card cancelled and withdrawn immediately.
- II. The ITTF is requested to modify the results of the above-mentioned event accordingly and to consider any further action within its own competence.
- III. The NOC of the member country is ordered to return to the IOC, as soon as possible, the diploma awarded to the athlete in relation to the above-mentioned event.
- IV. The IOC administration is requested to reallocate the diplomas to the athletes that finished behind Mr FAMILYNAME in the above-mentioned event, in which Mr FAMILYNAME placed 7th at the Rio 2016 Olympic Games.
- V. This decision shall enter into force immediately.

Under the IOC Anti-Doping Rules applicable to the Rio 2016 Olympic Games, testing takes place under the IOC's auspices from the opening of the Olympic Village to the Closing Ceremony. Within that period, the IOC systematically performs tests before and after events. After each event, the IOC systematically carries out tests on the top five finishers plus two at random. The IOC also performs out-of-competition unannounced tests. Over the course of the Rio 2016 Olympic Games, the IOC is expected to carry out some 5,000 tests - 3,800 urine and 1,200 blood. For more information, please consult the IOC factsheet on anti-doping.

Section 2 - Distribution Rules

1 Introduction

This section explains what Table Tennis information is required, the function producing the outputs and when the OC should supply it to the different users or user groups according to the ORIS standards. The information is presented in tabular format to allow a well structured overview of affected outputs, the appropriate work flow and the production time.

This section is divided into three chapters:

- "Event Related Requirements" (chapter 2) gives a detailed description of events processes for outputs preparation, production, checking/approval, and final distribution rules of printed outputs and INFO. The chapter is organised in such a way that the requirements of each user or user group are listed separately and grouped chronologically by the time condition that triggers production and/or delivery.
- "Other Outputs" (chapter 3) describes the process for preparation and production of all outputs that are identical for all events (Schedule, Entries, Background Information, etc.) together with those outputs (event related and non-event related) that could be produced at any time before, during or after competition. It also includes the final distribution rules for both printed outputs and INFO grouped in chronological order.
- "Distribution Rules and availability of all outputs grouped by ORIS output code" (chapter 4) gives an overview of all outputs produced for Table Tennis. The outputs are sorted by output code and listed together with their production time and distribution rules. The table following describes the time abbreviations used to define the availability of the outputs. All delivery times are understood to imply that distribution will occur "no later than" the defined time, unless otherwise stated (e.g. protest times).

It is the responsibility of the ITTF and the OC Competition Management to carry out data and output verification processes efficiently.

Installing adequate equipment at appropriate locations and providing sufficient well trained people to manage the technology and distribution processes are key factors to meet the requirements of output delivery within the defined time frame.

The main producers of outputs are:

- IDS - Information Diffusion System (e.g. provisional entries, scheduling, etc.)
- ONS - Olympic News Service (e.g. production of new articles, press conference highlights, etc.)
- OVR - On Venue Results system (e.g. results and timing feeds)
- VRM - Venue Results Manager (creation of other outputs, e.g. competition officials, IF schedules, course maps updated during Games, etc.)

The creation of outputs may be carried out by one or a combination of the producers listed above.

Printed outputs may be delivered to clients by several different means, for example:

- Display on Bulletin Board (media area, athletes' area, Olympic Village, etc.)
- Personal delivery to individual clients (Technical Delegate, ITTF office, etc.)
- Place in pigeonholes (Venue Press Centre, Competition Management, Sport Information Desk, etc.)
- Single copy delivery (Sport Presentation, Competition Management, etc.)

It is the responsibility of OC Technology, in collaboration with each client, to determine the number of copies to be delivered to each distribution point. Once competition has started, the initial distribution requirements should be adjusted to optimise the number of copies required at every distribution point, and at different times of day and stages of the competition. OC Technology should remain flexible to ensure that the number of copies supplied adequately meets (but does not exceed) demand. It is

essential that sufficient well trained personnel, with the appropriate accreditation to access all distribution points, are available to ensure consistent delivery within the defined time frame, and monitor the actual demand at each distribution point.

If a new version of a previously issued output is produced for any reason (e.g. a revised output) the existing version in INFO must always be replaced with the new version. In this way the latest version of each output will be maintained in INFO even though there is no new distribution time defined in this section.

All outputs to be included in the Results Book will be the last version produced, even if stamped "REVISED".

2 Event Related Requirements with Predefined Production Time

This chapter describes the process of production and delivery for all outputs generated during the lifecycle of an event either by On Venue Results system (OVR), or by any other function such as Olympic News Service (ONS), or OC Competition Management with the exception of those event related outputs that do not have a defined production time and which are listed in the chapter "Other Outputs".

The process is described in tabular format, in which each step is described in a row listing the deliverable, with columns that define a time reference (When), the user or user group (Who) responsible for delivering which output (What) and for/to whom (Whom). Processes and outputs are listed in chronological order, covering the period starting with preparation for the draw, followed by the draw itself with draw lists production and their distribution, previews, production and distribution of outputs during the event, up to the completion of the event with flash quotes, reviews, medal outputs, etc. Specifications include both "C" and "N" type outputs that are produced during the period described above.

After the table describing the process, there is another table that sets out the distribution rules for each of the outputs previously described, with instructions to which user or user group and at which locations each of these outputs should be distributed. Those outputs, which only need to be published in INFO are clearly indicated.

When the competition formats of different events have different processes (even in details), both sets of tables are prepared for each event (or group of events) **that have a unique format**.

The **unique format** means that ONLY events sharing absolutely identical procedures from beginning to end, and producing identical outputs, will be listed together (e.g. Men's, Women's Singles and Men's, Women's Team).

4 Distribution Rules for Printable Outputs Grouped by ORIS Output Code

This chapter gives an overview of all outputs produced for Table Tennis sorted by ORIS output code.

All availability codes are "Point in Time" (PiT) codes, indicating a defined time trigger for the production of an output.

C-outputs shown with a "Y" in the INFO Screen format column will be available in real time format.
Please refer to the document "On Screen Results Presentation" for further details.

Every output available in screen format should be formatted in a printable version according to the ORIS requirements, including the Look and Feel defined by the OC.

Section 3 - Real Time Information

1 Introduction

This section of the document defines scoreboard layouts, Real Time Display System (RTDS) screens, sport specific real time data available through ODF and serves as a reference for on screen results presentation.

The basic objective has been to make user-friendly samples and emphasis is placed on using realistic data where possible. This is to ensure that the focus is on the type of data which must be included rather than on the accuracy of data shown in the sample.

All possible variations of the type of event and each stage of the competition are presented. The type of data required and the triggering conditions are defined.

While the data content and triggering conditions for each screen are mandatory (and therefore subject to the Change Management process), the presentation of the real time outputs will be based upon an agreement reached between the ITTF and the OC (and providers).

This page intentionally left blank.

2 Scoreboards

2.1 General Rules

2.1.1 NOC Names

Whenever NOC names are used, they should be taken from the official IOC "NOC long and short names document", which is available on the IOC ORIS extranet (see "Public documents" in the navigation menu on the left). The same name length should consistently be used within similar screens.

2.1.2 Athletes, Teams and Officials' Names

All possible scoreboard name lengths which are required for scoreboard screens must be verified through the process described in the chapter "Entries and participant data" in Procedures.

In case of teams being presented on a single scoreboard line with insufficient available characters, names should be abbreviated by sharing the number of available characters as equally as possible to ensure maximum readability of both names. This may require that a shorter name is written in full, while a longer name is abbreviated.

2.2 Technical Specifications

This section has been developed based on a standard matrix. More sophisticated solutions (e.g. video, plasma screens, font colour, font size, graphical characters, etc.) may be provided. The content of the scoreboard screens are defined in ORIS. The detailed layout of the scoreboard screens is the responsibility of OVR, and will be confirmed during the Homologation Test, subject to the ITTF's approval.

2.3 Part A - Before each time slot within a session

2.3.1 Order of play - singles

- What: Screen shows the matches at all tables for an entire session with event name, round of competition, start time. For each table show table number and for each player show scoreboard name and NOC code.
For round of competition use: "ROUND X", "QUARTERFINALS", "SEMIFINALS", "BRONZE MEDAL" or "GOLD MEDAL".
If a table is empty (no match), still show it, but with no players.
- When: Before the actual start of competition at each start time (time slot) within a session.
- How: Scrolling screen. Each screen image will show the matches at two tables for each time slot within a session

WOMEN'S SINGLES	ROUND 1
START TIME 11:00	
TABLE 1	
SVENSSON MARIE	SWE
KYOKOBE JUNE	UGA
TABLE 2	
SATO RIKA	JPN
MUSOKE MARY	UGA

2.3.2 Order of play - team

- What: Screen shows the matches for each team match in the session with event name, round of competition, table number, start time. For each team match show teams (NOC) by "team order" and for each match show match number within the team match and the players with scoreboard name.
For the doubles match show each player of a pair on a separate line.
For round of competition use: "ROUND 1", "QFINAL", "SFINAL", "BRONZE" or "GOLD".
The "team order" is determined by a draw before the team match. The team with "team order = 1" has team sequence "A/B/C" and the other team has "X/Y/Z".
- When: Before the actual start of competition at each table in a session. Then as matches are played show at appropriate times during the team match as the screen is dynamically updated.
- How: One non-scrolling screen for each team match.
Dynamically update the names of players as they are assigned for match 3 (second doubles player) and both players for matches 4 and 5 when they are required to play.

Screen 1: At the beginning of the team match

After the completion of match 2 add the names of the players for all remaining matches.

2.4 Part B - During a time slot within a session - singles

2.4.1 Current match results - singles

What: Screen shows the results of a match in progress with event name, round of competition, table number and for each player show scoreboard name, NOC code, games won and points scored in each game.

For round of competition use: "ROUND X", "QUARTERFINALS", "SEMIFINALS", "BRONZE MEDAL" or "GOLD MEDAL".

Also, if applicable, indicate IRMs as follows:

Disqualification during the match: Show four games won by winner and games won by loser followed by "DSQ".

Retired: Show four games won by winner and games won by loser followed by "RET".

When: During current matches at the discretion of sport production.

How: Non-scrolling screen. During the match points won and games won should be refreshed just prior to displaying the screen.

There is a separate screen for each table in use during the time slot.

For current game in progress, show score and indicate server with "*" in front of the name.

For games not yet played show the score as blank, not zero.

2.4.2 Current results on all tables, with player names - singles

What:

Screen shows current results on all tables with event name, round of competition, table number and players with NOC code, scoreboard name, number of games won and points in the current/last game.

For round of competition use: "ROUND X", "QUARTERFINALS", "SEMIFINALS", "BRONZE MEDAL" or "GOLD MEDAL".

The order of table numbers on the screen should be consistent with the order of tables on the field of play.

Also, if applicable, indicate IRMs as follows:

Disqualification during the match: Show four games won by winner and games won by loser followed by "DSQ".

Show ">" as winner indicator to the left of the winner's name.

Retired: Show four games won by winner and games won by loser followed by "RET".

Walkover: Display "W/O" next to winner's name with no number of games won for either player.

If, due to scheduling constraints, it is necessary to start a match from the next time slot before all matches from the current time slot are complete, the new match should replace the completed match on the appropriate table.

When:

During current matches at the discretion of sport production.

How:

Update the screen at the completion of any point on any table.

If the time slot includes matches from both genders, use two different screens, one for each gender with the appropriate table number(s).

If the match is complete, show a ">" to the left of the winning player.

For current game in progress, indicate server with "*" in front of the name.

2.4.3 Current results on all tables, without player names - singles

- What: Screen shows current results on all tables with event name, round of competition, table number, NOC code, number of games won and points in all games.
For round of competition use: "ROUND X", "QUARTERFINALS", "SEMIFINALS", "BRONZE MEDAL" or "GOLD MEDAL".
The order of table numbers on the screen should be consistent with the order of tables on the field of play.
Also, if applicable, indicate IRMs as follows:
Disqualification during the match: Show four games won by winner and games won by loser followed by "DSQ".
Show ">" as winner indicator to the left of the winner's name.
Retired: Show four games won by winner and games won by loser followed by "RET".
Walkover: Display "W/O" next to winner's name with no number of games won for either player.
If, due to scheduling constraints, it is necessary to start a match from the next time slot before all matches from the current time slot are complete, the new match should replace the completed match on the appropriate table.
- When: During current matches at the discretion of sport production.
How: Update the screen at the completion of any point on any table.
If the time slot includes matches from both genders, use two different screens, one for each gender with the appropriate table number(s).

If the match is complete, show a ">" to the left of the winning player.

For current game in progress, indicate server with "*" in front of the name.

2.5 Part C - During a session - team

2.5.1 Current match results - team

What:

Screen shows the results of a team match in progress with event name, round of competition, table number and:

For the results of completed matches in the team match: team NOC code, matches won and number of games won in each completed match.

For current match in progress: players/pairs (scoreboard name), NOC code, games won and points won in each game.

Results are shown by "team order".

For round of competition use: "ROUND 1", "QFINAL", "SFINAL", "BRONZE" or "GOLD".

Also, if applicable, indicate IRMs as follows:

Disqualification during the match: Show three games won by winner and games won by loser followed by "DSQ".

Retired: Show three games won by winner and games won by loser followed by "RET".

Walkover (match within a team match): Display the match result as "W" next to the winner's name and blank next to the loser.

When:

During current matches at the discretion of sport production.

How:

Non-scrolling screen. During the match, points won and games won should be refreshed just prior to displaying the screen.

There is a separate screen for each table in use during the time slot.

The closing bracket ")" is only added when the match is decided by one team winning three matches.

For current game in progress, show "*" by the current server.
For doubles the indicator goes before the first player or after the second player.

For games not yet played show the score as blank, not zero.

2.5.2 Current results by table - team

- What: Screen shows the matches won for the team match at each table in the current session with event name, round of competition, table number and:
For the team match results, for each team (in "team order"): NOC code, matches won and number of games won in each completed match.
For team members, for each team (in "team order"): NOC and members of the team (in "team sequence" - "A/B/C" and "X/Y/Z") with scoreboard name.
For round of competition use: "ROUND 1", "QFINAL", "SFFINAL", "BRONZE" or "GOLD".
Also, if applicable, indicate IRMs as follows:
Disqualification during the match: Show three games won by winner and games won by loser followed by "DSQ".
Retired: Show three games won by winner and games won by loser followed by "RET".
Walkover (match within a team match): Display "W" next to winner's name and a blank by the loser's name.
- When: During current team matches at the discretion of sport production.
- How: Use a scrolling screen to show one table at a time.
Refresh the screen at the completion of each game.
If the session includes team matches from both genders, show the appropriate event name for each table.

2.5.4 Current results on all tables, with results for current/last match - team

What:

Screen shows the matches won for all team matches in the current session with event name, round of competition, table number, NOC code, matches won and the number of games won and the points for each game in the current/last match.

For round of competition use: "ROUND 1", "QFINAL", "SFINAL", "BRONZE" or "GOLD".

The order of table numbers on the screen should be consistent with the order of tables on the field of play.

Also, if applicable, indicate IRMs as follows:

Disqualification during the match: Show three games won by winner and games won by loser followed by "DSQ".

Retired: Show three games won by winner and games won by loser followed by "RET".

Walkover (match within a team match): Display "W" next to winner's name and a blank by the loser's name.

When:

During current team matches at the discretion of sport production.

How:

Static screen with updating results.

Refresh the screen at the completion of each game.

If the session includes team matches from both genders, use two different screens, one for each gender with the appropriate table number(s).

Appendix A - Glossary

1 Terms

The specific terms used in the ORIS Table Tennis document are defined as follows:

Term	Definition
Alternate	Alternates are eligible athletes who have not been confirmed for any event. They are granted "P" accreditation allowing them to train and access the competition venue under certain conditions. If a confirmed athlete is unable to compete an alternate may be activated in accordance with the defined IOC procedure.
Assistant Umpire	The official appointed to assist the umpire with certain duties.
Athlete preferred name	When NOCs apply for accreditation, they should provide the preferred family and given name for all athletes. These names should be the names that the athletes normally use, and by which they are popularly known while participating in other international competitions.
Attacker	A player who attempts to win points by hitting the ball aggressively.
Backhand	A stroke made with the rear side of the racket.
Backspin	Reverse spin about a horizontal axis, imparted by striking the ball with a downward movement of the racket.
Ball	The ball is made of a plastic material, and is white or orange and matt, 40mm in diameter and 2.7g in weight.
Block	A stroke made by holding the racket in the path of the ball so that it returns over the net.
Bye	The term used in a draw/results output to indicate a missing player/team. The paired competitor will automatically advance to play in the next round.
Championships/Olympic Games	The entire meeting including the Opening Ceremony, Closing Ceremony, official training, competition and other official activities.
Chop	A downward stroke which puts backspin on the ball, used mainly for defensive play.
Common Codes	The set of data that are considered Common Codes from the Technology perspective of the Games. Among others, Sports, Disciplines, Events, Event phases, Event units and Venue names are defined in the Common Codes.
Competition	The competition runs from the start of the first event of a sport to the completion of the last event of a sport, excluding the Opening and Closing Ceremonies.
Counter-drive	An attacking stroke made against an attacking stroke.
Court	One half of the playing surface.

Term	Definition
	For doubles each court is divided by a centre line into two "half courts".
Defender	A player who attempts to win points simply by keeping the ball in play and waiting for his opponent to make a mistake.
Delegation Registration Meeting (DRM)	The Delegation Registration Meeting is the process for official registration of all athletes and team officials who will participate at the Olympic Games. All NOCs must attend a DRM with the OC prior to being permitted entry into the Olympic Village.
Discipline/Sport discipline	"A discipline is a branch of a sport comprising one or several events." (as per Olympic Charter)
Disqualification	A ruling by officials that a competitor or team has broken the rules of the sport and cannot be considered for placing in an event unit, a phase or an event.
Doubles	A match between two pairs of players, in which the players of each pair strike the ball in turn.
Drop-shot	A short return which falls just over the opponent's side of the net.
Draw	The procedure by which players or teams are placed in an event.
Draw order	The player's/team's order in the bracket - top player/team first and bottom player/team second.
Duration	There are three duration statistics collected: <ul style="list-style-type: none"> Game duration is the elapsed time from the first serve to the last point of the game, excluding all clock stoppages. Match duration is the total elapsed time from the first serve of first game to the last point of last game, including all stoppage time and time between games. Team match duration is the total elapsed time from the start of the first game of the first match to the last point of the last game of the last match, including all stoppage time and time between games and matches.
End line	A white line marked at each end of the playing surface.
Event	"An event is a competition in a sport or in one of its disciplines, resulting in a ranking and giving rise to the award of medals and diplomas." (as per Olympic Charter)
	See "Table Tennis References" for the list of events.
Expedite system	A system of play used to restrict the duration of a game. It is introduced after a game has lasted for ten (10) minutes, unless a total of 18 or more points have been scored; it may be introduced earlier at the request of both players or pairs. When it is in operation the players serve alternately and if the receiving player or pair returns the service and 13 successive strokes they win the point.
Flooring	Flooring must be of wood or of a type of applied synthetic material authorised by the ITTF.
Forehand	A stroke made with the front side of a racket.

Term	Definition
Game	A game is one part of a match. A game is won by the player/pair that wins 11 points first, with a lead of at least 2 points. If both players/pairs reach a score of 10 points each, the game is won by the first player/pair that gains a lead of 2 points over their opponent.
Game duration	See "Duration"
Grip	The way in which the racket is held, which may be either "shakehand" or "penholder".
Head to Head	The career record of one player/team against another player/team.
INFO	INFO is an intranet which allows access to results, news, biographies, background, schedules, medals, records, transport and weather information. During the Games, INFO will be accessible either through dedicated workstations (kiosks) or remotely for accredited users or organisations (rate card may apply).
Information Diffusion System (IDS)	IDS is the complete solution for the centralisation and distribution of information (e.g. schedules, results, news, etc.) through ODF to different clients such as International Federations, OC website, press agencies, etc. IDS also includes provision of INFO and CIS.
Initial Download	The process of transferring all participants' data from the SEQ database to On Venue Results. This step takes place a few days before competition starts for each sport discipline.
In play	The ball is in play from the last moment before it is thrown upwards in service until the rally is decided as a let or a point.
Jury	The body to which a player or team captain may appeal against a referee's decision on a matter not covered by a rule. For the Olympic Games the jury consists of the ITTF appointed chairman, continental representatives and the Technical Delegates. The referee is an ex-officio member, with the right to speak but not to vote.
Kill	A powerful stroke which decides a rally.
Knockout	A system of play in which the player losing a match is eliminated and the winning player goes on to play another winner until all but one have been eliminated.
Late Athlete Replacement (LAR)	An IOC policy defining the conditions under which an athlete who is unable to compete can be replaced by another eligible athlete who was not confirmed for participation in the Games.
Let	A rally for which no point is awarded because, owing to some irregularity, it was not completed. The most common cause is the ball touching the net in a service that is otherwise good.
Lighting	The lighting level, measured at the height of the playing surface, must be at least 1000 lux uniformly over the whole of the playing surface and at least 500 lux over the rest of the playing area.
Loop	A long, sweeping, upward stroke which imparts strong top-spin to the ball, causing its trajectory to dip sharply.

Term	Definition
Match	A match is a meeting between two opposing players or pairs. In Olympic competition, a match consists of the best of seven games in singles events, and the best of five games in team events.
Match duration	See "Duration".
Match point	The point which will decide the match if it is won by the leading player.
Net assembly	The net assembly consists of the net, its suspension and the supporting posts, including the clamps attaching them to the table.
Obstruction	A player obstructs the ball if he/she intercepts it when it is above or travelling towards the playing surface without having touched his or her court since last being struck by the opposing player.
Olympic Data Feed (ODF)	<p>The Olympic Data Feed (ODF) is the unique data feed used to transfer information from the venue to clients such as INFO, the official website, International Federations, National Olympic Committees, World News Press Agencies, Rights Holding Broadcasters, etc.</p> <p>ODF provides data at point in time (e.g. start lists, results, medallists, etc.) or real time (e.g. instant results and ranking, instant speed, etc.).</p> <p>The ODF technical specifications are available at: http://odf.olympictech.org.</p>
Olympic Games	<p>"The Olympic Games are competitions between athletes in individual or team events and not between countries. They bring together the athletes selected by their respective NOCs, whose entries have been accepted by the IOC. They compete under the technical direction of the IFs concerned." (as per Olympic Charter)</p> <p>The Olympic Games include the Opening Ceremony, Closing Ceremony, official training, competition and other competition related activities.</p>
Olympic News Service (ONS)	<p>The Olympic News Service exists to provide the media with comprehensive coverage from every race, every match, every session, every day, across every sport at the Olympic Games. This coverage, along with background information including historical results and records, and biographies on every competitor, is published on a secure intranet system called INFO, enabling the media to report accurately and extensively from multiple venues at the same time.</p> <p>The news service is the official source for independent and balanced coverage of the Olympic Games.</p>
On Venue Results (OVR)	<p>The systems, services and technicians responsible for timing and scoring data. OVR produces start lists, results and other competition related rankings, statistics and analysis for the sport discipline. This includes distribution to clients and use by other services, e.g. scoreboards, TV Graphics, INFO, ODF, etc.</p>
"P" alternate athlete	<p>"P" alternate athletes are non-competing athletes, and are not included within the athlete's quota. They are granted "P" accreditation allowing them to train and access the competition venue under certain conditions.</p> <p>"P" alternate athletes can only become competing athletes as per</p>

Term	Definition
	the conditions outlined in the "IOC/Rio 2016 Late Athlete Replacement policy".
Pair	The two players teamed together in a doubles match in the team event.
Penholder grip	A method of holding the racket between the thumb and forefinger, normally using only one side of the racket to strike the ball.
Phase	A round. This is the progression system in Table Tennis. See "Round designation".
Playing space	The playing space must be at least 14m long, 7m wide and 5m high, with the playing area enclosed by surrounds about 75cm high.
Playing surface	The upper surface of the table.
Point penalty system	A system by which bad behaviour by a player can be penalised, initially by a formal warning and for further offences by the award of first 1, and then 2, penalty points to the opponent. When giving a warning the umpire holds up a yellow card and when awarding penalty points he/she holds up a yellow and a red card together.
Racket	The racket may be of any size or shape but its blade must be flat and rigid and consist mainly of wood. A side of the blade used for striking the ball must be covered with either ordinary pimpled rubber, with pimples outwards having a total thickness of not more than 2.0mm, or sandwich rubber, with pimples inwards or outwards, having a total thickness of not more than 4.0mm. The surface of the covering material on a side of the blade, or of a side of the blade if it is left uncovered, must be matt, bright red on one side and black on the other. The racket covering cannot have any physical, chemical or other treatment. The covering material on a side of the blade used for striking the ball must be of a brand and type currently authorised by the ITTF.
Rally	The period during which the ball is in play.
Rank	Placing in an event, ranking lists, etc.
Ranking	The listing of players in descending order of playing strength. World ranking lists for men and women are published regularly by the ITTF.
Receiver	The player due to strike the ball second in a rally.
Referee	The official appointed to control a competition, whose decision is final on any question of rule interpretation arising during that competition. The referee is responsible also for the draw, the schedule of play and the supervision of match officials.
Results System Code (RSC)	<p>The Result System Code is a nine character code structured as follows: DDGEEPUU, where:</p> <ul style="list-style-type: none"> • DD: Discipline code • G: Gender • EEE: Event Code • P: Phase • UU: Event Unit

Term	Definition
Retired	Indicates that the player or pair was unable to complete the match owing to illness or injury.
Return	The ball shall be struck so that it touches the opponent's court either directly or after touching the net assembly.
Round	A set of matches played in one phase of an event.
Round designation	The standard ITTF terminology for the identification of each phase of competition. The round designations used for the Olympic Games are:
	For singles:
	<ul style="list-style-type: none"> • Preliminary round • Initial rounds: <ul style="list-style-type: none"> • Round 1, Round 2, Round 3 • Final rounds: <ul style="list-style-type: none"> • Round 4 • Quarterfinals • Semifinals • Finals (bronze and gold medal matches)
	If the number of qualified players exceeds 64, a Preliminary Round will take place to trim the number of players to 64.
	For team:
	<ul style="list-style-type: none"> • Round 1 • Quarterfinals • Semifinals • Finals (bronze and gold medal team matches)
Score indicator	A device which displays the numbers of points and games won as a match progresses.
Seeding	The procedure for placing the best ranked players, and players from the same NOC, into the draw so that they do not meet until the latest possible round of an event.
Server	The player due to serve the ball in a rally.
Service	The means by which the ball is put into play.
Service law	In service, the ball must be thrown near vertically upwards from the open palm of the server's free hand so that it rises at least 16 cm. When it is falling, it must be struck so that it first touches the server's court and then the receiver's court. From the start of service until it is struck, the ball must be above the level of the playing surface and behind the server's end line. The ball must not be hidden from the receiver by any part of the body or clothing of the server or the server's doubles partner.
Session	The table tennis competition is divided into multiple sessions each day. Within each session there can be multiple "time slots", that is concurrent matches that all have the same scheduled start time. There are also draw sessions for the individual and team events.
Shakehand grip	A method of holding the racket as though "shaking hands" with it, allowing both sides of the racket to be used for striking the ball.

Term	Definition
Sidespin	Spin about a vertical axis, imparted by striking the ball with a sideways movement of the racket.
Singles	A match between two players.
Smash	A hard, flat attacking stroke.
Sport	A sport is administered by an International Federation and may be composed of one or more disciplines.
Sport Entries and Qualification (SEQ)	A service provided by the OC sports department responsible for processing and managing the entries received from the NOCs, according to the guidelines of the Olympic Charter and the qualification systems defined by the International Federations, which are approved by the IOC.
Stroke Counter	The official appointed to count return strokes when the expedite system is in operation.
Strokes	The number of times both players strike the ball in a rally. This should include the last strike by a player even if it is not a good return.
Table	The table is rectangular, 2.74m long and 1.525m wide, with its upper surface 76cm above the floor.
Team	A team consists of three players who play in a team match.
Team order	Drawn order of the teams for each team match. The first team ("Team order = 1") uses "A/B/C" to designate its team sequence, and the second team ("Team order = 2") uses "X/Y/Z".
Team match	A team match is a meeting between two opposing teams. In Olympic competition, a team match consists of the best of five matches (singles and doubles) in which each match consists of the best of five games.
Team match duration	See "Duration".
Team sequence	The designation of which team players play in singles match 1, singles match 2 and the doubles match of a team match.
Technical Delegate (TD)	The Technical Delegate is appointed by the International Federation to "ensure that their rules are complied with and to review and validate all technical elements of the competitions including entries, venue standards, competition schedule, pre-Olympic events as well as the conditions regarding accommodation, food and transport provided for the Technical Officials and Judges." (as per Olympic Charter)
Time-out	In addition to the intervals between games, each singles player or doubles pair is entitled to one time-out during a match. The request for a time-out is signalled by making a "T" sign with the hands, which can only be made between rallies. Play is then suspended and is resumed when the requesting player or pair is ready, or at the end of one (1) minute, whichever is sooner.
Topspin	Forward spin about a horizontal axis, imparted by striking the ball with an upward movement of the racket.

Term	Definition
Toss	The procedure whereby a coin or disc is tossed to decide which player or pair will have the choice of serving or receiving first, or of starting the match at a particular end of the table.
Towelling breaks	Players are entitled to brief breaks for towelling after every six points from the start of a game and when changing ends in the last possible game of a match.
Tripartite Commission	<p>The Tripartite commission is composed of:</p> <ul style="list-style-type: none"> • The IOC • The Association of National Olympic Committees (ANOC) • The Association of Summer Olympic International Federations (ASOIF) <p>The main objective of the Tripartite Commission is to allocate Invitation Places to a number of NOCs without or with few athletes qualified, allowing them to participate in the Olympic Games, in order to strengthen the principle of universal representation.</p>
Umpire	The official responsible for the conduct of the competition in accordance with the official ITTF rules and for maintaining discipline and order on the playing field during the competition.
Venue Results Manager (VRM)	The Venue Results Manager coordinates all stages of On Venue Results in preparation for the Games as well as during the Games (e.g. coordination with other functional areas, software testing, interaction with the International Federation, etc.)
Walkover	Indicates that the player or pair was deemed the winner of a match that was not played owing to the absence of the opposing player or pair.

2 Specifications

2.1 Participants

In the following table, several different participant types may apply to the same sport/discipline depending on the event competition format.

Participant Type	Defining Characteristics	Sports / Disciplines	Code
Individual	Individuals	<ul style="list-style-type: none">Cycling, Rowing (singles), Swimming (except relays), Triathlon, etc.	I
Group - Indivisible	Individual athlete results are not recognised as part of the group results (crew, teams, pairs, duets, etc.)	<ul style="list-style-type: none">Bobsleigh, Figure Skating (couples), Synchronised Swimming, Rowing (crew), Athletics (relays), etc.	IG

Appendix C - Rules for Data Formats and Presentation

This appendix describes data formats as they should be used in all outputs, unless other formats are specified in the description table or data matrix.

1 Table Tennis Specific Rules

Gender abbreviations	Event gender: M (men), W (women) Athlete gender: F (female), M (male)
Traditional Table Tennis event presentation order	Please see "Table Tennis References"
Schedule status options	The following schedule status options are applicable to an event or event unit: <ul style="list-style-type: none">• Unscheduled Not visible on the schedule, optional (e.g. tie breaker if applicable)• Scheduled The start time is known• Getting_Ready At time x before start - "x" is defined by Olympic Broadcasting Services (OBS)• Running In progress• Scheduled_Break Planned break (e.g. end of period)• Finished All action on the field of play is complete• Delayed Did not start as scheduled, should start in the current ticketing session• Postponed Did not start as scheduled, or has been interrupted, and the expected postponement exceeds the current ticketing session, date and start time are unknown at present• Interrupted Unplanned interruption after the start, and is expected to resume in the current ticketing session• Rescheduled The new date and start time are known• Cancelled Will not take place at these Games
Results status options	<ul style="list-style-type: none">• Start List Start list has been created• Live In progress• Intermediate Updated results at scheduled points or breaks. Results and/or ranks are subject to change.• Partial The results and ranking of the players/teams who have completed their performance are not subject to change by the results of players/teams still competing• Unconfirmed Activity on the field of play is complete but there is no results status update yet Not applicable for Table Tennis.• Unofficial Results are available but not approved• Official Results are approved

	<ul style="list-style-type: none"> • Protested The competition is no longer in progress and a protest has been lodged. Not applicable for Table Tennis.
Results marks	<ul style="list-style-type: none"> • BYE - Bye (the player advances to the next round in the absence of an assigned opponent)
Invalid Results Marks (IRM) singles events	<ul style="list-style-type: none"> • DSQ - Disqualified (from a match or from the tournament) • RET - Retired • W/O - Walkover
Invalid Results Marks (IRM) team events	<ul style="list-style-type: none"> • DSQ - Disqualified (from the tournament or from a specific team match only) • RET - Retired (from a match within a team match) • W/O - Walkover (for a match within a team match or for a team match)
IRM presentation rules	<p>Rules for presentation of results for players marked as DSQ in the final ranking (C75C):</p> <ul style="list-style-type: none"> • If a player ranked 1-5 is disqualified, he/she is not shown in the final ranking and the description "Not awarded" appears instead. <p>Rules for presentation of results for teams marked as DSQ in the final ranking (C75E):</p> <ul style="list-style-type: none"> • Teams marked as DSQ are shown at the bottom with no rank (blank) and "DSQ" to the right of the NOC code. • For quarterfinal losers the description "Not awarded" also appears in the ranking • For the final round, medals are re-awarded and the description "Not awarded" also appears in the ranking • If more than one team is marked as DSQ they should be sorted by NOC code.
Final ranking singles events	<p>After the completion of a singles' event, the top eight players are ranked as follows:</p> <ul style="list-style-type: none"> • Medal match participants are ranked 1st - 4th • The losers of the quarterfinals are ranked 5th <p>Players sharing the same rank are sorted by family name, given name.</p>
Final ranking team events	<p>After the completion of the team event, the teams are ranked as follows:</p> <ul style="list-style-type: none"> • Medal match participants are ranked 1st - 4th • The losers of the quarterfinals are ranked 5th • The losers of round 1 are ranked 9th <p>Teams sharing the same rank are sorted by NOC code.</p>
General rules for formats	<p>"#" Digit placeholder, suppression of leading zeros "#" should be replaced with the corresponding non-zero digit if one is present; otherwise, no digit appears.</p> <p>"0" Zero placeholder "0" should be replaced with the corresponding digit if one is present; otherwise the leading zero remains.</p> <p>E.g. 004.23 in the format ##0.00 becomes 4.23 E.g. 004.23 in the format 00.00 becomes 04.23</p>

Height/Weight formats	Height (metric): ##0	Height (imperial): 0'##0"	Weight (metric): ##0	Weight (imperial): ##0
If metric and imperial units are used in a single field, the rule is to separate them by a forward slash with a space before and after it " / ". If they are combined, they should be presented as "centred".				
Match/Game Duration	HhMMmin (for team matches and matches) MMmin (for games) (Always rounded up, not truncated)			
Presentation of ties	Results <ul style="list-style-type: none"> • The primary rank (first column) must show a rank (if tied, repeat rank) • Secondary rank(s), if any will be repeated, with an "=" sign if there is sufficient space. 			

2 General Rules

Output description	Gives a short explanation of the output, describing information that is provided
Source	Information identifying the source of data, i.e. which organisational part of which body is responsible for providing it, for example: IOC, ITTF, OC Press Operations, OC Competition Management, etc.
Column data alignment	General: right for numeric and results, left for text. IRMs are aligned as for results. May be adjusted depending on the output layout.
Column titles	Column titles match the alignment of the data columns
Date formats	<p>dd MMM yyyy (e.g. 6 APR 1896)</p> <ul style="list-style-type: none"> • dd: date format, for example: 23 or 5 (presented without leading zero) • Ddd: day of week in abbreviation format - presented as three characters, for example: Mon for Monday (mixed case) • DDD: day of week in abbreviation format - presented as three characters, for example: MON for Monday (upper case) • Mmm: month in abbreviation format - mixed case, for example: Apr for April • MMM: month in abbreviation format - upper case, for example: APR for April • yyyy: year format, for example: 1896 <p>The "As of date" may reflect one of the following:</p> <ul style="list-style-type: none"> • Date when data has been collected (e.g. world ranking) • Date and time when the actual output was updated (several editions of the same output, e.g. cumulative statistics) • Logical date if applicable <p>Logical date: If a session continues past midnight (00:00), any outputs produced will be considered as having the logical date on which the session began (e.g. for a session which began at 21:00 on Apr 8 and ended at 1:20 on Apr 9, the output would be dated Apr 8)</p> <p>This date is according to the local time zone at the competition venue.</p>
Page break	<p>Page break applies only for printed outputs.</p> <p>When the complete output fits on a single page, "None, aim for a single page" is written</p> <p>For multi-page outputs, there are three cases:</p> <ul style="list-style-type: none"> • 1. Natural page break: • This should be considered as printing without page break. When printing reaches the end of a page a page break will occur and the output will continue printing on the next page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: • Not controlled with repeated output headings and column headings • Not controlled with repeated column headings only • Not controlled without repeated output headings and/or column headings

	<ul style="list-style-type: none"> • 2. Forced page break by "Group": • This should be considered as printing with a page break. Before printing each group on a page the print software must decide if the complete group will fit on that page. If the group will not fit a page break will be forced. The group will then be printed on a new page. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: <ul style="list-style-type: none"> • Break at "Group" with repeated output headings and column headings • Break at "Group" with repeated column headings only • Break at "Group" without repeated output headings and/or column headings • A "Group" is a logical group of data e.g. NOC/team/relay/rider/paragraph, etc. (e.g. a team with seven members. The result is that each page will contain as many complete teams as can fit on the page). • 3. Forced page break by "Condition": • This should be considered as printing with a page break after a particular condition is reached. When the condition is reached a page break will be forced. The process will repeat when each of the condition(s) is reached. There are three ways in which the headings on subsequent pages will be dealt with. The following texts are used to describe these options in the description table: <ul style="list-style-type: none"> • Break at "Condition" with repeated output headings and column headings • Break at "Condition" with repeated column headings only • Break at "Condition" without repeated report output headings and/or column headings • A "Condition" may be any trigger e.g. a new NOC/team/gender/athlete/class of officials, etc. (i.e. each time a new NOC is reached a page break is forced. The result is that each NOC is printed on a separate page). <p>A combination of the above three cases is possible within a single output.</p>
Legend	<p>The description table defines if a legend is required on an output:</p> <p>"None" is specified if no abbreviations are used in the output</p> <p>If one or more abbreviations may be used in the output the legend will be used to describe them. The following rules apply:</p> <ul style="list-style-type: none"> • Only those abbreviations which appear in a version of the output are shown in the legend (dynamic legend) • If the sample shows all possible abbreviations, "See sample for all possible abbreviations" is specified in the description table • If there are more abbreviations possible than shown in the sample, "Use the following description for abbreviations which appear in the output" is specified in the description table and all possible abbreviations and descriptions are listed • The location of the legend is defined either as "To be displayed at the bottom/top of each page" or "To be displayed at the bottom/top of the last page only"
Notes	<p>Guidelines for any "Note" planned where users will find an explanation of data in the output, reasons for some action related to that output, etc.</p> <p>Each output could contain up to three different types of "Notes":</p> <ol style="list-style-type: none"> 1. Note with static text: <ul style="list-style-type: none"> • If "Note with static text" is not planned, allowed or possible, "None" is written • If text of "Note with static text" is always the same and already presented in the sample, "See sample" is indicated

	<p>2. Note with predefined, but changeable text:</p> <ul style="list-style-type: none"> • If "Note with predefined text" is not planned, allowed or possible, "None" is written • If text of "Note with predefined text" can vary depending on certain conditions, they are listed here, together with text to be used for each condition <p>3. Note with free text:</p> <ul style="list-style-type: none"> • Up to two lines of free text will be reserved at the bottom of the last page of each output in order to provide explanations or other annotations concerning the content of the output
Comments	This section is used for any further explanations and comments on the output, or suggestions to output provider(s). If no comments are needed, "None" is written.

Appendix D - Supporting Documents

This appendix includes the following supporting documents:

- Templates for the output "Official Communication" (C67)
- Results, Medals and Diplomas
- Data to be Captured

1 Templates for Official Communication

In order to support OC Technology as much as possible and to guarantee a smooth process and appropriate wording, a collection of possible templates to be used during the Games is useful. The most common templates are included in this chapter and should be stored in the OC Technology system well before the Games.

The Official Communication template should include the following fields:

Event	Affected event name (see "Table Tennis References" for list of events)
Gender	Event gender indication (men, women), if applicable
Phase	Affected stage of competition (e.g. round 1, quarterfinals, etc.), if applicable
Unit	Specification of the phase (e.g. match 1, etc.), if applicable
Subtitle	One line space for describing the reason for the Official Communication
Heading	One line space for describing the topic
Summary	Multiple lines for the body of the Official Communication. Only non-formatted text can be included here (no graphics, no tables, etc.)
Details	Multiple lines for describing details. Here, formatted text (font size, style, colour, graphics, tables, etc.) can be included. This field is not mandatory.
Issued by	Initiator's (name and) function
Date	Date of decision as provided by the person issuing the Official Communication
Time	Time of decision as provided by the person issuing the Official Communication
Note	If needed, contact details for further information can be added here (as a Note)
Signature	Signature of the initiator, needed in order to release the Official Communication

Affects Results:

Affects Schedules:

Affects Others:

Please note for the row "Details": At the moment of creating the templates for the most common situations, it is almost impossible to add appropriate details. If needed, the details should be communicated to OC Technology at the same time as all other details for the Official Communication.

2 Results, Medals and Diplomas

2.1 General

The Olympic Charter states that International Federations have the responsibility "to establish the final results and ranking of Olympic competitions."

Medals and diplomas will be allocated based upon these final results. Should any changes occur affecting medallists and/or diploma recipients, the IOC will decide on the new medal and diploma allocation.

2.2 Expected Number of Medals and Diplomas
